451 *Undistributed net realized earnings.* This is a credit balance account and represents the cumulative balance of periodic net investment income including realized gain (loss) on securities sold, less dividend distributions whether cash, stock or dividends in kind. Non-cash gains on sale of securities are included in account No. 450.

Debit:

(a) At the end of the fiscal year, with any debit balance in account No. 460 reflected in the profit and loss summary account, and/or the realized gain and loss summary account, No. 461.

(b) With amount of dividends, other than stock dividends, declared payable out of undistributed net realized earnings by the company's Board of Directors.

(c) With amount of stock dividends, at a per share value representing the higher of fair value existing at the time that the dividend is declared, which are declared by the company's Board of Directors and paid out of undistributed net realized earnings.

(d) With appropriate amount of loss on treasury stock sold which was acquired through purchase, representing the excess of such loss over the total of credits residing in paid-in surplus, account No. 420, relating to previous gains on treasury stock sold or retirement of capital stock at amounts less than the amounts previously paid in with respect thereto.

(e) With appropriate amount paid by the company in excess of par plus initial premium received on the type and class of shares of capital stock retired.

Credit:

(a) At the end of the fiscal year, with the credit balances of the profit and loss summary account, No. 460 and the realized gain and loss summary account, No. 461.

(See accounts Nos. 450, 460, 461, and 462.)

460 *Profit and loss summary*. This account will be used as a clearing account through which all income and expense accounts on the books of the company will be closed.

Debit:

(a) At the end of the fiscal year, with the debit balances of all expense and income accounts.

(b) At the end of the fiscal year, with the credit balance of the account (transfer to undistributed net realized earnings—account No. 451).

Credit:

(a) At the end of the fiscal year, with the credit balances of all income and expense accounts.

(b) At the end of the fiscal year, with the debit balance of the account (transfer to undistributed net realized earnings—account No. 451).

(See account No. 451.)

461 *Realized gain and loss summary—in cash*. This account will be used as a clearing account through which all accounts for realized gains and losses on investments on the books of the company will be closed.

Debit:

(a) At the end of the fiscal year, with the balances of all accounts for losses on investments.

(b) At the end of the fiscal year, with the credit balance of the account (transfer to retained earnings).

Credit:

(a) At the end of the fiscal year, with the balances of all accounts for gains on investments.

(b) At the end of the fiscal year, with the debit balance of the account (transfer to retained earnings).

(See account No. 451.)

462 *Non-cash realized gain summary*. This account will be used as a clearing account through which all accounts for non-cash realized gains on investments on the books of the company will be closed.

Debit:

(a) At the end of the fiscal year, with the credit balance of the account (transfer to non-cash gains on sale of securities)—account No. 450.

Credit:

(a) At the end of the fiscal year, with the amounts of non-cash gains on investments sold during the period and recognized in accounts 572 through 579.

(See accounts Nos. 450 and 461.)

INCOME ACCOUNTS

500 *Commitment income*. This account will represent the amount of income earned on commitments to small business concerns for loans and equity securities. This account, on the books of the "participating" company, will include the amount of commitment income on deferred participations.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of income earned on commitments and deferred participations.

NOTE 1: A deferred participation is defined as a commitment under a participation agreement whereby the "participating" company will make funds available on a deferred basis to the "initiating" company in connection with the latter's financing of, or commitment to finance, a small business concern, or in connection with an "initiating" small business investment company's acquisition of loans or equity securities from other such companies.

NOTE 2: Recording as income in this account of accrued commitment fees receivable should be discontinued with respect to any small business concern which is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. The amounts in question should be credited as deferred income in account No. 382—Other deferred credits, pending determination of the appropriate accounting. In less serious situations, when the small business concern or the fair value of its debt or equity instrument held by the company, as determined by the Board of Directors, is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible notes and accounts receivable should be made in an amount equivalent to the accrued commitment fees taken into income in this account, or, as an alternative, the commitment income should be deferred in account No. 383 as above indicated.

(See accounts Nos. 141 and 142.)

510 *Interest on invested idle funds*. This account will represent the amount of interest earned on (1) time certificates of deposit in banks which are members of the Federal Deposit Insurance Corporation, (2) U.S. Government obligations, direct and fully guaranteed, owned by the company, and (3) funds of the company in insured savings accounts in institutions the accounts of which are insured by the Federal Savings and Loan Insurance Corporation.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of interest earned on invested idle funds.

(See accounts Nos. 130 through 137, 143, and 144.)

512 *Interest on loans*. This account will represent the amount of interest earned on loans to small business concerns.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of interest earned on loans outstanding to small business concerns.

NOTE: Accrual of interest receivable should be discontinued with respect to any loan to a small business concern which is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. Any interest payments received from such a debtor should not be credited to this account as interest income, but should be either credited as payments on principal of the debt or credited as deferred income in account No. 383—Other deferred credits, pending determination of the appropriate accounting. In less serious situations, when interest receivable is accrued under circumstances in which the financed small business concern is in default to the licensee, or the fair value of the loan as determined in good faith by the Board of Directors is less than cost or recovery thereon is doubtful, an addition to the allowance for uncollectible interest receivable should be made in an amount equivalent to the accrued interest receivable taken into income in this account, or, as an alternative, the interest income should be deferred in account No. 383 as above indicated.

(See accounts Nos. 143, 144, 170, and 173.)

516 *Interest on debt securities*. This account will represent the amount of interest earned on debt securities of small business concerns owned by the company pursuant to section 304 of the Small Business Investment Act of 1958, as amended.

Debit:

(a) At the end of the fiscal year with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of interest earned on debt securities owned.

NOTE: Accrual of interest receivable should be discontinued with respect to any debt security of a small business concern which is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. Any interest payments received from such a debtor should not be credited to this account as interest income, but should be either credited as payments on principal of the debt or credited as deferred income in account No. 383—Other deferred credits, pending determination of the appropriate accounting. In less serious situations, when interest receivable is accrued under circumstances in which the financed small business concern is in default to the licensee, or the fair value of the debt security as determined in good faith by the Board of Directors is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible interest receivable should be made in an amount equivalent to the accrued interest receivable taken into income in this account, or, as an alternative, the interest income should be deferred in account No. 383 as above indicated.

(See accounts Nos. 143, 144, 180, 184, and 188.)

520 *Interest income—other*. This account will represent the amount of interest earned on miscellaneous notes receivable, funds in escrow, and interest-bearing receivables not otherwise classified.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of interest earned on such receivables.

(See accounts Nos. 140, 143, and 257.)

532 *Management service fees*. This account will represent the amount of fees charged for management services rendered to small business concerns and other small business investment companies pursuant to section 107.601 of the Small Business Administration Rules and Regulations.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of such fees charged.

NOTE: Recording as income in this account of accrued management service fees receivable should be discontinued with respect to any small business concern which is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. The amounts in question should be credited as deferred income in account No. 383—Other deferred credits, pending determination of the appropriate accounting. In less serious situations, when the fair value of the financed concern's debt or equity instruments held by the company, as determined by the Board of Directors, is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible notes and accounts receivable should be made in an amount equivalent to the accrued management consulting service fees taken into income in this account, or, as an alternative, the management consulting service income should be deferred in account No. 383 as above indicated.

(See accounts Nos. 140, 141, and 142.)

534 *Investigation and service fees charged other lenders*. This account will represent the amount of fees charged for investigation and services rendered to banks or other lenders or investors, pursuant to section 308(a) of the Small Business Investment Act of 1958, as amended. The account will include compensation for financial services rendered in connection with participation sold.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of such fees charged.

(See accounts Nos. 140, 141, and 142.)

536 *Application and appraisal fees*. This account will represent the amount of fees charged for application, appraisal, investigation, and related services rendered to small business concerns.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of such fees charged.

(See accounts Nos. 173 and 188 and "Note" of accounts Nos. 140, 141, and 532.)

540 *Dividends on capital stock of SBCs*. This account will represent the amount of income from dividends on capital stock of small business concerns.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of income from such dividends.

(See account No. 145.)

541 *Sharings in income or revenue of SBCs*. This account will represent the amount of sharings or participations in the income or revenue of small business concerns which the company has financed by means of loans or debt securities, as well as income from equity interest in unincorporated concerns.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of such sharings.

(See accounts Nos. 140, 141, and 145.)

570 *Gain on U.S. Government securities*. This account will represent the amount of gain on the sale or other disposition of U.S. Government obligations, direct and fully guaranteed, carried in account No. 130

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461 or 462).

Credit:

(a) With amount of gain on such securities sold or disposed of otherwise.

NOTE: Increase in value over cost of United States Treasury bills, which are issued at a discount and are noninterest bearing, will not be reflected in this account but will be credited to account No. 510—Interest on invested idle funds, with concurrent debit to account No. 143—Accrued interest receivable.

572 *Gain on debt securities*. This account will represent the amount of gain on the sale or other disposition of debt securities of small business concerns carried in accounts Nos. 180 and 184, and will include recoveries on debt security losses previously charged to the loss account.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461 or 462).

Credit:

(a) With amount of gain on such debt securities sold or disposed of otherwise.

(b) With amount collected on portions of debt securities previously charged to the loss account.

(See accounts Nos. 383 and 702.)

574 *Gain on capital stock of SBCs*. This account will represent the amount of gain on the sale or other disposition of capital stock of small business concerns carried in accounts Nos. 190 and 191, and will include recoveries on capital stock losses previously charged to the loss account.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461 or 462).

Credit:

(a) With amount of gain on such capital stock sold or disposed of otherwise.

(b) With amount realized on capital stock of SBCs previously charged to the loss account.

(See accounts Nos. 383 and 705.)

576 *Gain on equity interests of unincorporated concerns*. This account will represent the amount of gain on the sale or other disposition of equity interests of unincorporated concerns carried in account 194 and will include recoveries of losses on equity interests of unincorporated concerns previously charged to the loss account.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461 or 462).

Credit:

(a) With amount of gain on such equity interests sold or disposed of otherwise.

(b) With amount realized on equity interests previously charged to the loss account.

(See accounts Nos. 383 and 706.)

577 *Gain on warrants, options, and other stock rights acquired from SBCs*. This account will represent the amount of gain on the sale or other disposition of warrants, options, and other stock rights acquired from SBCs, and will include recoveries on stock rights losses previously charged to the loss account.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461 or 462).

Credit:

(a) With amount of gain on such warrants, options, and other stock rights acquired from SBCs sold or disposed of otherwise.

(b) With amount realized on warrants, options, and other stock rights previously charged to the loss account.

(See accounts Nos. 197, 383, 707, and memorandum record No. NA–10.)

578 *Gain on assets acquired in liquidation of portfolio securities*. This account will represent the amount of gain on the sale or other disposition of assets acquired in liquidation of portfolio securities of small business concerns carried in accounts Nos. 200, 201, 204, and 207, and will include recoveries on losses on assets acquired in liquidation previously charged to the loss account.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461 or 462).

Credit:

(a) With amount of gain on such assets acquired in liquidation of portfolio securities sold or disposed of otherwise.

(b) With amount realized on assets acquired in liquidation of portfolio securities previously charged to the loss account.

(See accounts Nos. 383 and 708.)

579 *Gain on other assets*. This account will represent the amount of gain on the sale or other disposition of assets not specifically provided for in other accounts, and will include recoveries on losses on other assets previously charged to the loss account.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461 or 462).

Credit:

(a) With amount of gain on such assets sold or disposed of otherwise.

(b) With amount realized on other assets previously charged to the loss account.

(See accounts Nos. 210, 211, 383, and 709.)

582 *Income from assets acquired in liquidation of portfolio securities*. This account will represent the amount of income earned on assets acquired in liquidation of portfolio securities, including the operation of properties, carried in accounts Nos. 200, 204, and 207.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of such income earned.

NOTE: In instances when a liquidating agent is employed to supervise the disposition of the assets, appropriate subsidiary accounts should be maintained by the agent. Cash collected from the sale of assets by the liquidating agent should be remitted immediately to the company. The company should maintain a local depository bank account, in which all receipts of the agent are deposited when direct remittances to the company are not feasible. Deposit balances in this account should be subject to withdrawal by check only by the company and should be reflected on the company's records in the same manner as other bank accounts.

Any advances to a liquidating agent for expenses incident to the operation or the disposition of assets acquired in the liquidation of portfolio securities should be charged to account No. 220—Prepaid expenses.

584 *Other income*. This account will represent the income earned not specifically provided for in other accounts.

Debit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

Credit:

(a) With amount of such income earned.

EXPENSE ACCOUNTS

600 *Commitment expense*. This account will represent the amount of commitment

V 39 107 JUN 3 74 XUM

expense on commitments from lending institutions.

On the books of the "initiating" company, this account also will include the amount of commitment expense on deferred participations.

Debit:

(a) With amount of expense incurred on commitments and deferred participations.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

NOTE: A deferred participation is defined as a commitment under a particiaption agreement whereby the "particiapting" company will make funds available on a deferred basis to the "initiating" company in connection with the latter's financing of, or commitment to finance, a small business concern, or in connection with an "initiating" small business investment company's acquisition of loans or equity securities from other such companies.

(See account No. 340.)

610 *Interest on obligations payable to SBA*. This account will represent the amount of interest expense accrued on obligations payable to the Small Business Administration for funds borrowed.

Debit:

(a) With amount of such interest accrued.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

(See accounts Nos. 300, 301, and 350.)

622 *Interest on obligations payable to other than SBA*. This account will represent the amount of interest expense accrued on obligations payable to other than the Small Business Administration for funds borrowed.

Debit:

(a) With amount of such interest accrued.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

(See accounts Nos. 310, 311, 312, 313, 320, and 350.)

642 *Stock record and other financial expenses*. This account will represent the amount of charges to the company by the transfer agent and the registrar for services rendered in connection with the issuance and transfer of the company's capital stock, and will include other financial expenses not provided for elsewhere.

Debit:

(a) With amount of such expenses incurred.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

(See account No. 340.)

650–679 *Operating expenses*. The accounts under this caption will represent the amounts of operating expenses incurred.

Debit appropriate account:

(a) With amount of operating expenses incurred.

Credit appropriate account:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

650 *Advertising and promotional costs*. This account will represent the cost of advertising and promoting the company's services, including the cost of entertaining prospective borrowers and clients.

651 *Appraisal and investigation costs*. This account will represent the amount of charges made by outside firms and individuals for appraisal, investigation, and related services rendered to the company.

652 *Auditing and examination costs*. This account will represent the amount of charges for auditing, examination, and bookkeeping services rendered by accountants not on the company's payroll, and charges for services rendered by SBA examiners.

653 *Communications*. This account will represent telephone, telegraph, and postage expense.

654 *Cost of space occupied*. This account will represent the cost of space occupied such as rent, alterations, light, heat, power, janitor service, maintenance and repair expense on buildings, furniture, and equipment (other than automobiles), etc.

655 *Depreciation of corporate premises owned, furniture, and equipment*. This account will represent the amount of provision applicable to the fiscal year for depreciation of the buildings and other depreciable improvements of corporate premises owned and used as the company's office quarters. The account also will include the amount of provision applicable to the fiscal year for depreciation of furniture and equipment (other than automobiles) owned by the company.

656 *Amortization of leasehold improvements*. This account will represent the amortization of leasehold improvements.

657 *Directors' and stockholders' meetings costs*. This account will represent directors' fees and travel expense for attendance at directors' and stockholders' meetings. The account also will include the cost of holding stockholders' meetings, such as rental of the meeting hall and related expenses.

658 *Insurance*. This account will represent fire, theft, employee group life insurance, and other insurance expense, including fidelity bond, premiums and insurance on automobiles. The portion, if any, of employee group life insurance premiums withheld from salaries or received from employees will be reflected in account No. 378. Insurance premiums to be amortized will be charged to account No. 220.

659 *Management services fees*. This account will represent the amount of charges made by outside firms or individuals for management services provided to licensee pursuant to management agreement approved by SBA.

660 *Investment adviser costs*. This account will represent the amount of charges made by outside firms and individuals for furnishing consultation and advice to the company with respect to the desirability of investing in, purchasing, or selling loans, debt securities, and capital stock of small business concerns and other property.

661 *Legal services*. This account will represent the cost of legal services rendered to the company.

663 *Salaries*. This account will include the balances in subaccounts Nos. 663.1 and 663.2.

663.1 *Salaries of officers*. This account will represent the salary cost of all officers of the company, including directors' salaries, if any, but not directors' fees for attendance at meetings.

663.2 *Salaries of employees*. This account will represent the salary cost of all employees other than officers, including salaries of any temporary or part-time employees engaged for specific assignments.

664 *Taxes, excluding income taxes*. This account will represent the cost of all taxes, including those on corporate premises owned, motor vehicle, and personal property, social security taxes (company's portion), and other taxes charged to the company, exclusive of income taxes.

665 *Travel*. This account will represent all travel expense, including transportation charges, automobile maintenance, operating expense, and depreciation expense, meals, lodging, telephone, telegraph, and other company costs incurred by officers and employees while in a travel status.

670 *Employee benefits expense*. This account will represent the cost assumed by the company in contributing to funds providing for employee retirement benefits and other types of employee benefits, except group life insurance. The portion, if any, of the cost of employee benefits withheld from salaries or received from employees will be reflected in account No. 378.

672 *Amortization of organization expense*. This account will represent the amount of legal fees, promotional expense, stock certificate costs, incorporation fees, taxes, and other related costs incurred in organizing the company, which are charged to expense (this account) as incurred or are transferred to this account periodically through the amortization of organization costs established as an asset in account No. 256.

679 *Miscellaneous operating expenses*. This account will represent the amount of operating expenses not specifically provided for in other accounts. There will be included expenses incurred in connection with dues, subscriptions, donations, and similar items; charges made to the company for custodial or safekeeping services in connection with its portfolio securities; and bank service charges, exchange on checks, protest fees, etc., and the cost of office supplies such as stationery, accounting forms, binders, pencils, etc.

680 *Estimated losses on receivables*. This account will represent the amount of estimated losses applicable to the fiscal year on notes and accounts receivable, and interest receivable.

Debit:

(a) With amount of such estimated losses incurred.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary).

700 *Loss on U.S. Government securities*. This account will represent the amount of loss on the sale or other disposition of United States Government obligations, direct and fully guaranteed, carried in accounts Nos. 130–135.

Debit:

(a) With amount of loss on such securities sold or disposed of otherwise.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 460 or 462).

(See account No. 570.)

702 *Loss on debt securities*. This account will represent the amount of loss on the sale or other disposition of debt securities of small business concerns carried in accounts Nos. 180 and 184.

Debit:

(a) With amount of loss on such debt securities written down or sold or disposed of otherwise.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to realized gain and loss summary—account No. 461).

(See account No. 572.)

705 *Loss on Capital stock of SBCs*. This account will represent the amount of loss on sale or other disposition of capital stock of small business concerns carried in accounts Nos. 190 and 191.

Debit:

(a) With amount of loss on such capital stock written down or sold or disposed of otherwise.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461).

(See account No. 574.)

706 *Loss on equity interest of unincorporated concern*. This account will represent the amount of loss resulting from sale or other disposition of equity interests of unincorporated concerns carried in account No. 194.

Debit:

(a) With amount of loss on such equity interests sold, written off, or disposed of otherwise.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461).

(See account No. 576.)

707 *Loss on warrants, options, and other stock rights acquired from SBCs*. This account will represent the amount of loss on the sale or other disposition of warrants, options, and other stock rights acquired from SBCs.

Debit:

(a) With amount of loss on such warrants, options, and other stock rights written down or sold or disposed of otherwise.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461).

(See accounts Nos. 197, 577, and memorandum record No. NA–10.)

708 *Loss on assets acquired in liquidation of portfolio securities*. This account will represent the amount of loss on the sale or other disposition of assets acquired in liquidation of protfolio securities of small business concerns carried in account No. 200, 204, and 207.

Debit:

(a) With amount of loss on such assets written down or sold or disposed of otherwise.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461).

(See account No. 578.)

709 *Loss on other assets*. This account will represent the amount of loss on the sale or other disposition of assets not specifically provided for in other accounts.

Debit:

(a) With amount of loss on such assets sold or disposed of otherwise.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to account 461).

(See account No. 579.)

710 *Expense on assets acquired in liquidation of portfolio securities*. This account will represent the amount of expense incurred on assets acquired in liquidation of portfolio securities, including the operation and depreciation of properties, carried in account No. 204 (if an unincorporated SBC) or account No. 207. The account also will include the amount of interest expense accrued on mortgages payable on assets acquired in liquidation of portfolio securities.

Debit:

(a) With amount of such expense incurred.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary—account No. 460).

NOTE: In instances when a liquidating agent is employed to supervise the disposition of the assets, appropriate subsidiary accounts should be maintained by the agent.

Cash collected from the sale of assets by the liquidating agent should be remitted immediately to the company. The company should maintain a local depository bank account, in which all receipts of the agent are deposited when direct remittances to the company are not feasible. Deposit balances in this account should be subject to withdrawal by check only by the company and should be reflected on the company's records in the same manner as other bank accounts.

Any advances to a liquidating agent for expenses incident to the operation of or in the disposition of assets acquired in the liquidation of loans and debt securities should be charged to account No. 220—Prepaid expenses and deferred charges.

715 *Other expenses*. This account will represent the amount of nonoperating expenses not specifically provided for in other accounts, including, on the books of the "participating" company, the amount of compensation expense for financial services received from "initiating" companies in connection with participations purchased.

Debit:

(a) With amount of such expenses incurred.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary—account No. 460).

(See account No. 340.)

720 *Income taxes—net income*. This account will include the balances in subaccounts Nos. 720.1, 720.2, 720.3, etc.

720.1 *Federal income taxes—net income*. This account will represent the amount of Federal income taxes applicable to net income for the current fiscal year.

Debit:

(a) With amount of such taxes accrued.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary—account No. 460).

720.2 *State income taxes—net income*. This account will represent the amount of State income taxes applicable to net income for the current fiscal year.

Debit:

(a) With amount of such taxes accrued.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to profit and loss summary—account No. 460).

(See subaccounts Nos. 354.1 and 354.2.)

722 *Income taxes—net realized gain on investments*. This account will include the balances in subaccounts Nos. 722.1, 722.2, 722.3, etc.

722.1 *Federal income taxes—net realized gain on investments*. This account will represent the amount of Federal income taxes applicable to net realized gain on investments for the current fiscal year.

Debit:

(a) With amount of such taxes accrued.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to realized gain and loss summary account No. 461 or 462).

(See subaccount No. 354.1.)

722.2 *State income taxes—net realized gain on investments*. This account will represent the amount of State income taxes applicable to net realized gain on investments for the current fiscal year.

Debit:

(a) With amount of such taxes accrued.

Credit:

(a) At the end of the fiscal year, with the balance of account (transfer to realized gain and loss summary account No. 461 or 462).

(See subaccount No. 354.2.)

MEMORANDUM RECORDS

Nominal assets

NA–10 *Stock purchase warrants or options on stock of SBCs*. This record will show the company's ownership of detachable stock purchase warrants or options on stock of SBCs, retained after the accompanying financing instruments have been disposed of, for which no consideration was given distinct from that surrendered for such financing instruments and for which no separate cost has otherwise been determined.

Each such detachable stock purchase warrant or option certificate should be entered in this record, upon detachment, at a nominal value of one dollar ($1.00). Upon sale of such a detached stock purchase warrant or option, upon exercise or expiration of rights conveyed by such a detached stock purchase warrant or option, or upon the determination of a cost to be recorded for such a detached stock purchase warrant or option, the entry establishing such certificate in the memorandum records is to be discharged through an equivalent credit.

Debit:

(a) With nominal value of such detachable stock purchase warrants or options upon their detachment from capital stock certificates or debt securities.

Credit:

(a) With nominal value of such detached stock purchase warrants or options upon exerice or expiration of rights conveyed by such warrant or option certificates.

(b) With nominal value of such detached stock purchase warrants or options sold or disposed of otherwise.

(c) With nominal value of such detached stock purchase warrants or options for which a separate cost has been established.

(See accounts Nos. 180, 190, and 197.)

Contingent liabilities

CL–15 *Commitments outstanding*. This record will show the amount of financing commitments made and outstanding to small business concerns, including commitments for loans and for the acquisition of small business concerns' capital stock and debt securities. This record also will show the amount of deferred participations. A deferred participation is defined as a commitment under a participation agreement whereby the "participating" company will make funds available on a deferred basis to the "initiating" company in connection with the latter's financing of, or commitment to finance, a small business concern, or in connection with an "initiating" small business investment company's acquisition of loans or equity securities from other such companies. When funds are advanced against commitments, appropriate entry will be made in this record.

CL–16 *Guarantees outstanding*. This record will show the amount for which the company is contingently liable under guarantees issued to lending institutions in connection with obligations of portfolio concerns under notes, debentures, or other evidences of indebtedness, or short-term advances to such concerns.

CL–17 *Other contingent liabilities*. This record will show the amount of miscellaneous contingent obligations not otherwise classified.

Options on company's stock

OCS–1 *Options on company's stock*. This record will show details of outstanding options on the company's capital stock granted in lieu of salary or in payment for services actually rendered to the company. The following data will be included:

1. Identification of person or entity holding options.
2. Number of shares optioned.
3. Type and class of stock called for by options.
4. Dates of grant and of expiration of options.
5. Price or prices at which options exercisable, with dates they apply.
6. Fair market value, per share, of stock called for at date each option was granted.
7. Price of each option as percent of fair market value of optioned stock at date option was granted.
8. Provisions for termination of options in case of death or retirement of optionees, or other circumstances.
9. Details of authorization, shares reserved for, issuance, exercise, lapse, and forfeiture

V 39 107 JUN 3 74 XUM

of options provided for under the company's stock option plan.

Actual loss experience

AL-1 *Actual (realized) losses.* This record will show for each fiscal year, and also accumulatively, the amount of actual (realized) losses incurred through disposition, writedown, or writeoff of loans and investments. Losses shall be stated in total for all loans and investments and also separately for loans; debt securities; capital stock of small business concerns; warrants, options, and other stock rights of small business concerns; assets acquired in liquidation of loans and debt securities; and amounts due from debtors on sale of assets acquired in liquidation of loans and debt securities. Losses realized shall be determined in relation to cost of the assets involved without regard to the existence or nonexistence of related allowances for losses.

[FR Doc.74-12111 Filed 5-31-74;8:45 am]

Would you like to know IF ANY CHANGES HAVE BEEN MADE IN CERTAIN TITLES OF THE CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "List of CFR Sections Affected."

?

List of CFR Sections Affected

$10.00 per year

The "List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Also available on a subscription basis . . .

The Federal Register Index

$8.00 per year

Indexes covering the contents of the daily Federal Register are issued monthly and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are also carried.

A finding aid is included at the end of each publication [illegible] Register page numbers with the [illegible] publication [illegible]

Order from: Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Note to FR Subscribers: FR Indexes and the "List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

FLAG DAY AND NATIONAL FLAG WEEK, 1974—Presidential Proclamation 19767

ASSISTANCE TO EGYPT—Presidential Memorandum 19769

NATURAL CHEESES—FDA establishes flavoring standards; effective 8–5–74 19776

COAL MINE HEALTH AND SAFETY—Interior Department proposal on respiratory protective devices; comments by 7–5–74 19783

PIPELINE SAFETY—DoT amends restriction on transportation of liquefied gases; effective 7–15–74 19780

OUTER CONTINENTAL SHELF OIL AND GAS OPERATIONS—Interior Department proposal on approval procedure for pipelines; comments by 7–1–74 19788

(Continued inside)

PART II:

OVER-THE-COUNTER (OTC) DRUGS—
- FDA monograph for antacid and antiflatulent products; effective 7–5–74 19862
- FDA proposes to designate contents and time of closing of administrative record; comments by 7–5–74 19878
- FDA proposes revision of general warning statement; comments by 8–5–74 19880
- FDA notice of opportunity for hearing on proposal to withdraw approval of new drug applications; requests by 7–5–74 19882

PART III:

MANPOWER PROGRAMS—Labor Department rules on comprehensive employment and training; effective 7–5–74 19885

PART IV:

ESTUARINE SANCTUARY—Commerce Department sets guidelines for nomination, selection and management; effective 6–4–74 19921

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

EPA—Leather tanning and finishing industry point source category. 12958; 4–9–74

EPA—Plastics and synthetics point source category; effluent limitations. 12502; 4–5–74

Labor Department/OSHA—Regulations regarding unattended service stations, inspection of bulk hydrogen and oxygen systems, protection by public fire departments, and several miscellaneous amendments.... 9957; 3–15–74

register
Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

HIGHLIGHTS—Continued

MOTORCYCLE HELMETS—NHTSA amends safety standard ... 19782

MINIMUM WAGES—Labor Department changes rates for temporary foreign agricultural labor; effective 6–4–74 ... 19776

ALIENS—Justice Department proposal concerning applications for temporary withholding of deportation; comments by 6–28–74 ... 19783

NEW DRUGS—FDA proposes to withdraw approval of application ... 19799

BANK HOLDING COMPANIES—FRS clarifies deposit-taking and incidental lending activities of subsidiaries; effective 6–24–74 ... 19774

ABANDONED PATENT APPLICATIONS—Commerce Department proposal to allow public inspection; comments by 6–30–74 ... 19786

MEETINGS—
- Defense Nuclear Agency: Stemming and Closure Panel, 6–5 and 6–6–74 ... 19808
- OMB: Labor Advisory Committee on Statistics, 6–13–74 ... 19818

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4295

Flag Day and National Flag Week, 1974

By the President of the United States of America

A Proclamation

The Continental Congress met in Philadelphia on June 14, 1777, and its journal for that date, now in the National Archives, shows that its members primarily concerned themselves with routine matters. But two resolutions approved on that day were to be of great moment.

The first: "Resolved, that Captain John Paul Jones be appointed to command the said ship Ranger." It was an appointment that made naval history.

The second: "Resolved, that the flag of the thirteen United States be thirteen stripes, alternate red and white: that the union be thirteen stars, white in a blue field, representing a new constellation." This short and unadorned declaration gave birth to our flag.

The outcome of the Revolutionary War remained in doubt on that Saturday in June 197 years ago. But the simple words that created our national standard epitomized the sense of purposeful determination of the people of this land to live together in independence.

We won our independence and an enduring Union was forged. The flag that had been adopted in those uncertain days flew over a new nation. With the addition of stars, it remains our flag today and symbolizes our commitment, as a people, to freedom, equality, and independence.

To commemorate the adoption of our flag, the Congress, by a joint resolution of August 3, 1949 (63 Stat. 492), designated June 14 of each year as Flag Day and requested the President to issue annually a proclamation calling for its observance. The Congress also requested the President, by joint resolution of June 9, 1966 (80 Stat. 194), to issue annually a proclamation designating the week in which June 14 occurs as National Flag Week and to call upon all citizens of the United States to display the flag of the United States on those days.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning

V 39 108 JUN 4 74 XUM

June 9, 1974, as National Flag Week, and I direct the appropriate officials of the Government to display the flag on all Government buildings during that week. I urge all Americans to observe Flag Day, June 14, and Flag Week by flying the Stars and Stripes from their homes and other suitable places.

IN WITNESS WHEREOF, I have hereunto set my hand this thirty-first day of May, in the year of our Lord nineteen hundred and seventy-four, and of the independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

[FR Doc.74-12881 Filed 5-31-74;4:04 pm]

MEMORANDUM OF MAY 16, 1974

[Presidential Determination No. 74-20]

Security Supporting Assistance to Egypt

Memorandum for the Secretary of State and the Secretary of Agriculture

THE WHITE HOUSE, *Washington*, MAY 16, 1974.

Subject: Determinations and Authorization under Sections 614(a) and 653(a) of the Foreign Assistance Act of 1961, as amended; Finding and Determination under Sections 103(d)(3) and (4) and 410 of the Agricultural Trade Development and Assistance Act of 1954, as amended—Egypt.

I. DETERMINATION AND AUTHORIZATION UNDER THE FOREIGN ASSISTANCE ACT

Pursuant to the authority vested in me by the Foreign Assistance Act of 1961, as amended (hereinafter "the Act"), I hereby:

(a) Determine, pursuant to section 614(a) of the Act, that the use of not to exceed $730,000 of funds available in the fiscal year 1974 for security supporting assistance to Egypt in addition to funds previously made available, without regard to the requirements of the Act, is important to the security of the United States;

(b) Authorize, pursuant to section 614(a) of the Act, such use of not to exceed $730,000 as security supporting assistance to Egypt for the purpose of providing assistance in clearing the Suez Canal of wrecked ships and other debris;

(c) Determine, pursuant to section 653(a) of the Act, that it is in the security interests of the United States that Egypt receive not to exceed $730,000 in security supporting assistance in addition to funds previously made available from funds available under section 532 of the Act for the fiscal year 1974;

(d) Determine, pursuant to section 614(a) of the Act, that the use of not to exceed $3 million in United States-owned excess Egyptian pounds in furtherance of security supporting assistance to Egypt, without regard to the requirements of the Act and without regard to any law relating to receipts or credits accruing to the United States, is important to the security of the United States; and

(e) Authorize, pursuant to section 614(a) of the Act, the use of not to exceed $3 million equivalent of such excess Egyptian pounds for the purpose of defraying costs payable in local currency incurred by the United States Government in connection with clearing the Suez Canal

V 39 — 108 JUN 4 74 XUM

of mines, providing technical and advisory assistance in disposing of unexploded ordnance in the Canal and along its banks, and providing assistance in clearing the Suez Canal of wrecked ships and other debris.

II. FINDING AND DETERMINATION UNDER THE AGRICULTURAL TRADE DEVELOPMENT AND ASSISTANCE ACT

Pursuant to the authority vested in me under the Agricultural Trade Development and Assistance Act of 1954, as amended (hereinafter "the Act"), I hereby:

(a) Find, pursuant to Section 103(d)(3) of the Act, that the making of an agreement with the Government of Egypt for the sale, under title I of the Act, of tobacco in an amount not to exceed $10 million in value is in the national interest of the United States;

(b) Determine, pursuant to Section 103(d)(4) of the Act, that the sale to Egypt of tobacco in furtherance of such an agreement is in the national interest of the United States; and

(c) Determine and certify, pursuant to Section 410 of the Act and Section 620(e) of the Foreign Assistance Act of 1961, as amended, that it is important to the national interests of the United States to waive the prohibitions contained in those sections against assistance under title I of the Act for the sale to Egypt of tobacco in an amount not to exceed $10 million in value.

This determination shall be published in the FEDERAL REGISTER.

Richard Nixon

THE WHITE HOUSE, *Washington.*

STATEMENT OF REASONS THAT SALES UNDER TITLE I OF THE AGRICULTURAL TRADE DEVELOPMENT AND ASSISTANCE ACT OF 1954, AS AMENDED (PUB. L. 480) TO EGYPT ARE IN THE NATIONAL INTEREST

Egypt is central to our efforts to achieve a just and lasting peace in the Middle East. Our ultimate success will depend on Egyptian confidence in our intention to develop a broad and constructive bilateral relationship with that country. Institution of a program for concessional sales of agricultural commodities to Egypt will constitute a tangible demonstration of our intended role.

In response to current Egyptian needs, it is proposed to export to that country tobacco in the amount not to exceed $10 million in value, financed under Title I of the Agricultural Trade Development and Assistance Act of 1954, as amended (Pub. L. 480). This amount is not based on Egypt's needs for more than one fiscal year.

In order to enter into an agreement with the government of Egypt for such a sale under Title I, it is necessary that the President find, determine, and certify that such sales would be in the national interest of the United States. Section 103(d)(3) of Pub. L. 480 prohibits the sale of agricultural commodities under Title I of the Act to any nation which sells or furnishes or permits ships or aircraft under its registry to transport to or from Cuba or North Vietnam any equipment, materials, or commodities (so long as those countries are governed by Communist regimes). However, if such activities are limited to the furnishing, selling, or selling and transporting to Cuba medical supplies, non-strategic raw materials for agriculture, and non-strategic agricultural or food commodities, sales agreements may be made if the President finds they are in the national interest of the United States. Section 103(d)(4) prohibits sales of commodities under Title I to Egypt unless the President determines such sales are in the national interests of the United States. Finally, Section 410 applies to assistance under Title I of Pub. L. 480, the prohibitions contained in Section 620(e) of the Foreign Assistance Act of 1961,

as amended, relating to nationalization or expropriation of property owned by Americans; the prohibitions of Section 620(e), however, may be waived by the President if he determines and certifies that such a waiver is important to the national interests of the United States.

Although Egypt has been trading with Cuba in recent years, our information indicates that it has not traded with North Vietnam. Egyptian ships or aircraft have not called at Cuba or North Vietnam. The best information available indicates that current Egyptian trade with Cuba is limited to non-strategic agricultural commodities and medical supplies within the meaning of Section 103(d)(3).

Since 1961 Egypt has enacted agrarian reform laws and certain nationalization, sequestration, and restrictive measures with a view to extending public ownership and control of its economy. These measures adversely affected property rights and interests of Americans in Egypt and thus make Section 410 applicable to Egypt.

The considerations noted above, however, make it important to the national interest of the United States that the proposed sale be made notwithstanding the prohibitions contained in Section 103(d)(3) and (4) and Section 410 of Pub. L. 480.

V 39—108 JUN 4 74 XUM

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 640, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation increases the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period May 26 to June 1, 1974. The quantity that may be shipped is increased due to improved market conditions for California-Arizona lemons. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of lemons available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Lemon Regulation 640 (39 FR 18446). The marketing picture now indicates that there is a greater demand for lemons than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of lemons to fill the current market demand thereby making a greater quantity of lemons available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until July 5, 1974 (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* Paragraph (b)(1) of § 910.940 (Lemon Regulation 640) (39 FR 18446) is hereby amended to read as follows: "The quantity of lemons grown in California and Arizona which may be handled during the period May 26, 1974, through June 1, 1974, is hereby fixed at 315,000 cartons."

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: May 30, 1974.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–12753 Filed 6–3–74;8:45 am]

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Expenses and Rate of Assessment and Carryover of Unexpended Funds

This document authorizes expenses of $38,250 for the Avocado Administrative Committee under Marketing Order No. 915, for the 1974–75 fiscal year and fixes a rate of assessment of $0.05 per bushel of avocados handled in such period to be paid to the Committee by each first handler as his pro rata share of such expenses.

On May 3, 1974, notice of rule making was published in the FEDERAL REGISTER (39 FR 15488) inviting written comments not later than May 21, 1974, regarding proposed expenses, and the related rate of assessment for the period beginning April 1, 1974, through March 31, 1975, and carryover of unexpended funds, pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida. None were received. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Avocado Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 915.213 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses which are reasonable and likely to be incurred by the Avocado Administrative Committee during the period April 1, 1974, through March 31, 1975, will amount to $38,250.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 915.41, is fixed at $0.05 per bushel of avocados.

(c) *Reserve.* Unexpended assessment funds in the amount of approximately $19,306, which are in excess of expenses incurred during the fiscal year ending March 31, 1974, shall be carried over as a reserve in accordance with §§ 915.42 and 915.205 of said amended marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until July 5, 1974 (5 U.S.C. 553) in that (1) shipments of avocados are expected to begin on or about June 17, 1974, (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable avocados handled during the aforesaid period, and (3) such period began on April 1, 1974, and said rate of assessment will automatically apply to all such avocados beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: May 30, 1974.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–12754 Filed 6–3–74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 73—SCABIES IN CATTLE

Areas Quarantined or Released

These amendments quarantine a portion of Douglas County in Nebraska because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the area quarantined.

The amendments release a portion of Antelope County in Nebraska and a portion of Weld County in Colorado from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained

V39-108 JUN 4 74 XUM

in 9 CFR Part 73, as amended, will not apply to the excluded areas, but the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 will apply to the excluded areas. No areas in Colorado remain under quarantine.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

In § 73.1a, paragraph (b) relating to Nebraska is amended and paragraph (e) relating to the State of Colorado is deleted.

§ 73.1a Notice of quarantine.

* * * * *

(b) Notice is hereby given that cattle in certain portions of Nebraska are affected with scabies, a contagious, infectious, and communicable disease; and, therefore, the following areas in such State are hereby quarantined because of said disease.

(1) That portion of Douglas County comprised of sec. 36, T. 14–15 N., R. 9–10 E.

(2) The premises of Hammond Farms in Otoe Precinct of Otoe County, sec. 20.

* * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f) 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendments shall become effective May 30, 1974.

Insofar as the amendments impose certain further restrictions necessary to prevent the interstate spread of cattle scabies, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as the amendments relieve restrictions, they are no longer deemed necessary to prevent the spread of cattle scabies and they should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 30th day of May 1974.

J. M. HEJL,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74–12751 Filed 6–3–74;8:45 am]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Y]

PART 225—BANK HOLDING COMPANIES

By notice of proposed rule making published in the FEDERAL REGISTER on July 13, 1973 (38 FR 18691), the Board of Governors proposed to amend § 225.4(a)(4) of Regulation Y to clarify the boundaries upon deposit-taking activities that are properly incidental to trust company activities which the Board has determined to be so closely related to banking or managing or controlling banks as to be a proper incident thereto, and to provide that the kinds of activities authorized under § 225.4(a)(4) include those performed not only by trust company subsidiaries that are State-chartered, but also by any such subsidiaries that may operate as limited purpose trust companies under national bank charters and that do not both accept demand deposits and make commercial loans. After considering the comments on such proposal, the Board published a revised proposal in the FEDERAL REGISTER on October 11, 1973 (38 FR 28082) which retained the provision authorizing limited purpose trust companies to operate under either a State charter or a national bank charter and further clarified the scope of permissible deposit-taking and lending activities of such trust companies.

The Board has considered all of the material submitted on the July 13, 1973 proposal, and the October 11, 1973 proposal. After considering all relevant aspects of the proposal to amend § 225.4 (a)(4) to clarify the deposit-taking and incidental lending activities of bank holding company trust company subsidiaries, the Board has determined that the trust company activities published for comment in the October 11, 1973 proposal are activities that are closely related to banking and has decided to adopt such proposal without any modification.

Pursuant to this amendment, bank holding company trust company subsidiaries, operating under Federal or State charter, are authorized to accept deposits that are generated from trust funds not currently invested and deposits representing funds received for a special use in the capacity of a managing agent or custodian for an owner of, or investor in, real property, or as agent for an issuer of, or broker or dealer in, securities, provided that such agency or custodian accounts are not employed by or for the account of a customer in the manner of a general purpose checking account and do not bear interest. However, such trust company subsidiaries are prohibited from making loans or investments, except the sale of federal funds, the making of call loans to securities dealers or the purchase of money market instruments such as certificates of deposit, commercial paper, government or municipal securities, and bankers acceptances. Such authorized loans and investments, however, may not be used as a method of channeling funds to nonbanking affiliates of the trust company. Such limitations on the lending activities of trust company subsidiaries of bank holding companies are necessary in order to carry out the purposes of section 3(d) of the Bank Holding Company Act (12 U.S.C. 1842(d)), which limits the commercial banking business of bank holding companies to the State in which their principal banking subsidiaries operate. In order to engage in broader lending activities, it is recognized that bank holding companies may, in their home State, choose to apply for limited purpose trust companies under section 3 of the Act.

The text of the amendment to § 225.4 (a)(4) which supersedes existing § 225.4 (a)(4) reads as follows:

§ 225.4 Nonbanking activities.

(a) * * *

(4) Performing or carrying on any one or more of the functions or activities that may be performed or carried on by a trust company (including activities of a fiduciary, agency, or custodian nature), in the manner authorized by Federal or State law, so long as the institution does not make loans or investments or accept deposits other than (i) deposits that are generated from trust funds not currently invested and are properly secured to the extent required by law, or (ii) deposits representing funds received for a special use in the capacity of managing agent or custodian for an owner of, or investor in, real property, securities, or other personal property, or for such owner or investor as agent or custodian of funds held for investment or escrow agent, or for an issuer of, or broker or dealer in securities, in a capacity such as paying agent, dividend disbursing agent, or securities clearing agent, and not employed by or for the account of the customer in the manner of a general purpose checking account or bearing interest, or (iii) sale of federal funds, making of call loans to securities dealers or purchase of money market instruments such as certificates of deposit, commercial paper, government or municipal securities, and bankers acceptances (such authorized loans and investments, however, may not be used as a method of channeling funds to nonbanking affiliates of the trust company);

* * * * *

Effective date: June 24, 1974.

By order of the Board of Governors of the Federal Reserve System, May 22, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74–12712 Filed 6–3–74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74–WE–26–AD; Amdt. 39–1863]

PART 39—AIRWORTHINESS DIRECTIVES

Hiller UH–12D and UH–12E Helicopters

Amendment 261 to Regulations of the Administrator Part 507, AD 61–5–4, as amended (Airworthiness Directives issued under R.O.A. Part 507 have been incorporated into Part 39 of the Federal Aviation Regulations), requires the removal and replacement of transmission gears that do not bear certain heat treat lot numbers and accomplishment of certain subsequent period inspections. Amendment 411 to Part 507, AD 62–6–3, requires certain modifications to the transmission and lubrication system to provide additional lubrication for the transmission. Amendment 730 to Part 507, AD 64–11–2, requires the removal and replacement of certain tail rotor pinion gears that are acceptable under the provisions of AD 61–5–4. After issuing these amendments, the agency determined that the inspections required by AD 61–5–4 may be discontinued upon compliance with paragraph (d) of AD 62–6–3, and that some confusion exists among the requirements of Item 1 of AD 61–5–4 and those of AD 64–11–2. Therefore, AD 61–5–4 is being amended to delete these inspections upon compliance with paragraph (d) of AD 62–6–3 and to clarify the relationship of AD's 61–5–4, 62–6–3, and 64–11–2. The AD is reprinted in its entirety, as amended.

Since this amendment relieves a restriction and provides clarification only, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 261 to Regulations of the Administrator, Part 507, AD 61–5–4, as amended, is further amended as follows:

HILLER. Applies to Hiller Model UH–12D and UH–12E Helicopters Certificated in all Categories

Compliance required as indicated unless previously accomplished.

To minimize failures of the main transmission:

(a) Prior to next flight:

(1) Inspect the planet spur gear, bevel ring gear and tail rotor bevel gear shaft for part number and heat treat lot number.

NOTE: The heat treat lot number, if any, is etched on the parts. The 1962 series parts do not bear heat treat lot numbers.

(2) Remove any planet spur gear, Part No. 23527, that does not have one of the following lot numbers:

(i) For Model UH–12D only—35, 59, 71, 125, 171, 180, 181, 182, 185, 186, 196, 217, 245, 275, 309 and subsequent prefaced by "VHI", or any number prefaced by "HA".

(ii) For Model UH–12E only—180, 185, 186, 196, 275, 309 and subsequent prefaced by "VHI", or any number prefaced by "HA".

(3) Replace with planet spur gears Part No. 1962C171 or 23527–3, or with Part No. 23527 having one of the above heat treat lot numbers specified in subparagraph (a)(2) above.

NOTE: Part No. 23527–3 gears must not be intermixed with Part No. 1962C171 or Part No. 23527 gears in the same transmission.

(4) Remove any bevel ring gear, Part No. 23528, that does not have one of the following lot numbers—40, 40R, 277, 279, 286, 288, 293, 293A, 295, 309 and subsequent prefaced by "VHI", or any number prefaced by "HA".

(5) Replace with bevel ring gear Part No. 1962D58, 23528–5 or 23633, or with Part No. 23528 having one of the heat treat lot numbers specified in subparagraph (a)(4) above.

(6) Remove any tail rotor bevel gear shaft, Part No. 23522, that does not have one of the following lot numbers—291, 292, 309 and subsequent prefaced by "VHI", or any number prefaced by "HA".

(7) Replace with tail rotor bevel gear shaft Part No. 23634–3 or 1962D65.

NOTE: Airworthiness Directive 64–11–2 applicable to Model UH–12E helicopters further requires the replacement of all tail rotor bevel gear shafts Parts Nos. 23522 and 23634 with Part No. 23634–3 within the time period specified in that AD.

(8) For any bevel ring gear not replaced in acocrdance with subparagraph (5) above and any tail rotor bevel gear shaft not replaced in accordance with subparagraph (7) above or AD 64–11–2, inspect for proper gear tooth pattern.

NOTE: Refer to earlier transmission overhaul manual for description of acceptable pattern.

(9) Replace any bevel ring and tail rotor bevel gear shaft found to have improper gear tooth pattern in acocrdance with subparagraphs (5) and (7) above.

(b) For all Models UH–12D and UH–12E, Serial Numbers 942, 954, and 2001 through 2198, inclusive, accomplish the following prior to next flight and thereafter at intervals not to exceed 25 hours' time in service from the last inspection until modified in accordance with paragraph (d) of Airworthiness Directive 62–6–3:

(1) Remove and check the oil nozzle orifice, P/N 23607, located at lower right-hand side of main transmission for obstruction. If this nozzle is obstructed, inspect the Borg Warner clutch for evidence of lack of lubrication. If such evidence is found, replace the clutch with a serviceable clutch of the same or FAA-approved equivalent Part Number.

(2) Using a piece of 0.020-inch wire, check for obstruction in oil orifices located at forward topside of upper case, forward side of tachometer drive cover, and (if generator is installed on transmission) upper outboard side of generator drive housing. If any of these orifices are found obstructed, inspect the first stage planetary gear system for abnormal wear or overheating. If signs of such wear and/or overheating are noticed, overhaul or replace the first stage planetary system with a serviceable first stage planetary system of the same or FAA-approved equivalent Part Number.

(c) For all Model UH–12D and UH–12E Serial Nos. 942, 954 and 2001 through 2198 inclusive, accomplish the following prior to the next flight and thereafter at intervals not to exceed 10 hours' (Model UH–12D) or 25 hours' (Model UH–12E) time in service from the last inspection until modified in accordance with paragraph (d) of Airworthiness Directive 62–6–3: Remove, disassemble, and inspect the engine oil filter and transmission oil filter for the presence of metallic particles. If aluminum, bronze, or steel particles are found in either or both of these filters, inspect the first stage planetary system for abnormal wear or overheating. If signs of such wear and/or overheating are noticed, overhaul or replace the first stage planetary system with a serviceable first stage planetary system of the same or FAA-approved equivalent Part Number.

(d) Within the next 150 hours' time in service, incorporate Part Nos. 23549–3 and 23549–5 bushings and Part No. 23578 planet gear shafts in the first stage planetary gear system of Model UH–12D helicopters with main transmission Part No. 23500, 23500–3 or 23500–7.

This amendment becomes effective June 4, 1974.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on May 20, 1974.

ARVIN O. BASNIGHT,
Director,
FAA Western Region.

[Docket No. 73–CE–23–AD; Amdt. 39–1764]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Models 95–55, 95–A55, 95–B55, 95–C55, D55, D55A, E55 and E55A Airplanes

Correction

In FR Doc. 73–26991, appearing on page 35232 in the issue of Wednesday, December 26, 1973, line 5 of the applicability statement should read as follows "TE–1 through TE–199 and TC–350), air-".

Issued in Kansas City, Missouri, on May 24, 1974.

A. L. COULTER,
Director, Central Region.

[FR Doc.74–12680 Filed 6–3–74;8:45 am]

[Airspace Docket No. 74–AL–10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Colored Airways, Controlled Airspace, and Reporting Points

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to make editorial changes in the descriptions of certain airways, controlled airspace, and reporting points as a result of the conversion and renaming of the Big Delta, Alaska, low frequency four course radio range (LFR) to the Delta Junction, Alaska, nondirectional radio beacon (RBN) at its present location and the renaming of the Middleton Island, Alaska, RBN to the Wessels, Alaska, RBN.

A plan for the conversion of all LFRs to RBNs in the State of Alaska was circulated January 14, 1972, with a request for comment. All comments received were favorable. Renaming the Middleton Island RBN to Wessels RBN eliminates

V39 108 JUN 4 74 XUM

the duplication of names for navaids at this location.

Since this action simply redescribes airways, controlled airspace and reporting points with no substantive alteration to any route structure or airspace dimension, it is a minor matter in which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary. In order to provide sufficient time for changes to be made on appropriate aeronautical charts, this amendment will be made effective July 18, 1974.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 g.m.t. July 18, 1974, as hereinafter set forth.

1. § 71.105 (39 FR 305, 38 FR 34728) is amended as follows:

a. In A-2 "Big Delta, Alaska, RR; INT northwest course Big Delta RR;" is deleted and "Delta Junction, Alaska, RBN;" is substituted therefor.

b. In A-15 "Big Delta, Alaska," is deleted and "Delta Junction, Alaska, RBN;" is substituted therefor.

2. § 71.107 (39 FR 306, 10116, 15259) is amended as follows:

In R-103 "Middleton Island, Alaska, RBN." is deleted and "Wessels, Alaska, RBN." is substituted therefor.

3. § 71.109 (39 FR 306, 3670) is amended as follows:

In B-25 "Middleton Island, Alaska, RBN 296° bearing;" is deleted and "Wessels, Alaska, RBN 296° bearing;" is substituted therefor, also "Big Delta, Alaska, RR." is deleted and "Delta Junction, Alaska, RBN." is substituted therefor.

4. § 71.163 (39 FR 346) is amended as follows:

In Control 1310 "Middleton Island RBN to the Sandspit," is deleted and "Wessels, Alaska, RBN to the Sandspit," is substituted therefor, and "from the Middleton Island RBN and northwest from the Sandspit RBN," is deleted and "from the Wessels, Alaska, RBN and northwest from the Sandspit RBN," is substituted therefor, also "midway between Middleton Island and Sandspit," is deleted and "midway between Wessels and Sandspit," is substituted therefor.

5. § 71.181 (39 FR 440) is amended as follows:

In Middleton Island, Alaska "the Middleton Island RBN 011° bearing," is deleted and "the Wessels, Alaska, RBN 011° bearing," is substituted therefor.

6. § 71.211 (39 FR 632) is amended as follows:

a. "Big Delta, Alaska, RR" is deleted and "Delta Junction, Alaska, RBN" is added.

b. "Middleton Island, Alaska, RBN" is deleted and "Wessels, Alaska, RBN" is added.

c. In Porpoise INT: "INT 122° bearing Middleton Island," is deleted and "INT 122° bearing Wessels," is substituted therefor.

d. In Shrimp INT: "INT 122° bearing Middleton Island, Alaska (MDO), RBN," is deleted and "INT 122° bearing Wessels, Alaska, RBN," is substituted therefor.

7. § 71.213 (39 FR 634) is amended as follows:

In Porpoise INT: "INT 122° bearing Middleton Island, Alaska, RBN," is deleted and "INT 122° bearing Wessels, Alaska, RBN," is substituted therefor.

This amendment is made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on May 16, 1974.

Charles H. Newpol,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74-12678 Filed 6-3-74;8:45 am]

[Airspace Docket No. 74-EA-21]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Area High Route

On April 8, 1974, a Notice of Proposed Rule Making (NPRM) was published in the Federal Register (39 FR 12769) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would realign J-864R east of Front Royal, Va.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 g.m.t., August 15, 1974, as hereinafter set forth.

§ 75.400 (39 FR 718, 38 FR 24204) is amended as follows:

In J-864R "Herndon, Va., 39°01'10" N. 77°27'42" W." is deleted, and "Armel, Va., 38°56'04" N. 77°28'01" W." is substituted therefor.

This amendment is made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on May 29, 1974.

Gordon E. Kewer,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74-12677 Filed 6-3-74;8:45 am]

Title 20—Employees' Benefits

CHAPTER V—MANPOWER ADMINISTRATION, DEPARTMENT OF LABOR

PART 602—COOPERATION OF THE U.S. TRAINING AND EMPLOYMENT SERVICE AND STATES IN ESTABLISHING AND MAINTAINING A NATIONAL SYSTEM OF PUBLIC EMPLOYMENT OFFICES

Minimum Wage Rates for Temporary Foreign Agricultural Labor

On page 15307 of the Federal Register of May 2, 1974, there was published a notice of proposed rulemaking to revise the minimum wage rates at 20 CFR 602.10b (a)(1), which are applicable to the importation of aliens for certain temporary agricultural work. Interested persons were given 15 days in which to file written statements of data, views, or arguments regarding the proposed amendment. No comments were received. After consideration of all relevant matters, the amendment as so proposed is hereby adopted with one change and is set forth below.

The change is required because of a typographical error in the proposed minimum wage rate for the State of New York. For this reason the wage rate for New York is reserved in this amendment A proposed amendment setting forth the correct wage rate for New York, $2.26 per hour, is being published today.

The amendments herein reflect findings regarding changes in wage rates of U.S. workers in agricultural occupations to be used pursuant to the Secretary's responsibility in the immigration process. Full opportunity was provided for participation in the rulemaking process. Any additional advance notice of these changes would be contrary to the public interest. Accordingly, this amendment becomes effective on June 4, 1974.

§ 602.10b Wage rates.

(a)(1) Except as otherwise provided in this section the following hourly wage rates (which have been found to be the rates necessary to prevent adverse effect upon U.S. workers) shall be offered to agricultural workers in accordance with § 602.10a(j):

State:	*Rate*
Connecticut	$2.28
Maine	2.24
Massachusetts	2.25
New Hampshire	2.43
New York [Reserved]	
Rhode Island	2.21
Vermont	2.37
Virginia	2.27
West Virginia	2.25

(8 U.S.C. 1184, 8 CFR 214.2(h), 34 FR 6502)

Signed at Washington, D.C., this 30th day of May 1974.

William H. Kolberg,
Assistant Secretary for Manpower.

[FR Doc.74-12740 Filed 6-3-74;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 19—CHEESES, PROCESSED CHEESES, CHEESE FOODS, CHEESE SPREADS, AND RELATED FOODS

Spiced, Flavored Standardized Natural Cheese; Identity; Label Statement of Optional Ingredients

A proposal to establish a standard of identity for spiced, flavored standardized natural cheeses in 21 CFR Part 19 was published in the Federal Register of February 13, 1973 (38 FR 4347), based on a petition submitted by the National Cheese Institute, Inc., 110 North Franklin St., Chicago, IL 60606. The petition proposed to establish a standard of identity for natural cheeses which contain added spice, or flavoring, or both, but in other respects conform to existing natural cheese standards of identity.

Eleven consumers and one member of industry submitted comments in response to the proposal. The comments and the responses of the Commissioner of Food and Drugs are as follows:

1. Eight of the consumers were in favor of the proposal based on provisions in the proposal that required labeling which to them would distinguish a spiced and/or flavored cheese from the natural cheese variety and would at the same time allow for new and distinctive variations of historical foods.

2. Three consumers were not in favor of the proposed standard based on the issue that they would not want spices or flavors added to natural cheeses.

The Commissioner points out that natural cheeses without added spices and flavors will still be available. The labeling provisions of this standard require that cheese which has added spices or flavors be clearly identified by name so that consumers will have the choice of purchasing cheese with or without added spices and flavors.

3. The single industry comment suggested deletion of the words "by weight" from the phrase "in order of predominance by weight" in § 19.____(b)(1)(i), and in addition suggested deletion of the portion of (b) which requires the name of the characterizing flavor or spice to be in the same size, style, and color of type as the rest of the name of the food.

The Commissioner has concluded that the labeling provisions of this standard should be consistent with the applicable requirements of 21 CFR Part 1. Therefore, the label provisions for the foods covered by this standard have been cross-referenced to § 1.12 *Food labeling; spices, flavorings, colorings, and chemical preservatives*. The Commissioner wishes to point out that when spices are represented as being the primary recognizable flavor in the food, this constitutes a declaration of flavor and the provisions of § 1.12(i) apply.

4. The industry comment questioned why the proposed standard did not provide for the addition of foods such as tissues derived from fruit, vegetable, meat, fish, or poultry during the manufacture of the cheese.

The Commissioner has concluded that such a change is beyond the scope of the notice that was published. A separate petition, furnishing reasonable grounds, should be submitted and subjected to an adequate comment period before such a change is made.

Paragraph (b) which appeared in the proposal has been revised to reference the provisions of 21 CFR 1.12 (38 FR 27622) which deal with the manner in which the use of spices and flavorings are to be declared on the label of foods.

Having considered the information submitted by the petitioner, the comments received, and other relevant material, the Commissioner concludes that it will promote honesty and fair dealing in the interest of consumers to adopt the proposal to establish the standard of identity for spiced, flavored standardized natural cheeses as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055-1056, as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered,* That Part 19 be amended by adding thereto a new section as follows:

§ 19.792 Spiced, flavored standardized cheeses; identity; label statement of optional ingredients.

(a) Except as otherwise provided for herein and in applicable sections in this part, a spiced or flavored standardized cheese conforms to the applicable definitions, standard of identity and requirements for label statement of optional ingredients prescribed for that specific natural cheese variety promulgated pursuant to section 401 of the act. In addition a spiced and/or flavored standardized cheese shall contain one or more safe and suitable spices and/or flavorings, in such proportions as are reasonably required to accomplish their intended effect: *Provided,* That no combination of ingredients shall be used to simulate the flavor of cheese of any age or variety.

(b) The name of a spiced or flavored standardized cheese shall include in addition to the varietal name of the natural cheese, a declaration of any flavor and/or spice that characterizes the food, in the manner prescribed in § 1.12 of this chapter.

Any person who will be adversely affected by the foregoing order may at any time on or before July 5, 1974, file with the Hearing Clerk, Food and Drug Administration, Rm. 6-86, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective Aug. 5, 1974, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the Federal Register.

(Secs. 401, 701, 52 Stat. 1046, 1055-1056, as amended by 70 Stat. 919 and 72 Stat. 948; (21 U.S.C. 341, 371))

Dated: May 28, 1974.

Sam D. Fine,
Associate Commissioner for Compliance.

[FR Doc.74-12719 Filed 6-3-74;8:45 am]

SUBCHAPTER F—BIOLOGICS

PART 680—ADDITIONAL STANDARDS FOR MISCELLANEOUS PRODUCTS

Sterility Test Media

An order was published in the Federal Register of September 22, 1971 (36 FR 18795), which required in part that Soybean-Casein Digest Medium be used in place of Fluid Sabouraud's Media for testing the sterility of biological products as specified in § 610.12(a)(2) (21 CFR 610.12(a)(2)), formerly 42 CFR 73.730 (a)(2), recodified in the Federal Register of November 20, 1973 (38 FR 32057). However, it has come to the attention of the Commissioner of Food and Drugs that due to an oversight, a corresponding reference to this substitution was not reflected in the additional standards for allergenic products under § 680.3(c) (2) and (3), which continue to erroneously reference Fluid Sabouraud Medium, rather than Soybean-Casein Digest Medium.

Accordingly, in order to correct this inadvertent discrepancy, 21 CFR 680.3(c) is being amended as set forth below to change references from Fluid Sabouraud Medium to Soybean-Casein Digest Medium.

Therefore, pursuant to the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to the Commissioner (21 CFR 2.120), Part 680 is amended by revising § 680.3(c) (2) and (3) to read as follows:

§ 680.3 Tests.

* * * * *

(c) * * *

(2) For lots consisting of no more than 5 final containers, the final container test shall be performed in accordance with § 610.12(g)(7) of this chapter using the sample therein prescribed or using a sample of no less than 0.25 ml. of product from each final container, divided in approximately equal proportions for testing in Fluid Thioglycollate and Soybean-Casein Digest Media. The test sample in the latter alternative method may be an overfill in the final container.

(3) For products prepared in sets of individual dilution series, a test sample of 0.25 ml. shall be taken from a final container of each dilution, which samples may be pooled and one half of the pooled material used for the test with Fluid Thioglycollate Medium and one half used for the test with Soybean-Casein Digest Medium.

* * * * *

Pursuant to the Administrative Procedure Act (5 U.S.C. 553 (b) and (d)), the Commissioner finds that notice, public procedure, and delayed effective date are unnecessary for the promulgation of this order since it is of a minor nature and does not alter, but rather maintains consistent requirements for sterility testing.

Effective date. This order shall become effective June 4, 1974.

(Sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262))

Dated: May 28, 1974.

Sam D. Fine,
Associate Commissioner for Compliance.

V39—108 JUN 4 74 XUM

Title 24—Housing and Urban Development

CHAPTER IX—OFFICE OF INTERSTATE LAND SALES REGISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-74-271]

PART 1700—INTRODUCTION

Amendment and Delegation of Authority

The Secretary is amending 24 CFR, Part 1700 in order to notify the public of the reorganization of the Office of Interstate Land Sales Registration and of the establishment of a new Division of that Office. The new Division is named the Policy Development and Control Division, and is headed by a Director who is delegated and assigned certain authorities and responsibilities, as reflected by this amendment.

The section dealing with separability of provisions is renumbered and placed under Part 1700, Subpart A, where it is felt to be more appropriately ordered.

This amendment relates to agency management; therefore, notice of proposed rule making and postponement of the effective date are unnecessary.

Accordingly, Chapter IX of Title 24 CFR, Part 1700 is amended to read as follows:

PART 1700—INTRODUCTION

Subpart A—Authority and Organization

Sec.
1700.1 Scope of authority and purpose.
1700.5 Authority of Secretary.
1700.10 Delegation of authority.
1700.15 Establishment of office.
1700.20 Administrator.
1700.25 Principal divisions.
1700.30 Public information.
1700.35 Separability of provisions.

Subpart B—Delegations of Basic Authority and Functions

1700.80 Director of Examination Division, Office of Interstate Land Sales Registration, and Deputy.
1700.85 Director of the Land Sales Enforcement Division, Office of Interstate Land Sales Registration, and Deputy.
1700.90 Director of the Policy Development and Control Division, Office of Interstate Land Sales Registration.
1700.95 Acting Administrator.
1700.100 Assistant Deputy Administrator.

AUTHORITY: The provisions of this Part 1700 issued under sec. 1419, 82 Stat. 598 (15 USC 1718).

Subpart A—Authority and Organization

§ 1700.1 Scope of authority and purpose.

A land developer is required by the Interstate Land Sales Full Disclosure Act, Title XIV of Public Law 90-448, 82 Stat. 590, 15 USC 1701, enacted on August 1, 1968 (hereafter sometimes referred to as the Act) to make full disclosure in the sale or lease of certain undeveloped, subdivided land. The Act makes it unlawful (except with respect to certain exempted transactions) for any developer to sell or lease, by use of the mail or by any means in interstate commerce, any such land offered as part of a common promotional plan unless the land is registered with the Secretary of Housing and Urban Development and a printed property report is furnished to the purchaser or lessee in advance of the signing of an agreement for sale or lease.

§ 1700.5 Authority of Secretary.

Section 1416(a) of the Act vests authority and responsibility for its administration in the Secretary of Housing and Urban Development (hereafter in this part referred to as the Secretary), and authorizes the Secretary to delegate any of his functions, duties and powers thereunder to employees of the Department of Housing and Urban Development.

§ 1700.10 Delegation of authority.

(a) The Secretary has delegated to the Interstate Land Sales Administrator and the Deputy Administrator all of the authority to exercise the power and authority vested in him under the Act except the authority to:

(1) Conduct hearings in accordance with 5 USC 556 and 557.

(2) Issue orders or determinations after such hearings.

(3) Issue rules and regulations under section 1416(a) of the Interstate Land Sales Full Disclosure Act 15 USC 1701–1720, Title XIV of the Housing and Urban Development Act of 1968 prescribing rights of appeal from the decisions of hearing examiners.

(4) Transmit evidence of apparent violations of the Act to the Attorney General of the United States for the institution of any appropriate criminal proceedings under section 1415(a) of the Act.

(5) Sue and be sued.

(b) The Secretary has further authorized the Administrator to redelegate any of the delegated authority to employees of the Department.

§ 1700.15 Establishment of Office.

There is established, as an organizational unit of the Department of Housing and Urban Development, the Office of Interstate Land Sales Registration.

§ 1700.20. Administrator.

The Office of Interstate Land Sales Registration is headed by the Interstate Land Sales Administrator who shall be designated by the Secretary.

§ 1700.25 Principal divisions.

The following Divisions have been established within the Office of Interstate Land Sales Registration:

(a) Examination Division.

(b) Land Sales Enforcement Division.

(c) Policy Development and Control Division.

§ 1700.30 Public information.

(a) *In general.* The identifiable records of the Office of Interstate Land Sales Registration are subject to the provisions of 5 USC 552, as implemented by Part 15—Public Information, Subtitle A, of this title.

(b) *Availability of information and records.* Information concerning land sales registrations and copies of statements of record may be obtained from the following address:

Office of Interstate Land Sales Registration, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

In addition, statements of record may be reviewed at such address on any business day from 9 a.m. to 4:15 p.m.

(c) *Nonapplicability of exemptions authorized by 5 USC 552.* Section 1405(d) of the Act specifically provides that information contained in or filed with any statement of record shall be made available to the public. The exemptions from public disclosure authorized by 5 USC 552, as set forth in § 15.21 of this title, are not applicable to information contained in or filed with a statement of record.

(d) *Duplication fee—property report.* Notwithstanding the provisions of § 15.14, Schedule of Fees, of this title, copies of a Property Report on file with the Office of Interstate Land Sales Registration will be provided upon request for a fixed fee of $2.50 per copy regardless of the number of pages duplicated. Payment may be made in cash or by check or money order payable to the Department of Housing and Urban Development. Personal checks are acceptable.

§ 1700.35 Separability of provisions.

If any clause, sentence, paragraph, or part of these regulations shall, for any reason, be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined by its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

Subpart B—Delegations of Basic Authority and Functions

§ 1700.80 Director of the Examination Division, Office of Interstate Land Sales Registration, and Deputy.

To the position of Director of the Examination Division, Office of Interstate Land Sales Registration, and under his supervision to the position of Deputy Director there are delegated and assigned the following authorities and responsibilities:

(a) To receive and examine all statements of record (other than those partial statements of record filed in connection with requests for Exemption Orders or Exemption Advisory Opinions) and property reports filed under the provisions of the Interstate Land Sales Full Disclosure Act and all amendments and corrections to such statements.

(b) To determine the adequacy of disclosure of statements of record and property reports and amendments thereto and to effect corrections, additions, and deletions in such statements and reports deemed necessary to achieve the purposes of the Interstate Land Sales Full Disclosure Act.

(c) To recommend to the Administrator that he find effective or declare not effective statements of record filed under the Interstate Land Sales Full Disclosure Act and to prepare evidence in connection with hearings and other administrative proceedings relative to statements of record declared not effective.

§ 1700.85 Director of the Land Sales Enforcement Division, Office of Interstate Land Sales Registration, and Deputy.

To the position of Director of the Land Sales Enforcement Division, Office of Interstate Land Sales Registration, and under his supervision to the position of Deputy Director, there are delegated and assigned the following authorities and responsibilities:

(a) To receive, examine, and make determination with respect to complaints arising from the alleged failure of a developer subject to the Act to comply with the requirements of the Act and Regulations issued thereunder and to negotiate resolutions of such complaints and compliance by such developers.

(b) To recommend actions by the Administrator to achieve compliance by developers deemed subject to the Act who have not complied with any or all of the requirements of the Act and Regulations issued thereunder.

(c) To conduct, on his own initiative, or in response to information received, reviews to determine the existence of such noncompliance and secure compliance with the requirements of the Act and Regulations thereunder.

(d) To recommend suspension by the Administrator of statements of record on a determination of noncompliance with the requirements of the Act and Regulations thereunder.

(e) To recommend action to secure permanent or temporary injunctions or restraining orders to prevent acts or practices in violation of the provisions of the Act and Regulations thereunder and to require compliance therewith.

(f) To prepare evidence in connection with hearings or other administrative proceedings or injunctions or restraining orders in connection with suspensions of statements of record or other action in connection with noncompliance under the Act and Regulations thereunder.

§ 1700.90 Director of the Policy Development and Control Division, Office of Interstate Land Sales Registration.

To the position of Director of the Policy Development and Control Division there are delegated and assigned the following authorities and responsibilities:

(a) To receive, examine, and recommend approval or disapproval of developers' claims and requests for statutory and regulatory exemptions from the Act.

(b) To perform all functions incident to mail and correspondence control.

(c) To develop and recommend regulatory and legislative changes.

(d) To recommend office policy, to review examinations to determine consistency of application of office policy, and to develop training programs to implement office policy as needed.

(e) To maintain and coordinate the efforts of the Office of Interstate Land Sales Registration with the efforts of those State agencies having responsibility for land sales functions.

§ 1700.95 Acting Administrator.

The Deputy Administrator and the Assistant Deputy Administrator in the order named, are designated by the Administrator to act in his place and stead in the event of his absence or inability to act, having the title of "Acting Administrator" with the powers, duties, and rights delegated by the Secretary's Delegation of Authority published in the FEDERAL REGISTER on March 9, 1972, 37 FR 5071.

§ 1700.100 Assistant Deputy Administrator.

The Assistant Deputy Administrator is designated by the Administrator to perform routine matters concurrently with the Deputy Administrator.

Effective date. These amendments are effective on June 4, 1974.

(Section 7(d) of the Department of Housing and Urban Development Act, 79 Stat. 670 (42 USC 3535(d)), 1419, 82 Stat. 598 (15 USC 1718), Secretary's delegation of authority published at 37 FR 5071.)

GEORGE K. BERNSTEIN,
Interstate Land Sales Administrator.

[FR Doc.74-12759 Filed 6-3-74;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to the New Jersey Transportation Control Plan

On December 7, 1973 (38 FR 33775), EPA published in the FEDERAL REGISTER proposed revisions to the New Jersey Transportation Control Plan concerning the employer's provisions for mass transit priority incentives. Public hearings were held on the proposed revisions in Camden, Trenton, and Newark, New Jersey on January 10, 11, and 12, 1974. At the public hearings, representatives of various industries, civil organizations, industrial associations, and private citizens presented testimony on the New Jersey Transportation Control Plan.

Representatives from two industrial concerns expressed their support of the intent of the regulation but were concerned that the proposed revision discriminated against larger employers because it applied only to employers who provide 700 or more parking spaces for their employees. One representative also stated that there were estimated to be only 4 or 5 employers in the New Jersey portion of the Metropolitan Philadelphia Region who maintained 700 employee parking spaces and that to be effective this program must be applicable to more than 4 employers. It was suggested that the criteria be based on the number of employees at a facility rather than on the number of parking spaces provided. It was further suggested that an employer whose incentive/disincentive program is disapproved be allowed an inexpensive and rapid review. One specific recommendation was that the proposed regulation should apply to employers with 200 or more employees. On the basis of the testimony presented, the Administrator has modified the size criterion to include all employers who provide 400 or more parking spaces. Recognizing that the total number of persons employed is often unrelated to the number of persons who commute by private automobile, EPA has rejected the use of the criterion based on the number of employees.

Spokesmen for two motoring organizations continued to oppose the proposed regulation on the grounds that they believed that carpooling and other mass transit programs should be "voluntary" for employers and that EPA should instead work to develop mass transit alternatives. They also urged that additional park-and-ride facilities and exclusive bus lanes should be established along major commuter routes.

In order to assure that needed reductions in pollutant emission levels take place, the Administrator feels an employer incentive program of a mandatory nature is definitely necessary. Furthermore, it has been and is EPA's policy to encourage mass transportation expansion and improvements. A list of short-term control strategies for reducing VMT was prepared by the New Jersey State Department of Transportation in September 1973 for inclusion in the transportation control plan that the State of New Jersey is developing. Since the list included possible additional park-and-ride facilities to be established, the Administrator felt that a regulation requiring the establishment of such facilities would not be necessary. The Administrator has further concluded that the bus lanes which are required by § 52.1598 of the New Jersey Transportation Control Plan as promulgated on November 13, 1973 are sufficient to meet the plan objectives.

The remaining testimony was addressed to other sections of the New Jersey Transportation Control Plan. EPA will consider these statements in its continuing plan evaluation process.

During the 30-day public comment period following the hearings, EPA received additional comments on the proposed revisions and on the other aspects of the New Jersey Transportation Control Plan. Five industrial corporations commented on the proposed revision. Three of these corporations have opposed the measure on the basis that it would "discriminate" against certain employees or groups of employees and would strain employee-employer relationships.

The Administrator has determined that this measure would not place a strain on employee-employer relationships. This determination is based upon review of programs that have been submitted to EPA by employers to comply with similar regulations in Texas and California. These programs consist primarily of providing benefits rather than detriments to employees and do not appear to "discriminate" against any employee or group of employees.

A fourth company generally supported the objectives of the proposed measure but expressed some concern with the proposed definition of "employer" and with the use of surcharges in a program. EPA has revised its definition of employer. It is no longer based upon the number of employees but on the number of employee parking spaces provided at

V39 108 JUN 4 74 XUM

one location. Furthermore, EPA is not requiring the use of surcharges. An employer may utilize any measures that he feels would be most effective in his situation; however, all programs would be subject to EPA approval.

The fifth company was confused about the relationship between the Administrator's action of January 15, 1974 and EPA's proposed revision to § 52.1590 published on December 7, 1973. The Administrator's action on January 15, 1974 prohibits EPA from promulgating a regulation that places surcharges on employee parking spaces. His action in no way affects EPA's revision to § 52.1590 because it does not contain a provision for surcharges on employee parking.

This regulation now being promulgated differs from the proposal in a number of ways. "Employer" is now defined as a person who provides 400 parking spaces for his employees. This lower number will increase the number of employers who are affected by the regulation, particularly in the Metropolitan Philadelphia Region. Also, the date for submittal of the plans has been extended because this rulemaking is being published at a later date than originally anticipated. The date used to determine baseline information concerning the number of employees at each facility, the modes of employee commuting, and an estimate of vehicle miles traveled by employees has also been modified. This date may now be any date between August 1, 1973 and April 1, 1974, for which valid data or estimates are available.

It should be noted that an added advantage of this regulation will be to reduce fuel consumption within the two Air Quality Control Regions to which the regulation is applicable.

EPA may expand this program to a second stage. This expansion will be dependent upon the success of the program as it applies to the larger employers.

The second stage, which may take effect in July 1975, and which may apply to employers who supply some number of parking spaces less than 400 will be promulgated at a later date. No regulatory language for it is included in this promulgation; however, EPA currently intends to model it very closely on the requirements as set forth above. This regulation shall take effect July 5, 1974.

(Sections 110(c) and 301(a) of the Clean Air Act, 42 U.S.C. 1857-5(c) and 1857g).

Dated: May 24, 1974.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations is amended as follows:

Subpart FF—New Jersey

1. Section 52.1590 is revised to read as follows:

§ 52.1590 Employer's provision for mass transit priority incentives.

(a) Definitions:

(1) "Carpool" means a vehicle containing two or more persons.

(2) "Employee parking space" means any parking space reserved or provided by any employer for the use of his employees.

(b) This section is applicable in the New Jersey portions of the New Jersey-New York-Connecticut and Metropolitan Philadelphia Interstate AQCR's (the "Regions").

(c) Each employer in the Regions who maintains 400 employee parking spaces at any of his facilities shall submit to the Administrator, on or before July 1, 1974, an adequate transit incentive program for that facility designed to encourage the use of mass transit and carpooling by his employees. The employer's program employees. The employer's program should contain the mix of incentive or disincentive provisions most likely to obtain maximum use of carpooling and mass transit so as to reduce vehicle miles travelled (VMT). Some incentive examples are: Subsidies to employees using mass transit, preferential parking or other benefits for those who travel in carpools, provision of special charter or employer buses to and from mass transit stops and formal information systems so that employees can select optimum carpool arrangements. Some examples of disincentive provisions are: Reduction in employee parking spaces, surcharges on use of parking spaces for single passenger drivers and non-preferential parking for single passenger drivers.

(d) By September 1, 1974, the Administrator shall approve or disapprove such program for each employer. Notice of such approval or disapproval will be published in Part 52 to Title 40, Code of Federal Regulations.

(e) Such program shall contain procedures whereby the employer shall supply the Administrator with semi-annual reports which shall show the following information:

(1) The number of employees at each of the employer's facilities within the Regions on April 1, 1974 or any date before April 1, 1974 but not earlier than August 1, 1973, for which valid data or estimates are available, and as of the date of the report.

(2) The number of employees regularly commuting to and from work by (i) single passenger automobile, (ii) carpool, and (iii) mass transit at each affected facility on April 1, 1974 or any date before April 1, 1974 but not earlier than August 1, 1973 for which valid data or estimates are available, and as of the date of the report.

(3) An estimate of employee vehicle miles travelled per day as of April 1, 1974 or any date before April 1, 1974, but not earlier than August 1, 1973 for which valid data or estimates are available, and as of the last typical work day preceding the date of preparation of the report.

(4) Such other information as the Administrator may prescribe.

(f) If, after the Administrator has approved a transit incentive program, the employer fails to submit any reports in full compliance with paragraph (d) of this section, or if the Administrator finds that any such report has been intentionally falsified, or if the Administrator determines that the program is not in operation or is not providing adequate incentives or disincentives for employee use of carpools and mass transit, the Administrator may revoke the approval of such plan.

(g) By October 1, 1974, the Administrator shall prescribe a transit incentive program for each employer to whom paragraph (c) of this section is applicable if such employer has not submitted a program or has submitted a program found to be inadequate. Within two months after any revocation pursuant to paragraph (e) of this section, the Administrator shall prescribe a transit incentive program for the affected employer. Any program prescribed by the Administrator shall be published in this Part 52 of Title 40, Code of Federal Regulations.

Title 49—Transportation

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—OFFICE OF PIPELINE SAFETY

[Amdt. No. 195-7; Docket No. HM-6B]

PART 195—TRANSPORTATION OF LIQUIDS BY PIPELINE

Movement of Pipelines Containing Liquefied Gases

This amendment modifies the restriction on movement of pipelines containing liquefied gases under § 195.424.

On June 21, 1971, the Federal Railroad Administrator issued Notice 71-19 (36 FR 12175, June 26, 1971), proposing to delete the requirement in § 195.424(b) for isolation of the line section being moved and substitute a new requirement that continuous flow of the commodity be maintained but at a substantially reduced line pressure. As stated in the notice, isolation of a line section during movement is costly to the industry and may create an unnecessary hazard. When a line section is isolated, valves upstream and downstream of the section are closed, stopping the flow of commodity in the section. If a line section so isolated is

exposed to the sun, the heat generated can cause the internal line pressure to rise above the normal operating pressure of the pipeline, resulting in stresses which could be harmful. On the other hand, continuous flow of commodity in the section being moved will dissipate added heat from the sun, and the internal line pressure will not rise above the normal operating pressure. In addition to proposing that pipelines containing liquefied gases be moved under flow conditions, the notice also proposed a concomitant reduction in line pressure below that required by § 195.424(a) to provide a further safeguard against accidental escape of the unusually hazardous liquefied gases.

Interested persons were invited to participate in making the proposed amendment by submitting written comments by August 20, 1971. Two commenters responded to the notice: the American Petroleum Institute, who favored the amendment as proposed, and the National Transportation Safety Board (NTSB), who suggested several changes.

After Notice 71-19 had been issued, section 6(f)(3)(A) of the Department of Transportation Act was amended to delete the authority of the Federal Railroad Administrator to carry out the liquid pipeline safety functions under 18 U.S.C. 831-835. On November 7, 1972, this authority was delegated to the Assistant Secretary for Environment, Safety, and Consumer Affairs (37 FR 24674) and redelegated to the Director, Office of Pipeline Safety (OPS) (37 FR 24901).

The OPS has reviewed this rule making proceeding and fully considered each comment received. In § 195.424, the existing requirement in paragraph (b) is revised and a new paragraph (c) is added to provide greater safety in moving pipelines containing liquefied gases. The final rule also places additional conditions on movement which were not included in the proposed version. These additional conditions reflect the OPS response to NTSB suggestions concerning the safety of moving pipelines containing liquefied gases. The conditions are within the general scope of the notice which was to modify the existing restriction on moving these pipelines in view of the hazard the restriction may create in practice.

The NTSB noted that most pipelines transport other commodities as well as liquefied gases and suggested that these pipelines should be moved only when they contain the other commodities. Moving pipelines when they contain a commodity other than liquefied gases is a desirable safeguard and is followed by industry. For this reason, OPS has adopted the suggestion, but with modification. Making the practice suggested by NTSB mandatory in all situations would unfairly restrict the operation and maintenance practices of carriers who transport a variety of commodities as compared with those who only transport liquefied gases. The NTSB suggestion also could result in maintenance delay and considerable expense in some cases. Therefore, in the final rule, the language has been tempered to apply only in practical situations. The rule provides that a pipeline which contains liquefied gases may not be moved unless moving that pipeline when it contains some other commodity is impractical.

The NTSB also suggested that the public would be better protected if pipelines containing liquefied gases were isolated and drained as a condition to movement in certain circumstances, and moved under flow conditions only in areas of low population density. Except as to areas of low population density, following this suggestion would introduce additional hazards involved in emptying a pipeline containing liquefied gases. The practice of isolating and draining pipelines also would be a very costly safety measure which is unwarranted in view of the good accident record of carriers in moving pipelines. The OPS believes, however, in light of the NTSB recommendation, that the public should be afforded additional safeguards when a pipeline containing liquefied gases is moved. Therefore, § 195.424 now requires as a condition to moving pipelines containing liquefied gases, that the carrier have procedures under § 195.402 designed to protect the public before the pipeline is moved, including procedures to warn the public when evacuation of the surrounding area is necessary.

The NTSB further pointed out that pipelines with mechanical joints present a more hazardous situation when being moved than pipelines with welded joints. The OPS believes the hazard would be worse if mechanically joined pipelines containing liquefied gases were moved with the commodity flowing. Moreover, the extra risk involved would outweigh the safety advantage to be gained from permitting movement under flow conditions in lieu of requiring isolation to prevent flow. As a consequence, the final rule permits movement with continuous flow at reduced pressure for pipelines joined by welding but not for pipelines joined by other means. The existing requirement for isolation of the line section involved is continued in effect for pipelines joined other than by welding. The OPS is considering the problems associated with different pipe characteristics as the subject of a future rule making proposal, particularly with regard to the transportation of highly volatile liquids.

In consideration of the foregoing, in § 195.424 of Title 49 of the Code of Federal Regulations, paragraph (b) is revised and paragraph (c) is added to read as follows, effective July 15, 1974:

§ 195.424 Pipe movement.

*　*　*　*　*

(b) No carrier may move any pipeline containing liquefied gases where materials in the line section involved are joined by welding unless—

(1) Movement when the pipeline does not contain liquefied gases is impractical;

(2) The procedures of the carrier under § 195.402 contain precautions to protect the public against the hazard in moving pipelines containing liquefied gases, including the use of warnings, where necessary, to evacuate the area close to the pipeline; and

(3) The pressure in that line section is reduced to the lower of the following:

(i) Fifty percent or less of the maximum operating pressure; or

(ii) The lowest practical level that will maintain the commodity in a liquid state with continuous flow, but not less than 50 psig above the vapor pressure of the commodity.

(c) No carrier may move any pipeline containing liquefied gases where materials in the line section involved are not joined by welding unless—

(1) The carrier complies with paragraphs (b) (1) and (2) of this section; and

(2) That line section is isolated to prevent the flow of commodity.

This amendment is issued under the authority of sections 831-835 of Title 18, United States Code, section 6(e)(4) of the Department of Transportation Act (49 U.S.C. 1655(e)(4)), § 1.58(d) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.58(d)), and the redelegation of authority to the Director, Office of Pipeline Safety, set forth in Appendix A to Part 1 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 1).

Issued in Washington, D.C., on May 28, 1974.

JOSEPH C. CALDWELL,
Director,
Office of Pipeline Safety.

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73-9; Notice 6]

PART 570—VEHICLE IN USE INSPECTION STANDARDS

Response to Petitions for Reconsideration Correction

In FR Doc. 74-7966, appearing at page 12867 in the issue of April 9, 1974, the following correction is made:

Section 570.9(b) is revised to read:

§ 570.9 Tires.

*　*　*　*　*

(b) * * * (1) *Inspection procedures.* Examine visually. A major mismatch in tire size designation, construction, and profile between tires on the same axle, or a major deviation from the size as recommended by the manufacturer (e.g., as indicated on the glove box placard on 1968 and later passenger cars) are causes for rejection.

(Secs. 103, 108, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1397, 1401); delegation of authority at 49 CFR 1.51.)

Issued on May 29, 1974.

JAMES B. GREGORY,
Administrator.

V 39 108 JUN 4 74 XUM

[Docket No. 72-6; Notice 4]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Motorcycle Helmets

This notice is in response to a petition for reconsideration and petition for rulemaking to amend Motor Vehicle Safety Standard No. 218, "Motorcycle helmets" (49 CFR 571.218).

A notice responding to petitions for reconsideration and petitions for rulemaking to amend the standard established on August 20, 1973 (38 FR 22390; 49 CFR 571.218), was published on January 28, 1974 (39 FR 3554). Pursuant to 49 CFR 553.35, a petition for reconsideration of the January 28, 1974, notice was filed by the Safety Helmet Council of America (SHCA). Pursuant to 49 CFR 553.31, a petition for rulemaking to amend the standard as published on August 20, 1973, was filed by the California Highway Patrol. Both of these petitions are denied.

The petition for rulemaking submitted by the California Highway Patrol was received by the NHTSA before the issuance of the January 28, 1974, notice but after it had already been finally processed. This comment requested that the 105° minimum peripheral vision clearance to each side of the midsagittal plane be increased to 120°. After reviewing the information contained in the petition for the support of this view, the agency adheres to its position that the 105° minimum requirement strikes the best balance between visibility and protection.

The SHCA requested that the March 1, 1974, effective date of the standard be suspended for one year, and that the time duration criterion at the 200g level for the flat anvil phase of the impact attenuation test be changed from 2.0 to 3.0 milliseconds. These same requests had been included by the SHCA in a previous petition for reconsideration to amend the standard as published on August 20, 1973 (38 FR 22390; 49 CFR 571.218). In response to information contained in that earlier petition as well as from other comments that had been received, the standard was amended by the notice of January 28, 1974 (39 FR 3554), in some minor respects, and its effective date was temporarily suspended for helmets that must be tested on headform sizes A, B, and D. The additional data which the SHCA has supplied in support of its recent requests have been carefully considered and have been determined by the agency to be insufficient to justify the recommended changes in the standard.

(Secs. 103, 112, 119, Pub. L. 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1401, 1407; delegation of authority at 49 CFR 1.51.)

Issued on May 29, 1974.

James B. Gregory,
Administrator.

---

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Part 242]

APPLICATIONS FOR TEMPORARY WITHHOLDING OF DEPORTATION

Consideration of Nonrecord Information

Pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed amendment of § 242.17(c) of Title 8 of the Code of Federal Regulations, pertaining to the use of nonrecord information.

Section 242.17(c) currently provides that the determination of an application for the temporary withholding of deportation under section 243(h) of the Immigration and Nationality Act may be based upon nonrecord information if, in the opinion of the special inquiry officer or the Board, the disclosure of such information would be prejudicial to the interests of the United States. The amendment to § 242.17(c) is being proposed to provide that nonrecord information should be used only in cases involving national security. The proposed amendment also provides that the respondent should be informed of the receipt of such nonrecord information by the special inquiry officer and that whenever the special inquiry officer believes he can do so, consistent with safeguarding both the information and its source, he should inform the respondent of the general nature of the information in order that he may have an opportunity to offer opposing evidence.

In accordance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383), interested persons may submit to the Commissioner of Immigration and Naturalization, Room 7100-C, 425 Eye Street NW., Washington, D.C. 20536, written data, views, or arguments, in duplicate, with respect to the proposed rule. Such representations may not be presented orally in any manner. All relevant material received by June 28, 1974, will be considered.

It is proposed to amend Chapter I of Title 8 of the Code of Federal Regulations as follows:

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

In § 242.17, the existing last sentence of paragraph (c) is revoked and four new sentences are added in lieu thereof to read as follows:

§ 242.17 Ancillary matters, applications.

* * * * *

(c) *Temporary withholding of deportation.* * * * The trial attorney may also present evidence or information for the record, and he may submit information not of record to be considered by the special inquiry officer provided that the special inquiry officer or the Board has determined that such information is relevant and is classified under Executive Order No. 11652 (37 FR 5209; March 10, 1972) as requiring protection from unauthorized disclosure in the interest of national security. When the special inquiry officer receives such nonrecord information he shall inform the respondent thereof and shall also inform him whether it concerns conditions generally in a specified country or the respondent himself. Whenever he believes he can do so consistently with safeguarding both the information and its source, the special inquiry officer should state more specifically the general nature of the information in order that the respondent may have an opportunity to offer opposing evidence. A decision based in whole or in part on such classified information shall state that such information is material to the decision.

(Sec. 103, 66 Stat. 173 (8 U.S.C. 1103))

Dated: May 29, 1974.

L. F. Chapman, Jr.,
Commissioner of Immigration and Naturalization.

[FR Doc.74-12682 Filed 6-3-74;8:45 am]

DEPARTMENT OF THE INTERIOR

Mining Enforcement and Safety Administration

[30 CFR Part 11]

RESPIRATORY PROTECTIVE DEVICES

Proposed Requirements

On March 25, 1972, the Department of Health, Education, and Welfare and the Department of the Interior jointly adopted Part 11 of Title 30, Code of Federal Regulations which provides for the testing of occupational respirators and the issuance of joint approvals for those which meet certain requirements for performance and respiratory protection (37 FR 6244). On March 15, 1973, the Departments jointly adopted miscellaneous amendments to Part 11 to reflect an agreement whereby the site for the testing of respiratory protective devices was transferred from the Bureau of Mines (now Mining Enforcement and Safety Administration) laboratory in Pittsburgh to the Testing and Certification Laboratory of the National Institute for Occupational Safety and Health in Morgantown, West Virginia.

Notice is hereby given that the Secretary of the Interior and the Secretary of Health, Education, and Welfare propose new amendments to Part 11 as set forth below. Section 11.85-12(d) would be amended to permit approval of lightweight escape apparatus by increasing to 1.5 percent the permissible concentration of carbon dioxide in closed-circuit, self-contained apparatus which use only a mouthpiece. Section 11.90(b) would be amended by deleting the maximum use concentrations which were recommendations to gas mask users of the typical maximum concentration of gas or vapor in which the device could be used. Recent investigations indicate that these values are too high. The user should refer to the National Institute of Occupational Safety and Health, the Mining Enforcement and Safety Administration, or the Occupational Safety and Health Administration for information concerning the safe use of gas masks. It is also proposed to change the test atmospheres involving nitrogen dioxide for both front- and back-mounted gas mask canisters from 20,000 to 10,000 parts per million. The sorbent capacity of the material in the canisters has been found to be less for NO_2 than for the other acid gases listed. Finally, § 11.93 would be changed by substituting the newly published American National Standard for Identification of Air Purifying Respirator Canisters and Cartridges for the previous standard concerning identification of canisters.

Interested persons may address written comments concerning the proposed amendments, in writing, to the Regulations Officer, National Institute for Occupational Safety and Health, Room 3-32, 5600 Fishers Lane, Rockville, Maryland 20852. All comments received in response to this notice will be available for public inspection at the foregoing address on weekdays between the hours of 8:15 a.m. and 4:45 p.m. All comments received on or before July 5, 1974 will be considered. It is proposed to make the regulations effective on the date of their republication in the Federal Register.

Dated: May 22, 1974.

C. K. Mallory,
Deputy Assistant Secretary of the Interior.

Caspar W. Weinberger,
Secretary of Health, Education and Welfare.

March 28, 1974.

V 39 — 108 JUN 4 74 XUM

1. In § 11.85–12, paragraph (d) is revised to read as follows:

§ 11.85–12 Test for carbon dioxide in inspired gas; open- and closed-circuit apparatus; maximum allowable limits.

* * * * *

(d) In addition to the test requirements for closed-circuit apparatus set forth in paragraph (b) of this section, gas samples will be taken during the course of the man tests described in Tables 1, 2, 3, and 4. These gas samples will be taken from the closed-circuit apparatus at a point downstream of the carbon dioxide sorbent, and they shall not contain more than 0.5 percent carbon dioxide at any time, except that for escape-only apparatus where only a mouthpiece is used, a sample shall not contain more than 1.5 percent carbon dioxide at any time.

§ 11.90 [Amended]

2. The heading of paragraph (a)(2) of § 11.90 is changed to read: "Other front-mounted or back-moumted gas mask."

3. In § 11.90, paragraph (b) is revised to read as follows:

(b) Gas masks shall be further described according to the specific gases or vapors against which they are designed to provide respiratory protection, as follows:

Type of Front-Mounted or Back-Mounted Gas Mask

Acid Gas [3,4].
Ammonia [5].
Carbon Monoxide [3].
Organic Vapors [3,4].

Type of Chin-Style Gas Mask

Acid Gas [3,4].
Ammonia.
Organic Vapors [3,4].

Type of Escape Gas Mask

Acid Gas [3,4,5].
Ammonia [5].
Carbon Monoxide.
Organic Vapors [3,4,5].

NOTE: It is suggested that the gas mask user refer to the National Institute for Occupational Safety and Health, the Mining Enforcement and Safety Administration, or the Occupational Safety and Health Administration for information governing selection, use, and maintenance of gas masks and for information on safe use concentrations.

§ 11.102–5 [Amended]

4. In § 11.102–5, paragraph (c)(1) is revised to read as follows:

(c)(1) Front-mounted and back-mounted canisters designated for acid gases, ammonia, organic vapors, carbon monoxide and particulate contaminants shall have a window or other indicator to warn the gas mask wearer when the canister will no longer satisfactorily remove carbon monoxide from the inhaled air.

5. In Table 5 of § 11.102–5, the number 20,000 in the column designated "Concentration, p.p.m." for the gas NO, is deleted for that gas wherever it appears and the number 10,000 is substituted therefor, and in the column designated "Canister Type" the classification "Type N" is deleted and the words "acid gases, ammonia, organic vapors, carbon monoxide, and particulate contaminants" are substituted therefor.

6. Section 11.93 is revised to read as follows:

§ 11.93 Canisters and cartridges; color and markings; requirements.

The color and markings of all canisters and cartridges or labels shall conform with the requirements of the American National Standard for Identification of Air Purifying Respirator Canisters and Cartridges, K 13.1, obtainable from the American National Standards Institute, Inc.; 1430 Broadway; New York, N.Y. 10018.

[FR Doc.74–12723 Filed 6–3–74;8:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 915]

AVOCADOS GROWN IN SOUTH FLORIDA

Proposed Limitation of Handling

Consideration is being given to the following proposal, as hereinafter set forth, which would limit the handling of fresh avocados grown in South Florida by establishing minimum quality and maturity requirements, pursuant to § 915.51 *Issuance of regulations*, which were recommended by the Avocado Administrative Committee, established pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida. The proposed regulation would establish U.S. No. 3 as the minimum grade and would prescribe minimum weights or diameters by specified dates as the maturity requirements for the handling of designated varieties of avocados, effective on and after June 17, 1974. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same in quadruplicate with the Hearing Clerk, Room 112A U.S. Department of Agriculture, Washington, D.C. 20250, not later than June 6, 1974. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

A reasonable determination as to the quality and maturity of avocados must await the development of the crop and adequate information thereon was not available to the Avocado Administrative Committee until May 8, 1974, on which date an open meeting was held after giving due notice thereof to consider the need for and the extent of regulation of shipments of such avocados. Interested persons were afforded an opportunity to submit information and views at this meeting. Inview of this, and the need for making the regulation effective on June 17, 1974, to prevent shipment of immature avocados in the interest of producers and consumers, preliminary notice beyond that herein provided is impractical.

The recommendations of the Avocado Administrative Committee reflect its appraisal of the avocado crop and current and prospective market conditions. Shipments of avocados are expected to begin on or about June 17, 1974. The committee has considered and recommended the quality and maturity requirements, including shipping periods, for the designated varieties and types of avocados, to prevent the handling of immature and other undesirable quality fruit. Such recommendation is designed to recognize the differences in the consumer demand within and outside the production area and to provide the trade and consumers with an adequate supply of mature avocados of a satisfactory quality commensurate with crop conditions in the interest of producers and consumers pursuant to the declared policy of the act.

Such proposal reads as follows:

§ 915.316 Avocado Regulation 16.

(a) *Order*. (1) During the period June 17, 1974, through April 30, 1975, no handler shall handle any avocados unless such avocados grade at least U.S. No. 3 grade: *Provided*, That avocados which fail to meet the requirements of such grade may be handled within the production area, if such avocados meet all other applicable requirements of this section and are handled in containers other than the containers prescribed in § 915.305, as amended (7 CFR 915; 37 FR 11314; 38 FR 1921), for the handling of avocados between the production area and any point outside thereof;

(2) On and after the effective time of this regulation, except as otherwise provided in paragraphs (a)(11) and (a)(12) of this section, no avocados of the varieties listed in column 1 of the following Table I shall be handled prior to the date listed for the respective variety in Column 2 of such table, and thereafter each such variety shall be handled only in conformance with paragraphs (a)(3), (4), (5), (6), (7), and (8) hereof.

TABLE I

[3] Approvals may be for acid gases or organic vapors as a class or for specific acid gases, ammonia, or organic vapors. Approval may also be granted for combinations of acid gases, organic vapors, and other gases and vapors.

[4] Not for use against acid gases or organic vapors with poor warning properties (except where an indicator is incorporated in the canister to advise the wearer of impending or occurring leakage) or which generate high heats of reaction with sorbent materials in the canister.

[5] Eye protection may be required in certain concentrations of acid gases, ammonia, and organic vapors.

V 39 — 108 JUN 4 74 XUM

(3) From the date listed for the respective variety in column 2 of Table I to the date listed for the respective variety in column 4 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in column 3 of such table or is of at least the diameter specified for such variety in said column 3;

(4) From the date listed for the respective variety in column 4 of Table I to the date listed for the respective variety in column 6 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in column 5 of such table or is of at least the diameter specified for such variety in said column 5;

(5) From the date listed for the respective variety in column 6 of Table I to the date listed for the respective variety in column 8 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in column 7 of such table or is of at least the diameter specified for such variety in said column 7;

(6) No handler shall handle during the period June 17, 1974, through July 22, 1974, any Arue variety avocados unless the individual fruit in each lot of such avocados weighs at least 14 ounces, or is at least $3\frac{3}{16}$ inches in diameter;

(7) No handler shall handle (i) prior to August 26, 1974, any Lisa variety avocados, (ii) during the period August 26, 1974, through September 1, 1974, any Lisa variety avocados unless the individual fruit in each lot of such avocados weighs at least 12 ounces, (iii) during the period September 2, 1974, through September 8, 1974, any Lisa variety avocados unless the individual fruit in each lot of such avocados weighs at least 11 ounces, (iv) during the period September 9, 1974, through September 15, 1974, any Lisa variety avocados unless the individual fruit in each lot of such avocados weighs at least 10 ounces, (v) during the period September 16, 1974, through September 23, 1974, any Lisa variety avocados unless the individual fruit in each lot of such avocados weighs at least 9 ounces;

(8) No handler shall handle (i) prior to September 16, 1974, any Booth 8 variety avocados, (ii) during the period September 16, 1974, through October 6, 1974, any Booth 8 variety avocados unless the individual fruit in each lot of such avocados weighs at least 16 ounces, or is at least 3-9/16 inches in diameter, or (iii) during the period October 7, 1974, through October 20, 1974, any Booth 8 variety avocados unless the individual fruit in each lot of such avocados weighs at least 14 ounces, (iv) during the period October 21, 1974, through November 3, 1974, any Booth 8 variety avocados unless the individual fruit in each lot of such avocados weighs at least 12 ounces, (v) during the period November 4, 1974, through November 18, 1974, any Booth 8 variety avocados unless the individual fruit in each lot of such avocados weighs at least 10 ounces.

(9) Except as otherwise provided in paragraphs (a)(11) and (a)(12) of this section, varieties of the West Indian type of avocados not listed in Table I shall not be handled except in accordance with the following terms and conditions:

(i) Such avocados shall not be handled prior to July 8, 1974.

(ii) from July 8, 1974, through August 4, 1974, the individual fruit in each lot of such avocados shall weigh at least 18 ounces.

(iii) From August 5, 1974, through September 8, 1974, the individual fruit in each lot of such avocados shall weigh at least 16 ounces.

(iv) From September 9, 1974, through October 6, 1974, the individual fruit in each lot of such avocados shall weigh at least 14 ounces.

(10) Except as otherwise provided in paragraphs (a)(11) and (a)(12) of this section, varieties of avocados not covered by paragraphs (a) (2) through (9) hereof shall not be handled except in accordance with the following terms and conditions:

(i) Such avocados shall not be handled prior to September 23, 1974.

(ii) From September 23, 1974, through October 20, 1974, the individual fruit in each lot of such avocados shall weigh at least 15 ounces.

(iii) From October 21, 1974, through December 22, 1974, the individual fruit in each lot of such avocados shall weigh at least 13 ounces.

(11) Notwithstanding the provisions of paragraphs (a) (2) through (10) hereof regarding the minimum weight or diameter for individual fruit, up to 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified weight and be less than the minimum specified diameter: *Provided*, That such avocados weigh not more than two ounces less than the applicable specified weight for the particular variety as prescribed in columns 3, 5, or 7 of Table I or in paragraphs (a) (6), (7), (8), (9), and (10) of this section. Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permitted for an individual container in a lot.

(12) The provisions of paragraphs (a)(2) through (11) of this section shall not apply to any variety, except the Linda variety, of avocados which, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color for that fruit when mature.

(b) Terms used in the amended marketing agreement and order, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; the term "diameter" shall mean the greatest dimension measured at right angles to a line from the stem to the blossom end of the fruit; and the terms "U.S. No. 3" shall have the same meaning as set forth in the United States Standards for Florida Avocados (7 CFR 51.3050–51.3069).

(c) The provisions of this regulation shall become effective June 17, 1974.

Dated: May 24, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF COMMERCE

Patent Office

[37 CFR Part 1]

ABANDONED APPLICATIONS REFERRED TO IN DEFENSIVE PUBLICATIONS

Public Inspection

Notice is hereby given that, pursuant to authority contained in section 6 of the Act of July 19, 1952 (66 Stat. 793 (35 U.S.C. 6)), as amended October 5, 1971, Pub. L. 92–132, 85 Stat. 364, the Patent Office proposes to amend Title 37 of the Code of Federal Regulations by revising § 1.14(b).

All persons are invited to present in writing their views, objections, recommendations or suggestions in connection with the proposed amendment to the Commissioner of Patents, Washington, D.C. 20231 no later than June 30, 1974. Submissions made pursuant to this notice may be inspected by any person, upon written request, a reasonable time after the closing date for submitting comments.

The proposed amendment would open to public inspection those abandoned patent applications which are referred to in Defensive Publication applications opened to public inspection pursuant to §§ 1.11(b) and 1.139. The purpose of the proposal is to encourage greater use of the Defensive Publication Program provided under § 1.139.

The objective of the Defensive Publication Program is "to provide better service to the public by making available the technical disclosure of certain applications in which the owner may prefer to publish an abstract in lieu of obtaining an examination by the Patent Office" (notice published on April 11, 1968, in 33 FR 5623, and in 849 O.G. 1221 on April 30, 1968). To accomplish that objective, §§ 1.11(b) and 1.139 open the complete Defensive Publication application to inspection by the general public upon publication of the abstract. The proposed amendment would have the effect of placing a Defensive Publication application on the same footing as an issued patent, insofar as making technical disclosures available to the public is concerned, by opening to public inspection an abandoned patent application referred to in the Defensive Publication application as well as in an issued patent. Applicants would benefit from the assurance that the disclosure of an abandoned application, which is referred to in a Defensive Publication application, would be open to public inspection and need not be repeated in the Defensive Publication application.

The text of the proposed revised rule is as follows:

§ 1.14 Patent applications preserved in secrecy.

* * * * *

(b) Except as provided in § 1.11(b) abandoned applications are likewise not open to public inspection, except that if an application referred to in a U.S. patent, or in an application which is open to inspection pursuant to § 1.139, is abandoned and is available, it may be inspected or copies obtained by any person on written request, without notice to the applicant. Abandoned applications may be destroyed after 20 years from their filing date, except those to which particular attention has been called and which have been marked for preservation. Abandoned applications will not be returned.

* * * * *

Dated: May 20, 1974.

C. MARSHALL DANN,
Commissioner of Patents.

Approved: May 28, 1964.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Manpower Administration

[20 CFR Part 602]

PUBLIC EMPLOYMENT OFFICES

Minimum Wage Rates

On May 2, 1974, 39 FR 15307, there appeared a proposed amendment to 20 CFR 602.10b(a)(1), which would revise the hourly minimum wage rates which an employer must offer to U.S. workers in order to be eligible to apply for alien workers in nine States. Due to a typographical error, the amendment did not set forth the correct minimum wage rate for the State of New York, $2.26 per hour. The minimum wage rates for the other eight States were adopted as proposed and appear on another page of this issue of the FEDERAL REGISTER. Time for comment on the proposed minimum wage rate of $2.26 per hour for the State of New York is hereby extended to June 19, 1974.

(8 USC 1184, 8 CFR 214.2(h), 34 FR 6502)

Signed at Washington, D.C. this 30th day of May 1974.

WILLIAM H. KOLBERG,
Assistant Secretary for Manpower.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19987]

UNITED STATES-MEXICO FM BROADCASTING AGREEMENT

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of Subpart B (FM Broadcast Stations) of Part 73 in Certain Respects.

1. On March 28, 1974, the Commission adopted a notice of proposed rulemaking in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on April 10, 1974, 39 FR 13007. Comment and reply comment dates are presently May 28 and June 11, 1974, respectively.

2. On May 24, 1974, the Corporation for Public Broadcasting (CPB) filed a request for extension of time in which to file comments to and including June 11, 1974. CPB states that it has been holding consultations with National Public Radio and the Association of Public Radio Stations and because of the unexpected complex engineering and policy questions raised by this matter the additional time is necessary.

3. We are of the view that the public interest would be served by extending the time in this proceeding. *Accordingly, it is ordered*, That the dates for filing comments and reply comments are extended to and including June 11 and June 25, 1974, respectively.

4. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

Adopted: May 24, 1974.

Released: May 28, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] JOSEPH F. ZIAS,
Acting Chief, Broadcast Bureau.

DEPARTMENT OF THE TREASURY

Bureau of the Mint

CONSTRUCTION OF NEW UNITED STATES MINT—DENVER, COLORADO

Notice of Availability of Final Revised Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of the Mint in the Department of the Treasury has prepared a Final Revised Environmental Impact Statement for the location and, in general terms, the construction of a new United States Mint at Denver, Colorado. The Statement was filed with the Council on Environmental Quality on May 29, 1974.

The Statement considers two possible sites: (1) The northwest corner of the Clayton Trust Property in Denver (Park Hill) and (2) the northwest corner of the Denver Federal Center in Lakewood.

The Mint is being planned for a production capacity of 10.5 billion domestic coins per year and 25 million proof coins and medals per year. It would be designed to provide space for expansion of critical operations and to make possible reasonable expandability of the facility to accommodate increased production requirements as they develop in future years. Although detailed design of the facilities has not yet been started, it has been determined that building space of approximately 700,000 square feet would be needed. The structures would reflect the importance of the governmental function to be performed.

Copies of the Statement are available for inspection during regular working hours at the office of the

Facilities Project Manager
Bureau of the Mint
Denver Mint
320 West Colfax Avenue
Denver, Colorado

and at the

Office of the Director
Bureau of the Mint
Room 2064
U.S. Treasury Department
15th Street & Pennsylvania Avenue, NW.
Washington, D.C. 20220

Copies are also on file in the Departmental Library in the Main Treasury Building.

It is anticipated that a decision on the location of the Mint will be made shortly after July 7, 1974.

[SEAL] WARREN F. BRECHT,
Assistant Secretary
of the Treasury.

DEPARTMENT OF THE INTERIOR

Geological Survey

[Proposed OCS Order No. 9]

GULF OF MEXICO AREA

Approval Procedure for Oil and Gas Pipelines

Notice is hereby given that pursuant to 30 CFR 250.11 and in accordance with 30 CFR 250.19(b), the Chief, Conservation Division, Geological Survey, proposes to approve OCS Order No. 9 for the Gulf of Mexico Area as set forth below.

The purpose of proposed OCS Order No. 9 is to provide requirements to oil and gas operators for the Approval Procedure for Oil and Gas Pipelines.

Interested persons may submit written comments, suggestions, and objections concerning the proposed order to the Director, U.S. Geological Survey, National Center, Mail Drop 101, 12201 Sunrise Valley Drive, Reston, Virginia 22092 on or before July 1, 1974.

V. E. MCKELVEY,
Director.

NOTICE TO LESSEES AND OPERATORS OF FEDERAL LEASES IN THE OUTER CONTINENTAL SHELF, GULF OF MEXICO AREA

[OCS Order No. 9]

Effective ____________

APPROVAL PROCEDURE FOR OIL AND GAS PIPELINES

This Order is established pursuant to the authority prescribed in 30 CFR 250.11 and in accordance with 30 CFR 250.19(b). Section 250.19(b) provides as follows:

> The Supervisor is authorized to approve the design, other features, and plan of installation of all pipelines for which a right of use or easement has been granted under paragraph (c) of § 250.18 or authorized under any lease issued or maintained under the Act, including those portions of such lines which extend onto or traverse areas other than the Outer Continental Shelf.

The operator shall comply with the following requirements. All departures from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 250.12(b). References in this Order to approvals, determinations, or requirements are to those given or made by the Supervisor or his delegated representative.

1. *Definition of terms.* As used in this Order, the following terms shall have the meanings indicated:

A. *Pipeline.* Lines installed for the purpose of transporting oil, gas, water, sulphur, or other minerals, including lines sometimes referred to as flow or gathering lines, but excluding lines confined to a platform or structure.

B. Internal Pressure at Minimum Yield Strength (IP@MYS). The internal pressure exerted by a fluid being transferred at which permanent deformation of the pipe will occur. IP@MYS is calculated as follows (refer to ANSI B 31.4, 1971, and USAS 31.8, 1068, for details):

$$\text{IP @ MYS} = \frac{2\,St \times E \times T}{D}$$

where:

S = Fiber stress at the specified minimum yield strength of the pipe material in psi.
t = Nominal wall thickness in inches.
D = Outside diameter in inches.
E = Longitudinal joint factor obtained from Appendix 1.
T = Temperature derating factor:
250° F. or less = 1.00
300° F. = .967
350° F. = .933
400° F. = .900

C. *Maximum allowable pressure (MAP).* The pressure in the pipe when circumferential fiber stress has reached either 60 percent or 72 percent (dictated by location) of the IP@MPS. The smaller MAP is the maximum pressure to which a pipeline or segment of pipeline shall be subjected under maximum

working pressure conditions. MAP is calculated as follows (refer to USAS B 31.8, 1969, for details):

(1) For platform or structure piping, pipeline risers, and submerged pipeline within 300 feet from the riser:

$$\text{MAP} = 0.60 \times \text{IP @ MYS}$$

(2) For submerged pipelines:

$$\text{MAP} = 0.72 \times \text{IP @ MYS}$$

D. *Maximum working pressure (MWP).* The maximum pressure to which the pipeline or segment of pipeline could be subjected in the event of a safety system malfunction. For pipelines receiving production from separation facilities (working pressure of vessels), pumps, compressors, and other pipelines, the maximum pressure which can be exerted by the system will be considered the MWP. The shut-in tubing pressure of a well producing into a pipeline will be considered as the MWP of that pipeline. When a pipeline is used to transport production from more than one well, the well with the highest shut-in tubing pressure will constitute the MWP. The MWP shall not exceed the MAP.

E. *Maximum operating pressure (MOP).* The maximum pressure to which the pipeline will be subjected over a period of time under normal operations with fluid flow. The MOP shall not exceed the MWP.

F. *Minimum operating pressure.* The minimum pressure to which the pipeline will be subjected over a period of time under normal operations with fluid flow.

G. *Hydrostatic test pressure (HTP).* HTP means the required pressure to which a pipeline will be subjected for a specified period of time in order to verify its integrity.

2. *Requirements.* All pipelines shall be designed, installed, maintained, and abandoned in accordance with the following:

A. *Safety equipment.* The operator shall be responsible for the installation of the following control devices on all oil and gas pipelines connected to a platform or structure, including such pipelines which are not operated or owned by the operator. Operators of platforms or structures installed prior to the effective date of this Order shall comply with the requirements of paragraph 2A(1) with regard to required check valves on pipelines departing platforms or structures within six months of the effective date of this Order.

(1) All pipelines boarding a platform or structure shall be equipped with a check valve to prevent backflow. All pipelines departing a platform or structure shall be equipped with a check valve to prevent backflow.

(2) All pipeline pumps and compressors shall be equipped with high and low pressure shut-in sensing devices. The low pressure sensor must be located upstream of any check valves. Time delay devices to prohibit the low pressure sensor from functioning when pumps are started are permissible, provided the time delay does not exceed the time required for the pressure in the pipeline to reach the low pressure sensor setting plus 60 seconds.

(3) All pipelines departing a platform or structure receiving production from the platform or structure and which do not receive production from any boarding pipeline shall be equipped with high and low pressure sensors, located upstream of any check valves on any departing line, to directly or indirectly shut-in the wells on the platform or structure.

(4) All pipelines departing a platform or structure receiving production from a boarding pipeline, and which do not receive production from the platform or structure, shall be equipped with high and low pressure sensors at the departing locale, located upstream of any check valve on the departing pipeline, to activate an automatic fail-close valve to be located in the upstream portion of the pipeline boarding the platform or structure. This automatic fail-close valve shall be operated by either the platform or structure automatic and manual emergency shut-in system or by an independent automatic and manual emergency shut-in system.

(5) All pipelines departing a platform or structure receiving production from a boarding pipeline, and which receive production from the platform or structure, shall be equipped with a set of high and low pressure sensors at the departing locale located upstream of any check valve on the departing pipeline and downstream of the junction point of the pipelines. These high and low pressure sensors shall activate an automatic fail-close valve located on the boarding pipeline and directly or indirectly shut-in the wells on the platform or structure. This automatic fail-close valve on the boarding pipeline shall be operated by either the platform or structure automatic and manual emergency shut-in system or by an independent automatic and manual emergency shut-in system.

(6) All pipelines boarding a platform or structure and delivering production to production vessels on the platform or structure shall be equipped with an automatic fail-close valve operated by the shut-in sensing devices of the production vessel and by the manual emergency shut-in system.

(7) All pipelines boarding a platform or structure and delivering production to a departing pipeline that does not receive production from the platform or structure shall be equipped with an automatic fail-close valve operated by high and low sensors on the departing pipeline and a manual emergency shut-in system.

(8) The deletion of safety equipment on a gas lift gas pipeline supplying gas lift to wells on platforms or structures with four or less producing or shut-in completions per platform or structure and no production equipment is allowed, except that a check valve shall be installed in each casing annulus line. The gas lift gas line shall have a check valve and high and low pressure sensors to shut off the gas supply at the source in case of a malfunction.

(9) Where bi-directional gas flow is necessary for gas lift or compressor suction, deletion of check valves on departing or boarding pipelines is allowed provided high and low pressure sensors and an automatic fail-close valve are installed on or near each pipeline riser.

(10) All pressure sensors shall be equipped to permit external testing.

B. *General requirements.* (1) The size, weight, and grade of all pipe to be installed, including valves, fittings, flanges, bolting, and other required equipment, shall be determined by the anticipated volumes and pressures pursuant to paragraphs 1A, 1B, 1C, 1D, and 2D of this Order. This determination shall conform with the expression $\text{MAP} \geqq \text{MWP} \geqq \text{MOP}$.

(2) All pipelines shall be designed for the protection of the pipeline against water currents, storm scouring, soft bottoms, and other environmental factors.

(3) All pipeline risers shall be protected from physical damage by floating vessels.

C. *Corrosion protection.* All pipelines shall be protected against loss of metal due to corrosion, using such means as protective coatings and cathodic protection in accordance with the most current National Association of Corrosion Engineers Recommended Practice entitled, Control of Corrosion of Offshore Steel Pipelines, and as follows.

(1) All pipelines shall be provided with external protective coating capable of preventing underfilm corrosion. This coating shall have sufficient ductility to resist cracking in required service. All pipe coating shall be inspected on the lay barge prior to installation of the pipe, and any coating damage shall be repaired to maintain overall coating integrity.

(2) All pipelines shall have a cathodic protection system designed to mitigate corrosion. This system will be designed based on minimum of 2 percent holidays in the protective coating and a current density of 5 milliamperes per square foot. The cathodic protection life shall be based on a minimum of 20-year design.

(3) The cathodic protection system of a pipeline protected by sacrificial anodes attached directly to the pipeline shall be designed as if the pipeline were insulated at each end.

(4) A pipeline cathodically protected by a rectifier shall be equipped with a continuous monitor.

(5) All pipelines will be designed to facilitate the installation of corrosion monitoring and control devices at both ends of the line.

(6) All pipelines, with the exception of pipelines transporting production from four or less wells, shall be designed for the installation of pig launchers and receivers. Pipelines transporting production from four or less completions shall be designed for installation of pig traps or be treated with paraffin solvents and corrosion inhibitors to protect the internal integrity of the pipeline.

D. *Hydrostatic testing requirements.* All pipelines shall be designed to allow for hydrostatic testing to at least 1.25 times the MWP. In no case will the pipeline be tested with a hydrostatic pressure in excess of 90 percent of the IP@MYS. This design shall conform with the expression $(0.90)\ \text{IP@MYS} \geqq \text{HTP} \geqq 1.25\ \text{MWP}$.

(1) Prior to placing a new pipeline in service, the pipeline shall be hydrostatically tested at least 1.25 times the MWP for a minimum period of 24 hours.

(2) Prior to returning a pipeline to service after repair of a leak caused by corrosion or rupture due to exceeding the MAP, the pipeline shall be hydrostatically tested to at least 1.25 times the MWP for a minimum period of 24 hours.

(3) Prior to returning a pipeline to service after repair of a leak caused by damage due to foreign objects, storms, manufacturing flaw, or malfunction of a submerged valve, the pipeline shall be hydrostatically tested to at least 1.25 times the MWP for a minimum period of 8 hours.

(4) Pipelines that have operated for a period of one year shall not be operated at a higher MOP unless it meets the hydrostatic test requirements for a new line.

(5) A report of all hydrostatic tests conducted shall be submitted to the Supervisor. The report shall include all hydrostatic test data, including procedure, test pressure, hold time, and results.

E. *Installation requirements.* All pipelines shall be responsible for the required setting to be compatible with trawling operations and other uses.

(1) Pipelines installed in water depths less than 300 feet shall be buried a minimum of three feet below the Gulf floor.

(2) Pipelines installed in water depths greater than 300 feet need not be buried unless the Supervisor has determined that the pipeline constitutes a hazard to trawling operations or other uses. In such event, the pipeline shall be buried a minimum of three feet below the Gulf floor.

F. *Operating requirements.* The operator shall be responsible for the required setting of pressure sensing devices on all oil and gas pipelines connected to a platform, including pipelines which are not operated or owned by the operator.

V 39 — 108 JUN 4 74 XUM

(1) The high-pressure sensors, required by this Order, shall not be set at a pressure higher than the MAP or 10 percent above the MOP of the pipeline, whichever is less.

(2) The low-pressure sensors, required by this Order, shall not be set at a pressure lower than 30 psig or 10 percent below the minimum operating pressure of the pipeline, whichever is greater.

(3) These high and low sensor settings and the time interval for any time delay device shall be determined from a pressure recording chart showing the pipeline pressure profile under normal operating conditions over a minimum continuation time span of 24 hours.

G. *Abandonment requirements*. All pipelines shall be abandoned as follows:

(1) Lines shall be flushed and filled with seawater.

(2) Lines shall be cut and capped below the mud line on each end.

(3) A line to be temporarily abandoned may be either blind flanged or isolated with a closed block valve, in lieu of cutting and capping below the mud line.

(4) Pipelines to be removed shall be flushed with seawater prior to removal.

3. *Pipeline applications*. Pipeline applications shall be submitted, in duplicate, to the Supervisor in accordance with the following:

A. *New pipelines*. Applications for the installation of new pipelines shall include:

(1) Plat for plats, with a scale of 1''≦2,000', showing the major features and other pertinent data, including water depth, route, location, length, connecting facilities, size, type of products to be transported, and burial depth.

(2) A schematic drawing showing the following pipeline safety equipment and the manner in which the equipment functions, sensing devices with associated pressure-control lines, automatic fail-close valves, check valves, vessels, manifolds, and the rated working pressure of all valves and fittings. This schematic drawing or an additional drawing shall also show the placement of corrosion monitoring equipment.

(3) General information including:

(a) Product or products to be transported by the pipeline.

(b) Size, weight, grade, and class of the pipe and risers.

(c) Length in feet of the line.

(d) Maximum and minimum water depth.

(e) Description of cathodic protection system. If sacrificial anodes are used on the pipeline or platform or structure, specify the type, size, weight, and spacing of anodes. Provide calculations used in designing the sacrificial anode system, including anticipated life of the line. If a rectifier is to be used, include size of unit or units, voltage and ampere rating and pipelines and platforms or structures to be protected. Provide calculations used in designing the size of unit or units and maximum capability.

(f) Description of external pipeline coating system and type coating.

(g) Description of internal protective measures including internal coating and provision for corrosion inhibition program.

(h) Specific gravity of the empty pipe.

(i) Anticipated gravity or density of the product or products.

(j) Maximum and minimum operating pressure.

(k) Maximum working pressure.

(l) Maximum allowable pressure. Provide calculations used in determining MAP.

(m) Hydrostatic test pressure and period of time to which the line will be tested after installation. This test must conform to paragraph 2D of this order.

(n) Type, size, pressure rating, and location of pumps and prime movers.

(o) Proposed inspetcion procedures.

(p) Other information as may be required by the Supervisor.

B. *Pipeline repairs*. Applications for pipeline repair shall include:

(1) Date and time problem detected. (Example: leak, X-ray of riser indicates wall thickness less than minimum acceptable valve, etc.)

(2) Estimated volume of product lost.

(3) Pipeline size and service.

(4) Location of pipeline.

(5) Approximate location of leak and distance from nearest end.

(6) Cause.

(7) Remedial action to be taken.

(8) Proposed hydrostatic pressure test. This test must conform to paragraph 2D of this order.

C. *Pipeline abandonment*. Applications for pipeline abandonment shall include:

(1) The proposed procedure for compliance with paragraph 2G of this order.

(2) A location plat describing the pipeline or segment of pipeline to be abandoned in such a manner as to be identifiable for reference purposes.

4. *Operational test and reporting requirements—A. New pipeline completion report*. The pipeline operator shall submit a report to the Supervisor when installation of a pipeline is completed. The report shall include a drawing or plat, with a scale of 1''≦2,000', showing the location of the line as installed and the hydrostatic test data required in paragraph 2D.

B. *Pipeline damage report*. Pipeline operators shall immediately report orally to the Supervisor any leak, break, flow restriction or stoppage, or other indicated damage due to the following: corrosion, stuck pig, paraffin, kinking, flattening or non-destructive testing. Proposed methods of repair may be requested and approvals granted orally subject to written confirmation as required in paragraph 3B.

C. *Pipeline repair report*. This report shall be submitted to the Supervisor within a week after completion of the repairs. The report shall include:

(1) Location of pipeline.

(2) Location of Leak.

(3) Detailed description of cause.

(4) Detailed description of remedial action.

(5) Hydrostatic test results.

(6) Date returned to service.

D. *Equipment testing*. Safety and antipollution devices required in paragraph 2A of this Order shall be tested for operation at least once each calendar month, but at no time shall more than six weeks elapse between tests. Records of the tests shall be maintained at the field headquarters for a period of one year showing the present status and past history of each device including dates and details of inspection, testing, repairing, adjustments, and re-installation. A report of these tests shall be submitted to the Supervisor during February of each year.

E. *Pipeline abandonment report*. The operator shall submit written notification to the Supervisor of the date the abandonment is completed and confirm that the pipeline was abandoned as approved.

F. *Corrosion detection test and report*. All pipelines shall be tested on both ends for the possible existence of internal corrosion. This determination may be by the use of coupons, probes, water analysis (iron count, pH, and scale), and CO_2 (particle pressure) at a minimum of 6-month intervals. The results and conclusions shall be submitted to the Supervisor during February of each year.

5. *Inspections and reporting requirements—A. Visual inspection*. All pipelines shall be inspected monthly for indication of leakage, using aircraft, floating equipment, or other methods. The results of the inspections will be submitted during February of each year to the Supervisor.

B. *Hazard damage corrective action report*. If the hazards of storm scouring, soft bottoms, and other environmental factors are observed to be detrimentally affecting the pipeline, the operator shall return the pipeline to an acceptable condition and submit a report of the remedial action taken to the Supervisor.

C. *Pipeline failure investigation*. All pipeline operators shall inspect and analyze every pipeline failure and, where possible, select samples of the failed section for laboratory examination for the purpose of determining the cause. A comprehensive written report of the information obtained shall be submitted to the Supervisor as soon as available.

D. *Cathodic protection report*. All pipeline cathodic protection facilities shall be inspected and pipe-to-electrolyte potential measurements conducted at a minimum of 6-month intervals to assure their proper operation and maintenance. The results and conclusions shall be submitted to the Supervisor during February of each year.

E. *Internal corrosion inspection*. (1) All pipelines shall be pigged on a regular schedule and treated with inhibitors as necessary. A record of pigging runs and inhibitor treatments shall be submitted to the Supervisor during February of each year.

(2) All pipelines of 8-inch or larger size shall be inspected for corrosion by the use of instrumented pigs at intervals not to exceed five years. Any internally coated line is excluded from this requirement. The results and conclusions from the data obtained shall be submitted to the Supervisor within two months after completion of the inspection.

F. *Riser inspection and reports*. All pipeline risers shall be visually inspected semiannually for physical and corrosion damage in the splash zone. If damage is observed on protected risers, radiographic or ultrasonic inspection shall be conducted. The pipe shall either be inspected to determine the wall thickness and repaired or replaced. All bare risers shall be similarly inspected semiannually to determine wall thickness, and, if necessary, repaired or replaced. The safe operating wall thickness shall be determined by the following formula and the measured thickness compared to the calculated minimum acceptable thickness.

$$\frac{t=1.2\times SET}{DP(1.25)}$$

where:

t = Maximum thickness for the riser to remain in service.
D = Outside diameter in inches.
P = Maximum working pressure at time of inspection strength of the pipe material in psi.
E = Longitudinal joint factor obtained from Appendix 1.
T = Temperature derating factor:
- 250° F. or less = 1.00
- 300° F. = .967
- 350° F. = .933
- 400° F. = .900

S = Fiber stress at the specified minimum yield strength of the pipe material in psi.

A report of all riser inspections shall be submitted to the Supervisor during February of each year.

If physical corrosive damage has occurred, necessitating repair or replacement, an application shall be submitted pursuant to paragraph 3B and 4B.

APPENDIX 1.—*Longitudinal joint factor E*

Specification No.	Pipe class	E factor
ASTM A 53	Seamless	1.00
	Electric resistance welded	1.00
	Furnace butt welded	.60
ASTM A 106	Seamless	1.00
ASTM A 134	Electric fusion arc welded	.80
ASTM A 135	Electric resistance welded	1.00
ASTM A 139	Electric fusion welded	.80
ASTM A 155	Electric fusion arc welded	1.00
ASTM A 211	Spiral welded steel pipe	.80
ASTM A 381	Double submerged-arc-welded	1.00
API 5 L	Seamless	1.00
	Electric resistance welded	1.00
	Electric flash welded	1.00
	Furnace butt welded	.60
	Furnace lap-welded [1]	.80
API 5 LX	Seamless	1.00
	Electric resistance welded	1.00
	Electric flash welded	1.00
	Submerged arc welded	1.00
API 5 LS	Electric resistance welded	1.00
	Submerged arc welded	1.00

[1] Manufacture was discontinued and process deleted from API 5 L in 1962.

[Power Site Cancellation 326]

YUBA RIVER BASIN, CALIFORNIA

Cancellation of Power Site Classification

Pursuant to authority under the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and 220 Departmental Manual 6.1, Power Site Classification 326 is hereby cancelled to the extent that it affects the following described land:

MOUNT DIABLO MERIDIAN

T. 17 N., R. 10 E.,
Sec. 34, lots 1 and 2, SE¼NE¼, SW¼NW¼, N½N½SE¼NW¼, E½NE¼SW¼, NE¼SE¼, and NW¼SE¼.

The lands described aggregate about 221 acres.

The effective date of this cancellation is September 24, 1974.

HENRY W. COULTER,
Acting Director.

MAY 24, 1974.

[FR Doc.74–12709 Filed 6–3–74;8:45 am]

National Park Service

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, and Corrections

By notice in the FEDERAL REGISTER of February 19, 1974, Part II, there was published a list of the properties included in the National Register of Historic Places. This list has been amended by a notice in the FEDERAL REGISTER of March 5 (39 FR 8357–8362), April 2 (39 FR 12042–12046), and May 7 (39 FR 16173–16177). Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470.

The following properties have been added to the National Register since May 7, 1974:

California

Fresno County

Fresno, *Old Administration Building, Fresno City College*, 1101 University Avenue (5–1–74).

Inyo County

Death Valley, *Skiddo*, Death Valley National Monument (4–16–74).

Lassen County

Susanville, *Roop's Fort (Roop's Trading Post)*, North Weatherlow Street (5–2–74).

Los Angeles County

Los Angeles, *Centinela Adobe*, 7634 Midfield Avenue (5–2–74).

South Pasadena, *Longley, Howard, House*, 1005 Buena Vista Street (4–16–74).

Nevada County

Grass Valley, *Mount St. Mary's Academy and Convent*, Church and Chapel Streets (5–3–74).

Nevada City, *Nevada City Firehouse #2*, 420 Broad Street (5–3–74).

Colorado

Park County

Fairplay, *Summer Saloon*, Third and Front Streets (5–8–74).

District of Columbia

Lansburgh, Julius, Furniture Co., Inc., 909 F Street NW. (5–8–74).

National Bank of Washington, Washington Branch, 301 Seventh Street NW. (5–8–74).

National Cathedral (Cathedral Church of St. Peter and St. Paul and Close), Wisconsin and Massachusetts Avenues NW. (5–3–74).

Old Naval Hospital, 921 Pennsylvania Avenue SE. (5–3–74).

Florida

Dade County

South Miami, *Allen, Hervey, Study (Glade Estates)*, 8251 Southwest 52d Avenue (5–7–74).

Escambia County

Pensacola, *Old Christ Church*, 405 South Adams Street (5–3–74).

Pensacola, *St. Michael's Creole Benevolent Association Hall*, 416 East Government Street (5–3–74).

Jackson County

Greenwood, *Pender's Store*, near intersection of Florida 71 and 69 (5–3–74).

Leon County

Tallahassee vicinity, *Pisgah United Methodist Church*, north of Tallahassee, off Florida 151 (5–3–74).

Martin County

Stuart vicinity, *House of Refuge at Gilbert's Bar*, Hutchinson Island, between Negro and Bessie Coves (5–3–74).

Palm Beach County

Palm Beach, *Brelsford House*, 1 Lake Trail (5–3–74).

Volusia County

Enterprise, *All Saint's Episcopal Church*, corner of DeBary Avenue NE., and Clark Street (5–3–74).

Georgia

Bartow County

Cartersville vicinity, *Valley View*, Euharlee Road, southwest of Cartersville (5–8–74).

Fulton County

Atlanta, *Martin Luther King, Jr. Historic District*, bounded roughtly by Irwin, Randolph, Edgewood, Jackson, and Auburn Avenues (5–2–74).

Atlanta, *U.S. Post Office and Courthouse*, 76 Forsyth Street (5–2–74).

Roswell, *Roswell Historic District*, essentially original area laid out by Roswell and King (5–2–74).

Hancock County

Sparta, *Sparta Historic District*, bounded roughly by Burwell, West, Elm, and Hamilton Streets; and north on Jones to Clinch Terrace. (4–16–74).

Sparta vicinity, *Glen Mary*, Linton Road, south of Sparta (5–8–74).

Talbot County

Talbotton vicinity, *Zion Episcopal Church*, south of Talbotton on U.S. 80 (5–8–74).

Troup County

LaGrange vicinity, *Nutwood*, south of La Grange off Big Springs Road (5–8–74).

Guam

Agana, *Plaza de Espana*, Saylor Street (5–1–74).

Umatac vicinity, *Fort San Jose*, northwest of Umatac on Route 2 (5–1–74).

Idaho

Butte County

Arco vicinity, *Goodale's Cutoff*, south of Arco off U.S. 20 (5–1–74).

Madison County

Rexburg, *Rexburg State Tabernacle*, 25 North Center Street (5–3–74).

Illinois

Randolph County

Prairie du Rocher and vicinity, *French Colonial Historic District*, from Fort de Chartres State Park to Kaskaskia Island (4–3–74) (also in Monroe County).

Prairie du Rocher vicinity, *Kolmer Site*, northwest of Prairie du Rocher off Illinois 155 (5–1–74).

Iowa

Davis County

Bloomfield, *Davis County Courthouse*, Bloomfield Town Square (5–3–74).

Centerville vicinity, *Stringtown House*, east of Centerville on Iowa 2 (4–16–74).

Kansas

Atchison County

Atchison, *Waggener, B. P., House*, 819 North Fourth Street (5–3–74).

Geary County

Junction City vicinity, *Main Post Area, Fort Riley*, northeast of Junction City on Kansas 18 (5–1–74).

Rice County

Sterling, *Cooper Hall, Sterling College*, North Broadway Avenue (5–3–74).

Kentucky

Carter County

Grayson vicinity, *Kitchen, Van, House*, south of Grayson off Kentucky 7 (5–2–74).

Fayette County

Lexington, *McGarvey, Dr. John, House*, 362 South Mill Street (5–15–74).

Lexington, *McPheeters, Charles, House*, 352 South Mill Street (5–15–74).

Lexington, *Poindexter, William, House*, 359 South Mill Street (5–15–74).

Johnson County

Paintsville, *Mayo, John C. C., Mansion and Office*, Third Street (5–3–74).

Louisiana

Pointe Coupee Parish

Innis vicinity, *St. Stephen's Episcopal Church*, north of Innis off Louisiana 418 (4–24–74).

Maine

Cumberland County

Portland, *Butler, A. B., House*, 4 Walker Street (5–8–74).

Portland, *Portland Waterfront*, Waterfront Area (5–2–74).

Westbrook, *Cumberland Mills Historic District*, roughly both sides of Presumpscot River between railroad tracks and Warren Avenue (5–2–74).

Knox County

Thomaston, *Thomaston Historic District*, roughly both sides of U.S. 1 between Maine 131 and Wadsworth Street and both sides of Knox Street to river (5–2–74).

Lincoln County

Damariscotta, *Cottrill, Matthew, House*, Main Street (5–2–74).

New Castle, *Kavanaugh, Governor Edward, House*, Maine 213 (Damariscotta Mills) (5–3–74).

Penobscot County

Bangor, *Adams-Pickering Block*, corner of Main and Middle Streets (5–2–74).

Maryland

Baltimore (independent city)

Davidge Hall, 522 West Lombard Street (4–24–74).

Harford County

Forest Hill, *St. Ignatius Church*, 533 East Jarrettsville Road (4–16–74).

Howard County

Elkridge, *Trinity Church*, 7474 Washington Boulevard (5–6–74).

Savage, *Savage Mill*, southwest corner of Foundry Road and Washington Street (4–18–74).

Massachusetts

Bristol County

Seekonk, *Martin House*, 940 Court Street (5–2–74).

Essex County

Gloucester, *Front Street Block*, West End, 55–71 Main Street (5–8–74).

Hampden County

Springfield, *Ames Hill/Crescent Hill District*, roughly both sides of Maple Street between Mill and Central Streets (both sides) (5–1–74).

Springfield, *Court Square Historic District*, bounded by Main, State, Broadway, Pynchon Streets and City Hall Place (5–2–74).

Springfield, *Quadrangle-Mattoon Street Historic District*, bounded by Chestnut, State, and properties on either side of Mattoon, Salem, Edwards and Elliot Streets (5–8–74).

Middlesex County

Lincoln, *The Grange*, Codman Road (4–18–74).

Nantucket County

The following property has been demolished and removed from the National Register:

New York

Saratoga County

Ballston Spa, *Saratoga County Courthouse Complex,* 46 West High Street.

Historic properties which are either (1) eligible for nomination to the National Register of Historic Places or (2) nominated but not yet listed are entitled to protection under Executive Order 11593. Before an agency of the Federal government may undertake any project which may have an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal. Authorization for such comment are in section 1(3) and section 2(b) of Executive Order 11593.

The Secretary of the Interior has determined that the following properties may be eligible for inclusion in the National Register of Historic Places and are therefore entitled to protection under section 1(3) and section 2(b) of Executive Order 11593 and other applicable Federal legislation. All determinations of eligibility are made under the Secretary of the Interior's authorities in sections 2(b) and 3(f) of Executive Order 11593. This list is not complete. As required by Executive Order 11593, an agency head shall refer any questionable actions to the Secretary of the Interior for an opinion respecting the property's eligibility for inclusion in the National Register.

Office of the Secretary

OIL SHALE ENVIRONMENTAL ADVISORY PANEL

Notice of Meeting

Notice is hereby given that the Oil Shale Environmental Advisory Panel will meet June 12 and 13, 1974 at the Dinaland Country Club, Vernal, Utah. The agenda will include an on the ground tour of the two Federal oil shale tracts in Utah, adoption of policy guidelines to be recommended to the responsible Federal officials, presentations by the local BLM District Office, State and local government units and two Utah lessee groups, recommendations to the USGS Mining Supervisor on a supplemental exploration plan for Colorado Tract C–b and on the full exploration plan for Colorado Tract C–a and discussion of any additional plans submitted to the panel by June 12. The panel will assemble at 8 a.m. on Wednesday, June 12, at the Field House of Natural History, 235 East Main Street, Vernal, Utah. The meeting will conclude at 4 p.m., Thursday, June 13, 1974.

The meeting will be open to the public. Time will be available for a limited number of brief statements by members of the public. Those wishing to make an oral statement should inform the Advisory Panel Chairman prior to the meeting. Any interested person may file a written statement with the Panel for its consideration. The advisory Panel Chairman is Mr. William L. Rogers. Written statements may be submitted at the meeting or mailed to Mr. William L. Rogers, Office of the Secretary, Department of the Interior, Room 688, Building 67, Denver Federal Center, Denver Colorado 80225. Further information concerning this meeting may be obtained from Mr. Henry O. Ash, Department of the Interior, Denver Federal Center, Denver, Colorado at (303) 234–3275. Minutes of the meeting will be available for public inspection 30 days after the meeting at the Office of the Special Assistant to the Secretary, Department of the Interior, Room 688, Building 67, Denver Federal Center, Denver, Colorado 80225.

JACK O. HORTON,
Assistant Secretary
of the Interior.

MAY 29, 1974.

EAST BRADFIELD TIMBER SALE

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a final environmental statement for the East Bradfield Timber Sale, USDA-FS-FES (Adm) 74-42.

The environmental statement concerns a proposed action to harvest approximately 80 million board feet of over-mature Sitka spruce and western hemlock from the East Fork of the Bradfield River drainage located near Wrangell, Alaska.

This final environmental statement was filed with CEQ on May 30, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20230

USDA Forest Service

RED RIVER GORGE PLANNING UNIT

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Red River Gorge Unit, USDA-FS-R8-FES (Adm.)-74-17.

The environmental statement concerns the proposed management direction and resource allocation for a portion of the Daniel Boone National Forest known as the Red River Gorge Planning Unit.

This final environmental statement was transmitted to CEQ on May 24, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
So. Agriculture Bldg., Room 3230
12th St. & Independence Ave., SW
Washington, D.C. 20250

USDA, Forest Service
Southern Region
1720 Peachtree Road, NW
Atlanta, Georgia 30309

USDA, Forest Service
Stanton Ranger District
Highway No. 15
Stanton, Kentucky 40380

A limited number of single copies are available upon request to John E. Alcock, Forest Supervisor, Daniel Boone National Forest, 100 Vaught Road, Winchester, Kentucky 40391.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

DAVID E. KETCHAM,
Acting Deputy Regional Forester.

Soil Conservation Service

CLAM RIVER WATERSHED PROJECT, MASSACHUSETTS

Notice of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and part 1500.6e of the Council on Environmental Quality Guidelines issued on August 1, 1973, the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Clam River Watershed Project, Berkshire County, Massachusetts.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Dr. Benjamin Isgur, State Conservationist, Soil Conservation Service, USDA, 29 Cottage Street, Amherst, Massachusetts 01002, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection, flood prevention, recreation, and fish and wildlife water storage. The planned works of improvement include conservation land treatment supplemented by one multiple purpose structure, modification of the principal spillway of one floodwater retarding structure and recreational facilities.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA
29 Cottage Street
Amherst, Massachusetts 01002

No administrative action on implementation of the proposal will be taken until 15 days after the date of this notice..

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: May 23, 1974.

EUGENE C. BUIE,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.74-12701 Filed 6-3-74;8:45 am]

FLAT ROCK CREEK WATERSHED PROJECT, ARKANSAS

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Flat Rock Creek Watershed Project, Crawford County, Arkansas, USDA-SCS-EIS-WS-(ADM)-74-7(D).

The environmental statement concerns a plan for watershed protection, flood prevention, and recreation. The planned works of improvement include conservation land treatment measures, one floodwater retarding structure, one multiple-purpose structure for flood prevention and recreation, and 7.4 miles of channel work. The channel work consists of concrete lining, clearing and debris removal, and enlargement on 4.2 miles of man-made ditches on ephemeral streams and 3.2 miles of clearing and debris removal on an intermittent stream.

A limited supply is available at the following locations to fill single copy requests:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Ave., SW., Washington, D.C. 20250.
Soil Conservation Service, USDA, Post Office Box 2323, Little Rock, Arkansas 72203.

Copies of the draft environmental statement have been sent to various federal, state, and local agencies for comment as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to M. J. Spears, State Conservationist, Soil Conservation Service, Post Office Box 2323, Little Rock, Arkansas 72203.

Comments must be received on or before July 24, 1974 in order to be considered in the preparation of the final environmental statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: May 24, 1974.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

V39-108 JUN 4 74 XUM

NEWMAN LAKE WATERSHED PROJECT, WASHINGTON

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Newman Lake Watershed Project, Spokane County, Washington, USDA-SCS-ES-WS-(ADM)-74-37(D).

The environmental statement concerns a plan for watershed protection, flood prevention and fish and wildlife. The planned works of improvements include conservation land treatment, supplemented by about 3.8 miles of channel work, a gated outlet structure with fish screens, a water level control structure and stream gage in the channel, improvement of a floodwater barrier along the lake and sink area improvement.

A limited supply of copies is available at the following locations to fill single copy requests:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue, S.W., Washington, D.C. 20250.

Soil Conservation Service, USDA, 360 U.S. Courthouse, Spokane, Washington 99201.

Copies of the draft environmental statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Galen S. Bridge, State Conservationist, Soil Conservation Service, Room 360, U.S. Courthouse, Spokane, Washington, 99201.

Comments must be received on or before July 24, 1974 in order to be considered in the preparation of the final environmental statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: May 24, 1974.

William B. Davey,
Deputy Administrator for Water Resources, Soil Conservation Service.

SPRING CANYON WATERSHED PROJECT, WYOMING

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Spring Canyon Watershed Project, Goshen County, Wyoming, USDA-SCS-ES-WS-(ADM)-74-31-(D).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment supplemented by one floodwater detention reservoir and diversion outlet works.

A limited supply is available at the following locations to fill single copy requests:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th & Independence Avenue, S.W., Washington D.C. 20250.

Soil Conservation Service, Federal Office Building, P.O. Box 2440, Casper, Wyoming 82601.

Copies of the draft environmental statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Blaine O. Halliday, State Conservationist, Soil Conservation Service, P.O. Box 2440, Casper, Wyoming 82601.

Comments must be received on or before July 24, 1974 in order to be considered in the preparation of the final environmental statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: May 23, 1974.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

BRIDGEWATER STATE COLLEGE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00322-99-46040. Applicant: Bridgewater State College, Bridgewater, Massachusetts 62324. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of Article: The article will be used in, or in conjunction with, several biology courses for the training of college freshmen, sophomores, juniors and seniors in the techniques of electron microscopy and the operation of the electron microscope.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (May 30, 1973).

Reasons: The foreign article provides low distortion magnifications of × 140 to × 60,000 with × 140 to × 1,000 in the normal microscope range, which permits an overlap of light and electron microscopy. Domestic instruments from Adam David Company, Langhorne, Pennsylvania and Elektros Incorporated, Tigard, Oregon do not have an equivalent overlap of light and electron microscopy (the Model EMU-4C provides a low distortion magnification as low as × 500 with the × 500 to × 70,000 pole piece: the Model ETEM 101 provides a magnification range of × 600 to × 38,000 in 21 steps). The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated May 6, 1974 that the capability of the article to overlap light and electron microscopy is pertinent to the applicant's intended extensive use in teaching undergraduate biology students the capability of electron microscopy to show cell structure at extended light microscopy magnifications. HEW also advised that domestic transmission electron microscopes do not provide the pertinent capability.

For these reasons, we find that the Model EMU-4C and the Model ETEM-101 are not of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

A. H. Stuart,
Director, Special Import Programs Division.

[FR Doc.74-12721 Filed 6-3-74;8:45 am]

National Bureau of Standards

AUTOMOTIVE LIFTS; COMMERCIAL STANDARD

Notice of Intent To Withdraw

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the intent to withdraw Commercial Standard CS 142-65, "Automotive Lifts."

It has been tentatively determined that the standard has become technically inadequate, and in view of the existence of an up-to-date Automotive Lift Institute, Inc., standard identified as American National Standard B 153.1-1974, "Safety Standard for Construction, Care, and Use of Automotive Lifts," revision of this Commercial Standard would serve no useful purpose.

Any comments or objections concerning the intended withdrawal of this standard should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, within 30 days of the date of publication this notice. The effective date of withdrawal, if appropriate, will be not less than 60 days after the final notice of withdrawal. Withdrawal action will terminate the authority to refer to this standard as a voluntary standard developed under the Department of Commerce procedures from the effective date of the withdrawal.

Dated: May 29, 1974.

Richard W. Roberts,
Director.

[FR Doc.74-12684 Filed 6-3-74;8:45 am]

GAGE BLANKS; COMMERCIAL STANDARD

Notice of Intent To Withdraw

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the intent to withdraw Commercial Standard CS 8-61, "Gage Blanks." It has been tentatively determined that this standard serves no useful purpose due to the fact that the subject is adequately covered by a replacement document published by the American National Standards Institute as B47.1, "Gage Blanks (American Gage Design)."

Any comments or objections concerning the intended withdrawal of this standard should be made in writing to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C, 20234, within 30 days after publication of this notice. The effective date of withdrawal will be not less than 60 days after the final notice of withdrawal. Withdrawal action terminates the authority to refer to a published standard as a voluntary standard developed under the Department of Commerce procedures from the effective date of withdrawal.

Dated: May 29, 1974.

Richard W. Roberts,
Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[FAP 4B3010]

GENERAL MILLS CHEMICALS, INC.

Notice of Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 USC 348(b)(5)), notice is given that a petition (FAP 4B3010) has been filed by General Mills Chemicals, Inc., 2010 East Hennepin Ave., Minneapolis, MN 55413, proposing that § 121.2571 *Components of paper and paperboard in contact with dry food* (21 CFR 121.2571) be amended to provide for safe use of starch-*g*-poly(acrylamide-co-β-methacryloyloxyethyl-trimethylammonium monomethyl sulfate) prepared by radiation induced graft polymerization using either a cobalt 60 source or an electron beam accelerator. The additive is to be used in paper and paperboard intended to contract dry food.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 6-86, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday.

Dated: May 23, 1974.

Virgil O. Wodicka,
Director, Bureau of Foods.

[Docket No. FDC-D-670; DESI 4687; NDA No. 12-216]

SCHERING CORP.

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

The National Academy of Sciences-National Research Council, Drug Efficacy Study Group evaluated the effectiveness of the drug product described below, found the drug to be less than effective, and submitted its report to the Commissioner of Food and Drugs. Copies of that report have previously been made publicly available and are on display at the office of the Food and Drug Administration's Hearing Clerk. After reviewing the Academy's report and the available data and information, the Commissioner concluded that the drug is less than effective and published his conclusion in the Federal Register of July 22, 1970 (35 FR 11712) that the drug is possibly effective for its recommended use: symptomatic treatment of acute and chronic diarrhea.

NDA 12-216; Sorboquel Tablets; polycarbophil 0.5 gram and thihexinol methylbromide 15 milligrams; Schering Corporation, 60 Orange Street, Bloomfield, New Jersey 07003.

Other drugs were also included in the notice of July 22, 1970, but are not affected by this notice.

Subsequent to the notice, Schering submitted a summary of data from a double blind crossover comparison of sorboquel, polycarbophil, and placebo in oral treatment of chronic diarrheas, and an abstract presenting a summary of results of clinical trials of polycarbophil and Sorboquel. The data are inadequate to characterize any investigation of the combination drug product as adequate and well-controlled in that there is no basis for concluding that the essential elements of an adequate and well-controlled study, as set forth in 21 CFR 314.111(a)(5), have been met. For example, no protocol was presented; therefore, the report does not include information on the method of patient selection used to provide assurance that patients were suitable for the study, assurance that patients were assigned so as to minimize bias, and assurance of comparability of pertinent variables in test and control groups. (21 CFR 314.111(a)(5)(ii) (*a*)(2)). It does not explain methods of observation (21 CFR 314.111(a)(5)(ii)(*a*)(3)) and does not provide a summary of the methods of analysis and evaluation of data including appropriate statistical methods. (21 CFR 314.111(a)(5)(ii)(*a*)(5)). In addition, the data do not comply with the requirements of 21 CFR 3.86 in that there was no comparison of the combination product with a control containing the component thihexinol methylbromide as the only active ingredient.

On the basis of all of the data and information available to him, including the data discussed above, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5) and 21 CFR 3.86, demonstrating the effectiveness of the drug.

Therefore, notice is given to the holder(s) of the new drug application(s) and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) (or if indicated above, those parts of the application(s) providing for the drug product(s) listed above) and all amendments and supplements thereto on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers any drug product he manufactures or distributes. Any person may request an

V39—108 JUN 4 74 XUM

opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (HFD-300), 5600 Fishers Lane, Rockville, MD 20852.

In addition to the ground(s) for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in § 310.6) e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR 310, 314), the applicant(s) and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

If an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before July 5, 1974, a written notice of appearance and request for hearing, and (2) on or before August 5, 1974, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 130.14 as published and discussed in detail in the FEDERAL REGISTER of March 13, 1974 (39 FR 9750), recodified as 21 CFR 314.200 on March 29, 1974 (39 FR 11680).

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate with the Hearing Clerk, Food and Drug Administration (HFC-20), Room 6-86, 5600 Fishers Lane, Rockville, MD 20852.

All submissions pursuant to this notice, except for data and information prohibited from public disclosure pursuant to 21 USC 331(j) or 18 USC 1905, may be seen in the office of the Hearing Clerk during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 52 Stat. 1052-53, as amended; 21 USC 355), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 2.121).

Dated: May 28, 1974.

J. RICHARD CROUT,
Director, Bureau of Drugs.

Social and Rehabilitation Service

NATIONAL ADVISORY COUNCIL ON SERVICES AND FACILITIES FOR THE DEVELOPMENTALLY DISABLED

Notice of Meeting

The National Advisory Council on Services and Facilities for the Developmentally Disabled, created to advise the Secretary on regulations and evaluation of programs for Public Law 91-517, will hold a regular meeting on June 10 and 11, 1974, at the Department of Health, Education, and Welfare North Building, Room 5051, 330 Independence Avenue, SW., Washington, D.C. 20201.

On June 10 the meeting will begin at 9 a.m. and recess at 5:30 p.m.

On June 11 the meeting will reconvene at 8:30 a.m. and adjourn at 5 p.m. The agenda will include a progress report by the Executive Secretary, issues arising in legislation and regulations, participatory discussion with National Constituency Organizations, and a report from the Project on Classification of Exceptional Children. The meeting will be open to the public. Additional information can be obtained by calling the Executive Secretary at 202-245-0772.

FRANCIS X. LYNCH,
Executive Secretary.

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON PERRY NUCLEAR POWER PLANT, UNITS 1 & 2

Notice of Meeting

MAY 30, 1974.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Perry Nuclear Power Plant, Units 1 and 2 will hold a meeting on June 28, 1974 in the East Ball Room of the Holiday Inn, 257 East Main Street, Painesville, Ohio 44077. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the application of the Cleveland Electric Illuminating Company for a permit to construct this nuclear power plant. The facility will be located on Lake Erie in Lake County, Ohio. The plant site is approximately 35 miles northeast of Cleveland and 21 miles southwest of Ashtabula, Ohio.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Friday, June 28, 1974, 1:30 p.m. until the conclusion of business. The Subcommittee will hear presentations by representatives of the Regulatory Staff and Cleveland Electric Illuminating Company and will hold discussions with these groups pertinent to its review of the application of Cleveland Electric Illuminating Company for a permit to construct the Perry Nuclear Power Plant, Units 1 and 2.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at approximately 1 p.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold a closed session with representatives of the Regulatory Staff and Applicant for the purpose of discussing privileged information relating to plant physical security.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any nonexempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Committee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than June 21, 1974, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the Preliminary Safety Analysis Report for this facility and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545 and at the Perry Public Library, 3753 Main Street, Perry, Ohio 44081.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:30 p.m. on June 28, 1974.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on June 27, 1974, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5640) between 8:30 a.m. and 5:15 p.m., e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after July 1, 1974 at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and within approximately nine days at the Perry Public Library, 3753 Main Street, Perry, Ohio 44081. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy 1717 H Street NW., Washington, D.C. 1717 H Street NW., Washington, D.C. 20545 after August 28, 1974. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[Docket No. 50-186]

CURATORS OF THE UNIVERSITY OF MISSOURI

Proposed Issuance of Amendment to Facility License

The Atomic Energy Commission ("the Commission") is considering the issuance of an amendment to Facility License No. R-103 to The Curators of the University of Missouri at Columbia, Missouri. The proposed amendment would authorize the University (1) to operate the nuclear research reactor at steady state power levels up to 10 MWt, an increase from 5 MWt, (2) to receive, possess, and use a 100 curie source of antimony-beryllium, and (3) to incorporate revised Technical Specifications in the license. This proposed amendment would revise the license in its entirety to delete the record keeping and reporting requirements from the license because they will be incorporated in the revised Technical Specifications.

The Commission has found that the application for amendment and supplements comply with the requirements of the Atomic Energy Act of 1954, as amended ("the Act"), and the Commission's regulations published in 10 CFR Chapter I. The amendment will be issued after the Commission makes the findings required by the Act and the Commission's regulations which are set forth in the proposed amendment and concludes that the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public.

The applicant may file a request for a hearing on or before June 24, 1974, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the application for amendment dated August 25, 1972, and supplements dated October 5, 1973, January 11, 1974, February 28, 1974, and March 13, 1974, (2) the proposed amendment, (3) the revised Technical Specifications, (4) the related Safety Evaluation by the Directorate of Licensing, and (5) the original Safety Evaluation for operation of the MURR dated July 27, 1966, which are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. A copy of Items (2), (3), (4), and (5) may be obtained upon request sent to the U.S. Atomic Energy Commission, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 24th day of May 1974.

For the Atomic Energy Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Directorate of Licensing.

[FR Doc.74-12871 Filed 6-3-74;8:45 am]

[Docket Nos. 50-346A; 50-440A, 50-441A]

TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO.

Notice and Order for Prehearing Conference

Take notice, that pursuant to the Atomic Energy Commission's "Memorandum and Order" dated January 21, 1974, in the matter of the antitrust proceedings involving the Davis-Besse Nuclear Power Station and Perry Plants, Units 1 and 2, and in accordance with § 2.751a of the Commission's rules of practice, a special prehearing conference will be held on this matter on June 14, 1974 at 9:30 a.m., local time, at the Postal Rate Commission, Suite 500, 2000 L Street NW., Washington, D.C.

V 39 — 108 JUN 4 74 XUM

The subject of this prehearing conference will be: (1) issues in controversy; (2) scope and extent of discovery; (3) consolidation matters; (4) schedule for this proceeding; and (5) such other matters as may aid in this proceeding.

It is so ordered.

Issued this 31st day of May 1974 at Bethesda, Maryland.

Atomic Safety and Licensing Board,
John B. Farmakides,
Chairman.

CIVIL AERONAUTICS BOARD

[Dockets 25513, 25661, Agreement C.A.B. 24392 R-1 through R-3, Agreement C.A.B. 24398]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Notice of Agreement Relating to North Atlantic, South Pacific and North/Central Pacific Proportional Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of May, 1974.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement, which was adopted at a meeting held in New York, April 17, 1974, is for effectiveness May 15, 1974 on the Atlantic and North/Central Pacific and for varying dates of effectiveness on the South Pacific.[1] The agreement has been assigned C.A.B. agreement number 24392.

The agreement would revise proportional fares used in constructing through fares between points in North America and points in Europe/Middle East/Africa, across the South Pacific and North/Central Pacific areas. These changes result from the recent six percent domestic fare increase as well as several U.S.-Canada transborder fare increases and result in proportional fares which do not exceed the appropriate published domestic fares between the U.S. point involved and the specified U.S. gateway. We will also approve, insofar as it has indirect application in air transportation, a mail vote agreement which would permit holding normal and economy-class fares between Vancouver, B.C. and points in the South West Pacific to the level of the corresponding Los Angeles/San Francisco/Portland/Seattle fares.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. It is not found that the following resolutions, incorporated in Agreement C.A.B. 24392 as indicated, are adverse to the public interest or in violation of the Act; provided that approval is subject, where applicable, to conditions previously imposed by the Board:

Agreement CAB	IATA No.	Title	Application
24392:			
R-1	015	North Atlantic Proportional Fares—North American	1/2
R-2	015a	South Pacific Proportional Fares—North America	3/1
R-3	015b	North and Central Pacific Proportional Fares—North America	3/1

2. It is not found that the following resolution, which is incorporated in Agreement C.A.B. 24398, and which is indirectly applicable in air transportation as defined by the Act, is adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
24398	003x	Special Application Resolution—South Pacific	3/1

Accordingly, it is ordered, That:

1. Agreement C.A.B. 24392, R-1 through R-3 and Agreement C.A.B. 24398 be and hereby are approved; subject, where applicable, to conditions previously imposed by the Board; and

2. The carriers are hereby authorized to file tariffs implementing the approved agreements on not less than one day's notice for effectiveness not earlier than June 1, 1974. The authority granted in this paragraph expires with June 30, 1974.

This order will be published in the Federal Register.

By the Civil Aeronautics Board:

[SEAL] Edwin Z. Holland,
Secretary.

[FR Doc.74-12747 Filed 6-3-74;8:45 am]

---

[1] Revisions to proportionals for South Pacific special fare categories are proposed to be effective June 1, 1974 and will reflect changes to currently effective domestic and transborder fares. Revisions to proportionals for South Pacific normal first- and economy-class fares are proposed to be effective July 1, 1974 and will reflect recently filed six percent increases to U.S.-Hawaii fares due to become effective by July 1, 1974. This two-step approach reflects the Board's condition to its recent approval of South Pacific normal fares to require that these IATA through fares from mainland points to South Pacific points not exceed the sum of the local sector fares over Hawaii.

[Docket No. 22859; Order 74-5-139]

OZARK AIR LINES, INC.

Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of May, 1974.

By tariff revisions filed April 29, 1974, and marked to become effective June 1, 1974, Ozark Air Lines, Inc. (Ozark) proposes to increase its domestic air freight rates as follows:

1. Bulk minimum charges from $10 to $12;
2. Adjust general commodity rates systemwide by variously increasing and reducing these rates on a mileage block basis. The increases range from 0.4 to 36 percent (with most below 17 percent) and reductions of from 2 to 16 percent;
3. Specific commodity rates on cut flowers and magazines to equal 70 and 75 percent of the applicable general commodity rate, respectively; and
4. Cancel all other specific commodity rates except some 1,000-pound rates on automobile parts.

In support of its proposal, Ozark asserts, inter alia, that it is attempting to eliminate inconsistencies in its rate structure by establishing more uniform, competitive rates based on a mileage block formula. The carrier has incurred an operating loss exceeding $1,574,000 from its air freight operations for the 12 months ended December 31, 1973. Furthermore, the carrier contends that spiralling costs, especially those related to fuel, have increased its expenses considerably. Even with the proposed rate increase, which it expects will generate more than $525,000 of additional revenue in 1974, Ozark estimates that it will incur an operating loss of $260,000 from its air freight operations.

The proposed rates and charges come within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

The Ozark filing is one of a group of rate increases filed in recent weeks. The Board has reviewed these proposed rates in the light of industry costs of carrying air freight (including a full return on investment), which reflect recognition of sharp increases in fuel costs recently experienced. Most of Ozark's proposed rates do not exceed those costs and will be permitted to become effective.

The rates on human remains, however, significantly exceed costs in all markets. In view of the foregoing and upon consideration of all other relevant factors, the Board finds that the proposal, to the extent it results in higher rates for movements of human remains, should be suspended.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That: 1. Pending hearing and decision by the Board, the increased rates described in Appendix A[1] hereto are suspended and their use deferred to and including August 29, 1974, unless otherwise ordered by the Board, and that no change be made therein during the period of suspension except by order or special permission of the Board;

2. Copies of this order shall be filed with the tariffs and served upon Ozark Air Lines, Inc.

This order will be published in the Federal Register.

By the Civil Aeronautics Board:

[SEAL] Edwin Z. Holland,
Secretary.

COMMISSION ON REVISION OF THE FEDERAL COURT APPELLATE SYSTEM

STRUCTURE AND PROCEDURES OF FEDERAL COURT

Notice of Hearing

May 29, 1974.

The Commission on Revision of the Federal Court Appellate System will hold hearings in Chicago on June 10 and June 11, 1974 on the structure and internal procedures of the Federal courts of appeal system. The hearings will commence at 10 a.m. in the Court of Appeals Courtroom, 27th Floor, Everett McKinley Dirksen Building, 219 South Dearborn Street, Chicago, Illinois.

Prospective witnesses are invited to communicate with the Executive Director of the Commission at the address listed below as soon as convenient, if they wish to testify:

209 Court of Claims Building
717 Madison Place, NW.
Washington, D.C. 20005
Telephone: (202) 382-2943

A. Leo Levin,
Executive Director.

DEFENSE MANPOWER COMMISSION

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Defense Manpower Commission on June 14, 1974, at 9:00 a.m. in room 705, 1016 16th Street, NW., Washington, D.C. 20036.

The purpose of the meeting is to discuss the study plan of the Commission, its objectives and phasing.

The meeting will be open to the public. Interested persons wishing to attend should telephone 202/382-1331 by close of business Monday, June 10, 1974.

Curtis W. Tarr,
Chairman.

May 31, 1974.

DEFENSE NUCLEAR AGENCY

STEMMING AND CLOSURE PANEL (SACPAN)

Notice of Meeting

The next meeting of the Stemming and Closure Panel (SACPAN), sponsored by the Defense Nuclear Agency (DNA), will be held 5-6, June 1974. SACPAN members will be asked to provide advice on on-going and future DNA underground test programs. The meeting will be closed to the public.

Jack R. Kelso,
Acting Executive Secretary,
SACPAN.

[FR Doc. 74-12713 Filed 6-3-74;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[OPP-10002]

INSECTICIDES IN FOOD HANDLING ESTABLISHMENTS

Extension of Time Period

The Environmental Protection Agency (EPA) published in the Federal Register of August 10, 1973 (38 FR 21686), a notice concerning definitions and a policy statement regarding insecticides intended for use in food handling establishments. That notice also required that labeling modifications concerning crack and crevice treatments in food areas be made to pesticide products. That notice provided a 6-month period from its date of publication for such labeling modifications to be approved.

Applications for label modifications have been so numerous that it has not been possible to complete the review within the time allocated. For this reason, the time originally established for labeling amendments is hereby extended to October 21, 1974.

The previous notice also discussed the requirement for food additive regulations. A protocol for determining residues in food areas of food handling establishments has been developed through coordination with the Federal Working Group on Pest Management. This protocol is intended for the generation of information to support food additive regulations. A copy of this protocol may be obtained by writing to the Director, Registration Division (HM-567), Attention: Special Registration Section, Environmental Protection Agency, Washington, D.C. 20460.

Dated: May 29, 1974.

James L. Agee,
Acting Assistant Administrator for Water and Hazardous Materials.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

MASSACHUSETTS COMMISSION AGAINST DISCRIMINATION ET AL.

New Proposed 706 Agencies

Pursuant to § 1601.12(g), Title 29, Chapter 14 of the Code of Federal Regulations as revised and published in the Federal Register, Volume 37, No. 89, pages 9214-9220, May 6, 1972, the Equal Employment Opportunity Commission (hereinafter referred to as the Commission) proposes designation of the agencies listed below as 706 agencies (§ 1601.12(c)), provisional 706 agencies (as defined in § 1601.12(d)(1)), and Provisional Notice agencies (as defined in § 1601.12(d)(2)), for purposes of receiving charges deferred by the Commission pursuant to section 706 (c) and (d) of Title VII of the Civil Rights Act of 1964, as amended, and for purposes of according weight to the final findings and orders of those agencies pursuant to § 1601.12 (g)(1), and commences the 15-day period within which any person or organization may file written comments as provided for under § 1601(g)(1). At the expiration of the 15-day period, the Commission may effect designation of each of these agencies by publishing the list of them as an amendment to § 1601.12(k). Additions to the list may be made by the Commission by similar notice and publication. The designated 706 Agency is:

1. Massachusetts Commission Against Discrimination.

The Provisional 706 Agencies are:

1. The Baltimore Community Relations Commission.
2. Bloomington Human Rights Commission.
3. Dade County Fair Housing and Employment Commission.
4. East Chicago Human Relations Commission.
5. Gary Human Relations Commission.
6. Idaho Commission on Human Rights.
7. Kansas Commission on Civil Rights.
8. Kentucky Commission on Human Rights.
9. New York City Commission on Human Rights.
10. Ohio Civil Rights Commission.
11. Oklahoma Human Rights Commission.
12. Philadelphia Commission on Human Relations.
13. Seattle Human Rights Commission.
14. Tacoma Human Rights Commission.
15. Washington State Human Rights Commission.

The Provisional Notice Agencies are:

1. Florida Commission on Human Relations.
2. South Carolina Governors Advisory Commission on Human Relations (Sec. 713(a), 76 stat. 265, 42 U.S.C. Sec. 2000e-12(a)).

Signed this 29th day of May 1974.

John H. Powell, Jr.,
Chairman.

V39108 JUN 4 74 XUM

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 20053, 20054; File Nos. BPH-7606, 8353]

JAPAT, INC., AND DOWN EAST BROADCASTING, INC.

Memorandum Opinion and Order

In re applications of Japat, Inc., Westbrook, Maine, Docket No. 20053, File No. BPH-7606, requests: 100.9 MHz, #265; 891 W (H & V); 508 feet; Down East Broadcasting, Inc., Westbrook, Maine, Docket No. 20054, File No. BPH-8353, requests: 100.9 MHz, #265; 900 W (H & V); 504 feet, for construction permits.

1. The Commission, by the Chief of the Broadcast Bureau, acting under delegated authority, has before it the above applications which are mutually exclusive since each of the applicants has requested authority to operate on the same FM broadcast channel allocated to the same community.

2. Although both applicants appear to have made substantial efforts to ascertain the community problems of their proposed service areas, neither of them has complied fully with the requirements of our Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971). Specifically, although both applicants assert that the economic life of Westbrook is dominated by the S. D. Warren Company, Japat, Inc., has not interviewed any officials of that company or of the union to which employees of that company belong. This is a serious defect since, as explained in answer 16 of our Primer, supra, "the omission of consultations with leaders of a significant interest group would make the applicant's showing defective, since those consulted would not reflect the composition of the community." See Voice of Dixie, Inc., 45 FCC 2d 1027 (1974). In addition, neither applicant has explained the method used to assure that random sample of members of the general public was consulted to determine relevant community problems. See paragraph 41 of the Primer, 27 FCC 2d 650 (1971), at 667. Thus, appropriate issues will be specified as to both applicants.

3. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

4. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the efforts made by the applicants to ascertain the community problems of the area to be served and the means by which the applicants propose to meet those problems.

2. To determine which of the proposals would, on a comparative basis, better serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

5. *It is further ordered*, That the applicants shall file a written appearance stating an intention to appear and present evidence on the specified issues, within the time and in the manner required by § 1.221(c) of the rules.

6. *It is further ordered*, That the hear-applicants shall give notice of the hearing within the time and in the manner specified in § 1.594 of the rules, and shall seasonally file the statement required by § 1.594(g).

Adopted: May 22, 1974.

Released: May 28, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.74-12729 Filed 6-3-74;8:45 am]

[Docket No. 20005, RM-1635, RM-1849, RM-2045]

PUBLIC UTILITY METERS

Order Extending Time

In the matter of the development of frequency allocations and regulations applicable to the use of radio for the remote reading of public utility meters.

1. The Commission has before it for consideration a Motion for Extension of Time in the above named proceeding filed on behalf of the Utilities Telecommunications Council (UTC) requesting a 60 day extension in the time for filing comments and an additional 30 days for reply comments in response to the Commission's notice of inquiry herein, adopted April 9, 1974.

2. According to UTC, a preliminary examination of the Commission's notice of inquiry reveals that the subject matter is of great interest and importance to the utility industry. UTC says that in order for it to properly evaluate the subject matter and file responsive and meaningful comments, additional time is required for securing data from the various member utilities and for preparing and coordinating the comments.

3. The Commission recognizes the importance of this proceeding to the utility industry and it is our hope to obtain meaningful comments on the several issues raised in the notice of inquiry. We also recognize the difficulty UTC may have in developing comments representing its diverse and widespread membership, as well as its desire to coordinate its proposed filing at the Annual UTC Meeting in June. We believe therefore that good cause has been shown for the requested extension of time and that such extension would not seriously delay the proceeding nor inconvenience other parties intending to file.

4. *Accordingly, it is ordered*, pursuant to authority contained in section 5(d) of the Communications Act of 1934, as amended [47 U.S.C. 155(d)] and § 0.251(b) of the Commission's rules [47 CFR 0.251(b)] the date for filing comments in this proceeding is extended from May 23, 1974, to July 22, 1974, and the date for filing reply comments is extended from June 3, 1974, to August 21, 1974.

Adopted: May 21, 1974.

Released: May 21, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] ASHTON HARDY,
General Counsel.

[FR Doc.74-12728 Filed 6-3-74;8:45 am]

[Docket No. 20055; File No. BPH-8066, etc.]

PRAIRIELAND BROADCASTERS ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Stephen P. Bellinger, Joel W. Townsend, Ben H. Townsend and Reynold Fischman, d/b as PRAIRIELAND BROADCASTERS, Decatur, Illinois, Docket No. 20055, File No. BPH-8066, Requests: 95.1 MHz, #236; 50 kW (H & V); 500 feet; WBIZ, INCORPORATED, Decatur, Illinois, Docket No. 20056, File No. BPH-8267, Reqeusts: 95.1 MHz, #236; 50 kW (H & V); 500 feet; SUPERIOR MEDIA, INC., Decatur, Illinois, Docket No. 20057, File No. BPH-8351, Requests: 95.1 MHz, #236; 500 kW (H & V); 500 feet; DECATUR BROADCASTING, INC., Decatur, Illinois, Docket No. 20058, File No. BPH-8390, Requests: 95.1 MHz, #236; 50 kW (H & V); 500 feet; L.E.G., Inc., and John G. Cheeks, d/b as SOY COMMUNICATIONS COMPANY, A JOINT VENTURE, Decatur, Illinois, Docket No. 20059, File No. BPH-8682, Requests: 95.1 MHz, #236; 50 kW (H & V); 500 feet, for construction permits.

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned applications which are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference.

2. Examination of the application of Prairieland Broadcasters indicates that the applicant conducted a general audience survey, there is no indication of the number of persons contacted or the method used to insure that a random sample was achieved as required by the Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971). Accordingly, a Suburban[1] issue will be included.

3. The application of WBIZ, Inc., indicates that although its consultations with community leaders was personally conducted by principals or management-level employees, its telephone survey of the general public was made under the direction and supervision of a principal "by two staff members of the Millikin University radio station." Since it is not clear whether the two individuals are also employees or prospective employees of the applicant, the survey does not meet the requirements of answer 11(b) of the Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971). Accordingly, an issue with respect thereto has been specified.

4. With reference to the general audience survey of Superior Media, Inc., the applicant states that it was conducted by "an experienced interviewer hired by the applicant for this purpose." The applicant further states that the interviewer worked under the direction and supervision of the applicant's stockholders. Since it is not clear whether the interviewer was a representative of a professional research organization, as required by answer 11(b) of the Primer, an issue will be included.

5. Decatur Broadcasting, Inc., will require $109,804 to construct and operate the proposed facility for a period of one year, itemized as follows:

Down payment on equipment	$16, 912
Fourteen months' payments on principal and interest	15, 648
Land	15, 000
Miscellaneous items	4, 645
Working capital requirement	54, 204
Interest on bank loan at 10.5 percent	3, 400
Total	109, 804

To meet this requirement, the applicant relies upon existing capital, a bank loan, and stock subscriptions. Existing capital and prepaid expenses total $8,000. However, of the $82,000 in subscriptions and $40,000 loan, only $41,000 has been established as available. The balance sheet of Mr. Christofilakos, dated June 30, 1973, shows inadequate funds to meet his commitment. The balance sheets of Mr. Farrow and Mr. Squires refer to the availability of "marketable securities". However, there is no indication of which specific securities are held or on which exchange those securities traded. Mr. Gair's balance sheet lists stock in a company known as Hen House, Inc. However, the stock is not listed on any major exchange. As a result, only $41,000 of the $82,000 in subscriptions has been established as available. In addition, the bank loan is not acceptable since it requires the firm guarantees of several of the parties to the applicant. The guarantees submitted by these parties were equivocal and therefore unacceptable. Accordingly, an appropriate financial issue will be specified.

6. By letter of March 1, 1974, the Commission noted that the number of interviews which Decatur Broadcasting, Inc., had conducted with community leaders appeared to be inadequate and requested that additional leaders from both the city of Decatur and Macon County be consulted. By amendment received May 3, 1974, the applicant submitted a list of an additional 18 community leaders. However, it appears that a total of 32 community leaders is insufficient to meet the Primer requirements, considering the size of the Decatur community. Moreover, although labor unions are numerous in the Decatur area, apparently no labor leaders were interviewed. Accordingly, an issue will be specified. Voice of Dixie, Inc., 45 FCC 2d 1027 (1974).

7. Soy Communications, Inc.'s application states that interviews with the general public were made by C. Grabb and B. Mowry, under the "general supervision" of L. E. Grabb. L. E. Grabb is president of the applicant; C. Grabb and B. Mowry are not identified. Thus, since a substantial question exists as to whether the requirements of answer 11(b) of the Primer have been met, an issue will be included.

8. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

9. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the efforts made by the applicants to ascertain the community problems of the area to be served and the means by which the applicants propose to meet those problems.

2. To determine, with respect to the application of Decatur Broadcasting, Inc.:

(a) The source and availability of funds in addition to those noted in paragraph 5, supra;

(b) Whether, in light of the evidence adduced pursuant to (a), above, the applicant is financially qualified to construct and operate as proposed.

3. To determine which of the proposals would, on a comparative basis, best serve the public interest.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues which, if any, of the applications should be granted.

10. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

11. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: May 22, 1974.

Released: May 29, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FEDERAL ENERGY OFFICE

PROJECT INDEPENDENCE ADVISORY COMMITTEE

Notice of Establishment

This notice is published in accordance with the provisions of section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463). Following consultation with the Office of Management and Budget, notice is hereby given that it is in the public interest, in connection with the performance of the duties delegated to the Federal Energy Office by Executive Order No. 11748 to establish the Project Independence Advisory Committee.

A description of the nature and purpose of this Committee is contained in its Charter which is published below.

Because of the short time in which we must prepare the Project Independence Report and the complexity of the tasks to be performed by the group, the Office of Management and Budget has authorized filing of the charter seven days after publication of this notice.

CHARTER

PROJECT INDEPENDENCE ADVISORY COMMITTEE

A. *Establishment*. The Administrator, Federal Energy Office, having determined after consultation with the Director, Office of Management and Budget, that it is in the public interest in connection with the performance of duties imposed on the Federal Energy Office by Executive Order #11748, dated December 4, 1973, which delegated to the Administrator, Federal Energy Office, authority vested in the President by the Emergency Petroleum Allocation Act of 1973 (Pub. L. 93-159), and Defense Production Act of 1950 (50 U.S.C. App. 2061 et seq.), as amended, hereby establishes the Project Independence Advisory Committee pursuant to the Federal Advisory Committee Act (Pub. L. 92-463).

B. *Duties, functions and administrative provisions*—1. *Objectives and scope*. The objective of the Project Independence Advisory Committee is to provide independent advice and review to the Federal Energy Office (FEO) with respect to the strategies, goals, and analysis of Project Independence.

2. *Committee tenure*. In view of the goals and purposes of the Committee, it will be expected to continue for two years or 30 days following the submission of the Project Independence Report, whichever comes first.

3. *Official to whom Committee reports*. The Committee will report to the Administrator, Federal Energy Office.

4. *Support services*. Necessary support for the Committee will be furnished by the Federal Energy Office.

5. *Committee duties*. The duties of the Committee are solely advisory and are to provide the Federal Energy Office with direct and timely access to the Committee members' expertise relating to various segments of the economy.

6. *Estimated annual cost*. The estimated annual operating costs for the Committee are $20,000.00 and approximately one-half man years of staff support.

7. *Meetings*. The committee will meet approximately bimonthly during its tenure.

8. *Termination date*. The Committee will terminate two years from date of this Charter or 30 days after the submission of the President's report on Project Independence, whichever comes first, unless prior to those

V39—108 JUN 4 74 XUM

dates renewal action is taken by the Administrator, FEO.

Dated: May 28, 1974.

John C. Sawhill,
Administrator.

[Docket No. 74-20]

NONCOMPLIANCE WITH REPORTING REQUIREMENTS OF GENERAL ORDERS 5 AND 11

Notice of Intent To Cancel Tariffs

The files of the Federal Maritime Commission contain domestic offshore tariffs filed by the following carriers including their last known addresses:

Alaskan Barge & Salvage, Inc.
Suite 720, First National Building
425 G Street
Anchorage, Alaska 99501

Alaska Marine Lines, Inc.
226 West Lake, Sammamish Boulevard, SE.
Bellevue, Washington 98008

Arison Shipping Company
820 Biscayne Boulevard
Miami, Florida 33132

Atlantic Caribbean Express, Inc.
13176 NE. 6th Avenue, Suite 19
North Miami, Florida 33161

Caribbean Ferry Service, Inc.
Caribbean Towers Building, Suite 23
760 Ponce De Leon Avenue
Miramar, Puerto Rico 00907

Indian Towing Company, Inc.
2200 Surekote Road
New Orleans, Louisiana 70117

Marine and Marketing International Corporation
PO Box 3310
Miami, Florida 33101

Motonaves Florida Lines, S. A.
c/o Florida Motorships Corporation
PO Box 13138—Port Everglades Station
Fort Lauderdale, Florida 33316

Southeast & Caribbean Shipping Co., Inc.
750 NE 7th Avenue
Dania, Florida 33004

Star Shipping Corporation
1177 Brickell Avenue
Miami, Florida 33131

Virgin Islands Container Line
17 Battery Place—Room 600
New York, New York 10004

These carriers have failed to comply with the provisions of §§ 511.2 and 511.3 of the Commission's General Order 5, as amended, and § 512.3 of its General Order 11, as amended. These provisions provide for the submission of annual financial and operating data of all common carriers by water who operate in the

V 39 108 JUN 4 74 XUM

domestic offshore trades of the United States. Authority for these regulations is provided by section 21 of the Shipping Act, 1916, as amended, the pertinent part of which reads as follows:

> That the board may require any common carrier by water, or other person subject to this Act, or any officer, receiver, trustee, lessee, agent, or employee thereof, to file with it any periodical or special report, or any account, record, rate, or change, or any memorandum of any facts and transactions appertaining to the business of such carrier or other person subject to this Act * * *

Although numerous letters have been dispatched to the carriers under reference, the Commission's staff has been unable to persuade them to file the required financial and operating data that is essential to the Commission's purposes in discharging its regulatory responsibilities. Without annual financial and operating data the Commission is unable to determine whether or not the level of the rates shown in the domestic offshore tariffs of the carriers listed above are reasonable, or provide for an unfairly high rate of return, or are so low as to be detrimental to the commerce of the United States. Accordingly, the Commission proposes to cancel their tariffs in the absence of a showing of good cause as to why they should not be canceled.

Now, therefore, it is ordered, That the above carriers advise the Secretary, Federal Maritime Commission, at 1100 L Street, NW., Washington, D.C., 20573, in writing on or before July 5, 1974 of any reasons why the Commission should not cancel their domestic offshore tariffs;

It is further ordered, That a copy of this order be sent by registered mail to the last known address of the carriers listed herein;

It is further ordered, That this notice be published in the FEDERAL REGISTER and a copy thereof filed with all tariffs that may be canceled pursuant to this notice.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. RP71-122; Docket No. RP74-94-1]

ARKANSAS ELECTRIC COOPERATIVE CO. ET AL.

Order Granting Motion, Setting Petition for Hearing, Consolidating Proceedings, and Establishing Procedures

MAY 24, 1974.

On March 22, 1974, Arkansas Electric Cooperative Corporation (Cooperative), filed a motion in Docket No. RP74-94-1 requesting authorization to transfer volumes of gas which it receives from Arkansas Louisiana Gas Company (Arkla), at two of its power plants to a third plant located at Camden, Arkansas, hereafter referred to as the McClellan plant.

Cooperative stated in its motion that it required the transfer of volumes to permit the McClellan plant to continue operation because its gas supply was cut off by Arkla at that plant on February 20, 1974, when Arkla initiated the implementation of its currently effective curtailment plan. Cooperative further states that its two plants now receiving gas, located at Augusta and Ozark, Arkansas, respectively, are equipped to operate without natural gas and that the volumes they require can be transferred to the McClellan plant without detrimental effect upon any other Arkla customer.

We will grant the instant motion allowing the transfer of delivery points. By doing so, Cooperative will be able to continue at least partial operation of the McClellan plant until such time as the hearings herein are concluded and a decision is rendered regarding the propriety of granting their Petition for Individualized Treatment.

Our authorization of Cooperative's motion is without prejudice to any pending or future proceeding involving the issues of conjunctive billing, group billing, or the practice of permitting multiple delivery points under single contracts or service agreements. Each authorization rests on its own merits. In this particular case, Cooperative is proceeding with prompt dispatch to convert its McClellan plant to use of an alternate fuel. Also, no additional industrial consumption of natural gas will occur over that which is presently allocated under Arkla's curtailment plan. This authorization will expire on October 30, 1974, when Cooperative expects to complete conversion of its McClellan plant to use an alternate fuel, or, when Cooperative's Petition for Individualized Treatment is adjudicated based on facts developed in a formal proceeding as hereinafter provided for, whichever occurs sooner.

On March 28, 1974, Cooperative filed in Docket No. RP74-94-1 the above petition pursuant to Ordering Paragraph (C) of Opinion No. 643 requesting the Commission to authorize an allocation of gas under the Arkla curtailment plan to the McClellan plant based on a percentage of the plant's current requirements since it is alleged by Cooperative that the McClellan plant was not in operation during the three-year period ending September 30, 1971, the period prescribed as the base period for determining customer volumes within a given priority when curtailment necessitates the cutting back of gas deliveries in such priority.

Because of the factual and legal issues presented in the above petition, we find it appropriate to order an evidentiary hearing thereon. In addition, we will order this proceeding to be consolidated with our previously ordered hearing[1] involving the implementation of Arkla's curtailment plan because of common issues of law and fact involved in both proceedings.

The Commission finds. (1) Good cause exists to grant Cooperative's motion requesting authorization to transfer volumes between delivery points.

(2) Good cause exists to set for hearing Cooperative's Petition for Individualized Treatment and to consolidate that petition for purposes of hearing and decision with the proceeding involving the similar requests filed by Mississippi River Transmission Corporation and Cities Service Gas Company and to establish the procedures for the consolidated hearing, all as hereinafter ordered.

The Commission orders. (A) Cooperative's Motion requesting authorization to transfer volumes between delivery points is granted, subject to the terms and conditions set forth in the body of this order.

(B) Cooperative's Petition for Individualized Treatment is hereby consolidated with the proceeding ordered by Order of March 27, 1974, in the above-referenced docket to commence on June 11, 1974, at 10 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the implementation of Arkla's currently effective curtailment plan in accordance with the provisions of Opinion No. 643, 643-A, and 643-B.

(C) On or before June 4, 1974, Cooperative shall file and serve its testimony and exhibits comprising its case-in-chief upon all parties to this proceeding including Commission staff.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Order Providing for Hearing and Prescribing Procedures, Arkansas Louisiana Gas Company, Docket No. RP71-122, issued March 27, 1974.

[Docket No. CI74-357]

DAVIS OIL CO. ET AL.

Order Providing for Hearing, Granting Interventions and Prescribing Procedures

MAY 24, 1974.

On December 19, 1973, Davis Oil Company (Operator), et al. (Davis) filed an application for a limited-term certificate of public convenience and necessity with pregranted abandonment authorizing a sale of natural gas to Texas Eastern Transmission Corporation (Texas Eastern) for a period of two (2) years from the date of certification of the sale. The acreage is in the South Thornwell Area, Cameron Parish, Louisiana. The proposed price for the gas is 50.0 cents per Mcf subject to upward Btu adjustment. Davis has been selling gas to Texas Eastern on an emergency basis from the acreage covered by the instant application since October 31, 1973, under Commission Order No. 491, and claims that its application should be granted because of a shortage of firm gas supplies on Texas Eastern's system.

We take note that the Commission in a recent order recognized that an emergency exists on Texas Eastern's system. See Ceja Corporation, ---- FPC ----, Docket No. CI74-278, issued on January 16, 1974. We conclude, therefore, that there is an emergency on Texas Eastern's system which would warrant the issuance of a certificate if the price conforms to the public convenience and necessity.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted by the pipeline in the hearing hereinafter ordered (to the extent not hereinabove found to exist) (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the shortfall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act. Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market (Nueces Industrial Gas Company, 45 FPC 1224, 1227 (1971)) and whether that rate is in line with the prevailing normal intrastate market (Atlantic Richfield Company, ---- FPC ----, Docket No. CI73-691, order issued August 30, 1973, and ---- FPC ----, order granting rehearing issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arm's-length negotiations and competitive bidding through nonaffiliated entities.

Timely petitions to intervene were filed by Texas Eastern, the pipeline purchaser, and by Algonquin Gas Transmission Company (Algonquin). Algonquin, in support of its petition, states that Texas Eastern is its sole supplier of gas supplies.

The Commission finds. (1) Good cause exists for setting for immediate formal hearing the issues involved in the aforementioned pleadings and for establishing the procedures for that hearing all as hereinafter ordered.

(2) The participation of Texas Eastern and Algonquin may be in the public interest.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly §§ 7 and 15 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR, Chapter 1) a public hearing shall be held commencing July 30, 1974, at 10 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by the applicant.

(B) On or before July 10, 1974, the applicant and any supporting party shall file with the Commission and serve upon all parties, including the Staff, their testimony and exhibits in support of their position.

(C) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, [see Delegation of Authority (18 CFR 3.5 (d))] shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

(D) The petitioners hereinabove set forth are permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests specifically set forth in the petitions to intervene; and, *Provided, further,* That the admission of said interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.[2]

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-405]

EXXON CORP.

Order Establishing Procedures, Setting Hearing Date and Granting Intervention

MAY 24, 1974.

On January 28, 1974, Exxon Corporation (Exxon) filed in Docket No. CI74-405 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company (El Paso) from the South Carlsbad Field, Eddy County, New Mexico (Permian Basin), all as more fully set forth in the application in this proceeding.

Exxon proposes to sell approximately 51,000 Mcf per month to El Paso from the South Carlsbad Com. #3 well for a period of one year at a rate of 60¢ per Mcf (14.65 psia) subject to upward and downward adjustment from 1,000 Btu per cubic foot. The proposed rate is in excess of 35¢ per Mcf established by Commission Opinion No. 662. This application was noticed on February 7, 1974 and was published in the FEDERAL REGISTER on February 14, 1974. On February 28, 1974, El Paso petitioned to intervene in these proceedings.

In Order 431, issued April 15, 1971, the Commission stated, inter alia, that it would consider limited term certificates with pre-granted abandonment, if the pipeline were to demonstrate emergency need. We note, however, that the Commission in a recent order has already held that an emergency exists on El Paso's system. See Superior Oil Co., —— FPC ——, Docket No. CI74-327, issued March 25, 1974. We therefore conclude that there is an emergency on El Paso's system.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted in the hearing hereinafter ordered by the pipeline (to the extent not hereinabove found to exist) (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to Section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the Nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the shortfall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act. Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market (Nueces Industrial Gas Company, 45 FPC 1224, 1227 (1971)), and whether that rate is in line with the prevailing normal intrastate market (Atlantic Richfield Company, —— FPC ——, Docket No. CI73-691, order issued August 30, 1973, and —— FPC ——, order granting rehearing issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arm's length negotiations and competi-

[1] Section 2.70 of the Commission's General Policy and Interpretations.

V 39—108 JUN 4 74 XUM

tive bidding through nonaffiliated entities.

The Commission finds. (1) Good cause exists to set for formal hearing the application for a limited term certificate herein.

(2) The intervention of El Paso in this proceeding may be in the public interest.

The Commission orders. (A) The application for limited term certificate for sale of natural gas filed in Docket No. CI74–405 is hereby set for hearing.

(B) El Paso is hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: Provided, however, that the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and Provided, further, that the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly §§ 7, 15 and 16 and the Commission's rules and regulations under that Act, a public hearing shall be held commencing July 22, 1974, at 10 a.m. (EDT) at a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(D) Applicant and all petitioners supporting the application shall, on or before July 15, 1974, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB,
Secretary.

---

[1] Commissioners Brooke, Smith (both concurring) and Moody (dissenting) submitted separate statements filed as part of the original document.

[Docket No. RI74–104]

GULF OIL CORP.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject To Refund

MAY 24, 1974.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the Regulations pertaining thereto (18 CFR, Chapter I), and the Commission's Rules of Practice and Procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf*		Rate in effect subject to refund in docket No.
									Rate in effect	Proposed increased rate	
RI74–104..	Gulf Oil Corp.	138	¹ ² 3 to 14	West Texas Gathering Co. (Emperor Devonian and Emperor Wolfcamp Fields, Winkler County, Tex.) (Permian Basin).	$2,599	4–23–74	....	6–3–74	³ 42.0	42.1575	

* Unless otherwise stated, the pressure base is 14.65 lb/in²a.

¹ Amendment to prior increase to include tax reimbursement that was omitted from prior filing.

² Applicable only to production from the Emperor Devonian and Emperor Wolfcamp Fields.

³ Suspended in Docket No. RI74–104.

The proposed rate increase of Gulf Oil Corporation reflects tax reimbursement that was inadvertently omitted from a prior increase which is currently under suspension until June 3, 1974, in Docket No. RI74–104. The proposed tax increase is suspended for the same period of time and in the same proceeding that Gulf's underlying rate is suspended.

[FR Doc.74–12693 Filed 6–3–74;8:45 am]

TECHNICAL ADVISORY COMMITTEE TASK FORCES

Order of Renewals of National Gas Survey

MAY 24, 1974.

This order renews the terms of three Distribution-Technical Advisory Committee Task Forces (Facilities, Finance, and Regulation and Legislation) of the Federal Power Commission's National Gas Survey, from and after May 25, 1974, to and including a date not later than December 31, 1974.

These Task Forces were established pursuant to Commission order issued May 25, 1972, 37 FR 11210. This order is in accord with earlier Commission orders issued February 23, 1971, 36 FR 3851, April 6, 1971, 36 FR 6922, May 10, 1971, 36 FR 8910, and December 21, 1971, 36 FR 25183. These Task Forces are affected by later Commission orders amending prior Survey orders issued April 25, 1972, 37 FR 8578, June 27, 1972, 37 FR 13306 and December 19, 1972, 37 FR 28658. As so constituted, they are consistent with the provisions of applicable statutory and Executive order requirements.

By notice published May 9, 1974, 39 FR 16517, the Chairman of the Commission has determined and certified that renewal of these Task Forces for the period set forth herein is necessary in the public interest in connection with the performance of duties imposed upon the Commission by law.

Pursuant to section 14(a)(1) of the Federal Advisory Committee Act, 86 Stat. 776, and Office of Management and Budget (OMB) Circular No. A–63, "Advisory Committee Management", revised March 27, 1974, paragraph 7, the Federal Power Commission, prior to the termination date of May 25, 1974, of these Task Forces, requested renewal thereof through December 31, 1974, by letter

dated May 6, 1974, to OMB. Subsequently, OMB ascertained that the renewal of the subject Task Forces is in accord with the requirements of the Federal Advisory Act, 86 Stat 770, et seq., and granted the request for renewal.

The Federal Power Commission hereby determines that the continued establishment of the Task Forces herein is in the public interest in connection with the performance of duties imposed on the Commission by law. Reports by the Task Forces have been submitted to the Commission through their respective Technical Advisory Committees. It is contemplated that they will be published, along with the reports of their parent Advisory Committees and the Commission's report prior to December 31, 1974. The rapidly developing energy crisis and long-term energy strategy has been more fully delineated since commencement of this Survey in 1971. It is clear, therefore, that certain aspects of the present gas shortage originally studied by the Survey require further investigation and analysis.

The Commission establishes and continues these Task Forces in accordance with the provisions of this order, and the provisions of an earlier Commission order issued February 23, 1973, 38 FR 5940, which restates, for convenience purposes, the content of the Commission's order of February 23, 1971, so as to reflect in one order format provisions of succeeding orders of this Commission which have changed portions of the February 23, 1971, order as necessary from time-to-time by reason of Commission determinations and subsequently enacted Executive orders and the Federal Advisory Committee Act.

1. *Purpose.* The purposes of the Technical Advisory Task Forces are set forth in the Commission's April 6, 1971, Order Establishing National Gas Survey Technical Advisory Committees and Designating Initial Membership. The Technical Advisory Committee Task Forces are organizationally subordinate to their respective Technical Advisory Committees.

The Commission's order issued February 23, 1973, states in part as follows:

> To assist the actions of the Commissioners and Commission staff, the Commission will use various advisory committees which shall be conducted under the general direction of the Commission. All will be conducted pursuant to the general requirements as set forth in this order. The Commission contemplates the issuance of specific order or orders from time-to-time establishing each committee and denominating its membership and chairmanship.
>
> The advice of all committees shall be limited to matters relating solely to the planning and carrying out of the National Gas Survey. The Commission will have complete responsibility for the National Gas Survey with respect to its conduct, scope, the ultimate recommendations and the acceptance of the final report. In discharging these responsibilities, the Commission will approve the Survey's objectives, scope of work, organization and schedule of performance, make any required policy determinations and give its advice directed toward the coordination and cooperation between the Survey and any intergovernmental, state, industry, agency or representative, including any other expertise as required.

2. *Membership.* With respect to each Task Force, the Task Force Chairman (who shall be designated Director), the Deputy Director, the FPC Survey Coordinating Representative and Secretary, the FPC Representative and the other Task Force members, shall be selected by the Chairman of the Commission with the approval of the Commission, and are designated in the Appendix[1] hereto, and any additional persons that may be designated to serve on the Task Forces shall be selected by the Chairman of the Commission, with the approval of the Commission, provided, however, the Chairman of the Commission may select and designate additional persons to serve in the capacity of Alternate FPC Survey Coordinating Representative and Secretary. The person or persons who are designated as the FPC Survey Coordinating Representative and Secretary shall be full-time salaried officers or employees of the Commission. The FPC Survey Coordinating Representative and Secretary, or alternates, shall be designated by the Chairman and serve as Secretary of the Task Force Committee for which selected. The Directors, Deputy Directors, FPC Survey Coordinating Representatives and Secretaries and alternates, the FPC Representatives and the other Task Force members, as selected and approved in accordance with this order, are designated in the Appendix hereto.

The following paragraphs of the aforementioned Commission order, issued February 23, 1973, are hereby incorporated by reference:

3. Conduct of Meetings.
4. Minutes and Records.
5. Secretary of the Committee.
6. Location and Time of Meetings.
7. Advice and Recomendations Offered by the Committee.
8. Duration of the Committee.

Neither the Executive Advisory Committee, the respective Technical Advisory Committees, the Coordinating Committee, nor such other committee or committees as may be established shall be permitted to receive, compile or discuss data or reports showing the current or projected nonpublic commercial operations of identified business enterprises. Data or reports of a nonpublic nature that are requested from identified business enterprises shall be submitted directly to the Director of the National Gas Survey, or to such person on his staff as designated by the Director, and such data or reports will be composited with that submitted by other identified business enterprises and reported on a composite basis and the provisions of section 8(b) of the Natural Gas Act, 15 U.S.C. 717(g), and the Freedom of Information Act, 5 U.S.C. 552(b)(4), shall apply.

The Technical Advisory Committee Task Forces, as established, continued, and described by this order, shall terminate not later than December 31, 1974.

The Secretary of the Commission shall file with the Chairman, Committee on Commerce, United States Senate, Chairman, Interstate and Foreign Commerce Committee, House of Representatives, and Librarian, Office of Management and Budget, Department of Justice, Office of Legal Counsel and the Library of Congress, copies of this order, as constituting the charter of the National Gas Survey Committees hereinabove described.

This order is effective May 26, 1974.

The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74–12694 Filed 6–3–74;8:45 am]

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON THE IMPACT OF INADEQUATE ELECTRIC POWER SUPPLY

Notice of Meeting

Agenda for a meeting of the Technical Advisory Committee on the Impact of Inadequate Electric Power Supply to be held at the Federal Power Commission Offices, 825 North Capitol Street NE., Washington, D.C., 10 a.m., June 18, 1974, Room 5200.

1. Meeting opened by FPC Coordinating Representative.
2. Objectives and purposes of meeting.
   a. Correction and additions to minutes of previous meeting.
   b. Discussion of the May 6, 1974 memorandum "Definition of Shortfall" by Rene H. Males and Frank J. Alessio.
   c. Report on Dr. Stelzer's meeting with large industrial firms.
   d. Report on conditions in Great Britain during the recent electric power shortage.
   e. Setting of timetable for drafting committee report.
   f. Other business.
   g. Set date of next meeting.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

NEW ENGLAND POWER POOL ET AL.

Notice of Extension of Time

MAY 21, 1974.

On May 20, 1974, Richmond Power and Light of the City of Richmond, Indiana

V 39 108 JUN 4 74 XUM

(Richmond), filed a motion for an extension of time to and including May 23, 1974, within which to file comments pursuant to paragraph (A) of the notice issued April 30, 1974, in the above-designated matter.

Upon consideration, notice is hereby given that the time is extended to and including May 22, 1974, within which Richmond may file its comments in the above-designated matter.

KENNETH F. PLUMB,
Secretary.

[FR Doc 74-12691 Filed 6-3-74;8:45 am]

[Docket No. CI74-289]

PATRICIA J. MITCHELL

Order Providing for Formal Hearing and Establishing Procedures

MAY 24, 1974.

On November 5, 1973, Patricia J. Mitchell (Applicant) filed in Docket No. CI74-289 an application pursuant to section 7(c) of the Natural Gas Act and § 2.70 of the Commission's general policy and interpretations thereunder for a limited-term certificate of public convenience and necessity with pre-granted abandonment authorizing the sale of natural gas to Transcontinental Gas Pipe Line Corporation (Transco) from acreage in Live Oak County, Texas. The limited-term certificate application provides for Applicant to sell to Transco approximately 30,000 Mcf per month at a rate of 50.0 cents per Mcf. Applicant requests authorization of the proposed sale to Transco for a term of 12 months from the date of delivery. Applicant will commence deliveries to Transco pursuant to § 157.29 of the Commission's Regulations, and such sale will not exceed 60 days from the date of first delivery.

In Order 431, issued April 15, 1971, the Commission stated, inter alia, that it would consider limited term certificates with pre-granted abandonment, if the pipeline were to demonstrate emergency need. We note, however that the Commission in a recent order has already held that an emergency exists on Transco's system. See Texaco, Inc., —— FPC ——, Docket No. CI74-185, issued November 30, 1973. We therefore conclude that there is an emergency on Transco's system.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted in the hearing hereinafter ordered by the pipeline (to the extent not hereinabove found to exist) (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to Section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the Nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the shortfall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act. Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market (Nueces Industrial Gas Company, 45 FPC 1224, 1227 (1971), and whether that rate is in line with the prevailing normal intrastate market (Atlantic Richfield Company, —— FPC ——, Docket No. CI73-691, order issued August 30, 1973, and —— FPC ——, order granting rehearing issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arm's-length negotiations and competitive bidding through non-affiliated entities.

No petitions to intervene have been filed in this proceeding; however, a letter in support of the application was filed by Transco on November 23, 1973, in Docket No. CI74-289.

The Commission finds. (1) Good cause exists to set for formal hearing the application for a limited term certificate herein.

The Commission orders. (A) The application for limited term certificate for sale of natural gas filed in Docket No. CI74-289 is hereby set for hearing.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly §§ 7, 15, and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing June 25, 1974, at 10 a.m. (e.d.t.) at a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(C) Applicant and all petitioners supporting the application shall, on or before June 18, 1974, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

(D) A presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

By the Commission.[2]

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RI74-238]

SUN OIL CO.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject To Refund

MAY 24, 1974.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and §1.54-102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

---

[1] Section 2.70 of the Commission's general policy and interpretations.

[2] Commissioners Brooke, Smith (both concurring) and Moody (dissenting) submitted separate statements filed as part of the original document.

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf[*]		Rate in effect subject to refund in dockets No.
									Rate in effect	Proposed increased rate	
RI74-238	Sun Oil Co.	174	10	El Paso Natural Gas Co. (Coyanosia (Devonian) Field, Pecos County, Tex.) (Permian Basin).		4-29-74	5-30-74	([4])			
	do		[1] 11		$36,206	4-29-74	5-30-74	([4])	19.3278	[1] [3] 24.5	
	do		[1] 12		143,500	4-29-74		10-30-74	[3] 24.5	45.0	

[*] Unless other wise stated, the pressure base is 14.65 lb/in^{2}a.

[1] Contract amendment dated Dec. 20, 1973.

[2] Applicable only to production from the J. O. Neal, No. 4 well, pursuant to Supplement No. 10.

[3] Subject to Btu adjustment.

[4] Accepted 30 days after filing as shown in the "Effective Date Unless Suspended" column.

The proposed rate increase of Sun Oil Company (Sun) to 45.0 cents per Mcf is suspended for five months because it exceeds the applicable area ceiling rate in the Permian Basin Area.

[Docket No. CI74-406]

TEXAS EASTERN EXPLORATION CO.

Order Providing for Hearing, Granting Interventions, and Prescribing Procedures

MAY 24, 1974.

On January 28, 1974, Texas Eastern Exploration Co. (Exploration Co.), filed an application for a limited term certificate of public convenience and necessity with pregranted abandonment authorizing a sale of natural gas to Texas Eastern Transmission Co. (Texas Eastern), for a period of two years from the date of FPC certification. The acreage is in the South Thornwell Field, Cameron Parish, Louisiana. The proposed price for the gas is 50.0 cents per Mcf subject to upward and downward Btu adjustment. Exploration Co. has been selling gas from the acreage covered by the instant application since October 31, 1973, and claims that their application should be granted because of a shortage of firm gas supplies on Texas Eastern's system.

We take note that the Commission in a recent order recognized that an emergency exists on Texas Eastern's system. See Ceja Corporation —— FPC —— Docket No. CI74-278 issued on January 16, 1974. We conclude, therefore, that there is an emergency on Texas Eastern's system which would warrant the issuance of a certificate if the price conforms to the public convenience and necessity.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted, in the hearing hereinafter ordered, by the pipeline (to the extent not hereinabove found to exist), (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the Nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the shortfall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act, Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market [Nueces Industrial Gas Company, 45 FPC 1224, 1227 (1971)], and whether that rate is in line with the prevailing normal intrastate market (Atlantic Richfield Company, —— FPC ——, Docket No. CI73-691, order issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arms-length negotiations and competitive bidding through non-affiliated entities.

On February 28, 1974, Texas Eastern filed a petition to intervene, alleging that it should be granted intervenor status by virtue of the fact that they are the purchaser of the gas herein involved.

Also on the same date, Philadelphia Gas Works (Philadelphia) submitted a petition to intervene, claiming the requisite interest in the proceeding because it purchases quantities of gas from Texas Eastern.

Both petitions to intervene, timely filed, will be granted as participation by both parties may be in the public interest and no other party to the proceeding can adequately represent their interest.

The Commission finds. (1) Good cause exists for setting for immediate formal hearing the issues involved in the aforementioned pleadings and for establishing the procedures for that hearing all as hereinafter ordered.

(2) The participation of Texas Eastern and Philadelphia may be in the public interest.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly §§ 7 and 15 thereof, the Commission rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR, Chapter 1), a public hearing shall be held commencing July 2, 1974, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capital Street, NE., Washington, D.C. 20426 concerning the propriety of issuing a certificate of public convenience and necessity to the applicant for the limited term sale of natural gas as requested in its application filed herein on January 28, 1974.

(B) On or before June 18, 1974, applicant and any supporting party shall file and serve its testimony and exhibits comprising its case-in-chief in support of its application upon all parties to this proceeding including Commission Staff.

(C) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, [see Delegation of Authority, 18 CFR, 3.5(d)] shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

(D) The petitioners hereinabove set forth are permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission; Provided, however, that participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in the petition to intervene; and, Provided, further, that the admission of said intervenors shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.[2]

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12696 Filed 6-3-74;8:45 am]

[Docket No. CI74-256]

TEXAS EASTERN EXPLORATION CO.

Order Providing for Hearing, Granting Interventions, and Prescribing Procedures

MAY 24, 1974.

On October 17, 1973, Texas Eastern Exploration Company (Exploration Co.),

---

[1] Section 2.70 of the Commission's general policy and interpretations.

[2] Commissioners Brooke, Smith (both concurring) and Moody (dissenting) submitted separate statements filed as part of the original document.

V 39 108 JUN 4 74 XUM

filed an application for a limited term certificate of public convenience and necessity with pregranted abandonment authorizing a sale of natural gas to Texas Eastern Transmission Company (Texas Eastern), for a period of one year from the date of certification of the sale. The acreage is in the Hospital Bayou Field, Lafourche Parish, South Louisiana. The proposed price for the gas is 50.0 cents per Mcf subject to upward and downward Btu adjustment. Exploration Co. has been selling gas to Texas Eastern on an emergency basis from the acreage covered by the instant application since September 28, 1973, and claims that their application should be granted because of a shortage of firm gas supplies on Texas Eastern's system.

We take further note that the Commission in a recent order recognized that an emergency exists on Texas Eastern's System. See Ceja Corporation, ---- FPC ----, Docket No. CI74–278, issued on January 16, 1974. We conclude, therefore, that there is an emergency on Texas Eastern's System which would warrant the issuance of certificates if the price conforms to the public convenience and necessity.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted in the hearing hereinafter ordered by the pipeline (to the extent not hereinabove found to exist) (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to Section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the Nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the shortfall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act, Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market, [Nueces Industrial Gas Company, 45 FPC 1224, 1227 (1971)], and whether that rate is in line with the prevailing normal intrastate market, (Atlantic Richfield Company, ---- FPC ----, Docket No. CI73–691, order issued August 30, 1973 ---- FPC ----, order granting rehearing issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arm's-length negotiations and competitive bidding through non-affiliated entities.

A timely petition to intervene was tendered by Algonquin Gas Transmission Company (Algonquin), on November 7, 1973, alleging that Algonquin should be granted intervenor status by virtue of the fact that their natural gas supplies are obtained solely from Texas Eastern, who is the proposed purchaser of the gas supply involved here.

A late petition to intervene was received November 12, 1973, from Texas Eastern, which claimed sufficient interest in the proceeding as buyer of the gas.

Both petitions to intervene will be granted since participation of both parties may be in the public interest and no other party to the proceeding could adequately represent their respective interests.

The Commission finds. (1) Good cause exists for setting for immediate formal hearing the issues involved in the aforementioned pleadings and for establishing the procedures for that hearing all as hereinafter ordered.

(2) The participation of Texas Eastern and Algonquin may be in the public interest.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly §§ 7 and 15 thereof, the Commission rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR, Chapter 1) a public hearing shall be held commencing June 27, 1974, at 10 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 concerning the propriety of issuing a certificate of public convenience and necessity to the applicant for the limited term sale of natural gas as requested in its application filed herein on October 17, 1973.

(B) On or before June 13, 1974, applicant shall file and serve its testimony and exhibits comprising its case-in-chief in support of its application upon all parties to this proceeding including Commission staff.

(C) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, [see Delegation of Authority, (18 CFR, 3.5 (d))] shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

(D) The petitioners hereinabove set forth are permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission; Provided, however, that the participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in the petition to intervene; and Provided, further, that the admission of said intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.[2]

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74–12700 Filed 6–3–74;8:45 am]

FEDERAL RESERVE SYSTEM

FIDELITY UNION BANCORPORATION

Order Approving Acquisition of Bank

Fidelity Union Bancorporation, Newark, New Jersey, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 USC 1842(a)(3)) to acquire all of the voting shares of Colonial First National Bank, Red Bank, New Jersey ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 USC 1842(c)).

Applicant, the fourth largest bank holding company and banking organization in New Jersey, controls four banks with aggregate deposits of approximately $916 million, representing 4.8 percent of the total deposits in commercial banks in the State.[1] Acquisition of Bank would increase applicant's share of State deposits by 1.5 percentage points to a total of 6.3 percent, but would not alter applicant's ranking among the State's other banking organizations. The four largest multibank holding companies in New Jersey control 26.5 percent of total commercial bank deposits in the State while the remaining five multibank holding companies control 13.5 percent of such deposits. The lead banks in these institutions compete with substantially larger banks located in New York and Philadelphia for commercial business and for personal accounts of a large number of persons who work in one area and live in another.[2]

Bank holds aggregate deposits of approximately $294 million and operates a total of 18 banking offices, 16 of which are located in Monmouth County and 2 of which are located in Mercer County.

---

[1] Section 2.70 of the Commission's general policy and interpretations.

[2] Commissioners Brooke, Smith (both concurring) and Moody (dissenting) submitted separate statements filed as part of the original document.

[1] Unless otherwise noted, all banking data are as of June 30, 1973, and reflect bank holding company formations and acquisitions approved through March 30, 1974.

[2] See Board's Order of April 7, 1972, approving application of Midlantic Banks, Inc., Newark, New Jersey, to acquire Citizens National Bank, Englewood, New Jersey. 58 *Federal Reserve Bulletin* 478 (1972).

The relevant geographic markets for analysis of the competitive effects of the proposed acquisition are the Asbury Park and Freehold banking markets.[3] In the Asbury Park market, Bank is the third largest of 12 banking organizations and holds deposits of approximately $170 million, representing 19 percent of the market deposits. In the Freehold market, Bank is the second largest of seven banking organizations and holds deposits of approximately $60 million, representing about 40 percent of market deposits. Applicant does not have a subsidiary bank located in either of the relevant markets. Applicant's banking subsidiary closest to Bank (National Bank of New Jersey) has an office situated less than 8 miles away from an office of Bank. However, neither of these institutions derive an appreciable amount of deposits or loans from the service area of the other, nor do any of Applicant's other subsidiaries compete with Bank to any significant extent. As a result, there appears to be no meaningful competition existing between Applicant and Bank. Accordingly, the Board concludes that the proposed transaction would not have a significantly adverse effect on existing competition.

Although applicant is not presently represented in the area served by Bank, it appears to have the financial and managerial resources to establish branch offices in Monmouth County. However, many of the communities that are now open to branching or that will soon be open to branching (due to changes in the State branching and protection statutes) have population and deposits per banking office ratios below the State average, or the communities are not centrally located in the county so as to serve as a desirable location for a bank office. Furthermore, there has been significant branching activity by the existing banks in Monmouth County, with the result that many of the attractive sites for branch offices have been preempted. Thus, it appears unlikely that Applicant will enter the relevant markets by de novo branching. With respect to foothold entry into the markets, it appears that Applicant would be unable to enter Monmouth County through such means because of the unavailability of an appropriate entry vehicle. Most banks in either market are larger than Bank, or already subsidiaries of other bank holding companies, or newly chartered banks with charters prohibiting merger or acquisition by a bank holding company for the first five years; the remaining two banks have specifically rejected proposed affiliation with Applicant. Therefore, the Board concludes that consummation of the proposed transaction would not have significantly adverse effect on potential competition with the relevant markets.

Consideration relating to the financial and managerial resources and future prospects of applicant, its subsidiaries, and Bank are regarded as satisfactory and consistent with approval of the application.

Applicant proposes to introduce new services and improve certain services presently offered by Bank. These services would include: introducing no-charge checking (with a minimum balance) with overdraft privileges and bank credit card services; providing the maximum interest rates allowable on regular savings accounts, maximum interest rates on 4-year savings certificates and lower rates on auto and other consumer loans. Affiliation with Applicant should also enhance Bank's capability to provide construction financing, large commercial loans, farm lending, computer services, and international and trust services. These considerations relating to the convenience and needs of the communities to be served lend weight toward approval. It is the Board's judgment that consummation of the proposal would be in the public interest, and that the application should be approved.

On the basis of the record,[4] the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[5] effective May 24, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74–12715 Filed 6–3–74;8:45 am]

GENERAL FINANCIAL SYSTEMS, INC.

Order Denying Acquisition of Bank

General Financial Systems, Inc., Riviera Beach, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 USC 1842(a)(3)) to acquire 55 percent or more of the voting shares of Jupiter National Bank, Jupiter, Florida ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 USC 1842(c)).

Applicant controls three banks with aggregate deposits of $189.5 million, representing approximately 1 percent of total deposits in commercial banks in Florida.[1] In addition, Applicant owns between 15 percent and 24.9 percent of each of six other banks ("affiliated banks"), with aggregate deposits of approximately $70.8 million, including two banks which are located in the West Palm Beach County banking market. Through its subsidiary and affiliated banks, Applicant holds approximately 19 percent of the total deposits in commercial banks in the West Palm Beach County banking market[2] and ranks thereby as the largest banking organization in the market. In the northernmost part of the market, which includes the Jupiter area, Applicant's position appears to be substantial.

Bank would be located in Jupiter in the West Palm Beach County banking market, where applicant is presently represented by three subsidiary banks and two affiliated banks. Applicant's closest banking subsidiary is located 1.7 miles north of the proposed site of Bank and one of applicant's affiliated banks is located about six miles south of the proposed site of Bank. There are no banks located in the area between these two banks and the proposed site of Bank, and residents of Jupiter must pass by one of Applicant's banks in order to reach the nearest unaffiliated competing bank. Moreover, the service area of Bank would completely overlap the service areas of these other two banks, and applicant's banks would be the most convenient source of banking services to area residents. Since this acquisition involves the establishment of a proposed new bank, no existing competition would be eliminated and no immediate increase in concentration of banking resources would result in any relevant area. However, as the proposal appears to preempt a location which would be attractive to competing banking organizations not represented in the area, approval of the application would foreclose the probable development of competition in the future and would entrench applicant's already significant competitive position in the area. By preempting Bank's site, the proposal would eliminate the likelihood that another banking organization would establish a de novo bank in the Jupiter area, which would serve to increase competition by introducing an alternative source of banking services to Applicant's subsidiary and affiliated banks now in the area. Such an alternative would also

---

[3] The Asbury market is approximated by the eastern and coastal portions of Monmouth County, not extending beyond 10 miles inland. The Freehold market is approximated by six communities and part of a seventh in central Monmouth County. The deposit data for these markets is as of June 30, 1972.

[4] Dissenting Statement of Governors Brimmer and Bucher filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of New York.

[5] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Holland, and Wallich. Voting against this action: Governors Brimmer and Bucher. Absent and not voting: Chairman Burns.

[1] Banking data are as of June 30, 1973, adjusted to reflect holding company acquisitions and formations approved by the Board through March 31, 1974.

[2] Approximated by the upper two-thirds of Palm Beach County.

V 39—108 JUN 4 74 XUM

have the salutary competitive effect of preserving the possibility of the area's banking resources becoming less concentrated.

The U.S. Supreme Court, in another context, has noted that "if concentration is already great, the importance of . . . preserving the possibility of eventual deconcentration is correspondingly great."[3]

This principle is particularly relevant when considering the possible deconcentration of an area such as Jupiter. Given the present competitive structure in the Jupiter area, the effect of the elimination of the possibility of deconcentration as a result of applicant's de novo entry may be to substantially lessen competition. The Board has previously denied applications in which a bank holding company sought to acquire a de novo bank where the bank holding company was already the dominant banking organization in the area of the proposed new bank.[4] Even in a case where a real need for a new bank has been clearly demonstrated,[5] the Board has taken such action. In one such case, the Board noted:

> Determination of the competitive effects of a proposed holding company acquisition, whether the proposal is one to acquire an existing bank or a new bank to be organized under the holding company's direction, turns on the issue of whether consummation of the proposal will result in a substantially less competitive banking market than is likely to exist or develop in the event that the proposal is not consummated. In the present case, consummation of the proposal would result in expansion of the dominant banking organization in Milwaukee County and would tend to preclude entry which could lessen the extent of Applicant's dominance in the county, and provide competition to offices of Applicant's present subsidiaries which serve the immediate area.[6]

In the instant case, the record discloses that another banking organization has applied for a bank charter in the Jupiter area. It appears that Jupiter is a growing area with favorable prospects for the future. However, as of June 1972, there were more banking offices per capita in the area than on a Statewide basis and, through the addition of Bank, the population per banking office ratio would be decreased further. In light of those characteristics, it is noted that entry into a commercial banking market is somewhat restricted, and chartering authorities in acting upon an application for a new bank charter consider whether there are sufficient banking alternatives for area residents. Thus, approval of the proposal herein would necessarily tend to perpetuate applicant's dominance in the Jupiter area and may present significant obstacles to the entry into the area by an alternative banking organization. On the basis of the record, it appears probable that consummation of Applicant's proposal would result in a substantially less competitive and significantly more concentrated banking market in the Jupiter area than would likely develop if the proposal were not consummated. Accordingly, the Board is precluded from approving the application unless such anticompetitive effects are clearly outweighed in the public interest by the proposal's effect in meeting the convenience and needs of the community to be served.

The financial and managerial resources and future prospects of applicant and its subsidiary banks appear generally satisfactory in view of Applicant's commitment to inject additional equity capital into its three subsidiary banks. Bank, as a proposed new bank, has no financial or operating history; however, its prospects as a subsidiary of applicant appear favorable. Therefore, considerations relating to the banking factors are consistent with approval of the application. While there is no evidence in the record to indicate that the major banking needs of the community are not being adequately served, Bank would provide an additional source of full banking services. However, such benefits would be similarly derived from another organization establishing a new bank in the area, and the Board does not regard this slight increase in convenience flowing from Applicant's proposal as outweighing the adverse competitive effects inherent in the proposed transaction.

On the basis of all relevant facts in the record,[7] and in light of the factors set forth in section 3(c) of the Act, it is the Board's judgment that the proposed acquisition would have adverse effects on competition, without any significant offsetting benefits under considerations relating to the banking factors or the convenience and needs of the communities to be served. Accordingly, the Board concludes that consummation of the proposal would not be in the public interest and that the application should be, and the application is hereby denied.

By order of the Board of Governors,[8] effective May 24, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74-12714 Filed 6-3-74;8:45 am]

MIDATLANTIC BANKS, INC.

Order Approving Acquisition of Bank

Midatlantic Banks, Inc., Newark, New Jersey, a bank holding company within the meaning of the Bank Holding Company Act, has applied for approval of the Board of Governors of the Federal Reserve System, under section 3(a)(3) of the Act (12 USC 1842(a)(3)), to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to The First National Bank of Cranbury, Cranbury, New Jersey ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The application has been considered in light of the factors set forth in section 3(c) of the Act (12 USC 1842(c)).

Applicant, the second largest banking organization in New Jersey, controls eight banks with aggregate deposits of $1.3 billion, which represents approximately 7 percent of total deposits in commercial banks in the State.[1] Acquisition of Bank (deposits of $40.8 million) would not significantly increase deposit concentration or Applicant's share of total commercial bank deposits in New Jersey and its rank among banking organizations in the State would be unchanged.

Bank has three offices located in the New Brunswick and Trenton markets. Bank controls 0.3 percent of deposits and is the smallest of nineteen banks operating in the New Brunswick market.[2] A subsidiary of Applicant ranks tenth in the New Brunswick market with 4.4 percent of the market's deposits; the nearest offices of the two banks are 14.5 miles apart. Upon consummation of the proposal, Applicant would still rank tenth with 4.7 percent of total deposits. Presently, the four largest banks in the New Brunswick market control 46.1 percent of market deposits. Also, if the proposal were approved, home office protection would be eliminated from Cranbury as of January 1, 1975.[3]

Bank controls 2.4 percent of deposits and is the ninth largest of thirty banks

[4] Application of First at Orlando Corporation, Orlando, Florida, to acquire Citrus First National Bank of Leesburgh, Florida (1973 Federal Reserve Bulletin 302).

[5] Application of First Wisconsin Bankshares Corporation to acquire shares of proposed First Wisconsin National Bank of Greenfield (54 Federal Reserve Bulletin 1024 (1968)).

[6] Id. at 1026–1027.

[7] Dissenting Statement of Governors Bucher and Wallich filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Atlanta.

[8] Voting for this action: Vice Chairman Mitchell and Governors Brimmer, Sheehan, and Holland. Voting against this action: Governors Bucher and Wallich. Absent and not voting: Chairman Burns.

[1] Banking data are as of December 31, 1973, adjusted to reflect holding company acquisitions and formations approved through March 31, 1974.

[2] The New Brunswick market includes all of Middlesex County except the communities of Cranbury, Dunellen, Middlesex, Piscataway, Plainsboro, and Plainfield, and also includes East Millstone, Franklin and Millstone in Somerset County.

[3] Commencing January 1, 1975, branch office protection will be completely eliminated in New Jersey. Concurrently, the principal office of each State bank and National bank that is a subsidiary of a multi-bank holding company is to be considered a branch office under the State's branching law. Accordingly,

operating in the Trenton market.[4] Presently, the four largest banks in the Trenton market control 57.2 percent of the market deposits. Applicant is not presently represented in the Trenton market, but an application to open a branch there has recently been approved.

There is no substantial existing competition between any of applicant's banking subsidiaries and Bank. While both applicant's New Brunswick subsidiary and Bank have applied to open additional offices in the New Brunswick market, there is no reasonable likelihood of substantial future competition developing between any of applicant's banking subsidiaries and Bank due to the large number of competitors in the markets and the combined small share of deposits held by applicant's subsidiary and Bank in the New Brunswick market. Accordingly, it is concluded that consummation of the proposed acquisition would not have any significant adverse effect on existing or potential competition in any relevant area.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are regarded as satisfactory, particularly in view of Applicant's commitment to add capital to its subsidiary banks. This latter factor weighs in support of approval of the application. Considerations relating to the convenience and needs of the communities to be served lend sufficient weight to warrant approval of the application.

It is the judgment of the Federal Reserve Bank of New York that the proposed acquisition would be in the public interest and the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transactions shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after that date, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Federal Reserve Bank of New York, acting for the Board of Governors of the Federal Reserve System pursuant to delegated authority, effective May 20, 1974.

[SEAL] FRED W. PIDERIT, Jr.,
Vice President,
Federal Reserve Bank of New York.

MAY 20, 1974.

[FR Doc.74-12716 Filed 6-3-74;8:45 am]

---

if the proposal were consummated, the main office of The First National Bank of Cranbury would be considered a branch office as of January 1, 1975. Inasmuch as no other bank is presently headquartered in Cranbury Township, protection would be eliminated in the municipality at that time.

[4] The Trenton market includes Mercer County plus communities located in Hunterdon, Somerset, Middlesex (including Cranbury), Monmouth and Burlington Counties in New Jersey and Bucks County in Pennsylvania.

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a gas rate proceeding.

2. *Effective date.* This regulation is effective March 11, 1974.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 USC 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the California Public Utilities Commission in a proceeding involving the Pacific Gas and Electric Company gas rate increase applications (Nos. 54616, 54617, and 54618).

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Service.

[Notice 74-33]

ESTABLISHMENT OF ADVISORY SUBCOMMITTEE

Notice of Determination

Pursuant to section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Administrator of NASA has determined that the establishment of the following advisory subcommittee is in the public interest in connection with the performance of duties imposed upon NASA by law:

Ad Hoc Advisory Subcommittee for Evaluation of Advanced Applications Flight Experiment (AAFE) Proposals

The functions of this Subcommittee will be the review and evaluation of AAFE proposals. The reason for establishing this Subcommittee is to obtain advice for NASA as to the scientific and technical merit of the proposed research.

The Space Science and Applications Steering Committee, under which the Subcommittee will operate, is a NASA internal committee, composed wholly of government employees.

BOYD C. MYERS II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on May 29, 1974 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget Washington, D.C. 20503 (202-395-4529).

SECURITIES AND EXCHANGE COMMISSION

[File No. 500–1]

BBI, INC.

Notice of Suspension of Trading

MAY 28, 1974.

The common stock of BBI, Inc., being traded on the American Stock Exchange and the Philadelphia-Baltimore-Washington Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of BBI, Inc. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to sections 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from May 29, 1974 through June 7, 1974.

By the Commission.

[70–5506]

NEW ENGLAND POWER CO. AND NEW ENGLAND ELECTRIC SYSTEM

Notice of Proposed Issue and Sale of Common Stock to Holding Company

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and New England Power Company ("NEPCO"), one of the NEES electric utility subsidiary companies, have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(b), 9(a), 10, and 12 of the Act and Rule 42 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

NEPCO proposes to issue and sell to NEES, its sole common stockholder, 750,000 additional shares of common stock, $20 par value per share, and NEES proposes to acquire such shares for cash at $40 per share, or a total consideration of $3,000,000. Upon such issuance and sale, NEPCO will have outstanding 5,824,896 shares of common stock of an aggregate par value of $116,497,920.

As of May 7, 1974, NEPCO had outstanding $108,000,000 of short-term notes. The proceeds from the issuance and sale of the additional common stock will be applied to the payment of then outstanding short-term notes payable evidencing borrowings made for capitalizable construction expenditures or to reimburse the treasury therefor.

Expenses in connection with the proposed issuance and sale of common stock are estimated at $4,900 for NEPCO and $200 for NEES. It is stated that the proposed issuance and sale of the common stock require authorization by the Massachusetts Department of Public Utilities, The New Hampshire Public Utilities Commission and the Vermont Public Service Board and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested persons may, not later than June 25, 1974, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74–12742 Filed 6–3–74;8:45 am]

[File No. S7–524; Release 34–10824]

NEW YORK STOCK EXCHANGE RULE

Notice of Proposed Amendment

The Securities and Exchange Commission today announced that it has received the following letter on a proposed amendment to New York Stock Exchange Rule 440A.11:

MAY 7, 1974.

Mr. LEE A. PICKARD,
Director, Securities and Exchange Commission, 500 North Capitol NW., Washington, D.C. 20549.

DEAR MR. PICKARD: Pursuant to Rule 17a–8, we enclose herewith three copies of a proposed amendment to Rule 440A.11. For reference purposes you will also find the language of Rule 440A.10 since that language is referred to in Rule 440A.11. The proposed amendment was adopted in principle by the Board at its meeting of May 2, 1974.

The proposed amendment would eliminate the language in Rule 440A.11 which permits the reduction of investment advisory fees in consideration of Exchange listed commissions received and would substitute new language which would prohibit such a reduction. Two implementation dates would be provided in the rule. First the rule would be implemented for any new contract arrangement on a date two weeks following the effective date of the rule. Second, the rule would be implemented for existing contracts on a date three months following the effective date of the amendment.

The proposed amendment would respond to a frequently voiced criticism that Exchange members have an unfair advantage over non-members in competing for investment advisory business by virtue of their ability to offset the investment advisory fee in consideration of brokerage commissions received.

The proposed amendment would also apply equally to members and non-member broker-dealers who have qualified for a non-member discount pursuant to Article XV, section 2 and Rule 385 of the Exchange Constitution and Rules. It would therefore correct the situation which the Commission commented on in its letter of August 21, 1973 to the Exchange with regard to amendments then proposed to Rule 385 as follows:

> To the extent a non-member money manager credits any of the access discount it received on transactions for a customer against advisory fees owed by that customer, such customer does receive a commission rate advantage. While such an arrangement appears inconsistent with the original objectives of non-member access, the Commission believes it would be unfair to restrict the use of such an arrangement by non-members while permitting its use by exchange members.

The proposed amendment would treat both members and non-members who have qualified for a non-member discount alike. Each would be prohibited from reducing investment advisory fees in consideration of commissions received. These prohibitions would not, however, apply with respect to arrangements made in connection with orders for which commissions are now competitively determined, i.e., orders of $2,000 or less or orders in excess of $300,000. Similarly the rule would not apply to arrangements made on and after the date on which commissions with respect to all orders may be competitively determined.

The proposed amendment to Rule 440A.11 will again be considered by the Board at its regular meeting on June 6, 1974. It is therefore requested that the Commission respond to this submission as promptly as possible in advance of that date.

Any questions on this matter should be directed to Henry P. Poole, Vice President and General Counsel.

Sincerely,

JAMES E. BUCK.

cc: Mr. Harvey A. Rowen
Subcommittee on Commerce and Finance
Enclosures.

PROPOSED AMENDMENT TO RULE 440A.11

New language in italics—Deleted language in brackets [ ]

* * * * *

STATISTICAL AND INVESTMENT ADVISORY SERVICES

* * * Supplementary Material: [Also See Rule 369(3)(F)(p–2369).]

.10 To whom furnished.—A member or member organization may furnish:

(1) To a professional non-member (i.e., broker-dealer in securities or commodities, insurance company, investment advisor, investment manager, bank, trust company, foundation, professional trustee, or one engaged in any closely allied activity), statistical and investment advisory services:

(A) prepared by the member or member organization; or

(B) prepared by others and reissued by the member or member organization in his or its own name with the consent of the original issuer or publisher, provided the reissuing member or member organization is not required to pay for such consent.

(EXCEPTION: This policy does not prohibit the furnishing by a member or member organization to a non-member professional (i.e., broker-dealer in securities or commodities, insurance company, investment adviser, investment manager, bank, trust company, foundation, professional trustee, or one engaged in any closely allied activity), of publications of nominal cost, i.e., aggregating not more than approximately $30 per year, per non-member professional.)

(2) To another member or member organization or to a non-member customer who is a non-professional, statistical or investment advisory services:

(A) prepared by the member or member organization; or

(B) prepared by others and reissued by the member or member organization.

The meaning of "statistical investment advisory services" above is restricted to publications or services intended to aid professional or non-professional clients of member organizations in investment decisions concerning securities or commodities. All such publications or services must be clearly and prominently identified as being a publication or service of the original issuing member organization. (The name of the original issuing member organization may be omitted if the distributing member organization clears its listed business through the issuing member organization.)

.11 Such service which is prepared or reissued by the member or member organization consistent with .10 above, may be furnished by the member or member organization to another member or member organization or to a non-member [either free of cost or on a fee basis. If such service is furnished on a fee basis, the fee may be adjusted in accordance with commission business received from the other member or member organization or from the non-member.] *Provided, however,* That where a fee for such service has been published, such fee shall be charged to and paid by the member or member organization or the non-member receiving such service. Any contract or arrangement entered into after (2 weeks following effective date), 1974, pursuant to which such service is to be furnished for the published fee, shall provide that such fee may not be adjusted in accordance with commission business received from the other member or member organization or from the non-member. Members and member organizations furnishing such service pursuant to a contract or arrangement in effect on (2 weeks following effective date), 1974 providing for the furnishing of such services for the published fee which is adjusted in accordance with the commission business received from the other member or member organization or from the non-member shall as promptly as possible and in no event later than (3 months following effective date) 197 to terminate all such adjustments.

The fee for investment advisory service may be based on a percentage of the principal amount of the funds involved but may not be based upon the profits realized.

[Different fees may be charged to different customers for the same or equivalent statistical service.]

The Commission wishes to solicit the written views of all interested persons concerning the proposed amendment of NYSE Rule 440A.11 set forth above. Such views should be submitted to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capi-

V 39 108 JUN 4 74 XUM

tol Street, NW. Washington, D.C. 20549, no later than July 1, 1974. Reference should be made to File Number S7–524.

By the Commission.

TARIFF COMMISSION

[337–38]

EXPANDED, UNSINTERED POLYTETRAFLUORETHYLENE IN TAPE FORM

Notice of Investigation, Denial of Motion To Dismiss, and Hearing

A complaint was filed with the Tariff Commission on August 29, 1972, on behalf of W. L. Gore & Associates, Inc., of Newark, Delaware, alleging there to be importation and sale in the United States of expanded, unsintered polytetrafluorethylene in tape form and alleging that such importation and sale are unfair methods of competition and unfair acts within the meaning of section 337 of the Tariff Act of 1930 (19 USC 1337) for the reason that expanded, unsintered polytetrafluorethylene tape is covered by the claims of U.S. Patent No. 3,664,915. The complainant alleges that the effect or tendency of the unfair methods or acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States in violation of the provisions of section 337 of the Tariff Act of 1930 (19 USC 1337). Johnson and Johnson, Inc., New Brunswick, New Jersey; Anchor Packing Co., Philadelphia, Pennsylvania; Pamsco Asbestos & Rubber Co. (formerly known as U.S. Indestructible Gasket Co.), New York, New York; and Nopitape, Inc., Hackensack, New Jersey, have been named as importers and distributors of the subject products by the complainant.

Having conducted a preliminary inquiry with respect to the matters alleged by the said complainant, the United States Tariff Commission, on May 23, 1974, *Ordered:* That for the purposes of section 337 of the Tariff Act of 1930, an investigation is instituted with respect to the alleged violations in the importation and sale in the United States of expanded, unsintered polytetrafluorethylene in tape form made in accordance with the claims of US Patent No. 3,664,915 owned by the complainant, W. L. Gore and Associates, Inc.

That a public hearing be held on July 22, 1974, at 10 a.m., EDT, in the Hearing Room, U.S. Tariff Commission Building, 8th and E Streets, NW., Washington, D.C. All parties concerned will be afforded an opportunity to be present, to produce evidence, and to be heard concerning the subject matter of the investigation. Interested parties desiring to appear and give testimony at the hearing should notify the Secretary of the Commission, in writing at least five days in advance of the opening of the hearing.

Public notice of the receipt of the complaint and initiation of the preliminary inquiry was published in the FEDERAL REGISTER on September 19, 1972 (37 FR 19164). The complaint and supplemental complaint were served upon the parties named in the complaint and have been available for inspection by interested persons continually since issuance of the notice of preliminary inquiry, at the Office of the Secretary, located in the U.S. Tariff Commission Building and in the New York City office of the Commission, located in Room 437 of the Customhouse.

By order of the Commission.

Issued: May 29, 1974.

[SEAL] KENNETH R. MASON,
Secretary.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V–74–31]

ALABAMA BY-PRODUCTS CORP.

Notice of Application for Variance and Interim Order; Grant of Interim Order

I. Notice of application. Notice is hereby given that Alabama By-Products Corporation, Post Office Box 10246, Birmingham, Alabama 35202 has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655), and 29 CFR 1905.11 for a variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.106(b)(2)(ii)(b) concerning shell-to-shell spacing between above-ground tanks.

The address of the place of employment that will be affected by the application is as follows:

The site of former Ketona Chemical Corporation's plant at Ketona, Alabama

The applicant certifies that employees who would be affected by the variance have been notified of the application by posting a copy of all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it will be providing a place of employment as safe as that required by 29 CFR 1910.106 (b)(2)(ii)(b) which requires that the shell-to-shell spacing between above-ground tanks used for storage of flammable liquids be no less than one sixth of the sum of the tank diameters.

The applicant has 4 fuel storage tanks located in pairs 275.74 feet apart. Two aluminum tanks have 500,000 and 1,000,000 gallon capacities and diameters of 50 and 67 feet respectively. They are spaced 11 feet apart. Two steel tanks have 945,000 and 1,932,000 gallon capacities and diameters of 60 and 85 feet respectively. They are separated by 10.3 feet.

The applicant states that these four tanks have been used only occasionally for fuel storage in the past 15 years. However, because of the present fuel allocation system the applicant and several local companies are finding it necessary to use the tanks for fuel storage or they will lose their monthly allotment. The tanks have recently been inspected and found to be structurally sound and in good condition for storing fuel.

A copy of the application will be made available for inspection and copying upon request at the Office of Compliance Programming, U.S. Department of Labor, 1726 M Street NW., Room 210, Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor
Occupational Safety and Health Administration
1375 Peachtree Street, NE
Suite 587
Atlanta, Georgia 30309

U.S. Department of Labor
Occupational Safety and Health Administration
Todd Mall, 2047 Canyon Road
Birmingham, Alabama 35216

All interested persons, including employers and employees, who believe they would be affected by the grant or denial of the application for a variance are invited to submit written data, views and arguments relating to the pertinent application no later than July 5, 1974. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than July 5, 1974, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Compliance Programming at the above address.

II. *Interim order.* It appears from the application for a variance and interim order, that an adequate distance between the tanks is being provided for employee safety, that an interim order is necessary to prevent undue hardship to the applicant pending a decision on the variance. Therefore, it is ordered, pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.11(c) that Alabama By-Products Corporation be, and it is hereby, authorized to use the tanks described in the application for the storage of fuel, in lieu of meeting the spacing requirements of 29 CFR 1910.106(b)(2)(ii)(b).

Alabama By-Products Corporation shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective date. This interim order shall be effective as of June 4, 1974, and shall remain in effect until a decision is rendered on the application for variance.

Signed at Washington, D.C., this 23rd day of May, 1974.

JOHN STENDER,
Assistant Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice 521]

ASSIGNMENT OF HEARINGS

MAY 30, 1974.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after June 4, 1974.

MC 126634 Subs 1, 3, and 4, Bucks County Construction Company now assigned June 18, 1974, at Washington, D.C., is cancelled.

I&S M 27312, Restructured Rates and Charges, Central States Territory, I&S M 27312 Sub 2, Restructured Rates and Charges, Indiana Motor Rate and Tariff Bureau, now assigned June 3, 1974, at Washington, D.C., is postponed to July 9, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC–138879 Sub 1, Mobile Truck Control, Inc., now assigned June 5, 1974, at Birmingham, Ala., is cancelled and reassigned for hearing on June 5, 1974, in the Ramada Inn, 600 Beltline Highway, I–65 and Airport Boulevard, Mobile, Ala.

MC 20872 Sub-15, Lime City Trucking Company, Inc., now assigned June 10, 1974, at Indianapolis, Indiana, is postponed indefinitely.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74–12760 Filed 6–3–74;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

MAY 30, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before June 17, 1974.

FSA No. 42837—*Soda Ash Between Points in Southern Territory.* Filed by M. B. Hart, Jr., Agent (No. A6337), for interested rail carriers. Rates on sodium (soda) ash, in carloads, as described in the application, between points in southern territory.

Grounds for relief—Market competition.

Tariff—Supplement 58 to Southern Freight Association, Agent, tariff 822–G, I.C.C. No. S–1068. Rates are published to become effective on July 10, 1974.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74–12762 Filed 6–3–74;8:45 am]

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

MAY 30, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination Rules* (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 14, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC–11207 (Sub-No. E3) (Correction), filed April 25, 1974, published in the FEDERAL REGISTER May 9, 1974. Applicant: DEATON, INC., P.O. Box 938, Birmingham, Ala. 35201. Applicant's representative: C. N. Knox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Building board, insulation board, fiberboard, pulpboard, and wallboard,* and *parts, materials, and accessories* incidental to the transportation and installation thereof, from the plant and warehouse sites of the United States Gypsum Company in Pittsylvania County, Va., located at or near Danville, Va., to points in Oklahoma and Texas, and to points in Arkansas in and west of the counties of Phillips, Arkansas, Lonoke, Faulkner, Van Buren, Searcy, and Boone. The purpose of this filing is to eliminate the gateway of Greenville, Miss. The purpose of this correction is to include Little Rock and Fort Smith, Ark., in the sought destination territory.

No. MC–11727 (Sub-No. E1), filed April 25, 1974. Applicant: JAMES H. RUSSELL, Washington Highway, Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, Mass. 02043. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between New York, N.Y., on the one hand, and, on the other, Providence, R.I., points in that part of Massachusetts on and east of U.S. Highway 5, and points in that part of Connecticut on and east of U.S. Highway 5, and those on U.S. Highway 1 between the New York-Connecticut State line and New Haven (except those in Fairfield County). The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–15821 (Sub-No. E1), filed May 13, 1974. Applicant: GRAF BROS., INC., 111 State Street, Boston, Mass. 02109. Applicant's representative: Kenneth B. Wilson (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), (a) beginning at the Massachusetts-New Hampshire State line and extending northward along New Hampshire Highway 125 to its intersection with U.S. Highway 202 and thence along U.S. Highway 202 to the New Hampshire-Massachusetts State line, on the one hand, and, on the other, points in Massachusetts (except those points north of a line from Swampscott over Massachusetts Highway 114, to the intersection with Massachusetts Highway 2, and thence along Massachusetts Highway 2 to the Berkshire-Franklin County line, thence along the Berkshire-Franklin County line to the Massachusetts-Vermont State line, (b) between points in New Hampshire on, east, and south of U.S. Highway 202, on the one hand, and, on the other, points in Norfolk, Plymouth, Bristol, and Barnstable Counties, Mass. The purpose of this filing is to eliminate the gateway of Boston, Mass.

No. MC–16682 (Sub-No. E1), filed May 9, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *New furniture,* (a) between New York, N.Y., on the one hand, and, on the other, points in Illinois and Michigan; (b) between New York, N.Y., on the one hand, and, on the other, points in Delaware, Maryland, Ohio, and the District of Columbia; (c) from Syracuse, N.Y., to points in Delaware; (d) from Flemington, N.J., to points in Connecticut and Massachusetts; and (e) from Flemington, N.J., to points in Illinois and Michigan. The purpose of this filing is to

V 39 108 JUN 4 74 XUM

eliminate the gateways of in (a) and (e) Syracuse, N.Y.; in (d) New York, N.Y., and (b) and (c) Flemington, N.J.

No. MC-25798 (Sub-No. E12), filed April 28, 1974. Applicant: CLAY HYDER TRUCKING LINES, INC., P.O. Box 1186, Auburndale, Fla. 33823. Applicant's representative: Tony G Russell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen strawberries in containers*, from points in Tennessee on and west of a line beginning at U.S. Highway 411 at the Tennessee-Georgia State line, thence north along U.S. Highway 411 to its intersection with Tennessee Highway 33, thence north along Tennessee Highway 33 to its intersection with U.S. Highway 25E, thence along U.S. Highway 25E to the Tennessee-Virginia State line, to points in Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, the District of Columbia and points in Virginia on and east of a line beginning at the Virginia-North Carolina State line and thence north along U.S. Highway 505 to its intersection with U.S. Highway 15, thence north on U.S. Highway 15 to Virginia Highway 20, thence north on Virginia Highway 20 to its intersection with U.S. Highway 250, thence west on U.S. Highway 250 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of Hendersonville, N.C.

No. MC-27580 (Sub-No. E1), filed April 28, 1974. Applicant: JOSEPH CORY DELIVERY SERVICE, INC., 110 First Street, Jersey City, N.J. 07302. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, uncrated, from Jersey City, N.J., to points in Connecticut (except Fairfield County), Pennsylvania (except Pike, Monroe, Northampton, Carbon, Lehigh, Bucks, Montgomery, Philadelphia, Delaware, and Chester Counties), and New York (except Rockland, Orange, Westchester, and Putnam Counties). The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC-44639 (Sub-No. E1), filed May 4, 1974. Applicant: L & M EXPRESS CO., INC., 220 Ridge Rd., Lyndhurst, N.J. 07071. Applicant's representative: Herman B. J. Weckstein, One Woodbridge Center, Woodbridge, N.J. 07095. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies used in the manufacture of wearing apparel* (except liquid commodities, in bulk), between Crew, Va., and New York, N.Y. The purpose of this filing is to eliminate the gateway of Whiteford, Md.

No. MC-48551 (Sub-No. E1), filed May 9, 1974. Applicant: P & D LUMBER HANDLING CO., Box 69, Phoenixville, Pa. 19460. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber* from Wilmington, Del., to New York, N.Y. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC-60437 (Sub-No. E1), filed May 6, 1974. Applicant: EDGAR J. MASON, doing business as MASON'S TRANSFER, operated by NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Allan L. Tummerman (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned fruit, canned fruit products, and canned tomato juice and puree*, from Biglerville, Pa., to points in Indiana, Kentucky, Maryland, New York, Ohio, Pennsylvania, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateways of the plantsites, warehouses, or storage facilities used by C. H. Musselman Company in Virginia (except Winchester) and in that part of West Virginia within 15 miles of Inwood, W. Va.

No. MC-105457 (Sub-No. E4), filed May 1, 1974. Applicant: THURSTON MOTOR LINES, INC., P.O. Box 10658, Charlotte, N.C. 28201. Applicant's representative: John V. Luckadoo (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), restricted in each instance against the transportation of traffic moving between any of the points authorized in No. MC-105457 (Sub-No. 19A) to be served in the carrier's regular-route operations.

(69) Between Whiteville, N.C., on the one hand, and, on the other, Amelia, Amherst, Appomattox, Arlington, Ashland, Berryville, Blacksburg, Blackstone, Blackwater, Bluefield, Bridgewater, Bristol, Broadway, Burgess, Burkeville, Calverton, Charlotte C.H., Charlottesville, Chase City, Clifton Forge, Clintwood, Columbia, Crozier, Culpeper, Cumberland, Dahlgren, Damascus, Dillwyn, Edinburg, Elkton, Fairfax, Farmville, Floyd, Fredericksburg, Galax, Gate City, Glade Spring, Glasgow, Grundy, Harrisonburg, Hightown, Hillsboro, Hillsville, Honaker, Hot Springs, Independence, Ivanhoe, Keysville, Kilmarnock, Lebanon, Lexington, Louisa, Luray, McDowell, Madison, Manassas, Marion, Marshall, Middleburg, Montpelier, Norton, Orange, Pearisburg, Port Royal, Powhatan, Pulaski, Quantico, Radford, Raphine, Riverton, Roseland, Scottsville, Sparta, Staunton, Stuart, Tappahannock, Victoria, Walkerton, Warrenton, Warsaw, Washington, Waynesboro, Wilson, Winchester, and Woodstock, Va.

(70) Between Willimaston, N.C., on one hand, and, on the other, those points in Virginia listed in (5) above.

(71) Between Wilmington, N.C., on the one hand, and, on the other, those points listed in (5) above except Brookneal, Floyd, Gretna, Roanoke, Rocky Mount, South Boston, and Troutville, Va.

(72) Between Wilson, N.C., on the one hand, and, on the other, Appomattox, Brookneal, Charlotte C.H., Chase City, Clarksville, Floyd, Galax, Gretna, Hillsville, Ivanhoe, Martinsville, Radford, Rocky Mount, South Boston, Stuart, and Wytheville, Va.

(73) Between Windsor, N.C., on the one hand, and, on the other, those points in Virginia listed in (5) above except Burgess, Va.

(74) Between Zebulon, N.C., on the one hand, and, on the other, Amelia, Appomattox, Arlington, Ashland, Berryville, Blackwater, Bridgewater, Bristol, Broadway, Burgess, Burkeville, Calverton, Charlottesville, Clintwood, Crozier, Culpeper, Dahlgren, Damascus, Edinburg, Elkton, Fairfax, Fredericksburg, Gate City, Glade Spring, Grundy, Harrisonburg, Hightown, Hillsboro, Honaker, Hot Springs, Kilmarnock, Lebanon, Louisa, Luray, McDowell, Madison, Manassas, Marion, Marshall, Middleburg, Montpelier, Norton, Orange, Port Royal, Powhatan, Quantico, Riverton, Roseland, Sparta, Staunton, Tappahannock, Tazewell, Walkerton, Warrenton, Warsaw, Washington, Waynesboro, Winchester, and Woodstock, Va. The purpose of this filing is to eliminate the gateways at Roanoke Rapids and Charlotte, N.C.

No. MC–103051 (Sub-No. E1), filed May 10, 1974. Applicant: FLEET TRANSPORT COMPANY, INC., P.O. Box 90408, Nashville, Tenn. 37209. Applicant's representative: Russell E. Stone (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Oils and fats and blends thereof*, from points in North Carolina to points in Kentucky (except Jefferson County), Mississippi, Arkansas, and Illinois (except Jacksonville and points within 5 miles thereof, Champaign, and Chicago). (2) *Vegetable oils and vegetable oil shortening*, from Savannah, Ga., to Chattanooga, Tenn. (3) *Vegetable oils, animal oils, and fats and blends thereof* (except tall oil or naval stores), from points in Florida to points in Kentucky (except Jefferson County), Arkansas, Michigan, Illinois (except Jacksonville and points within 5 miles thereof, Champaign, and Chicago), Indiana, Ohio (except Columbus and Cincinnati), Pennsylvania, West Virginia, and New York. (4) *Oils and fats and blends thereof*, in bulk, in tank vehicles, from points in South Carolina (except animal oils and grease, from Society Hill and Bennettsville), to points in Mississippi, Kentucky, Arkansas, Michigan, Illinois (except Jacksonville and points within five miles thereof, Champaign, and Chicago) and Indiana. (5) *Vegetable oils, animal oils, and fats and blends thereof*, from points in Kentucky (except Jefferson County), to points in Georgia, South Carolina, and Florida. (6) *Oils and fats and blends thereof*, from points in Virginia (except vegetable oils) from Portsmouth, Va., to Chattanooga, Tenn., to points in Alabama, Arkansas, and Mississippi. (7) *Vegetable oils, animal oils, and fats and blends thereof* (except tall oil or naval stores), in bulk, in tank vehicles, from points in Arkansas to points in Georgia, North Carolina, New York (except Rochester), South Carolina, Virginia (except cottonseed oil, soybean oil, and peanut oil to Suffolk, Va.), Florida, Pennsylvania, Maryland, West Virginia, and New Jersey. (8) *Vegetable oils, animal oils, and fats and blends thereof*, from points in Illinois (except Jacksonville and points within 5 miles thereof, Champaign and Chicago), to points in Alabama, Georgia, South Carolina, Florida, and North Carolina. (9) *Vegetable oil, animal oil, and fats and blends thereof*, in bulk, in tank vehicles, from points in Indiana to points in Alabama, Georgia, South Carolina, and Florida. (10) *Vegetable oil, animal oils, and fats and blends thereof*, in bulk, in tank vehicles, from points in Ohio (except Columbus and Cincinnati), to points in Alabama, Georgia, South Carolina, Florida. The purpose of this filing is to eliminate the gateways of Chattanooga, Tenn., in proposal numbers 1, 3, 4, 5, 6, 7 8, 9, 10, and in proposal number 2.

No. MC–107002 (Sub-No. E5), filed April 18, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same as above). Authority sought to operate as a *common carrier*, by motor vericle, over irregular routes, transporting: *Chemicals*, in bulk, in tank or hopper-type trailers, from Mobile, Ala., to points in Illinois, Iowa, Kansas, Missouri, Ohio, Wisconsin, Indiana, Michigan, and Kentucky. The purpose of this filing is to eliminate the gateway of a point in Arkansas at the junction of Interstate Highway 55 and Arkansas Highway 18 (which is within 10 miles of Barfield, Ark.) (except points in eastern Kentucky which are served via the Decatur, Ala., gateway).

No. MC–107478 (Sub-No. E7), filed April 16, 1974. Applicant: OLD DOMINION FREIGHT LINE, P.O. Drawer 2006, High Point, N.C. 27261. Applicant's representative: John T. Coon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Martinsville, Va., on the one hand, and, on the other, points in Georgia and South Carolina on, east, and south of a line beginning at the Alabama-Georgia State line, and extending east along Georgia Highway 62 to Albany, thence along Georgia Highway 257 to its intersection with Georgia Highway 32, thence along Georgia Highway 32 to its intersection with Georgia Highway 107, thence along Georgia Highway 107 to Fitzgerald, thence along U.S. Highway 319 to McRae, thence along U.S. Highway 280 to Mt. Vernon, thence along Georgia Highway 56 to Swainsboro, thence along U.S. Highway 80 to its intersection with Georgia Highway 23, thence along Georgia Highway 23 to Millen, thence along Georgia Highway 21 to Sylvania, thence along U.S. Highway 301 to Allendale, S.C., thence along South Carolina Highway 641 to its intersection with South Carolina Highway 64, thence along South Carolina Highway 64 to its intersection with U.S. Highway 21, thence along U.S. Highway 21 to its intersection with South Carolina Highway 210, thence along South Carolina Highway 210 to Lake Marion, thence along Lake Marion to the Santee River, thence along the Santee River to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Charleston, S.C., and points within 15 miles thereof.

No. MC–110525 (Sub-No. E39), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 29, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 6461 (Sub-No. 13 TA), filed May 17, 1974. Applicant: B-LINE TRANSPORT CO., INC., Mail: P.O. Box 13206 (Box zip 99213), E. 7100 Broadway, Spokane, Wash. 99206. OVER-THE-COUNTER DRUGS

Antacid and Antiflatulent Products

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—DRUGS FOR HUMAN USE

PART 331—ANTACID PRODUCTS FOR OVER-THE-COUNTER (OTC) HUMAN USE

PART 332—ANTIFLATULENT PRODUCTS FOR OVER-THE-COUNTER (OTC) HUMAN USE

Final Order for Antacid and Antiflatulent Products Generally Recognized as Safe and Effective and Not Misbranded

Pursuant to procedures promulgated in the FEDERAL REGISTER of May 11, 1972 (37 FR 9464), a review of the safety and effectiveness of over-the-counter (OTC) antacid drugs has been undertaken by the Food and Drug Administration.

Notice inviting submission of data and information, published and unpublished, and other information pertinent to the safety and effectiveness of OTC antacid products was published in the FEDERAL REGISTER of January 5, 1972 (37 FR 102). An additional period was allowed for submission of such data and information in paragraph 18 of the preamble to the final procedural regulations published in the FEDERAL REGISTER of January 5, 1972 May 11, 1972 (37 FR 9464).

The conclusions and recommendations of the OTC Antacid Drug Panel and a proposed monograph for OTC antacid drugs was published in the FEDERAL REGISTER of April 5, 1973 (38 FR 8714). A tentative final order pertaining to monographs for OTC antacid and OTC antiflatulent products was published in the FEDERAL REGISTER of November 12, 1973 (38 FR 31260). Notice of a public hearing on the November 12, 1973 tentative final order was published in the FEDERAL REGISTER of January 8, 1974 (39 FR 1359), and the public hearing was held on January 21, 1974. A revision of the November 12, 1973 tentative final order containing a modification of the antacid in vitro test was published in the FEDERAL REGISTER of January 22, 1974 (39 FR 2488).

In addition, a notice of proposed rule making to establish general conditions for OTC drugs listed as generally recognized as safe and effective and as not misbranded was published in the FEDERAL REGISTER of April 5, 1973 (38 FR 8714). The final order on this proposal was published in the FEDERAL REGISTER of November 12, 1973 (38 FR 31258) and became effective on December 12, 1973.

In view of the fact that the regulations for drugs for human use were recodified in the FEDERAL REGISTER of March 29, 1974 (39 FR 11680), the following preamble will identify, as necessary, both prior and current designations for the convenience of the reader.

Objections and requests for a hearing on the tentative final order were submitted by a number of persons. On January 21, 1974, the Commissioner of Food and Drugs held a public hearing to receive oral and written statements on the tentative final order. At the hearing, the Commissioner stated that he would allow 10 days for parties to submit any additional written comments to the Hearing Clerk on any of the hearing issues except that 30 days would be allowed for comments on the proposed effective date of the final order.

The Commissioner stated at the public hearing that the in vitro test in the tentative final order required revision. The test was republished in the FEDERAL REGISTER of January 22, 1974 (39 FR 2488) as a new tentative final order, with further opportunity for objections and/or requests for a public hearing on this aspect of the matter. Nine objections were received on the revised in vitro test. One request for a hearing on the revised test was made, but was subsequently withdrawn.

The Commissioner has reviewed all written and oral comments including the objections filed, the hearing record, and all other comments, pertaining to the tentative final order. Where pertinent, the Commissioner has also again reviewed the scientific information contained in the record of this proceeding. The Commissioner has reached the following conclusions and decisions.

GENERAL COMMENTS

1. There were numerous comments that the antacid monograph should be interpretive, not substantive.

The Commissioner dealt with this issue in paragraphs 85 to 91 of the preamble to the final order establishing the procedures for the OTC drug review published in the FEDERAL REGISTER of May 11, 1972 (37 FR 9464) and paragraph 3 of the preamble to the tentative final order for OTC antacid drugs published in the FEDERAL REGISTER of November 12, 1973 (38 FR 31260). No new points were presented in the comments, and the Commissioner reaffirms the earlier statements. Every court which has to this time considered the issue has found in favor of the substantive application of the OTC drug monographs. The new monographs will be enforceable regulations requiring uniform compliance. The alternative would serve to negate the entire review process. A direct challenge to the legal authority of the Food and Drug Administration to promulgate substantive OTC drug monographs has recently been dismissed in Smart v. Food and Drug Administration (N.D. Calif., C–73–0118–RHS, April 24, 1974), and a second court has also held that section 701(a) of the act authorizes substantive rulemaking, National Nutritional Foods Association v. Weinberger (S.D. N.Y., 73 Civ 3448, April 5, 1974).

2. There were comments that a fuller description of the panel meetings (summary minutes) and/or the transcripts of the panel meetings should be made available.

The Commissioner dealt with this matter in paragraph 37 of the preamble to the final regulation establishing the OTC drug review procedures, published in the FEDERAL REGISTER of May 11, 1972 (37 FR 9464) and paragraph 8 of the preamble to the November tentative final order. The Commissioner has concluded that, when viewed in light of the report and data on file with the Hearing Clerk, the minutes amply serve their intended purpose and the transcript of the closed portion of the Panel meetings should not be made public.

Some of the comments reflected an erroneous impression about the role of a panel in the OTC drug review. Pursuant to section 9(b) of the Federal Advisory Committee Act, the OTC drug review panels are utilized solely for advisory functions. Determinations of action to be taken and policy to be expressed with respect to matters upon which an advisory committee reports or makes recommendations to the Food and Drug Administration must be made solely by the Commissioner. Once the panel has issued its report, its advisory functions are completed. Thus, the purpose of the summary minutes is to maintain a full and accurate record of the panel's reasoning and judgments and to minimize the circulation of speculative and misleading information as to the current status of the review. They constitute part of the public record in order to assist any interested person in formulating meaningful comment on the panel report and the proposed monograph. They have no independent substantive status.

Once the panel has issued its report to the Commissioner, it is the legal responsibility of the Commissioner to review and evaluate it, and to issue a proposed order, tentative final order, and final order reflecting his own conclusions and decisions. This responsibility is independent of the recommendations contained in the panel minutes and report, and it is possible that the Commissioner may adopt conclusions and make decisions contrary to a panel's recommendations.

The transcripts of all open portions of the Antacid Panel meetings are available at cost from the recording company. The Commissioner has concluded that the transcripts of closed portions of the panel meetings should not be released. This conclusion was recently upheld in Smart v. Food and Drug Administration, supra, in which the United States District Court for the Northern District of California held that the deliberative portions of the Antacid Panel were properly closed to the public and that the transcripts of those portions are confidential and are not required to be released under the Freedom of Information Act or the Federal Advisory Committee Act.

The legal justification for closing the deliberative portion of the Antacid Panel's discussions—i.e., the discussion during which the Panel determined its conclusions and recommendations—and retaining the transcripts of those closed portions as confidential may be found in section 10 of the Federal Advisory Committee Act and exemption (5) of the Freedom of Information Act. Section 10(a)(1) of the Federal Advisory Committee Act provides that each advisory committee meeting shall be open to the public. Section 10(d) then provides that subsection (a)(1) shall not apply to any advisory committee meeting which the head of the agency determines is concerned with matters listed in 5 U.S.C. 552(b), and requires that any such determination shall be in writing and shall contain the reasons therefor.

The authority to close Food and Drug Administration advisory committee meetings has been delegated to the Commissioner, subject to the concurrence of the office of General Counsel 21 CFR 2.120(a)(18). In exercising his authority to close portions of advisory committee meetings pursuant to this delegation, the Commissioner has acted on the basis of the guidelines established by the Office of Management and Budget and the Department of Justice as set out in the FEDERAL REGISTER of January 23, 1973 (38 FR 2306). The Commissioner's formal written determination to close a portion of a meeting is published together with the notice of the meeting in the FEDERAL REGISTER.

The basis on which the purely deliberative portions of the Antacid Panel discussion have been closed pursuant to section 10(d) of the Federal Advisory Committee Act is that the discussion has been concerned with matters covered by 5 U.S.C. 552(b)(5), i.e., internal communications. As the Attorney General's Memorandum of June 1967 on this portion of the Freedom of Information Act states: "* * * internal communications which would not routinely be available to a party in litigation with the Agency, such as internal drafts, memoranda between officials or agencies, opinions and interpretations prepared by agency staff personnel or consultants for the use of the agency, and records of the deliberations of the agency or staff groups, remain exempt so that free exchange of ideas will not be inhibited. As the President stated upon signing the new law, 'officials within the government must be able to communicate with one another fully and frankly without publicity.' "

All of the Antacid Panel members were, of course, consultants to the Food and Drug Administration and, as such, government employees during their period of actual work on the Panel. The discussion within the Panel therefore stands on no different footing than a discussion within an internal FDA staff meeting.

At the same time, the Commissioner recognizes that, consistent with the Federal Advisory Committee Act, advisory committee proceedings should remain open to public view and participation to the maximum extent feasible. It is for this reason that all interested persons were provided an opportunity to make written submissions to the Panel and to present oral views to the Panel. The Commissioner concluded, however, that the deliberations of the Panel during which their conclusions and recommendations are determined could not reasonably be made in open session, and thus that it was essential to avoid undue interference with the regulatory process that they be closed to the public.

The primary reason for closing such deliberative portions of advisory committee meetings is, of course, because of the regulatory nature of the action being considered. With respect to OTC antacid drugs, the issues involved the possibility of specific regulatory action against an individual product—e.g., relabeling the drug, requiring new testing by the manufacturer, or removing the product from the market completely. The Panel discussion included a continuous admixture of deliberations on interim regulatory decisions and thus much of the committee discussion had to be closed to protect the integrity of the regulatory process.

Once the Antacid Panel made its recommendations they were subject to all of the public procedures set out in § 330.10. The Panel's deliberations were the first step in a complex rulemaking proceeding, and there was thereafter still an opportunity for presentation of data and views to the Food and Drug Administration as the proposed regulation was considered pursuant to the public procedures required by the Administrative Procedure Act.

3. There was comment that the administrative record as defined by the Food and Drug Administration in the notice for the public hearing improperly excluded transcripts of the Antacid Panel meetings. The comment stated that the transcripts contained the deliberations of the Panel, including reasonings and facts supporting their decisions, and that it was an essential part of the administrative record. The comment stated that, without such information, it was impossible fully to develop the issues.

The designation of the "administrative record" is in paragraph 82 of the preamble to the final regulations as published in the FEDERAL REGISTER of May 11, 1972 (37 FR 9464). The record includes the panel reports and minutes, but excludes the transcript of the panel deliberations. Elsewhere in this issue of the FEDERAL REGISTER the Commissioner is proposing to amend § 330.10 to incorporate this provision directly in the regulations.

The Commissioner is obligated to base his conclusion with respect to a monograph on the entire administrative record. In the case of the antacid monograph, the Commissioner has not read or referred to or relied upon the words recorded in the transcript of the Antacid Panel meetings. Instead, he has relied solely upon the minutes of the panel meetings, the data and information submitted to and considered by the Panel, the Panel report, the comments submitted on that report, the tentative final order, the objections submitted on the tentative final order, the transcript of and material submitted at the public hearing, and comments filed subsequent to the public hearing. This constitutes the administrative record specified in paragraph 82 of the preamble to the procedural regulations of May 11, 1972, and is the sole basis on which the decisions and orders in the tentative final order and final order were made by him.

Thus, whether the transcript of the OTC antacid panel is made public is irrelevant to the Commissioner's decision on the OTC antacid drug monograph, because it does not form a part of the administrative record on which that decision has been based.

The irrelevance of these transcripts can perhaps best be described by an analogy. The transcripts reflect deliberations and debates among a group of individuals prior to arriving at a final recommendation. The group, in this instance, is deliberating upon recommendations with respect to regulatory policy that will ultimately have the force and effect of law. Their deliberations are therefore directly analogous to the deliberations of a panel of judges of a United States Court of Appeals. It is obvious that the judges who hear a case deliberate among themselves with respect to the issues involved. Moreover, it would not be unusual that there will be several drafts of an opinion, and that the final decision might be quite different from the initial discussions or even tentative drafts. The final opinion written by the court, however, is the only document appealable to or reviewed by the United States Supreme Court. The deliberations of the Court of Appeals, and their various drafts reflecting intermediate considerations and positions, are not a part of the record and are not reviewed by the Supreme Court. The final opinion must stand or fall on its own merits. The same is true of the final report of the OTC Antacid Panel. It stands or falls on its own merits, and is either supported or unsupported by the medical and scientific evidence submitted to and considered by the Panel.

The logic of this position is further compelled by the fact that not all Panel deliberations were recorded or transcribed. Although some transcription or recording occurred with the Antacid Panel, it was necessarily incomplete. Panel members frequently conferred by telephone with each other, discussed matters over lunch and dinner, and talked about them during breaks and in the corridors. Moreover, the major reflective consideration of the issues involved would be likely to have occurred before and after meetings, when the Panel members individually reviewed the data and information and formed their conclusions with respect to it. Thus, any transcript of Panel deliberations would reflect only a part, and perhaps a small part, of the consideration given to the matter, of the reasoning which lies behind the recommendations ultimately made, and thus of the entire deliberative process. It would therefore be highly improper to consider the transcripts of Panel meetings in determining the validity of the final OTC antacid drug monograph.

4. There was comment that the administrative record should not properly be closed prior to the final order, and that a letter of objection providing new information for the public hearing should be part of the administrative record. The comment argued that no notice was given that the ability to introduce new evidence

V39 108 JUN 4 74 XUM

and information on antacids ended when the comment period on the proposal closed. The comment stated that, if the agency wished to close the administrative record, it should make a change in the monograph procedures.

The Commissioner believes that the existing regulations make it clear that new evidence could only be submitted up through the 60 day comment period on the proposed monograph. The purpose of the hearing before the Commissioner on the tentative final order is solely to review the administrative record already compiled, and not to submit new evidence. However, in view of the fact that the present regulations do not explicitly state this requirement, the Commissioner concluded to accept all proffered information in this instance and to amend the regulations to clarify this matter. An appropriate proposed change in the regulations is published elsewhere in this issue of the FEDERAL REGISTER.

5. There was comment that the phrase "ethical drug" or "ethical labeling" is an inappropriate designation in § 331.31 and § 332.31 (formerly § 130.305(f) and § 130.306(d)) because it is an outmoded term. It was suggested that a more appropriate phrase would be "practitioner labeling" or "labeling for professional person." A comment also objected that, under the monograph, such labeling would be provided only to physicians.

The Commissioner believes that both of these points are sound. Such labeling will be designated in the future as "professional labeling" or "labeling for health professionals". This will include all health professionals who prescribe, administer, or dispense medications.

6. There was comment that the 30 days allowed for comment on the January tentative final monograph was "patently unconscionable and unreasonable", because the comments had to be received by the Food and Drug Administration on the 30th day. It was stated that "private parties cannot be held responsible for the vagaries of the U.S. Mail".

The 30 day period is provided for in § 330.10(a)(7) of the regulations (formerly § 130.301(a)(7)). Requiring the comments to be received at the Food and Drug Administration by the 30th day was done so that the agency could promptly begin preparing for a hearing or final order. Under the circumstances, the Commissioner concludes that requiring the comments to be received within 30 days at the Food and Drug Administration was not unreasonable.

7. There was a comment filed after the hearing requesting that magnesium trisilicate be listed as an antiflatulent in the antiflatulent monograph.

The Commissioner stated in paragraph 67 of the preamble to the tentative final order that any other claimed antiflatulent ingredient should be submitted when the call for data for miscellaneous internal products was published. That notice was published in the FEDERAL REGISTER of November 16, 1973 (38 FR 31696). The Commissioner realizes that magnesium trisilicate was reviewed by the Antacid Panel, but only as an antacid ingredient. Reviewing the submitted magnesium trisilicate antiflatulent data would require reopening the administrative record. Since the Miscellaneous Internal Panel will review all antiflatulents, there is no reason to disrupt the orderly consideration of this monograph. The Commissioner therefore concludes that this matter is properly handled by the Miscellaneous Internal Panel. The person submitting this comment should promptly submit all pertinent data and information to that Panel if he has not already done so.

8. In the comments to the tentative final order, a proposal was made that the Food and Drug Administration establish a "third class of drugs" which would be available only from a pharmacist or pharmacy and for which a pharmacist or pharmacy would maintain a patient dispensing record.

The Antacid Panel never considered the issue of the third class of drugs, and this issue is not properly a part of the OTC drug review. Elsewhere in this issue of the FEDERAL REGISTER the Commissioner is publishing a notice which states his conclusion that there is no health or safety justification for establishing a third class of drugs at this time.

GENERAL CONDITIONS

There were numerous comments on the general conditions for OTC drugs established in § 330.1 (formerly § 130.302). That final order was published in the FEDERAL REGISTER of November 12, 1973 (38 FR 31258) and became effective on December 12, 1973.

9. Most of these comments concerned the question whether § 330.1(i) should be revised to include a reference to pharmacists on OTC drug labels where there is a drug interaction potential.

The Commissioner is publishing his conclusions on this matter elsewhere in this issue of the FEDERAL REGISTER.

10. There was a proposal to add the words "consult your poison control center" to the accidental overdose warning under § 330.1(g) (formerly § 130.302(g)).

The Commissioner is publishing a proposal on this matter elsewhere in this issue of the FEDERAL REGISTER.

11. There was comment that the drug interaction warning contained in § 330.1(i) (formerly § 130.302(i)) had been moved from the antacid monograph to the general conditions for OTC drugs without notice and opportunity for public comment.

The Commissioner published this warning as a proposal in the FEDERAL REGISTER of April 5, 1973 (37 FR 8714), with time for public comment. It was transferred from one section to another because of its broad applicability to all OTC drugs. This procedure was therefore entirely proper. In any event, the Commissioner heard comments on this matter at the January 21, 1974 public hearing and is now publishing a further notice on the matter elsewhere in this issue of the FEDERAL REGISTER.

12. There was comment that the agency has the authority to require the quantitative labeling of active ingredients.

The Commissioner stated in paragraph 11 of the preamble to the tentative final order that such authority does not presently exist under the Federal Food, Drug, and Cosmetic Act. No specific response to this preamble statement was included in the comment received. The regulation requests that manufacturers voluntarily place such information on their label, § 330.1(j) (formerly § 130.302(j)). There are also bills (S. 3012 and H.R. 12847) pending before Congress to amend the act to provide for quantitative labeling of active ingredients for OTC drug products.

IN VITRO ACID NEUTRALIZING TEST

13. A number of written comments were filed on the November tentative final order dealing with the in vitro test procedure proposed in that notice.

The Commissioner notes that the modification of the in vitro test published in the FEDERAL REGISTER of January 22, 1974 (39 FR 2488) answered many of the issues raised. Accordingly, only the comments filed in response to the January republication and revision of the test have been considered in preparing this final order. The only request for a hearing on the revised test has subsequently been withdrawn.

14. One comment urged the Commissioner to add more specifications, such as particular types of equipment and additional controls, to the in vitro test because it has too many variables and cannot be considered a simple test.

The Antacid Panel proposed a simple test for the present and recommended that the Food and Drug Administration and industry do research to find an in vivo test. The Commissioner concurs now and that research should promptly begin on an in vivo test. With that approach in mind, the Commissioner does not believe that the in vitro test should be unnecessarily complicated by requiring special equipment and specifications for which no justifications have been shown.

15. One comment submitted a proposed in vitro test which the comment contended would be reproducible and more like an in vivo test.

The proposed test is also an in vitro test. No data were submitted to show that this test is more accurate or reproducible, or more closely parallels in vivo results, than the in vitro test in the final order. For that reason, the Commissioner believes that it would be inappropriate at this time to consider adopting this proposed in vitro test which no one has had an opportunity to review or comment upon. However, the agency will conduct studies and review the proposed test as it considers the development of an in vivo test.

16. Two comments indicated that the change in the test from the November tentative final order to the January revision resulted in a significant change in philosophy. They noted that the earlier proposal included a titration based on time, and the latter included a back titration technique that removed consideration of time and relative reactivity of the product.

The Commissioner concludes that the new procedure does not eliminate time as a factor. The preamble to the January revision stated that the procedure in the November tentative final order would have been extremely difficult to validate because of the variable time factor in the revised procedure retains the variation in time as a critical test factor in that the product must demonstrate adequate neutralizing capacity within the 15 minutes allowed. The Commissoner concludes that the 15 minute back titration technique is consistent with the clinical significance of the product and its rate of reactivity. As stated in paragraph 34 of the preamble to the November tentative final order, the acid neutralizing capacity of a product is only one factor in selecting an antacid.

17. There was comment that the in vitro test had been burdened with arbitrary modifications that set it potentially at variance with correspondng tests already in the United States Pharmacopeia.

United States Pharmacopeia standards determine strength, quality, and purity of designated products and are not a test of effectiveness. The Food and Drug Administration's in vitro acid neutralizing test is a single test that is dose related, requires the acid neutralizing capacity to be determined in 15 minutes, applies to all products which are labeled as antacids, and is concerned with the product's total effectiveness in terms of its acid neutralizing capacity. The Commissioner therefore concludes that the in vitro effectiveness test is not at variance with the United States Pharmacopeia standards for strength, quality, and purity of certain antacids.

18. There was comment that the preamble to the November tentative final order stated in paragraph 37 that the two United States Pharmacopeia tests were not used because they were only concerned with total consumption of acid and not with duration, whereas the preamble to the January revision stated that the in vitro test must be based on a back titration technique since it was impossible to validate the procedure using the test in the November tentative final order. The comment states that, based on these changes, the Food and Drug Administration test no longer purports to measure a duration of activity and offers no advantages over the United States Pharmacopeia method.

The Commissioner notes that there is no single United States Pharmacopeia method. In fact, for the 12 official products listed as antacids in United States Pharmacopeia XVIII, page xxxix, there are no acid consuming capacity tests identified for five and for the other seven, four use a similar test that differs primarily in the acid used, one uses a very simple test, and the other two have a more complicated procedure that takes four hours for the antacid to neutralize the acid. Basically, the United States Pharmacopeia procedures are for individual products, are not dose related, allow one or more hours for the acid to react with the antacid, and are determinations of strength, quality and purity. As explained above in paragraph 17 of this preamble, the Food and Drug Administration's in vitro test determines effectiveness for all antacid drug products.

19. There was comment that it was inappropriate to include an in vitro acid neutralization capacity test as a basis of general recognition of safety and effectiveness, because there is no substantial evidence to prove that a product which passes the test is safe and effective, nor are there any data correlating the in vitro test to in vivo results. The comment contended that, since there are no data, there can be no basis on which experts can conclude that the in vitro test measures safety and effectiveness.

The Antacid Panel found that there was a substantial scientific basis on which to create an in vitro test for measuring effectiveness. To support their position, they cited seven publications concerning gastric secretion and antacid activity. The Commissioner has reviewed the literature and concurs with the judgment that there are sufficient data on which to base an in vitro test. However, the Commissioner recognizes, as the Panel did, that the industry, academia and agency should promptly seek to develop an in vivo antacid test.

20. There was comment that the in vitro test should not be applied to products that are not designed to neutralize the total stomach acidity. The comment contended that a floating antacid that claims to neutralize the stomach contents that are refluxed into the upper esophageal tract should be tested differently. The comment proposed an in vitro test similar to that published in the November tentative final order.

The Commissioner has found that adequate evidence to prove effectiveness for a product that floats and only reduces the acidity in the upper stomach and lower esophageal tract has not been presented (see paragraphs 60 and 61 below and paragraph 25 in the preamble to the November tentative final monograph). To allow marketing of the product while data are being obtained on this category III active ingredient, the method for measuring the acid neutralizing capacity submitted will be reviewed by the Commissioner as an exemption request to the in vitro test. If adequate data for effectiveness are presented it will be possible to review the proposed in vitro test as an amendment to the monograph.

21. One comment complained that antacid capsules have not been provided for in the test procedures.

The Commissioner concludes that capsules may be tested in the same manner as tablets. This additional provision has been added to the final order.

22. There was comment that the requirement that each antacidl ingredient contribute at least 25 percent of the total effectiveness of the product should not be calculated on the basis of four times the amount of the ingredient present but on the basis of the amount actually contained in the dosage being tested. The percentage of contribution should then be calculated from the amount of acid neutralization of the ingredient in relationship to the amount of acid neutralization of the whole dosage unit.

The Commissioner concurs that this is a more scientific approach. The final order has been changed accordingly.

23. There was comment that the acid neutralizing test is being interpreted in two different ways. One interpretation is that the 25 percent requirement applies to the 5 milliequivalent minimum, i.e., one-fourth of the 5 milliequivalents means that each active ingredient must reduce 1.25 milliequivalents to be considered an active ingredient. Another interpretation is that four times the amount of the ingredient must neutralize the same amount of acid as a total drug product to reach the 25 percent minmum.

The Commissioner advises that the proposed procedure was to take four times the amount of each active ingredient and test it against the total drug product to determine the 25 percent. As now revised, the 25 percent requirement is to be based on a comparison of the acid neutralizing capacity of the amount of the ingredient in the product with the total acid neutralizing capacity of the product (not with the minimum value required by the monograph for an antacid). Thus, the standard for measuring the 25 percent requirement remains the total acid neutralizing capacity of the entire product. As stated in paragraph 22 of this preamble, the Commissioner has amended the test to clarify the basis for calculating the 25 percent minimum.

24. One comment proposed that the number of active ingredients be limited to four and that the 25 percent requirement be deleted. In the 10 days allowed after the hearing, a comment was received which opposed any arbitrary limit on the degree of activity or number of active ingredients allowed in a proprietary medication.

For the reasons stated in paragraph 30 of the preamble to the tentative final order, the Commissioner concludes that each active ingredient should make a minimum contribution of 25 percent of the acid neutralizing capacity to the final product. The 25 percent figure was based on the conclusion that any ingredient in an antacid should contribute to the acid neutralizing effect. If only the number of ingredients were limited, three of the labeled active ingredients could be used in such small amounts that the contribution of each to the product's effectiveness would be insignificant. The consumer would then be misled because the label would list four ingredients when in fact only one made a significant contribution to the therapeutic effect.

The comments have failed to supply any data to support any safety or effectiveness reason for not adopting the proposed 25 percent requirement or for adopting a different requirement. The Commissioner concludes that the 25 percent requirement will provide the consumer with safe and effective antacid

V 39—108 JUN 4 74 XUM

combination drugs that are not misleading.

25. There was comment that the words "magnetic stirrer" were not specific enough because the stirring speed is a critical factor and the shaded pole motor stirrer normally found in laboratories will vary too much. The comment proposed that a direct current motor controlled by a solid state direct current power pack attached to an accurate tachometer be specified.

The Commissioner realizes that stirring speed is important to the evaluation, but is also of the opinion that the laboratory should be given the responsibility of determining how it wishes to obtain the necessary stirring speed. It would be arbitrary for the Commissioner to designate a particular type of equipment if a laboratory can properly conduct the test using other equipment.

26. There was comment that the 100 ml. and 250 ml. beakers are not large enough to accommodate more effective antacids or those which foam.

The Commissioner realizes that many factors effect analytical tests such as the proposed in vitro test. In an effort to standardize the test it has been necessary to designate the beaker size just as do the United States Pharmacopeia and the National Formulary in their methods of analysis. However, the Commissioner recognizes that there may be a manufacturer who cannot test his antacid in these sizes of beakers. A manufacturer may request an exemption stating the size of the beaker he desires to use and data validating the test using the different beaker size.

27. One comment stated that the tablet comminuting device must be specified because the type of device and the speed of action control the amount of surface area and therefore the rate of reactivity of the product.

The Commissioner does not believe that a specific comminuting device should be designated at this time because no data have been presented to show that erroneous results will occur or that the test provides information more closely related to in vivo results if such a device is used. It would be arbitrary for the Commissioner to require the purchase and use of a specific piece of equipment when insufficient data have been collected to determine its effect on the test.

28. There was a comment that "distilled water" should be specified.

The Commissioner agrees, and "distilled water" has been specified in the final order.

29. There was comment that the sieve size should be designated as the United States standard since there are nonstandard sieves available

The Commissioner agrees, and the United States standard designation has been added in the final order.

30. There was comment that the use of 0.5 and 1.0 Normal hydrochloric acid affects results obtained because the reaction rate of any reaction can be increased by increasing the concentration of the reactants. The comment also pointed out that the acid concentration in the stomach is closer to 0.1 Normal than 0.5 or 1.0 Normal.

The in vitro tests conducted by the Food and Drug Administration have shown no difference between 0.1 Normal and 1.0 Normal. Results of these tests are on file with the Hearing Clerk as part of the administrative record. However, these tests show that the increase in volume resulting from the use of 0.1 Normal complicates the test procedure because large pipets and burets would have to be used. Based on the Agency's findings, the normalities will remain the same. The increase in volume caused by the use of 0.1 Normal hydrochloric acid makes the test more cumbersome and awkward to conduct without a corresponding increase in accuracy.

31. There was comment that the pH meter should be calibrated between pH 1.1 and pH 7.0 instead of exactly at pH 4.0, because the calibration between 1 and 7 will allow for a more accurate determination of higher values. No data were submitted to support the statement.

The Commissioner has determined that calibration of the pH meter at 4.0 is sufficient to assure the accuracy of the test. Therefore, he will not change the calibration. The final order provides only for checking the operation of the meter at pH 1 since there is no need to calibrate the meter twice. The analyst need only calibrate the meter and then assure himself that it is operational at another pH, i.e., pH 1.

32. There were comments stating that the temperature should be controlled since it is the simplest of specifications and is used in most laboratory tests. The comment proposed that the test should be conducted at body temperature, 37° C.

The Commissioner agrees that this is a variable that can be eliminated and yet not complicate the test. However, during testing, the Food and Drug Administration has shown that there is no difference between 25° C and 37° C. It is more appropriate to use room temperature since it requires less equipment. The Commissioner has therefore, concluded that the temperature will be designated at 25° C±3° in the final order.

33. There was comment that the disintegration test should be altered for chewable tablets.

The Commissioner advises that, under § 331.1(b) (the disintegration test), the proposed disintegration test does not apply to chewable tablets. The Commissioner does not believe that a disintegration test for chewable tablets is necessary. It would be inappropriate to require a chewable tablet to disintegrate in the same manner as a swallowed tablet because the chewable tablet labeling instructs the consumer to reduce the particle size of the tablet. The disintegration test for a swallowed tablet is merely a test to assure that it be reduced to particle size on swallowing.

34. One comment stated that it is inappropriate to adopt a 10 minute standard for the disintegration of swallowed antacid tablets, because there is no substantial evidence to indicate that passing or failing the test will affect the tablet's safety or efficacy, nor are there any data indicating that the 10 minute test is correlated to in vivo results.

The Commissioner concludes that the position taken in this comment would allow the swallowed tablets to have any disintegration time or to use the United States Pharmacopeia standard of 30 minutes. The Panel in their recommendation concerning the in vitro test stated that, on the fasting stomach, a tablet that takes 30 minutes to dissolve probably would be ineffective because it would be gone from the stomach in half that time. Most of the antacid has left the stomach 15 minutes after ingestion. An undissolved tablet cannot be effective. The 10 minute standard should not create a hardship since it only requires that tablets that fail to pass the disintegration test must be labeled as chewable tablets so that the consumer will know that he must physically reduce the tablet size to get the benefit of the active ingredients.

35. There was comment that, if a tablet does not disintegrate in 10 minutes or less, the manufacturer should have the option of testing the whole tablet according to the preliminary antacid test. The comment contended that, if the whole tablet passes the preliminary test, the manufacturer may recommend swallowing on the label.

The Commissioner concludes that a tablet which fails to disintegrate and yet passes the preliminary antacid test is more properly handled through a new drug application or an amendment to the monograph. No data have been presented to explain why a tablet would fail to pass the disintegration test, and yet pass the in vitro test. If such a condition did exist, data to show in vivo effectiveness would need to be presented.

36. There were comments that the method of comminuting the tablets to pass through a number 20 U.S. mesh sieve would allow a person to finely powder the tablet. One comment provided data to show that cement, if finely powdered, would pass the in vitro test.

The Commissioner advises that the test was not designed to allow the use of a fine powder. For this reason a lower limit has been placed on the particle size in the final order, to prevent the comminuting of tablets to a fine powder.

37. There was comment that ethanol, when used as a wetting agent, may reduce the acid neutralizing capacity of a product.

The Commissioner concludes that, although ethanol may have an effect, it is not significant. The Commissioner has therefore decided to allow the discretionary use of ethanol as a wetting agent. Some comments have stated that particles float on the top of the test solution and the ethanol will reduce the surface tension and decrease the number of particles that float, but in Food and Drug Administration tests few products exhibited this tendency and it is doubtful that the use of ethanol will be required. The person conducting the test must determine if a wetting agent is necessary.

38. There was comment that the density and not the specific gravity should be used in testing liquid samples.

The Commissioner concludes that the comment is correct in that the proper designation for the calculation figure is density. The final order has been changed accordingly.

39. There was comment that, because the concentrated antacids would exceed the 30 milliequivalent titration, the procedure should allow for a greater number of milliequivalents to be used.

The Commissioner doubts that there are many antacids with neutralizing capacities greater than 30 milliequivalents. No data were presented to the Food and Drug Administration concerning such a product. Therefore the Commissioner believes that it is proper to provide for an exemption from the in vitro procedure for a stronger antacid, or an amendment to the test if necessary, upon the petition of a manufacturer.

40. There was comment that the United States Pharmacopeia XVIII simulated gastric fluid test solution contains enzymes which are not necessary for the test and increases its expense.

The cost of the enzymes would be approximately twenty cents per test, which is not significant. At the present time, however, there is no scientific justification for adding the enzymes other than the fact that they are present in the stomach. The Commissioner believes that future testing in this area should address itself to this issue. Until scientific evidence is forthcoming on why enzymes must be in the test solution, the Commissioner has concluded that the simulated gastric fluid test solution shall not contain enzymes. The final order has been modified accordingly.

41. There was comment that the stirring speed for the in vitro test should be eliminated because it has no direct reference to similar in vivo action.

Data submitted in response to the January tentative final monograph and some Food and Drug Administration testing showed that a test with no established stirring speed would allow a procedure that provides for an infinite number of results depending on the stirring speed. The test must be reproducible, and therefore a stirring speed must be identified.

42. There was a comment requesting an exemption for a product from the 10 minute time period required in the acid neutralizing capacity test contained in the November tentative final order.

The Commissioner stated at the hearing that a revised tentative final monograph acid neutralizing test was being published and that, if a deviation from that test was required, an exemption should be requested pursuant to § 331.29 (formerly § 130.305(a)(1)(iii) after the final order was published.

43. There was comment that the in vitro test should be validated by appropriate bodies.

The Commissioner has had the test reviewed and validated by Food and Drug Administration laboratories and has determined that it is valid. The validation studies have been filed with the Hearing Clerk.

Active Ingredients

44. There was comment that bismuth salts protect the mucous membranes of the stomach and duodenum and that they should be allowed to be used in combination with other antacids.

Bismuth salts are included in the monograph as active ingredients with potential acid neutralizing properties and can be used in a combination as long as they contribute 25 percent of the total acid neutralizing capacity of an antacid product. Based on the fact that no data were submitted to prove that bismuth salts are effective as protectants to the mucosal membrances, the Commissioner does not recognize the bismuth salts as having been proved effective for such purposes. Data would have to be presented to demonstrate effectiveness for this particular use to allow such a labeling claim.

45. There was comment that an exemption should be provided from § 330.1(g) (formerly § 130.302(g)) for sodium bicarbonate powder. The powder is used as a food product, tooth cleanser, and mouth wash, as well as an antacid, and therefore an accidental overdose warning appearing in § 330.1(g) (formerly § 130.302(g)) is inappropriate because of the nature of the product.

The Commissioner recognizes the many uses of sodium bicarbonate (baking soda) as a food and for various other purposes. The Commissioner therefore believes that it would be proper to exempt sodium bicarbonate powder from the general accidental overdose warning contained in § 330.1(g) (formerly § 130.302(g)) because of its extremely low potential for injury from an overdose. The product labeling must, however, fully comply with the antacid monograph, including directions for use, all applicable warnings, etc.

Indications

46. There was comment that the words "upset stomach" should be included in Category I.

The Commissioner considered this issue in detail in paragraph 49 of the preamble to the tentative final order and no new data or information were presented to support a change in that decision. Accordingly, no change has been made in the monograph with respect to this matter.

47. There was comment that justification for the term "upset stomach" should not require clinical trials to establish a relationship between consumer language and acidity.

A clinical trial to establish a relationship between what consumers regard as "upset stomach" symptoms and OTC antacid drugs would be an appropriate approach to justify this claim. Another valid approach to justify approval of use of the claim "upset stomach" for an antacid is a statistically valid consumer survey to determine how the consumer interprets the term "upset stomach". The Commissioner's present conclusion that the term "upset stomach" has not been justified is based on the fact that this phrase is used by consumers to describe the symptoms relieved by completely different products. Paragraph 49 of the preamble to the tentative final order discussed a marketing study where this phrase was applied by consumers to five products, only two of which were simple antacids.

It would not be sufficient to show a particular product which uses this claim to consumers and to ask for what symptoms it should be used. The question is what the phrase means to the consumer, not what words does the consumer think of to describe an advertised brand name product or a class of products.

Directions for Use

48. There were comments to the effect that the term "as needed" should be used to describe dosage in antacid labeling instead of labeling requiring a specific dosage schedule by time interval or time period. It was further proposed that no other directions for use would be needed since the warning would express the maximum dose.

The Commissioner concludes that the directions for use in antacid labeling properly indicate the specific dosage and time periods for which the product is recommended. It would be improper to recommend that any antacid be used "as needed," since this would promote unrestricted use.

The Commissioner has also concluded that the proposed phrase "except on the advice and supervision of a physician" is confusing, and that it should be revised to read "or as directed by a physician."

Warnings

49. There were comments that § 331.30(b) (formerly § 130.305(c)) and § 330.1(g) and (i) (formerly § 130.302 (g) and (i)) contain warning statements which a manufacturer should be able to consolidate and simplify. There was also a request that, when a manufacturer develops warning statements, they be submitted to the Food and Drug Administration with an understanding that the statement is approved unless the manufacturer is otherwise notified.

The Commissioner agrees that there may be certain products that would require more than one of the warnings specified, and that clearer labeling may be provided by consolidating such statements. The Commissioner has decided that any two or more warning statements may be combined provided that the resulting statement uses all of the specific words contained in the monograph in the order specified, and provides a clear and readable warning which the consumer can understand. This will permit deletion of duplicative phrases without losing uniformity in warning terminology. Thus, the warnings in § 331.30(b) (4) and (5) may properly be combined to read "Do not use this product except under the advice and supervison of a physician if you have kidney disease or if you are on a sodium restricted diet," since none of the operative words or phrases are eliminated or rearranged. If

V39—108 JUN 4 74 XUM

any manufacturer is concerned about a combination of warnings he intends to use, he is encouraged to submit it to the Bureau of Drugs for review and comment.

50. There was comment that the language used in a warning should not be mandatory because the manufacturer may use minor variations in words which would allow clearer understanding by consumers.

The Commissioner believes that uniformity in labeling language is essential to consumers. For this reason, the combining of warnings is permitted only where it will retain uniform terminology. Allowing minor word variations, or rearrangement of the same words, would result in dissimilar or confusing warnings which would not be in the best interest of the public. The Commissioner has also included in the final monograph standard headings for the labeling sections on warnings, drug interaction precautions, and directions, to promote such labeling uniformity. However, the Commissioner recognizes there may be circumstances where warnings can be improved. A manufacturer may seek an amendment to the monograph if he concludes that a warning or other labeling should be revised.

51. There was comment that including the phrase "except under the advice and supervision of a physician" should not be required to appear in both the maximum dosage statement and any additional warnings, since this would be duplicative.

The Commissioner concludes that the consolidation of warnings discussed in paragraph 49 of this preamble will permit a manufacturer to eliminate duplication of common phrases in warning statements.

52. There was comment that two of the warning statements name specific diseases and that physicians do not always inform a patient of his specific disease condition. The comment suggested that, because the patient may not know his disease, the labeling should warn against consumption of additional quantities of the active ingredients involved (i.e., potassium and magnesium) rather than against use of the OTC drug in specific disease conditions. There were no data submitted to support this comment.

The Commissioner concludes that, although the monograph necessarily determines the safety and effectiveness of antacid drug products in terms of their active ingredients, consumers are more likely to be told and to remember their disease conditions than a list of prohibited chemical ingredients. No data were submitted to show that physicians ordinarily provide a list of prohibited ingredients to patients that would allow them to use such labeling, or in any event that physicians are more likely to do this than to inform the patient of his disease. Under § 330.10(a)(3)(v) (formerly § 130.301(a)(3)(v)), labeling must be likely to be read and understood by the ordinary individual including the individual of low comprehension. The Commissioner concludes that this labeling meets that requirement.

53. There were numerous comments that the 5 percent level which determines whether a warning is necessary relating to constipation and laxation in § 331.30 (b) and (c) (formerly § 130.305(c) (2) and (3)) is arbitrary and incapable of scientific validation.

The Commissioner concludes that any manufacturer is capable of conducting a well-controlled clinical study on the maximum recommended dose to determine whether it causes laxation in more than 5 percent of the users, and thus that scientific verification is entirely reasonable. If more than 5 percent of the users of an OTC antacid are suffering from constipation or laxation, that is a significant fact which merits a warning, because antacids are often used by the adult population, many of whom already have irregular bowel habits or other gastrointestinal problems. Many antacids are also recommended by physicians at much higher dosages than those appearing on the label, and such a warning would be important to inform the consumer that he may experience bowel irregularity.

54. There were also comments that the 5 percent level is unreasonable because OTC medications are intended for use only for a short period of time and therefore significant constipation or laxation is unlikely.

The Commissioner concludes that it is important that the manufacturer be required to demonstrate that laxation or constipation is unlikely. If in fact it is unlikely, the required test will demonstrate this fact and the warning will be inapplicable.

55. One comment stated that the 5 percent rule could result in labeling for a product indicating that it could cause both constipation and laxation in a patient population because different people react differently to the same ingredient. It was proposed that the 5 percent cut-off level be raised to 15 percent to identify the effect more clearly.

The Commissioner concludes that if a product is capable of causing both effects at the maximum daily dose in 5 percent of the patient population such information should properly be provided to the consumer in the label. No data were presented to show that any such product exists. The Commissioner rejects the proposed 15 percent cut-off level because these products are often used by people greatly in excess of the amount recommended in the label and because consumers should be alerted to any significant side effect that will affect a substantial number of users. No justification was provided for the proposed 15 percent cut-off level.

56. There was comment that the provisions relating to the warnings required by § 331.30(b)(4)) formerly § 130.301(c) (4)) when the magnesium level exceeds 50 milliequivalents a day should be revised to state that they are applicable only where the level exceeds 150 milliequivalents per day.

The summary minutes for the early meetings of the Antacid Panel reveal that the Panel initially considered 150 milliequivalents per day of magnesium as the level for requiring a warning. However, upon reconsideration the Panel reduced the amount to 50 milliequivalents because of the following considerations. The normal individual consumes from 20 to 40 mEq of magnesium per day and about one third of that is absorbed into the body. If a consumer is taking a magnesium-containing antacid, anywhere from 15 to 30 percent of that magnesium is absorbed. If a person does not have normal renal function it is possible to have hypermagnesmia toxicity, i.e. the level of magnesuim in the body may reach a toxic level.

The Commissioner agrees fully with the Panel's reasoning and therefore finds the warning for 50 mg. is appropriate. The primary target population for antacids is adults, many of whom suffer from kidney problems or take doses larger than those recommended in labeling. Therefore the safety factor becomes significant. The normal individual with no renal problem can easily tolerate 150 mg. of magnesium a day, but for a patient who has renal failure large doses of an antacid could present a serious problem that is avoidable by the warning contained in the final order.

57. One comment stated that it is appropriate to provide information on the salt content for an antacid, but that the more appropriate approach would be to label the product as "low in sodium" when the product contains less than 5 milliequivalents in the recommended dose. The comment recommended removal of the warning statement required on a product containing greater than 5 milliequivalents of sodium in the recommended dose.

The Commissioner is concerned that a statement "low in sodium" might be read by consumers as a claim that the product has advantages in relation to other antacids, which in fact may not be true. Such labeling would also remove the sodium warning from high sodium-containing products and thus fails to designate products that are not appropriate for a sodium-restricted diet. For these reasons, the Commissioner concludes that it is more appropriate to require the sodium warning and thus allow the doctor and patient to review whether a product containing more than 5 milliequivalents of sodium is appropriate for use.

58. There were comments that the Food and Drug Administration has ignored the drug interaction warnings required in prescription drug package inserts and some of the more recent scientific literature. There was specific comment that aluminum ingredients interfere with the absorption of tetracycline.

The Commissioner has reviewed the literature citations contained in Evaluations of Drug Interactions, 1973, the Antacid Panel Report, and the package insert labeling for prescription drugs. He concludes that there is adequate scientific evidence that the aluminum compounds may interfere with tetracycline and that a drug interaction warning statement should be required on the label.

The Commissioner concludes that it is important that consumers understand the basis for this warning. Accordingly, the final monograph has been revised to require that this information be contained in a separate labeling section headed "Drug Interaction Precautions." This will advise consumers of the reason why these two types of products should not be used concurrently. The manufacturer is, of course, also free to add additional explanatory information to the effect that use of the product may prevent the proper absorption of tetracycline.

PROFESSIONAL LABELING

59. A number of comments requested that the acid neutralizing capacity be removed from the labeling for health professionals (§ 331.31(a)(1)) (formerly § 130.305(f)(1)) because the acid neutralizing test has undergone numerous changes and may not correlate with in vivo results.

For the reasons already summarized above, the Commissioner believes that the in vitro test is an excellent means of determining effectiveness, which closely correlates with in vivo results. Nevertheless, the Commissioner is concerned that confusion could occur in the near future if the acid neutralizing capacity were required to be in professional labeling, because of required reformulations and efforts to find an improved in vitro or in vivo standard. The Commissioner has therefore concluded that manufacturers will not be required to state the acid neutralizing capacity in professional labeling until 2 years from the effective date of the monograph. This will give industry an opportunity to conduct all necessary tests and to propose an improved in vitro test or an in vivo test with even greater reliability.

COMBINATIONS WITH NONANTACID ACTIVE INGREDIENTS

60. There was comment that alginic acid is effective for the treatment of reflux esophagitis. An article by McHardy, G. and L. Balart, "Reflux Esophagitis in the Elderly, with Special Reference to Antacid Therapy", American Geriatrics Society, 20: 293, 1972 concerning a summary of 100 patient case reports was cited as support for this comment.

The Commissioner notes that even the comment admits that alginic acid is not a potent antacid and that its unusual characteristic of floating is the factor that may aid in the management of patients with esophagitis. The Commissioner rejected this comment in paragraph 25 of the preamble to the tentative final order, and no significant new or additional data or information have been submitted. This ingredient is not sufficiently effective to meet, by itself, the requirements for effectiveness set out in the final order. The problem continues to be that no well controlled studies have been submitted demonstrating that alginic acid is otherwise clinically effective in combination with an effective antacid. Until such studies are available, alginic acid will not be included in the antacid monograph.

61. Another comment supporting the use of alginic acid as a Category I ingredient took exception to the findings of the Commissioner in paragraph 25 of the tentative final order. First, it was stated that, as long as a study shows that an antacid/alginic acid combination has the same effectiveness as an antacid alone in treating regurgitation and epigastric gas, the combination product should be approved. Second, the comment argued that there is incontrovertible evidence that the alginic acid floats. Third, it was proposed that the concern of the Antacid Panel about the effectiveness of the product when a patient is in a reclining position can be eliminated by including in the labeling directions a caution statement stating that the user should not recline. Fourth, there was comment that an additional study by Grossman, A. E., et al., "Reflux Esophagitis, a Comparison of Old and New Medical Management", Journal of the Kansas Medical Society, 74: 423–424, 1973, shows that the combination is equivalent to the standard antacid in relieving regurgitation and epigastric gas.

The first point deals with a study in which the antacid/alginic acid combination product shows little difference from the antacid alone. Pursuant to § 330.10 (a)(4)(iv) (formerly § 130.301(a)(4)(iv)), the use of an active ingredient, alginic acid, in a combination drug must be shown to contribute to the effect of the product, i.e., the combination must result in a more effective product than the antacid alone. The alginic acid has no acid neutralizing capacity, and the referenced study clearly does not show that the alginic acid/antacid combination is more effective than an antacid alone or that alginic acid contributes to the claimed alleviation of symptoms. Thus, the available data fail to provide adequate evidence that alginic acid contributes to the effectiveness of the product.

The second point deals with whether floating, by itself, constitutes effectiveness. No scientific evidence has been submitted to show that floating is in any way related to clinical effectiveness, and in view of the study showing a lack of clinical effectiveness of alginic acid it is doubtful whether such proof can be obtained.

The third point referred to the fact that reclining may reduce the effectiveness of a floating product. The Commissioner concludes that consideration of any proposed warning or other labeling is properly deferred until studies are conducted to determine the clinical effectiveness of a floating alginic acid/antacid combination drug and its relationship to the position of the patient.

There is no indication in the article that the subjects were assigned so as to eliminate bias nor to assume comparability in the test group and control of pertinent variables such as duration of disease, age and sex. The most critical issue was the failure to minimize bias on the part of the subject and observer because the control in the study was a commercially available antacid that had different ingredients and would be easily distinguishable by the subject and the dispensing health professional. There is no indication that any effort was made to blind the study. The method of evaluation is explained but it was subjective in all subjects unless they had shown esophagitis in the initial esophagoscopy. Only one-half the patient population had shown esophagitis and both the antacid and antacid/alginic acid group showed objective improvement in esophagitis at the end of the one month study period. The study had attempted to measure four parameters: (1) Epigastric to retrosternal distress, (2) regurgitation, (3) epigastric gas and (4) motor symptoms of swallowing. The statistical analysis according to the investigators showed no significant difference in three out of the four comparisons between the antacid and the antacid/alginic acid product. The investigators also noted that the frequency of antacid administration used in the study may not have been adequate to produce therapeutic response in all patients. The investigators also concluded that the antacid/alginic acid combination "may" be beneficial in patients with retrosternal or epigastric gas. As indicated above, the article reporting the study does not meet a number of requirements of § 314.111(a)(5) (formerly § 130.12(a)(5)). The study does not answer the question whether alginic acid is effective alone or in combination in the treatment of retrosternal or epigastric distress. Until well-controlled studies are conducted in accordance with § 314.111(a)(5) (formerly § 130.13(a)(5)) to show clinical effectiveness, it will not be possible for the Commissioner to include this ingredient in the monograph.

62. There was comment that the use of a product containing an antacid and a salicylate for gastrointestinal symptoms, even if accompanied by pain symptoms, is not safe. To support the position, material previously provided as a comment on the proposal was resubmitted.

The Commissioner discussed this material in paragraphs 62 through 66 of the preamble to the tentative final order. No additional data of information were submitted. The Commissioner therefore reiterates the conclusions stated on this matter in the tentative final order.

The Commissioner notes that all of the evidence of safety of an analgesic/antacid combination drug is derived from studies and experience with products intended for administration in solution. Accordingly, the monograph has been modified to limit this combination to this type of product.

63. There was comment that the Commissioner in paragraph 66 of the preamble to the tentative final order had failed to evaluate properly an unpublished study on an antacid/analgesic combination. The comment stated that the Commissioner erred when he concluded that there was no statistically significant increase of blood loss, that the blood loss was not clinically significant, and that the bleeding resulting from an analgesic/antacid drug response normally continues for the duration of the treatment period. The comment

V 39 108 JUN 4 74 XUM

stated that, based on the incorrect evaluation of this study, the Commissioner's conclusion should be reversed.

The Commissioner has again reviewed this matter and has determined that his evaluation of the deficiencies in the study cited in this comment are correctly explained in paragraph 66 of the preamble to the tentative final order. First, the statistical significance of the differences in bleeding shown in that study is in dispute, and in any event is not the important issue. The important question bearing on safety is the medical significance of the amount of bleeding shown in the study. Second, the amount of blood loss shown is not clinically significant (Matsumoto, K. K. and M. I. Grossman, "Quantitive Measurement of Gastrointestinal Blood Loss During Ingestion of Aspirin," Proceedings of the Society for Experimental Biology and Medicine, 102: 517–519, 1959) and is within the range of blood loss found in normal individuals (Danhof, I. E., "Blood Loss from the Gastrointestinal Tract I. Normal Occult Loss," Bulletin of the Medical Staff of the Methodist Hospital of Dallas, 5: 35–38, 1972). Third, although a patient with pathological gastrointestinal lesions caused by cancer or ulcers bleeds irregularly and at widely varying times from day to day, the available evidence supports the conclusion that the blood loss caused in normal individuals by salicylate is continuous. (Croft, D. N. and P. H. N. Wood, "Gastric Mucosa and Susceptibility to Occult Gastrointestinal Bleeding Caused by Aspirin," British Medical Journal I, 137–141, 1967). Fourth, the single study on which the comment relies is not supported by substantial other well-controlled studies contained in the record. Fifth, the record does not contain any significant number of case histories of such acute bleeding caused by this widely marketed type of product consumed in large quantities by a substantial body of the public for many years. If a significant medical problem existed it would be expected to have been reported by now.

64. One comment stated that the Food and Drug Administration has misinterpreted the OTC combination drug policy as to an antacid/analgesic combination, because the policy requires that each ingredient contribute to each effect. The comment contended that each ingredient in the antacid/analgesic combination would need to be shown to contribute to both effects, e.g., the antacid ingredient would also need to be effective for a headache.

The Commissioner advises that the comment misinterprets the plain meaning of the OTC combination policy contained in § 330.10(a)(4)(iv) (formerly § 130.301(a)(4)(iv)) and explained in paragraphs 63–66 of the preamble to the final regulations establishing the procedures for the OTC drug review published in the FEDERAL REGISTER of May 11, 1972 (37 FR 9664). The policy states that each active ingredient must make a contribution to the effect claimed for it, and not that each active ingredient must contribute to all effects claimed for the product. To adopt the approach suggested by the comment would require removal of all dual purpose combination drugs from the market because rational concurrent therapy could only be found where all the ingredients had the same effects. The Commissioner states that this was not the intent of the regulation and that such a policy would be unreasonable from a medical standpoint.

One person who opposed the combination as irrational stated at the public hearing that he would concurrently prescribe an analgesic and an antacid for a patient who exhibited the concurrent symptoms of acid indigestion and headache. He stated, however, that he would prescribe an analgesic other than a salicylate, and also expressed concern about the fixed dosage contained in existing antacid/analgesic combinations.

The Commissioner concludes that this comment supports his determination that an antacid/analgesic combination constitutes rational concurrent therapy. Symptoms justifying use of these drugs often occur concurrently. The combination of these drugs meets each requirement of § 330.10(a)(4)(iv) (formerly § 130.301(a)(4)(iv)). The antacid monograph determines the effective dose for the antacid component of this combination, and the internal analgesic monograph will determine the effectiveness dose for the analgesic component. Thus, the fixed combination will be within the effective dosage range for both ingredients when administered concurrently according to the label directions for use.

The Commissioner notes that the safety of analgesic ingredients is currently being reviewed by the Internal Analgesic Panel. The final antacid monograph provides that any safe and effective analgesic, as determined by the internal analgesic monograph, may be used in combination with an antacid for concurrent analgesic and antacid symptoms. Accordingly, the safety, effectiveness, and appropriate labeling of the analgesic component of an antacid/analgesic combination remains under consideration at this time, and will be the subject of a further review and determination by the Commissioner in accordance with the procedures specified in § 330.10 (formerly § 130.301).

65. There was comment that the dosages of the active ingredients in an analgesic/antacid combination would be irrational because of an insufficient amount of antacid or analgesic. The comment states that the combination provides about one-fourth of the antacid needed in treating ulcers or hypersecretion.

The dosage of antacid contained in the combination product must meet the antacid in vitro test which has been designated as the standard of effectiveness for an OTC antacid. The Commissioner has determined that the combination antacid/analgesic is not appropriate for peptic ulcer therapy and under the final monograph it cannot lawfully be promoted for antacid use alone. Moreover, consumer labeling may not lawfully promote any antacid for peptic ulcer therapy under the final monograph. Accordingly, this comment raises issues based on an incorrect interpretation of the monograph.

66. There was comment that banning combinations for the concurrent symptoms of constipation and acid indigestion and yet approving those for the concurrent symptoms of acid indigestion and headache was irrational.

The Commissioner concludes that there is a significant target population that suffers from acid indigestion and headache at the same time. There was no information submitted to indicate that this is true with acid indigestion and constipation.

67. One comment stated that an antacid/analgesic combination should not be used only as an antacid, citing the Medical Letter, 15: 36, April 13, 1973.

The Commissioner concurs, and the labeling for the combination required in the proposal, the tentative final order, and the final order clearly so states.

68. There was comment at the hearing that the response to a questionnaire mailed to 275 gastroenterologists showed that 44 percent replied indicating that an antacid/analgesic (salicylate) combination was irrational.

The Commissioner concludes that the flaws in this mail survey make the results unreliable and irrelevant to the issues being considered. First, the mail survey used an obviously biased questionnaire. The questionnare set out quotations from the report of the Antacid Panel that were incomplete and taken out of context and thus presented an incomplete picture. The results must therefore be disregarded as unacceptable evidence on which to base any decision. Second, the mail survey did not include the requirements for a combination drug set out in § 330.10(a)(4)(iv) (formerly § 130.301(a)(4)(iv)) of the regulations. Accordingly, there was no standard against which to judge the appropriateness of the combination involved. Third, the mail survey included no scientific data on which the respondents might base an opinion. The information available to the Commissioner in the administrative record of this proceeding does not indicate that any of the respondents based their conclusions upon scientific evidence. Fourth, the mail survey did not ask whether any of the respondents had observed gastrointestinal bleeding that had been proved to be causally related to an antacid/analgesic combination drug. The information available to the Commissioner in the administrative record of this proceeding does not indicate that any of the respondents stated that they had found any such situation. Fifth, the courts have ruled that the opinions and anecdotal views of physicians are an insufficient basis for a decision that a combination drug meets the legal and scientific requirements of the Federal Food, Drug, and Cosmetic Act. See Upjohn Company v. Finch, 422 F. 2d 944 (6th Cir. 1970) and Weinberger v. Hynson, Westcott and Dunning, 412 U.S. 609 (1973). This principle applies regardless whether the physicians may approve or disapprove of a particular combination drug. Unsubstantiated opinion is no substitute for well-grounded scientific evidence. Sixth, the mail questionnaire focused upon a particular brand of a marketed product rather than upon a request for scientific evidence relating to a type of combination drug. This reference introduced further subjective factors into the response, relating to the labeling and advertising for the particular brand product mentioned, unrelated to the scientific and medical issues involved. Accordingly, the Commissioner concludes that this mail survey is entitled to little or no weight with respect to this matter.

69. One comment objected to comments made to the Antacid Panel by the Assistant General Counsel, Food and Drug Division, Department of HEW, and to the participation of the Assistant General Counsel in this matter because, prior to his government employment, he had provided legal advice to a client who had manufactured an antacid/analgesic combination drug.

The Commissioner has thoroughly reviewed this matter and has concluded that no impropriety has occurred. The Assistant General Counsel has stated that he had not advised the company involved on any of the issues involved in the OTC Review and that he has followed the guidelines for disqualification which he established in testimony before the Senate Committee on Commerce on September 17, 1971, which exceed the requirements of the law. A copy of that testimony has been included as part of the administrative record of this proceeding.

Moreover, the Commissioner reiterates that the decision on both the tentative final order and this final order with respect to the antacid/analgesic combination involves medical and scientific issues for which he is responsible, and not legal issues. The Commissioner advises that, in considering the status of the combination, his decision has been based upon sound scientific evidence and reasoning rather than upon theoretical possibilities, particularly in light of the long marketing history of this type of product without any significant reported safety problem. The criteria for a combination drug are established in § 330.10(a)(4)(iv) (formerly § 130.301(a)(4)(iv)) of the regulations in readily-understandable terms, and the Commissioner has applied those criteria as they are written. The Commissioner and his medical advisers have reviewed the administrative record in this proceeding, and the Commissioner personally presided over the public hearing at which the status of an analgesic/antacid combination drug was a major issue. Thus, full responsibility for the decision on this matter rests with the Commissioner, and not with the Assistant General Counsel, the Antacid Panel, or any other persons.

70. There was comment that the population to which the antacid/analgesic combination is directed contains a large number of individuals who are at an increased risk from salicylates because of underlying diseases. The comment conceded that an analgesic and antacid would be appropriate treatment for a person with hyperacidity and headache.

The Commissioner concurs with the comment that an antacid and an analgesic given concurrently would be the drugs of choice for a person with hyperacidity and headache. The Commissioner concludes that the data submitted support a fixed dosage combination for OTC use for this purpose and that in fact for many people the combination may be safer than taking the individual ingredients separately. There is some evidence that whatever harmful effect may result from salicylate may be reduced by buffering it with an antacid ingredient. Such a protective effect could not occur unless ingestion is at least simultaneous and may not occur without prior admixture. The Internal Analgesic Panel is considering appropriate labeling for analgesic ingredients, including whether warnings may be appropriate for salicylates to prevent use in situations where it could be harmful.

71. There was comment that, where there is inclusion of a salicylate, a warning statement concerning peptic ulcer would be appropriate on the antacid/analgesic combination.

The Commissioner will not comment on this issue at this time because the Internal Analgesic Panel is considering appropriate labeling for analgesic ingredients. As already noted above, the Commissioner will address this issue in the course of reviewing that Panel's recommendations.

72. There was comment that the finding that an antacid/analgesic combination is irrational for antacid use alone should not apply where sodium acetylsalicylate is used in a highly buffered solution.

This matter was fully considered in paragraph 64 of the preamble to the November tentative final order. To accept this comment would be to allow the use of a salicylate in a product that is represented only for antacid use. Until adequate and well-controlled studies are presented to show that a salicylate is effective for relief of upper gastrointestinal symptoms, it would be misleading for a product to represent that a salicylate is useful for relief of acid indigestion or other symptoms for which antacids are effective.

73. There was comment that data had been presented to show that sodium acetylsalicylate in a highly buffered solution is beneficial in the relief of symptoms of upper gastrointestinal discomfort. The comment stated that the acetylsalicylate has a therapeutic effect on the inflamed gastrointestinal tissue, and that if more data are needed the ingredient should be placed in Category III while the data are being collected. The data submitted were derived from experiments in laboratory animals. They included studies showing that aspirin lessened experimental peritonitis in the mouse and rat in addition to a study in cats. These studies indicate that aspirin may have an anti-inflammatory effect in the viscera. The comment stated that additional evidence conclusively establishing the precise role which acetylsalicylates play in the relief of upper gastrointestinal symptoms will require further development in methodology.

The Commissioner concludes that this data base, limited to studies in laboratory animals, is not adequate evidence to allow the use of an antacid claim for a salicylate or to justify continued marketing for this use pending further testing. There are also other data which indicate that salicylates may cause gastrointestinal bleeding. It may well be that the dosage and method of administration determine the effect a salicylate will have, but until well controlled studies can adequately resolve the issue the Commissioner concludes that a product containing a salicylate may not be labeled for antacid use alone.

74. There was comment that the anacid monograph in § 331.30(g)(3) (formerly § 130.305(g)(3)) failed to recognize professional labeling for antacid/antiflatulent combinations.

The comment is correct. A new provision has been added to § 331.31(b) stating that an antacid/antiflatulent combination may contain the professional labeling allowed for antacids and antiflatulents, i.e., peptic ulcer and postoperative gas pain.

75. There was comment that the inactive ingredient(s) should be listed on OTC drug labels.

The Commissioner reiterates the conclusion stated in paragraph 28 of the preamble to the tentative final order that the issue of listing inactive ingredients on OTC labels would be considered by the National Drug Advisory Committee. This matter is inappropriate as a subject matter for the individual OTC monographs. The Federal Food, Drug, and Cosmetic Act does not presently permit the Food and Drug Administration to require the labeling of all inactive ingredients.

ANTIFLATULENT

76. There was comment that it was inappropriate to create an antiflatulent monograph in the tentative final order and that a new call for data should have been published.

The Commissioner is of the opinion that it was proper to consider the status of the ingredient simethicone since the record before him fully addressed the issue and opportunity for comment and a public hearing on the matter were provided. Paragraph 67 of the preamble to the tentative final order stated that any other ingredient for consideration as an antiflatulent should be submitted to the Miscellaneous Internal Panel.

77. There was comment objecting to the limitation of antacid products containing simethicone to a use solely for concurrent symptoms of gas associated with heartburn, sour stomach or acid indigestion. The comment requested that the monograph allow an antacid claim alone, even though the product also contains the antiflatulent ingredient. This comment was based on the view that both

V 39 — 108 JUN 4 74 XUM

ingredients have their effect on the same organ system for relief of related or often indistinguishable symptoms.

The Commissioner notes that this comment raises the issues of what is a combination drug and how it shall be labeled. Section 330.10(a)(4)(iv) of the regulations states that an OTC product may combine two or more safe and effective active ingredients when each active ingredient makes a contribution to the claimed effect(s). Simethicone combined with an antacid has been adjudged safe and effective. Each makes a contribution to the product's effects, but each ingredient is pharmacologically different in that each has a different mode and method of action. The antacid reduces the acid level of the stomach. The simethicone reduces the surface tension of the bubbles that are present in the stomach allowing them to break up or create a larger gas mass which is more easily expelled from the gastrointestinal tract, a mechanism of action that is wholly different from that of the antacid. Since each of these ingredients has an independent pharmacologic action of its own, they are each marketed commercially as single ingredients.

Section 330.10(a)(4)(iv) of the regulations also states that a combination drug shall bear adequate directions for use and provide rational concurrent therapy for a significant proportion of the target population. In paragraph 63 of the preamble to the final procedural regulations published in the Federal Register of May 11, 1972 (37 FR 9464) the explanation was made that "There is no sound medical or scientific reason to have an active ingredient in a combination unless it makes a contribution to the claimed effect." In this case simethicone reduces the gas and the antacid reduces the acid level of the stomach contents. Thus, the target population for the combination product must be those who have acid indigestion, sour stomach, heartburn and gas. Otherwise, both ingredients would not be necessary. For gas alone, simethicone would be sufficient; and for acid indigestion alone, an antacid would be sufficient.

Section 330.1(a)(4)(v) of the regulations states that the "Labeling shall be clear and truthful in all respects and may not be false and misleading in any particular. It shall state the intended uses and results of the product . . ." Here, the combination is useful if the consumer has both conditions, acid indigestion and gas. Failure to include both conditions on the label of the product would result in a label that was not clear and truthful. If the consumer has no gas, he is not part of the target population for which the combination is intended. Failure to include both indications would mean that the label would not inform the consumer of the results he could expect, relief from acid indigestion and gas.

The comment contends that many consumers have the need for the antacid and antiflatulent together and do not realize that both symptoms are present, and that for this reason the product need only be labeled as an antacid. No data were presented to support the comment. The sole basis for the comment is the fact that the combination product has been marketed as an antacid for years and simethicone has a wide margin of safety. The purpose of the OTC drug review is to evaluate the safety and effectiveness and labeling of OTC drug products on the basis of scientific evidence, so that consumers will be able to make more rationale OTC drug purchases. An underlying premise of the OTC drug review, and, indeed, of the sale of drugs over-the-counter rather than on prescription, is that the consumer is capable of making an intelligent choice of a drug product if he posseses adequate information about the products offered for treatment of specific conditions or symptoms. To omit the effects of an active ingredient from the label is inconsistent with that premise and defeats the very purpose for which the OTC drug review has been undertaken.

The Commissioner notes that a related question has been raised concerning the limitation to be placed on the combination product containing antacid and analgesic ingredients. There the view has been expressed that the combination should not be permitted because it is not rational therapy for an individual who has a condition for which the antacid alone is appropriate treatment. The Commissioner agrees with that view, but has concluded that labeling which clearly indicates that the combination is to be used only when concurrent symptoms of acid indigestion and headache are present is sufficient to enable the consumer to exercise a reasoned judgment as to the appropriateness of the combination. Accordingly, a combination antacid-analgesic product must be indicated in its labeling and promotion for use solely for the concurrent symptoms of headache and acid indigestion. Section 331.15(b) [formerly § 130.305(g)(2)].

The Commissioner sees no basis for reaching a different result with respect to a combination of antacid and antiflatulent ingredients. That the concurrent symptoms which that combination is intended to treat affect the same organ system rather than different systems does not argue in favor of labeling which fails to indicate what is the fact, that the combination is intended as therapy for two distinct conditions of that one system. Similarly, that some consumers may be unaware that their discomfort is caused by both gas and acid indigestion rather than just by acid indigestion is not a cogent reason for labeling the combination only as an antacid any more than it is a valid basis for representing the drug solely as an antiflatulent. There is no evidence that consumers universally, or even generally, assume that the discomfort associated with gas and acid indigestion together is caused by acid indigestion alone, so that promoting the combination exclusively as an antacid would at least provide sufficient information to those suffering from those two concurrent symptoms to enable them to purchase a product intended to treat them both. Even if there were such evidence, there would still be no acceptable reasons for allowing convenience or marketing considerations to prevail over the objective of clear and truthful labeling by not advising the consumer that the product is in fact intended to treat two conditions. Finally, the contention that simethicone may not be harmful to one who does not need it does not support the desired result of not openly informing the consumer of the purpose of a drug to treat a condition or symptom which the consumer may not have. The goal of clear and truthful labeling of OTC drugs is not limited to those situations where it is necessary to avoid adverse consequences. The consumer should always be informed of the purpose of an OTC drug so that he can make up his own mind to the extent that his knowledge permits. His freedom of choice should not be qualified because the manufacturer assumes that some consumers lack adequate knowledge, or because, in the manufacturer's opinion, the choice is unimportant.

Based on these considerations, the Commissioner concludes that an antacid/antiflatulent combination must contain both indications.

78. There was comment that the maximum daily dose of simethicone established in the antiflatulent monograph in the tentative final order is too low and that there are data available showing usage at much higher dosages under the supervision of a physician.

The Commissioner concurs that the dosage used by physicians has exceeded 500 milligrams, but points out that there are no data on OTC use of this ingredient at higher dosages. Because of the complete lack of data concerning higher OTC dosages the Commissioner has decided that the daily dose for OTC use will be set at 500 milligrams at this time and that there will be no dosage limitation on professional labeling. If data are presented at the Miscellaneous Internal Panel to justify changing these dosages, appropriate changes will be made.

79. There was comment that § 332.30(a) (formerly § 130.306(b)) improperly allows the manufacturer to use all commonly existing descriptive terms such as bloating, flatulence, colic, belching, etc. to describe an antiflatulent.

The Commissioner advises that this is an erroneous interpretation of the monograph. The monograph is not intended to allow the use of such words as bloating, colic, belching, etc. The monograph allows use only of the word "antiflatulent" or the statement "to alleviate or relieve symptoms of gas." Those are the only terms that can properly be used for OTC antiflatulent drugs.

80. There was comment that endoscopic and radioscopic examinations should be added to the professional labeling indications for OTC antiflatulent drugs.

The Commissioner agrees that it is appropriate to add endoscopy as an indication but concludes that there are insufficient data to support a radiologic

indication at this time. Data on the latter indication may be submitted to the Internal Miscellaneous Panel and will be considered as part of that proceeding.

81. There was comment that § 332.15 (formerly § 130.306(e)) does not provide for labeling for health professionals.

The Commissioner concurs, and a clarifying sentence has been added as § 332.31(b).

Effective Date of Monograph

82. There were a number of comments requesting an extension of the effective date of the final monograph beyond the 6 months indicated in the proposal, because of the shortages that exist in packaging material and the energy situation as it affects the OTC drug industry. In support of these comments, data have been submitted from 15 companies concerning their ability of relabel and reformulate. The comments requested that, for products where no reformulation is necessary, the product labeling ordered by the manufacturer 6 months after the effective date would be in compliance, and for those products where reformulation is necessary, all labeling ordered 18 months after the effective date would be in compliance.

After reviewing the data and considering the comments the Commissioner concludes that it is reasonable to establish the following conditions for the effective date of the final monograph. The effective date of the monograph will be July 5, 1974, with the following exceptions. The effective date for all labeling for products not receiving an extension of the effective date for reformulation shall be June 5, 1975. Where reformulation is necessary, and if sufficient data and reasons are supplied, the Commissioner will grant an extension of the effective date for reformulation and relabeling for up to two years after the date of publication in the Federal Register.

The Commissioner has set the above effective dates because he concludes that most manufacturers can within 12 months after the date of publication order new labeling and have their products in compliance in the market place. The Commissioner believes that the most reasonable way of dealing with reformulation problems is to extend the date for compliance of a product where the manufacturer is able to demonstrate that he is having significant problems in reformulation and needs additional time to bring his product into compliance.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 701, 52 Stat. 1040–42 as amended, 1055–56 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 321, 352, 355, 371) and the Administrative Procedure Act (secs. 4, 5, 10, 60 Stat. 238 and 243 as amended; 5 U.S.C. 553, 554, 702, 703, 704) and under authority delegated to him (21 CFR 2.120), and based upon the administrative record in this proceeding, the Commissioner hereby makes the following determinations pursuant to § 330.10(a)(6)–(9) (formerly § 130.301(a)(6)–(9)) of the conditions under which OTC antacid drug products are not generally recognized as safe and effective or are misbranded (Category II), or for which there are insufficient data available to classify such conditions at this time and for which further testing must be undertaken to justify continued marketing (Category III):

Commissioner's Determination of Conditions Under Which OTC Antacid Drug Products Are Not Generally Recognized as Safe and Effective or Are Misbranded (Category II)

The Commissioner determines that the use of antacids under the following conditions is unsupported by scientific data, and in many instances by sound theoretical reasoning. The Commissioner concludes that the ingredients, labeling, and combination drugs involved shall not be permitted in interstate commerce effective as of 6 months after publication of the final monograph in the Federal Register, until scientific testing supports their use and they are approved by the Food and Drug Administration by amendment of the monograph or by a new drug application.

A. *Active ingredients.* No active ingredients that are not included in the monograph or in Category III have been shown by adequate and reliable scientific evidence to be safe and effective for antacid use.

B. *Labeling.* It is not truthful and accurate to make claims or to use indications on the package label that the product may directly affect "nervous or emotional disturbances", "excessive smoking", "food intolerance", "consumption of alcoholic beverages", "acidosis", "nervous tension headaches", "cold symptoms", and "morning sickness of pregnancy", since the relationship of such phenoma to gastric acidity is both unproven and unlikely.

C. *Drugs combining antacid and other active ingredients.* 1. Antacid-analgesic combinations are irrational for antacid use alone and therefore shall not be labeled or marketed for such use. There is a lack of evidence of effectiveness of any analgesic ingredient for any antacid indication.

2. It is not safe and effective concurrent therapy to add an anticholinergic ingredient to an OTC antacid product, because optimal use of antacids and anticholinergic drugs requires independent adjustment of dosages of each drug, because the addition of an anticholinergic drug in a concentration large enough to have detectable pharmacologic effects would result in a compound too toxic for use in self-medication, and because amounts of anticholinergics safe for OTC use have not been shown to affect gastric secretion or upper gastrointestinal symptoms. Since elderly persons number prominently among antacid users, cycloplegia and urinary retention induced by anticholinergic drugs is a definite risk. Thus, a fixed combination of antacid and anticholinergic will result, regardless of how formulated, in a mixture that is either unsafe or ineffective.

For the same reasons, it also is not safe and effective concurrent therapy to combine antacids with sedative-hypnotic ingredients.

3. It is not rational concurrent therapy for a significant portion of the target population for the label to claim that a combination product (e.g., mineral oil and magnesium hydroxide) is to be used both as an antacid and as a laxative, if the laxative claim is based upon use of a non-antacid laxative ingredient. (Active antacid ingredients will be reviewed by the OTC Laxative Panel to determine whether they are effective as laxatives at higher doses than those used for antacid action.)

4. There are no reliable scientific data showing that the addition of an antipeptic agent to an antacid product increases the product's effectiveness as an antacid or is otherwise effective as a means of managing upper gastrointestinal symptoms. No claim for antipeptic activity will be considered truthful and accurate until it is substantiated both by scientifically valid in vitro tests showing that the antipeptic action is substantially greater than that of an agent with only antacid action (such as sodium bicarbonate), and it is proved by studies that the antipeptic activity is clinically meaningful and therefore contributes significantly to the product's effectiveness.

5. The addition of proteolytic agents or bile or bile salts to antacid products is unsafe. Since pepsin is presumably involved in the pathogenesis of peptic ulcer, the addition of pepsin to antacid products may be potentially harmful. Since bile and bile salts can damage gastric mucosa, and since they may be involved in the pathogenesis of gastric ulcer, these substances should not be permitted in antacid products.

6. The addition of an antiemetic to an antacid product is not rational concurrent therapy for a significant portion of the target population.

Commissioner's Determination of OTC Antacid Drug Product Conditions for Which the Available Data Are Insufficient To Permit Final Classification at This Time (Category III)

The Commissioner determines that adequate and reliable scientific evidence is not available at this time to permit final classification of the following conditions of use of OTC antacid drug products.

A. *Active ingredients.* These ingredients have either no or negligible antacid action, and there is inadequate evidence of their effectiveness for their non-antacid action in the relief of upper gastrointestinal symptoms or in their adjuvant or corrective properties. Marketing under these conditions may continue for a period of 2 years after the date of publication of this determination if the manufacturer or distributor of the product promptly undertakes adequate testing to prove effectiveness, and if any product that claims to be an antacid (i.e., neutralize stomach acid) meets the in vitro antacid effectiveness standard

V 39—108 JUN 4 74 XUM

contained in the monograph. Products which do not meet both of these requirements shall be subject to the requirements for Category I products. If testing is promptly undertaken but data adequate to prove effectiveness are not submitted to the Food and Drug Administration within the 2-year period, the ingredients listed in this category will no longer be permitted, even in a product that meets the in vitro antacid effectiveness standard, because of a lack of evidence that these ingredients make a meaningful contribution to the claimed effect for the product.

1. *Alginic acid.* Although the ingestion of alginic acid-containing products may produce a layer of material floating on top of the gastric contents, the available evidence is insufficient to demonstrate clinical effectiveness. The studies are fragmentary, uncontrolled, and few in number. No evidence is presented as to reproducibility of results. There is insufficient evidence that alginic acid-containing antacid products, even if they do produce a floating layer on top of the gastric contents, are clinically beneficial. Indeed, such evidence as there is indicates that these products do not increase the pH of gastric contents as a whole. Since regurgitation of gastric contents is particularly apt to occur when patients are lying down rather than in the upright position, alginic acid-containing products may be less beneficial than a standard antacid which is more likely to increase the pH throughout the gastric contents.

Alginic acid is safe in amounts usually taken orally (e.g., 4 grams per day) in antacid products.

2. *Attapulgite (activated).* This ingredient is safe in the amounts usually taken orally in antacid products.

3. *Charcoal, activated.* Charcoal is presently considered safe in amounts usually taken orally in antacid products, but study is specifically needed to determine whether the charcoal used contains benzpyrene or methylcholanthrane type carcinogens. Since charcoal-containing products may decrease absorption of certain oral drugs, the label shall bear the following drug interaction precaution: "Drug Interaction Precautions: Do not take this product if you are presently taking any prescription drug."

4. *Gastric mucin.* This ingredient is safe in the amounts usually taken orally in antacid products.

5. *Kaolin.* Kaolin is safe in amounts usually taken orally in antacid products. Since kaolin affects gastro-intestinal absorption, kaolin interferes with the absorption of lincomycin, and therefore the label shall bear the following drug interaction precaution: "Drug Interaction Precautions: Do not take this product if you are presently taking a prescription antibiotic drug containing lincomycin."

6. *Methylcellulose.* Methylcellulose is safe in amounts usually taken orally e.g., 2 grams per day in antacid products).

7. *Pectin.* Pectin is safe in the amounts usually taken orally in antacid products.

8. *Carboxy methylcellulose.* Carboxy methylcellulose is safe in amounts usually taken (e.g., 3 grams per day) in antacid products.

B. *Labeling.* Marketing under the following labeling conditions may continue for a period of 2 years after the date of publication of this determination subject to the same requirements specified above for the use of Category III ingredients.

1. OTC products containing ingredients listed in Category I or III are often used to treat symptoms that are not known to be related to acidity of gastric contents. These products may or may not qualify as antacids by the in vitro acid neutralizing test. The symptoms include "indigestion", "gas", "upper abdominal pressure", "full feeling", "nausea", "excessive erructations", "upset stomach", and the like. Some of these symptoms are vague, most are poorly understood as to pathophysiological mechanism, and none has been shown by adequate and reliable scientific evidence to be caused by or alleviated by changes in gastric acidity.

2. Claims or indications which link certain signs and symptoms, such as "sour breath", "upper abdominal pressure", "full feeling", "nausea", "stomach distress", "indigestion", "upset stomach", and "excessive eructations" with normal or hypernormal gastric acidity, are unproven since the relationship of such signs and symptoms to gastric acidity is unknown or dubious and there is no adequate and reliable scientific evidence to support these claims. Such claims or indications encourage the user to draw conclusions as to the cause or intermediation of such symptoms, a conclusion that even the medical profession is incapable of drawing at this time.

3. The evidence currently available is inadequate to support the claim that such properties as "floating", '"coating", defoaming", "demulcent", and "carminative" contribute to the relief of upper gastrointestinal symptoms. The continued use of such claims, or ones closely allied to them, requires additional studies both to confirm the claimed specific action and to demonstrate clinical significance.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 701, 52 Stat. 1040–42 as amended, 1050–53 as amended, 1055–56 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 321, 352, 355, 371) and the Administrative Procedure Act (secs. 4, 5, 10, 60 Stat. 238 and 243 as amended; 5 U.S.C. 553, 554, 702, 703, 704) and under authority delegated to the Commissioner (21 CFR 2.120) and based upon the administrative record in this proceeding, Title 21 of the Code of Federal Regulations is amended by adding Parts 331 and 332 (formerly §§ 130.305 and 130.306) to Subchapter D to read as follows:

Subpart A—General Provisions

Sec.
331.1 Scope.

Subpart B—Active Ingredients

331.10 Antacid active ingredients.
331.11 Listing of specific active ingredients.
331.15 Combination with nonantacid active ingredients.

Subpart C—Testing Procedures

331.20 Apparatus and reagents.
331.21 Determination of percent contribution of active ingredients.
331.22 Reagent standardization.
331.23 Temperature standardization.
331.24 Tablet disintegration test.
331.25 Preliminary antacid test.
331.26 Acid neutralizing capacity test.
331.29 Test modifications.

Subpart D—Labeling

331.30 Labeling of antacid products.
331.31 Professional labeling.

Subpart A—General Provisions

§ 331.1 Scope.

An over-the-counter antacid product in a form suitable for oral administration is generally recognized as safe and effective and is not misbranded if it meets each of the following conditions and each of the general conditions established in § 330.1 of this chapter.

Subpart B—Active Ingredients

§ 331.10 Antacid active ingredients.

(a) The active antacid ingredients of the product consist of one or more of the ingredients permitted in § 331.11 within any maximum daily dosage limit established, each ingredient is included at a level that contributes at least 25 percent of the total acid neutralizing capacity of the product, and the finished product contains at least 5 mEq. of acid neutralizing capacity and results in a pH of 3.5 or greater at the end of the initial 10-minute period as measured by the method established in § 331.25. The method established in § 331.21 shall be used to determine the percent contribution of each antacid active ingredient.

(b) This section does not apply to an antacid ingredient specifically added as a corrective to prevent a laxative or constipating effect.

§ 331.11 Listing of specific active ingredients.

(a) Aluminum-containing active ingredients:

(1) Aluminum carbonate.

(2) Aluminum hydroxide (or as aluminum hydroxide-hexitol stabilized polymer, aluminum hydroxide-magnesium carbonate codried gel, aluminum hydroxide-magnesium trisilicate codried gel, aluminum-hydroxide sucrose powder hydrated).

(3) Dihydroxyaluminum aminoacetate and dihydroxyaluminum aminoacetic acid.

(4) Aluminum phosphate, maximum daily dosage limit 8 grams.

(5) Dihydroxyaluminum sodium carbonate.

(b) Bicarbonate-containing active ingredients: Bicarbonate ion; maximum daily dosage limit 200 mEq. for persons up to 60 years old and 100 mEq. for persons 60 years or older.

(c) Bismuth-containing active ingredients:

(1) Bismuth aluminate.
(2) Bismuth carbonate.
(3) Bismuth subcarbonate.
(4) Bismuth subgallate.
(5) Bismuth subnitrate.

(d) Calcium-containing active ingredients: Calcium, as carbonate or phosphate; maximum daily dosage limit 160 mEq. calcium (e.g., 8 grams calcium carbonate).

(e) Citrate-containing active ingredients: Citrate ion, as citric acid or salt; maximum daily dosage limit 8 grams.

(f) Glycine (aminoacetic acid).

(g) Magnesium-containing active ingredients:

(1) Hydrate magnesium aluminate activated sulfate.
(2) Magaldrate.
(3) Magnesium aluminosilicates.
(4) Magnesium carbonate.
(5) Magnesium glycinate.
(6) Magnesium hydroxide.
(7) Magnesium oxide.
(8) Magnesium trisilicate.

(h) Milk solids, dried.

(i) Phosphate-containing active ingredients:

(1) Aluminum phosphate; maximum daily dosage limit 8 grams.

(2) Mono or dibasic calcium salt; maximum daily dosage limt 2 grams.

(3) Tricalcium phosphate; maximum daily dosage limit 24 grams.

(j) Potassium-containing active ingredients:

(1) Potassium bicarbonate (or carbonate when used as a component of an effervescent preparation); maximum daily dosage limit 200 mEq. of bicarbonate ion for persons up to 60 years old and 100 mEq. of bicarbonate ion for persons 60 years or older.

(2) Sodium potassium tartrate.

(k) Sodium-containing active ingredients:

(1) Sodium bicarbonate (or carbonate when used as a component of an effervescent preparation); maximum daily dosage limit 200 mEq. of sodium for persons up to 60 years old and 100 mEq. of sodium for persons 60 years or older, and 200 mEq. of bicarbonate ion for persons up to 60 years old and 100 mEq. of bicarbonate ion for persons 60 years or older. The warning required by § 330.1(g) concerning overdoses is not required on a product containing only sodium bicarbonate powder.

(2) Sodium potassium tartrate.

(l) Silicates:

(1) Magnesium aluminosilicates.
(2) Magnesium trisilicate.

(m) Tartrate-containing active ingredients. Tartaric acid or its salts; maximum daily dosage limit 200 mEq. (15 grams) of tartrate.

§ 331.15 Combination with nonantacid active ingredients.

(a) An antacid may contain any generally recognized as safe and effective nonantacid laxative ingredient to correct for constipation caused by the antacid. No labeling claim of the laxative effect may be used for such a product.

(b) An antacid may contain any generally recognized as safe and effective analgesic ingredient(s), if it is indicated for use solely for the concurrent symptoms involved, e.g., headache and acid indigestion, and is marketed in a form intended for ingestion as a solution.

(c) An antacid may contain any generally recognized as safe and effective antiflatulent ingredient if it is indicated for use solely for the concurrent symptoms of gas associated with heartburn, sour stomach or acid indigestion.

Subpart C—Testing Procedures

§ 331.20 Apparatus and reagents.

(a) pH meter, equipped with glass and saturated calomel electrodes.

(b) Magnetic stirrer.

(c) Magnetic stirring bars (about 40 mm. long and 10 mm. in diameter).

(d) 50 ml. buret.

(e) Buret stand.

(f) 100 ml. beakers.

(g) 250 ml. beakers.

(h) 10 ml., 20 ml. and 30 ml. pipets calibrated to deliver.

(i) Tablet comminuting device.

(j) A number 20 and 100 U.S. standard mesh sieve.

(k) Tablet disintegration apparatus.

(l) 0.1 N, 0.5 N and 1.0 N hydrochloric acid.

(m) 0.5 N sodium hydroxide.

(n) Standard pH 4.0 buffer solution (0.05 M potassium hydrogen phthalate).

(o) 95 percent ethanol.

(p) Distilled Water.

§ 331.21 Determination of percent contribution of active ingredients.

To determine the percent contribution of an antacid active ingredient, place an accurately weighed amount of the antacid active ingredient equal to the amount present in a unit dose of the product into a 250 ml. beaker. If wetting is desired, add not more than 5 ml. of 95 percent ethanol and mix thoroughly to wet the sample (ethanol may affect the acid neutralizing capacity). Add water to a volume of 70 ml. and mix on magnetic stirrer at 300±30 r.p.m. for about one minute. Analyze the sample according to the procedure set forth in § 331.26 and calculate the percent contribution of the antacid active ingredient in the total product as follows:

$$\text{Percent contribution} = \frac{\text{Total mEq. Antacid Active Ingredient} \times 100}{\text{Total mEq. Antacid Product}}$$

§ 331.22 Reagent standardization.

Standardize the sodium hydroxide (NaOH) and Hydrochloric acid (HCl) solutions according to the procedures in the United States Pharmacopeia XVIII (NaOH page 1036 and HCl page 1034) or the Official Methods of Analysis of the Association of Official Analytical Chemists, 11th Ed., 1970, (NaOH page 876 and HCl page 873).[1]

§ 331.23 Temperature standardization.

All tests shall be conducted at 25° C± 3°.

§ 331.24 Tablet disintegration test.

A tablet disintegration test shall be performed on tablets that are not to be chewed following the procedures described in the United States Pharmacopeia XVIII (page 932). If the label states the tablet may be swallowed, it must disintegrate within a 10-minute time limit pursuant to the test procedure using simulated gastric fluid test solution without enzymes, the United States Pharmacopeia XVIII page 1026, rather than water as the immersion fluid.

§ 331.25 Preliminary antacid test.

(a) *pH meter.* Standardize the pH meter at pH 4.0 with the standardizng buffer and check for proper operation at pH 1 with 0.1 N HCl.

(b) *Dosage form testing*—(1) *Liquid sample.* Place an accurately weighed (calculate density) and well mixed amount of the antacid product equivalent to the minimum labeled dosage; e.g., 5 ml., into a 100 ml. beaker. Add sufficient water to obtain a total volume of about 40 ml. and mix on magnetic stirrer at 300±30 r.p.m. for about one minute. Analyze the sample according to the procedure set forth in § 331.25.

(2) *Chewable and non-chewable tablet sample.* Place an accurately weighed amount of a tablet composite equivalent to the minimum labeled dosage into a 100 ml. beaker. (The composite shall be prepared by determining the average weight of not less than 20 tablets and then comminuting the tablets sufficiently to pass through a number 20 U.S. standard mesh sieve and held by a number 100 U.S. standard mesh sieve.) Mix the sieved material to obtain a uniform sample. If wetting is desired, add not more than 5 ml. of 95 percent ethanol and mix to wet the sample thoroughly (ethanol may effect the acid neutralizing capacity). Add water to a volume of 40 ml. and mix on magnetic stirrer at 300±30 r.p.m. for about one minute. (Capsules should be tested in the same manner using the sieved capsule powder as the sample.) Analyze the sample according to the procedure set forth in § 331.25.

(3) *Effervescent sample.* Place an amount equivalent to the minimum labeled dosage into a 100 ml. beaker. Add 10 ml. water and swirl the beaker gently while allowing the reaction to subside. Add another 10 ml. of water and swirl the beaker gently. Wash down the walls of the beaker with 20 ml. of water and

V39—108 JUN 4 74 XUM

mix on magnetic stirrer at 300±30 r.p.m. for about one minute. Analyze the sample according to the procedure set forth in § 331.25.

(4) *Chewing gum samples with antacid in coating.* Place the number of pieces of gum equivalent to the minimum labeled dosage in a 100 ml. beaker. Add 40 ml. of water and mix on magnetic stirrer at 300±30 r.p.m. for about 2 to 3 minutes. Analyze the sample according to the procedure set forth in § 331.25.

(c) *Test procedure.* (1) Add 10.0 ml. 0.5 N HCl to the test solution while stirring on the magnetic stirrer at 300±30 r.p.m.

(2) Stir for exactly 10 minutes after addition of acid.

(3) Read and record pH.

(4) If pH is below 3.5, the product shall not be labeled as an antacid. If the pH is 3.5 or greater, determine the acid neutralizing capacity according to the procedure set forth in § 331.26.

§ 331.26 Acid neutralizing capacity test.

(a) *pH meter.* Standardize the pH meter at pH 4.0 with the standardizing buffer and check for proper operation at pH 1 with 0.1 N HCl.

(b) *Dosage form testing*—(1) *Liquid sample.* Place an accurately weighed (calculate density) and well mixed amount of product equivalent to the minimum labeled dosage (e.g., 5 ml., etc.) into a 250 ml. beaker. Add sufficient water to obtain a total volume of about 70 ml. and mix on the magnetic stirrer at 300±30 r.p.m. for about one minute. Analyze the sample according to the procedure set forth in § 331.26.

(2) *Chewable and non-chewable tablet sample.* Place an accurately weighed amount of a tablet composite equivalent to the minimum labeled dosage into a 250 ml. beaker. (The composite shall be prepared by determining the average weight of not less than 20 tablets and then comminuting the tablets sufficiently to pass through a number 20 U.S. standard mesh sieve and held by a number 100 U.S. standard mesh sieve. Mix the sieved material to obtain a uniform sample.) If wetting is desired, add not more than 5 ml. of 95 percent ethanol and mix to wet the sample thoroughly (ethanol may effect the acid neutralizing capacity). Add water to a volume of 70 ml. and mix on magnetic stirrer at 300±30 r.p.m. for about one minute. (Capsules should be tested in the same manner using the sieved capsule powder as the sample.) Analyze the sample according to the procedure set forth in § 331.26.

(3) *Effervescent sample.* Place an amount equivalent to the minimum labeled dosage into a 250 ml. beaker. Add 10 ml. water and swirl the beaker gently while allowing the reaction to subside. Add another 10 ml. of water and swirl the beaker gently. Wash down the walls of the beaker with 50 ml. of water and mix on magnetic stirrer at 300±30 r.p.m. for about one minute. Analyze the sample according to the procedure set forth in § 331.26.

(4) *Sample and test procedure for chewing gum with antacid in coating.* Assay six pieces of gum individually in the following manner.

(i) Place one piece of gum in a 250 ml. beaker and add 50 ml. of water.

(ii) Pipette in 30.0 ml. of 1.0 N HCl and stir on magnetic stirrer at 300±30 r.p.m.

(iii) Stir for exactly 10 minutes after addition of acid.

(iv) Stop the stirrer and remove the gum using a long needle or similar utensil.

(v) Rinse the long needle or utensil and the gum with 20 ml. of water into the sample beaker.

(vi) Stir for exactly 5 additional minutes.

(vii) Begin titrating immediately and in a period of time not to exceed 5 minutes titrate the excess 1.0 N HCl with 0.5 N NaOH to stable pH of 3.5.

(viii) Check sample solution 10 to 15 seconds after obtaining pH 3.5 to determine that the pH is stable.

(ix) Average the results of the six individual assays and calculate the total mEq. based on the minimum labeled dosage as follows:

mEq./piece of gum=(30.0 ml.) (normality of HCl)−(ml. of NaOH) (normality of
mEq./piece of gum=(30.0 ml.) (normality dose=(number of pieces of gum in minimum dosage)×(mEq./piece of gum).

(c) *Acid neutralizing capacity test procedure (except chewing gum).* (1) Pipette 30.0 ml. of 1.0 N HCl into the sample solution while stirring on the magnetic stirrer at 300±30 r.p.m.

(2) Stir for exactly 15 minutes after addition of acid.

(3) Begin titrating immediately and in a period not to exceed an additional 5 minutes titrate the excess 1.0 N HCl with 0.5 N NaOH to stable pH of 3.5.

(4) Check the sample solution 10 to 15 seconds after obtaining pH 3.5 to make sure the pH is stable.

(5) Calculate the number of mEq. of acid neutralized by the sample as follows:

Total mEq.=(30.0 ml.) (normality of HCl)−(ml. of NaOH) (N of NaOH).

Use appropriate factors, i.e., density, average tablet weight, etc., to calculate the total mEq. of acid neutralized per minimum labeled dosage.

§ 331.29 Test modifications.

The formulation and/or mode of administration of certain products may require modification of this in vitro test. Any proposed modification and the data to support it shall be submitted to the Food and Drug Administration for approval prior to use.

Subpart D—Labeling

§ 331.30 Labeling of antacid products.

(a) *Indications.* The labeling of the product represents or suggests the product as an "antacid" to alleviate the following symptoms: "Heartburn," "sour stomach," and/or "acid indigestion."

(b) *Warnings.* The labeling of the product contains the following warnings, under the heading "Warnings", which may be combined but not rearranged to eliminate duplicative words or phrases if the resulting warning is clear and understandable:

(1) "Do not take more than (maximum recommended daily dosage, broken down by age groups if appropriate, expressed in units such as tablets or teaspoonfuls) in a 24-hour period, or use the maximum dosage of this product for more than 2 weeks, except under the advice and supervision of a physician."

(2) For products which cause constipation in 5 percent or more of persons who take the maximum recommended dosage: "May cause constipation."

(3) For products which cause laxation in 5 percent or more of persons who take the maximum recommended dosage: "May have laxative effect."

(4) For products containing more than 50 mEq. of magnesium in the recommended daily dosage: "Do not use this product except under the advice and supervision of a physician if you have kidney disease."

(5) For products containing more than 5 mEq. sodium in the maximum recommended daily dose: "Do not use this product except under the advice and supervision of a physician if you are on a sodium restricted diet."

(6) For products containing more than 25 mEq. potassium in the maximum recommended daily dose: "Do not use this product except under the advice and supervision of a physician if you have kidney disease."

(7) For products containing more than 5 gm per day lactose in a maximum daily dosage: "Do not use this product except under advice and supervision of a physician if you are allergic to milk or milk products."

(c) *Drug interaction precautions.* The labeling of the product contains the following drug interaction precautions, under the heading "Drug Interaction Precautions":

(i) If the product is an aluminum containing antacid: "Do not take this product if you are presently taking a prescription antibiotic drug containing any form of tetracycline."

(d) *Directions for use.* The labeling of the product contains the recommended dosage, under the heading "Directions", per time interval (e.g., every 4 hours) or time period (e.g., 4 times a day) broken down by age groups if appropriate, followed by "or as directed by a physician."

(e) *Statement of sodium containing ingredients.* The labeling of the product contains the sodium content per dosage unit (e.g., tablet, teaspoonful) if it is 0.2 mEq. (5 mg.) or higher.

§ 331.31 Professional labeling.

(a) The labeling of the product provided to health professionals (but not to the general public):

(1) Shall after June 4, 1976 contain the neutralizing capacity of the product as calculated using the procedure set forth in § 331.26 expressed in terms of the dosage recommended per minimum time interval or, if the labeling recommends more than one dosage, in terms of the minimum dosage recommended per minimum time interval. For compliance purposes, the value determined by the acid neutralizing test at any point in time shall be at least 90 percent of the labeled value. No product shall be marketed with an acid neutralizing capacity below 5 mEq.

(2) May contain an indication for the symptomatic relief of hyperacidity associated with the diagnosis of peptic ulcer, gastritis, peptic esophagitis, gastric hyperacidity, and hiatal hernia.

(b) Professional labeling for an antacid-antiflatulent combination may contain the information allowed for health professionals for antacids and antiflatulents.

PART 332—ANTIFLATULENT PRODUCTS FOR OVER-THE-COUNTER HUMAN USE

Subpart A—General Provisions

Sec.

332.1 Scope.

Subpart B—Active Ingredients

332.10 Antiflatulent active ingredients.
332.15 Combination with non-antiflatulent active ingredients.

Subpart C—[Reserved]

Subpart D—Labeling

332.30 Labeling of antiflatulent products.
332.31 Professional labeling.

Subpart A—General Provisions

§ 332.1 Scope.

An over-the-counter antiflatulent product in a form suitable for oral administration is generally recognized as safe and effective and is not misbranded if it meets each of the following conditions and each of the general conditions established in § 330.1 of this chapter.

Subpart B—Active Ingredients

§ 332.10 Antiflatulent active ingredients.

Simethicone; maximum daily dose 500 mg. There is no dosage limitation at this time for professional labeling.

§ 332.15 Combination with non-antiflatulent active ingredients.

An antiflatulent may contain any generally recognized as safe and effective antacid ingredient(s) if it is indicated for use solely for the concurrent symptoms of gas associated with heartburn, sour stomach or acid indigestion.

Subpart C—[Reserved]

Subpart D—Labeling

§ 332.30 Labeling of antiflatulent products.

(a) *Indications.* The labeling of the product represents or suggests the product as an "antiflatulent" and/or "to alleviate or relieve the symptoms of gas."

(b) *Directions for use.* The labeling of the product contains the recommended dosage per time interval (e.g., every 4 hours) or time period (e.g., 4 times a day) broken down by age groups if appropriate, followed by "except under the advice and supervision of a physician." The words "or as needed" may be used after the recommended dosage per time interval or time period.

§ 332.31 Professional labeling.

(a) The labeling of the product provided to health professionals (but not to the general public) may contain as additional indications postoperative gas pain or for use in endoscopic examination.

(b) Professional labeling for an antiflatulent-antacid combination may contain information allowed for health professionals for antacids and antiflatulents.

Effective date. This order shall become effective on July 5, 1974, except that all labeling for products not receiving an extension of the effective date for reformulation shall become effective on June 4, 1975, and where reformulation is necessary and an extension is granted shall become effective on June 4, 1976. The labeling of a product to health professionals shall after June 4, 1976, contain the neutralizing capacity of the product as calculated using the procedure set forth in § 331.26.

Dated: May 29, 1974.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.74-12666 Filed 6-3-74;8:45 am]

V 39 — 108 JUN 4 74 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 330]

CLASSIFICATION OF OVER-THE-COUNTER (OTC) DRUGS

Proposal To Designate the Contents and the Time of Closing of the Administrative Record

In the Federal Register of May 11, 1972 (37 FR 9464), the Commissioner of Food and Drugs promulgated procedures governing the review and classification of over-the-counter (OTC) drug products. Questions have recently been raised about the contents of the administrative record on the basis of which the decision is made with respect to the status of an OTC drug product pursuant to these procedures, and the point beyond which new factual information may no longer be submitted for consideration in the administrative process. The Commissioner has concluded that it is appropriate to publish a proposal to add provisions to the regulations to settle these matters.

THE CONTENTS OF THE ADMINISTRATIVE RECORD

Comments filed on the proposed OTC drug review procedures, published in the Federal Register of January 5, 1972 (37 FR 85) had suggested that the final regulation should designate the administrative record on which the administrative decision would be based, for purposes of court appeal. The Commissioner responded in paragraph 82 of the preamble to the final regulation (37 FR 9471) that:

> The record for any court appeal will include all pertinent documentation of the proceeding, including the panel report(s), summary minutes, proposed monograph, tentative final monograph, transcript of oral hearing, final monograph, all comments or objections filed with the Hearing Clerk on the proposed and tentative final monographs, and all data and information received by the panel and made publicly available through the Hearing Clerk. The record for appeal will be compiled by the Office of General Counsel. There is no need to specify these details in the regulations.

A comment on the proposal had also requested that a full transcript of each panel meeting be made public, which presumably would then have been a part of the administrative record. The Commissioner responded to this comment in paragraph 37 of the preamble to the final regulation, stating that a verbatim transcript of all panel meetings would not be necessary in view of the extensive procedural safeguards set out in the regulation and the fact that the OTC drug panels only report recommendations to the Commissioner, who must then make the final decisions after full public procedure.

Thus, the preamble to the final OTC drug review procedural regulations explicitly designated the contents of the administrative record and excluded any transcript that may be made of any panel meeting.

The Commissioner published in the Federal Register of January 8, 1974 (39 FR 1359) a notice of a public hearing to be held on the tentative final order for OTC antacid drug products, pursuant to the provisions of § 330.10(a)(8) (formerly § 130.301(a)(8)) of the regulations. The notice reiterated the content of the administrative record as designated in the preamble to the final order establishing the procedural regulations for the OTC drug review.

In response to this notice, an objection was received on the designation of the administrative record. The objection contended that the complete transcript of the meetings of the Panel should be included as part of the administrative record. The Food and Drug Administration replied that such transcripts are exempt from public disclosure under the Freedom of Information Act, 5 U.S.C. 552(b)(5), and that in any event they are not considered by the Commissioner in the formulation of his decisions and orders and thus do not properly constitute part of the administrative record. The Food and Drug Administration stated that, in order to avoid any possible confusion on this matter, the procedural regulations would be amended explicitly to state this fact.

The Commissioner is obligated to base his decision with respect to a monograph on the entire administrative record. In the case of the final antacid monograph, which is published elsewhere in this issue of the Federal Register, the Commissioner has not at any time read or referred to or relied upon the words recorded in the transcripts of the Antacid Panel meetings. Rather, he has relied solely upon the minutes of the Panel meetings, the data and information submitted to and considered by the Panel, the Panel report, the comments submitted on that report, the tentative final order, the objections submitted on the tentative final order, the transcript of and material submitted at the public hearing, and comments permitted to be filed subsequent to the public hearing. This constitutes the administrative record specified in the notice of May 11, 1972, and is the sole basis on which the proposal, the tentative final order, and the final order were made by the Commissioner. The Commissioner has concluded that the same procedure will be followed for his consideration of future OTC drug monographs.

The irrelevance of the transcripts of the panel deliberations can perhaps best be described by an analogy. The transcripts reflect deliberations and debates among a group of individuals prior to arriving at a final recommendation. The group, in this instance, is deliberating upon recommendations with respect to regulatory policy that will ultimately have the force and effect of law. Their deliberations are therefore directly analogous to the deliberations of a panel of judges of a United States Court of Appeals. It is obvious that the judges who hear a case deliberate among themselves with respect to the issues involved. Moreover, it would not be unusual that there will be several drafts of an opinion, and that the final decision might be quite different from the initial discussions or even tentative drafts. The final opinion written by the court, however, is the only document appealable to or reviewed by the United States Supreme Court. The deliberations of the Court of Appeals, and their various drafts reflecting intermediate considerations and positions, are not a part of the record and are not reviewed by the Supreme Court. The final opinion must stand or fall on its own merits. The same is true of the final reports of the OTC drug review panels. They stand or fall on their own merits, and are either supported or unsupported by the medical and scientific evidence submitted to and considered by the panel.

The logic of this position is further compelled by the fact that not all panel deliberations are recorded or transcribed. Although some transcription or recording occurs with most of the OTC drug review panels, it is necessarily incomplete. Panel members frequently confer by telephone with each other, discuss matters over lunch and dinner, and talk about them during breaks and in the corridors. Moreover, the major reflective consideration of the issues involved would be likely to occur before and after meetings, when the panel members individually review the data and information and form their conclusions with respect to it. Thus, any transcript of panel deliberations would reflect only a part, and perhaps a small part, of the consideration given to the matter, of the reasoning which lies behind the recommendations ultimately made, and thus of the entire deliberative process. It would therefore be highly improper to consider the transcripts of panel meetings in determining the validity of the final OTC antacid drug monograph.

Moreover, the purely deliberative portions of a panel's discussion during which it formulates its conclusions and recommendations are lawfully closed to the public and any transcripts relating to this portion of the meetings are therefore properly retained as confidential under 5 U.S.C. 552(b)(5) rather than as part of the public administrative record.

The legal justification for closing the deliberative portion of a panel's discussions, i.e., the discussion during which the panel determines its conclusions and recommendation—and retaining the transcripts of those closed portions as confidential may be found in section 10 of the Federal Advisory Committee Act and exemption (5) of the Freedom of Information Act. Section 10(a)(1) of the Federal Advisory Committee Act provides that each advisory committee meeting shall be open to the public. Section 10(d) then provides that paragraph (a)(1) shall not apply to any advisory committee meeting which the head of the agency determines is concerned with matters listed in 5 U.S.C. 552(b), and requires that any such determination shall be in writing and shall contain the reasons therefor.

The authority to close the Food and Drug Administration advisory committee meetings has been delegated to the Commissioner, subject to the concurrence of the office of General Counsel. 21 CFR 2.120(a)(18). In exercising his authority to close portions of advisory committee meetings pursuant to this delegation, the Commissioner has acted on the basis of the guidelines established by the Office of Management and Budget and the Department of Justice as set out in the Federal Register of January 23, 1973 (38 FR 2306). The Commissioner's formal written determination to close a portion of a meeting is published together with the notice of the meeting in the Federal Register.

The basis on which the purely deliberative portions of panel discussions have been closed pursuant to section 10(d) of the Federal Advisory Committee Act is that the discussions are concerned with matters covered by 5 U.S.C. 552(b)(5), i.e., internal communications. As the Attorney General's Memorandum of June 1967 on this portion of the Freedom of Information Act states:

> * * * internal communications which would not routinely be available to a party in litigation with the agency, such as internal drafts, memoranda between officials or agencies, opinions and interpretations prepared by agency staff personnel or consultants for the use of the agency, and records of the deliberations of the agency or staff groups, remain exempt so that free exchange of ideas will not be inhibited. As the President stated upon signing the new law, "officials within the government must be able to communicate with one another fully and frankly without publicity.

All of the panel members are, of course, consultants to the Food and Drug Administration and, as such, government employees during their period of actual work on the panel. The discussion within a panel therefore stands on no different footing than a discussion within an internal Food and Drug Administration staff meeting.

At the same time, the Commissioner recognizes that, consistent with the Federal Advisory Committee Act, advisory committee proceedings should remain open to public view and include participation to the maximum extent feasible. It is for this reason that all interested persons are provided an opportunity to make written submissions to each panel and to present oral views to the panel. The Commissioner has concluded, however, that the deliberations of the panels during which their conclusions and recommendations are determined could not reasonably be made in open session, and thus that it is essential to avoid undue interference with the regulatory process that they be closed to the public.

The primary reason for closing such deliberative portions of advisory committee meetings is, of course, because of the regulatory nature of the action being considered. With respect to the OTC drug review, the issues involve the possibility of specific law enforcement action against an individual product, e.g., requiring relabeling of the drug or new testing by the manufacturer, or removing the product from the market completely. The panel discussions include a continuous admixture of deliberations on interim regulatory decisions, and thus much of the panel discussion is closed to protect the integrity of the regulatory process.

Accordingly, the Commissioner proposes to amend § 330.10 to designate the contents of the administrative record upon which his decision on a monograph shall be based, and to exclude the transcripts of any panel meetings from that designation. The decision will be required to be based solely upon the administrative record so designated and not upon any data, information, or materials not included as part of such record. Court appeal will then be based solely upon that record and the information it contains.

CLOSING OF THE ADMINISTRATIVE RECORD

The notice published in the Federal Register of January 8, 1974 (39 FR 1359) announcing the public hearing on the tentative final order for OTC antacid drug products also stated that, since this was a hearing on the administrative record, only data and information submitted at an earlier stage in the proceeding would be considered. The notice stated that any new data or information could be discussed only if such material were first submitted to the Commissioner with a petition to reopen the administrative record to include such new material, justifying why it was not submitted earlier, and the Commissioner granted the petition.

One objection was received to this notice, contending that this requirement was not included in § 330.10 (formerly § 130.301) of the regulations. In reply, the Food and Drug Administration stated that, although it believed that the procedural regulations made it clear that new evidence could not for the first time be submitted at the public hearing on the tentative final order, such evidence would be accepted as an exception on that occasion and that the procedural regulations would then be amended to prevent recurrence of this problem in the future.

It is standard procedural practice before all administrative bodies and courts that the record in any proceeding is closed at some specified point in time to prevent continuous submission of new data and information. Thereafter in the proceeding, arguments and contentions may be made solely on the basis of the data and information already contained in the record, and new data or information can be filed only with the permission of the presiding officer upon sound justification why the material was not submitted earlier.

The Commissioner concludes that, in the OTC drug review, submission of new data and information should be permitted only through the 60-day period permitted under § 330.10(a)(6) (formerly § 130.301(a)(6)) for comment on the proposed monograph. Thereafter, all rebuttal comments, objections, and statements at the oral hearing must be based solely upon the administrative record developed through that time. Permission to submit additional data or information may be granted, in the sole discretion of the Commissioner, on the basis of a petition to reopen the administrative record to include such material. Any such petition shall demonstrate good cause why such material could not have been obtained and submitted in response to the initial call for data and information or as part of the comments on the proposed monograph. If such a petition is not granted, such material is properly submitted with a subsequent petition to amend the monograph.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 701, 52 Stat. 1040–42 as amended, 1050–53 as amended, 1055–56 as amended by 70 Stat. 919 and 72 Stat. 948; (21 U.S.C. 321, 352, 355, 371)) and the Administrative Procedure Act (secs. 4, 10, 60 Stat. 238 and 243 as amended; (5 U.S.C. 553, 702, 703, 704)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend 21 CFR Part 330 by redesignating § 330.10(a) (10) through (13) as (a) (11) through (14) and by adding a new § 330.10(a)(10) to read as follows:

§ 330.10 Procedures for classifying OTC drugs as generally recognized as safe and effective and not misbranded, and for establishing monographs.

* * * * *

(a) * * *

(10) *Administrative record.* (i) All data and information to be considered in any proceeding pursuant to this section shall be submitted in response to the request for data and views pursuant to paragraph (a)(2) of this section or accepted by the panel during its deliberations pursuant to paragraph (a)(3) of this section or submitted to the Hearing Clerk as part of the comments during the 60-day period permitted pursuant to paragraph (a)(6) of this section. Thereafter, no new data or information may be submitted for inclusion in the administrative record of such proceeding except as provided in paragraph (a)(10)(ii) of this section.

(ii) New data or information not previously submitted for inclusion in the administrative record may be submitted for such inclusion only with a petition to the Commissioner requesting that the administrative record be reopened to include such material. The Commissioner may grant or deny such petition in his discretion. Any such petition shall demonstrate good cause why such material could not be obtained and submitted within the time specified in paragraph (a)(10)(i) of this section. If such a petition is denied, such material is properly submitted with a petition to amend the monograph pursuant to paragraph (a)(12) of this section.

(iii) The Commissioner shall make all decisions and issue all orders pursuant to this section solely on the basis of the

V39—108 JUN 4 74 XUM

administrative record, and shall not consider data or information not included as part of the administrative record.

(iv) The administrative record shall consist solely of the following material: All notices and orders published in the FEDERAL REGISTER, all data and views submitted in response to the request published pursuant to paragraph (a)(2) of this section or accepted by the panel during its deliberations pursuant to paragraph (a)(3) of this section, all minutes of panel meetings, the panel report(s), all comments and rebuttal comments submitted on the proposed monograph pursuant to paragraph (a)(6) of this section, all objections submitted on the tentative final monograph pursuant to paragraph (a)(7) of this section, the complete record of any oral public hearing conducted pursuant to paragraph (a)(8) of this section, all other comments requested at any time by the Commissioner, all data and information for which the Commissioner has reopened the administrative record, and all other material which the Commissioner includes in the administrative record as part of the basis for his decision.

* * * * *

Interested persons may, on or before July 5, 1974 file with the Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: May 29, 1974.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.74–12663 Filed 6–3–74;8:45 am]

[21 CFR Part 330]

OTC DRUGS

Proposed General Conditions

In the FEDERAL REGISTER of November 12, 1973 (38 FR 31258) the Commissioner of Food and Drugs promulgated general conditions for OTC drugs that are generally recognized as safe and effective and are not misbranded. Section 330.1(g) (formerly § 130.302(g)) included a general warning: "Keep this and all drugs out of the reach of children. In case of accidental overdose, contact a physician immediately." Section 330.1(i) (formerly § 130.302(i)) included the following drug interaction warning: "Warning: Do not take this product concurrently with a prescription drug except on the advice of a physician." The effective date of that order was December 12, 1973.

A number of written comments were received in response to that order. The Commisisoner also entertained comments on § 330.1 (g) and (i) and related issues at the public hearing that was held on January 21, 1974, pursuant to the notice published in the FEDERAL REGISTER of January 8, 1974 (39 FR 1359). In view of these written and oral comments, the Commissioner has concluded to reopen this matter and to propose a new version of the general warning in § 330.1(g) and to revoke the drug interaction warning in § 330.1(i).

There was comment that the words "consult your poison control center" should be added to the general warning under § 330.1(g) (formerly § 130.302(g)).

The Commissioner concurs that it would be in the best interest of the consumer to have knowledge that there is more than one source of professional assistance available. For that reason the Commissioner proposes to amend the statement to read: "Keep this and all drugs out of the reach of children. In case of accidental overdose, seek professional assistance or contact your poison control center immediately".

Many of the comments relating to the drug interaction warning under § 330.1 (i) (formerly § 130.302(i)) stated that the pharmacist is a qualified health professional who is available, able, and educated to give advice to consumers concerning OTC products and drug interactions.

The Commissioner agrees that the pharmacist is a qualified health professional and does have knowledge about drug interactions and OTC medications.

There was also comment that, because of his knowledge and availability, the pharmacist should be included as a source of information in the drug interaction warning statement in § 330.1(i).

The Commissioner believes that the consumer should have available every source of reliable, helpful drug information. The proposal and final order stated that the patient's physician should be consulted on possible drug interactions because only he would be certain to know the identity of any prescription drugs being taken concurrently by the patient. It has been brought to the Commissioner's attention that other health professionals, such as physicians' assistants, nurses, nurse practitioners, dentists, and pharmacists, also may have this information and may be more readily available for consultation.

After a great deal of discussion and review, the Commissioner has concluded that the proper way to handle possible drug interactions is to require that the labeling include a separate section headed "Drug Interaction Precautions," stating the specific or general interaction problem involved with that particular OTC drug. Thus, in the final monograph on OTC antacid drugs published elsewhere in this issue of the FEDERAL REGISTER, a drug interaction precaution has been included for all aluminum-containing OTC antacid drug products stating that they should not be used concurrently with tetracycline. The same format will be used for other specific drug interactions found to exist in other monographs. Where known drug interactions exist but are not limited to a specific drug, the precaution statement shall be phrased in terms of general drug categories, such as has been required for charcoal which has been determined to be in Category III under the final order on OTC antacid drug products.

The Commissioner believes that this approach is more consistent with the concept of OTC drug labeling and with providing the most complete and useful information to consumers in concise terms. It directly advises the consumer that the drugs described are not to be used concurrently because of a possible drug interaction.

The purpose of OTC medication is to permit consumers to engage in self-medication without medical or other professional supervision, or in any event with the least amount of supervision feasible. Directing that consumers consult health professionals of any type would seem appropriate only if it is concluded that this is the only possible method of assuring the safe and effective use of the drug. Accordingly, although the Commissioner recognizes the availability of useful drug information through all health professionals, he concludes that it is unnecessary and inappropriate that they be designated on the label in any manner with respect to this particular matter in view of the availability of fully informative labeling which obviates such reference.

The Commissioner recognizes that all health professionals will continue to be a source of sound information on drugs, and encourages recent trends toward training of such persons in pharmacology and toxicology. The Commissioner also recognizes that, on occasion, a physician will wish to direct a patient to continue to use an OTC drug concurrently with a prescription drug contrary to a drug interaction precaution, where they are administered in a way that precludes interaction or other circumstances necessitate such action. In addition, consumers will be fully informed and protected by these labeling precautions.

The Commissioner has considered whether a standard format for a drug interaction precaution should be adopted. In view of the fact that no standard format for label warnings or other label statements has been prescribed in the section on general conditions, the Commissioner has concluded that there is no need to establish such a standard format in this instance. The format utilized in the final order for antacid drug products published elsewhere in this issue of the FEDERAL REGISTER will be utilized in future monographs except where good reason exists to vary from it. Accordingly, the Commissioner is proposing to revoke the warning as it presently exists in § 330.1(i) (formerly § 130.302(i)) of the regulations.

There were some comments by pharmacy organizations that a so-called "third class of drugs," under the control of pharmacists should be created by the Food and Drug Administration. The term "third class of drugs" has a slightly different meaning to different organizations. Some organizations would have the product dispensed only in a pharmacy, others would have the product dispensed only by a pharmacist, and still others would require that the pharmacist keep a drug dispensing record similar to prescription drug records. The particular mechanics of a third class of drugs are not a significant issue as related to the Commissioner's appraisal of this proposal. Some comments specified that all OTC drugs with a drug interaction warning should be in this third class of drugs, and contended that the two issues are inseparable.

The Commissioner has spent a great deal of time reviewing the comments and discussing this issue with various groups, both in and out of the profession of pharmacy. The Federal Food, Drug, and Cosmetic Act requires that OTC drugs be safe and effective for lay use. Although the act permits imposition of whatever limitations or restrictions are necessary to assure the safe use of any drug, including restrictions on the channels of distribution, no controlled studies or other adequate research data have been supplied to support the position that any class of OTC drugs must be dispensed only by pharmacists in order to assure their safe use. It would be inappropriate to restrict the sale of OTC drugs to pharmacies based on anything less than proof that a significant safety issue was involved.

There were a number of comments stating that creating a third class of drugs would create an economic monopoly and an anticompetitive situation. The Department of Justice opposed any such restriction on antitrust grounds.

The Commissioner believes that these concerns are valid. Restricting the sale of some or all OTC drugs only to pharmacies would decrease the number of outlets where the consumer could purchase OTC products, limit competition, and raise some OTC drug prices, with no attendant public benefit. There is at this time no public health concern that would justify the creation of a third class of drugs to be dispensed only by a pharmacist or in a pharmacy. The "third class of drug" issue at this time is solely an economic issue. The Commissioner therefore categorically rejects the establishment of a third class of drugs at this time.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 701, 52 Stat. 1040–1042, as amended, 1050–1053 as amended, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948; (21 U.S.C. 321, 352, 355, 371)), the Administrative Procedure Act (secs. 4, 5, 10, 60 Stat. 238 and 243 as amended; (5 U.S.C. 553, 554, 702, 703, 704)) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that 21 CFR Part 330 be amended by revoking § 330.1(i) and by revising § 330.1(g) to read as follows:

§ 330.1 General conditions for general recognition as safe, effective and not misbranded.

* * * * *

(g) The labeling contains the general warning: "Keep this and all drugs out of the reach of children. In case of accidental overdose, seek professional assistance or contact a poison control center immediately." The Food and Drug Administration will grant an exemption from this general warning where appropriate upon petition.

* * * * *

(i) [Revoked]

* * * * *

Interested persons are invited to submit their comments in writing (preferably in quintuplicate) regarding this proposal on or before August 5, 1974. Comments should be filed with the Hearing Clerk, Food and Drug Administration, Rm. 6–86, 5600 Fishers Lane, Rockville, MD 20852, and may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: May 29, 1974.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.74–12665 Filed 6–3–74;8:45 am]

V 39 — 108 JUN 4 74 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC–D–135, etc.; NDA 1–875, etc.]

OVER-THE-COUNTER ANTACID DRUG PRODUCTS

Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

Elsewhere in this issue of the Federal Register the Commissioner of Food and Drugs is promulgating a final order determining the conditions under which over-the-counter (OTC) antacid drug products are generally recognized as safe and effective and are not misbranded, and which therefore may be marketed without an approved new drug application. After the applicable effective date of that order, any over-the-counter antacid product must either comply with such conditions or, if it does not, be shown to be safe and effective and not misbranded for its claimed uses pursuant to an approved new drug application.

The Director of the Bureau of Drugs has reviewed all new drug applications for OTC antacid products, whether pre-1962 or post-1962, and concludes that none of those described below, specifically or by reference, either complies with all of the conditions for safety, effectiveness, and labeling stated in the final order on OTC antacid drug products, or contains the evidence required by the act to support any conditions of use other than those permitted by that order.

On the basis of all of the data and information now available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation conducted by experts qualified by scientific training and experience meeting the requirements of section 505 of the Act, § 314.111(a)(5) (formerly § 130.12(a)(5)), and, where applicable, 21 CFR 3.86 for fixed combination drugs, demonstrating the effectiveness of the drugs for any condition of use other than those permitted by the final order on OTC antacid products published elsewhere in this issue of the Federal Register; or of adequate tests by all methods reasonably applicable to show that any of the conditions required or excluded for safety reasons by the final order on OTC antacid drug products should not be so required or excluded. To the extent that the labeling of products subject to or covered by NDA's differs from the applicable labeling requirements set forth in the final order on OTC antacid products, the Director concludes, on the basis of the information before him and on a fair evaluation of all material facts, that such labeling is false and misleading. Accordingly, the Director concludes that it is necessary to withdraw approval of the new drug applications and to determine the new drug status of the affected products.

It is unnecessary for any manufacturer or distributor of an antacid drug product which complies with the requirements of 21 CFR Part 331 or the interim requirements for Category III drug products specified in the Commissioner's final order on OTC antacid drugs, published elsewhere in this issue of the Federal Register, to submit a supplemental or abbreviated or full new drug application covering such a product. In accordance with § 330.10, any such product may lawfully be marketed without an approved new drug application. Accordingly, reformulation and/or relabeling to meet such requirements is sufficient for the continued lawful marketing of any OTC antacid drug product subject to this notice.

1. The following new drug applications were subject to the NAS–NRC Drug Efficacy Study, for which the Food and Drug Administration's conclusions were deferred pending results of the OTC drug review in this class:

NDA	Drug	Firm
1–875	Chooz Chewing Gum.	Pharmaco, Inc., Kenilworth, N.J. 07033.
1–952	Kamat tablets	Cole Pharmacal Co., Inc., St. Louis, Mo. 63178.
2–436	Amphojel tablets	Wyeth Laboratories; division of American Home Products Corp., Philadelphia, Pa. 19101.
2–515	Gelusil liquid	Warner-Chilcott Laboratories, division of Warner-Lambert Co., Morris Plains, N.J. 07950.
3–807	Magsal suspension	Endo Laboratories, Inc., Garden City, Long Island, N.Y. 11530.
4–380	Gelusil tablets	Warner-Chilcott Laboratories, division of Warner-Lambert Co., Morris Plains, N.J. 07950.
5–668	Alglyn tablets, Alglyn magma, Belglun tablets.	Brayten Pharmaceutical Co., Chattanooga, Tenn. 37409.
6–547	Alzinox tablets	Smith, Miller, & Patch, New Brunswick, N.J. 08902.
6–738	Carmethose suspension, Carmethose magnesium oxide tablets, Carmethose-Trasentine.	Ciba Pharmaceutical Co., division of Ciba-Geigy Corp., Summit, N.J. 07901.
7–706	Resinate capsules, Resinate tablets.	Merrell-National Laboratories, division of Richardson-Merrell, Inc., Cincinnati, Ohio 45215.
7–911	Kolantyl tablets	Merrell-National Laboratories, division of Richardson-Merrell, Inc., Cincinnati, Ohio 45215.
8–431	Dimacid B tablets.	Otis Clapp and Son, Inc., Cambridge, Mass. 02139.
8–467	Kolantyl Gel	Merrell-National Laboratories, division of Richardson-Merrell, Inc., Cincinnati, Ohio 45215.
9–100	Rolaids Antacid Mint tablets.	American Chicle Co., division of Warner-Lambert Co., Morris Plains, N.J. 07950.
12–165	Rolaids Antacid Mint with HMAS.	American Chicle Co., division of Warner-Lambert Co., Morris Plains, N.J. 07950.
12–298	"A" Plus tablets	Vick Chemical Co., division of Richardson-Merrell, Inc., New York, N.Y. 10017.

2. Notices for new drug applications for OTC antacid products for which approval has previously been withdrawn on the ground of failure to file reports required pursuant to section 505(j) of the act appeared in the Federal Register as follows:

a. Docket FDA–D–135 published in the Federal Register of July 24, 1970 (35 FR 11929).

b. Docket FDC–D–259 published in the Federal Register of April 6, 1971 (36 FR 6529).

c. Docket FDC–D–269 (Docket number originally published incorrectly as FDC–D–259; correction published in the Federal Register of November 24, 1971 (36 FR 22324) to read FDC–D–269) published in the Federal Register of August 6, 1971 (36 FR 14493) and republished in the Federal Register of September 23, 1971 (36 FR 18885).

d. Docket FDC–D–445 published in the Federal Register of March 18, 1972 (37 FR 5711).

e. Docket FDC–D–393 published in the Federal Register of March 28, 1972 (37 FR 6342).

f. Docket FDC–D–492 published in the Federal Register of August 8, 1972 (37 FR 15948).

Those notices stated that, at the time of their publication, conclusions concerning safety and effectiveness of the particular products had not yet been reached, and thus those notices did not constitute a determination of the new drug status of the drug products subject to the NDAs or of any identical, similar or related drug products. Notice is hereby given to all manufacturers and distributors of OTC antacid drug products that the legal status of all such OTC antacid drug products has now been determined by the final order on this class of drugs published elsewhere in this issue of the Federal Register, including all drugs identical, related, or similar to drugs for which the new drug applications were withdrawn previously in the above Federal Register notices.

3. The following new drug applications were approved after 1962 or otherwise were not considered by the NAS–NRC in the Drug Efficacy Study:

NDA	Drug	Firm
1–650	Citralka liquid	Parke, Davis & Co., Detroit, Mich. 48232.
3–304	Bismakaolin suspension.	Vale Chemical Co., Inc., Allentown, Pa. 18102.
9–329	Duplexin tablets	Whitehall Laboratories division of American Home Products Corp., New York, N.Y. 10017.
15–183	Equilet Antacid tablets.	Mission Pharmacal Co., San Antonio, Tex. 78296.

Therefore, notice is given to the holder(s) of all of the new drug application(s) specified and referenced above and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto and determining the new drug status of the affected products on the grounds that, on the basis of new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), (1) there is a lack of substantial evidence that the drug product(s) will have the effect it purports or is represented to have for any condition of use prescribed, recommended, or suggested in the labeling, other than those permitted by the final order on OTC antacid drug products; and (2) such drug is not shown to be safe for use except under the conditions of use required for safety reasons, and is not shown to be safe for use under the conditions of use excluded for safety reasons, by the final order on OTC antacid drug products; and (3) the labeling of the drug product(s), to the extent it differs from the applicable labeling requirements of the final order on OTC antacid drug products, based on a fair evaluation of all material facts, is false or misleading.

In addition to the holder(s) of the new drug application(s) specifically named above or included by reference to notices previously withdrawing approval, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named or referenced above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named or included by reference in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (HFD–300), 5600 Fishers Lane, Rockville, MD 20852.

In addition to the ground(s) for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in § 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR 310, 314), the applicant(s) and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

If an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before July 5, 1974, a written notice of appearance and request for hearing, and (2) on or before August 5, 1974, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 130.14 and discussed in detail as published in the Federal Register of March 13, 1974 (39 FR 9750), recodified as 21 CFR 314.200, published in the Federal Register of March 29, 1974 (39 FR 11680).

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not lawfully be marketed except in compliance with 21 CFR Part 331 or the interim requirements for Category III drug products specified in the Commissioner's final order on OTC antacid drugs, published elsewhere in this issue of the Federal Register. The Food and Drug Administration will initiate appropriate regulatory action to remove such noncomplying drug products from the market promptly after the applicable effective date established in that order.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate with the Hearing Clerk, Food and Drug Administration (HFC–20), Room 6–86, 5600 Fishers Lane, Rockville, MD 20852.

All submissions pursuant to this notice except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–53, as amended (21 U.S.C. 355)), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 2.121).

Dated: May 29, 1974.

A. M. Schmidt,
Commissioner of Food and Drugs.

Comprehensive Manpower Program and Grants to Areas of High Unemployment

V39—108 JUN 4 74 XUM

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

COMPREHENSIVE MANPOWER PROGRAM AND GRANTS TO AREAS OF HIGH UNEMPLOYMENT

On **Tuesday, March** 19, 1974, the Department of Labor published regulations in the FEDERAL REGISTER (39 FR 10374) implementing Titles I and II of the Comprehensive Employment and Training Act of 1973 (Public Law 93–203, 87 Stat. 839). At that time, the Department invited interested persons to submit comments on the regulations, and stated that the comments received by May 4, 1974 would be evaluated to determine whether the regulations should, in any respect, be amended.

Numerous comments were received by the Department pursuant to this invitation. The Department studied these comments carefully, and established an evaluation procedure to allow consideration of each comment on its own merits and in relation to other comments received on the same or similar subjects.

This evaluation procedure has resulted in a decision to amend the regulations in certain respects. These amendments are described below and are incorporated in a set of revised regulations published today. Also incorporated in the revised regulations are the Department's regulations for 1974 summer programs originally published in the FEDERAL REGISTER, Monday, May 13, 1974, (39 FR 17182). Comments will, of course, be received on the summer regulations, as provided in the May 13, 1974 publication.

A short explanatory statement accompanies each amendment description. A description of the amendments follows:

In § 94.4, *Definitions*, the definition of "capital improvement" has been amended to make certain that capital improvements may be made only to existing facilities. This is consistent with the Department's view that funds under the Act should be used primarily for service to participants rather than for auxiliary costs;

The definition of "community-based organizations" has been amended to make clear that only organizations which provide manpower services are to be included. The amendment makes the definition in the regulations consistent with the definition found in the Act;

A definition of "grantee" has been added, so that one term may be used, where appropriate, to refer to various types of grantees under the Act;

The definition of "placement" has been amended to make it consistent with the definition of placement utilized by the employment service. In addition, a definition of "self-placement" has been included, to cover those situations where a participant in a program under the Act is placed through the participant's independent efforts, rather than through the efforts of the program;

The definitions of "programs of demonstrated effectiveness" and "client community" are amended to delete the reference to "low income families." These deletions reflect the Department's view that the purpose of the Act is to utilize available resources in a manner which will provide services for those individuals most in need of them, and that under the Act, such individuals are properly described by the term "economically disadvantaged," rather than by the term "low income." The definitions of "client community" and "programs of demonstrated effectiveness," therefore, retain their reference to the term "economically disadvantaged";

The definition of "subgrantee" is amended to include "private-non-profit agencies." This amendment corrects an error in the original publication; and

The definition of "unemployed persons" which is used for Title II purposes is amended to bring it into closer conformity with the Title I definition of unemployed persons.

In § 95.2, *Allocation of funds*, the language in paragraphs (b) (4) (i) and (b) (5) (i) is amended to provide that a prime sponsor's formula allocation in any particular year will be dependent, in part, upon the prior year's "manpower allotment" for that prime sponsor, rather than upon the prior year's formula allocation for that prime sponsor. The "manpower allotment" of a prime sponsor may be greater, in any year, than the amount of funds received only pursuant to the formula allocation. This new language is included to assure consistency with the Act.

In § 95.3, *Eligibility for funds*, the term "joint and several responsibility" has been deleted from paragraph (b) (1), which establishes the requirements for prime sponsorship agreements between States and eligible units of local governments. The purpose of the deletion is to conform the language in this paragraph to the language setting out similar responsibilities for consortia of local governments;

The language in paragraph (c) which permits incentive funds for a consortium that comprises a substantial portion of a labor market has been amended to read, "substantial portion of a functioning labor market." This amendment was made to conform to the language in § 95.3(a) (4) which sets forth the basic requirements for consortia receiving funds under the regulations; and

The language in paragraph (e) which sets limits on the authority of one prime sponsor to provide services in another prime sponsor's area has been clarified.

In § 95.11, *Notification of intent to apply for prime sponsorship; consortium agreements*, the reference in paragraph (a) to Part II of OMB Circular A–102 has been deleted, as Part II of the circular is not necessary for the Department to be able to obtain required information. Similar deletions are made elsewhere in the regulations;

The requirement in paragraph (c) (8) that every member of a consortium sign a grant agreement has been amended to permit the signing to be done by only one member of the consortium. This was done to permit greater flexibility in consortium agreements; and

The requirement in paragraph (c) (10) that a consortium agreement set out the responsibilities reserved to consortium members has been amended to require each such member to formally approve the comprehensive manpower plan developed by the consortium. The purpose of this amendment is to make certain that every member of a consortium does, in fact, agree to the comprehensive manpower plan, even if all members do not sign the grant agreement. This requirement is not mandated, however, for consortium agreements validly entered into and approved under the March 19, 1974 regulations.

In § 95.13, *Planning process; advisory councils*, the Planning Council membership requirements set out in paragraph (c) (3) are amended to make clear that women and persons of limited English speaking ability should be considered for membership. A similar amendment is made in paragraph (d) (2) (iii) for membership on the State Manpower Services Council; and

The membership requirements in paragraph (e) for joint planning and services councils have been amended to make clear that the membership must reflect the requirements of both the Prime Sponsor Planning Council and the State Manpower Services Council, except for the one-third (1/3) representation of prime sponsors.

In § 95.14, *Content and description of grant application*, the requirement of paragraph (b) (2) (i) (E) (3) that a copy of a State's Special Grant narrative description be included in the general program description is deleted, as such information is not related to a State's responsibilities as a prime sponsor and will be obtained in the Special Grant provisions of the regulations, specifically in § 95.52(b) (2(2(ii). Language is added to § 95.14(b) (2) (i) (E) that will require a Governor to describe the arrangements for the provision of services in all geographical areas under the State's jurisdiction. This addition is consistent with a State's responsibilities as a prime sponsor; and

The language describing the forms used in the grant application is revised to better describe the forms.

In § 95.15, *Comments and publication procedures relating to submission of grant application*, the language in paragraph (c) (1) is amended to require a prime sponsor to submit a summary of the grant application to Indian prime sponsors and labor organizations. This additional requirement is added to provide for coordination between sponsors of programs under the Act and to assure that appropriate labor organizations will be made aware of prime sponsor plans; and

The language in paragraph (d) is amended to require prime sponsors to provide copies of comments on prime sponsor plans to the Governor to assist him in coordinating manpower services throughout the State.

In § 95.17(b) (5), *Standards for reviewing grant application*, the language relating to the participation of the population to be served and community-based organizations in the planning process has been amended so that the prime sponsor is not required to have participation of these groups in both of the methods enumerated in this section.

In § 95.20, *Use of alternative prime sponsors; services by the Secretary*, language was added to reflect the intent that participants will not be adversely affected by action taken by the Department against a prime sponsor.

In § 95.21, *Modification of grant agreement*, language is added to make the denial of a modification to a grant agreement subject to appeal, as are all other modifications.

In § 95.22(d), *ARDM required modification*, the language has been amended so that an ARDM may require a modification to bring a prime sponsor's plan into conformity with the provisions of the regulations or the prime sponsor's approved plan. While comments received pursuant to a plan may be grounds for an ARDM required modification, ARDMs should not be limited to this situation, as they were in the publication of the regulations on March 19, 1974.

In § 95.32, *Eligibility for participation in a Title I program*, a paragraph (e) has been added to provide for special consideration of disabled veterans and veterans of the Vietnam era for participation in Title I programs to emphasize the Department's special concern for returning Vietnam-era veterans. The veterans may be treated in the same manner as other program participants, and any special consideration given to veterans should be described in the Title I program narrative in § 95.14(b) (2) (i) (E) (4).

In § 95.33, *Types of manpower program activity available*, the description of "Work Experience" programs has been placed in a new paragraph (d) (4) and has been clarified so that it may be more easily distinguished from subsidized employment programs. Under the new description, "Work Experience" programs emphasize programs of a short-term or part-time nature for individuals not easily placed in regular or public service employment; and

Participant benefits available for work experience program described in paragraph (d) (4) (vi) have been broadened to allow the payment of either wages or allowances, at the prime sponsor's discretion This amendment is consistent with the Department's view that prime sponsors should have the broadest possible flexibility in developing their programs and that "Work Experience" programs may be structured by a prime sponsor as either training or employment programs.

In § 95.34, *Training Allowances*, the language in (g) (1) relating to public assistance recipients is amended to delete references to the Work Incentive Program (WIN), established under Part C, Title IV of the Social Security Act. These deletions were made to avoid confusion in the use of terminology which has a specific meaning for the WIN program, and to make clear that any public assistance recipient enrolled in a program under the Act receives an incentive allowance; and

The provision for waiver of allowances in paragraph (j) is amended to more clearly identify the criteria for waivers and to distinguish between individual and project-size waivers. Individual waivers may be granted only in exceptional circumstances and with the agreement of the participants. The requirement in (j) (2) (i), previously applicable for any waiver, that participants have resources from concurrent employment or from other sources, is deleted.

In § 95.37, *Prime sponsor review*, language has been added to require prime sponsors to provide a review procedure for all participants under any Title of the Act and to advise participants of their rights under the Department of Labor's hearings procedures in Part 98.

In § 95.42, *Cooperative relationships between prime sponsor and other manpower agencies*, a new paragraph (c) has been added to encourage coordination between prime sponsors under the Act and sponsors under the WIN program.

In § 95.52, *Grant application for special grants to Governors*, the detailed requirements for the State Manpower Services narrative, found originally in paragraph (b) (3) (iii), are transferred to § 95.56(c). A summary of each requirement is retained in § 95.52. The purpose of the amendment is to place the actual requirements in the program operations section, § 95.56.

In § 95.53, *Application approval and disapproval; grant agreement*, a new paragraph (d) has been added to require Governors to provide summaries of their special grant agreements to prime sponsors within the State. The purpose of this amendment is to aid coordination.

In § 95.54, *Modifications; limitations on use of funds for special grants to the Governors*, is amended to establish the same categories of modifications for special grants as are provided for modifications generally in §§ 95.21 and 95.22.

In § 95.57, *Funding; grant administration*, a new paragraph (b) (1) has been added to exempt State Manpower Services and the State Manpower Services Council from the administrative cost ceiling of § 98.12(e) (1) that formerly pertained. The purpose of this amendment is to recognize that these two activities may require higher administrative costs; and

A new paragraph (b) (2) has been added to require vocational education boards to use the allowance payment system established by prime sponsors in whose jurisdiction vocational education programs are conducted, or to establish a method of payment in cooperation with a prime sponsor if the prime sponsor does not already have an allowance payment system.

In § 96.1, *Scope and Purpose*, paragraph (d) is deleted from Part 96 because it pertained only to the amendments of Part 96 found in the March 19, 1974, publication of regulations under the Act.

In § 96.11, *Eligible applicant notification*, the wording was revised to conform to similar language in Part 95 regarding the notice of intent to apply and the forwarding of a grant application package to the eligible applicant.

In § 96.12, *Content and description of grant application*, the format was revised to be consistent with the grant application description in § 95.14.

In § 96.13, *Comment and publication procedures relating to submission of grant application*, language is added to apply this section to fiscal year 1975 as well as to fiscal year 1974. This section had previously been intended to pertain to an initial fiscal year 1974 grant application when it was anticipated that fiscal year 1974 and 1975 grants would be funded separately;

In paragraph (b) (1), a requirement for eligible applicants to send a summary of the application to appropriate Indian prime sponsors is added in order to provide for coordination between sponsors of programs under the Act;

In paragraph (e) the requirement for the eligible applicant to "respond to any comment" has been changed to require the eligible applicant to acknowledge all comments and to provide responses to substantive comments. The intent of this change is to reduce the paper work burden on eligible applicants with regard to responding to comments, but to preserve the intent of the comment procedures for an exchange of views between the prime sponsor and the public.

In § 96.14, *Submission of grant application*, the summary of the narrative description is transferred to § 96.12, and the format is revised to be consistent with similar procedures in Part 95;

Paragraph (b) (2) is deleted, as it duplicates the requirement contained in § 96.13(e); and

Paragraphs (b) (3) and (4) are deleted, as the ARDM need only receive copies of substantive comments and responses from an eligible applicant.

In § 96.15. *Application approval*, the wording in paragraph (b) is revised to conform with similar provisions in Part 95 regarding approval procedures.

In § 96.16, *Application disapproval*, a statement is added to paragraph (c) to indicate that application disapproval is subject to the hearings process in Subpart C of Part 98. This statement was added for clarification only, and does not reflect a change of policy.

In § 96.17, *Use of alternative eligible applicants*, language is added to require that efforts be made to prevent the disruption of services to participants in cases where an application is disapproved.

In § 96.18, *Modification of grant agreements*, paragraph (d) is revised to indicate that disapproval of a modification request is subject to the hearings process in Subpart C of Part 98. The statement is for clarification only and reflects no change in policy.

In § 96.19, *Modification of Comprehensive Title II Plan*, the provision of paragraph (b) (1), requiring a major modification when an eligible applicant

V39—108 JUN 4 74 XUM

adds or deletes a subgrantee, is removed. Major modifications are not being required in such instances in order to allow grantees greater flexibility.

The time period for notification of approval or tentative disapproval in paragraph (b)(3) is changed from 30 days to 10 days, to be consistent with the provision in § 95.22; and

In paragraph (c) language is added to conform the minor modification process in Part 96 with that in Part 95.

Paragraph (d) is revised to indicate that the ARDM may require a modification in order to assure compliance with the regulations and the Comprehensive Title II Plan. This revision is consistent with that made in § 95.22 and is made to clarify the purpose of "ARDM required" modifications.

In § 96.26, *Special limitations on programs and participant selection*, paragraphs (a) "Political activities" and (b) "Sectarian activities" are transferred to Part 98 because they are applicable to all Titles, unless specifically excepted in a part of the regulations.

§ 96.37, *Maintenance of a merit system*, is deleted from Part 96 because the personnel provisions in Part 98 are applicable to all Titles, unless specifically excepted. The remaining sections of Subpart C of Part 96 have been renumbered accordingly.

In § 96.37, previously § 96.38, *Use of Title II funds for programs under Titles I and III–A; Summer Employment Programs*, a statement is added to paragraph (a) to except the ten percent administrative limitation on Title II funds, when used for programs under other Titles. The limitation on administrative costs would not be appropriate for certain types of Title I activities.

In § 96.47, *Comment and publication procedures relating to submission of Indian grant applications*, the requirement for the applicant to "respond to any comment" is changed to "acknowledge any comment" with the intent of reducing paper work requirements of Indian applicants.

In § 98.8, *Quarterly Progress Report*, Paragraph (b) is revised to more clearly describe the data contained on the Quarterly Progress Report; and

Paragraph (e) which required the Quarterly Progress Report to be "submitted" to coincide with the ending dates of Federal fiscal year quarters, is amended to require only that such reports be prepared on a quarterly basis.

In § 98.9, *Quarterly Summary of Client Characteristics*, the name of the form is changed by adding the word "quarterly" and a new requirement that separate reports be required for Titles I and II. These changes were to clarify the reporting requirements.

In § 98.12, *Allowable Federal costs*, specific language is added to paragraph (b)(1) to restrict building repairs, maintenance, and capital improvements to existing facilities. This was the intent of the previous language, and the change is made to make the intent clear;

A new paragraph (b)(2) is added providing that funds provided under the Act shall not be used for matching under other Federal laws except where authorized under a specific law. The use of funds granted under one Title of the Act can be used for matching funds under another Title. This change is being made to clarify the use of funds under the Act for matching; and

Language is added to paragraphs (e)(3) and (6) explaining types of administrative costs which should not be included under the cost categories explained in these sections. This change is to clarify the types of costs which should be considered administrative and not program costs.

In § 98.13, *Allocation of allowable costs among program activities*, paragraph (d) is amended to permit the payment of allowances in work experience programs. This is being done to allow the option of paying wages or allowances under work experience programs.

In § 98.18, *Retention of record*, a new paragraph (a) is added and the paragraphs redesignated. The new paragraph, which requires that data be kept for each program participant, was inadvertently omitted in the March 19, 1974, publication of these regulations; and

A new paragraph (b)(5) replaces the previous paragraph (e). The previous paragraph contained a general reference to OMB Circular A–102 requirements concerning public access to records. The new paragraph specifies the degree of access to information which identifies or can be used to identify applicants, participants or their immediate families. The new language provides more specific guidance concerning access to records.

A new § 98.22, *Nepotism*, is established which contains general prohibitions against one member of a family hiring other members of the family to an administrative position funded under the Act. The section does not, however, pertain to Title II programs, for which there are separate nepotism provisions.

A new § 98.23, *Special limitation on participant selection*, is established to apply the prohibition against political activities and employment in secular facilities to all Titles of the Act. These provisions were previously contained in § 96.26 and applied only to Title II. This change is being made to broaden the coverage of these prohibitions to all Titles of the Act.

These revised regulations, which shall take effect July 5, 1974, read as follows:

PART 94—GENERAL PROVISIONS FOR PROGRAMS UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Sec.
94.1 Scope and purpose of the Act.
94.2 Format for the regulations promulgated under the Act.
94.3 Consolidated table of contents for Parts 94–98.
94.4 Definitions.

AUTHORITY: Comprehensive Employment and Training Act of 1973 (Pub. L. 93–203, sec. 602(a), 87 Stat. 839), unless otherwise noted.

§ 94.1 Scope and purpose of the Act.

(a) It is the purpose of the Act to provide job training and employment opportunities for economically disadvantaged, unemployed and underemployed persons, and to assure that training and other services lead to maximum employment opportunities and enhance self-sufficiency. The purposes of the Act are to be accomplished by the establishment of a flexible and decentralized system of Federal, State and local programs.

(b) The Act is comprised of six titles, as follows:

(1) Title I establishes a program to provide comprehensive manpower services throughout the Nation, including the development and creation of job opportunities, and the training, education and other services needed to enable individuals to secure and retain employment at their maximum capacity.

(2) Title II authorizes public service employment and manpower training programs for unemployed and underemployed persons in areas of substantial unemployment.

(3) Title III provides for the establishment and administration by the Secretary of Labor of:

(i) Special programs for Indians, migrant workers and seasonal farmworkers;

(ii) Manpower services for youth, offenders, older workers, persons of limited English-speaking ability and other special target groups; and

(iii) Research, training and evaluation of programs and activities conducted under the Act.

(4) Title IV establishes a Job Corps within the Department of Labor to provide residential and non-residential manpower services for low-income disadvantaged young men and women.

(5) Title V, establishes a National Commission for Manpower Policy. The responsibilities of the Commission include the examination of national manpower issues, the suggestions of ways and means of dealing with such issues and advising the Secretary on national manpower issues.

(6) Title VI, sets forth the general provisions, including applicable definitions, under the Act.

§ 94.2 Format for the regulations promulgated under the Act.

(a) The regulations promulgated to carry out the Act are set forth in Parts 94 through 98 of Title 29, Code of Federal Regulations.

(b) As each substantive Title of the Act provides for the establishment of a specific type of program, the regulations promulgated in Parts 94 through 98 provide for a separate part for each basic type of activity (e.g., Part 95 deals with comprehensive manpower programs; Part 96 deals with Title II programs). Two parts are also included which deal with general matters relating to the Act: Part 94 deals with basic explanatory and definitional matters, and Part 98 deals with general administrative matters.

(c) Statutory authority for the regulations contained in this Part 94 may be found in section 602(a) of the Act, as well as other substantive provisions of the Act. Applicable statutory provisions, other than section 602(a), are noted generally in these regulations.

§ 94.3 Consolidated table of contents for Parts 94–98.

The table of contents for Parts 94–98 is as follows:

PART 94—GENERAL PROVISIONS FOR PROGRAMS UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Sec.
94.1 Scope and purpose of the Act.
94.2 Format for the regulations promulgated under the Act.
94.3 Consolidated table of contents for Parts 94–98.
94.4 Definitions.

PART 95—PROGRAMS UNDER TITLE I OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

SUBPART A—GENERAL

95.1 Scope and purpose of Part 95.
95.2 Allocation of funds.
95.3 Eligibility for funds.
95.4 Data base for determining eligibility.

SUBPART B—GRANT PLANNING, APPLICATION AND MODIFICATION PROCEDURES

95.10 General.
95.11 Notification of intent to apply for prime sponsorship; consortium agreements.
95.12 Prime sponsor designation.
95.13 Planning process; advisory councils.
95.14 Content and description of grant application.
95.15 Comment and publication procedures relating to submission of grant application.
95.16 Submission of grant application.
95.17 Standards for reviewing grant applications.
95.18 Application approval; grant agreement.
95.19 Application disapproval.
95.20 Use of alternative prime sponsors; services by the Secretary.
95.21 Modification of grant agreement.
95.22 Modification of Comprehensive Manpower Plan.

SUBPART C—PROGRAM OPERATION

95.30 General.
95.31 Basic responsibilities of prime sponsors.
95.32 Eligibility for participation in a Title I Program.
95.33 Types of manpower program activity available.
95.34 Training allowances.
95.35 Wages; minimum duration of training and reasonable expectation of employment.
95.36 General benefits for program participants.
95.37 Prime sponsor review.
95.38 Non-Federal status of participants.
95.39 Safety and health requirements for participants.
95.40 Training for lower wage industries; relocation of industries.
95.41 Prime sponsor contracts and subgrants.
95.42 Cooperative relationships between prime sponsor and other manpower agencies.

SUBPART D—SPECIAL GRANTS TO GOVERNORS

95.50 General.
95.51 Distribution of funds.

Sec.
95.52 Grant application.

PART 96—PROGRAMS UNDER TITLE II OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

SUBPART A—GENERAL

96.1 Scope and purpose.
96.2 Allocation of funds.
96.3 Eligibility for funds.

SUBPART B—GRANT APPLICATION

96.10 General.
96.11 Eligible applicant notification.
96.12 Content and description of grant application.
96.13 Comment and publication procedures relating to submission of grant application.
96.14 Submission of grant application.
96.15 Application approval.
96.16 Application disapproval.
96.17 Use of alternative eligible applicants.
96.18 Modification of grant agreements.
96.19 Modification of Comprehensive Title II Plan.

SUBPART C—PROGRAM OPERATION

96.20 General.
96.21 Basic responsibilities of eligible applicants.
96.22 Basic responsibilities of program agents; relationship with eligible applicants.
96.23 Acceptable public employment positions.
96.24 Maintenance of effort.
96.25 Responsibility for selecting participants.
96.26 Special limitations on programs and participant selection.
96.27 Eligibility for participation in a Title II Program.
96.28 Special consideration for most severely disadvantaged persons.
96.29 Serving significant segments of the population.
96.30 Groups to be provided special consideration.
96.31 Training and supportive services.
96.32 Linkages with other manpower programs.
96.33 Placement goals.
96.34 Compensation for participants.
96.35 Working conditions for participants.
96.36 Retirement benefits for participants.
96.37 Use of Title II funds for programs under Titles I and III–A; summer employment program.
96.38 Limitation on funds.

SUBPART D—SPECIAL CONDITIONS FOR GRANTS TO INDIANS TRIBES ON FEDERAL AND STATE RESERVATIONS

96.40 General.
96.41 Distribution of funds.
96.42 Eligibility for funds.
96.43 Assistance by the Secretary.
96.44 Nepotism.
96.45 Nondiscrimination.
96.46 Subgrants.
96.47 Comments and publication procedures relating to submission of Indian grant applications.

PART 97 SPECIAL FEDERAL PROGRAMS AND RESPONSIBILITIES UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

SUBPART A—1974 SUMMER PROGRAM FOR ECONOMICALLY DISADVANTAGED YOUTH

Sec.
97.1 Scope and purpose.
97.2 Definitions.

98.47 Hearings.
98.48 Initial certification, decisions and notices.
98.49 Judicial review.

§ 94.4 Definitions.

The following definitions consistent with 601(a) of the Act, apply to Parts 94 through 98, inclusive;

(a) "Act" shall mean the Comprehensive Employment and Training Act of 1973 (Pub. L. 93–203, 87 Stat. 839).

(b) "Allocation" shall mean the distribution of funds among prime sponsors or eligible applicants according to the formulas contained in the Act.

(c) "ARDM" shall mean the Department of Labor's Assistant Regional Director for Manpower, or his designee, having the responsibility for the area in which a prime sponsor or eligible applicant is located.

(d) (1) "Area of substantial unemployment" shall mean any area, other than in relation to an Indian tribe, which:

(i) has a population of at least 10,000 persons,

(ii) qualifies for a minimum allocation of $25,000 under Title II of the Act, and

(iii) has a rate of unemployment of at least 6.5 percent for a period of three consecutive months, as determined by the Secretary of Labor at least once each fiscal year.

(2) "Area of substantial unemployment" shall mean, in relation to an Indian tribe, an Indian reservation, as a whole, with a rate of unemployment of at least 6.5 percent for a period of three consecutive months, as determined by the Secretary of Labor at least once each fiscal year.

(e) "Balance of county" shall mean the area within the jurisdiction of a county, as a prime sponsor or eligible applicant, that is not included in the comprehensive manpower plan of another prime sponsor or eligible applicant.

(f) "Balance of State" shall mean the area within the jurisdiction of a State, as a prime sponsor or eligible applicant, which is not included in the comprehensive manpower plan of another prime sponsor or eligible applicant.

(g) "Capital improvement" shall mean any modification, addition, or restoration which increases the usefulness, productivity, or serviceable life of an existing building, structure, or major item of equipment which is classified for accounting purposes as "fixed asset" and the recorded value is increased by the cost of the improvement and subject to depreciation.

(h) "Certification" shall mean a legally binding statement that certain requirements have been fulfilled.

(i) "Chief elected official" and "chief executive officer" shall include their designees.

(j) "Client community" shall mean the group or groups of people to be served by a program or program activity; for example, the unemployed, persons of limited English speaking ability, farm workers, migrants and economically disadvantaged.

(k) "Community-based organizations" shall mean organizations which are representative of communities or significant segments of communities and which provide manpower services (for example, Opportunities Industrialization Centers, Urban League, Jobs for Progress, Mainstream, Community Action Agencies and other community organizations).

(l) "Compensation" as applied to a participant in a Title II program shall mean the wages and salary payable, but does not include fringe benefits or supportive services.

(m) "Consortium" shall mean an agreement among local units of government, consistent with the requirements of § 95.3, to plan and operate a comprehensive manpower program under the Act.

(n) "Contractor" shall mean any person, corporation, partnership, or similar entity or a public agency, which enters into a contract with the Department, with a grantee, or with a subgrantee under the Act.

(o) "Construction" shall mean the erection, installation, or assembly of a new facility or a major addition, expansion, or extension of an existing facility, and the related site preparation, excavation, filling and landscaping or other land improvements.

(p) "Department" shall mean the United States Department of Labor and includes each of its operating agencies and other organizational units.

(q) "Dependent" shall mean:

(1) any relative who is a member of the immediate household of, and for whom the participant has or has assumed, a responsibility for support: *Provided*, That, the following relatives need not be members of the participant's household, if the participant is the head of family:

(i) Parents of the participant head of family;

(ii) Children of the participant head of family;

(iii) Relatives of the participant head of family who are unemployable because of physical or mental disability; or

(2) Any individual who:

(i) Is currently being supported by the participant head of family and is a member of the participant's immediate household; and

(ii) During the preceding twelve months, earned less than $750.

(r) "Economically disadvantaged" shall mean a person who is a member of a family:

(1) Which receives cash welfare payments; or

(2) Whose annual income in relation to family size does not exceed the poverty level determined in accordance with criteria established by the Office of Management and Budget (OMB).

(s) "Eligible applicant" for purposes of Title II shall mean a prime sponsor or an Indian tribe on a Federal or State reservation which includes areas of substantial unemployment.

(t) "Employing agency" for purposes of public service employment programs shall mean any employer designated by an eligible applicant, program agent, or other subgrantee, or by the Secretary of Labor, to employ participants pursuant to public service employment programs under the Act. The term shall include an eligible applicant, program agent, or other subgrantee when acting as an employer.

(u) "Federal reservation" shall mean lands which have been set aside for Indian tribes and for which the United States is trustee, as identified by the Bureau of Indian Affairs, including nontrust land under the tribal jurisdiction.

(v) "Governor" shall mean the chief executive officer of a State, or his designee.

(w) "Grantee" shall mean any individual or organization, including a prime sponsor under Title I or Title III of the Act, or an eligible applicant under Title II of the Act, which receives a grant from the Department to establish or operate any program or activity under the Act.

(x) "Health care" includes but is not limited to preventive and clinical medical treatment, voluntary family planning services, nutritional services, and appropriate psychiatric, psychological and prosthetic services, to the extent any such treatment or services are necessary to enable a participant to obtain or retain employment under the Act.

(y) "Indian tribe" shall mean a tribe, group or band of American Indians or Alaskan natives identified on the basis of historical, geographical or cultural characteristics, or subpart of such a tribe, group or band.

(z) "Low-income level" shall mean an annual income of $7,000 with respect to income in 1969; for any later year it shall mean that amount which bears the same relationship to $7,000 as the Consumer Price Index for that year bears to the Consumer Price Index for 1969, rounded to the nearest $1,000.

(aa) "Obligation" shall mean the amount of Federal funds which the Department has legally committed and authorized a prime sponsor or eligible applicant to expend.

(bb) "Offender" shall mean any person who is confined in any type of correctional institution, including a community-based facility, or who is subject to any stage of the judicial, correctional or probationary process where manpower training and services may be beneficial, as determined by the Secretary of Labor, after consultation with judicial, correctional, probationary or other appropriate authorities.

(cc) "OMB" shall mean the Office of Management and Budget.

(dd) "Participant" shall mean an individual who qualifies and receives services or takes part in activities under provisions of the Act.

(ee) "Placement" shall mean the hiring into unsubsidized employment by an employer of an individual referred by the prime sponsor or its subgrantee or contractor for a job or an interview, providing that the prime sponsor subgrantee or contractor completed all of the following steps:

(1) made prior arrangements with the employer for referral of an individual or individuals;

(2) referred an individual who had not been specifically designated by the employer;

(3) verified from a reliable source, preferably the employer, that the individual had entered on a job; and

(4) recorded the transaction on an employer form or other appropriate form.

There are three levels of placement based on the expected duration of the job:

(i) Short-term placements in jobs which are expected to have a duration of three days or less;

(ii) Mid-term placements in jobs which are expected to have a duration from four days to one-hundred-fifty days; and

(iii) Long-term placements in jobs which are expected to have a duration of more than one-hundred-fifty days.

Placement does not include referral to another program activity, enrollment in education or training courses not supported under the Act, or entrance into the Armed Forces. The transitioning of a participant into unsubsidized employment which does not meet the definition of "placement" above, shall be classified as "self-placement." Self placement shall mean the hiring of an individual in unsubsidized employment, which is a result of his own effort. This can occur after intake service or a referral by the prime sponsor or any of its contractors or subgrantees, or at the outset of program participation as a result of intake and assessment or after receiving program services.

(ff) "Poverty level" shall mean the annual income threshold below which families are considered to live in poverty, as determined in accordance with criteria established by the Director of the Office of Management and Budget.

(gg) "Prime sponsor" shall mean a unit of government, combinations of units of government, or a rural Concentrated Employment Program grantee, as set forth in § 95.3, which has entered into a grant with the Department to provide comprehensive manpower services under Title I of the Act.

(hh) "Professional work" shall mean work performed by an individual acting in a bona fide professional capacity, as such term is used in section 13(a)(1) of the Fair Labor Standards Act.

(ii) "Program agent" for purposes of Title II shall mean a subgrantee which is a unit of, or a combination of units of, general local government having a population of 50,000 or more, and which has an area of substantial unemployment within the jurisdiction.

(jj) "Program of demonstrated effectiveness" shall mean a manpower program, including a program conducted by a community based organization, which has a history of providing manpower services to the economically disadvantaged and has demonstrated the capacity to meet contractual goals at reasonable costs.

(kk) "Public service" shall mean service normally provided by government and includes, but is not limited to, work in such fields as beautification, conservation, crime prevention and control, education, environmental quality, fire protection, health care, housing and neighborhood improvements, manpower services, park, street and other public facility maintenance, pollution control, prison rehabilitation, public safety, recreation, rural development, solid waste removal, transportation, veteran outreach and other fields of human betterment and community improvement. It excludes building and highway construction work (except that which is normally performed by the prime sponsor or eligible applicant) and other work which inures primarily to the benefit of a private profit making organization.

(ll) "Rate of unemployment" shall mean the number of unemployed persons, as a percentage of the total number of persons in the civilian labor force, as determined by the Secretary.

(mm) "Secretary" shall mean the Secretary of the United States Department of Labor, or his designee.

(nn) "SESA" shall mean the State employment security agencies affiliated with the United States Employment Service, established by the Wayner-Peyser Act of 1933, as amended. The term shall include the system of public employment service offices and Unemployment Insurance offices.

(oo) "Significant segments" shall mean those groups identified in a prime sponsor's comprehensive manpower plan as being most in need of the services to be provided by the Act.

(pp) "Special veteran" for Title II shall mean an individual who served in the Armed Forces in Indochina or Korea, including the waters adjacent thereto, on or after August 5, 1964, who received other than a dishonorable discharge.

(qq) "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

(rr) "State reservation" shall mean an Indian reservation recognized by the State in which it is located.

(ss) "Subgrantee" shall mean any governmental unit or private nonprofit agency which receives a grant from a prime sponsor or eligible applicant under the Act.

(tt) "Sufficient size and scope" shall mean an area or combination of area, other than an Indian reservation, which has a population of 10,000 or more persons and qualifies for a minimum allocation under Title II of $25,000.

(uu) "Supportive or manpower services" shall mean services which are designed to contribute to the employability of participants, enhance their employment opportunities, assist them to retain employment, and facilitate their movement into permanent employment not subsidized under the Act.

(vv) "Underemployed person" shall mean a person who is working part-time but seeking full-time work or who are working full-time but receiving wages below the poverty level. For purposes of Title II and public service employment, persons who are working part-time for the employing agency may be considered underemployed and, as such, be hired only if their selection does not violate the maintenance of effort requirements of the Act.

(ww) "Unemployed person" shall mean for Title I activities except in the case of welfare recipients:

(1) A person who is without a job and who wants and is available for work, defined as follows:

(i) A person who is without a job is a person who did not work during the calendar week preceding the week in which the determination of his eligibility for participation is made. Except in the case of persons described in paragraph (ww)(2) of this section, the determination of who wants and is available for work will be made by the prime sponsor or his designee and persons who have been discouraged from seeking work but are currently available for work, shall not be excluded from eligibility.

(ii) If a person is confined in a jail, penitentiary or other correctional institution and there is a reasonable expectation that release will follow the completion of training within a reasonable time, he shall be considered unemployed.

(iii) A person is not to be considered to be available for work if he is without a job because of participation in an ongoing strike or lock-out at his usual place of employment.

(2) In the case of welfare recipients, and except for purposes of section 103 and 202 of the Act, the term "unemployed person" shall mean an adult who, or whose family, receives supplemental security income or money payments pursuant to a State plan approved under the Social Security Act, Title IV (Aid to Families with Dependent Children), or under the Social Security Act, Title XVI (Supplemental Security Income for the Aged, Blind and Disabled), or would be eligible for such payments according to the standards set forth at 45 CFR Part 233 and 20 CFR Part 416 if both parents were not present in the home, and

(i) Who is available for work, and

(ii) Who is either without a job or working in a job providing insufficient income to enable such a person and his family to be self-supporting without welfare assistance.

(xx) "Unemployed person" shall mean for Title II activities:

(1) A person who is without a job and who wants and is available for work. Except in the case of persons described in (2) below, the determination of who wants and is available for work will be made by the prime sponsor or his designee, and persons who have been discouraged from seeking work but are currently available for work, shall not be excluded from eligibility.

V 39 108 JUN 4 74 XUM

(2) Except for purposes of sections 103 and 202 of the Act, an adult who, or whose family, receives supplemental security income or money payments pursuant to a State plan approved under the Social Security Act, Title IV (Aid to Families with Dependent Children), or under the Social Security Act, Title XVI (Supplemental Security Income for the Aged, Blind and Disabled) or would be eligible for such payments according to the standards set forth at 45 CFR Part 233 and 20 CFR Part 416 if both parents were not present in the home, and

(i) Is available for work, and

(ii) Who is either without a job or working on a job providing insufficient income to enable such a person and his family to be self-supporting without welfare assistance.

(3) A person is "without a job" if, during the 30 days preceding his application, he has worked no more than 10 hours or has earned no more than $30 in any calendar week.

(4) A person is not to be considered available for work if he is without a job because of participation in an ongoing strike or lock-out at his usual place of employment.

(yy) "Unemployment compensation" shall mean the compensation payable for weeks of unemployment in accordance with the provisions of a State or Federal law, including but not limited to the unemployment compensation laws of the several States, the Railroad Unemployment Insurance Act and 5 USC Ch. 85 (Federal employees and ex-servicemen's unemployment compensation). This term shall also extend to payments to unemployed individuals under the Disaster Relief Act and other Federal Acts providing assistance to unemployed individuals either as supplemental to State unemployment compensation or in lieu of such compensation.

(zz) "Unit of general local government" shall mean any city, municipality, county, town, township, parish, village or other general purpose political subdivision which has the power to levy taxes and spend funds, as well as general corporate and police powers.

(aaa) "Unsubsidized employment" shall mean employment not financed from funds provided under the Act.

(bbb) "Wagner-Peyser Act" shall mean "An act to provide for the establishment of a national employment system and for cooperation with the States in the promotion of such system, and for other purposes," approved June 6, 1933, (48 Stat. 113), as amended (29 U.S.C. 49 et seq.).

PART 95—PROGRAMS UNDER TITLE I OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Subpart A—General

Sec.
95.1 Scope and purpose of Part 95.
95.2 Allocation of funds.
95.3 Eligibility for funds.
95.4 Data base for determining eligibilty.

Subpart B—Grant Planning, Application and Modification Procedures

Sec.
95.10 General.
95.11 Notification of intent to apply for prime sponsorship; consortium agreements.
95.12 Prime sponsor designation.
95.13 Planning process; advisory councils.
95.14 Content and description of grant application.
95.15 Comment and publication procedures relating to submission of grant application.
95.16 Submission of grant application.
95.17 Standards for reviewing grant applications.
95.18 Application approval; grant agreement.
95.19 Application disapproval.
95.20 Use of alternative prime sponsors; services by the Secretary.
95.21 Modification of grant agreement.
95.22 Modification of Comprehensive Manpower Plan.

Subpart C—Program Operation

95.30 General.
95.31 Basic responsibilities of prime sponsors.
95.32 Elligibility for participation in a Title I Program.
95.33 Types of manpower program activity available.
95.34 Training allowances.
95.35 Wages; minimum duration of training and reasonable expectation of employment.
95.36 General benefits for program participants.
95.37 Prime sponsor review.
95.38 Non-Federal status of participants.
95.39 Safety and health requirements for participants.
95.40 Training for lower wage industries; relocation of industries.
95.41 Prime sponsor contracts and subgrants.
95.42 Cooperative relationships between prime sponsor and other manpower agencies.

Subpart D—Special Grants to Governors

95.50 General.
95.51 Distribution of funds.
95.52 Grant application.
95.53 Application approval and disapproval; grant agreement.
95.54 Modifications Limitations on use of funds.
95.55 Governor's distribution of vocational education funds.
95.56 Program operations.
95.57 Funding; grant administration.
95.58 Nonfinancial agreement between prime sponsor and Vocational Education Board.
95.59 Coordination with prime sponsor.

Subpart A—General

§ 95.1 Scope and purpose of Part 95.

(a) This Part 95 contains the Department of Labor's regulations for the establishment and provision of comprehensive manpower services, including public service employment, under Title I of the Act.

(b) This Part 95 should be read in conjunction with Parts 94 through 98 of this Title 29, Code of Federal Regulations. These parts, in total, comprise the regulations promulgated by the Secretary pursuant to the authority in the Act.

(c) Definitions for abbreviations and major terms may be found in Part 94.

(d) Statutory authority for the regulations contained in this Part 95 may be found in section 602(a) of the Act, as well as other substantive provisions of the Act. Applicable statutory provisions, other than section 602(a), are noted generally in these regulations.

§ 95.2 Allocation of funds.

(a) *General.* (1) This § 95.2 sets out the procedures for allocating funds under Title I of the Act. Of the funds available for Title I in any fiscal year, 80 percent shall be allocated according to the procedures set forth in paragraph (b) of this section. The remaining 20 percent shall be allocated as set out in paragraphs (c) and (d) of this section (sec. 103).

(2) Allocations made to prime sponsors under this section shall be published in the FEDERAL REGISTER as soon as possible after the enactment of any fiscal year appropriation. The Secretary may publish preliminary allocations to assist prime sponsors in planning for programs under Title I of the Act.

(3) The Secretary may reallocate Title I funds as provided in § 98.11.

(b) *Prime sponsor basic allocations.* (1) Eighty percent of the funds available under Title I of the Act shall be allocated as provided in this paragraph (b). Funds provided pursuant to this paragraph are for prime sponsors, as defined in § 95.3, except for a limited number of prime sponsors which are rural Concentrated Employment Programs (CEP). This paragraph (b) does not apply to rural CEPs.

(2) One percent of the amount available under this paragraph (b) shall be allocated by the Secretary to State prime sponsors for the costs incurred in staffing and servicing State Manpower Services Councils. If such funds exceed the amount needed for these costs, the excess may be used to carry out State services under section 106 of the Act. Allocations under this paragraph shall be made according to the paragraph (b)(4) allocation formula.

(3) Not less than $2,000,000 of the funds under this paragraph (b) shall be allocated among Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands, consistent with the factors set out in (b)(4).

(4) Subject to the requirements of paragraph (b)(5) of this section, funds remaining after application of paragraphs (b) (2) and (3) shall be allocated to prime sponsors according to the following basic formula:

(i) Fifty percent of the funds subject to formula allocation shall be allocated on the basis of each prime sponsor area's proportion of the manpower funds allotted for all prime sponsor areas in the prior fiscal year;

(ii) Thirty-seven and one-half percent of the funds subject to formula allocation shall be allocated on the basis of a prime sponsor's proportion of the total number of unemployed persons (as defined by the Bureau of Labor Statistics) in all prime sponsor areas;

(iii) Twelve and one-half percent of the funds subject to the allocation formula shall be allocated on the basis of a prime sponsor's proportion of the number of adults in low income families in all prime sponsor areas.

(5)(i) No prime sponsor shall be allocated an amount under the paragraph (b)(4) allocation formula which is more than 150 percent of the amount of the manpower allotment obligated in the prior fiscal year for the area served by the prime sponsor; except that if the amount so allocated is less than 50 percent of the amount of manpower funds to which it is entitled under the (b)(4) allocation formula, such allocation shall be increased to 50 percent of its entitlement under the formula.

(ii) If any prime sponsor, pursuant to the paragraph (b) (4) and (5) allocation formula, is allocated less than 90 percent of the manpower allotment that was obligated to that area in the previous fiscal year, that prime sponsor shall, to the extent feasible, be provided an amount from the Secretary's discretionary fund, set out in paragraph (d) of this section, that will bring its funding during the current fiscal year to the 90 percent level.

(c) *Additional prime sponsor allocations.* This paragraph describes those prime sponsor allocations that are not subject to the basic allocation procedures of paragraph (b).

(1) *Consortia incentive funds.* In order to encourage consortia, as defined in § 95.3, that also comprise substantial portions (e.g., 75 percent) of labor market areas, the Secretary may use up to 5 percent of the funds available for Title I of the Act to provide additional funding for such consortia. Consortia which do not serve such areas shall not be eligible for additional funds. Prior to making decisions concerning these funds, the Assistant Regional Director for Manpower (ARDM) shall consult with the Governors of the appropriate States and afford them an opportunity to make recommendations.

(2) *State manpower services allocations.* The Secretary shall allocate to the States, according to the paragraph (b) (4) allocation formula, 4 percent of the funds available under Title I of the Act, to enable the States to provide services, as set out in Subpart D of this Part 95.

(3) *Allocations for rural CEP prime sponsors.* The Secretary shall fund a limited number of prime sponsors which are rural CEPs from any funds available to carry out Title I, except funds allocated under paragraph (b).

(4) *Vocational education allocation.* The Secretary shall allocate to the Governors, according to the paragraph (b) (4) allocation formula, 5 percent of the funds available under Title I to provide financial assistance for vocational education. Each Governor shall allocate these funds as required in Subpart D of this Part 95.

(d) *Secretary's discretionary fund.* Any funds available under Title I that are not allocated under paragraphs (b) and (c) shall be first utilized by the Secretary to assure each prime sponsor, including a limited number of rural CEP prime sponsors, of funding at the 90 percent level, as set out in paragraph (b) (5)(ii) of this § 95.2. The Secretary shall utilize the remainder of the funds available under this paragraph at his discretion, taking into consideration (1) the provision of incentive funds for multijurisdictional agreements entered into by States, as set out in § 95.3 (b) and (d); (2) continued funding through prime sponsors of programs of demonstrated effectiveness; and (3) other factors the Secretary deems necessary to the carrying out of his responsibilities under the Act.

§ 95.3 Eligibility for funds.

(a) Funds may be allocated by the Secretary to prime sponsors (sec. 102). Prime sponsors are:

(1) States;

(2) Units of general local government which have a population of 100,000 or more persons;

(3)(i) Consortia consisting of general local governments which are (A) located in reasonable proximity to each other; (B) each of which retains responsibility for operation of the program; (C) at least one of which has a population of 100,000 or more persons; and (D) which, as a consortium, can plan and operate a comprehensive manpower program that provides administrative and programmatic advantage over the other methods of delivering services under the Act;

(ii) A consortium, under this paragraph (a)(3), which consists of units of local government in more than one State, may be approved by the ARDM after the approval of the Governors of the States involved has been obtained.

(iii) No consortium agreement will be approved if one of the parties to the agreement is a unit of local government which is not eligible to be a prime sponsor under the Act and if, in addition, the effect of the agreement is to render ineligible the prime sponsor otherwise responsible for serving the area of the ineligible local government; provided, however, that nothing in this paragraph shall prohibit the otherwise responsible prime sponsor from granting its consent to such a consortium agreement;

(4) Any unit of general local government, or any combination of such units, without regard to population, which, in exceptional circumstances, is determined by the Secretary, after giving serious consideration to comments from the prime sponsor otherwise responsible for the area and the Governor, (i) to serve a substantial portion (e.g., 75 percent) of a functioning labor market area or to be a rural area with a high level of unemployment, and (ii) to have demonstrated that (A) it has the capability for effectively carrying out a comprehensive manpower program under the Act, evidenced by its effective operation of programs such as CEP or other multicomponent programs, (B) there is a special need for services provided by the Act (e.g., the area has a high proportion of such groups within the population as older workers, high school dropouts, or has a high unemployment rate, substantial outmigration or unique commuting problems), and (C) it will afford administrative and programmatic advantages over other methods of delivering services under the Act; and

(5) A limited number of CEP grantees existing at the time of enactment of the Act, serving rural areas having a high level of unemployment which the Secretary determines have demonstrated through prior performance, a special capability for carrying out programs in such areas and are designated for that purpose.

(b)(1) A State may enter into an agreement with any unit of local government within the State that has a population of at least 100,000 persons in order to provide services within a designated area. Such an agreement may be approved by the ARDM when, to the extent consistent with State and local law, each party signatory to the consortium agreement accepts responsibility for the operation of the program, and the ARDM believes that the parties will, pursuant to the agreement, plan and operate a comprehensive manpower program which provides administrative and programmatic advantages over other methods of delivering services under the Act. All requirements for consortia in Parts 94 through 98 apply to such State multijurisdictional agreements unless otherwise stated.

(2) Incentive funds may be provided for an agreement under paragraph (1) if the agreement includes every eligible prime sponsor in the State.

(c) A consortium which comprises a substantial portion of a functioning labor market (e.g., 75 percent) shall be eligible for incentive funds, as provided in § 95.2(c)(1) of this part. The ARDM shall make such determinations, taking into consideration the definition and listing of labor market areas published by the Department, and the recommendations of the Governors.

(d) Incentive funds for consortia or State agreements shall be a nationally uniform percentage increase of the amount due them under § 95.2(b)(4), but shall not exceed 10 percent of the amount.

(e) No State, unit of general local government, or consortium may apply or be designated as a prime sponsor for any area within its jurisdiction that is also within the jurisdiction of another prime sponsor unless that other prime sponsor consents or fails to submit an approvable comprehensive manpower plan, or has its plan terminated, in whole or in part, by the Secretary.

(f) Any unit of general local government that does not intend to be served by the prime sponsor which would normally serve it under Title I shall inform that prime sponsor of its determination.

V39 108 JUN 4 74 XUM

§ 95.4 Data base for determining eligibility.

In order to determine prime sponsor eligibility, the Secretary shall use the 1970 official Census or certified up dates as published by the U.S. Bureau of the Census.

Subpart B—Grant Planning, Application, and Modification Procedures

§ 95.10 General.

This Subpart B provides the procedures for obtaining and modifying a grant to operate programs under Title I of the Act. Specifically, this subpart describes the procedures in the grant award process—from a prime sponsor's initial intent to apply, through the grant application process, to review by the Department, approval or disapproval of the grant, and modification. This subpart also describes the functions of prime sponsor Manpower Planning Councils and State Manpower Services Councils.

§ 95.11 Notification of intent to apply for prime sponsorship; consortium agreements.

(a) For Fiscal Year 1975, an applicant interested in receiving financial assistance shall submit to the ARDM, the Governor, and the appropriate State A–95 clearinghouses (see OMB Circular A–95), a notification of intent to apply for prime sponsorship in the format described in this part. In subsequent fiscal years, the Preapplication for Federal Assistance, Part I, prescribed by OMB Circular A–102, shall be used. In either case, submission shall be by a date set by the Secretary (section 102(c)).

(b) All prime sponsor notifications of intent, including those from consortia, shall include the following:

(1) Name and address of each prime sponsor applicant;

(2) Geographical area to be served;

(3) Population to be served;

(4) Name of any ineligible unit of general local government, located within the prime sponsor applicant's jurisdiction, that has informed the prime sponsor applicant that it will not be participating in the prime sponsor applicant's plan;

(5) Certification that each prime sponsor applicant, except for a CEP prime sponsor, has required governmental authority as defined in § 94.4 and will comply with all requirements of law and regulation; and

(6) The signature of the chief elected official(s) or chief executive officer(s), as appropriate, of each prime sponsor applicant. For a consortium, the signature of the chief elected official or chief executive officer of each consortium member is required.

(c) In addition to prime sponsor notifications of intent from consortia of local governments, each consortium shall, prior to execution of the grant, submit to the ARDM for his approval, a formal agreement which includes the following:

(1) A statement that the agreement has been formed under the Comprehensive Employment and Training Act of 1973. Either an agreement shall be written to establish a consortium arrangement for the express purpose of conducting a program under the Act or an existing joint power or other agreement shall be amended to include reference to the Act as part of the agreement;

(2) Identification of the units of government which are parties signatory to the agreement (i.e., the governmental units that are members of a consortium; not those governmental units that are merely served by a consortium);

(3) Identification of any ineligible governmental unit which would normally be within the jurisdiction of the consortium but has informed the members of the agreement of its desire not to have services provided through the consortium;

(4) Geographical areas which will be served through the agreement;

(5) Population to be served;

(6) Certification that State and local law permits services under the consortium agreement to be provided within the entire geographical area covered by the agreement, including within the jurisdiction of any local government located within the geographical area covered by the agreement (i.e., that the agreement is not prevented by State or local law from taking effect in the entire geographical area which it intends to serve);

(7) An attached letter from each unit's chief legal officer assuring that each party signatory has the legal authority, under State or local law, to enter into a consortium agreement (these letters are made part of the agreement);

(8) A statement that one of the following procedures will be used for signing grant agreements with the Department:

(i) That grant agreements with the Department shall be signed by the chief elected official or chief executive officer of each party to the consortium agreement; or

(ii) That, pursuant to a specific designation in the consortium agreement, grant agreements with the Department shall be signed by the chief elected official or chief executive officer of one or more of the parties to the consortium agreement, or by the chief executive officer of the administrative unit established under paragraph (e)(1) of this section;

(9) Certification that to the extent consistent with State or local law, each party signatory to the consortium agreement accepts responsibility for the operation of the program (i.e., each member of the consortium, rather than any administrative arm, has ultimate responsibility for the program's operation and success);

(10) A description of the powers, functions and responsibilities reserved by the parties to the consortium agreement, specifying the process by which decisions will be made, the process by which each party to the agreement will review and approve the Comprehensive Manpower Plan, and the procedure by which chief elected officials will participate in the planning and operation of the program, if they so desire. However, no agreement that has been validly entered into prior to the addition of this § 95.11(c)(10) need be modified to include this provision.

(11) A statement of the powers, functions and responsibilities which will be delegated to an administrative entity to operate the program and the name and organizational structure of that entity.

(d) In signing grant agreements with the Department, the authorized consortium signator(s) shall certify that the procedures described in the consortium agreement pursuant to paragraph (c)(10) of this section have been utilized.

(e)(1) The consortium shall be the prime sponsor under the Act. An administrative unit or one member of the consortium must be designated to operate the program.

(2) The division of powers, functions, and responsibilities between the consortium members and the administrative unit must be workable and clearly delineated. The administrative units may be delegated the power to enter into contracts and subgrants and other necessary agreements. to receive and expend funds, to employ personnel, to organize and train staff, to develop procedures for program planning, operation, assessment and fiscal management, to evaluate program performance and determine resulting need to reallocate resources, and to modify the grant agreement with the Department. The administrative arm of the consortium should have responsibility for the entire operation of the program, but the consortium members shall reserve to the consortium the right of evaluation and the decision to reprogram funds.

(f) A consortium established under these regulations shall have a stated duration at least equal to the period of the grant.

(g) All prime sponsor notifications of intent from applicants which are eligible only in exceptional circumstances, as defined in § 95.3(a)(4) of this Part 95, shall, in addition to the requirements of paragraph (b), include in their notifications of intent a statement and justification that they meet the requirements of § 95.3(a)(4). Consortia formed in exceptional circumstances shall also submit an agreement as required in paragraph (c).

§ 95.12 Prime sponsor designation.

Upon receipt of a completed notification of intent, the ARDM shall determine whether the applicant is eligible to be designated as a prime sponsor and shall notify the applicant of his determination. For Fiscal Year 1975, the designation shall be by letter or telegram. For subsequent fiscal years, Exhibit M–2, Notice of Preapplication Review Action, OMB Circular A–102 will be used. A grant application package (§ 95.14(b)) shall be sent to each applicant designated as being eligible for prime sponsorship.

§ 95.13 Planning process; advisory councils.

(a) *General.* To receive financial assistance under Title I of the Act, a prime sponsor applicant shall submit an approvable Comprehensive Manpower Plan, as set out in § 95.14 of this Part 95. In developing and modifying such a plan, a prime sponsor applicant shall utilize the advisory councils set out in this section. (sections 104, 106, and 107)

(b) *Planning process.* The prime sponsor shall establish a planning process for the development of its Comprehensive Manpower Plan. That process shall utilize, as appropriate, the advisory councils established in this section and shall also assure the participation in program planning of community-based organizations and the population to be served.

(c) *Prime sponsor Manpower Planning Council.* (1) Each prime sponsor (and prime sponsor applicant) shall appoint a Manpower Planning Council representative of the geographic area to be served. The Planning Council function is advisory. The Council's advisory authority does not free the prime sponsor from its final decisionmaking responsibilities under the Act.

(2) The Planning Council shall advise the prime sponsor in the settting of basic goals, policies, and procedures for its program under the Act. It shall make recommendations regarding program plans, and provide for continuing analyses of needs for employment, training, and related services in such areas. Planning Councils should monitor all manpower programs under the Act and provide for objective evaluations of other manpower and related programs operating in the prime sponsor's areas, for the purpose of improving the utilization and coordination of the delivery of such services. The procedures for evaluating programs not funded by the Act will be developed in cooperation with the agencies affected. The Planning Council shall make recommendations based upon its analyses to the prime sponsor, which will consider them in the content of its overall decisionmaking responsibility.

(3) Each prime sponsor shall, to the extent practical, include as appointments to its Planning Council members who are representative of the client community (e.g., women, persons of limited English-speaking ability and other minority groups), community-based organizations, the Employment Service, education and training agencies and institutions, business, organized labor, and where appropriate, agriculture. Persons representative of other interested groups may also be appointed. The prime sponsor shall appoint a chairman of the Planning Council and provide professional, clerical, and technical staff to serve it. Funds for supportive services and related staff costs for the Planning Council may be made available from a prime sponsor's basic allocation.

(d) *State Manpower Services Council.* (1) A State prime sponsor shall establish, in addition to its Planning Council under paragraph (c) of this section, a State Manpower Services Council (SMSC) representative of the geographic area to be served. The SMSC function is advisory and does not relieve the State of its final decisionmaking responsibilities under the Act. The SMSC shall review and monitor all manpower activities within the State, including those of prime sponsors, and advise and make recommendations concerning manpower activities to the Governor, prime sponsors, State manpower agencies, and the public.

(2) Consistent with the requirements of section 107 of the Act, the Governor shall appoint Council members, as follows:

(i) At least one-third of the membership of the Council shall be composed of representatives of prime sponsors who have been designated in accordance with procedures agreed upon by such prime sponsors. (All prime sponsors within the State need not be presented; whatever the size of the Council, one-third of its membership shall be representatives of prime sponsors within the State.)

(ii) One representative shall be appointed from each of the following: the State Board of Vocational Education, the State Employment Service, and any State agency the Governor believes has an interest in manpower or manpower-related services within the State.

(iii) Representatives shall be appointed from organized labor, business and industry, the general public, community-based organizations, and from the population to be served under the Act (including representation of women, persons of limited English-speaking ability, and other minority groups when such persons represent a significant portion of the client population).

(3) The Governor shall appoint a chairman for the Council and provide the Council with professional, technical, and clerical staff. The Council shall meet as it deems necessary.

(4) Council responsibilities shall include, but not be limited to:

(i) Reviewing prime sponsor plans, proposed modifications, and comments thereon;

(ii) Reviewing State agency plans for providing services to prime sponsors;

(iii) Making recommendations for effective coordination of all manpower and manpower-related programs and supportive services within the State;

(iv) Monitoring continuously (A) the operation of programs conducted by prime sponsors in the State and (B) the availability, responsiveness, adequacy, and effective coordination of State services provided by all manpower-related agencies;

(v) Submitting an annual report, which will be a public document, to the Governor, prime sponsors, State manpower agencies, and such other reports and information to the Governor and prime sponsors as it believes necessary to effectively carry out the Act.

(e) *Combined planning and services councils.* In any State where the State is the only prime sponsor, the prime sponsor Planning Council may also perform the functions of the State Manpower Services Council. In such instances, the membership of the prime sponsor's Planning Council shall reflect the membership requirements of the State Manpower Services Council, in addition to meeting the membership requirements of a Prime Sponsor Planning Council, except that the provision of § 95.13(d)(2)(i) is not required.

§ 95.14 Content and description of grant application.

(a) *General.* (1) This section describes the grant application which prime sponsor applicants will use to apply for funds under Title I of the Act. If an applicant is also applying for funds under Title II of the Act, additional requirements set out in Part 96 must also be followed. Procedures for special State grants under Title I are in Subpart D of this Part 95 (sec. 106).

(2) A copy of all forms and instructions are contained in the Forms Preparation Handbook.

(b) *Grant application forms.*—(1) *Application for Federal assistance.* The application for Federal assistance identifies the prime sponsor applicant and the amount of funds requested; it provides information concerning the area to be served and the number of people expected to benefit from the program. The form provided in OMB Circular A–102, Part I of a grant application for nonconstruction, is being used.

(2) *Comprehensive Manpower Plan.* The Comprehensive Manpower Plan is a statement of how the prime sponsor applicant intends to use Title I funds, and to coordinate its activities with other manpower programs and services operating within its jurisdiction. The Comprehensive Manpower Plan consists of the Narrative Description of the Program, the Program Transition Schedule (for Fiscal Year 1975 only), the Project Operating Plan, and the Program and Occupational Summaries for Public Service Employment, all described below. For consortium prime sponsors, the approved consortium agreement will be a part of the plan.

(i) *Narrative Description of Program.* The Narrative Description of the Program provides for a narrative outline of the proposed program under the Act. It identifies and explains the manpower problems within the prime sponsor's jurisdiction, describes proposed program activities and delivery systems to deal with those problems, and projects the results which may be expected from the program. The Narrative Description of the Program requires a detailed statement on the program including the following specific items. The Forms Preparation Handbook gives detailed instructions for these and other items on the Narrative Description of the Program:

(A) *Objectives and needs for assistance.* (*1*) Policy statement on purpose of program;

(*2*) Description of economic condition;

(*3*) Description of labor force characteristics;

(*4*) Assessment of skill shortages;

V 39—108 JUN 4 74 XUM

(5) Definition of manpower needs;

(6) Statement of groups to be served;

(7) Statement on consideration of priority groups; and

(8) Statement of goals to be accomplished.

(B) *Results and benefits expected.* (*1*) Statement relating planned results to needs;

(*2*) Description of "other activities" in the Project Operating Plan;

(*3*) Statement of how training and services will provide participants with economic self-sufficiency; and

(*4*) Explanation of how training will lead to employment and enhance career development.

(C) *Approach.* (*1*) Description of the planning system and participation of community based organizations;

(*2*) Statement of strategy for accomplishing goals;

(*3*) Description of each program activity and service;

(*4*) Description of methods to be used to recruit, select, and determine eligibility of participants, including any special consideration given to veterans;

(*5*) Description of how persons of limited English-speaking ability will be served if they represent a significant portion of a prime sponsor's program;

(*6*) Description of consideration given programs of demonstrated effectiveness;

(*7*) Description of prime sponsor's administrative system;

(*8*) Description of allowance payment system;

(*9*) Explanation of any system for accounting for placements;

(*10*) Explanation of reasons specific delivery agents were selected including area skill centers and justification when other than existing facilities have been selected;

(*11*) Description of vocational education training and services funded by State Special Grants;

(*12*) Description of coordination with deliverers of manpower services not supported by the Act;

(*13*) Justification of administrative costs planned; and

(D) *Geographic location served.* Description of the geographical locations to be served.

(E) *Additional items relating to State applicants.* (*1*) A description of arrangements for serving all geographic areas under its jurisdiction, except for areas served by other prime sponsors;

(*2*) Description of the functions of the State Manpower Services Council;

(*3*) Description of State Manpower Services to be undertaken.

(F) *Public Service Employment Programs.* (*1*) Description of target population characteristics and significant segments which need special attention;

(*2*) Description of unmet public service needs and priorities;

(*3*) Comparison of types of jobs in public service needs described above;

(*4*) Justification of funding and job allocation by area;

(*5*) Description of results and benefits expected;

(*6*) Description of strategy for matching jobs to special veterans skills;

(*7*) Description of plan for providing services to significant segments, specifically disabled and special veterans and welfare recipients;

(*8*) Orientation procedures for participants;

(*9*) Description of determination of rates of compensation when they differ from what is normally paid by employer;

(*10*) Description of actions to insure compliance with personnel procedures and collective bargaining agreements for jobs above entry level;

(*11*) Plans to improve and expand employment and advancement opportunities of the target population; and

(ii) *Program Transition Schedule.* The Program Transition Schedule, required only in the plan for Fiscal Year 1975, requires the prime sponsor to list the categorical manpower programs currently funded under the Manpower Development and Training Act (MDTA), the Economic Opportunity Act (EOA), and the Emergency Employment Act (EEA) indicating those which will be phased into the operation of activities under the Act and those to be phased out. Current programs under MDTA and EOA may be continued only through December 31, 1974, unless the ARDM approves an extension under special circumstances. The prime sponsor shall also describe the system for ensuring continuity of service for those individuals enrolled in the categorical programs operating at the time of transition.

(iii) *Project Operating Plan.* The Project Operating Plan requires a prime sponsor to provide a quantitative statement of planned expenditures, enrollment levels, and outcomes for program participants. It requires a prime sponsor to indicate planned expenditures by cost category (administration, allowances, wages, fringe benefits, training, and services) and by program activity (classroom training, on-the-job training, public service employment, work experience, services to clients, and other activities). It requires also an identification of the number of individuals to be served within the significant segments of the population.

(iv) *Public Service Employment Occupational Summary.* The Occupational Summary requires a prime sponsor operating a public service employment program under the Act to provide a description of proposed job opportunities, occupations and wages, including a comparison of such wages with wages for similar nonsubsidized jobs in the employing agency. The prime sponsor shall submit separate summaries for such program under Title I and title II of the Act.

(v) *Public Service Employment Program Summary.* The Program Summary presents a distribution of public service employment jobs, and funds to be provided to prime sponsors and subgrantees. It designates the areas to be served and the population of each area. The prime sponsor shall submit separate summaries for such programs under Title I and Title II of the Act.

(3) *Assurances and Certifications.* The Assurances and Certifications form is a signature sheet on which the prime sponsor assures and certifies that it will comply with the Act, the regulations of the Department, other applicable laws, and applicable circulars from the Office of Management and Budget (OMB) and the General Services Administration (GSA). The Assurances and Certifications form is contained in the Forms Preparation Handbook. Following is a summary of the items which are described in detail on that form:

(i) Compliance with the Act and regulations;

(ii) Compliance with OMB Circulars A–87, A–95, A–102;

(iii) Legal authority;

(iv) Non-discrimination;

(v) Compliance with Title VI of the Civil Rights Act of 1964;

(vi) Compliance with the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970;

(vii) Compliance with the Hatch Act and restrictions on politicial activities;

(viii) Prohibition on use of position for private gain;

(ix) Access of Comptroller General and Secretary to records and documents pertaining to the Act;

(x) Non-support of religious facilities;

(xi) Maintenance of required health and safety standards;

(xii) Provision of appropriate workman's compensation to participants;

(xiii) Use of funds under the Act to supplement, rather than supplant, funds otherwise available, prohibition on displacement of employed workers by participants employed under the Act, and prohibition on impairment of existing contracts for services;

(xiv) Training only in occupations which have reasonable expectations for unsubsidized employment and which provides for the development of participants' potential consistent with their capabilities;

(xv) Compliance with reporting and recordkeeping requirements of the Act and regulations;

(xvi) Provision of required administrative and accounting controls;

(xvii) Compliance with applicable standards for working conditions;

(xviii) Additional assurances for Title I programs, as required by the Act;

(xix) Additional assurances for public service employment programs, and all activities funded under Title II, as required by the Act;

(xx) Special certifications for State grantees, as required by the Act.

§ 95.15 Comments and publication procedures relating to submission of grant application.

(a) As provided in paragraphs (b) and (c) of this section, each prime sponsor applicant shall, no later than the date of its submission of an application to the ARDM, provide an opportunity for comment on the application (secs. 105(c)(2) and 108).

(b)(1) Each prime sponsor shall publish a summary of the grant application package, including the proposed allocation of funds, in a newspaper or newspapers (including minority newspapers, where feasible) which will provide for a general circulation throughout the area to be served by the prime sponsor's plan. Such publication shall be for three consecutive issues and shall include an address and appropriate hours when the complete grant application will be available for review and the place where comments may be directed. The publication shall be made 30 days prior to the submission of the application to the ARDM, except that for Fiscal Year 1975 the publication shall be no later than the date of submission of the application to the ARDM.

(2) The information published shall include the following:

(i) the goals provided in the Project Operating Plan;

(ii) the significant segments of the population to be served, and number of planned participants in each segment;

(iii) the program activities and services to be provided by the program in each geographical area and the funds to be planned for each activity and service;

(iv) the total funds in the grant and distribution by cost categories.

(c)(1) In addition to general newspaper circulation, each prime sponsor applicant shall provide a copy of its application for the purpose of commenting thereon to the Governor and the appropriate State and sub-State A–95 clearinghouse(s). It shall provide a summary to appropriate units of general local government with a population of at least 10,000 persons, to Indian prime sponsors, and to labor organizations where appropriate.

(2) For grants for Fiscal Year 1975, a prime sponsor applicant shall submit a copy of its application to the appropriate State and sub-State A–95 clearinghouse(s) at the same time it submits its application to the ARDM. The copy of the application sent to the clearinghouse(s) shall be accompanied by the following statement: "Due to the time constraints on implementation of Titles I and II of the Comprehensive Employment and Training Act of 1973, the program plan(s) required by section 105, 106, and 205 of the Act is (are) being submitted to the clearinghouse(s) and the Department of Labor simultaneously. Clearinghouses are requested to forward any comments directly to the Assistant Regional Director for Manpower. This review and comment procedure has been approved by the Office of Management and Budget only for Fiscal Year 1974 Title II and Fiscal Year 1975 Titles I and II program approval cycles."

(d) Comments pursuant to paragraphs (b) and (c) of this section shall be made to the prime sponsor applicant and the ARDM within 30 days of publication. The prime sponsor shall provide copies of these comments to its Advisory Council and the Governor.

(e) A prime sponsor applicant shall acknowledge any comment made pursuant to this section. It shall inform any party submitting a substantive comment of whether any plan revision will be made in response to the comment and the reasons for the prime sponsor's determination. All substantive comments and responses will be transmitted to the ARDM with the grant application, unless the comments are received after the application's submission, in which case they will be sent separately to the ARDM.

§ 95.16 Submission of grant application.

(a) Each prime sponsor applicant shall submit its grant application to the ARDM on or before a date set by the Secretary.

(b) A grant application shall include all items set out in § 95.14 of this Part 95.

§ 95.17 Standards for reviewing grant applications.

(a) A grant application will be reviewed to determine if it meets the requirements of the Act, the regulations promulgated under the Act, and other applicable law.

(b) In reviewing a grant application as provided in paragraph (a) of this section, the ARDM shall determine whether:

(1) The application is complete.

(2) The needs and priorities identified in the application are supported and justified by the documentation provided by the prime sponsor.

(3) The planned expenditures for program activities are substantiated by documentation of the needs and priorities identified in the application.

(4) The performance goals identified in the application are reasonable in light of past program experience in the same or similar activities and the documentation provided by the prime sponsor.

(5) Appropriate arrangements have been made to involve the population to be served and community-based organizations in the planning process, through representation on the Prime Sponsor Manpower Planning Council or through participation in the specific planning of the program.

(6) The prime sponsor applicant's selection of the method of delivery of services is supported by adequate documentation based on availability and capability of delivery agents and appropriateness of services for the population to be served (sec. 105(a)(3)(B)).

(7) Maximum efforts have been made to meet the goals of the prior year's plan; such efforts shall include monitoring, evaluation, and remedial activities.

(8) The administrative costs in the application are reasonable and provide, to the maximum extent feasible, for Federal funds to be expended for direct program activities and services, and, if administrative costs exceed 20 percent of total costs, whether the prime sponsor has cited an adequate reason and provided supporting documentation.

(9) The prime sponsor has adequate internal administrative controls, accounting requirements, personnel standards, monitoring and evaluation procedures, availability for in-service training and technical assistance, and such other policies as may be necessary to promote the effective use of funds provided under Title I of the Act.

(10) All parties required to be afforded an opportunity to comment on comprehensive manpower plans have been afforded such an opportunity; and

(11) Any comment on a comprehensive manpower plan evidences non-compliance with the Act, the regulations promulgated pursuant to the Act, or any other applicable law.

§ 95.18 Application approval; grant agreement.

(a) An application for a grant shall be approved if it meets the requirements of the Act, the regulations promulgated under the Act, other applicable law, and if the ARDM determines that the prime sponsor has demonstrated maximum efforts to meet the goals of the prior year's plan.

(b) An application for a grant from a consortium, or pursuant to a State multi-jurisdictional agreement, shall be approved if, in addition, an agreement among the parties has been submitted to and approved by the ARDM.

(c) A prime sponsor applicant and the Governor shall be notified of action taken on the application. If an application is approved, the ARDM shall provide the prime sponsor with a grant agreement, consisting of the Grant Signature Sheet and the Assurances and Certification Form, and the Comprehensive Manpower Plan which is included by reference. The Comprehensive Manpower Plan shall be attached to the grant agreement.

(d) The Grant Signature Sheet specifies the amount obligated by the Department, the term of the grant, and is signed by the ARDM and the prime sponsor.

§ 95.19 Application disapproval.

(a) An application for a grant shall be disapproved if it fails to meet any requirement of the Act, the regulations promulgated under the Act, or any other applicable law (secs. 105 and 108).

(b) No application shall be disapproved solely because of the percentage of total funds devoted to any allowable program activity.

(c) No application for a grant shall be disapproved until:

(1) The prime sponsor applicant has been notified that its application fails to meet a requirement of the Act, regulations promulgated under the Act, or other applicable law; and

(2) The prime sponsor applicant is provided with suggestions as to those corrective steps which may be utilized to remedy any defect found in the application; and

(3) The prime sponsor applicant has been provided a reasonable opportunity, but not less than 30 days, to remedy any defect found in the application, but has failed to do so.

(d) When an application is disapproved, a notice of disapproval shall be transmitted to the prime sponsor and the Governor, accompanied by a statement of the grounds of the disapproval. Such disapproval shall not be effective until

V 39 108 JUN 4 74 XUM

notice and opportunity for a hearing has been provided, as required in Subpart C of Part 98.

§ 95.20 Use of alternative prime sponsors; services by the Secretary.

If an application is not filed, as required, or is denied, or if a grant is terminated in whole or in part during a fiscal year, the Secretary may make provision for the funds so released to be used by the State or another alternative prime sponsor to service the area originally to be served by the primary prime sponsor, or the Secretary may serve such an area directly. In so doing, the Secretary shall make every effort to minimize or prevent any disruption in participant activities (sec. 110(a)).

§ 95.21 Modification of grant agreement.

(a) The Grant Signature Sheet shall be used as the instrument to modify an existing grant agreement when there is a change in (1) the term of the grant, (2) the amount funded by the grant, or (3) the assurances and certifications included in the grant agreement. All modifications of the grant agreement are major modifications (secs. 105 and 108).

(b) When the term or amount funded by the grant is changed, the prime sponsor shall also submit revised portions of its Comprehensive Manpower Plan to specifically identify the changes.

(c) When the term or amount funded by a grant is changed, the comments and publication procedures provided in § 95.15 shall be followed.

(d) A denial of a prime sponsor's request for a grant modification shall be subject to the appeal procedures set out in Part 98.

§ 95.22 Modification of Comprehensive Manpower Plan.

(a) *General.* Prime sponsors may make two types of modifications to Comprehensive Manpower Plans: major and minor. An ARDM may require a modification as described in paragraph (d) of this section.

(b) *Major plan modification.* (1) When a plan modification falls into one of the following categories, it will be considered to be major plan modification:

(i) For grants of $100,000 or less:

(A) When the cumulative transfer of funds among program activities or cost categories exceeds $5,000.

(B) When the cumulative number of individuals to be served, planned enrollment levels for program activities, planned placement terminations, or individuals to be served within significant client groups is to be increased or decreased by 15 percent or more.

(ii) For grants of over $100,000.

(A) When the cumulative transfer of funds among program activities or cost categories exceeds $10,000 or 5 percent of the total grant budget whichever is greater.

(B) When the cumulative number of individuals to be served, planned enrollment levels for program activities, planned placement terminations, or individuals to be served within significant client groups is to be increased or decreased by 15 percent or more.

(2) A prime sponsor desiring a major modification shall submit a revised Project Operating Plan and a narrative explanation of the proposed changes to the ARDM. This modification will be forwarded for comment to the Governor and to other interested units of local government and a summary published in a newspaper of general circulation (including minority newspapers, where feasible) in the prime sponsor's area. The ARDM shall notify the prime sponsor of final approval or of tentative disapproval within 10 days of receipt of the proposed modification. Final ARDM action on disapproval shall be taken within 30 days of the receipt of the proposed modification. Appeal of any such determination may be obtained through the procedures set out in Part 98 of the regulations.

(c) *Minor plan modification.* A prime sponsor may make any change in its Project Operating Plan which is not set out in paragraph (b) of this section without prior approval, but must show any such change in the first Quarterly Progress Report submitted to the Department after the change has been made. At the same time that this report is submitted, an updated Project Operating Plan will also be submitted. Only those lines and columns affected by the modification shall be shown.

(d) *ARDM required modification.* After consultation with a prime sponsor, modifications may be required by the ARDM as necessary to assure compliance with the regulations and the approved plan (secs. 105 and 108).

Subpart C—Program Operations

§ 95.30 General.

This subpart sets out the program operation requirements for comprehensive manpower services under Title I of the Act. The utilization of funds under Title I is conditioned upon adherence to the Act, the regulations promulgated under the Act, and other applicable law.

§ 95.31 Basic responsibilities of prime sponsors.

A prime sponsor shall be responsible for:

(a) Compliance with plans and assurances;

(b) Compliance with Part 98 of these regulations;

(c) Establishing priorities for receipt of assistance authorized under the Act taking into account the priorities identified by the Secretary and the significant groups represented among the economically disadvantaged, unemployed, and underemployed residing within its jurisdiction;

(d) Designing program operating activities which are, to the maximum extent feasible, consistent with every participant's fullest capabilities and will lead to employment opportunities enabling every participant to become economically self-sufficient, and will contribute to the occupational development or upward mobility of every participant (secs. 101 and 603(9)).

(e) Advising every participant of his rights and responsibilities prior to entering the program and granting the opportunity for an informal hearing as provided in § 95.37; and

(f) Making maximum efforts to achieve the provisions of its plan.

§ 95.32 Eligibility for participation in a Title I program.

(a) A person who is economically disadvantaged, unemployed or underemployed (as defined in § 94.4) may, subject to paragraph (b) of this section, participate in a program offered by the prime sponsor under Title I of the Act (secs. 105(a), and 108(d)).

(b) For the purpose of participating in a public service employment program under Title I of the Act, participation is permitted for persons who reside, as defined in paragraph (c) of this section, anywhere within the geographical area covered by the prime sponsor's comprehensive manpower plan who are unemployed or underemployed, and are otherwise eligible for participation consistent with the requirements of secs. 205(c) and 208 of the Act (sec. 105(a)(5)).

(c) For the purpose of defining residence in paragraph (b) of this section, the term residence shall mean an individual's permanent dwelling place or home, both at the time the individual applies and is selected for participation in a public service employment program under Title I of the Act. In determining whether a particular place is an individual's dwelling place or home, the intention of the individual is the key element. Maintenance of an "address" is not necessarily the same as maintenance of a dwelling place or home.

(d) Citizenship will not be used as a criterion to prevent permanent residents, including permanent resident aliens, from participating in a program to the extent consistent with applicable State or local law.

(e) Prime sponsors will give special consideration to the needs of qualified disabled veterans and veterans of the Vietnam-era who served on or after August 5, 1964, and meet the eligibility requirements in paragraph (a) of this section.

§ 95.33 Types of manpower program activity available.

(a) A prime sponsor may provide any type of manpower program activity which is consistent with the purposes of Title I of the Act. Such program activities include but are not limited to the development and creation of job opportunities, and the training education and other services needed to enable an individual to secure and retain employment at his maximum capacity. Program activities should be primarily directed toward the placement of individuals in unsubsidized employment, either directly at the outset of program participation as a result of intake assessment or indirectly through provision of training or services (sec. 101).

(b) A prime sponsor may, consistent with these regulations, determine the operating levels and program activities in its area. It may select any of the program activities described in paragraph (d) of this section or devise other activities within the framework of the Act. No prime sponsor plan will be disapproved solely because of the percentage of funds devoted to a particular program activity (sec. 108(c)).

(c) A prime sponsor shall develop special program provisions for persons of limited English-speaking ability when such persons constitute a significant portion of a prime sponsor's program. The prime sponsor shall establish operating procedures to ensure (sec. 301(b)):

(1) Teaching occupational skills in the primary language of such persons for occupations which do not require a high proficiency in English;

(2) Developing new employment opportunities for persons limited in English-speaking ability;

(3) Developing opportunities for promotion within existing employment situations for such persons;

(4) Disseminating appropriate information and providing job placement and counseling assistance in the primary language of such persons;

(5) Conducting training and employment programs in the primary language of such persons; and

(6) Conducting programs designed to increase the English-speaking ability of such persons.

(d) The basic types of manpower services available to a prime sponsor include, but are not limited to; the following:

(1) *Classroom training.* (i) This program activity includes any training conducted in an institutional setting designed to provide individuals with the technical skills and information required to perform a specific job or group of jobs. It may also include training designed to enhance the employability of individuals by upgrading basic skills, through the provision of courses in, for instance, remedial education, training in the primary language of persons of limited English-speaking ability, or English-as-a-second-language training.

(ii) Occupational training shall be designed for occupations in which skills shortages exist (sec. 105(a)(6) and for which there is reasonable expectation of employment (sec. 603(10)). In making these determinations, a prime sponsor shall utilize available community resources such as the local SESA office, the National Alliance of Businessmen, etc.

(iii) Allowances and other benefits as provided in § 95.34 may be paid to participants receiving training or education, provided that such allowances are not paid for any course having a duration in excess of 104 weeks (sec. 111(a)).

(iv) Vocational education services may be supported with funds provided through (A) the prime sponsor's Title I grant or (B) special grants to Governors for vocational education and services in prime sponsor areas. In order to obtain services under (d)(2) of this section the prime sponsor will negotiate nonfinancial agreements with State Vocational Education Boards utilizing the procedures described in Subpart D of this Part 95.

(2) *On-the-job training.* (i) On-the-job training (OJT) refers to training conducted in a work environment designed to enable individuals to learn a bonafide skill and/or qualify for a particular occupation through demonstration and practice. Such training may be conducted on a "hire first, train later" basis, or with ultimate placement with an employer other than the training organization. OJT may involve individuals at the entry level of employment or be used to upgrade present employees into occupations requiring higher skills. Training shall be designed to lead to the maximum development of participants' potentials and to their economic self-sufficiency.

(ii) *Inducements to employers.* Prime sponsors may provide payments or other inducements to public or private employers for the bonafide training and related costs of enrolling individuals in the program; provided that payments to employers organized for profit are only made for the costs of recruiting, training and supportive services which are over and above those normally provided by the employer. Direct subsidization of wages for participants employed by private employers organized for profit is not an allowable expenditure (sec. 101(5)).

(iii) *Labor organization consultation.* Appropriate labor organizations should be consulted in the design and conduct of on-the-job training programs where collective bargaining agreements exist with the employer.

(iv) *Participant benefits.* Wages and other benefits provided to OJT participants shall be in accordance with conditions specified in § 95.35 of this subpart.

(3) *Public Service Employment.* (i) This program activity includes training, services, and other activities incident to the subsidized employment of individuals in the public sector. Operating conditions and allowable expenditures, except for residency requirements, applicable when Title I funds are used for this activity are the same as those used for this activity when Title II funds are used, as enumerated in Part 96 of these regulations.

(ii) *Participants benefits.* Wages and benefits for persons in a public service employment program shall be as provided in Part 96.

(4) *Work experience.* (i) This program activity is designed to enhance the future employability of youth or to increase the potential of adults in obtaining a planned occupational goal.

(ii) Work experience activities for youth include part-time work for students attending school, short-term employment for students during summer, short-term employment for out-of-school youth adjusting to a work setting and in transition from school to a job setting; short-term employment for recent graduates; and short-term or part-time employment for those youth who have no definite occupational goal and for whom no training or job opportunity immediately exists.

(iii) Work experience activities for adults include part-time or short-term employment for the chronically unemployed, retired persons, recently discharged military individuals, institutional residents and inmates, and others who have not been working in the competitive labor population for extended periods of time. In addition, it may include short-term employment while a definite occupational goal and a training or job opportunity is being developed.

(iv) Program outcomes for work experience participants include (A) return to school; (B) enrollment in post secondary education; (C) enlistment in the military services; and (D) enrollment in manpower training.

(v) Work experience in the private for profit sector is prohibited.

(vi) *Participant benefits.* Each participant in a work experience activity shall receive allowances or wages. Wages shall be commensurate with such factors as the types of work performed, the geographical region of the program, and the skill proficiency of the participant, provided that a participants' hourly rate of pay shall be at least the highest of (A) the minimum wage prescribed by State or local law for similar employment or (B) the minimum hourly wage set out under sec. 6(a)(1) of the Fair Labor Standards Act of 1938, as amended. Participants in work experience activities shall be provided workmen's compensation and, as appropriate, other manpower services. Allowances shall be provided as in § 95.34 of this subpart.

(5) *Services to clients.* This program activity is designed to provide supportive and manpower services which are needed to enable indviduals to obtain or retain employment or to participate in other manpower program activities leading to their eventual placement in unsubsidized employment. Such services include, but are not limited to the following:

(i) *Manpower Services:* (A) Outreach;

(B) Intake and assessment;

(C) Orientation;

(D) Counseling;

(E) Job development;

(F) Job placement; and

(G) Transportation; and

(ii) *Supportive Services:* (A) Health care and medical services;

(B) Child care;

(C) Residential support;

(D) Assistance in securing bonds;

(E) Family planning services, provided that such services are made available to an enrollee only on a voluntary basis, and are not to be a prerequisite for participation in, or receipt of, any services or benefit from the program; and

(F) Legal services.

(6) *Other activities.* These are program activities which do not fit into any of the above categories, including, but not limited to, the following:

V39—108 JUN 4 74 XUM

(i) Removal of artificial barriers to employment;

(ii) Job restructuring;

(iii) Revision or establishment of merit systems; and

(iv) Development and implementation of affirmative action plans.

§ 95.34 Training allowances.

(a) *The payment system.* To assure accountability and uniformity, and to facilitate the necessary coordination with other programs, the system for payment of allowances under the Act shall be maintained as a unified system (sec. 111(a)). In addition, the delivery system selected by the prime sponsor shall incorporate a procedure to obtain information concerning receipt of unemployment compensation by participants. The prime sponsor in selecting the delivery system for the payment of participant allowances should give consideration to the use of existing agencies which have experience in operating an allowance payment system. The payment system shall include the following elements:

(1) Determination of entitlement and computation of amount to be paid;

(2) Issuance and distribution of payments;

(3) Maintenance of payment records and preparation of required reports;

(4) Maintenance of a system to detect and collect overpayments; and

(5) Arrangements with other agencies to obtain necessary information to minimize duplication of unauthorized payments. This shall include arrangements with:

(i) The State employment security agency for verification of unemployment compensation benefits;

(ii) Local welfare agencies for verification of public assistance payments;

(iii) Training facilities for submittal of payment requests and certification of attendance; and

(iv) Other units of government for verification of training allowances under other Federal, State or local programs.

(b) *Selection of delivery agent.* The prime sponsor is required to provide a unified allowance payment system either directly or through contract with an organization it considers appropriate for its particular circumstances. The prime sponsor may want to give consideration to the Unemployment Insurance Service when selecting the delivery agent for allowance payments.

(c) *Eligibility for allowances.* Allowances may be paid to participants receiving classroom training, work experience or education under Title I of the Act.

(d) *Application for unemployment compensation.* Participants should be encouraged to apply for unemployment compensation benefits if they are not already receiving such benefits.

(e) *Basic allowances.* Basic allowances for one week, when added to unemployment compensation payments, if any, shall equal whichever is the highest of:

(1) The minimum wage prescribed by State or local law for employment in the prime sponsor's area; or

(2) The minimum hourly wage set out under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended, multiplied by the number of hours of training, in which the trainee attends as required, or is absent for good cause; provided that for the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific, the provisions of the Fair Labor Standards applicable to those areas shall pertain.

(f) *Dependents allowances.* Basic allowances shall be increased by $5 per week for each dependent over two, up to a maximum of four additional dependents, for a total maximum basic allowance increase of $20 for six or more dependents.

(g) *Incentive allowances for persons receiving public assistance or who are in institutions.* (1) Incentive allowances, at the rate of $30 per week, are in lieu of basic allowances and shall be paid to participants receiving public assistance or whose needs or income are taken into account in determining such public assistance payments to others. Such allowances shall be disregarded in determining the amount of public assistance payments individuals are entitled to receive under Federal or federally assisted public assistance programs (sec. 111(a)).

(2) Incentive allowances, in lieu of basic allowances, but not in excess of such allowances, may be paid institutionalized persons, including prison inmates participating in program activities. The determination as to whether such allowances will be paid, and the amounts thereof, shall be made by the prime sponsor in consultation with officials of the institutions. In the case of prison inmates, all or part of such payments, as determined by the prime sponsor and the head of the institution, may be held in reserve and delivered upon the participant's release from the institution.

(h) *Additional allowances.* Additional reasonable allowances may be provided to participants in any program activity for meals, travel, transportation, subsistence, emergency, and other purposes.

(i) *Adjustments in allowances.* (1) No allowance to which an individual may otherwise be entitled shall be diminished in any respect because of receipt of a separation payment provided under any collective bargaining agreement.

(2) An individual's allowance may be adjusted upward to the degree that the local cost of living exceeds the national norm, as approved by the ARDM.

(3) Allowances may be reduced pro rata for part-time participation in any activity under Title I.

(4) Payment of participant allowances may be reduced pro rata for absence without good cause.

(5) Periodic increases may be provided as an incentive to participation.

(j) *Waivers of allowance payments.* (1) The payment of all or part of the basic weekly allowance described in this section, except for allowances under paragraph (g)(1) of this section, may be waived for all participants in a specific course or project under conditions described in the approved comprehensive manpower plan in accordance with paragraph (j)(2) of this section. In exceptional circumstances, individual waivers may be granted with agreement of the participant.

(2) The criteria for a waiver of allowance payments, as provided in paragraph (j)(1), of this section are as follows:

(i) The waiver will increase the number of individuals which may be served and otherwise promote the purposes of the Act.

(ii) Such waiver will be applied to the total enrollment in the course or project and will not be imposed on an individual basis, except as provided in paragraph (j)(1) of this section.

(3) The prime sponsor will notify in writing affected participants in cases of such waivers.

(k) *Repayments.* Prime sponsors may require participants to repay the amount of any overpayment of allowances under this part. Any overpayment not repaid may be set off against any future allowance or other benefits under the Act to which the participant may become entitled. Where the overpayment was made in the absence of fault on the part of the participant, repayment shall be waived where such recovery would be against equity and good conscience or would otherwise defeat the purposes of the program.

§ 95.35 Wages; minimum duration of training and reasonable expectation of employment.

(a) *Wages.* (1) Participants in public service employment programs shall be paid wages as required by Part 96 of these regulations.

(2) Participants in work experience who receive wages shall be paid wages as required by § 95.33(d)(4)(vi).

(3) Participants in on-the-job training shall be compensated by the employer at such rates, including periodic increases, as are reasonable considering such factors as industry, geographical region, and trainee proficiency (sec. 111(b)). In no event shall the rate be less than the highest of the following:

(i) The minimum wage rate specified in section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended;

(ii) The State or local minimum wage for the most nearly comparable covered employment;

(iii) The prevailing rates of pay for persons employed in similar occupations by the same employer; or

(iv) The minimum entrance rate for inexperienced workers in the same occupation in the establishment or, if the occupation is new to the establishment, the prevailing entrance rate for the occupation among other establishments in the community or area or, any minimum rate required by an applicable collective bargaining agreement.

(4) For hours spent in the production of goods or services, the rate of compensation to be paid to trainees by employers, public or private, shall be specified in a written agreement entered into by the training or employing facility and the prime sponsor.

(5) Wages in the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific shall be consistent with applicable provisions of the Fair Labor Standards Act of 1938, as amended.

(b) *Duration of training.* An individual shall not be referred for training in an occupation which requires less than two weeks of preemployment training unless there are immediate employment opportunities available in that occupation (sec. 603(8)). Furthermore, no allowances will be paid for any course having a duration in excess of 104 weeks (sec. 111(a)).

(c) *Reasonable expectation of employment.* An individual shall not be referred to training unless the prime sponsor determines, after utilizing available and appropriate community resources, that there is a reasonable expectation of employment for such an individual in the occupation for which the person is being trained (sec. 603(10)).

§ 95.36 General benefits for program participants.

Each participant in a training or employment program under Title I of the Act shall be assured of appropriate workmen's compensation (sec. 603(6)). Each participant in an on-the-job training or public service employment program under Title I of the Act shall be assured of health insurance, unemployment insurance, retirement benefits (except as indicated in § 96.36) and other benefits at the same levels and to the same extent as other employees in the employment situation, and to working conditions and promotional opportunities neither more nor less favorable than such other employees enjoy (secs. 208(a)(4) and 603(5)).

§ 95.37 Prime sponsor review.

Each prime sponsor shall establish a procedure for resolving any issue arising between it and a participant under any Title of the Act. Such procedures shall include an opportunity for an informal hearing, and a prompt determination of any issue which has not been resolved. When the prime sponsor proposes to take an adverse action against a participant, such procedures shall also include a notice setting forth the grounds for any adverse action proposed to be taken by the prime sponsor and giving the participant an opportunity to respond. No individual subject to the issue resolution requirements of this section may initiate the hearing procedures of Part 98 until all remedies under this section have been exhausted. Final determinations made as a result of the review process shall be provided to the participant in writing. Such notice shall include the procedures by which the participant may appeal the final determination, as set forth in Subpart C of Part 98.

§ 95.38 Non-Federal status of participants.

Participants in a program under Title I shall not be deemed Federal employees for any purpose including Federal tort claims and shall not be subject to the provisions of law relating to Federal employment, including those relating to hours of work, rates of compensation, leave, unemployment compensation, and Federal employment benefits.

§ 95.39 Safety and health requirements for participants.

Participants shall not be required or permitted to work, be trained, or receive services in buildings or surroundings or under conditions which are unsanitary or hazardous or dangerous to their safety or health. In the case of participants employed or trained for jobs which are inherently dangerous (e.g., fire or police jobs), participants will be assigned in accordance with appropriate health and safety practices (sec. 603(5)).

§ 95.40 Training for lower wage industries; relocation of industries.

No participant may be enrolled in any activity or service under this Act in any lower wage industry in jobs where prior skill or training is typically not a prerequisite to hiring and where labor turnover is high, nor may any authority conferred by this Act be used to assist in any relocation of an establishment from one area to another unless the Secretary determines that such relocation will not result in an increase in unemployment in the area of original location or any other area where it conducts business operations (sec. 604(a)).

§ 95.41 Prime sponsor contracts and subgrants.

(a) *Contracts.* Contracts may be entered into between the prime sponsor and any party, public or private, for purposes set forth in an approved Comprehensive Manpower Plan.

(b) *Subgrants.* Subgrants may be entered into only between the prime sponsor and units of State and local general government, public agencies and nonprofit organizations.

(c) *Prime sponsor responsibility for development, approval and operation of contracts and subgrants.* The prime sponsor is responsible for development, approval and operation of all contracts and subgrants and shall require that its contractors and subgrantees adhere to the requirements of the Act, regulations promulgated under the Act, and other applicable law. It shall require contractors and subgrantees to maintain effective control and accountability over all funds, property and other assets covered by the contract or subgrant (sec. 105(a)(1)(B)).

(d) *Cancellation.* If a contractor or subgrantee does not comply with any requirement of the Act, the regulations promulgated under the Act, and other applicable law, the prime sponsor shall cancel the contract or subgrant. The prime sponsor may cancel for noncompliance with additional conditions established by the prime sponsor for the contract or subgrant.

(e) *Continuity of service when contract or subgrant is cancelled.* If a contract or subgrant is cancelled, the prime sponsor shall develop procedures for assuring continuity of service to participants and provide adequate notice to affected staff of the change (sec. 105(a)(1)(B)).

(f) *Contracts and subgrants extending beyond the term of the grant.* The nature of certain training programs may make it necessary for contracts or subgrants to be entered into by the prime sponsor which will extend beyond the term of the grant under the Act. The prime sponsor is authorized to enter into contracts or subgrants which extend past the termination date of the grant but such extension shall not exceed one year and shall be subject to the provisions of § 98.15 and § 98.16. In such cases, the grantee shall continue to be responsible for the administration of such contracts and subgrants.

§ 95.42 Cooperative relationship between prime sponsor and other manpower agencies.

(a) Each prime sponsor shall, to the extent feasible, establish cooperative relationships or linkages with other manpower and manpower-related agencies in the area within its jurisdiction, in particular, with agencies operating programs funded through the Department (sec. 105(a)(3)(D)).

(b) Prime sponsors shall, to the extent feasible, notify the appropriate apprenticeship agency of training activities in apprenticeable occupations (sec. 105(a)(3)(D)).

(c) Any prime sponsor which intends to provide services under the Act to recipients of Aid to Families with Dependent Children (AFDC) should coordinate such services with the local sponsor of the Work Incentive Program, if any, to assure that the delivery of services under this Act is consistent with the WIN requirements. The provision of comprehensive manpower services to recipients of AFDC who are required to register for the WIN program may be affected by provisions of Title IV of the Social Security Act. Limitations on length of training, requirements to accept work in lieu of training, and other regulatory requirements may affect the AFDC recipient's participation in programs under the Act.

Subpart D—Special Grants to Governors

§ 95.50 General.

(a) Funds shall be allocated to each State through a special grant for the support of:

(1) Vocational education services for prime sponsors;

(2) The State Manpower Services Council; and

(3) State manpower services.

(b) Funds available under paragraph (a) of this section shall be granted to each Governor in accordance with the formula allocation set out in § 95.2 of these regulations. Each Governor shall distribute these funds as provided in § 95.55 (secs. 103, 106, 107, and 112).

(c) Provisions generally applicable in these regulations shall apply to special

V39—108 JUN 4 74 XUM

grants under this subpart unless otherwise provided.

§ 95.51 Distribution of funds.

(a) Five percent of the funds available under Title I of the Act shall be allocated to the Governors of the States to provide needed vocational education services for prime sponsors through State Vocational Education Boards as set out in § 95.2. These services are to be provided to participants under Title I of the Act.

(b) State Manpower Services Councils shall be supported with funds as set forth in § 95.2(b)(2).

(c) State manpower services provided under section 106 of the Act shall be funded as set forth in § 95.2(c)(2).

§ 95.52 Grant application.

(a) Upon notification by the Secretary of the amount of funds available for a special grant to the State, the Governor shall submit a Special Grant Application to the ARDM on a date set by the Secretary. The ARDM shall determine whether the application shall be approved and shall notify the Governor of his determination.

(b) The Special Grant Application shall contain the following:

(1) *Application for Federal Assistance.* The form provided in OMB Circular A-102 for Part I of a grant application for nonconstruction projects is being used for the application for the special grant.

(2) *Special Grant Plan.* This plan consists of:

(i) *Special Grant Project Operating Plan.* This form will be used for the Special Grant to Governors. The POP for Special Grants is a multiprogram form providing for financial and statistical entries for vocational education projects channeled through the Governor's office, State Manpower Services Council activities, and State Manpower Services program activities. All of the three categories will be funded by one grant.

(ii) *Special Grant Program Narrative.* The narrative for the special grant will be composed of three separate sections as follows:

(A) *Vocational Education Services Program Narrative.* The program narrative contains *(1)* an explanation of the method used to allocate funds to prime sponsor areas and the rationale for the method used, (2) a summary of all agreements required in § 95.56 between individual prime sponsors and the Vocational Education Board and *(3)* a copy of each such agreement. The summary should follow the procedures established for the development of individual program narratives supporting each nonfinancial agreement. If all of the nonfinancial agreements are not available when the application is submitted, the Governor shall describe the training and services which he expects to be supplied by the Vocational Education Board to each prime sponsor. Nonfinancial agreements received after the grant is made will be forwarded to the ARDM.

(B) *State Manpower Services Council Program Narrative.* A description of the arrangements for the State Manpower Services Councils follows:

(1) A listing of members of the Council, identifying the group each member represents;

(2) Identification of the chairman;

(3) A statement of the procedures which will be followed in reviewing prime sponsor plans and making recommendations which will provide more effective overall coordination of manpower services in the State;

(4) A description of the system to be used in monitoring other prime sponsors and State manpower services;

(5) A description of the types of data, materials, and information which will be included in the annual report to the Governor;

(6) If the Governor plans to use part of the funds authorized for the Council under section 103(d) of the Act (one percent of the allocation) for section 106 (State services), the specific use of the funds shall also be described, including the amount and objectives to be accomplished.

(C) *State Manpower Services Program Narrative.* The narrative for this part will provide a specific description for each activity, the planned costs, and the planned results. The Program Narrative Description form contained in the Forms Preparation Handbook requires a detailed statement on the program including the following items:

(1) Explanation of steps taken to assure cooperation of State agencies with prime sponsors in implementing the program;

(2) Description of State plan for sharing of manpower resources and facilities for most efficient and economical operation;

(3) Coordination of programs financed under Wagner-Peyser Act to provide assistance to individuals in accordance with policies of this Act;

(4) An explanation of the arrangements made by the State to assist the Secretary under 38 U.S.C. 2012(a) in requiring each contractor, and subcontractor in Title I programs under the Act to list all suitable employment openings in State Employment Service local offices. Fulfillment of this responsibility shall be based upon information developed by the Secretary (sec. 106(b)(5));

(5) Description of any arrangements for planning areas to serve geographical regions within the State;

(6) Description of provisions for coordination of the manpower and related services to be provided by the State in areas to be served by prime sponsors other than the State, including the exchange of information and coordination of manpower plans;

(7) A description of any of the activities allowable under section 106(c) of the Act, that the State chooses to provide, detailing those activities to be undertaken and the costs and goals of such activities, including:

(i) A description of allowable services being delivered under the Act throughout the State, by State agencies responsible for employment, training, and related services (sec. 106(c)(1));

(ii) A description of special programs and services for rural areas outside major labor market areas (sec. 106(c)(2));

(iii) A description of the extent to which information will be developed and published regarding economic, industrial, and labor market conditions;

(iv) A description of information and technical assistance to be provided to prime sponsors in the State; and

(v) A description of any model training and employment programs.

(iii) *Assurances and certifications.* The assurances and certifications form applicable to Title I and Title II grants will be included in the special grant application and agreement.

§ 95.53 Application approval and disapproval; grant agreement.

(a) The ARDM shall approve any grant application which meets the following standards and requirements:

(1) It contains all the required forms, information, and certifications required by the regulations; and

(2) It meets the conditions for approval of grant applications under Subpart B of this Part 95.

(b) A special grant agreement shall be signed when the grant application is approved by the ARDM. This agreement is composed of a Special Grant Signature Sheet and an Assurances and Certifications Form and the special Grant Plan which is included by reference. The special Grant Plan shall be attached to the grant agreement.

(c) An application for a special grant shall be disapproved if it fails to meet any requirement of the Act, the regulations promulgated under the Act, or any other applicable law. All other conditions set forth in § 95.19 shall apply to the disapproval of special grants.

(d) Upon approval, the Governor shall provide a summary of the Special Grant to each prime sponsor in the State.

§ 95.54 Modifications; limitations on use of funds.

A modification to a Governor's special grant may be accomplished in three different ways depending upon the magnitude of the modification:

(a) *Modification of grant agreement.* (1) The Grant Signature Sheet shall be used as the instrument to modify an existing grant agreement when there is a change in (i) the term of the grant, (ii) the amount funded by the grant, or (iii) the assurances and certifications included in the grant agreement. All modifications of the grant agreement are major modifications (secs. 105 and 108).

(2) When the term or amount funded by the grant is changed, the prime sponsor shall also submit revised portions of its special Grant Plan to specifically identify the changes.

(3) When the term or amount funded by a grant is changed, the Governor shall provide a summary of the change to each prime sponsor in the State.

(4) The request for modification will consist of the following: a grant signature sheet; a Project Operating Plan (one for the total project and one for each prime sponsor whose plan is changed); and a program narrative justifying the proposed modification.

(5) A denial of a prime sponsor's request for a grant modification shall be subject to the appeal procedures set out in Part 98.

(b) *Major plan modification.* (1) When a plan modification falls into one of the following categories, it will be considered to be major plan modification:

(i) When the cumulative amount of transfers among cost categories exceeds $10,000 or 5 percent of the grant, whichever is greater; or

(ii) When there is a 15 percent cumulative change in the number of program participants.

(iii) A Governor desiring a major modification shall submit a revised Project Operating Plan and a narrative explanation of the proposed changes to the ARDM. The ARDM shall notify the prime sponsor of final approval or of tentative disapproval within 10 days of receipt of the proposed modification. Final ARDM action on disapproval shall be taken within 30 days of the receipt of the proposed modification. Appeal of any such determination may be obtained through the procedures set out in Part 98 of the regulations.

(c) *Minor Modifications.* Any other modifications shall be considered a minor modification and as such can be made without the prior notification and approval of the ARDM. Such a modification shall be included in the Quarterly Progress Report and a revised Project Operating Plan reflecting only the items to be modified.

(d) *Limitation on use of funds.* (1) Funds for vocational education services may not be used for any other activities included in this special grant.

(2) Funds for State Manpower Services Councils may be used for State manpower services to the extent such funds are not needed for this council.

§ 95.55 Governor's distribution of vocational education funds.

(a) Upon notification of the funds available to his State for vocational education, the Governor shall inform the Vocational Education Board and each prime sponsor of the amount of funds available to be spent in each prime sponsor's area. If a prime sponsor elects not to use all or part of the funds provided for its area, it shall notify the Governor who will redistribute the funds among other eligible prime sponsors.

(b) The Governor shall determine the amount of funds to be made available in each prime sponsor's area assuring that such funds do not increase by more than 20 percent the amount of funds available to that prime sponsor's area under the basic allocation formula set out in § 95.2(b).

§ 95.56 Program operations.

(a) *Vocational education services and activities.* (1) The Governor shall provide vocational education funds he receives by special grant to the State Vocational Education Board as described in § 95.55 of this Subpart D. The State Vocational Education Board will then provide the training and services detailed in a nonfinancial agreement with the prime sponsor as described in § 95.58 of this Subpart D. This agreement will be developed at the local level between prime sponsors and the Vocational Education Board to provide vocational education services and activities to prime sponsor participants eligible under this Part 95. The agreement will then be forwarded to the Governor, to become part of his special grant application which shall be submitted to the ARDM.

(2) Vocational education services which may be provided by a State Vocational Education Board include, but are not limited to, basic or general education, educational programs conducted for offenders, institutional training, and supportive services. The services provided must be consistent with the provisions of the Act and regulations.

(3) If no Vocational Education Board exists within a State, the Governor may provide financial assistance to an alternate agency which serves the same purpose as a State Vocational Education Board.

(b) *State Manpower Services Council.* The Governor shall, from funds available under § 95.2(b)(2), provide staff and other necessary services in support of the Manpower Services Council in performing its functions under § 95.13(d).

(c) *State manpower services.* Funds provided under § 95.2(c)(2) of these regulations are to be used for the following:

(1) Activities required to be performed by State prime sponsors:

(i) Assurance that the State agencies providing manpower and manpower-related services either independently or as subgrantees or contractors will cooperate with prime sponsors and eligible applicants in implementation of the program.

(ii) Development of methods for the sharing of resources and facilities in order to carry out manpower programs throughout the State. The administration of such programs will be designed to meet the needs of the area with minimum duplication and in the most efficient and economical manner.

(iii) Coordination of programs financed under the Wagner-Peyser Act in accordance with such rules, regulations, and guidelines as the Secretary determines necessary for the purpose of providing coordinated and comprehensive assistance to those individuals requiring manpower and manpower-related services to achieve their full occupational potential in accordance with the policies of the Act;

(iv) Arrangements to assist the Secretary under 38 U.S.C. 2012(a) in requiring each contractor and subcontractor in Title I programs under the Act to list all suitable employment openings in the State Employment Service local offices. Fulfillment of this responsibility shall be based upon information developed by the Secretary (sec. 106(b)(5));

(v) Arrangements for planning areas to service geographical regions within the State, including a description of the roles and responsibilities of the planning area with particular emphasis on the steps taken to assure that plans of all State agencies for delivery of services have been effectively coordinated.

(vi) Coordination of the manpower and related services to be provided by the State in areas to be serviced by prime sponsors other than the State, and that provision has been made for the establishment of mechanisms to (A) provide for the exchange of information between States and local governments on State, intrastate, and regional planning in areas such as economic development, human resource development, education, and such other areas that may be relevant to manpower planning; and (B) promote the coordination of all manpower plans in a State so as to eliminate conflict, duplication, and overlapping between manpower services under the Act and manpower services provided under other statutory authority.

(2) Activities which may be provided at the option of the State (sec. 106(c)) as follows:

(i) Provision of allowable services under the Act which are being delivered throughout the State by State agencies responsible for employment and training and related services;

(ii) The provision of financial assistance for special programs and services designed to meet the needs of rural areas outside major labor market areas;

(iii) Development and publication of information regarding economic, industrial, and labor market conditions, including but not limited to job opportunities and skill requirements, labor supply in various skills, occupations, and economic and business development and location trends:

(iv) Provision of services without reimbursement and upon request to any prime sponsor serving an area within the State, such information and technical assistance to assist any such prime sponsor in developing and implementing its programs under the Act; and

(v) Development of special model training and employment programs and related services, including programs for offenders similar to programs described in section 301(c) of this Act.

§ 95.57 Funding; grant administration.

(a) *Funding.* Special grants will be funded in the same way as basic grants under this Part 95.

(b) *Grant administration.* The requirements relating to grant administration contained in Part 98 are applicable to special grants to Governors, except as provided in Subpart D of Part 95.

(1) The overall 20 percent limitation on funds used for administration as set out in § 98.12(e)(1) shall not apply to the special grant.

V39—108 JUN 4 74 XUM

(i) Funds provided for vocational education services through the special grant are subject to the provisions of the 20 percent limitation on use of funds § 98.12(e)(1).

(ii) There is no administrative cost limitation on funds for State Manpower Services Councils or State manpower services.

(2) When funds for vocational education services are used for the payment of allowances to participants, the method of payment utilized must be that of the prime sponsor whose participants are receiving such allowances.

(i) Where the prime sponsor has an established delivery system for the payment of allowances pursuant to § 95.34, the Vocational Education Board shall transfer the required funds to the agency administering that system.

(ii) Where the prime sponsor has no allowance payment delivery system, the method of payment shall be developed between the prime sponsor and the Vocational Education Board, subject to the requirements of § 95.34.

(c) *Reports for special grants.* (1) A Quarterly Progress Report containing financial and statistical data is required. The Governor will supply to each prime sponsor to which he is providing services a Quarterly Progress Report for funds expended in its area and will submit a summary Quarterly Progress Report, with copies of the individual prime sponsor reports attached, to the ARDM. These reports will be submitted for each Federal fiscal year quarter, to be submitted no later than 30 days after the end of the reporting quarter. Instructions for completion of this report are in the Forms Preparation Handbook.

§ 95.58 Nonfinancial agreement between prime sponsor and Vocational Education Board.

(a) Upon notification of the funds available for its area, the prime sponsor shall develop a financial, statistical, and narrative plan for the expenditure of such funds by the Vocational Education Board in the prime sponsor's area. This plan shall be developed consistent with the prime sponsor's Comprehensive Manpower Plan and shall be submitted to the Vocational Education Board for its approval. When approved, the plan will be signed by both the prime sponsor and the Board and will constitute a nonfinancial agreement.

(b) The Vocational Education Board shall provide services to the prime sponsor upon receipt of the necessary funds from the Governor. The nonfinancial agreement will consist of the following three sections:

(1) Prime sponsor vocational education nonfinancial agreement signature sheet;

(2) Vocational education Project Operating Plan; and

(3) Vocational education program narrative.

(c) After the agreement is signed, a copy will be sent to the Governor for his review and approval.

(d) The Governor shall develop procedures for the prime sponsors and the Vocational Education Board to follow when they desire to modify the nonfinancial agreement.

(e) The Governor shall develop procedures to assure that the Vocational Education Board provides services consistent with the Governor's vocational education plan and the nonfinancial agreements between the Board and the prime sponsors.

§ 95.59 Coordination with prime sponsor.

(a) The financial and statistical information from the approved Nonfinancial Agreement Project Operating Plan will be entered into the relevant columns of the prime sponsor's basic grant Project Operating Plan as provided in the Forms Preparation Handbook. If the Comprehensive Manpower grant has been signed prior to final approval of the Vocational Education Agreement, a modified prime sponsor's grant Project Operating Plan will be submitted when the vocational education information is available.

(b) Information provided by the Vocational Education Quarterly Progress Report, supplied to the prime sponsor from the Governor, will be entered in the prime sponsor's basic grant Quarterly Progress Report.

PART 96—PROGRAMS UNDER TITLE II OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Subpart A—General

Sec.

96.1 Scope and purpose.
96.2 Allocation of funds.
96.3 Eligibility for funds.

Subpart B—Grant Application

96.10 General.
96.11 Eligible applicant notification.
96.12 Content and description of grant application.
96.13 Comment and publication procedures relating to submission of grant application.
96.14 Submission of grant application.
96.15 Application approval.
96.16 Application disapproval.
96.17 Use of alternative eligible applicants.
96.18 Modification of grant agreements.
96.19 Modification of Comprehensive Title II Plan.

Subpart C—Program Operation

96.20 General.
96.21 Basic responsibilities of eligible applicants.
96.22 Basic responsibilities of program agents; relationship with eligible applicants.
96.23 Acceptable public employment positions.
96.24 Maintenance of effort.
96.25 Responsibility for selecting participants.
96.26 Special limitations on programs and participant selection.
96.27 Eligibility for participation in a Title II Program.
96.28 Special consideration for most severely disadvantaged persons.
96.29 Serving significant segments of the population.
96.30 Groups to be provided special consideration.
96.31 Training and supportive services.
96.32 Linkages with other manpower programs.
Sec.
96.33 Placement goals.
96.34 Compensation for participants.
96.35 Working conditions for participants.
96.36 Retirement benefits for participants.
96.37 Use of Title II funds for programs under Titles I and III–A; summer employment program.
96.38 Limitation on funds.

Subpart D—Special Conditions for Grants to Indians Tribes on Federal and State Reservations

96.40 General.
96.41 Distribution of funds.
96.42 Eligibility for funds.
96.43 Assistance by the Secretary.
96.44 Nepotism.
96.45 Nondiscrimination.
96.46 Subgrants.
96.47 Comment and publication procedures relating to submission of Indian grant applications.

AUTHORITY: Comprehensive Employment and Training Act of 1973 (Pub. L. 93-203, sec. 602(a), 87 Stat. 839), unless otherwise noted.

Subpart A—General

(a) This part contains the Department of Labor's regulations providing for the establishment and operation of public service employment programs, and other manpower programs, under Title II of the Act.

(b) Definitions for every abbreviation and major term may be found in Part 94 of these regulations.

(c) Statutory authority for the regulations contained in this part is found in the provisions of section 602(a) of the Act, and in such other provisions of the Act as are noted at the end of each substantive provision of these regulations.

§ 96.2 Allocation of funds.

(a) Funds appropriated under Title II of the Act are available only for areas of substantial unemployment and may be allocated by the Secretary only to eligible applicants (secs. 204(a) and 204(c)).

(b)(1) At least 80 percent of the funds available under Title II shall be allocated among eligible applicants in accordance with a ratio comparing the number of unemployed persons residing in areas of substantial unemployment within each eligible applicant's jurisdiction to the number of unemployed persons residing in all areas of substantial unemployment (sec. 202(a)).

(2) Funds not allocated as provided in paragraph (b)(1) of this section, may be distributed by the Secretary at his discretion taking into account the severity of unemployment in such areas and may include additional areas of substantial unemployment designated by the Secretary after the initial allocation of Title II funds (sec. 202(b)).

(c) An eligible applicant shall distribute to a program agent those funds that are allotted to the elegible applicant due to the level of unemployment within the program agent's jurisdiction, unless the program agent declines to operate a program under Title II of the Act, in which case, the eligible applicant will make other arrangements to serve that jurisdiction (sec. 204(d)(1)).

---

§ 96.3 Eligibility for funds.

(a) Funds shall be allocated by the Secretary only to eligible applicants. Eligible applicants are those prime sponsors and Indian tribes on Federal or State reservations, as defined in § 94.4, which include areas of substantial unemployment (sec. 204(a)).

(b) For the purpose of allocating funds, the term "eligible applicant" shall include any entity which is eligible to be a prime sponsor under Title I of the Act and Indian tribes on Federal or State reservations as described in § 96.42 (sec. 204(b)).

(c) A State shall not qualify as an eligible applicant for any geographical area within the jurisdiction of any other eligible applicant within the State unless the non-State eligible applicant has not submitted an approvable application for Title II funds (secs. 204(d)(3) and 102(b)(1,2)).

(d) A unit of general local government shall not qualify as an eligible applicant with respect to any area within the jurisdiction of another eligible unit of general local government unless such smaller unit has not submitted an approvable application for such areas (secs. 204(b) and 102(b)(2)).

(e) (1) Eligible applicants shall distribute funds to program agents, as provided in § 96.2(c) of this Part 96 (sec. 204(d)(1)).

(2) No program agent shall receive or continue to receive funds for any area of substantial unemployment within the jurisdiction of another program agent unless the ARDM determines that the smaller program agent has not carried out its administrative responsibility for developing, funding, overseeing, and monitoring programs within its area, consistent with the application for financial assistance developed by the eligible applicant (secs. 204(d)(3) and 102(b)(2)).

(f)(1) An eligible applicant or program agent, other than a State, whose entire jurisdiction qualifies as an area of substantial unemployment shall, to the extent feasible, allocate funds for identifiable subareas which meet the unemployment rate requirement of areas of substantial unemployment in § 94.4. Such allocation to subareas shall be based on the ratio of the number unemployed persons residing in each subarea to the total number of unemployed persons within the eligible applicant or program agent's jurisdiction.

(2) Where the eligible applicant is a State that has an unemployment rate for its jurisdiction of at least 6.5 percent, the State shall, to the extent feasible, allocate its funds under Title II to individual areas of substantial unemployment within its jurisdiction. Such allocations shall be based on the ratio of the number of unemployed persons residing in each individual area of substantial unemployment to the sum of unemployed persons residing in all such areas of substantial unemployment within its jurisdiction.

(g) If an eligible applicant finds that there is an area of substantial unemployment within its jurisdiction that has not been designated by the Secretary to receive assistance, it may recommend that such area be considered for assistance by the Secretary. In making any such recommendation, the eligible applicant must include a precise geographical definition of the area to be served and its population. Such a recommendation shall be submitted to the ARDM. The Secretary shall, within a reasonable time, make a determination of the recommendation and inform the eligible applicant of the determination and the reasons therefor.

Subpart B—Grant Application

§ 96.10 General.

This Subpart B provides the procedures for obtaining grants to operate programs under Title II of the Act.

§ 96.11 Eligible applicant notification.

(a) Eligible applicants shall be notified of their eligibility for grants under Title II. At that time, eligible applicants shall inform the ARDM, the Governor, and the appropriate State and substate clearinghouse(s), as provided in OMB Circular A–95, of its intention to apply for a grant. If a potentially eligible applicant desires to apply for a grant and so notifies the ARDM and is so designated as eligible, a complete application package with forms and instructions will be forwarded to the eligible applicant.

(b) For Fiscal Year 1974 grants, eligible applicants shall follow procedures contained in the "Announcement of Proposed Financial Assistance and Request for Notice of Intent to Apply for Prime Sponsorship" published at 39 FR 2743, January 23, 1974.

§ 96.12 Content and description of grant application.

(a) *General.* (1) This section describes the grant application which eligible applicants will use to apply for public service employment funds under Title II of the Act.

(2) A copy of all forms and instructions are contained in the Form Preparation Handbook.

(b) *Grant application forms.*

(1) *Application for Federal assistance.* The application for Federal assistance identifies the eligible applicant and the amount of funds requested; it provides information concerning the area to be served and the number of people expected to benefit from the program. The form provided in OMB Circular A–102 for Part I of a grant application for nonconstruction is being used.

(2) *The Comprehensive Title II Plan.* The Comprehensive Title II Plan is a statement of how the eligible applicant intends to use Title II funds within its jurisdiction. The Comprehensive Title II Plan consists of the Narrative Description of the Program, the Project Operating Plan and the Program and Occupational Summaries for Public Service Employment, all described below.

(i) *Narrative Description of Program.* The Narrative Description of the Program provides for a narrative outline of the proposed program under Title II. The Narrative Description of the program requires a detailed statement of the program including topics listed below. The Forms Preparation Handbook gives detailed instructions for these and other items on the Narrative Description of the program:

(A) Program objectives; (B) need for assistance; (C) results and benefits expected; (D) approach; (E) geographic area served; (F) a description of title I and II activities to be financed by title II funds (G) the methods, based solely on the criteria estabilshed by these regulations, which were used by the eligible applicant in making determinations under § 96.3(f); and (H) description of the strategy for matching jobs to special veterans.

(ii) *Project Operating Plan.* The Project Operating Plan requires a prime sponsor to provide a quantitative statement of planned expenditures, enrollment levels, and outcomes for program participants. It also requires a prime sponsor to indicate planned expenditures by cost category and by program activity.

(iii) *Public Service Employment Occupational Summary.* The Occupational Summary requires a prime sponsor operating a public service employment program under the Act to provide a description of proposed job opportunities, occupations and wages, including a comparison of such wages with wages for similar nonsubsidized jobs in the employing agency.

(iv) *Public Service Employment Program Summary.* The Program Summary presents a distribution of public service employment jobs, and funds to be provided to eligible applicants and subgrantees. It designates the areas to be served and the population of each area.

(v) *Assurances and Certifications.* The Assurances and Certifications form is a signature sheet on which the eligible applicant assures and certifies that it will comply with the Act, the regulations of the Department, other applicable laws, and applicable circulars from the Office of Management and Budget (OMB) and the General Services Administration (GSA). The Assurances and Certifications form is contained in the Forms Preparation Handbook.

§ 96.13 Comment and publication procedures relating to submission of grant application.

(a) For Fiscal Years 1974 and 1975, each eligible applicant that plans to apply for a grant shall, no later than the date of its submission of an application to the ARDM, provide an opportunity to comment on its application to the following:

(1) The Governor;

(2) Officials of appropriate units of general local government within the eligible applicant's jurisdiction;

(3) Appropriate State and sub-state A–95 clearinghouse(s);

(4) Officials of labor organizations representing employees who are engaged in similar work in the same areas as that proposed to be performed by the eligible

V 39 — 108 JUN 4 74 XUM

applicant (sec. 206). For Fiscal Year 1976 and subsequent years, each eligible applicant shall provide for a 30-day comment period as set forth in § 95.15 of Part 95.

(b)(1) Each eligible applicant shall provide a copy of its application, for the purpose of commenting thereon, to the Governor, and the State and appropriate sub-state A–95 clearinghouse(s). It shall also provide a summary to appropriate units of general local government with a population of at least 10,000 persons, appropriate Indian prime sponsors and officials of appropriate labor organizations described in paragraph (a)(4). Units of general local government with a population of less than 10,000 persons may comment through the publication procedure set out in paragraph (c).

(2) For applications under Title II for Fiscal Years 1974 and 1975, the copy sent to the clearinghouse(s) shall be accompanied by the following statement: Due to the time constraints on implementation of Titles I and II of the Comprehensive Employment and Training Act of 1973, the program plan(s) required by section 205 of the Act is (are) being submitted to the clearinghouse(s) and the Department of Labor simultaneously. Clearinghouses are requested to forward any comments directly to the Assistant Regional Director for Manpower. This review and comment procedure has been approved by the Office of Management and Budget only for Fiscal Year 1974 title II and Fiscal Year 1975 titles I and II program approval cycles."

(c) Each eligible applicant shall publish its program summary in a newspaper or newspapers (including minority newspapers, where feasible) which will provide for general circulation throughout the areas to be served by the eligible applicant's plan. Such publication shall be for 3 consecutive issues and shall include an address and appropriate hours when the complete grant application will be available for review and the place where comments may be directed. The publication shall be made 30 days prior to the submission of the application to the ARDM, except that for Fiscal Years 1974 and 1975 the publication shall be no later than the date of submission of the application to the ARDM.

(d) Comments pursuant to paragraphs (b) and (c) of this section shall be made to the eligible applicant and the ARDM within 30 days of publication.

(e) The eligible applicant shall acknowledge any comment made pursuant to this section. It shall inform any party submitting a substantive comment of whether any plan revision will be made in response to the comment and the reasons for the eligible applicant's determination. All substantive comments and responses will be transmitted to the ARDM with the grant application, unless the comments are received after the application's submission, in which case they will be sent separately to the ARDM and the prime sponsor.

§ 96.14 Submission of grant application.

(a) Each eligible applicant shall submit its grant application to the ARDM on or before a date set by the Secretary.

(b) A grant application shall include all items set out in § 96.12 of this Part 96.

§ 96.15 Application approval.

(a) An application for a grant shall be approved if it meets the requirement of the Act, other applicable law, and the regulations promulgated in this Part 96 (sec. 206).

(b) An eligible applicant and the Governor shall be notified of action taken on the application. If an application is approved, the ARDM shall provide a grant agreement to the eligible applicant consisting of the Grant Signature Sheet and the Assurances and Certifications Form. The Grant Signature Sheet specifies the amount of funds obligated by the Department and the term of the grant. It is signed by the ARDM and the eligible applicant. The Comprehensive Title II Plan is incorporated by reference in the grant agreement and will be attached to it.

§ 96.16 Application disapproval.

(a) An application for a grant shall be disapproved if it fails to meet any requirement of the Act, other applicable law or the regulations promulgated in this Part 96.

(b) No application for a grant shall be disapproved until:

(1) The eligible applicant has been notified that its application fails to meet a requirement of the Act, other applicable law, or the regulations promulgated under the Act.

(2) The eligible applicant has been provided with suggestions as to those corrective steps which may be utilized to remedy any defect found in the application; and

(3) An eligible applicant has been provided with a reasonable time, but not less than 30 days, to remedy any defect found in the application, but has failed to do so.

(c) When an application is disapproved, a notice of disapproval shall be transmitted to the eligible applicant and the Governor accompanied by a statement of the grounds for the disapproval. Such disapproval shall not be effective until notice and opportunity for a hearing has been provided, as required in Subpart C of Part 98.

§ 96.17 Use of alternative eligible applicants.

If an application is not filed, as required, or is denied, or if a grant is terminated in whole or in part during a fiscal year, the Secretary may make provision for the funds so released to be used by one or more alternative eligible applicants to serve the area originally to be served by the primary eligible applicant, or the Secretary may serve such an area directly. In so doing, the Secretary shall make every effort to minimive or prevent any disruption in participant activities.

§ 96.18 Modification of grant agreements.

(a) The Grant Signature Sheet shall be used as the instrument to modify an existing grant agreement when there is a change in (1) the term of the grant, (2) the amount funded by the grant, or (3) the assurances and certifications included in the grant agreement. All modifications to the grant agreement are major modifications.

(b) When the term or amount funded by the grant is changed, the eligible applicant shall also submit revised portions of its Comprehensive Title II Plan to specifically identify the changes.

(c) When a modification to a grant agreement is requested, the comments and publication procedures provided in § 96.13 shall be followed (sec. 206).

(d) A denial of a prime sponsor's request for a grant modification shall be subject to the appeals procedures set out in Part 98.

§ 96.19 Modification of Comprehensive Title II Plan.

(a) *General.* Eligible applicants may make two types of modifications to comprehensive Title II Plans: major and minor. An ARDM may require a modification in certain instances.

(b) *Major plan modification.* When a plan modification falls into one of the following categories it will be considered to be a major plan modification:

(1) For grants of $100,000 or less:

(i) When the cumulative transfer of funds among program activities or cost categories exceeds $5,000.

(ii) When the cumulative number of individuals to be served, planned enrollment levels for program activities, planned placement termination, or individuals to be served within significant client groups is to be increased or decreased by 15 percent or more.

(2) For grants of over $100,000:

(i) When the cumulative transfer of funds among program activities or cost categories exceeds $10,000 or 5 percent of the total grant budget whichever is greater.

(ii) When the cumulative number of individuals to be served, planned enrollment levels for program activities, planned placement terminations or individuals to be served within significant client groups is to be increased or decreased by 15 percent or more.

(3) An eligible applicant desiring a major modification shall submit a revised Project Operating Plan and a narrative explanation of the proposed changes to the ARDM. This modification will be forwarded for comment to the Governor and appropriate interested units of general local government and labor organizations as appropriate in accordance with procedures set forth in § 96.13, and published in a newspaper or newspapers of general circulation (including minority newspapers when feasible) in the eligible applicant's area. The ARDM shall notify the eligible applicant of final approval or of tentative disapproval within 10 days of the receipt of the proposed modification. Appeal of any such determination may be obtained through the procedures set out in Part 98 of this title.

(c) *Minor plan modification.* An eligible applicant may make any change in its Project Operating Plan which is not set out in paragraph (b) of this section without prior approval, but must show any such change in the first Quarterly Progress Report submitted to the Department after the change has been made. At the same time that this report is submitted, an updated Project Operating Plan will also be submitted. Only those lines and columns affected by the modification shall be shown.

(d) *Modification required by ARDM.* After consultation with an eligible applicant, modification may be required by the ARDM as necessary to assure compliance with the regulations and the Comprehensive Title II Plan.

Subpart C—Program Operation

§ 96.20 General.

This Subpart C sets out the program operation requirements for eligible applicants and subgrantees. The utilization of funds under Title II of the Act is conditioned upon adherence to the requirements of this subpart, as well as adherence to the Act, other applicable law, and other terms and conditions of the regulations promulgated in this part.

§ 96.21 Basic responsibilities of eligible applicants.

An eligible applicant is responsible for:

(a) Requesting, receiving and administering funds within its jurisdiction (secs. 203(a) and 205(c)(1));

(b) Allocating funds and jobs equitably among public agencies within its jurisdiction (sec. 205(c)(23));

(c) Developing a plan to effectively implement a program of transitional public employment and related training and manpower services (sec. 203(a));

(d) Developing, to the greatest extent possible, new careers and opportunities for career advancement for participants (sec. 205(c)(4));

(e) Performing reviews at 6-month intervals on the status of each participant to assure that the participant's job has potential for advancement or suitable continued employment (sec. 207(a));

(f) Administering or supervising all activities under its approved plan including the establishment of hearing procedures, as set out in § 95.37 of this Title, (sec. 205(c)(1));

(g) Assuring that the program will, to the extent feasible, contribute to the elimination of artificial barriers to employment and occupational advancement within its jurisdiction (sec. 205(c)(18)); and

(h) Assuring that employing agencies take reasonable measures to provide information about their job openings with the employment service (sec. 205(c)(5)).

§ 96.22 Basic responsibilities of program agents; relationship with eligible applicants.

(a) A program agent, as defined in § 94.4, shall be delegated by the eligible applicant the administrative responsibility for developing, funding, overseeing and monitoring programs with respect to the funds made available to it under Title II of the Act.

(b) A program agent shall carry out its functions consistent with the grant application developed by the eligible applicant in cooperation with the program agent and shall be responsible to the eligible applicant for carrying out its program in a manner consistent with the application (sec. 204(d)(2)).

(c) Irreconcilable differences between an eligible applicant and a program agent shall be submitted to the ARDM.

§ 96.23 Acceptable public employment positions.

(a) Funds provided under Title II shall only be used to fund public service needs which have not been met and to implement new public services (sec. 201).

(b) In developing job opportunities under this Part 96 the following requirements shall apply:

(1) The jobs provided must meet public service needs as defined in the Act and the regulations promulgated in this Part 96 (sec. 205(a));

(2) Program emphasis shall be on transitional employment: jobs which are likely to lead to regular, unsubsidized employment or opportunities for continued training (secs. 201 and 205(b)(4));

(3) Jobs shall be provided, to the extent feasible, in occupational fields which are most likely to expand within the public or private sector as the unemployment rate recedes (sec. 205(c)(6));

(4) Jobs shall be allocated equitably to agencies of State and local government and subdivisions thereof, such as educational agencies, within the eligible applicant's jurisdiction, taking into account the number of unemployed persons within each area, their needs and skill levels, the needs of the agencies, and the ratio of jobs in the area at each governmental level (sec. 205(c)(23);

(5) Jobs will not be "deadend," but will contribute to career advancement and the development of the employment potentials of participants. Opportunities for continued training are to be provided to support the upward mobility of participants (secs. 205(a), 205(c)(4), and 208(a)(6)).

(6) No more than one-third of the participants in any program may be employed in a bona fide professional capacity as defined in 29 CFR 541.3 issued pursuant to section 13(a)(1) of the Fair Labor Standards Act of 1938, as amended. The exception to this limitation is the hiring of classroom teachers. (Generally, according to the F.L.S.A., a professional is an individual (i) with a professional education, usually requiring more education than a Bachelor's degree or whose work is original and creative in an artistic field; (ii) at least 80 percent of whose work requires discretion and judgment and is intellectual in nature, and (iii) who earns at least $140 a week ($125 in Puerto Rico, Virgin Islands, or American Samoa). A less stringent test applies to individuals earning $200 or more a week. Lawyers, doctors and teachers working as such are professional without regard to their earnings (for further explanation see 29 CFR 541.3) (sec. 205(c)(22));

(7) The program excludes employment in building and highway construction work (except that which is normally performed by the prime sponsor or eligible applicant) and other work which inures primarily to the benefit of a private profit-making organization.

(8) Jobs in each job category shall in no way infringe upon the promotional opportunities which would otherwise be available to persons currently employed in public service jobs not subsidized under Title II (sec. 205(c)(24));

(9) No job will be filled in other than an entry level position in each job category until applicable personnel procedures and collective bargaining agreements have been complied with (sec. 205(c)(24); and

(10) To the extent feasible, the public services provided by the jobs should be designed to serve the residents of the areas of substantial unemployment out assistance under this title (sec. 205(c)(3)).

§ 96.24 Maintenance of effort.

(a) Employment funded under Title II of the Act shall only be in addition to employment which would otherwise be financed by the eligible applicant without assistance under this title (sec. 205(c)(25)).

(b) To assure maintenance of effort, a public service employment program under Title II of the Act:

(1) Shall result in an increase in employment opportunities over those which would otherwise be available;

(2) Shall not result in the displacement of currently employed workers, including partial displacement such as a reduction in hours of non-overtime work, wages, or employment benefits;

(3) Shall not impair existing contracts for service or result in the substitution of Federal funds for other funds in connection with work that would otherwise be performed; and

(4) Shall not substitute public service jobs for existing federally assisted jobs (sec. 208(a)(1)).

§ 96.25 Responsibility for selecting participants.

(a) Eligible applicants, program agents and other subgrantees, and employing agencies shall be responsible for the selection of participants. To meet this requirement, employing agencies must provide adequate documentation of each applicant's eligibility, and retain in the participant's folder the information on which this documentation of eligibility is based. Employing agencies shall also retain for a reasonable period of time the applications of persons not selected for

V 39 — 108 JUN 4 74 XUM

participation and the reasons for their non-selection (sec. 205(c)(2)).

(b) Adequate documentation shall consist of a signed, and dated, complete application for employment, including the last date of employment, which attests that the information the application contains is true, to the best of the eligible applicant's knowledge.

§ 96.26 Special limitations on programs and participant selection.

(a) *Place of residence*—(1) *General.* (i) At the time of both application and selection, program participants shall reside in an area of substantial unemployment within the jurisdiction of the eligible applicant or program agent (sec. 205(c)(3)).

(ii) When an eligible applicant receives additional funds as a subgrantee of an adjoining eligible applicant, the recipient eligible applicant shall use these additional funds to hire residents of the eligible area or areas within the donor eligible applicant's jurisdiction. A formal subgrant agreement shall be executed in such cases.

(2) *Consortia of eligible applicants.* In a case where two or more eligible applicants form a consortium to operate a Title II program, within the geographical boundaries of the consortium, residents of any designated area of substantial unemployment within the boundaries of the consortium may be employed at any site within such boundaries; provided that the total amount of funds available for residents of each area of substantial unemployment of each participating eligible applicant equals the amount of funds that the area would have received if the consortium had not been formed.

(3) *Consortia of units of general local government formed in order to qualify as program agents; multijurisdictional eligible applicants.* The provisions of paragraph (c) (1) and (2) shall apply to consortia of units of general local government formed in order to qualify as program agents and to multijurisdictional eligible applicants.

(b) *Political patronage.* No program will be funded if the eligible applicant discriminates with respect to political affiliation. Specifically, no eligible applicant, subgrantee or employing agency may select, reject, or promote a participant based on that individual's political affiliation or beliefs. The selection or advancement of employees as a reward for political services or as a form of political patronage, whether or not the political service or patronage is partisan in nature, is discrimination based on political belief or affiliation, and is prohibited (sec. 208(f)).

(c) *Nepotism*—(1) *Restriction.* No eligible applicant, subgrantee, or employing agency may hire a person into a Title II funded position if a member of his or her immediate family is employed in an administrative capacity for the same eligible applicant, subgrantee or employing agency. However, where a State or local statute regarding nepotism exists which is more restrictive than this policy, the eligible applicant should follow the State or local statute in lieu of this policy.

(2) *Definitions.* (i) For purposes of this section, the term "member of the immediate family" includes: wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, niece, nephew, stepparent and stepchild.

(ii) For the purposes of this section, the term "administrative capacity" includes those who have selection, hiring or supervisory responsibilities for Title II participants, or operational responsibility for the program.

(d) *Nondiscrimination generally.* (1) Every grant made pursuant to this part shall contain a certification statement signed by the grantee concerning the provision of equal employment opportunity under the grant.

(2) No discrimination shall be permitted in any program under this part with respect to race, creed, color, national origin, sex, age, handicap, political affiliation, or beliefs (sections 208(f), 612(a) and 603(l); Vocational Rehabilitation Act).

§ 96.27 Eligibility for participation in a Title II program.

(a) A person residing, as defined in paragraph (d), in an area of substantial unemployment who has been unemployed for at least 30 days prior to application or who is underemployed is eligible to participate in a program under Title II of the Act (secs. 201 and 205 (a)).

(b) A person participating in a public employment program under section 5 or section 6 of the Emergency Employment Act at the time of the grant award under this Act who is currently, or was at the time of his selection for such participation, geographically eligible may be transferred into the Title II grant program covering that geographical area, provided that maximum efforts have been made to place such an individual in unsubsidized employment or training.

(c) A participant in an employment program under this Part 96 may change jobs within a particular eligible applicant's jurisdiction without an intervening period of unemployment, but may not be employed in a job for any other eligible applicant without an intervening period of unemployment of at least 30 days.

(d) For the purpose of this section, the term resident shall mean an individual's dwelling place or home, both at the time the individual applies and is selected for participation in a program under Title II of the Act. In determining whether a particular place is an individual's dwelling place or home, the intention of the individual is the key element. Maintenance of an "address" is not necessarily the same as the manitenance of a dwelling place or home.

(e) Citizenship will not be used as a criterion to prevent permanent residents, including permanent resident aliens, from participating in a program under Title II to the extent consistent with applicable State law.

(f) These regulations do not authorize the hiring of any person when any other person is on lay off from the same or any substantially equivalent job (sec. 205 (c)(8)).

§ 96.28 Special consideration for most severely disadvantaged persons.

Special consideration in filling transitional public service jobs under Title II of the Act shall be given to unemployed persons who are the most severely disadvantaged in terms of the length of time they have been unemployed and their prospects for finding employment without assistance under title II (sec. 205(c)(7)).

§ 96.29 Serving significant segments of the population.

(a) The significant segments of an eligible applicant's population shall be served on an equitable basis. For example, individuals from each significant segment could be placed in programs under Title II in a manner consistent with their incidence in the unemployed population of the eligible applicant or other measures of equity could be utilized (secs. 205(c)(2) and 208(b)).

(b) Each eligible applicant shall monitor its program to assure that the significant segments of its population are being served in accordance with the requirements of this section.

§ 96.30 Groups to be provided special consideration.

(a) *Veterans.* Special consideration shall be given to veterans who served in the Armed Forces in Indochina or Korea, or the waters adjacent thereto, on or after August 5, 1964, and who received other than a dishonorable discharge. These veterans shall be hired in a proportion at least equal to their incidence in the unemployed and underemployed population. In order to insure special consideration for veterans, all job vacancies under Title II, except those to which former emploeyes are being recalled, must be listed with the State employment service at least 48 hours before such vacancies are filled. During this period, the employment service will refer special veterans. Upon request, the employment service may also refer members or other significant segments. All other applicants are to be referred after the 48-hour period. A list of job openings, with the exception of those to which former employees are being recalled, shall be made available from time to time by the eligible applicant, to veterans organizations for the purpose of making those jobs known to the veterans described in this paragraph (sec. 205(c)(5)).

(b) *Welfare recipients.* In designing an eligible applicant's plan and placing individuals in employment under this Part 96, special consideration shall be given to welfare recipients.

(c) *Former manpower trainees.* Special consideration shall be given, in developing an eligible applicant's plan and placing individuals in employment under this Part 96, to persons who have participated in manpower training programs and for whom work opportunities are not otherwise immediately available (sec. 205(c) (9)).

§ 96.31 Training and supportive services.

Eligible applicants, subgrantees, and employing agencies may use granted funds to purchase necessary training and supportive services from public or private organizations, provided that such contracts are not entered into with private-for-profit organizations for the employment of participants.

§ 96.32 Linkages with other manpower programs.

An eligible applicant shall, where appropriate, maintain or provide linkages with upgrading and other manpower program for the purpose of (1) providing public service employment participants who want to pursue work with the employer, in the same or similar work, with opportunities to do so and to find permanent, upwardly mobile careers in that field, and (2) providing those persons so employed, who do not wish to pursue permanent careers in such field, with opportunities to seek, prepare for, and obtain work in other fields.

§ 96.33 Placement goals.

(a) Public service employment programs under the act shall to the extent feasible, be designed to enable all individuals to move from such employment programs into unsubsidized full-time jobs in the private or public sector, and shall emphasize the development of new careers and career development opportunities (secs. 201 and 205).

(b) Each eligible applicant, program agent, and subgrantee shall be responsible for efforts to place all participants in unsubsidized employment in both the private sector and the public sector, or in training programs.

(c) To carry out the intent of paragraph (b), each eligible applicant, program agent and subgrantee shall, to the extent consistent with law and applicable collective bargaining agreements, have the goal of accomplishing on an annual basis at least one of the following:

(1) Placing half of the cumulative participants in unsubsidized private or public sector employment; or

(2) Placing participants in half the vacancies occurring in suitable occupations in an eligible applicant, program agent, or subgrantee's permanent work force which are not filled by promotion from within the agency.

§ 96.34 Compensation for participants.

(a) *Minimum wage for participants.* Each participant shall be paid at a rate no less than the highest of the following:

(1) The minimum wage which would be applicable to the employee under the Fair Labor Standards Act of 1938, if section 6(a)(1) of the Act applied to the participant and if he were not exempt under section 13 thereof;

(2) The State or local minimum wage for the most nearly comparable covered employment; or

(3) The prevailing rate of pay for persons employed in similar public occupations by the same employer (sec. 208(a)).

(b) *Limitations on participant's salary.* Compensation to any participant from Title II Federal funds is limited to a maximum full-time rate of $10,000 per year, plus the cost of fringe benefits to the extent they do not exceed those paid to workers earning $10,000 a year. This limitation shall also be applicable for participants in public service employment funded under other titles of the Act.

§ 96.35 Working conditions for participants.

(a) Title II participants shall enjoy working conditions and promotional opportunities neither more nor less favorable than those enjoyed by other employees similarly employed (sec. 208(a)(4)).

(b) When a participant is eligible for a promotion of general salary increase that would mean a salary in excess of $10,000, the participant is entitled to it if other employees similarly employed would be promoted. The employer must pay the amount above $10,000 from his own funds as well as a prorated share of the increased fringe benefits. Funds from other titles of the Act shall not be used to supplement the maximum salary limitation for participants.

(c) Every participant must be advised prior to entering upon employment of the name of his employer, and of his rights and benefits in connection with his employment (sec. 208(a)(8)).

(d) No participant will be required or permitted to work in buildings or surroundings or under working conditions which are unsanitary, hazardous or dangerous to his health or safety. In the case of participants employed in jobs inherently dangerous, e.g., fire or police jobs, participants will be assigned to work in accordance with reasonable safety practices. The provisions of section 2(a)(3) of Public Law 89–286 (relating to health and safety conditions) shall apply to such programs or activity (sec. 208(a)(5)).

(e) Participants shall receive the same fringe benefits as other employees of the employing agency similarly employed (e.g., workmen's compensation, health insurance, unemployment insurance, vacations) (sec. 208(a)(4)).

§ 96.36 Retirement benefits for participants.

(a) While the mass payment of retirement benefits is not encouraged, the Act does not prohibit payment into the retirement fund on behalf of title II participants where such payments are warranted.

(b) Expenditures may be made from Title II funds for payments under the Social Security Act.

(c) Expenditures for retirement fund payments for Title II participants may be made under any of the following conditions:

(1) Payments are for retirement benefits that are part of a consolidated package, including such benefits as health insurance and workmen's compensation, if separation of the benefits is not allowed;

(2) Payments are for participants who are immediately hired as regular employees (that is attain regular employee status, although salary is subsidized by Title II funds);

(3) Payments are for participants whom the employing agency or another employer intends to hire into permanent jobs at some future date, provided that:

(i) Payments on behalf of such participants are made into and retained in a reserve account, and not paid into the retirement fund until the participant has acquired regular employee status; and

(ii) If regular employment occurs with other than the employing agency, retirement fund payments may be allowed only if the participant is employed within the State, and the retirement benefits are portable; and

(4) Payments are for retirement benefits required by Federal, State, or local law, or for retirement plans set up by State or local law which will not permit the exclusion of Title II participants from coverage.

§ 96.37 Use of Title II funds for programs under Titles I and III–A: summer employment programs.

(a) Funds available to an eligible applicant may, at its option, be utilized for residents of the areas of substantial unemployment designated under this Part 96 for programs authorized under Title I and part A of Title III of the Act. Where Title II funds are used for activities authorized under other Titles of the Act, all provisions under this part 96, except § 96.38(a), shall apply in addition to those provisions applicable for programs under Title I and Part A of Title III (sec. 210).

(b) An eligible applicant planning to use Title II funds for a summer program shall reflect that decision in its Comprehensive Title II Plan or any modification thereof. The eligible applicant shall specify that the Plan provision or modification is being proposed for the purpose of using Title II funds for its summer program, and shall further specify the amount of Title II funds intended for such use.

§ 96.38 Limitation on funds.

(a) Not less than 90 percent (90 percent) of the funds appropriated pursuant to Title II of the Act which are used by an eligible applicant for public service employment programs shall be expended for wages and fringe benefits to persons employed in public service jobs (sec. 203(b)).

(b) The remaining 10 percent (10%) may be used for administration, training, or supportive services to participants in public service employment.

(c) An eligible applicant which does not itself administer the entire program may not retain the entire 10 percent (10 percent) mentioned in paragraph (b) for its own use unless this is agreed to by its subgrantees. At least 5 percent

V 39 108 JUN 4 74 XUM

(5 percent) of a subgrantee's grant must be available to it for costs other than wages and fringe benefits.

Subpart D—Special Conditions for Grants to Indian Tribes on Federal and State Reservations

§ 96.40 General.

This subpart D contains special conditions for grants to Indian tribes on Federal and State reservations. To the extent that any provision of this subpart D differs from any other provision of this Part 96, the provision of this subpart D shall govern. In all other matters the requirements of Part 96, apply to this subpart D.

§ 96.41 Distribution of funds.

(a) Funds for programs under Title II of the Act for Indian tribes on Federal and State reservations shall be determined as follows:

(1) Funds for use under this subpart D shall be determined on the basis of a ratio taking the total number of unemployed Indians on all Federal and State Indian reservations which have areas of substantial unemployment and comparing this number with the total number of unemployed persons in all eligible applicant jurisdictions under this Part 96.

(2) Funds determined under paragraph (a)(1) of this section shall be allotted for use in the individual Indian reservations which have areas of substantial unemployment on the best available estimates of the population or unemployment on each such reservation as compared to the total population or total unemployment on all such reservations.

(b) Funds shall only be granted for individual reservations which either have a population of at least 1,000 Indians or are entitled to a title III grant of at least $50,000. Reservations which do not meet either of these requirements may, however, be combined to qualify for funds as provided in § 96.42 of this part (sec. 204(c)).

(c) An eligible applicant which represents more than one reservation shall further allocate funds for use among reservations in accordance, to the extent feasible, with the amounts indicated by the Secretary for each reservation.

(d) Within a single reservation, or a consortium of small reservations, the eligible applicant shall allocate granted funds, taking into consideration, to the extent feasible, differences in unemployment among identifiable areas within the reservation (sec. 204(c)).

§ 96.42 Eligibility for funds.

(a) An independently eligible applicant, shall be an Indian tribe on a Federal or State reservation which includes areas of substantial unemployment. Such tribe must represent at least 1,000 persons or be entitled to a title III grant of at least $50,000, and have a governing body possessing the substantive powers which will enable it to carry out a program under this Part 96. A governing body having substantive powers is a body consisting of duly elected representatives who have the authority to provide services and to enter into contracts, and grants on behalf of the individuals who elected them, and who are recognized as having such authority by the appropriate Federal or State agencies (sec. 204(c)).

(b) If an Indian tribe does not have a governing body capable of performing the functions set out in paragraph (a) of this section, or if an Indian tribe declines to administer a program under this part, the eligible applicant for the identified area may be:

(1) The governing body of another reservation on which the tribe is located;

(2) The governing body of another reservation where several Indian tribes have combined into a consortium; or

(3) An intertribal council or organization, business council, statewide or regional organization; or another eligible applicant under this Part 96 within the same geographic area; provided that:

(i) The Indian tribe agrees to such eligible applicant;

(ii) The prospective eligible applicant operates the program in a manner consistent with the requirements of this Subpart D; and

(iii) Such body or organization is capable of performing the functions described in paragraph (a) of this section.

(c) Where a determination is made by the Secretary that a designated Indian eligible applicant does not have the capability to administer a program, the Secretary may reassign that responsibility to another eligible applicant acceptable to the tribe, provided that such applicant is capable of performing the function described in paragraph (a) of this section.

§ 96.43 Assistance by the Secretary.

If an Indian tribe which is an eligible applicant under this subpart D is unable to submit an application to carry out a program under this Part 96, the Secretary shall assist such eligible applicant in preparing, submitting, and implementing a program (sec. 207(c)).

§ 96.44 Nepotism.

(a) No eligible applicant or subgrantee under this subpart D shall hire, or permit the hiring of, any person in a position funded under title II of the Act if a member of the person's immediate family is employed in an administrative capacity by the eligible applicant. For the purposes of this section, the term "immediate family" means wife, husband, son, daughter, mother, father, brother, and sister; the term "administrative capacity" means persons who have selection, hiring, or supervisory responsibilities for participants in a program under this Part 96, or operational responsibility for the program.

(b) If a subgrantee under this Subpart D has a population of less than 1,000 persons and cannot hire program participants without an immediate family member being included, the ARDM may waive the requirement of paragraph (a) of this section if adequate justification is received from such subgrantee that no other persons within the subgrantee's jurisdiction are eligible and available for participation.

(c) Where a tribal policy regarding nepotism exists which is more restrictive than this policy, the eligible applicant shall follow the tribal rule in lieu of this policy.

§ 96.45 Non-Discrimination.

Section 96.26(d) shall be applicable to Indian programs funded pursuant to title II of the Act, except to the extent that such provisions conflict with 42 U.S.C. 2000e(b).

§ 96.46 Subgrants.

In addition to the requirements concerning subgrants, Indian tribes may require that subgrantees agree, to the maximum extent feasible, to hire qualified Indians to provide services called for pursuant to the subgrant in accordance with 42 U.S.C. 2000e–2(i).

§ 96.47 Comment and publication procedures relating to submission of Indian grant applications.

(a) Each eligible Indian applicant who plans to apply for a grant shall, no later than the date of its submission of an application to the ARDM, provide an opportunity to comment on its application to the following officials in accordance with section 206 of the Act:

(1) The Governor;

(2) Appropriate officials of units of general local government; and

(3) Officials of labor organizations representing employees who are engaged in similar work in the same area.

(b) Comments by those individuals and officials listed in paragraph (a) of this section shall be made available to the eligible applicant and the ARDM within thirty days of the receipt of notice of the opportunity to comment.

(c) Eligible Indian applicants shall acknowledge any comments made pursuant to this section by providing the commenting party with appropriate information and notice regarding the actions or revisions the applicant intends to take or adopt, if any, due to the comment. All such comments and responses shall be transmitted to the ARDM.

AUTHORITY: Pub. L. 93–203, sec. 602(a), 87 Stat. 839, unless otherwise noted.

Subpart A—1974 Summer Program for Economically Disadvantaged Youth

§ 97.1 Scope and purpose.

(a) This subpart A contains the policies, rules, and regulations of the Department in implementing and administering the 1974 summer programs for economically disadvantaged youth funded under Title III, section 304(a), of the Comprehensive Employment and Training Act (hereinafter referred to as the Act).

(b) Programs funded under this subpart A shall be designed by summer sponsors, defined in § 97.4, to provide summer employment and other activities and services authorized under Title I of the Act.

(c) Subpart A should be read in conjunction with Parts 94 through 98 of this Title 29, Code of Federal Regulations. These parts, in total, comprise the regulations promulgated by the Secretary pursuant to the authority in the Act. The provisions of Part 95, however, only apply to this subpart A as indiciated in specific sections of those regulations. The administrative provisions of Part 98 shall apply to this subpart A.

§ 97.2 Definitions.

Definitions for abbreviations and major terms used in this subpart A may be found in Part 94 of this title. In addition:

(a) The term "EEA" means the Emergency Employment Act of 1971, as amended;

(b) The term "EOA" means the Economic Opportunity Act of 1964, as amended; and

(c) The term "Indian or native American organization" includes Indian tribes, bands, and groups, and native American groups.

§ 97.3 Allocation of funds.

(a) The funds available under this subpart A shall be allocated to summer sponsors, defined in § 97.4, based upon the criteria set forth in paragraphs (b), (c), and (d) of this section.

(b) Allocations of funds available for summer sponsors who are prospective or actual prime sponsors under Title I of the Act shall be based on the following formula:

(1) Fifty percent of such funds shall be allocated so that each sponsor receives the same percentage of the 1974 summer funds available under this subpart A, as it received as a percentage of the funds available for the EOA and EEA summer program in 1973;

(2) Thirty-seven and one-half percent of the funds shall be allocated based on the ratio of the number of unemployed persons in the sponsor's area in 1973 to the total number of unemployed persons in the United States in that year; and

(3) Twelve and one-half percent of the funds shall be allocated based on the ratio of the number of adults in low income families in the summer sponsor's area in 1969 to the total number of adults in low income families in the United States for that year; and

(4) No prime sponsor area shall be allocated less than 90 percent of the funds allocated to the area under the EOA and EEA summer program of 1973.

(c)(1) The total allocation to Indian and native American sponsors of programs funded under this subpart shall be equal to the same percentage of the funds available for Indian and native American sponsors under the EOA and EEA summer program in 1973.

(2) The allocation to each eligible Indian or native American organization shall be based upon the amount of funds each Indian or native American organization received under the EOA and EEA summer program in 1973. Specifically, each Indian or native American organization shall receive the same percentage of the funds available for each organization under this Subpart A as it received as a percentage of the funds available for all Indian and native American organizations under EOA and EEA summer programs in 1973.

(d) The allocation of funds to Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands shall be based upon the criteria set forth in paragraph (c) of this section.

§ 97.4 Eligibility for funds.

Funds under this subpart A shall be allocated by the Secretary to summer sponsors who may be:

(a) Prospective or actual prime sponsors under Title I of the Act; or

(b) Indian tribes, bands, groups, or other Indian organizations and native American organizations which received funds under the EOA and EEA summer program in 1973.

§ 97.5 Notification of intent.

An eligible summer sponsor desiring financial assistance for a program under this subpart A shall, for the purpose of providing its notification of intent, submit to the appropriate ARDM (A listing of the ARDM's and the States within each Region is contained in the FEDERAL REGISTER, Volume 39, No. 16, Part IV of January 23, 1974.), the Preapplication for Federal Assistance Part I, prescribed by OMB Circular A–102. To facilitate the earliest implementation of the summer youth program, an eligible summer sponsor should file a Preapplication for Federal Assistance not later than May 31, 1974; however, a Preapplication for Federal Assistance shall not be submitted any later than June 12, 1974, unless the ARDM, for good cause, permits an extension of time.

§ 97.6 Application for grants and standards for reviewing grant applications.

(a) A program shall be undertaken under this subpart A, upon execution of an agreement between a summer sponsor and the ARDM. Upon receipt of a Preapplication for Federal Assistance. the ARDM shall send a grant application package to each eligible summer sponsor. The grant application shall be submitted to the ARDM not later than June 15, 1974, unless the ARDM, for good cause, permits an extension of time.

(b) Each grant application shall be reviewed by the appropriate ARDM using the standards described in § 95.17 of this title.

§ 97.7 Application approval and disapproval.

Each grant application shall be approved or disapproved under the provisions and conditions described in § 95.18 of this title.

§ 97.8 Use of alternative sponsors and services by the Secretary.

If a grant application is not filed, or is denied, or terminated, the Secretary may make provision for the use of an alternative sponsor, or provide services himself, as described in § 95.20 of this title.

§ 97.9 Content and description of grant application.

(a) The content of an application for programs funded under this subpart A shall be identical to the content of an application for Title I programs, as set forth in § 95.14(b) of this title, except that:

(1) The Program Narrative Description for programs under this subpart A shall be in accordance with the requirements of paragraph (b) of this section, rather than in accordance with the requirements of § 95.14(b)(2)(i) of this title.

(2) The Program Transition Schedule, set forth in § 95.14(b)(2)(ii) of this title shall be deleted; and

(3) The Public Service Employment Occupational Summary shall be prepared as provided in paragraph (c) of this section, rather than as set forth in § 95.14(b)(2)(iv) of this title.

(b) The Program Narrative Description shall consist of:

(1) A policy statement on the purpose of the program funded under this subpart A;

(2) A statement of the goals to be accomplished;

(3) A description of the number and characteristics of the participants to be served by (i) sex and (ii) age: 14 to 15, 16 to 17, 18 to 22;

(4) A description of each program activity and service;

V 39 – 108 JUN 4 74 XUM

(5) A description of the methods to be used to recruit, select, and determine the eligibility of participants;

(6) A description of the geographical area to be served; and

(7) The Public Service Employment Program description, as applicable, and described in § 95.14(b)(2)(i)(F) of this title.

(c) The Public Service Employment Occupational Summary forms shall be submitted separately for on-the-job training, for work experience, and for public service employment, as appropriate, and shall be prepared as described in § 95.14(b)(2)(iv) of this title except that for on-the-job training and for work experience activities the comparison of wages shall not be included.

§ 97.10 Modification of the grant agreement; modification of the program plan.

(a) A summer sponsor desiring a modification to an existing grant agreement shall follow the procedure described in § 95.21 of this title.

(b) A summer sponsor desiring a major modification as defined in § 95.22(b) shall submit a revised project operating plan and a narrative explanation of the proposed changes to the ARDM. The ARDM shall notify the sponsor of final approval or tentative disapproval within 10 days of receipt of the proposed modification. An appeal of such determination may be obtained through the procedures set out in Part 98 of this Title 29, Code of Federal Regulations.

(c) A summer sponsor shall follow the procedure described in § 95.22(c) of this title in making a minor modification to programs funded under this Subpart A. However, a sponsor shall show such modifications on the end of summer progress report.

(d) An ARDM may require a modification as described in § 95.22(d) of this title.

§ 97.11 Basic responsibilities of sponsors.

A sponsor of a program funded under this subpart A shall be responsible for the compliances and provisions described in § 95.31 of this title.

§ 97.12 Eligibility for participation.

Each participant in a program funded under this subpart A shall be at time of enrollment:

(a) Economically disadvantaged, as defined in § 94.4; and

(b) A youth, 14 years of age through 22 years of age.

§ 97.13 Types of manpower services available in the summer program for economically disadvantaged youth.

(a) A program funded under this subpart A may include any activity or service specified in § 95.33 of this title.

(b) The requirements for Work Experience activities, as described in § 95.33(d)(3)(ii) of this title, are amended for programs funded under this subpart A to read as provided in paragraph (c) of this section.

(c) *Work Experience.* This program activity is to be designed to enhance the future employability of youth or to increase the potential of youth in obtaining a planned occupational goal.

(1) Work Experience activities for youth include part-time work for students attending school; short-term employment for out-of-school youth adjusting to a work setting and in transition from school to a job setting; short-term employment for recent graduates; and short-term or part-time employment for veterans, institutional residents and inmates under special work release agreements. In addition, it may include short-term employment while a training or job opportunity is being developed. Work Experience activities in the private for-profit sector shall be prohibited.

(2) Program outcomes for work experience participants include (i) return to school; (ii) enrollment in post secondary education; (iii) enlistment in the military services; (iv) enrollment in a manpower training activity; and (v) placement in subsidized or unsubsidized employment.

§ 97.14 Participant benefits.

(a) Participants in classroom training in programs funded under this subpart A shall receive allowances and other benefits as described in § 95.33(d)(1)(iii) of this title.

(b) Participants in on-the-job training in programs funded under this subpart A shall receive wages and other benefits as described in § 95.33(d)(2)(iv) of this title.

(c) Participants in transitional public service employment activities in programs funded under this subpart A shall receive wages and benefits as described in § 95.33(d)(3)(iii) of this title.

(d) Each participant in a work experience activity shall receive wages at a rate of pay commensurate with such factors as the types of work performed, the geographical region of the program, and the skill proficiency of the participant, provided that no participant's hourly rate of pay shall be less of whichever is the highest of the minimum wage prescribed for similar employment by State or local law or an hourly wage of $2 an hour. However, wages in the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands shall be consistent with applicable provisions of the Fair Labor Standards Act of 1938, as amended.

(e) Participants in work experience activities shall be provided workmen's compensation and, as appropriate, other manpower services.

(f) Participants in work experience activities at Federal worksites shall be provided coverage by the Federal Employees Compensation Act.

§ 97.15 Sponsor review.

Each sponsor of a program funded under this subpart A shall establish a procedure as described in § 95.37 of this title for resolving any issue arising between it and a participant in a program funded under this subpart A.

§ 97.16 Non-Federal status for participants.

Participants in a program funded under this subpart A shall not be deemed Federal employees as provided for in § 95.38 of this title.

§ 97.17 Worksite standards; safety and health requirements for participants.

(a) The placement of participants on a Federal worksite for work experience activities does not constitute Federal employment, except for purposes of the Federal Employees Compensation Act and the Federal Tort Claims Act.

(b) No participant under 18 years of age will be employed in any occupation which the Secretary has found, pursuant to his authority under the Fair Labor Standards Act, to be particularly hazardous for persons between 16 and 18 years of age (see Part 570, subpart E of this title).

(c) Participants who are 14 and 15 years of age will participate only in accordance with the limitations imposed by §§ 31–35 of subpart C, Part 570, of this title.

(d) Participants shall be provided safe and healthful working conditions as described by the provisions of § 95.39 of this title.

(e) No participant shall be compensated for more than 40 hours per week.

§ 97.18 Training for lower wage industries and relocation of industries.

No participant may be enrolled in any activity or service provided by a program funded under this subpart A in any lower wage industry job as described by the provisions of § 95.40 of this title.

§ 97.19 Sponsor contracts and subgrants.

A sponsor of a program funded under this subpart A may enter into contracts or subgrants under the provisions described in § 95.41 of this title.

§ 97.20 Cooperative relationships between sponsors and other manpower agencies.

Each sponsor shall, to the extent feasible, establish cooperative relationships or linkages with other manpower and manpower-related agencies as described in § 95.42 of this title.

§ 97.21 Reporting requirements.

(a) Each summer sponsor shall submit two reports to the ARDM: an End-of-Summer Progress Report, and a Summary of Client Characteristics Report.

(b) The End-of-Summer Progress Report (The Quarterly Progress Report Form generally used by a sponsor of a comprehensive manpower program, but labeled by the project sponsor as End-of-Summer Progress Report) will be used to summarize the accomplishments of the program. It constitutes the summer sponsor's statement of accomplishments and costs incurred and contains a certification of the correctness of the items reported. The End-of-Summer Report will be submitted not later than 30 days after the termination of the program, but in no case later than October 15, 1974.

(c) The Summary of Client Characteristics Report shall contain aggregate characteristics data on all participants in programs funded under this Subpart A. (This report is the Quarterly Summary of Client Characteristics Report regularly submitted by a sponsor of a Title I funded program, but labelled specifically for the Summer Program for Economically Disadvantaged Youth.) The summary is to be submitted to the ARDM with the End-of-Summer Progress Report appropriately marked, "Summer Program for Economically Disadvantaged Youth." The information for age characteristics on line 04 of the Summary of Client Characteristics Report shall be broken out on the back of the report by the following age groups:

(i) 14–15 years;
(ii) 16–17 years; and
(iii) 18–21 years.

§ 97.22 Terminal date for 1974 summer program.

No program under this subpart A shall continue beyond October 1, 1974.

PART 98—ADMINISTRATIVE PROVISIONS FOR PROGRAMS UNDER TITLE I AND TITLE II OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Subpart A—Grant Administration

Sec.
98.1 General.
98.2 Payment.
98.3 Letter of credit.
98.4 Payment by Treasury check.
98.5 Financial management systems.
98.6 Audit.
98.7 Reporting requirements in general.
98.8 Quarterly Progress Report.
98.9 Quarterly Summary Client Characteristics.
98.10 Report of Federal Cash Transactions.
98.11 Reallocation of funds.
98.12 Allowable Federal costs.
98.13 Allocation of allowable costs among program activities.
98.14 Basic personnel standards for grantees
98.15 Adjustments in payments.
98.16 Termination of grant.
98.17 Grant close-out procedures.
98.18 Retention of records.
98.19 Program income.
98.20 Procurement standards.
98.21 Nondiscrimination and equal employment opportunities.
98.22 Nepotism.
98.23 Special limitation on participant selection.

Subpart B—Assessment and Evaluation

98.30 General.
98.31 Responsibilities of the prime sponsor or eligible applicant.
98.32 Responsibilities of the Secretary.
98.33 Limitation.
98.34 Consultation with the Secretary of Health, Education, and Welfare.

Subpart C—Hearings and Judicial Review

98.40 Purpose and policy.
98.41 Review of plans and applications; violations.

Sec.
98.42 Complaints; filing of formal allegations; dismissal.
98.43 Form.
98.44 Contents of formal allegations; amendment.
98.45 Investigations.
98.46 Opportunity for hearings; when required.
98.47 Hearings.
98.48 Initial certification, decisions and notices.
98.49 Judicial review.

AUTHORITY: Comprehensive Employment and Training Act of 1973 (Pub. L. 93-203, sec. 602(a), 87 Stat. 839), unless otherwise noted.

Subpart A—Grant Administration

§ 98.1 General.

(a) This subpart A describes Federal requirements relating to the administration of grants by grantees (secs. 603(14) and 613).

(b) The Secretary will provide each grantee with the specific procedures to be followed to comply with the requirements of this subpart A (secs. 603(14) and 613).

§ 98.2 Payment.

Advance payments will be made by either a letter of credit or by U.S. Treasury check to grantees that demonstrate the willingness and ability to establish procedures which will minimize the time between the transfer of funds to them and their disbursement of such funds.

§ 98.3 Letter of credit.

(a) Grants will be financed by means of a letter of credit when the following conditions are met:

(1) The grant is for $250,000 or more;

(2) A continuing relationship exists for at least 12 months;

(3) The grantee can assure that the timing and amount of drawdowns will be as close as possible to disbursement needs;

(4) The grantee's accounting system will meet the recordkeeping and reporting requirements of this subpart.

§ 98.4 Payment by Treasury check.

(a) A grantee which does not meet the requirements for the letter of credit will be paid by Treasury check. The ARDM will determine whether such payment will be made on an advance or reimbursement basis. In making such a determination, the ARDM will consider the adequacy of the grantee's accounting and recordkeeping system with regard to items 3b and 3c of Attachment J of OMB Circular A–102.

(b) Advance by Treasury check will provide for advanced payments through use of predetermined payment schedules or upon the request of the grantee. When the request method is used, payments will be made to a grantee based upon a schedule contained on the Request for Advance or Reimbursement.

§ 98.5 Financial management systems.

(a) Each grantee and subgrantee shall maintain a financial management system which will provide accurate, current and complete disclosure of the financial results of each program activity by title of the Act, including Title II program activities by each area of substantial unemployment, provide the ability to evaluate the effectiveness of program activities and meet the reporting requirements of this subpart.

(b) Each grantee and subgrantee shall maintain its fiscal accounts in a manner sufficient to permit the reports required by the Secretary to be prepared therefrom.

§ 98.6 Audit.

(a) The Secretary of Labor, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the State and local government and their subgrantees and contractors which are pertinent to a specific grant program under the Act for the purpose of making surveys, audits, examinations, excerpts, and transcripts (sec. 613(2)).

(b) The Secretary shall be responsible for scheduling surveys, audits or examinations of grantees and their subgrantees and contractors.

(c) The Secretary shall, with reasonable frequency, survey, audit or examine, or arrange for the survey, audit or examination of grantees and their subgrantees and contractors using city or state auditors; or certified or licensed public accountants. Such surveys, audits, or examinations shall normally be conducted annually but not less than once every two years.

(d) Surveys, audits and examinations will conform to the standards for Audit of Governmental Organizations, Programs, Activities, and Functions, issued by the Comptroller General of the United States and guides issued by the Secretary. Surveys, audits or examinations contracted by the Secretary will conform, at a minimum to the first element of the Comptroller General's Standards: an audit to determine: (1) Whether financial operations are properly conducted, (2) whether the financial reports are fairly presented, and (3) whether the available information indicates that the entity has not complied with applicable laws, regulations, and administrative requirements. Existing audit systems, where acceptable under the Comptroller General's Standards, such as State audits of city and county activities, will be used to the maximum possible extent (sec. 613(1)).

§ 98.7 Reporting requirements in general.

Each grantee will be required to submit three periodic reports which will be used by the Secretary to assess its performance in carrying out the objectives of the Act. These three reports are: (a) The Quarterly Progress Report, (b) The Quarterly Summary of Client Characteristics, and (c) The Report of Federal Cash Transactions (secs. 313(b) and 613). Detailed descriptions of these forms are in the Forms Preparation Handbook.

V 39 — 108 JUN 4 74 XUM

§ 98.8 Quarterly Progress Report.

(a) The Quarterly Progress Report will be used to measure accomplishments in achieving objectives stated in the Project Operating Plan. It also constitutes the grantee's statement of costs incurred and contains its certification of the correctness of the costs reported.

(b) A grantee shall include the following items in the report together with a comparison of the same items as they appear in the Project Operating Plan for the period of the report:

(1) The total number of individuals served with granted funds during the grant period;

(2) The total number of individuals (participants) placed on self-sustaining employment at termination from the project and the number entering school, other training or military service;

(3) The level of enrollment and accrued expenditures associated with the program activities;

(4) The distribution of total accrued expenditures among cost categories; and

(5) The number of individuals within each significant segment of the population being served by the program.

(c) If performance goals are not being achieved, the ARDM may request additional information from grantees including reasons for the failure to achieve such goals.

(d) The Quarterly Progress Report will also permit grantees to report on objectives and accomplishments other than those established by the Secretary. If a prime sponsor or eligible applicant elects to include these other activities in its report, they will be used by the Secretary in his evaluation of the performance of the prime sponsor or eligible applicant's program.

(e) The Quarterly Progress Report will be prepared to coincide with the ending dates of Federal fiscal year quarters.

This report should be sent by the grantee to be received by the ARDM no later than 30 days after the end of the reporting period. If a grantee's grant period ends at a date other than the Federal fiscal year quarter, a fifth report, covering the entire grant period will be required.

(f) The Quarterly Progress Report will be submitted by the grantee to the Governor of the State.

(g) Accountability must be maintained by the grantee for each of the activities authorized under the Act. Therefore, a separate report will be required for Title I and Title II programs.

(h) The Secretary reserves the right to require the submittal of this report by grantees more frequently than quarterly in cases of major deviation from the Project Operating Plan.

(i) Specific procedures for meeting these reporting requirements will be furnished to each grantee in the Forms Preparation Handbook.

§ 98.9 Quarterly Summary of Client Characteristics.

(a) The Quarterly Summary of Client Characteristics contains aggregate characteristics data on all participants in the program. The Summary is to be submitted to the ARDM with the Quarterly Progress Report.

(b) The Summary will include characteristics data aggregated for all participants, those who terminated from the program and those who entered unsubsidized employment.

(c) The Summary will also aggregate wages before enrollment in the program and after placement and show the median wage for these two categories.

(d) A separate report will be required for Title I and Title II.

(e) Specific reporting procedures and appropriate definitions will be furnished to each grantee in the Forms Preparation Handbook.

§ 98.10 Report of Federal cash transactions.

(a) Each grantee shall submit periodically a report of Federal cash transactions. The report will be used to monitor cash advances and to obtain disbursement information. This report will be submitted monthly by each grantee receiving an annual grant totalling $1 million or more, and quarterly by other grantees (sec. 613(3)).

(b) Specific reporting procedures will be furnished to each grantee in the Forms Preparation Handbook.

§ 98.11 Reallocation of funds.

(a) *General.* The Secretary may reallocate funds from a grantee under the circumstances and in accordance with the procedures described in this section (secs. 103(1) and 602(b)).

(b) *Reallocation based on nonperformance.* (1) Pursuant to sec. 103(1) of the Act, when the Secretary considers through review of the grantee's reports, monitoring or auditing of the program that its performance may be inadequate or that it may have failed to comply with the Act or regulations, he shall give due notice and opportunity for a public hearing as provided in § 98.47.

(2) If the Secretary then decides to reallocate funds based on a ground set forth in paragraph (b)(1) of this section, he shall:

(i) Revoke the grantee's plan for the area, in whole or in part;

(ii) Make no further payments under this Act to the grantee, to the extent which he deems necessary; and

(iii) Notify the grantee of the amount of funds which shall be returned from unexpended funds paid to the grantee during that fiscal year.

(3) The Secretary shall make provision for the reallocation of funds to be used by the State or other alternative prime sponsor to service the area which was served by the prime sponsor before the reallocation, or the Secretary may serve such an area directly (§ 95.20).

(c) *Reallocation based on need.* (1) In a limited number of circumstances, the Secretary may determine that the unobligated portion of a grantee's grant should be reallocated to another area because the funds are not needed where they were originally allocated. Such reallocations may be made only after the ninth month of the fiscal year for which the grant was made.

(2) Before reallocating funds as set forth in paragraph (c)(1) of this section, the Secretary must determine that:

(i) The grantee's plan will be carried out without expending all the funds previously made available for that plan; and

(ii) The excess funds identified under paragraph (c)(2)(i) of this section cannot reasonably be expected to be needed in the following grant period.

(d) *Reallocation.* When the Secretary determines that funds should be reallocated based on the criteria in paragraph (c) of this section, he will take the following actions:

(1) *Notice of intent to reallocate funds.* When the Secretary determines that a reallocation is appropriate, he will notify the grantee and the appropriate Governor of the proposed action to remove funds from the grant. The notice shall include the basis for the proposed reallocation.

(2) *Comments by prime sponsor or eligible applicant and the Governor.* The grantee and the Governor will be invited to submit comments on a proposed reallocation of funds out of their area. These comments shall be submitted to the appropriate ARDM within 30 days of receipt of the notice. The Secretary shall consider these comments before making a final determination to reallocate.

(3) *Notification of final determination.* After reviewing any comments submitted by the grantee or Governor, the Secretary will notify them of his decision. A final decision to reallocate funds of a grantee will be published in the FEDERAL REGISTER and a modification will be made to the grant.

(4) *Reallocation procedures.* In reallocating such funds to supplement other grantee grants, the Secretary shall first consider the need for additional funds by other grantees within the same State. A decision to increase a grantee's grant with reallocated funds will not be made without prior consultation with the grantee as to how the funds will be expended, and prior notification to the Governor. Such a decision will be published in the FEDERAL REGISTER with an announcement of the grantee(s) receiving additional allocations and the amounts.

§ 98.12 Allowable Federal costs.

(a) *General.* Federal funds granted under the Act may be expended only for purposes permitted under the provision of Subpart 1–15.7 of Title 41 of the Code of Federal Regulations (OMB Circular A–87), except as modified in these regulations. Costs are intended to be directed to increase the employability of participants.

(b) *Restriction on use of funds.* (1) Federal funds used for public service employment programs under Title I and for any programs under Title II of the Act shall not be used for the acquisition of or for the rental or leasing of supplies, equipment, materials or real property, whether these expenses are budgeted as a direct cost, indirect cost, or overhead cost (sec. 208(a)(7)).

(2) No funds granted under the Act may be used, directly or indirectly, as a contribution for the purpose of obtaining Federal funds under any other law of the United States which requires a contribution from the grantee in order to receive such funds, except if authorized under that law. However, the use of funds granted under the Act as a matching contribution in order to obtain additional funds under the Act is not prohibited.

(c) *Expenditures for repairs, maintenance and capital improvements and construction.* (1) Title I funds may be expended for building repairs, maintenance and capital improvements to existing facilities. Such costs shall be reported against the administration category. These costs must relate to a facility or building which is used primarily for programs under the Act (sec. 602(b)).

(2) No funds for construction are allowable except as part of a training program in construction occupations and then such costs are allowable only for materials. Construction costs for training programs shall be allowable only when such construction would not normally be performed by an outside contractor.

(d) *Allowable cost categories.* Allowable costs shall be reported against the following cost categories: Administration; wages; training; fringe benefits; allowances; and services (sec. 101).

(1) Costs are allowable to a particular cost category to the extent of benefits received by such category.

(2) All grantees are required to plan, control, and report expenditures against the aforementioned cost categories.

(e) *Costs allowable by each cost category.* Within the restrictions set forth under paragraph (b) of this section, the following are the costs which will be allowable by cost category;

(1) *Administrative costs.* Administrative costs shall be limited to those necessary to effectively operate the program. Such costs include overall program administration as well as program activity administration costs incurred by prime sponsors, subgrantees, and contractors. Costs should not generally exceed 20 percent of the total planned costs for a grant, unless the Program Narrative Description under § 95.14(b)(2)(i) sets forth an explanation of how such additional costs have been determined and a detailed documentation to support that amount (sec. 108(d)(2)).

(i) *Direct and indirect costs.* Included in administrative costs are both direct and indirect costs. Direct costs are those which can be specifically identified as relating to the project and indirect costs are those computed by application of an indirect cost rate. In determining the reasonableness of indirect costs, reliance will be placed on procedures established pursuant to OMB Circular A–87, including reliance on determinations made by other Federal agencies under arrangement made pursuant to A–87.

(ii) *Types of costs.* (A) Administrative costs include, but are not limited to salaries, wages, and fringe benefits of program administrators; salaries; wages, and fringe benefits of staff not involved in the direct provision of services or training to participants; costs of consumable office supplies used by program staff; costs incurred in the development, preparation, presentation, management and evaluation of the program; the costs of establishing and maintaining accounting and management information systems; cost incurred in the establishment and maintenance of State Manpower Services Councils, and Prime Sponsor Planning Councils; travel of program administrators; rent, utilities, custodial services and indirect costs allowable to the program; training of staff and technical assistance to contractor and subgrantee staff; costs of assistance to contractor and subgrantee staff; costs of equipment and material to be used by staff participants excluding training equipment and materials; capital improvements as permitted by these regulations; publication of Comprehensive Manpower Plan; and audit services. Prime sponsors may be able to lower these costs by using participants in the administration of the program. In such event, wages and fringe benefits or allowances for such persons shall be charged to subsidized employment, either transitional or for work experience.

(2) *Wages.* All wages paid to participants receiving on-the-job training in public or private nonprofit organization, and all wages paid to participants in transitional subsidized employment and in work experience will be allowed. Wages paid to participants while receiving on-the-job training from a private employer organized for profit cannot be supported by funds under the Act (sec. 101(5)).

(3) *Training.* Training costs include, but are not limited to the following: Salaries and fringe benefits of personnel engaged in providing training and/or counseling, tuition and entrance fees, books, and other teacher's aids, and equipment and materials used in the training of participants. For example: Administration of a training program or facility is not considered to be a training cost, including: Supervision of trainers, rental of facilities and utilities, general administrative supplies, cost of allowance payment processing including staff salaries, cost of equipment not used directly in training and any other cost which is not directly associated with training of participants.

(4) *Fringe benefits.* Fringe benefit costs for participants include, but are not limited to the following: annual, sick, court and military leave pursuant to an approved leave system; employer's contribution for social security, employees' life and health insurance plans; unemployment insurance; workmen's compensation insurance; and retirement benefits provided such benefits are granted under an approved plan.

(5) *Allowances.* All allowances paid to program participants pursuant to § 95.34 of these regulations shall be charged to this cost category.

(6) *Services. Services;* costs include, but are not limited to the following pursuant to § 95.33:

(i) Cost of supportive services such as child care, health care and medical services, residential support, assistance in securing bonds and family planning.

(ii) Cost of manpower services such as outreach, intake and assessment, orientation, counseling, job development, and job placement.

(iii) Administrative costs involved in furnishing of services to participants are not considered to be services costs. This includes any costs such as rental of facilities and utilities, salary of administrative staff, general administrative supplies or other costs which do not relate directly to the furnishing.

§ 98.13 Allocation of allowable costs among program activities.

The program activities against which program costs shall be planned, controlled and reported upon are: Classroom training; on-the-job training; public service employment; work experience; services to participants and other activities. The cost categories under each of these activities are defined in § 98.12(d). The extent to which these cost categories are charageable to specific program activities is set forth below (sec. 101).

(a) *Classroom training.* Cost categories chargeable are: administration, training allowances, and services.

(b) *On-the-job-training.* Cost categories chargeable area: administration, training, services, wages (with public or private nonprofit employers only), and fringe benefits.

(c) *Public service employment.* Cost categories chargeable are: administration, wages, fringe benefits, services and training.

(d) *Work experience.* Cost categories chargeable are: administration, training, services, allowances, wages and fringe benefits.

(e) *Services to paricipants.* Cost categories chargeable are:

(1) *Allowances.* This includes all allowances paid for short periods of time to participants who are registered for training, but are waiting for startup of a component.

(2) *Services.* This includes all manpower and supportive services which are not part of another program activity and which are provided to participants by a prime sponsor, eligible applicant, contractor or subgrantee.

(3) *Administration.* This includes all allowable administrative costs directly associated with this activity and a pro rata share of each prime sponsor or eligible applicant's administrative costs under the Act not directly associated with any program activity.

(f) *Other activities.* Costs catergories chargeable area: administration, training, allowances, and services.

§ 98.14 Basic personnel standards for grantees.

(a) Each prime sponsor and eligible applicant shall assure that it will maintain personnel policies and practices for

V 39 — 108 JUN 4 74 XUM

its employees in accord with State and local laws and regulations that adequately reflects the merit principles declared in the Intergovernmental Personnel Act of 1970 (Pub. L. 91–648). Prime sponsors may meet its requirement by certifying compliance with the uniform Federal Standards for a Merit System of Personnel Administration (45 CFR Part 70) including any amendments thereto (sec. 604(14)).

(b) Except as provided in paragraph (c) of this section, any prime sponsor or eligible applicant's personnel system that has not been certified previously as meeting these standards for other Federal grant programs shall certify that it will take necessary action to provide for merit based personnel system coverage within a reasonable period.

(c) Any non-governmental prime sponsor or administrative unit for a consortium is not subject to the requirements of paragraph (b) of this section unless they are governmental units.

(d) Prime sponsors and eligible applicants are encouraged to include on their staffs individuals who are representative of the population to be served by the program.

§ 98.15 Adjustments in payments.

(a) If any funds are expended by a grantee, subgrantee, or employing agency in violation of the Act, the regulations or grant conditions, the Secretary may make necessary adjustments in payments on account of such expenditures (sec. 108 (b)(2)).

(b) The Secretary may draw back unexpended funds which have been made available in order to assure that they will be used in accordance with the purposes of the Act, or to prevent further unauthorized or illegal expenditures (secs. 103 (h) and 108(b)(2)).

§ 98.16 Termination of grant.

(a) If a grantee violates or permits a subgrantee or an employing agency to violate the regulations, or grant terms or conditions which the Secretary has issued or shall subsequently issue during the period of the grant, the Secretary may terminate the grant in whole or in part unless the grantee causes such violation to be corrected within a period of 30 days after receipt of notice specifying the violation or the determination of the Secretary, pursuant to a hearing under Part 98, if a hearing has been held.

(b) Termination shall be affected by a notice of termination which shall specify the extent of termination and the date upon which such termination becomes effective. Upon receipt of notice of termination, the grantee shall: (1) Discontinue further commitments of grant funds to the extent that they relate to the terminated portion of the grant; (2) promptly cancel all subgrants, agreements, and contracts utilizing funds under this grant to the extent that they relate to the terminated portion of the grant; (3) settle, with the approval of the Secretary, all outstanding claims arising from such termination; (4) submit, within a reasonable period of time after the receipt of the notice of termination, a termination settlement proposal which shall include a final statement of all unreimbursed costs related to the terminated portion of the grant, but in case of terminations under paragraph (a) of this section will not include the cost of preparing a settlement proposal (secs. 108(b)(2), 110(b), and 602 (b)).

§ 98.17 Grant closeout procedures.

(a) The closeout of a grant is the process by which a Federal grantor agency determines that all applicable administrative actions and all required work of the grant have been completed by the grantee and the grantor. The following procedures will be complied with during this process of determination.

(b) Upon completion of the legal grant period or at such other termination date determined by the Secretary, the following steps will be taken by each grantee:

(1) An immediate refund to the ARDM of any unencumbered balance of cash drawn down from the letter of credit or advanced by treasury checks..

(2) An immediate refund to the ARDM of any interest income earned on the granted money except as provided in § 98.19.

(3) A final Quarterly Progress Report will be prepared for each grant and Title under which programs were conducted under the Act.

(4) A final Report of Federal Cash Transactions shall be prepared and sent to the ARDM.

(5) A final Summary of Client Characteristics Report shall be prepared and sent to the ARDM.

(6) Upon closeout, the regional office will insure that:

(1) Prompt payment is made to the prime sponsor or eligible applicant for reimbursement of costs under the grant being closed out.

(2) After the final reports are received, a settlement is made for any upward or downward adjustments which are made to the Federal share of the costs.

(3) The letter of credit is cancelled.

(4) Final program and fiscal audits are performed as soon as possible after the completion of termination date of the grant.

§ 98.18 Retention of records.

(a) Grantees are required to maintain records on each program participant. The following types of information shall be recorded:

(1) Personal identifying information.

(2) Residence.

(3) Work history of the participant.

(4) Program activities in which the client participated.

(5) Supportive services received by the participant.

(6) Status of participant at termination from program.

Specific items, instructions, and definitions are contained in the Forms Preparation Handbook.

(b) Pursuant to the provisions set forth in Attachment C of Office of Management and Budget Circular A–102, the following shall apply with regard to the retention of records pertaining to any grant program under this Act (secs. 603(12) and 613).

(1) Financial records, supporting documents, statistical records and all other pertinent records shall be retained for a period of 3 years. No Federal requirements for records retention which exceed those established by State or local governments shall be otherwise imposed, with the following qualifications:

(i) Records shall be retained beyond the 3-year period if audit findings have not been resolved.

(ii) Records for nonexpendable property acquired with Federal grant funds shall be retained for 3 years after its disposition.

(iii) When grant program records are transferred to or maintained by the Secretary, the 3-year retention requirement will not be applicable to the grantee which had administered that grant program.

(2) The retention period shall start from the date of submission of the annual or final expenditure report, whichever applies to the particular grant.

(3) The substitution of microfilm copies in lieu of original records may be authorized by the ARDM upon request of the grantee.

(4) The Secretary will request State and local prime sponsors to transfer grant records to the Department's custody when it is determined that such records have long-term retention value. However, suitable arrangements to avoid duplicate recordkeeping shall be made where the Department and any grantee needs such records for joint use.

(5) The grantee agrees to maintain the confidentiality of any information regarding applicants, project participants or their immediate families that identifies or may be used to identify them, and which may be obtained through application forms, interviews, tests, reports from public agencies or counselors, or any other source. Without the permission of the applicant or participant, such information shall be divulged only as necessary for purposes related to the performance or evaluation of the grant, to persons having responsibilities under the grant, including those furnishing services to the project under subgrant or contract, and to governmental authorities to the extent necessary for the proper administration of law.

§ 98.19 Program income.

(a) The State and any agency or instrumentality of a State which is a grantee shall not be held accountable for interest earned on grant-in-aid funds pending their disbursement for program purposes under the Act (OMB Circular A–102).

(b) Units of local government shall be required to return to the Federal Government interest earned on advances of grant-in-aid funds in accordance with a decision of the Comptroller General of the United States (42 Comp. Gen. 289).

(c) Proceeds from the sale of real and personal property, either provided by the Federal Government or purchased in whole or in part with Federal funds, shall be handled in accordance with Attachment N of OMB Circular A–102 pertaining to Property Management.

(d) Royalties received from copyrights and patents during the grant period shall be retained by the grantee and be added to the funds already committed to the program. After termination or completion of the grant, the Federal share of royalties in excess of $200 received annually shall be returned to the Federal grantor agency (OMB Circular A–102).

(e) All other program income earned during the grant period shall be retained by the grantee and, in accordance with the grant agreement, shall be added to funds committed to the project and be used to further program objectives (OMB Circular A–102).

(f) The prime sponsor shall record the receipt and expenditure of revenues (such as taxes, special assessments, levies, fines, etc.) as a part of grant project transactions.

§ 98.20 Procurement standards.

The standards to be used for the procurement of supplies, equipment, and other material and services with Federal grant funds are those described in Attachment O of OMB Circular A–102. These standards are furnished to assure that such materials and services are obtained in compliance with the provisions of applicable Federal laws and Executive Orders.

§ 98.21 Nondiscrimination and equal employment opportunities.

(a) No person shall on the ground of race, creed, color, handicap (as defined in paragraph (g) of this section), national origin, sex, political affiliation, or beliefs be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with funds made available under the Act (secs. 603(1), 612, and Vocational Rehabilitation Act, sec. 504).

(b) When the Secretary determines that a grantee has failed to comply with the requirements of paragraph (a) of this section, he shall notify the grantee of the noncompliance and request the grantee to secure compliance. If within a reasonable time, not to exceed 60 days, the grantee fails or refuses to secure compliance, the Secretary may terminate financial assistance under the Act and:

(1) May refer the matter to the Attorney General with a recommendation that an appropriate civil action be instituted;

(2) May exercise the powers and functions provided by Title VI of the Civil Rights Act of 1964 (42, USC 2000(d)); and

(3) May take other actions as may be provided by law.

(c) When a matter under this section is referred to the Attorney General, or when the Secretary of Labor believes that a pattern or practice of discrimination exists, the Attorney General may bring a civil action in any appropriate United States District Court, including injunctive relief.

(d) The Secretary shall enforce the provisions of paragraph (a) of this section with regard to discrimination on the basis of sex in accordance with section 602 of the Civil Rights Act of 1964. Section 603 of such Act shall apply with respect to any action taken by the Secretary to enforce these provisions.

(e) This section shall not be construed as affecting any other legal remedy that a person may have if that person is excluded from participation in, denied the benefits of, subjected to discrimination under, or denied employment in connection with any program or activity receiving assistance under the Act.

(f) The grantee shall be responsible for assuring that no discrimination prohibited by this section occurs in any program for which it has responsibility, and shall establish an effective mechanism for this purpose. The grantee may, as one possible means of establishing this mechanism, assign the responsibility for administering the Equal Employment Opportunity (EEO) program to one individual and requires subgrantees and contractors to prepare affirmative action plans. In such cases, the grantee may include in its comprehensive manpower plan a description of its EEO program and the related affirmative action plans of its subgrantees and contractors, including the procedures established for monitoring these activities.

(g) The term "Handicapped individual" means any individual who (1) has a physical or mental disability which for such individual constitutes or results in a substantial handicap to employment, and (2) can reasonably be expected to benefit in terms of employability from an activity under the Act.

§ 98.22 Nepotism.

The provisions of this section shall apply to all activities under the Act except that the nepotism requirements for Title II, found in § 96.26(c) and § 96.44 shall not be superseded.

(1) *Restriction.* No grantee, subgrantee or contractor may hire a person into an administrative position funded under the Act if a member of his or her immediate family is employed in an administrative capacity for the same grantee, subgrantee or contractor: *Provided, however,* That nothing in this paragraph shall be construed to prohibit an otherwise eligible individual from participating in any program under the Act. Where a State or local statute regarding nepotism exists which is more restrictive than this policy the eligible applicant should follow the State or local statute in lieu of this policy.

(2) *Definitions.* (i) For purpose of this section, the term "member of the immediate family" includes: Wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in law, aunt, uncle, niece, nephew, stepparent, and stepchild.

(ii) For the purposes of this section, the term "administrative capacity" includes those who have selection, hiring or supervisory responsibilities for Title II participants, or operational responsibility for the program.

§ 98.23 Special limitations on participant selection.

(a) (1) *Political activities.* No program under this part may involve political activities, and neither the program nor the funds provided therefor, nor the personnel employed in the administration of the program, shall be in any way or to any extent engaged in the conduct of political activities in contravention of Chapter 15 of Title 5, United States Code. Prohibited activities under this section include, but are not necessarily limited to the assignment of any participant by an eligible applicant or subgrantee or employing agency to work for or on behalf of a partisan political activity; to take part in voter registration activities; or to participate in other partisan political activities such as lobbying, collecting funds, making speeches, assisting at meetings and doorbell ringing, and distributing political pamphlets in an effort to persuade others of any political view.

(2) Participants employed in the administration of the program and participants whose principal employment is in connection with an activity financed by other Federal grants or loans are covered by the Hatch Act. Other participants are not precluded from taking an active part in political management or in a political campaign outside of working hours, provided they do not identify themselves as spokesman for any Title II funded program. All participants may take part in non-partisan activities outside of working hours (sec. 208(g)).

(b) *Sectarian activities.* No participant in any program under this part may be employed in the construction, operation, or maintenance of such part of any facility as is used or will be used for sectarian instruction or as a place of religious worship (sec. 208(h)).

Subpart B—Assessment and Evaluation

§ 98.30 General.

This Subpart B sets forth the assessment and evaluation responsibilities of the grantees (§ 98.31) and the Secretary of Labor (§ 98.32). The grantee shall, as part of its general responsibility to carry out the purposes and provisions of the Act, establish adequate program management for the purposes of examining, in a systematic fashion, the performance of its program in meeting the goals and objectives contained in the plan and measuring the effectiveness and impact of its program in resolving manpower problems identified in that plan (secs. 105 (a)(1)(b) and 603 (14)).

The Secretary shall assess grantees to determine whether they are carrying out the purposes and provisions of the Act in accordance with their approved

V 39 — 108 JUN 4 74 XUM

plans. The Secretary shall also evaluate the overall programs and activities conducted under the Act to aid in the overall administration of the Act (secs. 311(c)(d) and 313(b)).

§ 98.31 Responsibilities of the prime sponsor or eligible applicant.

(a) As prescribed under subpart A of this Part 98, the grantee shall submit periodic reports on the performance of its program in relation to its plan as required by the Secretary (secs. 313(b) and 603(12)). The grantee shall implement and maintain the necessary recordkeeping required to complete these periodic reports. While such recordkeeping will support reports to the Secretary, it is principally for the use of the grantee to provide basic internal management information.

(b) The grantee is required to establish internal program management procedures (sec. 603(14)). Such procedures shall be used by the grantee in the monitoring of day-to-day operations, to periodically review the performance of the program in relation to program goals and objectives, and to measure the effectiveness and impact of program results in terms of participants, program activities, and the community. The objective of such procedures shall be the improvement of overall program management and effectiveness.

(c) The grantee shall monitor all activities for which it has been provided funds under the Act to determine whether the assurances and certifications made in its plans and the purposes and provisions of the Act are being met, and to identify problems which may require the grantee to take corrective action in order to assure such compliance. The grantee shall fulfill this monitoring function through the use of internal evaluative procedures, the examination of program data, or through such special analysis or checking as it deems necessary and appropriate (secs. 105 (a) and (b), 108(d), and 603).

(d) The grantee shall cooperate with the Secretary's evaluation and assessments by providing special reports on program activities and operations as requested; the findings of evaluations of effectiveness and impact; and access to its records and program operations.

(e) When the grantee finds that operations do not equal planned performance, it shall develop and implement appropriate corrective action.

§ 98.32 Responsibilities of the Secretary.

(a) As used in this section, the term "assessment" refers to the Federal review of plans and performance of individual grantees, and the term "evaluation" refers to the Federal study of the overall effectiveness and impact of programs and activities under the Act.

(b) The Secretary has the responsibility to determine that the grantee is operating in general accordance with its approved plan in carrying out the purposes and provisions of the Act, and has demonstrated maximum efforts to implement the provisions in its prior year's plan.

(1) The Secretary shall assess the grantee's program and activities in order to determine compliance with assurances and certifications of its plan, compliance with the purposes and provisions of the Act, and performance in the achievement of goals and objectives specified in the approved plan (secs. 105, 108(d), and 603).

(2) Such assessment shall be conducted through the review of required periodic reports and shall be supplemented by special reports from the grantee, the examination of records maintained by the prime sponsor or eligible applicant, selective on-site reviews including in certain instances, the investigation of allegations or complaints, or other examination as deemed necessary and appropriate by the Secretary (secs. 311(c)(d), 313(a)(b), 603(12), and 108).

(3) Assessment may also be conducted for purposes of the offering of technical assistance and/or recommendations for corrective actions to grantees as considered necessary.

(c) The Secretary has the responsibility to provide for the continuing evaluation of all programs and activities conducted pursuant to the Act. Such studies shall include examination of:

(1) Cost in relation to effectiveness;

(2) Impact on communities and participants;

(3) Implication for related programs;

(4) Extent to which needs of various age groups are met;

(5) Adequacy of mechanisms for the delivery of services;

(6) Comparative effectiveness of grantee programs with similar programs conducted by the Secretary under sec. 110 or Title III;

(7) Opinions of participants about the strengths and weaknesses of the programs;

(8) Relative and comparative effectiveness of programs under this Act and Part C of Title IV of the Social Security Act (Work Incentive Program for Welfare recipients) (sec. 313(a) and (b));

(9) The effectiveness of programs in meeting the employment needs of disadvantaged, unemployed, and underemployed persons; and

(10) The extent to which artificial barriers restricting employment and advancement opportunities in agencies receiving funds under the Act have been removed.

(d) The Secretary shall compile, on a State, regional and national basis, information obtained from periodic reports or special reports, surveys, or samples required from grantees, including information on:

(1) Enrollee characteristics, including age, sex, race, health, education level, and previous work and employment experience;

(2) Duration in training and employment situations including information on the duration of program participation for at least a year following the termination of participation in Federally-assisted programs and comparable information on other employees or trainees or participating employers; and

(3) Total dollar cost per trainee, including breakdown between salary or allowance, training and supportive services, and administrative costs (sec. 313 (b)).

(e) Evaluation carried out in accordance with paragraph (d) of this section may be conducted directly by Department of Labor staff or through contract, grant or other arrangement, as the Secretary deems necessary or appropriate (sec. 311(c)).

§ 98.33 Limitation.

No prime sponsor or eligible applicant nor the Secretary shall, in arranging for evaluation of any program under the act, utilize for such evaluation any non-governmental individual institution, or organization which is associated with that program as a consultant, technical advisor or in any similar capacity (sec. 604 (c)).

§ 98.34 Consultation with the Secretary of Health, Education, and Welfare.

The Secretary shall consult with the Secretary of Health, Education, and Welfare with respect to arrangements for services of a health, education, or welfare character in plans under this Act. This consultation shall focus on the relationship of such services to be delivered under this Act with those being delivered under other applicable laws for which the Secretary of Health, Education, and Welfare is responsible.

Subpart C—Hearings and Judicial Review

§ 98.40 Purpose and policy.

(a) The regulations set forth in this Subpart C contain the procedures established by the Secretary for carrying out his responsibilities under the Act for the review of comprehensive manpower plans and applications for financial assistance, and for the receipt, investigation, hearing and determination of questions of noncompliance with the requirements of the Act and the regulations promulgated under the authority of the Act (sec. 108).

(b) It is the policy of the Secretary to receive information concerning alleged violations of any title of the Act and the regulations promulgated pursuant thereto from any person, or any unit of Federal, State or local government. Assistance in the filing of a formal allegation may be secured from the appropriate Regional Solicitor, by any person who desires and needs such assistance.

(c) A participant in a program under the Act must exhaust the administrative remedies established by the prime sponsor or eligible applicant for resolving matters in dispute prior to utilizing the procedures under this subpart C. The filing of such a complaint shall not, however, automatically act as a stay of the decision rendered by the prime sponsor or eligible applicant. A participant may initiate an action under this subpart within 30 days of any final decision by a grantee.

§ 98.41 Review of plans and applications; violations.

(a) The Secretary shall not finally disapprove any Comprehensive Manpower Plan or application for financial assistance submitted under any title of the Act, or any modifications, or amendments thereof, without first affording the grantee submitting the plan or application reasonable notice and opportunity for a hearing as provided in § 98.47 et seq.

(b) When information available to the Secretary indicates that a grantee may be:

(1) Maintaining a pattern of practice of discrimination in violation of sec. 603 (1) or sec. 612(a) of the Act or otherwise failing to serve equitably the economically disadvantaged, unemployed, or underemployed persons in the area it serves;

(2) Incurring unreasonable administrative costs in the conduct of activities and program, as determined pursuant to regulation;

(3) Failing to give due consideration to continued funding of programs of demonstrated effectiveness including those previously conducted under provisions of law repealed by sec. 614 of the Act; or

(4) Otherwise materially failing to carry out the purposes and provisions of the Act or regulations issued pursuant to the Act; he shall, before taking final action on such grounds, notify the grantee of his proposed action and provide the grantee a reasonable time within which to respond. All further proceedings shall be conducted as provided in § 98.47 et seq.

(c) Every other person claiming legal injury because of any action under the Act may be heard only by initiating a complaint under § 98.42.

§ 98.42 Complaints; filing of formal allegations; dismissal.

(a) Every complaint by any complainant, whether in writing or not, shall be filed as a formal allegation before the commencement of any investigation or corrective action is required under this part.

(b) All formal allegations shall be filed with the appropriate ARDM. A formal allegation so filed may be withdrawn only with the consent of the Secretary.

(c) A formal allegation pending more than 6 months after filing because the complainant has failed to cooperate or make himself available during investigation of the matter may be dismissed by the ARDM upon notice to the last known address of the complainant.

§ 98.43 Form.

(a) Every formal allegation shall be in writing and signed by the complainant, and shall be sworn to before a Notary Public, or other duly authorized person. A formal allegation need not be in any particular form, but should be neat, legible and suitable for flat filing.

§ 98.44 Contents of formal allegations; amendment.

(a) The formal allegation should contain the following:

(1) The full name and address of the person making the charge.

(2) The full name and address of the party against whom the formal allegation is made (hereinafter referred to as the respondent(s)).

(3) A clear and concise statement of the facts, including pertinent dates, constituting the alleged unlawful practice.

(4) Where known, the provisions of the Act, regulations, Comprehensive Manpower Plan, and application of the grantee believed to have been violated.

(5) A statement disclosing whether proceedings involving the act complained of have been commenced before a State or local authority, and, if so, the date of such commencement and the name of the authority.

(6) A statement that the administrative procedures established by the grantee have been, if applicable, followed to completion by the complainant.

(b) Notwithstanding the provisions of paragraph (a) of this section, a formal allegation will be considered to have been filed when the ARDM receives from the complainant a written statement sufficiently precise to both identify those against whom the allegations are made, and to fairly afford the respondent an opportunity to prepare a defense. A formal allegation may be amended to cure technical defects or omissions, including failure to swear to the allegation, or to clarify and amplify allegations made therein, and such amendments relate back to the original filling date. An amendment alleging additional acts not directly related to or growing out of the subject matter of the original formal allegation will be permitted only where at the date of the amendment the allegation could not have been timely filed as a separate formal allegation and the rights of any respondent will not be prejudiced.

§ 98.45 Investigations.

(a) The ARDM will make a prompt investigation of each formal allegation filed as provided in this part. The investigation may include, where appropriate, a review of pertinent practices and policies of any grantee, the circumstances under which the possible noncompliance with the Act or regulations issued thereunder occurred, and other factors relevant to a determination as to whether the respondent has failed to comply with requirements of the Act, the regulations, and the Comprehensive Manpower Plan.

(1) If an investigation pursuant to paragraph (a) of this section indicates to the ARDM a failure to comply with the Act, the regulations, or the Comprehensive Manpower Plan, the ARDM will so inform the respondent and the complainant and the matter, will if possible, be resolved by informal means. If informal resolution does not occur within a reasonable period of time, action will be taken as provided in this part or as otherwise provided by law.

(2) If an investigation does not warrant action pursuant to paragraph (a)(1) of this section, the ARDM will so inform the respondent and the complainant in writing.

(b) No grantee, participant, respondent or other persons shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by the Act, the regulations, the Comprehensive Manpower Plan, or the application of an eligible applicant because he has made a complaint, formal allegation, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. The identity of every complainant shall be kept confidential except to the extent necessary to carry out the purpose of this part, including the conduct of any investigation hearing, or judicial proceeding arising thereunder.

§ 98.46 Opportunity for hearings; when required.

An opportunity for a public hearing shall be extended in each of the following instances:

(a) When the ARDM receives a formal allegation from an affected unit of general local government that a grantee has changed its Comprehensive Manpower Plan so that it no longer complies with sec. 105 of the Act, or that in the administration of the plan there is a failure to comply substantially with any provision of the plan or with the requirements of secs. 603 and 604 of the Act and the matter has not been resolved informally within a reasonable period of time; or

(b) After the completion of an investigation, pursuant to § 98.45, or any formal allegation which indicates there is substantial evidence of facts supporting a conclusion of probable cause that a violation of the Act, or regulations issued pursuant thereto, has occurred or is occurring, or is about to occur, and the matter has not been resolved by informal means; or

(c) When the Secretary has reasonable cause to believe that a violation set forth in § 98.41(b) has occurred, or when the Secretary determines that fairness and the effective operation of programs under the Act would be furthered by an opportunity for a public hearing, including a finding under § 98.41 that a hearing should be provided.

§ 98.47 Hearings.

(a) *Opportunity for hearing.* Whenever an opportunity for a hearing is required by the Act, or § 98.46, and the issue has not been resolved informally, the Secretary or ARDM shall give reasonable notice by registered or certified mail, return receipt requested, to the affected respondent and complainant, if any. This notice shall advise the respondent of the allegations to be heard, the proposed remedial actions which may be taken, and the matters of fact or law asserted as the basis for the action. The notice shall (1) fix a date not less than 20 days after the date of such notice within which the respondent may request the Secretary or ARDM that the matter be scheduled for hearing, or (2)

V 39—108 JUN 4 74 XUM

advise the respondent and the complainant that the matter in question has been set by a Hearings Officer for hearing at a stated place and time. The time and place shall be fixed by a Hearings Officer in accordance with paragraph (b) and shall be subject to change for cause. A respondent may waive a hearing and submit written information and argument for the record. The failure of a respondent to request a hearing under this section or to appear at a hearing for which a date has been set shall be deemed to be a waiver of the right to a hearing under the Act and this part, and shall be respondent's consent to the making of a decision on the basis of such information as is available.

(b) *Time and place of hearings.* Hearings shall be held in Washington, D.C., at a time fixed by a Hearing Officer. At the request of the respondent or Department, and upon a determination by the Hearings Officer that the relative conveniences of the respondent and Department so warrant, and no issue presented involved a determination which has been made at the Department's national office, the Hearings Officer may select a place for hearing in the city of the regional office of the Department.

(c) *Right to counsel.* In all proceedings under this section, the respondent and the Department shall have the right to be represented by counsel.

(d) *Procedures, evidence, and record.* (1) The hearing, decision, and any administrative review thereof shall be conducted in conformity with section 5–8 of the Administrative Procedure Act, and in accordance with such rules of procedure as are proper (and not inconsistent with this section) relating to the conduct of the hearing, giving of notices subsequent to those provided for in paragraph (a) of this section, taking of testimony, exhibits, arguments and briefs, requests for findings, and other related matters. Both the Department and the respondent shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the Hearings Officer conducting the hearings at the outset of or during the hearing.

(2) Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available, and to subject testimony to test by cross-examination, shall be applied where reasonably necessary by the Hearings Officer conducting the hearing. The Hearings Officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions shall be based upon the hearing record and written findings shall be made.

(3) The general provisions governing discovery as provided in the Rules of Civil Procedure for the United States District Court, Title V, 28 U.S.C., Rules 26 through 37, may be made applicable in any hearing conducted under this part to the extent that the Hearing Officer concludes that their use would promote the efficient advancement of the hearing.

(4) When a public officer is a respondent in a hearing in his official capacity and during its pendency dies, resigns, or otherwise ceases to hold office, the proceeding does not abate and his successor is automatically substituted as a party. Proceedings following the substitution shall be in the name of the substituted party, but any misnomer not affecting the substantive rights of the parties shall be disregarded. An order of substitution may be entered at any time, but the omission to enter such an order shall not affect the substitution.

(e) *Consolidated or joint hearings.* In cases in which the same or related facts are asserted to constitute noncompliance with this part with respect to two or more programs to which this part applies or noncompliance with this part and the regulations of one or more other Federal departments or agencies, the Secretary may, by agreement with such other departments or agencies, where applicable, provide for the conduct of consolidated or joint hearings, and for the application to such hearings of rules of procedure not inconsistent with this part. Final decisions in such cases, insofar as this part is concerned, shall be made in accordance with § 98.48.

(f) *Hearing Officers.* Hearings shall be held before an Administrative Law Judge of the Department or by such other person as may be designated by the Secretary.

§ 98.48 Initial certification, decisions, and notices.

(a) *Authority of hearing officer to render decision.* The Administrative Law Judge or other designated hearing officer is authorized to make an initial decision unless the Secretary otherwise limits this authority in a particular case.

(b) *Decisions and certifications by hearing officers.* The Administrative Law Judge, or other persons designated to hear the matter, shall make an initial decision, if so authorized (see § 98.47(f)), or certify the entire record including his recommended findings of fact, conclusions of laws, and proposed decision to the Secretary for a final decision, and a copy of such initial decision of certification shall be mailed to the respondent and the complainant. When an initial decision is made the respondent may, within 30 days of mailing of such notice of initial decision, file with the Secretary his exceptions to the initial decision, with his reasons therefor. In the absence of exceptions, the Secretary may on his own motion within 45 days after the initial decision serve on the respondent a notice that he will review the decision. Upon the filing of such exceptions or of such notice of review, the Secretary shall review the initial decision and issue his own decision thereon including the reasons therefor. The decision of the Secretary shall be mailed promptly to the respondent and the complainant, if any. In the absence of either exceptions or a notice of review, the initial decision shall constitute the final decision of the Secretary.

(c) *Decisions on record or review by the Secretary.* Whenever a record is certified to the Secretary for decision or he reviews an initial decision pursuant to paragraph (a) of this section, the respondent shall be given reasonable opportunity to file with him briefs or other written statements of its contentions. A copy of the final decision of the Secretary shall be given in writing to the respondent and to the complainant, if any.

(d) *Decisions on record where a hearing is waived.* Whenever a hearing is waived under this part, a decision shall be made by the Secretary on the record and a copy of such decision shall be given in writing to the respondent, and to the complainant, if any.

(e) *Rulings required.* Each decision of an Administrative Law Judge or the Secretary shall set forth his ruling on each finding, conclusion, or exception presented, and shall identify the requirement or requirements imposed by or pursuant to the Act of regulations issued thereunder with which it is found that the respondent has failed to comply.

(f) *Content of orders.* The final decision may provide for suspension or termination of, or refusal to grant or continue Federal financial assistance, in whole or in part, under the program involved in accordance with the Act, and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act and regulations issued thereunder, including provisions designed to assure that no Federal financial assistance will thereafter be extended under such program to the respondent determined by such decision to be in default in its performance of an assurance given by it pursuant to the Act or regulations issued thereunder, or to have otherwise failed to comply with the Act or regulations issued thereunder, unless and until it corrects its noncompliance, and satisfies the Secretary that it will fully comply with the Act and regulations issued thereunder.

§ 98.49 Judicial review.

Action taken pursuant to section 108 of the Act is subject to judicial review as provided in section 109 of the Act. All other action initiated under the Act and regulations issued thereunder shall be final upon a determination by the Secretary.

Signed in Washington, D.C. this 28th day of May 1974.

PETER J. BRENNAN,
Secretary of Labor.

Estuarine Sanctuary Guidelines

V 39 108 JUN 4 74 XUM

Title 15—Commerce and Foreign Trade

CHAPTER IX—NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 921—ESTURAINE SANCTUARY GUIDELINES

The National Oceanic and Atmospheric Administration (NOAA) on March 7, 1974, proposed guidelines (15 CFR Part 921) pursuant to section 312 of the Coastal Zone Management Act of 1972 (Pub. L. 92–583, 86 Stat. 1280), hereinafter referred to as the "Act," for the purpose of establishing the policy and procedures for the nomination, selection and management of estuarine sanctuaries.

Written comments were to be submitted to the Office of Coastal Environment (now the Office of Coastal Zone Management), National Oceanic and Atmospheric Administration, before April 8, 1974, and consideration has been given those comments.

The Act recognizes that the coastal zone is rich in a variety of natural, commercial, recreational, industrial and esthetic resources of immediate and potential value to the present and future well-being of the nation. States are encouraged to develop and implement management programs to achieve wise use of the resources of the coastal zone, and the Act authorizes Federal grants to the States for these purposes (sections 305 and 306).

In addition, under section 312 of the Act, the Secretary of Commerce is authorized to make available to a coastal State grants of up to 50 per centum of the cost of acquisition, development and operation of estuarine sanctuaries. The guidelines contained in this part are for grants under section 312.

In general, section 312 provides that grants may be awarded to States on a matching basis to acquire, develop and operate natural areas as estuarine sanctuaries in order that scientists and students may be provided the opportunity to examine over a period of time ecological relationships within the area. The purpose of these guidelines is to establish the rules and regulations for implementation of this program.

The National Oceanic and Atmospheric Administration is publishing herewith the final regulations describing the procedures for applications to receive grants for estuarine sanctuaries under section 312 of the Act. The final regulations and criteria were revised from the proposed guidelines based on the comments received. A total of fifty (50) States, agencies, organizations and individuals submitted responses to the proposed section 312 guidelines published in the FEDERAL REGISTER on March 7, 1974. Of those responses received, eight (8) offered no comment or were wholly favorable as to the nature and content of the guidelines as originally proposed. Forty-two (42) commentators submitted suggestions concerning the proposed section 312 guidelines.

The following summary analyzes key comments received on various sections of the proposed regulations and presents the rationale for the responses made.

Section 921.2 *Definitions*. Three comments requested that the term "estuary" be defined. Although the term is defined in the Act and also in the regulations dealing with Coastal Zone Management Program Development Grants (Part 920 of this chapter) published November 29, 1973, it has been added to these regulations and broadened slightly to include marine lagoons with restricted freshwater input such as might occur along the south Texas coast.

Two other comments requested that the "primary purpose" referred to in § 921.2(b) be clearly defined. Although elaborated upon in § 921.3(a), for the purpose of clarity this change has been made.

Section 921.3 *Objectives and Implementation*. Several comments suggested that the estuarine sanctuary program objectives were too narrowly defined and specifically that they should be broadened to include the acquisition and preservation of unique or endangered estuaries for wildlife or ecological reasons. Although the Act (section 302) declares it the nation's policy to preserve, protect, develop, and where possible, to restore or enhance coastal resources, this is perceived to be achievable through State actions pursuant to sections 305 and 305. While it is recognized that the creation of an estuarine sanctuary may in fact serve to preserve or protect an area or biological community, the legislative history of section 312 clearly indicates the estuarine sanctuary program was not intended to duplicate existing broad purpose Federal preservation programs, such as might be accommodated by use of the Land and Water Conservation Fund Act. Instead, both in the Act as well as its legislative history, the objective is defined as preserving representative estuarine areas for long-term research and educational uses.

Three other comments suggested the objectives of the program should be enlarged to include the restoration of environmentally degraded areas. This, too, is perceived to be a State requirement separate from section 312. In addition, adequate authority for restoring degraded water areas now exists (for example, Pub. L. 92–500 in addition to sections 302, 305 and 306 of the Act). No significant additional benefit would appear to result from declaring an area an estuarine sanctuary for the purposes of restoration.

A few comments indicated that the examples of sanctuary use were too heavily weighted toward scientific uses to the exclusion of educational uses. Public education concerning the value and benefits of, and the nature of conflict within the coastal zone, will be essential to the success of a coastal zone management program. The section has been changed to reflect an appropriate concern for educational use.

Some commentators suggested changes in or additions to the specific examples of sanctuary uses and purposes. These examples were taken from the Senate and House Committee Reports and are considered sufficient to reflect the kinds of uses intended within an estuarine sanctuary.

Several comments were received pertaining to § 921.3(c) involving the restrictions against overemphasis of destructive or manipulative research. Ten comments indicated that the section was too weak and would not provide sufficient long-term protection for the sanctuary ecosystem. Several commentators specifically recommended deleting the words "would not normally be permitted" and inserting in their place "will not be permitted." In contrast, three respondents indicated that the potential use of estuarine sanctuaries for manipulative or destructive research was too restricted, and that these uses should be generally permitted if not encouraged.

The legislative history of section 312 clearly indicates that the intent of the estuarine sanctuary program should be to preserve representative estuarine areas so that they may provide long-term (virtually permanent) scientific and educational use. The uses perceived are compatible with what has been defined as "research natural areas." In an era of rapidly degrading estuarine environments, the estuarine sanctuary program will ensure that a representative series of natural areas will be available for scientific or educational uses dependent on that natural character, for example, for baseline studies, for use in understanding the functioning of natural ecological systems, for controls against which the impacts of development in other areas might be compared, and as interpretive centers for educational purposes. Any use, research or otherwise, which would destroy or detract from the natural system, would be inappropriate under this program.

In general, the necessity of or benefit from permitting manipulative or destructive research within an estuarine sanctuary is unclear. While there is a legitimate need for such kinds of research, ample opportunity for manipulative or destructive research to assess directly man's impact or stresses on the estuarine environment exists now without the need for creation or use of an estuarine sanctuary for this purpose. In contrast, a clear need exists for natural areas to serve as controls for manipulative research or research on altered systems.

The section on manipulative research has been changed to reflect the concern for continued maintenance of the area as a natural system. However, the modifier "normally" has been retained because, within these limits, it is not felt necessary to preclude all such uses; the occasion may rarely arise when because of a thoroughly demonstrated direct benefit, such research may be permitted.

Several comments suggested that the program should include degraded estuarine systems, rather than be limited to areas which are "relatively undisturbed by human activities." Such areas would permit research efforts designed to restore an estuarine area. As indicated above, an ample legislative mandate to restore environmentally degraded areas already exists; the benefits to be derived from declaring such areas estuarine sanctuaries would be marginal. Indeed, it would appear that if restoration efforts cannot occur without estuarine sanctuary designation, then, given the limited resources of this program, such efforts would not be feasible.

A few commentators suggested that the phrase (§ 921.3(e)) "if sufficient permanence and control by the State can be assured, the acquisition of a sanctuary may involve less than the acquisition of a fee simple interest" be more clearly defined. Explanatory language has been added to that section.

Section 921.4 *Zoogeographic Classification*. Because the classification scheme utilized plants as well as animals, two commentators suggested that zoogeographic be changed to biogeographic. This change is reflected in the final regulations.

One comment suggested that selection of sanctuaries should depend on the pressures and threats being brought to bear upon the natural areas involved even if this meant selecting several sanctuaries from one classification and none from another.

The legislative history of section 312 clearly shows the intent to select estuarine sanctuaries on a rational basis which would reflect regional differentiation and a variety of ecosystems. The biogeographic classification system, which reflects geographic, hydrographic, and biologic differences, fulfills that intention. A scheme which would abandon that system, or another similar one, and would not fulfill the requirements of providing regional differentiation and a variety of ecosystems, would not be consistent with the intended purpose of the Act.

A few comments received suggested that the biogeographic classification scheme be enlarged by the addition of a new class reflecting an area or State of special concern or interest to the respondent. (No two commentators suggested the same area.) It is felt that adequate national representation is provided by the biogeographic scheme proposed, and that the changes offered were in most cases examples of sub-categories that might be utilized.

One comment suggested a specific change in the definition of the "Great Lakes" category. Portions of that suggestion have been incorporated into the final rules.

Two commentators requested assurance that sub-categories of the biogeographic scheme will in fact be utilized. The final language substitutes "will be developed and utilized" for "may be developed and utilized."

Section 921.5 *Multiple Use*. Several comments were received pertaining to the multiple use concept. Three commentators suggested that the multiple use directive was contrary to or absent from the Act and should be omitted. Ten respondents felt the concept should be more explicitly defined and restricted so that the primary purpose of the sanctuary would be more clearly protected. In contrast, two commentators felt that the definition might prove too restrictive and should be broadened. Several commentators suggested that examples of anticipated multiple use might be appropriate.

While recognizing that it is not always possible to accommodate more than a single use in an environmentally sensitive area, it is not the intention to unnecessarily preclude the uses of sanctuary areas where they are clearly compatible with and do not detract from the long-term protection of the ecosystem for scientific and educational purposes. The language of § 921.5 has been changed accordingly.

Section 921.6 *Relationship to Other Provisions of the Act and to Marine Sanctuaries*. Several comments were received which commended and stressed the need for close coordination between the development of State coastal zone management programs, especially and land and water use controls, and the estuarine sanctuary program.

The relationship between the two programs is emphasized: estuarine sanctuaries should provide benefit—both short-term and long-term—to coastal zone management decision-makers; and State coastal zone management programs must provide necessary protection for estuarine sanctuaries. This necessary coordination is discussed not only in the estuarine sanctuary regulations, but will also be addressed in an appropriate fashion in guidelines and rules for Coastal Zone Management Program Approval Criteria and Administrative Grants.

Three commentators discussed the need for swift action by both State and Federal governments to establish and acquire estuarine sanctuaries. The Office of Coastal Zone Management intends to pursue the program as swiftly as available manpower restraints will permit.

A few comments sought reassurance that the estuarine sanctuaries program will in fact be coordinated with the Marine Sanctuaries Program (Title III, Pub. L. 92–532). The guidelines have been changed to reflect that both programs will be administered by the same office.

SUBPART B—APPLICATION FOR GRANTS

Section 921.10 *General*. One reviewer indicated uncertainty about which State agency may submit applications for grants under section 312. Although individual States may vary in the choice of individual agencies to apply for an estuarine sanctuary, because of the necessity for coordination with the State coastal zone management program the entity within the State which is the certified contact with the Office of Coastal Zone Management, NOAA, responsible for the administration of the coastal zone management program must endorse or approve an estuarine sanctuary application.

Appropriate language has been included to ensure this coordination.

Section 921.11 *Initial Application for Acquisition, Development and Operation Grants*. Two comments requested that the source and nature of acceptable matching funds should be explicitly identified.

OMB Circular A–102 generally defines and identifies legitimate "match" for Federal grant projects. In general, reference should be made to that document. However, the section has been expanded in response to some specific and frequent questions.

Two comments stressed the need for increased availability of research funds to adequately utilize the potential of estuarine sanctuaries. While not an appropriate function of the estuarine sanctuary program, the Office of Coastal Zone Management is discussing the necessity of adequate funding with appropriate agencies.

One comment suggested that the term "legal description" of the sanctuary (§ 921.11(a)) is not appropriate for all categories of information requested. The word "legal" has been omitted.

Three reviewers indicated that the Act provides no basis for consideration of socio-economic impacts (§ 921.11(1)) and that this criterion seemed inappropriate to selecting estuarine sanctuaries. Apparently these reviewers misunderstood the intention of this requirement. The information in this section is necessary for preparation of an environmental impact statement which will be prepared pursuant to NEPA. Although required in the application, such information is not a part of the selection criteria, which are addressed in Subpart C, § 921.20.

One similar comment was received with regard to consideration of existing and potential uses and conflicts (§ 921.-11(h)). This item is also discussed under selection criteria (§ 921.20(h)). It is intended that this criterion will only be considered when choosing between two or more sanctuary applications within the same biogeographic category which are of otherwise equal merit.

One comment drew attention to an apparent typographic error in § 921.11 (m) where the term "marine estuaries" seems out of context. This has been corrected.

Two commentators suggested that public hearings should be required in the development of an estuarine sanctuary application. Although such a hearing is deemed desirable by the Office of Coastal Zone Management, it would not always seem to be necessary. The language in § 920.11(1) has been changed to reflect the sincere concern for the adequate involvement of the public, which is also addressed under a new § 920.21.

One respondent suggested that a new section be added requiring the applicant to discuss alternative methods of acquisition or control of the area, including the designation of a marine sanctuary, in place of establishing an estuarine sanctuary. A new section (§ 920.11(n)) has been added for this purpose.

Section 921.12 *Subsequent Application for Development and Operation Grants*. Three commentators expressed concern that the intent of § 921.12 be more clearly expressed. Appropriate changes have been made.

V 39 108 JUN 4 74 XUM

One comment was made that a provision should be included to use existing Federally owned land for the purpose of the estuarine sanctuary program. A section has been added for that purpose.

Section 921.20 *Criteria for Selection.* One comment suggested that the consideration of conflict with existing or potential competing uses should not be included as a selection criterion. As discussed above, this criterion is considered appropriate.

Another reviewer suggested the addition of a new criterion, consideration of "the need to protect a particular estuary from harmful development." As discussed earlier, this criterion is not considered appropriate. Such a basis for determining selection would lead to a reactionary, random series of estuarine sanctuaries, rather than the rationally chosen representative series mandated in the legislative history.

Two reviewers commented that the limitation on the Federal share ($2,000,000 for each sanctuary) was too low and would severely restrict the usefulness of the program. However, this limitation is provided by the Act.

Another commentator suggested that § 921.20(g) was unnecessarily restrictive in that it might prevent selecting an estuarine sanctuary in an area adjacent to existing preserved lands where the conjunction might be mutually beneficial. The language of § 921.20(g) does not preclude such action, but has been changed to specifically permit this possibility.

Two commentators inquired whether the reference to a "draft" environmental impact statement (§ 921.20, last paragraph) indicated an intention to avoid further compliance with NEPA. It is the firm intention of the Office of Coastal Zone Management to fully comply in all respects with NEPA. The word "draft" has been struck.

Three reviewers addressed the problems of providing adequate public participation in the review and selection process. In addition to the change in § 920.11(1), a new section has been added to address this issue.

SUBPART D—OPERATION

Section 921.30 *General.* One commentator suggested that during contract negotiations, there should be a meeting between the applicant agency and proposed sanctuary management team, and representatives of the Office of Coastal Zone Management. The general provisions have been broadened to provide for this suggestion.

Two comments were submitted which urged that some discretion be exercised in the use and access to the sanctuary by scientists and students. Two other comments were received which requested specific protection for use by the general public. The guidelines have been changed to include these suggestions.

One comment was received suggesting language to clarify § 921.30(g), This was incorporated into the guidelines.

Two commentators expressed concern for enforcement capabilities and activities to ensure protection of the estuarine sanctuaries. A new section has been added which addresses this issue.

Finally, one suggestion was received that a vehicle for change in the management policy or research programs should be provided. A new section has been added for that purpose.

Accordingly, having considered the comments received and other relevant information, the Secretary concludes by adopting the final regulations describing the procedure for applications to receive estuarine sanctuary grants under section 312 of the Act, as modified and set forth below.

Effective date: June 3, 1974.

Dated: May 31, 1974.

ROBERT M. WHITE,
Administrator.

921.32 Program review.

AUTHORITY: Sec. 312 of the Coastal Zone Management Act of 1972 (Pub. L. 92-583, 86 Stat. 1280).

Subpart A—General

§ 921.1 Policy and Objectives.

The estuarine sanctuaries program will provide grants to States on a matching basis to acquire, develop and operate natural areas as estuarine sanctuaries in order that scientists and students may be provided the opportunity to examine over a period of time the ecological relationships within the area. The purpose of these guidelines is to establish the rules and regulations for implementation of the program.

§ 921.2 Definitions.

(a) In addition to the definitions found in the Act and in the regulations dealing with Coastal Zone Management Program Development Grants published November 29, 1973 (Part 920 of this chapter) the term "estuarine sanctuary" as defined in the Act, means a research area which may include any part or all of an estuary, adjoining transitional areas, and adjacent uplands, constituting to the extent feasible a natural unit, set aside to provide scientists and students the opportunity to examine over a period of time the ecological relationships within the area.

(b) For the purposes of this section, "estuary" means that part of a river or stream or other body of water having unimpared connection with the open sea where the seawater is measurably diluted with freshwater derived from land drainage. The term includes estuary-type areas of the Great Lakes as well as lagoons in more arid coastal regions.

(c) The term "multiple use" as used in this section shall mean the simultaneous utilization of an area or resource for a variety of compatible purposes or to provide more than one benefit. The term implies the long-term, continued uses of such resources in such a fashion that other uses will not interfere with, diminish or prevent the primary purpose, which is the long-term protection of the area for scientific and educational use.

§ 921.3 Objectives and implementation of the program.

(a) General. The purpose of the estuarine sanctuaries program is to create natural field laboratories in which to gather data and make studies of the natural and human processes occurring within the estuaries of the coastal zone. This shall be accomplished by the establishment of a series of estuarine sanctuaries which will be designated so that at least one representative of each type of estuarine ecosystem will endure into the future for scientific and educational purposes. The primary use of estuarine sanctuaries shall be for research and educational purposes, especially to provide some of the information essential to coastal zone management decision-making. Specific examples of such purposes and uses include but are not limited to:

(1) To gain a thorough understanding of the ecological relationships within the estuarine environment.

(2) To make baseline ecological measurements.

(3) To monitor significant or vital changes in the estuarine environment.

(4) To assess the effects of man's stresses on the ecosystem and to forecast and mitigate possible deterioration from human activities.

(5) To provide a vehicle for increasing public knowledge and awareness of the complex nature of estuarine systems, their values and benefits to man and nature, and the problems which confront them.

(b) The emphasis within the program will be on the designation as estuarine sanctuaries of areas which will serve as natural field laboratories for studies and investigations over an extended period. The area chosen as an estuarine sanctuary shall, to the extent feasible, include water and land masses constituting a natural ecological unit.

(c) In order that the estuarine sanctuary will be available for future studies, research involving the destruction of any portion of an estuarine sanctuary which would permanently alter the nature of the ecosystem shall not normally be permitted. In the unusual circumstances where permitted, manipulative field research shall be carefully controlled. No experiment which involves manipulative research shall be initiated until the termination date is specified and evidence given that the environment will be returned to its condition which existed prior to the experiment.

(d) It is anticipated that most of the areas selected as sanctuaries will be relatively undisturbed by human activities at the time of acquisition. Therefore, most of the areas selected will be areas with a minimum of development, industry or habitation.

(e) If sufficient permanence and control by the State can be assured, the acquisition of a sanctuary may involve less than the acquisition of a fee simple interest. Such interest may be, for example, the acquisition of a conservation easement, "development rights", or other partial interest sufficient to assure the protection of the natural system. Leasing, which would not assure permanent protection of the system, would not be an acceptable alternative.

§ 921.4 Biogeographic classification.

(a) It is intended that estuarine sanctuaries should not be chosen at random, but should reflect regional differentiation and a variety of ecosystems so as to cover all significant variations. To ensure adequate representation of all estuarine types reflecting regional differentiation and a variety of ecosystems, selections will be made by the Secretary from the following biogeographic classifications:

1. *Arcadian.* Northeast Atlantic coast south to Cape Cod, glaciated shoreline subject to winter icing; well developed algal flora; boreal biota.

2. *Virginian.* Middle Atlantic coast from Cape Cod to Cape Hatteras; lowland streams, coastal marshes and muddy bottoms; characteristics transitional between 1 and 3; biota primarily temperate with some boreal representatives.

3. *Carolinian.* South Atlantic coast, from Cape Hatteras to Cape Kennedy; extensive marshes and swamps; waters turbid and productive; biota temperate with seasonal tropical elements.

4. *West Indian.* South Florida coast from Cape Kennedy to Cedar Key; and Caribbean Islands; shoreland low-lying limestone; calcareous sands, marls and coral reefs; coastal marshes and mangroves; tropical biota.

5. *Louisianian.* Northern Gulf of Mexico, from Cedar Key to Mexico; characteristics of 3, with components of 4; strongly influenced by terrigenous factors; biota primarily temperate.

6. *Californian.* South Pacific coast from Mexico to Cape Mendocino; shoreland influenced by coastal mountains; rocky coasts with reduced fresh-water runoff; general absence of marshes and swamps; biota temperate.

7. *Columbian.* North Pacific coast from Cape Mendocino to Canada; mountaineous shoreland; rocky coasts; extensive algal communities; biota primarily temperate with some boreal.

8. *Fiords.* South coast Alaska and Aleutians; precipitous mountains; deep estuaries, some with glaciers; shoreline heavily indented and subject to winter icing; biota boreal to sub-Arctic.

9. *Subarctic.* West and north coasts of Alaska; ice stressed coasts; biota Arctic and sub-Arctic.

10. *Insular.* Larger islands, sometimes with precipitous mountains; considerable wave action; frequently with endemic species; larger island groups primarily with tropical biota.

11. *Great Lakes.* Great Lakes of North America; bluff-dune or rocky, glaciated shoreline; limited wetlands; freshwater only; biota a mixture of boreal and temperate species with anadromous species and some marine invaders.

(b) Various sub-categories will be developed and utilized as appropriate.

§ 921.5 Multiple use.

(a) While the primary purpose of estuarine sanctuaries is to provide long-term protection for natural areas so that they may be used for scientific and educational purposes, multiple use of estuarine sanctuaries will be encouraged to the extent that such use is compatible with this primary sanctuary purpose. The capacity of a given sanctuary to accommodate additional uses, and the kinds and intensity of such use, will be determined on a case by case basis. While it is anticipated that compatible uses may generally include activities such as low intensity recreation, fishing, hunting, and wildlife observation, it is recognized that the exclusive use of an area for scientific or educational purposes may provide the optimum benefit to coastal zone management and resource use and may on occasion be necessary.

(b) There shall be no effort to balance or optimize uses of an estuarine sanctuary on economic or other bases. All additional uses of the sanctuary are clearly secondary to the primary purpose and uses, which are long-term maintenance of the ecosystem for scientific and educational uses. Non-compatible uses, including those uses which would cause significant short or long-term ecological change or would otherwise detract from or restrict the use of the sanctuary as a natural field laboratory, will be prohibited.

§ 921.6 Relationship to other provisions of the act and to marine sanctuaries.

(a) The estuarine sanctuary program must interact with the overall coastal zone management program in two ways: (1) the intended research use of the sanctuary should provide relevant data and conclusions of assistance to coastal zone management decision-making, and (2) when developed, the State's coastal zone management program must recognize and be designed to protect the estuarine sanctuary; appropriate land and water use regulations and planning considerations must apply to adjacent lands. Although estuarine sanctuaries should be incorporated into the State coastal zone management program, their designation need not await the development and approval of the management program where operation of the estuarine sanctuary would aid in the development of a program.

(b) The estuarine sanctuaries program will be conducted in close cooperation with the marine sanctuaries program (Title III of the Marine Protection, Research Act of 1972, Pub. L. 92–532, which is also administered by the Office of Coastal Zone Management, NOAA), which recognizes that certain areas of the ocean waters, as far seaward as the outer edge of the Continental Shelf, or other coastal waters where the tide ebbs and flows, or of the Great Lakes and their connecting waters, need to be preserved or restored for their conservation, recreational, ecologic or esthetic values. It is anticipated that the Secretary on occasion may establish marine sanctuaries to complement the designation by States of estuarine sanctuaries, where this may be mutually beneficial.

Subpart B—Application for Grants

§ 921.10 General.

Section 312 authorizes Federal grants to coastal States so that the States may establish sanctuaries according to regulations promulgated by the Secretary. Coastal States may file applications for grants with the Director, Office of Coastal Zone Management, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Rockville, Maryland 20852. That agency which has been certified to the Office of Coastal Zone Management as the entity responsible for administration of the State coastal zone management program may either submit an application directly, or must endorse and approve applications submitted by other agencies within the State.

§ 921.11 Application for initial acquisition, development and operation grants.

(a) Grants may be awarded on a matching basis to cover the costs of acquisition, development and operation of estuarine sanctuaries. States may use donations of land or money to satisfy all or part of the matching cost requirements.

(b) In general, lands acquired pursuant to this section, including State owned lands but not State owned submerged lands or bay bottoms, that occur within the proposed sanctuary boundary are legitimate costs and their fair market value may be included as match. However, the value of lands donated to or by the State for inclusion in the sanctuary may only be used to match other costs of land acquisition. In the event that lands already exist in a protected status, their value cannot be used as match for sanctuary development and operation grants, which will require their own matching funds.

(c) Development and operation costs may include the administrative expenses necessary to monitor the sanctuary, to ensure its continued viability and to protect the integrity of the ecosystem. Research will not normally be funded by Section 312 grants. It is anticipated that other sources of Federal, State and

V 39 – 108 JUN 4 74 XUM

private funds will be available for research in estuarine sanctuaries.

(d) Initial applications should contain the following information:

(1) Description of the proposed sanctuary include location, boundaries, size and cost of acquisition, operation and development. A map should be included, as well as an aerial photograph, if available.

(2) Classification of the proposed sanctuary according to the biogeographic scheme set forth in § 921.4.

(3) Description of the major physical, geographic and biological characteristics and resources of the proposed sanctuary.

(4) Identification of ownership patterns; proportion of land already in the public domain.

(5) Description of intended research uses, potential research organizations or agencies and benefits to the overall coastal zone management program.

(6) Demonstration of necessary authority to acquire or control and manage the sanctuary.

(7) Description of proposed management techniques, including the management agency, principles and proposed budget including both State and Federal shares.

(8) Description of existing and potential uses of and conflicts within the area if it were not declared an estuarine sanctuary; potential use, use restrictions and conflicts if the sanctuary is established.

(i) Assessment of the environmental and socio-economic impacts of declaring the area an estuarine sanctuary, including the economic impact of such a designation on the surrounding community and its tax base.

(9) Description of planned or anticipated land and water use and controls for contiguous lands surrounding the proposed sanctuary (including if appropriate an analysis of the desirability of creating a marine sanctuary in adjacent areas).

(10) List of protected sites, either within the estuarine sanctuaries program or within other Federal, State or private programs, which are located in the same regional or biogeographic classification.

(i) It is essential that the opportunity be provided for public involvement and input in the development of the sanctuary proposal and application. Where the application is controversial or where controversial issues are addressed, the State should provide adequate means to ensure that all interested parties have the opportunity to present their views. This may be in the form of an adequately advertised public hearing.

(ii) During the development of an estuarine sanctuary application, all landowners within the proposed boundaries should be informed in writing of the proposed grant application.

(iii) The application should indicate the manner in which the State solicited the views of all interested parties prior to the actual submission of the application.

(e) In order to develop a truly representative scheme of estuarine sanctuaries, the States should attempt to coordinate their activities. This will help to minimize the possibility of similar estuarine types being proposed for designation in the same region. The application should indicate the extent to which neighboring States were consulted.

(f) Discussion, including cost and feasibility, of alternative methods for acquisition, control and protection of the area to provide similar uses. Use of the Marine Sanctuary authority and funds from the Land and Water Conservation Fund Act should be specifically addressed.

§ 921.12 Application for subsequent development and operation grants.

(a) Although the initial grant application for creation of an estuarine sanctuary should include initial development and operation costs, subsequent applications may be submitted following acquisition and establishment of an estuarine sanctuary for additional development and operation funds. As indicated in § 921.11, these costs may include administrative costs necessary to monitor the sanctuary and to protect the integrity of the ecosystem. Extensive management programs, capital expenses, or research will not normally be funded by section 312 grants.

(b) After the creation of an estuarine sanctuary established under this program, applications for such development and operation grants should include at least the following information:

(1) Identification of the boundary.

(2) Specifications of the management program, including managing agency and techniques.

(3) Detailed budget.

(4) Discussion of recent and projected use of the sanctuary.

(5) Perceived threats to the integrity of the sanctuary.

§ 921.13 Federally owned lands.

(a) Where Federally owned lands are a part of or adjacent to the area proposed for designation as an estuarine sanctuary, or where the control of land and water uses on such lands is necessary to protect the natural system within the sanctuary, the State should contact the Federal agency maintaining control of the land to request cooperation in providing coordinated management policies. Such lands and State request, and the Federal agency response, should be identified and conveyed to the Office of Coastal Zone Management.

(b) Where such proposed use or control of Federally owned lands would not conflict with the Federal use of their lands, such cooperation and coordination is encouraged to the maximum extent feasible.

(c) Section 312 grants may not be awarded to Federal agencies for creation of estuarine sanctuaries in Federally owned lands; however, a similar status may be provided on a voluntary basis for Federally owned lands under the provisions of the Federal Committee on Ecological Preserves program.

Subpart C—Selection Criteria

§ 921.20 Criteria for selection.

Applications for grants to establish estuarine sanctuaries will be reviewed and judged on criteria including:

(a) Benefit to the coastal zone management program. Applications should demonstrate the benefit of the proposal to the development or operations of the overall coastal zone management program, including how well the proposal fits into the national program of representative estuarine types; the national or regional benefits; and the usefulness in research.

(b) The ecological characteristics of the ecosystem, including its biological productivity, diversity and representativeness. Extent of alteration of the natural system, its ability to remain a viable and healthy system in view of the present and possible development of external stresses.

(c) Size and choice of boundaries. To the extent feasible, estuarine sanctuaries should approximate a natural ecological unit. The minimal acceptable size will vary greatly and will depend on the nature of the ecosystem.

(d) Cost. Although the Act limits the Federal share of the cost for each sanctuary to $2,000,000, it is anticipated that in practice the average grant will be substantially less than this.

(e) Enhancement of non-competitive uses.

(f) Proximity and access to existing research facilities.

(g) Availability of suitable alternative sites already protected which might be capable of providing the same use or benefit. Unnecessary duplication of existing activities under other programs should be avoided. However, estuarine sanctuaries might be established adjacent to existing preserved lands where mutual enhancement or benefit of each might occur.

(h) Conflict with existing or potential competing uses.

(i) Compatibility with existing or proposed land and water use in contiguous areas.

If the initial review demonstrates the feasibility of the application, an environmental impact statement will be prepared by the Office of Coastal Zone Management in accordance with the National Environmental Policy Act of 1969 and implementing CEQ guidelines.

§ 921.21 Public participation.

Public participation will be an essential factor in the selection of estuarine sanctuaries. In addition to the participation during the application development process (§ 921.11(e)), public participation will be ensured at the Federal level by the NEPA process and by public hearings where desirable subsequent to NEPA. Such public hearings shall be held by the Office of Coastal Zone Management in the area to be affected by the proposed sanctuary no sooner than 30 days after it issues a draft environmental impact statement on the sanctuary proposal. It will be the responsibility of the Office of Coastal Zone Management, with the assistance of the applicant State, to issue adequate public notice of its intention to hold a public hearing. Such public notice shall be distributed widely, especially in the area of the proposed sanctuary; affected property owners and those agencies, organizations or individuals with an identified interest in the area or estuarine sanctuary program shall be notified of the public hearing. The public notice shall contain the name, address and phone number of the appropriate Federal and State officials to contact for additional information about the proposal.

Subpart D—Operation

§ 921.30 General.

Management of estuarine sanctuaries shall be the responsibility of the applicant State or its agent. However, the research uses and management program must be in conformance with these guidelines and regulations, and others implemented by the provisions of individual grants. It is suggested that prior to the grant award, representatives of the proposed sanctuary management team and the Office of Coastal Zone Management meet to discuss management policy and standards. It is anticipated that the grant provisions will vary with individual circumstances and will be mutually agreed to by the applicant and the granting agency. As a minimum, the grant document for each sanctuary shall:

(a) Define the intended research purposes of the estuarine sanctuary.

(b) Define permitted, compatible, restricted and prohibited uses of the sanctuary.

(c) Include a provision for monitoring the uses of the sanctuary, to ensure compliance with the intended uses.

(d) Ensure ready access to land use of the sanctuary by scientists, students and the general public as desirable and permissible for coordinated research and education uses, as well as for other compatible purposes.

(e) Ensure public availability and reasonable distribution of research results for timely use in the development of coastal zone management programs.

(f) Provide a basis for annual review of the status of the sanctuary, its value to the coastal zone program.

(g) Specify how the integrity of the system which the sanctuary represents will be maintained.

(h) Provide adequate authority and intent to enforce management policy and use restrictions.

§ 921.31 Changes in the sanctuary boundary, management policy or research program.

(a) The approved sanctuary boundaries; management policy, including permissible and prohibited uses; and research program may only be changed after public notice and the opportunity of public review and participation such as outlined in § 921.21.

(b) Individuals or organizations which are concerned about possible improper use or restriction of use of estuarine sanctuaries may petition the State management agency and the Office of Coastal Zone Management directly for review of the management program.

§ 921.32 Program review.

It is anticipated that reports will be required from the applicant State on a regular basis, no more frequently than annually, on the status of each estuarine sanctuary. The estuarine sanctuary program will be regularly reviewed to ensure that the objectives of the program are being met and that the program itself is scientifically sound. The key to the success of the estuarine sanctuaries program is to assure that the results of the studies and research conducted in these sanctuaries are available in a timely fashion so that the States can develop and administer land and water use programs for the coastal zone. Accordingly, all information and reports, including annual reports, relating to estuarine sanctuaries shall be part of the public record and available at all times for inspection by the public.

private funds will be available for research in estuarine sanctuaries.

(d) Initial applications should contain the following information:

(1) Description of the proposed sanctuary include location, boundaries, size and cost of acquisition, operation and development. A map should be included, as well as an aerial photograph, if available.

(2) Classification of the proposed sanctuary according to the biogeographic scheme set forth in § 921.4.

(3) Description of the major physical, geographic and biological characteristics and resources of the proposed sanctuary.

(4) Identification of ownership patterns, proportion of land already in the public domain.

(5) Description of intended research uses, potential research organizations or agencies and benefits to the overall coastal zone management program.

(6) Demonstration of necessary authority to acquire or control and manage the sanctuary.

(7) Description of proposed management techniques, including the management agency, principles and proposed budget including both State and Federal shares.

(8) Description of existing and potential uses of and conflicts within the area if it were not declared an estuarine sanctuary; potential use, use restrictions and conflicts if the sanctuary is established.

(i) Assessment of the environmental and socio-economic impacts of declaring the area an estuarine sanctuary, including the economic impact of such a designation on the surrounding community and its tax base.

(9) Description of planned or anticipated land and water use and controls for contiguous lands surrounding the proposed sanctuary (including if appropriate an analysis of the desirability of creating a marine sanctuary in adjacent areas).

(10) List of protected sites, either within the estuarine sanctuaries program or within other Federal, State or private programs, which are located in the same regional or biogeographic classification.

(i) It is essential that the opportunity be provided for public involvement and input in the development of the sanctuary proposal and application. Where the application is controversial or where controversial issues are addressed, the State should provide adequate means to ensure that all interested parties have the opportunity to present their views. This may be in the form of an adequately advertised public hearing.

(ii) During the development of an estuarine sanctuary application, all landowners within the proposed boundaries should be informed in writing of the proposed grant application.

(iii) The application should indicate the manner in which the State solicited the views of all interested parties prior to the actual submission of the application.

(e) In order to develop a truly representative scheme of estuarine sanctuaries, the States should attempt to coordinate their activities. This will help to minimize the possibility of similar estuarine types being proposed for designation in the same region. The application should indicate the extent to which neighboring States were consulted.

(f) Discussion, including cost and feasibility, of alternative methods for acquisition, control and protection of the area to provide similar uses. Use of the Marine Sanctuary authority and funds from the Land and Water Conservation Fund Act should be specifically addressed.

§ 921.12 Application for subsequent development and operation grants.

(a) Although the initial grant application for creation of an estuarine sanctuary should include initial development and operation costs, subsequent applications may be submitted following acquisition and establishment of an estuarine sanctuary for additional development and operation funds. As indicated in § 921.11, these costs may include administrative costs necessary to monitor the sanctuary and to protect the integrity of the ecosystem. Extensive management programs, capital expenses, or research will not normally be funded by section 312 grants.

(b) After the creation of an estuarine sanctuary established under this program, applications for such development and operation grants should include at least the following information:

(1) Identification of the boundary.

(2) Specifications of the management program, including managing agency and techniques.

(3) Detailed budget.

(4) Discussion of recent and projected use of the sanctuary.

(5) Perceived threats to the integrity of the sanctuary.

§ 921.13 Federally owned lands.

(a) Where Federally owned lands are a part of or adjacent to the area proposed for designation as an estuarine sanctuary, or where the control of land and water uses on such lands is necessary to protect the natural system within the sanctuary, the State should contact the Federal agency maintaining control of the land to request cooperation in providing coordinated management policies. Such lands and State request, and the Federal agency response, should be identified and conveyed to the Office of Coastal Zone Management.

(b) Where such proposed use or control of Federally owned lands would not conflict with the Federal use of their lands, such cooperation and coordination is encouraged to the maximum extent feasible.

(c) Section 312 grants may not be awarded to Federal agencies for creation of estuarine sanctuaries in Federally owned lands; however, a similar status may be provided on a voluntary basis for Federally owned lands under the provisions of the Federal Committee on Ecological Preserves program.

Subpart C—Selection Criteria

§ 921.20 Criteria for selection.

Applications for grants to establish estuarine sanctuaries will be reviewed and judged on criteria including:

(a) Benefit to the coastal zone management program. Applications should demonstrate the benefit of the proposal to the development or operations of the overall coastal zone management program, including how well the proposal fits into the national program of representative estuarine types; the national or regional benefits; and the usefulness in research.

(b) The ecological characteristics of the ecosystem, including its biological productivity, diversity and representativeness. Extent of alteration of the natural system, its ability to remain a viable and healthy system in view of the present and possible development of external stresses.

(c) Size and choice of boundaries. To the extent feasible, estuarine sanctuaries should approximate a natural ecological unit. The minimal acceptable size will vary greatly and will depend on the nature of the ecosystem.

(d) Cost. Although the Act limits the Federal share of the cost for each sanctuary to $2,000,000, it is anticipated that in practice the average grant will be substantially less than this.

(e) Enhancement of non-competitive uses.

(f) Proximity and access to existing research facilities.

(g) Availability of suitable alternative sites already protected which might be capable of providing the same use or benefit. Unnecessary duplication of existing activities under other programs should be avoided. However, estuarine sanctuaries might be established adjacent to existing preserved lands where mutual enhancement or benefit of each might occur.

(h) Conflict with existing or potential competing uses.

(i) Compatibility with existing or proposed land and water use in contiguous areas.

If the initial review demonstrates the feasibility of the application, an environmental impact statement will be prepared by the Office of Coastal Zone Management in accordance with the National Environmental Policy Act of 1969 and implementing CEQ guidelines.

§ 921.21 Public participation.

Public participation will be an essential factor in the selection of estuarine sanctuaries. In addition to the participation during the application development process (§ 921.11(e)), public participation will be ensured at the Federal level by the NEPA process and by public hearings where desirable subsequent to NEPA. Such public hearings shall be held by the Office of Coastal Zone Management in the area to be affected by the proposed sanctuary no sooner than 30 days after it issues a draft environmental impact statement on the sanctuary proposal. It will be the responsibility of the Office of Coastal Zone Management, with the assistance of the applicant State, to issue adequate public notice of its intention to hold a public hearing. Such public notice shall be distributed widely, especially in the area of the proposed sanctuary; affected property owners and those agencies, organizations or individuals with an identified interest in the area or estuarine sanctuary program shall be notified of the public hearing. The public notice shall contain the name, address and phone number of the appropriate Federal and State officials to contact for additional information about the proposal.

Subpart D—Operation

§ 921.30 General.

Management of estuarine sanctuaries shall be the responsibility of the applicant State or its agent. However, the research uses and management program must be in conformance with these guidelines and regulations, and others implemented by the provisions of individual grants. It is suggested that prior to the grant award, representatives of the proposed sanctuary management team and the Office of Coastal Zone Management meet to discuss management policy and standards. It is anticipated that the grant provisions will vary with individual circumstances and will be mutually agreed to by the applicant and the granting agency. As a minimum, the grant document for each sanctuary shall:

(a) Define the intended research purposes of the estuarine sanctuary.

(b) Define permitted, compatible, restricted and prohibited uses of the sanctuary.

(c) Include a provision for monitoring the uses of the sanctuary, to ensure compliance with the intended uses.

(d) Ensure ready access to land use of the sanctuary by scientists, students and the general public as desirable and permissible for coordinated research and education uses, as well as for other compatible purposes.

(e) Ensure public availability and reasonable distribution of research results for timely use in the development of coastal zone management programs.

(f) Provide a basis for annual review of the status of the sanctuary, its value to the coastal zone program.

(g) Specify how the integrity of the system which the sanctuary represents will be maintained.

(h) Provide adequate authority and intent to enforce management policy and use restrictions.

§ 921.31 Changes in the sanctuary boundary, management policy or research program.

(a) The approved sanctuary boundaries; management policy, including permissible and prohibited uses; and research program may only be changed after public notice and the opportunity of public review and participation such as outlined in § 921.21.

(b) Individuals or organizations which are concerned about possible improper use or restriction of use of estuarine sanctuaries may petition the State management agency and the Office of Coastal Zone Management directly for review of the management program.

§ 921.32 Program review.

It is anticipated that reports will be required from the applicant State on a regular basis, no more frequently than annually, on the status of each estuarine sanctuary. The estuarine sanctuary program will be regularly reviewed to ensure that the objectives of the program are being met and that the program itself is scientifically sound. The key to the success of the estuarine sanctuaries program is to assure that the results of the studies and research conducted in these sanctuaries are available in a timely fashion so that the States can develop and administer land and water use programs for the coastal zone. Accordingly, all information and reports, including annual reports, relating to estuarine sanctuaries shall be part of the public record and available at all times for inspection by the public.

federal register
Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 331—PLANT PEST REGULATIONS GOVERNING INTERSTATE MOVEMENT OF CERTAIN PRODUCTS AND ARTICLES

Subpart—Giant African Snail

REGULATED AREA IN FLORIDA

This document amends the regulation under the Federal Plant Pest Act (7 U.S.C. 150aa *et seq.*) restricting the interstate movement because of the giant African snail of certain products and articles from regulated portions of specified counties in the State of Florida by removing from the regulated portions of Dade County that portion specified below.

Pursuant to the provisions of section 106 of the Federal Plant Pest Act (7 U.S.C. 150ee), the notice of existence of hazardous situation and regulations related thereto with respect to the giant African snail (7 CFR 331.3), is hereby amended by deleting from paragraph (a) thereof the following portion of Dade County:

That portion of Dade County bounded by a line beginning at the intersection of Northwest 22d Avenue and Northwest 91st Street, thence extending east along Northwest 91st Street to its junction with Little River Boulevard, thence southeast and south along Little River Boulevard to the point where it merges with Northwest 14th Avenue, thence south along said avenue to its intersection with Northwest 83d Street, thence west along Northwest 83d Street to its intersection with Norhwest 22d Avenue, thence north along Northwest 22d Avenue to the point of beginning.

(Sec. 106, 71 Stat. 33 (7 U.S.C. 150ee); 37 FR 28464, 28477; 38 FR 19140)

The Deputy Administrator of the Plant Protection and Quarantine Programs has determined that infestations of the giant African snail no longer exist in the area being removed from the list of regulated portions of Dade County in the State of Florida. Surveys have failed to reveal any infestations of giant African snail for at least 2 years in this area.

This amendment relieves certain restrictions heretofore imposed, and should be made effective promptly in order to be of maximum benefit to persons subject to the restrictions being relieved.

Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to the foregoing amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Effective date. The foregoing amendment shall become effective June 5, 1974.

Done at Washington, D.C., this 30th day of May 1974.

LEO G. K. IVERSON,
Deputy Administrator, Plant Protection and Quarantine Programs.

[FR Doc.74-12845 Filed 6-4-74;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 911—LIMES GROWN IN FLORIDA

Expenses and Rate of Assessment and Carryover of Unexpended Funds

This document authorizes expenses of $38,500 for the Lime Administrative Committee under Marketing Order No. 911, for the 1974–75 fiscal year and fixes a rate of assessment of $0.05 per bushel of limes handled in such period to be paid to the Committee by each first handler as his pro rata share of such expenses.

On May 2, 1974, notice of rulemaking was published in the FEDERAL REGISTER (39 FR 15284) inviting written comments not later than May 21, 1974, regarding proposed expenses and the related rate of assessment for the period April 1, 1974, through March 31, 1975, and carryover of unexpended funds, purusant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida. None were received. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Florida Lime Administrative Committee (established purusant to said marketing agreement and order), it is hereby found and determined that:

§ 911.213 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Florida Lime Administrative Committee during the period April 1, 1974, through March 31, 1975, will amount to $38,500.

(b) *Rate of Assessment.* The rate of assessment for said period, payable by each handler in accordance with § 911.41, is fixed at $0.05 per bushel of limes.

(c) *Reserve.* Unexpended assessment funds in the amount of approximately $7,655, which are in excess of expenses incurred during the fiscal year ended March 31, 1974, shall be carried over as a reserve in accordance with §§ 911.42 and 911.204 of said amended marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until on or before July 5, 1974 (5 U.S.C. 553), in that (1) shipments of limes are now being made, (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable limes handled during the aforesaid period, and (3) such period began on April 1, 1974, and said rate of assessment will automatically apply to all such limes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 30, 1974.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-12842 Filed 6-4-74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Deletion of the Commonwealth of Puerto Rico From List of Hog Cholera Eradication States

This amendment removes the Commonwealth of Puerto Rico from the list of Hog Cholera Eradication States in 9 CFR 76.2(f), as amended, because of the secondary spread of hog cholera within that State. This action is deemed necessary to prevent the further spread of the disease. The special provisions in 9 CFR Part 76, as amended, pertaining to the interstate movement of swine and swine products from Eradication and Free States are no longer applicable to the Commonwealth of Puerto Rico. However, the general provisions contained in 9 CFR Part 76, as amended, pertaining to the interstate movement of swine and swine products from nonquarantined areas apply to the Commonwealth of

V 39—109 JUN 5 74 XUM

Puerto Rico. This removal of the Commonwealth of Puerto Rico from hog cholera eradication status affects the Federal indemnities payable under other regulations (9 CFR Part 56, as amended) for swine slaughtered because of hog cholera in the Commonwealth of Puerto Rico.

Accordingly, Part 76, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respect:

In § 76.2, in paragraph (f) the name of the Commonwealth of Puerto Rico is deleted.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141)

Effective date. The foregoing amendment shall become effective on June 5, 1974.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C. this 31st day of May 1974.

J. M. HEJL,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74–12880 Filed 6–4–74;8:45 am]

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Commuted Traveltime Allowances

The purpose of these amendments is to establish commuted traveltime periods as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which an employee of Veterinary Services performs overtime or holiday duty when such travel is performed solely on account of overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Animal and Plant Health Inspection Service.

Therefore, pursuant to the authority conferred upon the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service by § 97.1 of the regulations concerning overtime services relating to imports and exports (9 CFR 97.1) administrative instructions 9 CFR 97.2 (1974 ed.), as amended January 4, 1974 (39 FR 999) January 18, 1974 (39 FR 2265), March 18, 1974 (39 FR 10115), and April 4, 1974 (39 FR 12252), prescribing the commuted traveltime that shall be included in each period of overtime or holiday duty, are hereby amended by adding to or deleting from the respective lists therein as follows:

WITHIN METROPOLITAN AREA

1 HOUR

Add: Harrisburg, Pennsylvania (served from Camp Hill, Pennsylvania).

Delete: Camp Hill, Pennsylvania (served from Harrisburg, Pennsylvania).

OUTSIDE METROPOLITAN AREA

2 HOURS

Add: Harrisburg, Pennsylvania (served from Northumberland, Pennsylvania).

Delete: Lancaster and Northumberland, Pennsylvania (served from Harrisburg, Pennsylvania).

3 HOURS

Add: Harrisburg, Pennsylvania (served from Morgantown, Pennsylvania).

Delete: Morgantown, Pennsylvania (served from Harrisburg, Pennsylvania).

7 HOURS

Add: Kansas City International Airport (served from Jefferson City, Missouri).

(64 Stat. 561; 7 U.S.C. 2260)

Effective date. The foregoing amendments shall become effective June 5, 1974.

It is to the benefit of the public that these instructions be made effective at the earliest practicable date. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 31st day of May 1974.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74–12882 Filed 6–4–74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74–WE–28–AD; Amdt. 39–1862]

PART 39—AIRWORTHINESS DIRECTIVES

AiResearch Model TSCP700–5 Auxiliary Power Units (APU)

There have been fatigue cracks in the fuel control differential pressure regulator body of the Model TSCP700–4B APU's which can result in high pressure fuel leakage into the APU compartment. Since this same component is also used in the Model TSCP700–5 APU (installed in Airbus Industries A300B airplanes) and is subjected to the same operating conditions which have been determined to cause cracks to develop on the TSCP700–4B, an airworthiness directive is being issued to require an inspection of the regulator housing and the incorporation of a shut-down system to deliver fuel back to the inlet side of the pump in order to prevent pressure surges which can cause fatigue cracks. As an interim measure, the agency issued Amendment 39–1837 (39 FR 16874) AD 74–10–11, to prohibit all inflight operation of the TSCP700–4B APU's installed on McDonnell Douglas Model DC–10 aircraft. The FAA advised the Secretariat General A L Aviation Civile (SGAC) of this condition and recommended that similar action be considered on Model TSCP700–5 APU's installed in, but not limited to, Airbus Industries Model A300B aircraft, certificated in all categories.

Since a situation exists that requires immediate adoption of the regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive.

AIRESEARCH MANUFACTURING COMPANY OF ARIZONA. Applies to Model TSCP700–5 Auxiliary Power Units Installed in, but not Limited to, Airbus Industries Model A300B Aircraft Certificated in all Categories

Compliance required as indicated.

(a) For APU's with less than 1500 operating cycles on the effective date of this AD, inspect, prior to any further in-flight operation, unless already accomplished, the fuel control differential pressure regulator housing, P/N 977320–1 or –2, for minimum dimensions and cracks per paragraphs 2.B. (2) and (3) of AiResearch Alert Service Bulletin 969900–49–A3644, dated May 14, 1974, or later FAA-approved revisions. Re-work parts, if necessary, per paragraph 2.B.(4).

Housings which meet the prescribed minimum dimensions, or which are reworked to meet these dimensions per paragraph 2.B.(4) shall be re-identified as P/N 977320–4. Housings not meeting these dimensional requirements shall be rendered unserviceable and replaced with serviceable P/N 977320–4 housings. Housings which meet inspection and dimensional requirements may be continued in service up to a maximum of 1500 operating cycles.

NOTE: For the purpose of this AD, an APU operating cycle is any operation consisting of a start and shut-down. The number of cycles may be determined by actual count, or, subject to acceptance by the assigned FAA Maintenance Inspector, may be calculated by dividing the fuel control assembly time in service by the operator's fleet average APU operating time per APU operating cycle.

(b) For all APU's with 1,500 or more operating cycles in service on the effective date of this AD, inspect per (a), above, prior to further in-flight operation, unless already accomplished, and, in addition thereto, and prior to further in-flight operation, modify the fuel control assembly per (c), below.

(c) Before exceeding 1500 operational cycles in service, inspect the fuel control differential pressure regulator body per paragraph 2.B.(2) and modify the fuel control assembly in accordance with paragraphs 2.C. of AiResearch Service Bulletin 969900–49–A3644, dated May 14, 1974, or later FAA-approved revisions. Re-identify fuel control assembly per paragraph 2.D. of the referenced service bulletin.

(d) Within 3000 operating cycles in service after the accomplishment of paragraph (c), above, and at intervals not to exceed 3000 operating cycles in service thereafter, perform the inspections as defined in paragraph 2.B.(2) of AiResearch Service Bulletin 969900–49–A3644, dated May 14, 1974, or later FAA-approved revisions.

(e) The inspections prescribed in paragraph (d), above, may be discontinued when the fuel control differential pressure regulator P/N 977320–4 is replaced with a housing, P/N 977656–1.

(f) Equivalent procedures may be approved by the Chief, Aircraft Engineering Division, FAA Western Region, upon submission of adequate substantiation data.

This amendment becomes effective June 10, 1974.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California, on May 24, 1974.

R. S. SLIFF,
Acting Director, FAA Western Region.

[FR Doc.74–12770 Filed 6–4–74;8:45 am]

[Airworthiness Docket No. 74–WE–20–AD; Amdt. 39–1861]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model DC–10 Series Airplanes

There has been an apparent in-flight depressurization which may have been associated with a lower cargo door. Since this condition is likely to exist or develop in other airplanes of the same type design, a telegraphic airworthiness directive (74–08–04) was issued March 7, 1974, and amended by a telegram dated March 22, 1974. The agency has determined that further modifications are necessary to assure that in-flight depressurization will not occur as a result of the opening of a lower cargo door. Therefore, an airworthiness directive is being issued to require the installation of a view port to wing-to-fuselage fillet panel assembly on center lower cargo doors on McDonnell Douglas Model DC–10–30, DC–10–30F, and DC–10–40 airplanes. The installation of revised electrical wiring for all lower cargo door latch actuators, springs to vent doors and linkages, revised lock mechanism viewing windows, and revised lower cargo door markings on all McDonnell Douglas DC–10 airplanes is also required. The installation must be performed on or before November 1, 1974.

The November 1, 1974, compliance time for the modifications has been established by the agency on the basis of safety considerations. This compliance time provides the lead time for operators to schedule and plan compliance with the AD with minimum burden. To prescribe the modifications required by this AD under the usual notice and public procedures followed by the agency within the time the agency has determined is required in the interest of safety, would necessarily result in a reduction of the compliance time for modification required by this AD. This could possibly leave the operators insufficient time to schedule airplanes for compliance with the AD. Therefore, accomplishment of the modifications required by this AD within the time the agency has determined is necessary makes strict compliance with the notice and public procedure provisions of the Administrative Procedure Act impracticable and this amendment becomes effective on July 5, 1974. However, interested persons are invited to submit such written data, views, or arguments as they may desire regarding this AD. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Western Region, Attention: Regional Counsel, Airworthiness Rules Docket, P.O. Box 92007 World Way Postal Center, Los Angeles, California 90009. All communications received before the effective date will be considered by the Administrator, and the AD may be changed in light of comments received. All comments will be available both before and after the effective date in the Rules Docket for examination by interested persons. Operators are urged to submit their comments as early as possible since it may not be possible to evaluate comments received near the effective date in sufficient time to amend the AD before it becomes effective.

In consideration of the foregoing, and pursuant to the authority of the Federal Aviation Act of 1958, as amended, delegated to me by the Administrator (31 FR 13697), Section 39.13 of Part 39 of the Federal Aviation Regulations is hereby amended by adding the following new airworthiness directive:

MCDONNELL DOUGLAS. Applies to Model DC–10–10, DC–10–10F, DC–10–30, DC–10–30F, and DC–10–40 Airplanes Certificated in all Categories

Compliance required on or before November 1, 1974.

To assure that in-flight depressurization will not occur as a result of the opening of a lower cargo door, accomplish the following McDonnell Douglas DC–10 Service Bulletins, in accordance with each service bulletin effectivity, or equivalents approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(a) Service Bulletin 52–98, "Doors—Cargo—Modify Vent Doors," dated May 13, 1974, or later FAA-approved revision.

(b) Service Bulletin 52–99, "Doors—Cargo—Replace Lock Mechanism Viewing Window," Revision 1, dated April 19, 1974, or later FAA-approved revision.

(c) Service Bulletin 52–102, "Doors—Cargo—Revise Lower Cargo Door Markings," Revision 1, dated April 12, 1974, or later FAA-approved revision.

(d) Service Bulletin 52–106, "Doors—Cargo—Revise Electrical Wiring for Forward, Center, and Aft Cargo Doors Latch Actuators" dated April 25, 1974, or later FAA-approved revision.

(e) Service Bulletin 53–69, "Fuselage-Aerodynamic Fairings—Add View Port To Wing-To-Fuselage Fillet Panel Assembly on Center Cargo Door," dated May 6, 1974, or later FAA-approved revision. Only applies to Model DC–10–30, –30F and –40 airplanes.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herewith and made a part hereof, pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents may obtain copies upon request to McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90801. These documents may also be examined at FAA Western Region, 15000 Aviation Boulevard, Hawthorne, California.

This amendment becomes effective July 6, 1974.

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Los Angeles, California on May 24, 1974.

R. S. SLIFF,
Acting Director, FAA Western Region.

[FR Doc.74–12769 Filed 6–4–74;8:45 am]

[Docket No. 13819; Amdt. 39–1866]

PART 39—AIRWORTHINESS DIRECTIVES

Nihon Model YS–11/11A Airplanes

There has been a report of a fire during ground operations on a Nihon Aeroplane Manufacturing Company (NAMC) Model YS–11A–500 airplane that resulted in extensive damage to the aircraft fuselage structure and cabin interior. Subsequent investigation revealed that the malfunction occurred as a result of a defective electrical wiring harness between the AiResearch auxiliary power unit (APU) electronic control box and the APU load control valve. The wire short in the harness that resulted allowed the bleed air valve to remain in the open position and caused the cooling turbine to overheat resulting in a fire in the proximity of the air conditioning compartment which propagated through the floor structure into the cabin interior. Since this condition is likely to exist or develop in other NAMC Model YS–11/11A series airplanes equipped with AiResearch APU's, an airworthiness directive is being issued to require the inspection and modification of APU wiring harnesses on NAMC YS–11/11A series airplanes equipped with AiResearch APU's.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

V 39 109 JUN 5 74 XUM

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

Nihon Aeroplane Manufacturing Company Limited. Applies to NAMC Model YS-11/11A Series Airplanes (S/N's 2050 through 2053, 2056, 2057, 2061, 2062, 2072, 2073, 2075, 2077, 2079, 2084, 2086, through 2089, 2091, 2100, 2118 through 2123, 2126, 2128, 2129, 2132, 2140, 2148, 2159, 2169, 2172, 2173, and 2179 through 2181) Equipped With AiResearch APU's

Compliance required within the next 25 hours' time in service after the effective date of this AD unless already accomplished.

To prevent a possible malfunction in the auxiliary power unit (APU) wiring harness that could result in a fire, inspect and modify the installation of the APU electrical wiring harnesses in accordance with the Japan Civil Aviation Bureau approved NAMC YS-11 Service Bulletin No. A49-13, dated February 25, 1974 or an equivalent approved by the Chief, Engineering and Manufacturing District Office, FAA, Pacific-Asia Region.

This amendment becomes effective June 12, 1974.

Issued in Washington, D.C., on May 29, 1974.

James F. Rudolph,
Director,
Flight Standards Service.

[Airspace Docket No. 74-SO-32]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone; Correction

On May 16, 1974, FR Doc. No. 74-11227 was published in the Federal Register (39 FR 17431), amending Part 71 of the Federal Aviation Regulations by amending the designation of the Pompano Beach, Fla., control zone.

In the amendment, reference is erroneously made to "Runway 8/27" in lieu of "Runway 8/26." It is necessary to amend the Federal Register Document to correct this error. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, Federal Register Document No. 74-11227 is amended as follows:

In line seven of the amended description "* * * Runway 8/27 * * *" is deleted and "* * * Runway 8/26 * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on May 28, 1974.

Phillip M. Swatek,
Director, Southern Region.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-48 R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Mystic River, Mass.

This amendment changes the regulations for the Wellington Bridge across the Mystic River between Somerville and Medford, Massachusetts to allow the draw to remain closed to the passage of vessels. This amendment was circulated as a public notice dated December 2, 1973 by the Commander, First Coast Guard District and was published in the Federal Register as a notice of proposed rulemaking (CGD 74-48) on March 25, 1974 (39 FR 11096). No replies were received.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding a new subparagraph (3) to paragraph (g) of § 117.75 to read as follows:

§ 117.75 Boston Harbor, Mass., and adjacent waters; bridges.

* * * * *

(g) *Mystic River—Bridges from mouth to and including Boston and Maine Railroad bridge between Somerville and Medford.* * * *

(3) *Wellington Bridge between Somerville and Medford.* The draw need not open for the passage of vessels, and paragraphs (b) to (f) of this section shall not apply to this bridge.

* * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655 (g) (2); 49 CFR 146(c) (5), 33 CFR 1.05-1(c) (4)).

Effective date. This revision shall become effective on July 8, 1974.

Dated: May 30, 1974.

W. M. Benkert,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Marine Environment and Systems.

[FR Doc.74-12782 Filed 6-4-74;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

6-Chloropicolinic Acid

A petition (PP 2F1265) was filed by Dow Chemical U.S.A., P.O. Box 1706, Midland, MI 48640, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for residues of the soil fungicide nitrapyrin (2-chloro-6-(trichloromethyl) pyridine) in or on the raw agricultural commodities potatoes at 2 part per million; cottonseed at 1 part per million; corn fodder and forage and sorghum fodder at 0.5 part per million; corn grain (field corn, sweet corn, popcorn), fresh corn including sweet corn (kernels plus cob with husk removed), sorghum forage and grain, sugar beets (roots and tops), and wheat (forage, grain, and straw) at 0.1 part per million (negligible residue).

Subsequently, the petitioner amended the petition by:

1. Proposing that the tolerances be established for residues of 6-chloropicolinic acid (resulting from the use of nitrapyrin) instead of for residues of nitrapyrin;
2. Deleting the proposed tolerances for residues in or on potatoes and sugar beets (roots and tops);
3. Increasing the proposed tolerance for residues in or on wheat (forage and straw) from 0.1 part per million to 0.5 part per million; and
4. By proposing a tolerance for negligible residues of 6-chloropicolinic acid in meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry and sheep.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The fungicide is useful for the purpose for which the tolerances are being established.
2. Residues in plant or animal tissues will be in the form of 6-chloropicolinic acid or its conjugates.
3. The proposed tolerances are adequate to cover residues of 6-chloropicolinic acid in meat and poultry, and § 180.6(a)(2) applies.
4. There is no reasonable expectation of residues of 6-chloropicolinic acid in eggs and milk, and § 180.6(a)(3) applies.
5. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), Part 180 is amended by adding the following new sections to Subpart C:

§ 180.350 6-Chloropicolinic acid; tolerances for residues.

Tolerances are established for residues of 6-chloropicolinic acid resulting from the use of the soil fungicide nitrapyrin (2-chloro-6-(trichloromethyl) pyridine) in or on raw agricultural commodities as follows:

1 part per million in or on cottonseed.

0.5 part per million in or on corn fodder and forage, sorghum fodder, and wheat forage and straw.

0.1 part per million (negligible residue) in or on corn grain (field corn, sweet corn, popcorn), fresh corn including sweet corn (kernels plus cob with husk removed), sorghum grain and forage, and wheat grain.

0.05 part per million (negligible residue) in the meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry and sheep.

Any person who will be adversely affected by the foregoing order may, at any time on or before July 5, 1974, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on June 5, 1974.

(Sec. 408(d)(2), 68 Stat. 512 (21 U.S.C. 346a (d)(2)))

Dated: May 31, 1974.

Henry J. Korp,
Deputy Assistant Administrator
for Pesticide Programs.

Title 41—Public Contracts and Property Management

CHAPTER 60—OFFICE OF FEDERAL CONTRACT COMPLIANCE, EQUAL EMPLOYMENT OPPORTUNITY, DEPARTMENT OF LABOR

PART 60-5—WASHINGTON PLAN

Notice of Extension

On December 22, 1970, the Department of Labor published the Washington Plan (35 FR 19352). The Washington Plan is intended to implement the provisions of Executive Order 11246 (as amended) and the rules and regulations issued pursuant thereto, requiring a program of equal employment opportunity by Federal contractors and subcontractors in the Washington area, including the District of Columbia, the Virginia cities of Alexandria, Fairfax and Falls Church, the Virginia counties of Arlington, Fairfax, Loudoun and Prince William and the Maryland counties of Montgomery and Prince Georges. Due to the many good faith efforts of those subject to the Plan, significant progress has been made in eliminating the under-utilization of minorities in the Washington area construction industry. In order to further ensure such positive efforts, it is deemed appropriate to extend the Washington Plan for an additional month through June 30, 1974.

The extension of the Washington Plan for an additional month is intended to fill the void between the expiration date of the Washington Plan which was May 31, 1974 and the imminent development of a multitrade agreement (hometown plan) acceptable to the Department of Labor in lieu of any and all of the requirements of the present plan. In the absence of Federal EEO Bid Conditions incorporating such an agreement, Appendix A of the Washington Plan must be included in all invitations or other solicitations for bids on federally involved construction contracts for projects, the estimated total cost of which exceeds $500,000, in the Washington area until June 30, 1974. The goals contained in Appendix A for the year ending May 31, 1974, will be applicable to invitations and other solicitations for bids on federally involved construction contracts covered by the Washington Plan until June 30, 1974.

Signed this 31st day of May 1974.

Peter J. Brennan,
Secretary of Labor.

Bernard E. DeLury,
Assistant Secretary
for Employment Standards.

Philip J. Davis,
Director, Office of
Federal Contract Compliance.

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER F—TELECOMMUNICATIONS AND PUBLIC UTILITIES

[FPMR Amdt. F-20]

PART 101-35—TELECOMMUNICATIONS

Telephone Services

Sections 101-35.203 (a) and (b) are amended and a new Subpart 101-32.49, Forms and Illustrations, is added to illustrate the chart currently referred to in § 101-35.203(a).

The table of contents for Part 101-35 is amended by the addition of new Subpart 101-35.49 as follows:

Subpart 101-35.9—101-35.48—[Reserved]

Subpart 101-35.49—Forms and Illustrations

Sec.
101-35.4900 Scope of subpart.
101-35.4901 Required information for changes in telephone services.

Subpart 101-35.2—Major Changes and New Installations

Sections 101-35.203 (a) and (b) are amended to read as follows:

§ 101-35.203 Justification of major changes and new installations.

(a) * * *

(1) Information shall be provided as prescribed in the chart illustrated in § 101-35.4901.

* * * * *

(b) *Intercity telephone service.* Describe the requirement which can not be satisfied by the FTS intercity voice network and include the average number of messages per business day, average, conversation time per message, operating time per message, and percent of messages in the busy hour based on 5 workdays. The information should cover toll calls originating at either end of the proposed circuit. A copy of the telephone company's monthly statement of the toll calls, including charges originating at either end of the proposed intercity circuit, should be furnished also.

* * * * *

Subpart 101-35.49 is added as follows:

Subpart 101-35.49—Forms and Illustrations

§ 101-35.4900 Scope of subpart.

This subpart contains forms and illustrations prescribed or available for use in connection with subject matter covered in other subparts of 101-35.

§ 101-35.4901 Required information for changes in telephone services.

Note: The illustration in § 101-35.4901 is filed as part of the original document.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486 (c)))

Effective date. This regulation is effective on June 5, 1974.

Dated: May 29, 1974.

Arthur F. Sampson,
Administrator of General Services.

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order No. 5411]

ALASKA

Amendment of Public Land Orders No. 5174, No. 5180, and Any Order Amending the Foregoing Orders

Correction

In FR Doc. 74–3621 appearing at page 5632 of the issue of Thursday, February 14, 1974, in paragraph 4, the figure "1574" in the fifth line should read "5174".

Title 50—Wildlife and Fisheries

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER F—AID TO FISHERIES

PART 255—FISHING VESSEL OBLIGATION GUARANTEE PROGRAM PROCEDURES

Correction

In the FR Doc. 74–11348 of May 17, 1974, appearing on page 17557, 50 CFR, Chapter II, Part 255, in paragraph (b) of § 255.0 Sec. 1105(c) is corrected to read as follows:

(c) In the event of any payment by the Secretary of Commerce under section (a) or (b) of this section, the Secretary of Commerce shall have all rights in any security held by him relating to his guarantee of such obligations as are conferred upon him under any security agreement with the obligor. Notwithstanding any other provision of law relating to the acquisition, handling, or disposal of property by the United States, the Secretary of Commerce shall have the right, in his discretion, to complete, recondition, reconstruct, renovate, repair, maintain, operate, charter, or sell any property acquired by him pursuant to a security agreement with the obligor or may place a vessel in the national defense reserve. The terms of sale shall be as approved by the Secretary of Commerce.

Dated: May 31, 1974.

By order of the Administrator, National Oceanic and Atmospheric Administration.

ROBERT M. WHITE,
Administrator.

PART 255—FISHING VESSEL OBLIGATION GUARANTEE PROGRAM PROCEDURES

Correction

In FR Doc. 74–11348 appearing in the issue of May 17, 1974 on page 17555 make the following changes:

1. In paragraph 2, line 5, insert the word "Title" after the first entry.
2. In paragraph 3, line 4, the 5th word should read "loans".
3. In § 255.0(b) on page 17556, column 1, paragraph (g), lines 7 and 8 should read as follows:

"* * * by the shipbuilder, or, if the vessel has been reconstructed or reconditioned, the actual * * *"

4. In column 2 on page 17558, § 255.2 (b)(3), the last word in line 5 should be indented, run in with the remaining text and designated as a new paragraph (c).
5. In column 3 on page 17559 of § 255.3 (d)(1)(ii), the 4th word in line 14 should read "conservative".
6. In column 1 on page 17560 of § 255.3(d)(2)(vi) the last word in line 15 should read "science".

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–10828]

PART 240—GENERAL RULES AND REGULATIONS SECURITIES EXCHANGE ACT OF 1934

Mortgage Securities and Dealers; Exemption

Adoption of a rule defining certain mortgage securities as exempted securities for certain purposes and rescission of Rule which exempts broker-dealers from registration requirements if they deal in whole loan mortgages under certain conditions.

The Securities and Exchange Commission today announced the adoption of Rule 3a12–4 (17 CFR 240.3a12–4) and rescission of Rule 15a–1 (17 CFR 240.15a–1) under the Securities Exchange Act of 1934 (the "Act"). The rule was originally released for public comment on December 13, 1973 [1] and has been revised in line with some of the comments received. The principal effect of the new rule will be to exempt broker-dealers dealing solely in mortgage securities (as defined) under specified conditions and other exempted securities from the operation of subsections (a) and (c)(3) of Section 15 of the Act which provide, respectively, for registration of broker-dealers and for regulation of their financial responsibility by the Commission. Rule 15a–1 currently provides only for an exemption from the operation of the registration requirement.

Background of proposed rule. The Federal Home Loan Mortgage Corporation [2] ("FHLMC") has determined to implement its Congressional mandate [3] to create a liquid secondary market in residential mortgages by establishing a pilot project for an automated trading information system that would list offerings to buy and sell: (1) government guaranteed and non-guaranteed aggregated and individual whole loan mortgages; (2) participation interests (as defined) in such mortgages; (3) commitments for such mortgages; [4] (4) FHLMC guaranteed participation certificates; and (5) Government National Mortgage Association pass-through securities.[5] FHLMC will supervise, monitor and coordinate with the Commission on the regulation of the system.

In view of the Congressionally determined public need for more capital to be made available for real estate mortgages, the Commission has been working with FHLMC in clarifying the applicability of the Federal securities laws to the establishment and operation of the pilot system.[6] The Commission's action today is related directly to this joint effort.

There has been some question as to whether broker-dealers who were exempt from registration because they dealt solely in whole loan mortgages, as provided in Rule 15a–1, were still required to comply with other provisions of the Act applicable to brokers and dealers, particularly the various financial responsibility rules under section 15(c)(3). In view of the special nature of the mortgage market and the participants in that market, the Commission has not sought to establish a unique regulatory structure governing the financial responsibility of such firms. The Commission believes it appropriate to exempt all brokers and dealers who deal solely in mortgage securities, where the entire evidence of indebtedness is transferred and the unpaid principal amount of the individual loan or aggregate loans involved in the transaction is at least $50,000, from the operation of section 15(c)(3) of the Act. In this regard, it should be noted that FHLMC has devised certain financial standards that must be maintained by the participants in its proposed automated system. Since there are mortgage brokers and dealers who may not participate in FHLMC's automated system and therefore may not be subject to financial responsibility oversight of FHLMC, the Commission believes that where a broker-dealer sells an exempted mortgage security there should be a minimum cash requirement applicable to each separate sale of a mortgage security. Thus, in order to maintain the status quo with respect to the sophistication of the participants in the mortgage market, the exemption under the rule is available in the case of a sale of the mortgage security by a broker-dealer, if at the time of such sale such mortgage security is not in default and has an unpaid principal amount of at least $50,000. The words "is not in default" have been added to the rule to make clear that a mortgage in default would not be an exempted security.

At the same time, the Commission rescinds Rule 15–a1, which had provided only for an exemption from the operation of the registration requirement for broker-dealers who deal in whole loan mortgages under certain conditions, and places the substance of its provisions within Rule 3a12–4.[7]

Rule 3a12–4 as originally proposed would have included only whole loan mortgages. In view of the comments received the rule has been revised to add certain mortgage participation interests and advance commitments to the exempted category. Trading in participation interests that represent one of two undivided interests in a whole loan or an aggregated whole loan (of which one interest is retained by the originator) presently amounts to over $10 billion annually. Trading in commitments, which are contracts to purchase mortgages or participation interest in the future (generally within 2 years), comprises approximately one-half of the mortgage sales in the existing secondary mortgage market and are issued for the purpose of shifting the long-term market risks such as interest rate fluctuations.

It should be noted that Rule 3a12–4 does not exempt transactions in qualified mortgage securities from other provisions of the Act (i.e., other than subsections (a) and (c)(3) of section 15) and implementing Commission rules under those provisions. For example, these transactions are not exempt from the margin and antifraud provisions.

It should also be noted that the exemption afforded by the rule may be inapplicable if the mortgage security is sold as part of an "investment contract." For example, the following is a list of accompanying services retained (i.e., not transferred with the mortgage) and other attributes afforded by the seller or someone other than the buyer that the Commission has previously indicated [8] may result in a mortgage constituting a part of an investment contract.

1. Complete investigation and placing service.
2. Servicing collection, payments, foreclosures, etc.
3. Implied or express guarantee against loss at any time or providing a market for the underlying security.
4. Making advances of funds to protect the security of the investment.
5. Acceptance of small uniform or continuous investments.
6. Implied or actual guarantee of specified yield or return.
7. Continual reinvestment of funds.
8. Payment of interest prior to actual purchase of the mortgage or trust note.
9. Providing for fractional interests in mortgages or deeds of trust (other than as provided for by the rule).
10. Circumstances which necessitate complete reliance upon the seller.
11. Seller's selection of the mortgage or deed of trust for the investor.

The Commission notes, however, that it does not generally consider the retention of attribute #2 alone sufficient to change a mortgage transaction into one involving an investment contract.

Statutory basis. Because the above described revisions in Rule 3a12–4 (17 CFR 240.3a12–4) are technical in nature or relax certain of the requirements of the Securities Exchange Act of 1934 the Securities and Exchange Commission finds that, for good cause, the notice and procedures specified in the Administrative Procedure Act, 5 U.S.C. 553 are unnecessary. Accordingly the Securities and Exchange Commission, acting pursuant to the provisions of the Securities Exchange Act of 1934, and particularly sections 3(a)(12), 15(a)(2), 15(c)(3), and 23(a) thereof, and deeming it necessary and appropriate in the public interest and for the protection of investors, hereby amends Part 240 of Chapter II of Title 17 of the Code of Federal Regulations by rescinding § 240.15a–1 in its entirety and adopting § 240.3a12–4, effective July 1, 1974.

§ 240.3a12–4 Exemptions from sections 15(a) and 15(c)(3) for certain mortgage securities.

(a) When used in this Rule the following terms shall have the meanings indicated:

(1) The term "whole loan mortgage" means an evidence of indebtedness secured by mortgage, deed of trust, or other lien upon real estate or upon leasehold interests therein where the entire mortgage, deed or other lien is transferred with the entire evidence of indebtedness.

(2) The term "aggregated whole loan mortgage" means two or more whole loan mortgages that are grouped together and sold to one person in one transaction.

(3) The term "participation interest" means an undivided interest representing one of only two such interests in a whole loan mortgage or in an aggregated whole loan mortgage, provided that the other interest is retained by the originator of such participation interest.

(4) The term "commitment" means a contract to purchase a whole loan mortgage, an aggregated whole loan mortgage or a participation interest which by its terms requires that the contract be fully executed within 2 years.

(5) The term "mortgage security" means a whole loan mortgage, an aggregated whole loan mortgage, a participation interest, or a commitment.

(b) A mortgage security shall be deemed an "exempted security" for purposes of subsections (a) and (c)(3) of section 15 of the Act provided that, in the case of and at the time of any sale of the mortgage security by a broker or dealer, such mortgage security is not in default and has an unpaid principal amount of at least $50,000.

§ 240.15a–1 [Deleted]

(Secs. 3(a)(12), 15(a)(2), 15(c)(3), 23(a); 48 Stat. 882, 895, 901; as amended 49 Stat. 1379, 52 Stat. 1075, 78 Stat. 565, 84 Stat. 1653 (15 U.S.C. 78(c), 78*o*(a), 78*o*(c)(3), 78w(a)))

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

MAY 28, 1974.

[FR Doc.74–12909 Filed 6–4–74;8:45 am]

---

[1] Securities Exchange Act Release No. 10551. (38 FR 34898 December 20, 1973)

[2] FHLMC was established by Title III of the Emergency Home Finance Act of 1970, cited as the "Federal Home Loan Mortgage Corporation Act," codified as 12 U.S.C. Sections 1451–1459. FHLMC's capital stock consists solely of non-voting common stock held by the twelve Federal Home Loan Banks and its Board of Directors is composed of the three members of the Federal Home Loan Bank Board. It is an integral part of the Federal Home Loan Bank System.

[3] The Emergency Home Finance Act of 1970 was enacted following a determination by Congress that the nation needed more capital in residential mortgages and that this could be best accomplished by the establishment of a liquid market for such securities. FHLMC was established by this Act with the power "to make and enforce such by-laws, rules and regulations as may be necessary or appropriate to carry out the purposes or provisions of this title." 12 U.S.C. § 1452(b)(3).

[4] Non-guaranteed whole loan mortgages, participation interests and commitments must be registered under the Securities Act of 1933 unless they are exempt from such registration. FHLMC has received a "no-action" letter from the Division of Corporation Finance with respect to such listings on its system under certain conditions. Letter to Thomas R. Bomar, Chairman of FHLMC, from Neal S. McCoy, Associate Director, Division of Corporation Finance, dated May 22, 1974.

[5] The Government National Mortgage Association, pursuant to section 306(g) of the Federal National Mortgage Association Charter Act, as amended (12 U.S.C. (Supp. IV) 1721(g)) issues securities (referred to as "pass-through" securities) which are guaranteed as to timely payment of principal and interest with the full faith and credit of the United States. These securities are collateralized by pools of Federal Housing Administration (FHA) and/or Veterans Administration (VA) guaranteed mortgages.

[6] See Securities Exchange Act Release No. 9865 (November 17, 1972), relating to the adoption of Rule 3a12–1.

[7] A question has been raised as to whether whole loan mortgages can be aggregated and sold without losing their exempt status under Rule 15a–1. The exemption afforded by Rule 3a12–4 is not lost by such aggregation.

[8] See Securities Exchange Act Release No. 5633 (January 31, 1958) (interpretation of Rule 15a–1 noting these eleven attributes).

V 39 109 JUN 5 74 XUM

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 989]

RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Reporting Requirements on Disposition of Raisins to Canada

Notice is given of a proposal to require handlers to report disposition of free tonnage raisins to Canada in the same manner as they now report other export shipments of free tonnage raisins. This action would be in accordance with the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), hereinafter referred to collectively as the "order", regulating the handling of raisins produced from grapes grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was unanimously recommended by the Raisin Administrative Committee, hereinafter referred to as the "Committee".

The Committee's recommendation is under § 989.73(c) of the order. This section authorizes the Committee, with the approval of the Secretary, to request each handler to furnish to the Committee information as may be necessary to enable it to exercise its powers and perform its duties.

Section 989.173(c)(1) of Subpart—Administrative Rules and Regulations requires, in part, each handler who is not a processor to report monthly the aggregate quantity of each varietal type of free tonnage raisins which were shipped or otherwise disposed of by him during the preceding month, segregated according to domestic and export outlets. The last sentence of subdivision (v) of § 989.173(c)(1) provides that Canada shall be considered as a domestic outlet and not an export outlet for purposes of the required reports. Thus, the quantities of free tonnage raisins shipped by handlers to Canada are included in those quantities reported as shipments to domestic outlets. The Committee has concluded that reporting of free tonnage shipments to Canada as a separate figure would enable it to better exercise its powers and perform its duties and therefore has recommended that § 989.173(c)(1) be amended by deleting the last sentence of subdivision (v). After such deletion, Canada would be considered to be an export outlet for the reporting purposes of § 989.173(c) and thereafter, disposition of free tonnage raisins to Canada by handlers would be reported to the Committee as a separate figure. To conform other reporting requirements in § 989.173 with this change, the proposal would also delete other references to Canada in § 989.173 by deleting the words "including Canada" in § 989.173(f)(4)(i) and by deleting the parenthetical phrase "(including Canada)" in the first sentence in § 989.173(f)(5).

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than June 21, 1974. All written submissions made pursuant to this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: May 30, 1974.

CHARLES R. BRADER,
Acting Director,
Fruit and Vegetable Division.

[FR Doc.74–12841 Filed 6–4–74;8:45 am]

Animal and Plant Health Inspection Service

[9 CFR Part 102]

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

Notice of Proposed Rulemaking

Notice is hereby given in accordance with the provisions contained in section 553 of Title 5, United States Code, that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products in Part 102 of Title 9, Code of Federal Regulations, issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151–158).

These proposed amendments would update and correct the regulations pertaining to licensing as they are affected by recent amendments to other parts of 9 CFR. References to recently amended and new regulations and the use of newly defined terms constitute the primary changes. Paragraphing for emphasis and rewording for clarity have also been used.

Part 102—Licenses For Biological Products—is amended as follows:

1. Sections 102.3 (a)(4) and (b)(2) are amended to read:

§ 102.3 License applications.

(a) *U.S. Veterinary Biologics Establishment License.* * * *

(4) Triplicate copies of plot plans and blueprints, prepared as prescribed in Part 108 of this subchapter, shall accompany the application for license, unless such plot plans or blueprints, are already on file with Veterinary Services.

* * * * *

(b) *U.S. Veterinary Biological Product License.* * * *

(2) Each application for a U.S. Veterinary Biological Product License shall be supported by:

(i) At least three copies of an Outline of Production prepared in accordance with §§ 114.8 and 114.9 of this subchapter; and

(ii) At least three copies of test reports and research data sufficient to establish purity, safety, potency, and efficacy of the product; and

(iii) At least three copies of legends prepared as prescribed in § 108.8 of this subchapter designating which facilities are to be used in the preparation of the biological product; and

(iv) At least five copies of all labels in finished form or three copies of sketches prepared and submitted as prescribed in § 112.5 of this subchapter, together with information regarding all claims to be made on labels and in advertising matter to be used in connection with or related to the biological product.

2. Section 102.4 (a) and (b) is amended and a new paragraph (g) is added, to read:

§ 102.4 U.S. Veterinary Biologics Establishment License.

(a) Before a U.S. Veterinary Biologics Establishment License will be issued by the Deputy Administrator for any establishment, an inspection shall be made to determine whether the condition, equipment, facilities, and the like, of the establishment, and the methods used to prepare biological products are in conformity with the requirements in the regulations.

(b) A license shall not be issued unless:

(1) In the opinion of the Deputy Administrator, the condition of the establishment, including its facilities, and the methods of preparation of biological products are such as reasonably to assure that the products shall accomplish the purpose for which they are intended; and

(2) The Deputy Administrator is satisfied on the basis of information before him that:

(i) The establishment shall be operated in compliance with the Act and applicable regulations and be under the supervision of person(s) competent in the preparation of biological products; and

(ii) The applicant, or the person having the responsibility for producing biological products in the establishment, or both, is qualified by education and experience, and has demonstrated fitness to produce such products in compliance with the Act and regulations issued pursuant thereto; *Provided,* That, previous violations of the Act, or such regulations or both shall be relevant to the Deputy Administrator's determination of fitness.

(3) Written assurance is filed with Veterinary Services that the biological products which are licensed to be prepared therein shall not be so advertised as to mislead or deceive the purchasers and that the packages or containers in which the same are to be marketed shall not bear any statement, design, or device which is false or misleading in any particular.

* * * * *

(g) The provisions of paragraph (b) of this section shall also be applicable to, and be considered by, the Deputy Administrator in connection with each application for an additional product license.

3. Section 102.5(d)(1) is amended to read:

§ 102.5 U.S. Veterinary Biological Product License.

* * * * *

(d) The following provisions shall apply to all licensed biological products:

(1) Licensed biological products shall be prepared as required by the regulations and in accordance with a filed Outline of Production as prescribed in §§ 114.8 and 114.9 of this subchapter. No change shall be made in the preparation of a biological product without prior approval of the Deputy Administrator.

* * * * *

4. Sections 102.6 (b) (1) and (3) and (c) and (e) are amended to read:

§ 102.6 U.S. Veterinary Biological Product License (Special).

* * * * *

(b) * * * (1) The product shall be prepared in a manner acceptable to the Deputy Administrator. The applicant for a license may be required to develop appropriate test methods for the product.

* * * * *

(3) The licensee shall request the handlers to whom the biological product is distributed to:

(i) Keep complete records showing the name and address of each purchaser of the product and the name, serial number, and quantity of the product sold to such purchaser; and

(ii) Furnish to each veterinarian, animal owner, or other person using the product, a report form, approved by Veterinary Services, which shall contain blank spaces for stating pertinent information concerning the results obtained from use of the product; and

(iii) Request users of the product to complete and return the report form to an official of the Department specified by the Deputy Administrator.

* * * * *

(c) A special license shall be dated to terminate on any date established by the Deputy Administrator at the time of issuance and the termination date shall appear on the license.

(1) Immediately prior to the termination date, the licensee may request reissuance of the special license or issuance of a regular product license. At that time, the licensee shall be given an opportunity to present to Veterinary Services to substantiate such request, all available data and information obtained since the special license was issued.

(2) After reviewing the matter with the licensee and considering all data and information, either obtained from the licensee or from other sources, the Deputy Administrator shall issue a regular product license, or reissue a special license, or allow the special license to terminate.

* * * * *

(e) Violation of any of the conditions of a special license shall constitute a violation of this section and may be grounds for suspension or revocation of the special license under § 105.1 of this subchapter.

* * * * *

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828–A, Federal Building, Hyattsville, Maryland 20782. All comments received on or before July 8, 1974, will be considered.

All written submissions made pursuant to this notice will be made available for public inspection of Biologics Licensing and Standards Staff, at the above address, during regular business hours (7 CFR 1.27(b)).

Done at Washington, D.C., this 31st day of May 1974.

PIERRE A. CHALOUX,
Acting Deputy Administrator,
Veterinary Services, Animal
and Plant Health Inspection
Service.

Rural Electrification Administration

[7 CFR Part 1701]

ELECTRIC DISTRIBUTION LOANS

Loan Policy and Procedure

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 USC 901 et seq.), REA proposes to amend REA Bulletin 20–2, Electric Loan Policy, and to replace the memorandum filed with that Bulletin dated, September 11, 1973, and entitled "Loan Processing for Distribution Borrowers. The proposed changes in loan policy and procedure establish revised criteria in accordance with which REA will process loan applications and approve new loans for rural electric distribution facilities.

Persons interested in the proposed changes in REA loan policy and procedure may submit written data, views or comments to the Director, Power Supply, Management and Engineering Standards Division, Room 3313, South Building, USDA–REA, Washington, D.C. 20250, on or before June 20. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Power Supply, Management and Engineering Standards Division, during regular business hours.

The text of the proposed memorandum amending REA policy and procedure for new loans to REA electric distribution borrowers is as follows:

ELECTRIC DISTRIBUTION LOAN PROCEDURES—MODIFICATION OF LOAN CATEGORIES

ALL REA ELECTRIC BORROWERS

This replaces the File With to REA Bulletin 20–2 dated September 11, 1973. In fiscal 1974, the one-year loan program was modified to allow the processing of loan applications according to one of three loan categories. Experience indicates that processing loans in accord therewith has substantially reduced the loan application workload for the electric distribution borrowers as well as for REA. A modification of the loan categories will further ease the loan application burden and simplify the loan process. Effective July 1, 1974, the loan categories are redefined as follows:

Category I. Loan applications based on a new two-year construction work plan having a two-year loan requirement of $750,000 or less will be considered for the full two-year amount.

Category II. All applications based on a new two-year construction work plan having a two-year loan requirement of more than $750,000 will be considered for the full two-year amount for determining loan feasibility. Loan applications will be processed on the basis of approximately one-half of the approved two-year requirement.

Funds for the second portion are not committed when the first portion is loaned, but the feasibility of the two-year amount is determined. Processing of the second portion is initiated by a board resolution requesting the second portion (a sample resolution is attached). Borrowers whose second portion of a current two-year work plan remains unloaned will be expected to apply for that second portion when needed provided the following conditions are met:

1. The designated amount of the second portion loan funds request remains unchanged.
2. The borrower's financial characteristics remain relatively unchanged.
3. The budget purposes on the work plan remain unchanged.

Category III. This category is reserved for loan applications to which special circumstances apply. This category does not have minimum or maximum dollar amounts. Applications in this category will be processed for a one-year loan requirement.

Examples of applications included in this category are:

1. Applications having special purposes or unusual circumstances may be administratively determined to fit into this category.
2. Applications covering the second year of a two-year work plan where the first year was loaned prior to July 1, 1973.
3. Applications covering the second year of a Category III loan.
4. The second portion of a Category II loan when the application represents the first concurrent loan.

V 39 109 JUN 5 74 XUM

The amounts designated in this program pertain only to the loan requirements to be met by REA, and are exclusive of amounts to be obtained from supplemental lenders.

Loan procedures outlined above apply without regard to the borrower's eligibility for a standard (5 percent) or a special (2 percent) interest rate.

David A. Hamil,
Administrator.

Sample Board Resolution Requesting Second Portion of Category 2 Loan

WHEREAS, The ____________________ made
(name and address of applicant)
application to the Rural Electrification Administration, _________, _________, _________,
month day year
for a loan in the two-year amount of $________, and

WHEREAS, The Rural Electrification Administration processed this loan under Category 2 for the first portion in the amount of $________, and

WHEREAS, the financial characteristics of this organization have not materially changed, and

WHEREAS, The adjusted general funds level does not exceed the 8 percent guideline as set forth in REA Bulletin 1–7, and

WHEREAS, The second portion of the loan will be needed within ____________________
(time period)
for budget purposes outlined in the two year construction work plan,

NOW, THEREFORE, BE IT RESOLVED, That ______________________________ make
(name of applicant)
application to the Rural Electrification Administration for the second portion (balance) of the Category 2 loan in the amount of $________,[1] at ____ percent per annum, to be used in accordance with REA Bulletin 20–2,[1] and that an application be made to ______________________________ for a loan
(name of supplemental lender)
in the approximate amount of $________,[1] at ____ percent per annum, under terms and conditions satisfactory to the Administrator, to provide the balance of the required financing.

BE IT FURTHER RESOLVED, That the REA note shall be in the full amount of the REA loan and provide for the repayment of principal to begin ____ years from the date thereof.

BE IT ALSO RESOLVED,[2] that ______________, in order to facilitate the ob-
(name of applicant)
taining of the supplemental financing required, hereby authorize the Rural Electrification Administration to release to ______________________________ informa-
(name of supplemental lender)
tion relating to this application and to the financial and operating condition of ________________________, and such other
(name of applicant)
information and data relating thereto as REA in its discretion determines necessary for said purpose.

I, ________________________, Secretary of ____________________ do hereby certify that the above is a true and correct excerpt from the minutes of the meeting of the Board of Directors of the ____________________, held on the ____________ day of ____________, 19______, at which meeting a quorum was present.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Chapter V]

[Administrative Order No. 632]

SPECIAL INDUSTRY COMMITTEE FOR NEWLY COVERED EMPLOYMENT IN THE VIRGIN ISLANDS

Appointment; Convention; Notice of Hearings

Paragraph 6(c)(3) of the Fair Labor Standards Act of 1938 (29 U.S.C. 206(c)(3), as amended by the Fair Labor Standards Amendments of 1974 (P.L. 93–259, approved April 8, 1974)) provided that in the case of any employee employed in the Virgin Islands brought within the purview of the minimum wage provisions by those amendments, a special industry committee shall be appointed under section 5 of the Act (29 U.S.C. 205) to recommend the highest minimum wage rate or rates which accord with the standards prescribed by section 8 of the Act (29 U.S.C. 208) and which shall be not less than 60 per centum of the otherwise applicable minimum wage rate in effect under section 6(b), or $1.00 an hour, whichever is greater, to be applicable to such employee in lieu of the rate or rates prescribed by subsection (b). The rate or rates recommended by the special committee shall not exceed the rates prescribed in section 6(b) for nonagricultural employees and section 6(a)(5) for agricultural employees. Thus, for nonagricultural employees the rates recommended shall not be in excess of $1.90 an hour for the period ending December 31, 1974; $2.00 an hour during the year beginning January 1, 1975, $2.20 an hour during the year beginning January 1, 1976, and $2.30 an hour after December 31, 1976. For agricultural employees the rates recommended shall not exceed $1.60 an hour during the period ending December 31, 1974; $1.80 an hour during the year beginning January 1, 1975; $2.00 an hour during the year beginning January 1, 1976; $2.20 an hour during the year beginning January 1, 1976, and $2.30 an hour after December 31, 1976.

Pursuant to the above cited statutory authority and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), I hereby appoint Industry Committee No. 15 for Newly-Covered Employments in the Virgin Islands, to make recommendations in its industry, convene such committee, and give notice of the hearing to be held by it.

These newly covered employees include the following:

1. *Domestic service workers.* Domestic service means services of a household nature performed by an employee in or about the private home of the person by whom he or she is employed. A private home is a fixed place of abode of an individual or family. A separate and distinct dwelling maintained by an individual or family in an apartment house or motel may constitute a private home. However, a dwelling house primarily used as a boarding or lodging house for the purpose of supplying such services to the public as a business enterprise is not a private home.

Domestic service in and about a private home includes services performed by persons employed as cooks, butlers, valets, maids, housekeepers, governesses, janitors, laundresses, caretakers, handymen, gardeners, footmen, grooms and chauffeurs.

2. Employees employed in retail and service establishments that are parts of covered enterprises and that have an annual dollar volume of sales which is not less than $225,000 after January 1, 1975, and is not less than $200,000 after January 1, 1976, and in any amount after January 1, 1977.

3. Employees engaged in handling telegraphic messages for the public where the revenue does not exceed $500 a month.

4. Employees of motion picture theaters.

5. Agricultural employees engaged in processing shade-grown tobacco prior to stemming.

6. Employees in forestry or lumbering operations where the number of employees is eight or less.

7. Agricultural employees of conglomerates with an annual gross volume of sales exceeding $10 million regardless of the number of employees engaged in agriculture.

Industry Committee No. 15 will meet in executive session to commence its investigation at 9 a.m. and begin its public hearing at 11 a.m. on Monday, June 17, 1974.

The hearing will take place on the premises of the College of the Virgin Islands. The exact location will be posted at the main Adminstration Building of the college on the opening day of the hearing.

Promptly after the receipt of evidence and submissions, the committee shall resolve the issues before it and prepare a report containing its findings of facts, and conclusions as well as the reasons and basis therefor.

The committee shall recommend to the Administrator of the Wage and Hour Division of the Department of Labor the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry, and will not give such industry a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands of American Samoa; except that the minimum rate or rates recommended shall not be less than 60 per centum of the otherwise applicable wage rate in effect under subsection (b) or $1.00 an hour, whichever is greater, to be applicable to such employee in lieu of the rate or rates prescribed by section 6(b), (or

---

[1] The borrower shall establish the breakdown of the second proportions (REA and supplemental amounts) by following instructions in REA Bulletin 20–14, Attachment A. Enclose calculations.

[2] If the source of supplemental financing is not known, this portion should be submitted later as a separate resolution.

$1.14 an hour for nonagricultural employees or $1.00 for agricultural employees for the period ending December 31, 1974); and with the further exception that the committee shall recommend the minimum wage prescribed in section 6(b), unless there is substantial documentary evidence, including pertinent unabridged profit and loss statements and balance sheets for a representative period of years or in the case of employees of public agencies other appropriate information, in the record which establishes that the industry, or a predominant portion thereof, is unable to pay that wage.

Whenever the industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities in the industry than may be determined for other employees in that industry, the committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein and in 29 CFR 511.10 which will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within an industry, in making such classifications, and in determining the minimum wage rates for such classifications, the industry committee shall consider, among other relevant factors, the following: (a) Competitive conditions as affected by transportation, living, and production costs; (b) wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (c) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report for the industry committee containing such data as he is able to assemble pertinent to the matters referred to it. Copies of such reports may be obtained at the national and Puerto Rican offices of the Wage and Hour Division of the U.S. Department of Labor as soon as they are completed and prior to the hearing. The industry committee shall take official notice of the facts stated in the economic reports to the extent that they are not refuted at the hearing.

The procedure of industry committees shall be governed by 29 CFR Part 511. Interested persons wishing to participate in any of the hearings are required to file prehearing statements, as provided in 29 CFR 511.8, containing the data specified in that section not later than 10 days before the hearing date set, namely, June 7, 1974. However, in view of the need to give adequate time to prepare such statements, prehearing statements received on or before June 12, 1974 will be considered as if they were received on June 7, 1974.

Signed at Washington, D.C., this 31st day of May 1974.

Peter J. Brennan,
Secretary of Labor.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 405]

[Regs. No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Exclusion From Coverage of Certain Items and Services; Termination of Certain Providers of Services

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments implement section 229 of the Social Security Amendments of 1972 (Public Law 92–603), enacted October 30, 1972, under which the Secretary is authorized to exclude from coverage under the Federal Health Insurance for the Aged and Disabled Program (Medicare), items and services rendered by physicians, providers, and suppliers of services who are found to have committed program abuses, and in the case of such providers of services, to terminate their agreements to participate in the Medicare program. Determinations under this provision are also made applicable by section 229 to amounts paid for services furnished under State plans pursuant to title V (Maternal and Child Health and Crippled Children's Services) and title XIX (Grants to States for Medical Assistance Programs) of the Social Security Act.

In general, the new provisions provide for the termination of payments to physicians, providers, and suppliers of service for certain specific types of program abuse. A determination to terminate payments because of a false statement or representation of a material fact can be made by the Secretary whereas a determination to terminate or exclude for other types of abuse generally requires the concurrence of a program review team. The law provides that, after consultation with appropriate State and local professional societies, the appropriate carriers and intermediaries utilized in the administration of the Medicare program and consumer representative familiar with the health needs of the residents of the State, program review teams are to be appointed (composed of physicians, other professional personnel in the health care field, and consumer representatives) to review particular cases, where there is a likelihood that the provider, supplier, or other person furnishing items and services to individuals is involved in program abuse, and to examine such statistical data related to program utilization as may be submitted by the Department.

In brief, cases under section 229 will be developed substantially in accordance with the procedures currently applied in other situations involving program abuse. Every physician, provider, or supplier of services subject to these procedures has the right to be heard and to present evidence before a determination to apply these provisions is made, published, and put into effect. Thereafter, the party also has a right to a formal hearing before an Administrative Law Judge of the Administration's Bureau of Hearings and Appeals and to judicial review of his determination. Should the determination be to terminate payments, appropriate notification will be sent to the Health Services Administration (title V) and the Medical Services Administration (title XIX-Medicaid) since, by law, payments under those programs will also be prohibited.

Prior to the final adoption of the proposed amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before July 5, 1974.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority contained in sections 1102, 1862, 1866, and 1871, 49 Stat. 647, as amended, 79 Stat. 325, as amended, 79 Stat. 327, as amended, 79 Stat. 331, as amended; 42 U.S.C. 1302, 1395y, 1395cc, and 1395hh.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance; No. 13.801, Health Insurance for the Aged—Supplementary Medical Insurance.)

Dated: January 16, 1974.

J. B. Cardwell,
Commissioner of Social Security.

Approved: May 24, 1974.

Caspar W. Weinberger,
Secretary of Health, Education, and Welfare.

Regulations No. 5 of the Social Security Administration (20 CFR Part 405) are further amended as set forth below.

1. A new § 405.315a is added to read as follows:

§ 405.315a Nonreimbursable expenses: Items or services furnished by excluded person.

(a) *Definitions.* As used in this section and in § 405.614:

(1) The term "provider of services" or "provider" means a hospital, skilled nursing facility, home health agency, or

V39—109 JUN 5 74 XUM

provider of outpatient physical therapy services (see Subparts J, K, L, and Q of this part), and

(2) The term "person" means a physician or other supplier of services, other than a provider of services.

(b) *General.* Payment may not be made under title XVIII of the Act for expenses incurred for items or services which are furnished by a person where the Administration determines under this section that such person:

(1) Has knowingly and willfully made, or caused to be made, any false statement or representation of a material fact for use in an application or request for payment under title XVIII or for use in determining the right to a payment under title XVIII; or

(2) Has submitted or caused to be submitted (except in the case of a provider of services), bills or requests for payment under title XVIII containing charges (or in applicable cases, requests for payment of costs to such person) for items or services rendered which the Administration finds, with the concurrence of the appropriate program review team appointed pursuant to § 405.315b, to be substantially in excess of such person's customary charges (or in applicable cases, substantially in excess of such person's costs) for such items or services, unless the Administration finds there is good cause for such bills or requests containing such charges (or in applicable cases, such costs); for example, where the excess charges are found to be justified by unusual circumstances or medical complications requiring additional time, effort or expense in localities in which it is accepted medical practice to make an extra charge in such cases; or

(3) Has furnished items or services which are determined by the Administration, with the concurrence of the members of the appropriate program review team appointed pursuant to § 405.315b who are physicians or other professional personnel in the health care field, to be substantially in excess of the needs of individuals or to be harmful to individuals or to be of grossly inferior quality.

(c) *Notice of proposed determination.* Whenever the Administration proposes, on the basis of appropriate evidence and with the concurrence of a program review team when required (see § 405.315b), to exclude items and services rendered by a provider of services or other person from coverage under title XVIII in accordance with paragraph (b) of this section, or to terminate a provider's agreement in accordance with § 405.614 (a)(5), it shall give written notice to such provider or other persons of its intention to exclude such items and services, or to terminate such agreement, and of its reasons for such proposed determination. Such provider or other person may, within fifteen days from the date of mailing of such notice of proposed determination, submit any written statement (including any pertinent evidence) as to why the proposed determination to exclude its items and services from coverage, or to terminate its agreement, should not be put into effect. Within such period, the provider or other person may also request in writing the right to appear before a representative of the Administration who has not had any direct involvement in any investigation into the facts of the case, in order to examine and question the evidence and to present and cross-examine witnesses. The provider or other person may be represented by counsel or other qualified representative (see §§ 405.1590 and 405.1591). For good cause shown, the Administration may shorten or extend the time within which such statement (or evidence) or request to appear may be submitted.

(d) *Determination of exclusion or termination.* After the submission or appearance provided for in paragraph (c) of this section, or if none, after fifteen days from the date of mailing of the notice of proposed determination (or such other period as provided in paragraph (c) of this section), the Administration may make a determination under paragraph (b) of this section, or under § 405.614(a)(5), as appropriate. Such a determination is an "initial determination" for purposes of the appeals procedures in Subpart O of this part (see § 405.1502(e)).

(e) *Notice of determination of exclusion or termination.* (1) The Administration shall send written notice of the determination under paragraph (b) of this section, or under § 405.614(a)(5), to such provider or other person at least fifteen days before the effective date of such determination. This notice shall state the reasons for the determination, its effective date, and the extent of its applicability as it relates to such provider's or other person's participation under title XVIII of the Act. Such notice shall constitute the notice of initial determination for purposes of the appeals procedures in Subpart O of this part (see § 405.1503).

(2) The Administration shall also give notice of the determination to the public and to recipients of services from such persons excluded under this section.

(f) *Effective date of determination of exclusion.* A determination by the Administration under paragraph (b) of this section shall be effective with respect to items and services furnished an individual by such provider or other person after an effective date which shall be no earlier than fifteen days, but not later than 30 days, after the date on which notice of the determination of exclusion was mailed to such person in accordance with paragraph (e) of this section. Notwithstanding such effective date, payment may be made under title XVIII for items and services furnished by an excluded person until the recipient of such services is given notice of such exclusion (see § 405.315(e)(2)). Such determination of exclusion shall remain in effect until the Administration determines, and gives notice to the public, that the reason for the determination has been removed and that there is reasonable assurance that it will not recur. (For the effective date of a termination of a provider's agreement under § 405.614(a)(5), see § 405.615.)

2. A new § 405.315b is added to read as follows:

§ 405.315b Establishment of program review teams.

(a) The Administration shall, after consultation with appropriate State and local professional societies, the appropriate carriers and intermediaries utilized in the administration of title XVIII, and consumer representatives familiar with the health needs of residents of the State, appoint one or more program review teams (composed of physicians, other professional personnel in the health care field, and consumer representatives) in each State which, among other things, shall:

(1) Undertake to review such statistical data on program utilization as may be submitted by the Administration;

(2) Submit to the Administration upon request, but at least annually, a report on the results of such review, together with recommendations with respect thereto;

(3) Undertake to review particular cases where there is a likelihood that the provider or other person furnishing items and services to individuals may come within the provisions of § 405.315a or § 405.614(a)(5);

(4) Submit to the Administration upon request, but at least annually, a report of cases reviewed pursuant to paragraph (a)(3) of this section along with an analysis of, and recommendations with respect to, such cases.

(b) In carrying out the functions of paragraph (a) of this section, such program review teams shall coordinate their activities with Professional Standards Review Organizations operating in the same area to avoid duplication of effort.

(c) When a Professional Standards Review Organization has demonstrated to the Secretary's satisfaction that it can carry out the functions of § 405.315a(b)(3) and § 405.614(a)(5)(iii), then the Secretary may authorize that professional Standards Review Organization to assume, for its area, the responsibilities of § 405.315a(b)(3) and § 405.614(a)(5)(iii).

(3) Section 405.614 is amended by revising paragraph (a)(4), adding paragraph (a)(5), and revising paragraph (c) to read as follows:

§ 405.614 Termination by the Secretary.

(a) *Cause for termination.* The Secretary may terminate an agreement if the Secretary determines that the provider of services: * * *

(4) Refuses to permit examination of its fiscal or other records by, or on behalf of, the Secretary as may be necessary for verification of information furnished as a basis for payment under the health insurance benefits program; or

(5)(i) Has knowingly and willfully made, or caused to be made, any false

statement or representation of a material fact for use in an application or request for payment under title XVIII or for use in determining the right to a payment under title XVIII; or (ii) has submitted, or caused to be submitted, requests for payment under title XVIII of amounts for items and services substantially in excess of the costs incurred by such provider for providing such items and services; or (iii) has furnished items or services which are determined by the Administration, with the concurrence of the members of the appropriate program review team appointed pursuant to § 405.315b who are physicians or other professional personnel in the health care field, to be substantially in excess of the needs of individuals or to be harmful to individuals or to be of a grossly inferior quality.

* * * * *

(c) *Appeal by agency or institution.* Any provider dissatisfied with a determination terminating the section 1866 agreement with such provider, shall be entitled to a hearing with respect to such determination (see Subpart O of this part). The termination of a provider's agreement on grounds specified in paragraph (b)(5) of this section is subject to the additional procedures provided in § 405.315a.

4. The heading to Subpart O of Part 405 is revised to read as follows: "Subpart O—Providers of Services, Emergency Service Hospitals, Independent Laboratories, Suppliers of Portable X-Ray Services, and Persons; Determinations and Appeals Procedures".

5. Section 405.1501 is amended by revising the section heading, revising paragraphs (a) and (b) and adding new paragraph (f) to read as follows:

§ 405.1501 Providers of services, emergency service hospitals, independent laboratories, suppliers of portable X-ray services, and persons; determinations and appeals procedures.

(a) The provisions contained in this Subpart O shall govern the procedure for making and reviewing determinations with respect to (1) whether an institution, facility, agency, or clinic is a provider of services (i.e., a hospital, skilled nursing facility, home health agency, or for purposes of furnishing outpatient physical therapy services, a clinic, rehabilitation agency, or public health agency) within the meaning of tile XVIII of the Social Security Act and Subparts J, K, L, or Q of this Part 405, as appropriate; (2) whether an institution is a hospital, as such term is included in section 1861(e) for purposes of sections 1814(d) and 1835(b) of the Act (see § 405.152(a)(1)), qualified to elect to a claim payment for all emergency hospital services furnished in a calendar year (see § 405.658); (3) the termination of the Secretary's agreement with a provider of services; (4) whether an institution continues to remain in compliance with the qualifications for claiming emergency service reimbursement for a calendar year under the provisions of sections 1814(d) and 1835(b) of the Act; (5) whether an independent laboratory or supplier of portable X-ray services meets the appropriate conditions for coverage of its services (see Subparts M and N of this Part 405); and (6) the exclusion from coverage of items and services rendered by a provider of services or other person (as defined in § 405.315a(a) under the provisions of section 1862(d) of the Act (see § 405.315 (a)).

(b) Any institution, facility, agency, or clinic dissatisfied with an initial determination (see § 405.1502) that it does not qualify as a provider of services may request the Administration to reconsider that determination (see § 405.1510). If dissatisfied with the reconsidered determination of the Administration, or with an initial determination terminating the Secretary's agreement with it, an institution, facility, agency, or clinic is entitled to a hearing thereon and, if dissatisfied with the decision after such hearing, to Appeals Council review and then judicial review of such decision (see § 405.1530 et seq.).

* * * * *

(f) Any provider of services or other person dissatisfied with an initial determination excluding from coverage its items and services rendered to beneficiaries (see § 405.315a) is entitled to a hearing thereon and, if dissatisfied with the decision after such hearing, to Appeals Council review and then judicial review of such decision.

6. In § 405.1502, a new paragraph (e) is added to read as follows:

§ 405.1502 Initial determinations.

The Administration will make findings, setting forth the pertinent facts and conclusions, and an initial determination with respect to:

* * * * *

(e) The exclusion from coverage under the provisions of § 405.315a, of items and services rendered by a provider or other person to beneficiaries under title XVIII of the Act.

7. Sections 405.1503 and 405.1504 are revised to read as follows:

§ 405.1503 Notice of initial determination.

Written notice of an initial determination (see § 405.1502) with respect to whether an institution, facility, agency, or clinic is or is not a provider; or with respect to whether an institution is or is not a hospital for purposes of the emergency service reimbursement provisions of sections 1814(d) and 1835(b) of the Act; or with respect to the termination of an agreement; or with respect to whether an institution continues to remain in compliance with the qualifications for claiming emergency services reimbursement for a calendar year under the provisions of sections 1814(d) and 1835(b) of the Act; with respect to whether an independent laboratory or supplier of portable X-ray services meets the appropriate conditions for coverage of its services (see Subparts M and N of this Part 405); or with respect to the exclusion from coverage, under the provisions of § 405.315a, of items and services rendered by a provider or other person to beneficiaries under title XVIII of the Act, will be mailed to the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person concerned and will include the basis or reasons for the determination, and information concerning the appeal rights of the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person (see §§ 405.1510 and 405.1530).

§ 405.1504 Effect of initial determination.

The initial determination shall be final and binding upon the parties to the determination unless it is revised (see § 405.1519), or unless, in the case of a determination described in § 405.1502(a), (b)(1), or (d)(1), it is reconsidered in accordance with § 405.1514 or, in the case of a determination described in § 405.1502 (b)(2), (c), (d)(2), or (e), a request for a hearing is filed and a decision rendered.

8. In § 405.1505, a new paragraph (k) is added to read as follows:

§ 405.1505 Administrative actions which are not initial determinations.

Administrative actions which shall not be considered initial determinations under any provision of the regulations in this Subpart O include, but are not limited to, the following:

* * * * *

(k) The finding, pursuant to section 1862(d)(2) of the Act, that the basis for a determination excluding a person's items and services from coverage under title XVIII has not been removed or there is insufficient assurance that the basis for such exclusion will not recur.

9. Section 405.1519 is revised to read as follows:

§ 405.1519 Revision of initial or reconsidered determination.

Except in the case of a determination that an institution, facility, agency, or clinic qualifies as a provider of services, or that an institution qualifies to elect to claim payment for all emergency hospital services furnished in a calendar year, an initial or reconsidered determination which is otherwise final under § 405.1504 or § 405.1517 may be reopened by the Administration upon its own motion within 12 months after the date of the notice of the initial determination (see § 405.1503). Notice of the reopening of a determination and any revision thereof shall be given to the institution, facility, agency, clinic, laboratory, or portable X-ray supplier or person which was a party to the determination (see § 405.1520).

10. Sections 405.1530, 405.1531, and 405.1532 are revised to read as follows:

§ 405.1530 Hearing; right to hearing.

After an initial and reconsidered determination that it does not qualify as a

V 39 109 JUN 5 74 XUM

provider of services or that an independent laboratory or supplier of portable X-ray services does not meet the conditions for coverage of its services or that an institution does not qualify to elect to claim payment for all emergency hospital services furnished in a calendar year (see §§ 405.1502 (a), (b)(1), and (d)(1), and 405.1514); or after an initial determination described in § 405.1502(b)(2), (c), (d)(2), or (e); or after a revised determination described in § 405.1519, an institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person shall be entitled to a hearing with respect to such determination, if such person or the representative of the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person files a written request for hearing as provided in § 405.1531.

§ 405.1531 Filing a request for a hearing; time and manner of filing.

(a) The request for a hearing shall be made in writing, signed by the person, or a proper official of the institution, facility, agency, clinic, laboratory, or portable X-ray supplier concerned and filed at an office of the Administration, or with an Administrative Law Judge (formerly called "hearing examiner") or the Appeals Council of the Bureau of Hearings and Appeals. The request must be filed within 6 months after the date on which written notice of an initial determination provided for in § 405.1502 (b)(2), (c), (d)(2), or (e), or a reconsidered or revised determination is mailed to the institution, facility, agency, clinic, laboratory, portable X-ray supplier or person (see §§ 405.1503, 405.1516, and 405.1520), except where the time is extended for "good cause" (see § 405.1569).

(b) The request for a hearing shall contain a statement as to the specific issues or findings of fact and conclusions of law in the preceding determination with which the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person disagrees, and the basis for its contention that the specific issues and/or findings and conclusions were incorrect.

(c) The legal representative or any other authorized official of the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person shall be a proper person to file the request for hearing.

§ 405.1532 Parties to the hearing.

The parties to the hearing shall be the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person which was a party to the prior determination (see §§ 405.1502 (b)(2), (c), (d)(2), and (e), 405.1514, and 405.1519) and the Bureau of Health Insurance. The Bureau of Health Insurance shall be represented at the hearing (see § 405.1543).

11. Section 405.1534 is revised to read as follows:

§ 405.1534 Disqualification of hearing examiner.

No Administrative Law Judge shall conduct a hearing in a case in which he is prejudiced or partial with respect to the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person, or where he has any interest in the matter pending for decision before him. Notice of any objection which a party to the hearing may have to the Administrative Law Judge who will conduct the hearing shall be made at the earliest opportunity. The Administrative Law Judge shall consider the objection(s) and shall, in his discretion, either proceed with the hearing or withdraw. If the Administrative Law Judge withdraws, another Administrative Law Judge shall be designated (see § 405.1533) to conduct the hearing. If the Administrative Law Judge does not withdraw, the objecting party may, after the hearing, present his objections to the Appeals Council as reasons why he believes the Administrative Law Judge's decision should be revised or a new hearing held before another Administrative Law Judge.

12. Sections 405.1536 and 405.1537 are revised to read as follows:

§ 405.1536 Time and place of prehearing conference.

The Administrative Law Judge shall fix a time and place for the prehearing conference, written notice of which shall be mailed to the parties not less than 10 days prior to the conference date. The notice shall inform the parties of the purpose of the prehearing conference and the issues sought to be resolved, stipulated to, or excluded. If a party has information which will involve additional issues for consideration at the prehearing conference, other than those set forth in the notice of determination (see §§ 405.1503, 405.1516, and 405.1520) and the request for hearing by the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person, timely notice should be given to the Administrative Law Judge and the other party of such information. The Administrative Law Judge may also raise any additional issues by including them in his notice of the prehearing conferences or during the conference.

§ 405.1537 Conduct of prehearing conference.

The prehearing conference shall be open to the person or his representative, the representatives of the institution, facility, agency, clinic, laboratory, or portable X-ray supplier and the representatives of the Bureau of Health Insurance, to their technical advisors, and to such other persons as the Administrative Law Judge deems necessary or proper. The Administrative Law Judge may accept the agreement of the parties as to those facts which are not in controversy and as to questions which have been resolved favorably to the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person subsequent to the determination in dispute. The Administrative Law Judge may accept the agreement of the parties as to the remaining issues to be resolved. The parties may be requested to indicate what witnesses will be present to testify at the hearing, the qualifications of such witnesses, and the nature of other evidence to be submitted.

13. In § 405.1542, paragraph (a) is revised to read as follows:

§ 405.1542 Hearing on new issues.

(a) On the application of either party, or on his own motion, the Administration Law Judge (formerly called "hearing examiner") may give notice at any time after a request for hearing has been filed (see § 405.1531), but prior to the closing of the record, that he will consider any specific new issue which may affect the rights of the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person, even though the Administration has not made an initial and reconsidered determination with respect to the issue and even though the issue arose after the request for hearing or prehearing conference: *Except that*, in the case of an initial determination described in § 405.1502(b)(2), (c), (d)(2), or (e), the Administrative Law Judge shall not consider any issue which arose on or after (1) the effective date of the termination of an institution's, facility's, agency's, or clinic's agreement with the Secretary, or (2) the date on which it is determined that a laboratory or portable X-ray supplier no longer meets the conditions for coverage of its services, (3) the effective date of the notification to an institution of its failure to remain in compliance with the qualifications for claiming emergency service reimbursement for a calendar year under the provisions of sections 1814(d) and 1835(b) of the Act, or (4) the effective date of the exclusion from coverage of items and services rendered by a provider or other person (see § 405.315a). Notice of the time and place of the hearing on any new issue shall, unless waived (see § 405.1550), be given to the parties within the time and manner prescribed in § 405.1540. Upon giving of such notice, the Administrative Law Judge shall, except as otherwise provided, proceed to hearing on such new issues in the same manner as he would on an issue in which an initial and reconsidered determination had been made by the Administration and a hearing request with respect thereto had been filed.

* * * * *

14. Section 405.1543 is revised to read as follows:

§ 405.1543 Joint hearings.

When two or more institutions, facilities, agencies, clinics, laboratories, portable X-ray suppliers, or persons, have requested hearings and the same or substantially similar matters are in issue, the Administrative Law Judge may, if all parties agree, fix the same times and places for each prehearing conference or hearing and conduct all such proceedings jointly. Where joint hearings are held, a single record of the proceedings shall be made and a separate decision issued with respect to each institution, facility, agency, clinic, laboratory, or portable X-ray supplies, or person.

15. Section 405.1545 is revised to read as follows:

§ 405.1545 Conduct of the hearing.

The hearing shall be open to the person and his representative, the representatives of the institution, facility, agency, clinic, laboratory, or portable X-ray supplier, and the representatives of the Bureau of Health Insurance, their technical advisors, and to such other persons as the Administrative Law Judge deems necessary or proper. The Administrative Law Judge shall inquire fully into all of the matters at issue (see § 405.1542) and shall receive in evidence the testimony of witnesses and any documents which are relevant and material to such matters. If the Administrative Law Judge believes that there is relevant and material evidence available which has not been presented at the hearing, the Administrative Law Judge may at any time prior to the mailing of notice of the decision, reopen the hearing for the receipt of such evidence. The order in which the evidence and the allegations shall be presented and the conduct of the hearing shall be at the discretion of the Administrative Law Judge.

16. Sections 405.1550, 405.1551, and 405.1552 are revised to read as follows:

§ 405.1550 Waiver of right to appear and present evidence.

If the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person waives its right to appear before the Administrative Law Judge and present testimony, it shall not be necessary for the Administrative Law Judge to give notice of and conduct an oral hearing. A waiver of this right shall be made in writing and filed with the Administrative Law Judge. A waiver may be withdrawn by an institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person, for good cause shown, at any time prior to the mailing of notice of the decision in the case. Even though an institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person has filed a waiver of a hearing before an Administrative Law Judge, the Administrative Law Judge may, nevertheless, give notice of a time and place and conduct a hearing if he believes that testimony of the person or his representative, representatives of the institution, facility, agency, clinic, laboratory, or portable X-ray supplier or other persons is needed to clarify the facts in issue, or on a showing of good cause by the Bureau of Health Insurance of the need to present oral evidence. When such a waiver has been filed and no testimony received, the Administrative Law Judge shall make a record of the relevant written evidence, including applications, written statements, certificates, affidavits, reports, and other documents which were considered in connection with the initial, reconsidered, or revised determination (see §§ 405.1502, 405.1514, and 405.1519), and whatever additional relevant and material evidence was submitted by the parties for consideration by the Administrative Law Judge. Any additional evidence submitted by either party shall be furnished to the other party and that party shall be given a reasonable opportunity to submit further evidence in rebuttal. The parties may submit briefs or other written statements of evidence and/or proposed findings of fact or conclusions of law, copies of which shall be sent in accordance with § 405.1695. After the Administrative Law Judge sets the case for oral hearing and gives notice of the time and place for the hearing, the request for hearing shall be dismissed in accordance with § 405.1552 where the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person fails to appear without good cause.

§ 405.1551 Dismissal of request for hearing.

The Administrative Law Judge, at any time prior to the mailing of notice of the decision (see § 405.1557), may dismiss a hearing request where a party withdraws its request for a hearing or where the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person asks that its request be dismissed. An institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person may request a dismissal by filing a written notice with the Administrative Law Judge.

§ 405.1552 Dismissal by abandonment.

The Administrative Law Judge may dismiss a request for hearing upon its abandonment by the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person on whose behalf it was filed. An institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person may be deemed to have abandoned a request for hearing if the person, representative, or the proper official does not appear at the prehearing conference or hearing and prior to that time has not shown good cause as to why he could not appear; or, within 10 days after the mailing of a notice to the person or the representative by the Administrative Law Judge to show cause, did not show good cause for failing to appear or to notify the Administrative Law Judge prior to the time for the prehearing conference or hearing that he could not appear.

17. In § 405.1553, paragraphs (a) and (c) are revised to read as follows:

§ 405.1553 Dismissal for cause.

On his own motion, or on the motion of a party to the hearing, the Administrative Law Judge may dismiss a hearing request either entirely or as to any stated issue, under any of the following circumstances:

(a) *Res judicata.* Where there has been a previous determination or decision by the Secretary with respect to the rights of the same institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person on the same facts and law pertinent to the same issue or issues which has become final either by judicial affirmance or, without judicial consideration, upon failure of the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person timely to request reconsideration, hearing, or review, or to commence a civil action with respect to such determination or decision.

* * * * *

(c) *Hearing request not timely filed.* Where an institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person has failed to file a hearing request timley and the time for filing such request has not been extended.

18. Section 405.1554 is revised to read as follows:

§ 405.1554 Notice of dismissal and right to request review thereof.

Notice of the Administrative Law Judge's dismissal action shall be mailed to the parties. Such notice shall advise the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person of its right to request review by the Appeals Council as provided in §§ 405.1561 and 405.1562.

19. Section 405.1563 is revised to read as follows:

§ 405.1563 Action by the Appeals Council on request for review.

The review or denial of the Administrative Law Judge's decision shall be conducted by a panel of at least two members of the Appeals Council designated by the Chairman or Deputy Chairman and one person from the U.S. Public Health Service designated by the Surgeon General, Public Health Service, Department of Health, Education, and Welfare, or his delegate. Except as provided in § 405.1568, the Appeals Council shall review the Administrative Law Judge's decision or dismissal where an institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person, files a request for review. The Appeals Council may dismiss, deny, or grant a request for review filed by the Bureau of Health Insurance. If the review is granted, the Appeals Council may either modify, affirm, or reverse the Administrative Law Judge's decision. Notice of the action by the Appeals Council shall be mailed to the institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person and the Bureau of Health Insurance.

20. Section 405.1567 is revised to read as follows:

§ 405.1567 Effect of the Appeals Council decision.

The decision of the Appeals Council shall be final and binding unless a civil action (see § 405.1501 (b), (e), and (f)) is filed by the institution, facility, agency, clinic, or person in a district court of the United States as authorized by section

V 39 109 JUN 5 74 XUM

1869(c) or 1862(d)(3), as appropriate, of the Act or unless the decision is revised in accordance with § 405.1570. (Section 1869(c) of the Act does not grant judicial review of the Secretary's decision with respect to whether an independent laboratory or supplier of portable X-ray services meets the conditions for coverage, as required by Subparts M and N, respectively.)

21. Section 405.1569 is revised to read as follows:

§ 405.1569 Extension of time to request a hearing or review or begin civil action.

(a) Any institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person which is a party to an initial determination described in § 405.1502 (b)(2), (c), (d)(2), or (e); or to a reconsidered determination that it does not qualify as a provider of services or does not qualify to elect to claim payment for all emergency hospital services furnished in a calendar year or does not meet the conditions for coverage; or to a revised determination described in § 405.1519; or which is a party to a decision of an Administrative Law Judge (formerly called "hearing examiner") may request an extension of time for filing a request for hearing or review, as the case may be, although the time for filing the request has passed. If an extension of time for filing a request for hearing before an Administrative Law Judge is sought, the request may be filed with the Administrative Law Judge. In any other case, the request shall be filed with the Appeals Council. The request shall be in writing and shall state the reasons why the request was not filed within the required time. An institution, facility, agency, clinic, or person whch is a party to a decision of the Appeals Council, may ask the Appeals Council for an extension of time for commencing civil action in a district court within 60 days from the date of the notice of the Appeals Council action and shall state the reasons an extension is required. For good cause shown, the Administrative Law Judge may extend the time for filing a request for hearing or the Appeals Council may extend the time for filing a request for review or civil action.

(b) An independent laboratory or supplier of portable X-ray services is not entitled to judicial review of the Secretary's final decision after the hearing and review; except where such final decision relates to the exclusion of its items and services from coverage under title XVIII (see § 405.1502(e)).

22. Sections 405.1572 and 405.1590 are revised to read as follows:

§ 405.1572 Effect of revised determination.

A revised decision by an Administrative Law Judge (formerly called "hearing examiner") shall be final and binding upon the parties thereto unless reviewed by the Appeals Council in accordance with §§ 405.1561–405.1563. A revised decision by the Appeals Council shall be final and binding unless a civil action (see § 405.-1501 (b), (e), and (f)) is filed by the institution, facility, agency, clinic, or person in a district court of the United States as authorized by section 1869 of the Act.

§ 405.1590 Representation.

An institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person may appoint as its representative any individual except an individual disqualified or suspended from acting as a representative in proceedings before the Social Security Administration or otherwise prohibited by law. Except where the representative appointed is an attorney, an institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person must give written notice of the appointment of a representative. The notice of appointment shall be filed at an office of the Administration, or with the Administrative Law Judge or the Appeals Council. Where the representative appointed is an attorney, in the absence of information to the contrary, his representation that he has the authority to represent the party shall be accepted as evidence of his authority.

23. Section 405.1592 is revised to read as follows:

§ 405.1592 Fees for services.

Fees for any services rendered by a representative appointed and qualified as in §§ 405.1590 and 405.1591 on behalf of any institution, facility, agency, clinic, laboratory, portable X-ray supplier, or person shall not be subject to the provisions of section 206 of title II of the Social Security Act.

[FR Doc.74–12749 Filed 6–4–74;8:45 am]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[46 CFR PART 73]

[CGD 72–181]

PASSENGER VESSELS

Proposed Subdivision Requirements

The Coast Guard is considering amendments to the regulations for passenger vessels in services other than ocean or coastwise and vessels under 150 gross tons in ocean or coastwise service and not on an international voyage. The amendments concern § 73.15–5 which sets the minimum compartment standards of all passenger vessels other than ferry vessels.

The Coast Guard proposes to revoke § 73.15–5(a) which was promulgated before Subchapter T, Small Passenger Vessels, came into effect. Subchapter T is applicable to all vessels under 100 gross tons while § 73.15–5(b) is applicable to all vessels of 100 gross tons and over. The proposed change will clarify the subdivision requirements of Subchapter T when these requirements refer back to Subchapter H, Passenger Vessels. These amendments are editorial in nature and contain no new requirements.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commandant (G–CMC), Washington, D.C. 20590. Each person submitting a comment should include his name and address, identify the notice (CGD 72 181), and give reasons for any recommendations. Comments received before July 18, 1974 will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested persons in Room 8234, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. The proposal may be changed in the light of the comments received.

No hearing is contemplated but may be held at a time and place set in a later notice of the FEDERAL REGISTER, if requested by an interested person desiring an opportunity to comment orally at a public hearing and raising a genuine issue.

To implement the proposals, the Coast Guard would amend Part 73 of Title 46 of the Code of Federal Regulations as follows:

1. By revoking paragraph (a) of § 73.15–5.
2. By revising paragraph (b) of § 73.15–5.

As revised, § 73.15–5 would read as follows:

§ 73.15–5 Compartmentation of all vessels other than ferry vessels.

(a) [Reserved]

(b) Every vessel shall be subdivided so as not to submerge the margin line with any one main compartment flooded.

* * * * *

These amendments are proposed under 46 U.S.C. 482; 49 U.S.C. 1655(b)(1) and 49 CFR 1.46(b).

Dated: May 28, 1974.

D. H. CLIFTON,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[FR Doc.74–12780 Filed 6–4–74;8:45 am]

[46 CFR Part 178]

[CGD 72–180]

SMALL PASSENGER VESSELS

Proposed Subdivision Requirements

The Coast Guard is considering amendments to the watertight bulkhead regulations for "S" vessels carrying not more than 150 passengers, "S" vessels carrying more than 150 passengers and all "L" vessels not on an international voyage. The amendments will allow credit for bulkheads spaced less than the current minimum allowable spacing for vessels under 143 feet in length and will clarify those subparts in Part 73 of Subchapter H, Passenger Vessels, which are applicable to Subchapter T vessels.

46 CFR 178.20–1(b) and 46 CFR 178.20–5 both refer to Parts 73 and 74 of Subchapter H (Passenger Vessels) for the subdivision requirement to be applied to certain Subchapter T vessels. The proposed regulation changes will narrow down the applicable provisions of Part 73. 46 CFR 178.20–5 requires that "S" vessels carrying more than 150 passengers and all "L" vessels regulated under Subchapter T meet the subdivision requirements of Part 73 of Subchapter H. 46 CFR 73.15–15 states that to be effective, watertight bulkheads abaft the collision bulkhead must be spaced not less than 10 feet plus 3 percent of the load waterline length. This requirement was established for ships well over 150 feet in length and the Coast Guard has recognized that this criterion is too stringent for vessels under 150 feet in length while an adequate degree of safety can be obtained at some lesser minimum bulkhead spacing. This proposed regulation change will provide uniform criteria for determining the minimum watertight bulkhead spacing while maintaining the degree of subdivision provided under Part 73 for vessels under 150 feet in length.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commandant (G–CMC/82), Washington, D.C. 20590. Each person submitting a comment should include his name and address, identify the notice (CGD 72 180), and give reasons for any recommendations. Comments received before July 18, 1974 will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested persons in Room 8234, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. The proposal may be changed in the light of the comments received.

No hearing is contemplated but may be held at a time and place set in a later notice in the FEDERAL REGISTER, if requested by an interested person desiring an opportunity to comment orally at a public hearing and raising a genuine issue.

To implement the proposals, the Coast Guard would amend Part 178 of Title 46 of the Code of Federal Regulations as follows:

1. By revising paragraph (b) of § 178.20–1 to read:

§ 178.20–1 Requirements for "S" vessels carrying not more than 150 passengers—S.

* * * * *

(b) In lieu of complying with paragraph (a) of this section, any owner may, if he so desires, determine compliance with the subdivision and damaged stability requirements by direct calculations that take into account the form and proportions of the hull. If this option is taken the provisions of § 178.20–5 and the alternate procedure of § 179.10–3 of this chapter apply. These calculations and the supporting data must be submitted to the Commandant for approval.

2. By revising § 178.20–5 to read:

§ 178.20–5 Requirements for "S" vessels carrying more than 150 passengers and all "L" vessels—S and L.

(a) For "S" vessels carrying more than 150 passengers and all "L" vessels, engaged in international voyages, the location of the transverse watertight bulkheads to meat the requirements for subdivision and damage stability, is determined by direct calculations which take into account the form and proportions of the hull. For the purposes of this paragraph, the provisions of subparts 73.05, 73.15 and Part 74 of Subchapter H (Passenger Vessels) of this chapter shall be applicable. These calculations and the supporting data must be submitted to the Commandant for approval.

(b) For S vessels carrying more than 150 passengers and all L vessels, not engaged in international voyages, the location of the transverse watertight bulkheads to meet the requirements for subdivision and damaged stability is determined by direct calculations that take into account the form and proportions of the hull. For the purposes of this paragraph, the provisions of subparts 73.05, 73.15 (except 73.15–15 for vessels under 143 feet in length) and Part 74 of Subchapter H (Passenger Vessels) of this chapter apply. For vessels not over 143 feet in length, watertight bulkheads abaft the collision bulkhead, to be considered effective, may not be spaced less than 10 percent of the load waterline length but in no case may the minimum spacing be less than 6 feet. For double ended ferries, this minimum spacing applies between collision bulkheads. These calculations and supporting data must be submitted to the Commandant for approval.

These amendments are proposed under 46 U.S.C. 482; 49 U.S.C. 1655(b)(1) and 49 CFR 1.46(b).

D. H. CLIFTON,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[FR Doc.74–12781 Filed 6–4–74;8:45 am]

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74–WE–13]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the San Diego, California (San Diego County—Gillespie Field) control zone.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 S. Aviation Boulevard, Lawndale, California 90261. All communications received on or before July 5, 1974 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 15000 S. Aviation Boulevard, Lawndale, California 90261.

A localizer and two fan markers are being installed to provide an instrument approach for Gillespie Field, San Diego, California. The navigation equipment will be owned by the County of San Diego; however, the approach procedure will be published for public use. The localizer will be aligned 282° T (268° M) and approach minima will be circling only. A small extension to the control zone is necessary to provide controlled airspace for aircraft executing the approach procedure while operating below 1,000 feet above the surface.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (39 FR 354) the description of the San Diego, California (Gillespie Field) control zone is amended to read as follows:

SAN DIEGO, CALIF. (SAN DIEGO COUNTY—GILLESPIE FIELD)

Within a 3-mile radius of San Diego-Gillespie Field (latitude 32°49'26" N., longitude 116°58'18" W.) and within 1 mile each side of a 102° bearing from the end of Runway 27R, extending from the 3-mile radius zone to 5 miles east of the airport. This control zone shall be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on May 28, 1974.

ARVIN O. BASNIGHT,
Director, Western Region.

[FR Doc.74–12772 Filed 6–4–74;8:45 am]

National Highway Traffic Safety Administration

[49 CFR Parts 566, 567, 568, 571]

[Docket No. 73–14; Notice 2]

MOTOR VEHICLE SAFETY STANDARDS

Manufacturer Identification Code

This notice proposes an amendment to the Manufacturer Identification Regula-

V 39 109 JUN 5 74 XUM

tion, 49 CFR Part 566, and related sections of 49 CFR Parts 567, 568, and 571, which would establish the manufacturer identification code for use by manufacturers of vehicles and motor vehicle equipment (other than tires) to fulfill their identification, certification and labeling requirements.

On June 7, 1973, the NHTSA issued in the FEDERAL REGISTER (38 FR 14968) a notice of a proposed manufacturer identification code. The code would have consisted of one letter and four nonsignificant numbers to be assigned by the Department of Transportation.

On November 28, 1973, subsequent to the closing date for comments on the NHTSA proposal, the U.S. Department of Commerce issued a regulation which implemented a government-wide program for the standardization of data elements and representations used in Federal automated data systems (15 CFR Part 6; 38 FR 33482). This regulation was issued pursuant to Executive Order 11717 and section 111(f) of the Federal Property and Administrative Services Act of 1949, as amended (79 Stat. 1127, 40 U.S.C. 759). Under the Department of Commerce regulation, the National Bureau of Standards (NBS) is assigned the responsibility of providing procedures, guidelines, and criteria to Federal agencies for the development of standards relating to data elements. The NHTSA sought the guidance of the NBS in establishing a manufacturer identification code.

Two nine-digit manufacturer identification code systems were suggested by NBS: the Employer Identification Number (EIN) maintained by the U.S. Internal Revenue Service and the D-U-N-S number maintained by Dun and Bradstreet, Inc. The NBS recommendation is identical to the American National Standards Institute proposed American National Standard Structure for Identification of Organizations for Information Interchange. After a consideration of the relative merits of both systems, the NHTSA is proposing to adopt as its manufacturer identification code the nine-digit system administered by Dun and Bradstreet, Inc.

The manufacturer identification code would consist of nine-digit numbers assigned to business establishment headquarters locations, major branches, and certain remittance locations. Under an agreement with the United States General Services Administration, manufacturer identification numbers would be assigned at no charge by writing to Dun and Bradstreet, Inc., 99 Church Street, New York, N.Y. 10007, or any other Dun and Bradstreet office.

A number of comments concerning the original NHTSA proposal for a manufacturer identification code assigned by the Department of Transportation complained of the proliferation of identification codes and recommended one or another of the standard codes now in existence. The adoption of this system is meant to meet this objection. In addition, the recognition of discrete establishments will allow for a more effective defect analysis program.

Several comments received in response to the previous NHTSA proposal related to possible technical difficulty in adding a manufacturer's identification number to specific pieces of motor vehicle equipment because of size or optical properties. Specific comments are requested concerning this issue. The code would affect the following certification procedures and equipment standards:

49 CFR Part 567, Certification, would be amended by adding new §§ 567.4(g)(2) and 567.5(a)(2), and changing §§ 567.5(a)(4), 567(c), and 567.5(d) to reflect the new code marking requirements.

49 CFR Part 568, Vehicles Manufactured in Two or More Stages, would be amended by changing §§ 568.(a)(1) and 568.5 to reflect the code requirements.

49 CFR Part 571, Federal Motor Vehicle Safety Standards, would be amended to require the use of the new numbers in the following equipment standards:

Section 571.106, Hydraulic brake hoses.
Section 571.116, Motor vehicle brake fluids.
Section 571.125, Warning devices.
Section 571.126, Truck-camper loading.
Section 571.205, Glazing Materials (replacing the system presently specified in that standard.
Section 571.208, Occupant crash protection.
Section 571.209, Seatbelt assemblies.
Section 571.211, Wheel nuts, wheel disks, and hubcaps.
Section 571.213, Child seating systems.

In addition, a proposed amendment to Standard 108 (Docket 69–19, Notice 2, 37 FR 17493) is amended by this notice.

Use of the DOT symbol, or other means, to indicate compliance with the safety standards would be added to MVSS 208, 209, 211, and 213 for labeling uniformity.

In consideration of the foregoing, it is proposed that 49 CFR Part 566, Manufacturer Identification, Part 567, Certification, Part 568, Vehicles Manufactured in Two or More Stages, and Part 571, Federal Motor Vehicle Safety Standards, be amended as follows:

PART 566—MANUFACTURER IDENTIFICATION

1. Part 566, Manufacturer Identification, would be amended by adding a new § 566.7, to read:

§ 566.7 Code number.

Each manufacturer of motor vehicles or covered equipment shall apply for and receive a nine-digit number for identification purposes. Manufacturer identification numbers are assigned by Dun and Bradstreet, Inc., 99 Church Street, New York, N.Y. 10007, or any other Dun and Bradstreet branch office. Upon receipt of this number, each manufacturer shall advise the Associate Administrator, Motor Vehicle Programs, National Highway Traffic Safety Administrative, 400 Seventh Street SW., Washington, D.C. 20590 of his number, as well as any numbers assigned to plants, subsidiaries, or other entities under his control. Motor Vehicles or covered equipment shall be identified by the manufacturer identification number assigned to the plant, subsidiary, or entity which manufactured it.

PART 567—CERTIFICATION

2. Part 567, Certification, would be amended by adding a new subparagraph (1–a) to § 567.4(g), to read:

§ 567.4 Requirements for manufacturers of motor vehicles.

* * * * *

(g) * * *

(1–a) "Code number" followed by the code number assigned pursuant to § 566.7 of this chapter to the manufacturer identified in accordance with paragraph (g)(1) of this section.

* * * * *

3. Part 567, Certification, would be amended by adding a new subparagraph (1–a) to § 567.5(a) to read:

§ 567.5 Requirements for manufacturers of vehicles manufactured in two or more stages.

(a) * * *

(1–a) "Code number" followed by the code number assigned pursuant to § 566.7 of this chapter to the manufacturer identified in accordance with § 567.5(a)(1).

* * * * *

§§ 567.5, 567.7 [Amended]

4. Part 567, Certification, would be amended by adding "and code number assigned pursuant to § 566.7 of this chapter" following "name" in §§ 567.5(a)(4), 567.5 (c) and (d), and 567.7(a).

PART 568—VEHICLES MANUFACTURED IN TWO OR MORE STAGES

§§ 568.4, 568.5 [Amended]

5. Part 568, Vehicles manufactured in two or more stages, would be amended by adding ", code number assigned pursuant to § 566.7 of this chapter," following "name" in §§ 568.4(a)(1) and 568.5.

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

6. Section 571.106, Brake hoses, would be amended by changing paragraph S5.2.2(b) to read:

§ 571.106 Standard No. 106; Brake hoses.

* * * * *

S5.2.2 * * *

(b) The hose manufacturer's code number assigned pursuant to § 566.7 of this chapter.

* * * * *

7. Section 571.108, Lamps, reflective devices and associated equipment, as proposed in Docket 69–19, Notice 2, 37 CFR 17493, would be amended by changing S4.8.1(d), to read:

§ 571.108 Standard No. 108; Lamps, reflective devices, and associated equipment.

* * * * *

S4.8.1 * * *

(d) The manufacturer's code number assigned pursuant to § 566.7 of this chapter, and model designation or part number.

* * * * *

8. Section 571.116, Motor vehicle brake fluid, would be amended by changing S5.2.2.2(b) and subparagraph S5.2.2.3 (a), to read:

§ 571.116 Standard No. 116; Motor vehicle brake fluid.

* * * * *

S5.2.2.2 * * *

(b) The name of the packager of the brake fluid or the code number assigned pursuant to § 566.7 of this chapter.

* * * * *

S5.2.2.3 * * *

(a) The name of the packager of the brake fluid or the code number assigned pursuant to § 566.7 of this chapter.

* * * * *

9. § 571.125, Warning devices, would be amended by adding new paragraph S5.1.4 (d) to read:

§ 571.125 Standard No. 125; Warning devices.

* * * * *

S5.1.4 * * *

(d) The code number assigned pursuant to § 566.7 of this chapter.

10. § 571.126, Truck-camper loading, would be amended by adding new paragraph S5.1.1(f), to read:

§ 517.126 Standard No. 126; Truck-camper loading.

* * * * *

S5.1.1 * * *

(f) "Code number" followed by the manufacturer's code number assigned pursuant to § 566.7 of this chapter.

* * * * *

11. Section 571.205, Glazing materials, would be amended to institute a new code for glazing material manufacturers by changing S.6.2 to read:

§ 571.205 Standard No. 205; Glazing materials.

* * * * *

S6.2 Each prime glazing material manufacturer shall certify each piece of glazing material to which the standard applies that is designed as a component of any specific motor vehicle or camper, pursuant to section 114 of the National Traffic and Motor Vehicle Safety Act of 1966, by adding to the mark required by S6.1 in letters and numerals of the size specified in section 6 of ANS Z26, the symbol "DOT" and the code number assigned pursuant to § 566.7 of this chapter.

* * * * *

12. Section 271.208, Occupant crash protection, would be amended by adding a new paragraph S9.3 to read:

§ 571.208 Standard No. 208; Occupant crash protection.

* * * * *

S9.3 Each pressure vessel and explosive device shall be permanently and legibly marked or labeled with the manufacturer's code number assigned pursuant to § 566.7 of this chapter and the symbol DOT constituting a certification by the manufacturer that the device complies with all applicable motor vehicle safety standards.

13. Section 571.209, Seatbelt assemblies, would be amended by changing paragraph S4.1(k), to read:

§ 571.209 Standard No. 209; Seatbelt assemblies.

* * * * *

S4.1 * * *

(k) *Marking.* Each seatbelt assembly shall be permanently and legibly marked or labeled with:

(i) Year of manufacture, model, name of manufacturer or distributor, and manufacturer code number assigned pursuant to § 566.7 of this chapter.

(ii) The symbol DOT, or a statement that the seatbelt assembly complies with all applicable motor vehicle safety standards.

* * * * *

14. § 571.211, Wheel nuts, wheel discs, and hubcaps, would be amended by redesignating the contents of "S3. Requirements" as "S3.1 Winged Projections" and adding a new section "S3.2. Labeling." to read:

§ 571.211 Standard No. 211; Wheel nuts, wheel discs, and hubcaps.

* * * * *

S3.2. *Labeling.* Each wheel nut, wheel disc, and hubcap shall be permanently and legibly marked or labeled with the manufacturer's code number assigned pursuant to § 566.7 of this chapter and the symbol DOT, constituting a certification by the manufacturer that the device complies with all applicable motor vehicle safety standards.

* * * * *

15. Section 571.213, Child seating systems, would be amended by revising paragraph S4.1(a), to read:

§ 571.213 Standard No. 213; Child Seating Systems.

* * * * *

S4.1 *Labeling.* * * *

(a) The manufacturer's name, the code number, assigned pursuant to § 566.7 of this chapter, and certification by the manufacturer that the child seating system complies with all applicable motor vehicle safety standards. However * * *

* * * * *

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: August 5, 1974.

Proposed effective date: September 1, 1975.

(Secs. 103, 112, 114, 119, Pub. L. 89–563; 80 Stat. 718, 15 U.S.C. 1392, 1401, 1403, 1407; delegation of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on May 30, 1974.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

VIRGINIA AIR QUALITY PLAN

Proposed Revisions

On February 14, 1973, August 10, 1973, and February 12, 1974, the Commonwealth of Virginia submitted to the Administrator proposed revisions to the Commonwealth's Implementation Plan for the attainment and maintenance of national ambient air quality standards.

The proposed changes include:

1. An operations manual outlining the administrative procedures to be followed in the event of an emergency episode. The manual includes procedures to be followed in the event of an emergency episode. The manual includes procedures for the forecast, alert, warning and emergency stages of an episode. The manual was submitted on February 14, 1973.

2. A re-write of the air quality surveillance section of the original Implementation Plan. This section deals with surveillance practices, procedures, and instrumentation. Surveillance is used to establish trends in air quality with regard to ambient air quality standards. Surveillance is used also to activate air pollution episode control procedures. This revision was submitted February 14. 1973.

3. Amendments to §§ 10–17.10, 10–17.-14, 10–17.18, 10–17.18:1, 10–17.18:2, 10–17.-19, 10–17.29 and 10–17.30 of Title 10, Chapter 1.2 of the Code of Virginia and to § 46.1–301.1 of Title 46.1 of Chapter 4 of the Code of Virginia and to § 58–16.3 of Title 58, Chapter 1 of the Code of Virginia. These amendments include a change in the title of the chief executive officer of the State Air Pollution Control Board, changes in the procedures for amending, adopting, repealing or enforcing certain rules, regulations, permits, variances, orders, special orders, and control programs, changes in the

V 39 109 JUN 5 74 XUM

power of the Board to govern its relationship with its own employees, changes in the duties of local air pollution control committees, changes increasing the possible state penalties for violation of the state law and orders of the Board and adding equivalent penalties for violations of rules and regulations of the Board in the absence of an order. These amendments also provide for deference to local regulations where such regulations are more stringent than state regulations. These amendments also provide for deference to local regulations governing the residential burning of leaves. The amendments submitted to Title 46.1, Chapter 4, § 46.1–301.1, prohibit operation of motor vehicles of model years 1973 and later if the pollution control systems of said vehicles are rendered inoperative. The amendment submitted, for public and EPA information to Title 58, Chapter 1, § 58–16.3 provides special tax treatment for certified pollution control equipment and facilities. Approval or disapproval action will not be taken by the Administrator with respect to the taxation amendment since it involves matters of state and local taxation rather than the institution or implementation of emission controls. The various amendments to the Code of Virginia were submitted in part on February 14, 1973, and in part, on August 10, 1973.

4. An amendment to the Virginia regulations on odor. This amendment was submitted only for the information of the Environmental Protection Agency and the public since odor regulations are not designed for the attainment or maintenance of any national ambient air quality standard. Approval or disapproval action is not appropriate for the odor amendment. This change was submitted August 10, 1973.

5. Amendments to section 3.703 of the Commonwealth of Virginia Regulations for the Control and Abatement of Air Pollution changing air quality standards for sulfur oxides (sulfur dioxide) to 0.03 ppm from 0.02 ppm annual arithmetic mean, and from 0.10 ppm to 0.14 ppm maximum 24 hour concentration not to be exceeded more than once per year. These amendments were submitted February 12, 1974.

All proposed revisions submitted by the Commonwealth of Virginia received proper public advertisement and hearing in accordance with 40 CFR 51.4 except that in some instances less than a full 30 day notice was given to other states included in interstate regions with Virginia. Also, notice to local agencies was oral rather than written. To cure any possible deficiencies, Virginia has sent copies of this notice to all relevant local agencies and adjoining state agencies advising those agencies of the opportunity to submit comments to the Administrator. In accordance with the policy reflected in 40 CFR 51.4(e), the Administrator approves these actions on the part of Virginia as compliance with 40 CFR 51.4(b) (4) and (5).

The public is invited to submit comments on whether the above described proposed revisions should be approved or disapproved as required by section 110 of the Clean Air Act. Only comments received by July 5, 1974 will be considered. The Administrator's decision to approve or disapprove each proposed revision will be based on whether it meets the requirements of section 110(a) (2) (A)–(H) of the Act and EPA regulations in 40 CFR, Part 51.

Copies of the proposed revisions are available for public inspection during normal business hours at the Offices of EPA, Region III, Curtis Building, 2d Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106, and in the Office of the Virginia State Air Pollution Control Board, Room 1106, Ninth Street Office Building, Richmond, Virginia 23219, and at the Freedom of Information Center, EPA, 401 M Street, SW., Washington, D.C. 20460. All comments should be addressed to the Regional Administrator, Environmental Protection Agency, Region III, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106.

(42 U.S.C. sec. 1857c–5)

Dated: May 30, 1974.

RUSSELL E. TRAIN,
Administrator.

[FR Doc.74–12913 Filed 6–4–74;8:45 am]

POSTAL SERVICE

[39 CFR Parts 123, 124]

PREPARATION FOR MAILING

Nonmailable Writings and Articles

The Postal Service proposes to promulgate revised regulations concerning matter the mailability of which is prohibited or conditioned by law. Part 123 has been retitled: Nonmailable matter—written, printed and graphic matter; Part 124 has been retitled: Nonmailable matter—articles and substances; special mailing rules.

The two parts are closely interrelated. For example, the rules governing the authority of postmasters to give interpretative advice to mailers are all contained in Part 123.

Because certain "written, printed and graphic" materials (Part 123) potentially involve First Amendment considerations, they are treated differently from "articles and substances" (Part 124). Generally, postmasters are forbidden to determine whether matter in Part 123 is nonmailable so as to prevent the entry of such matter into the mails: Instead, they are instructed to call postal customers' attention to the relevant portion of Part 123 (which, in turn, cites the appropriate sections of the U.S. Code which make the mailing of certain matter a criminal offense). Responsibility for compliance with the law is with the mailer. Postmasters are also directed to refer any suspected law violation or information concerning such law violation on matter found in the mailstream to the Postal Inspection Service.

Postmasters have wider latitude concerning the acceptability for mailing of "articles and substances." By virtue of Part 124, they are expected to advise mailers as to the mailability of most items and to inform them of any special rules governing matter subject to this Part, and they are authorized to exclude matter they determine to be nonmailable from entry into the mails. Certain suspected violations involving matter found in the mails are to be referred directly to the Inspection Service. They involve the mailing of firearms, switchblade knives, motor vehicle master keys, and controlled substances (narcotics). All other questionable mailings are to be referred to the Mail Classification Division of the Finance Department. Postmasters are also authorized to take any reasonable or necessary steps to protect postal personnel and equipment from injury or damage.

In rewriting Part 124 (and related portions of Part 123) an effort has been made to facilitate access by postal customers and postal officials to the basic criteria applicable to the mailing of various restricted articles; to provide more detailed information concerning the mailability of particular classes of articles; and to furnish specific instructions for obtaining administrative mailability determinations by the Mail Classification Division, Finance Department.

As rewritten, Part 124 also introduces a number of substantive changes. These include revisions in the regulations governing the mailing of intoxicating liquors which are not taxed as beverages, disease germs, controlled substances (narcotics), firearms and meat products. Plant quarantine information has been deleted and will be reissued as a separate publication.

Interested persons who wish to do so may submit written data, views, or arguments concerning the proposed regulations to the Manager, Mail Classification Division, Finance Department, U.S. Postal Service, Washington, D.C. 20260, at any time before June 20, 1974. Material submitted after that date will be considered by the Postal Service as it may bear on the need for amending final regulations promulgated in Parts 123 and 124.

Accordingly, complying voluntarily with the advance notice requirement of the Administrative Procedure Act (5 U.S.C. 553 (b), (c)) regarding proposed rulemaking, the Postal Service proposes to completely revise Parts 123 and 124 of Title 39, Code of Federal Regulations, to read as set forth below, to be effective July 1, 1974.

ROGER P. CRAIG,
Deputy General Counsel.

PART 123—NONMAILABLE MATTER—WRITTEN, PRINTED AND GRAPHIC MATTER

Sec.
123.1 General provisions.
123.2 Responsibility of mailer.
123.3 Advice to mailers; mailability decisions.
123.4 Nonmailable written, printed, or graphic matter generally.
123.5 Sexually oriented advertisements.

AUTHORITY: 39 U.S.C. 401, 3001–3011.

§ 123.1 General provisions.

(a) *Scope of this part.* Certain potentially undesirable, harmful or dangerous matter has been declared nonmailable by statute or regulation. This part contains the rules relating to such nonmailable matter in written, printed or graphic form. The rules relating to nonmailable articles and substances and the special conditions under which certain of them can be mailed are contained in Part 124 of this chapter.

(b) This part contains rules on how advice may be given to mailers on mailings of matter covered in this Part and Part 124 of this chapter. These rules restrict Postmasters in making decisions to exclude written, printed and graphic matter from the mails as nonmailable. See § 123.3.

(c) *Other nonmailable matter.* Matter is also nonmailable when it cannot be forwarded to its destination because of illegible, incorrect or insufficient address or because it fails to comply with postal regulations regarding preparation for mailing, classification, rates of postage, size, weight, etc.

§ 123.2 Responsibility of mailer.

It is the responsibility of the mailer to refrain from depositing nonmailable matter in the mails. When a mailer is in doubt as to whether particular matter is nonmailable, he should inquire of the postmaster prior to depositing such matter in the mails. See § 123.3.

§ 123.3 Advice to Mailers; Mailability Decisions.

(a) *General advice.* When a mailer seeks advice as to whether particular matter may be mailed, or where the postmaster otherwise learns that matter of questionable mailability is to be mailed, it is his responsibility to call to the mailer's attention the relevant provisions of Parts 123 and 124 and any relevant guidelines issued by the Postal Service. The scope of the postmaster's authority to decide whether particular matter is nonmailable and to exclude matter from the mails in accordance with his decison depends upon the nature of the matter in question and is determined by this section.

(b) *Mailability decision not authorized—written, printed and graphic matter.* Postmasters are not authorized to decide whether written, printed or graphic matter (Part 123) is nonmailable and to exclude such matter from the mails in accordance with his decision. As stated in paragraph (a) of this section postmasters should call the attention of prospective mailers of such matter to any apparently relevant provisions of this Part 123. If, after being so informed, the mailer demands that matter described in Part 123 be accepted for mailing, such matter shall be accepted and shall be treated as provided in paragraph (e) of this section.

(c) *Mailability decisions authorized.* Postmasters may decide whether articles and substances (Part 124 of this chapter) are nonmailable and shall, where appropriate, refuse to accept for mailing such matter determined to be nonmailable. If the mailer desires review of the postmaster's decision, the postmaster shall refer a sample or complete statement of the facts, whichever may be appropriate, to the Manager of Mail Classification Division, Finance Department.

(d) *Laws and regulations of other agencies.* Postmasters shall not give advisory opinions concerning the mailing of articles and substances (Part 124 of this chapter) under laws and regulations administered by agencies other than the Postal Service, but postmasters shall inform postal customers of the existence of such laws and regulations, and the source from which further information may be obtained, when known. For example, postal customers with questions about the interstate shipment of rifles and shotguns should be referred to the Director, Bureau of Alcohol, Tobacco and Firearms, Department of the Treasury, Washington, D.C. 20226, or to the nearest Regional Director of this Bureau.

(e) *Referral to the inspection service.* (1) Mail matter believed to be nonmailable under this Part that has entered the mails or a report containing information on such matter shall be referred immediately to the Inspection Service and the matter shall be handled in accordance with instructions promptly furnished by the Inspection Service.

(2) Mail matter believed to be nonmailable under Part 124 of this chapter that has entered the mails shall be withheld from dispatch or delivery. Matter coming within the scope of §§ 124.4, 124.5, 124.6 and 124.7 of this chapter (Firearms and Switchblade Knives, Controlled Substances, Motor Vehicle Master Keys, Abortive and Contraceptive Devices and Materials and Intoxicating Liquors) or a report containing information on such matter, shall be immediately referred to the attention of the Inspection Service. All other articles and substances, or a report containing information on such matter, shall be referred to the Mail Classification Division, Finance Department. Postmasters are authorized and directed to take any steps reasonable and necessary to protect Postal Service personnel and equipment from the effects of potentially dangerous or injurious materials or substances found in the mails.

(f) *Judicial determinations.* The other provisions of this Part do not apply to matter, the mailability of which has been determined by the Judicial Officer or a court of competent jurisdiction. Such matter shall be treated in accordance with the applicable decision of the Judicial Officer or court, whichever is appropriate.

(g) *Administrative appeals.* Any mailer who believes his right to use the mails is being wrongly impaired by reason of any final mailability determination or ruling under Part 123 or 124 may appeal to the Judicial Officer Department by filing a written Notice of Appeal with the Docket Clerk, U.S. Postal Service, Washington, D.C. 20260, together with a copy or description of the determination or ruling in question. Such appeals shall be governed by Part 953 of this chapter, Rules of Practice in Proceedings Relating to Mailability.

§ 123.4 Nonmailable written, printed or graphic matter generally.

(a) *Solicitations in the guise of bills or statements of account (39 U.S.C. 3001(d)).* Any matter otherwise legally acceptable in the mails which could reasonably be considered a bill, invoice, or statement of account due, but is in fact a solicitation for an order, is nonmailable unless such matter conforms to the following requirements:

(1) Each such solicitation shall prominently bear on its face the following notice:

> This is a solicitation for the order of goods and/or services and not a bill, invoice, or statement of account due. You are under no obligation to make any payments on account of this offer unless you accept this offer.

(2) The prescribed notice shall be printed on the face of the solicitation:

(i) In a size not smaller than the type size for printing any other word on the solicitation nor under any circumstances less than 12-point type;

(ii) In no less conspicuous type than the boldest type used to print other words on the solicitation.

(3) The background on which the prescribed notice is printed shall not diminish the contrast between the background and the printing so that it is less than the contrast between the background and the printing of any other words on the face of the solicitation.

(4) There shall be a clear space no less than one-quarter of an inch surrounding the prescribed notice.

(5) The prescribed notice shall be printed in boldface type capital letters.

(6) The prescribed notice shall not, by folding or any other device, be rendered less prominent than any other information on the face of the solicitation.

(7) In the case of a solicitation for the order of goods not involving services, the following may be omitted from the prescribed notice: "And/or services". Similarly, in the case of a solicitation for the order of services not involving goods, the following may be omitted from the prescribed notice: "Goods and/or".

(8) No solicitation shall state that it has been approved by the Postal Service or by the Postmaster General or that it conforms to any Federal law or regulations issued thereunder.

(b) *Lottery matter (18 U.S.C. 1302)*—(1) Definition. Any scheme or promotion, whether or not lawful under the laws of any state, which, upon payment of consideration, offers a prize dependent in whole or in part upon lot or chance, is a lottery.

(2) The following matter is unlawful mail matter:

(i) Any letter, package, postal card, or circular which advertises, invites or otherwise permits or facilitates participation in a lottery;

(ii) Any lottery ticket or part thereof or substitute;

V 39 109 JUN 5 74 XUM

(iii) Any form of payment for a lottery ticket or share;

(iv) Any newspaper, circular, pamphlet, or publication of any kind containing any advertisement of a lottery or similar enterprise, or any list of prizes awarded in such an enterprise.

(3) This section does not apply to any fishing contest not conducted for profit wherein prizes are awarded for the species, size, weight, or quality of fish caught by contestants in any bona fide fishing or recreational event (18 U.S.C. 1305).

(c) *Advertising matter*. (1) Any advertising, promotional, or sales matter which solicits or induces the mailing of any article described in §§ 124.2, 124.3, 124.4(f) and 124.8 of this chapter (harmful matter, radioactive material, switchblade knives, and intoxicating liquor), is likewise nonmailable except that such matter relating to articles described in §§ 124.2, 124.3 and 124.4(f) of this chapter is mailable if it contains wrapping or packaging instructions which are in accord with such provisions of Part 124 of this chapter (18 U.S.C. 1716).

(2) Advertisements for motor vehicle master keys (see § 124.6(b)) of this chapter are nonmailable (18 U.S.C. 1716A, 39 U.S.C. 3002).

(3) Any advertisement or other written representation that any article, substance or thing may or can be used for producing abortion, is nonmailable (18 U.S.C. 1461). (See § 124.7(a) of this chapter.)

(4) Unsolicited advertisements for articles or things which are designed, adapted or intended for preventing conception are nonmailable except when sent to a manufacturer of such articles or things, a dealer therein, a licensed physician or surgeon, or a nurse, pharmacist, druggist, hospital or clinic. Advertisements contained in a publication for which the addressee has paid or promised to pay a consideration or which he has otherwise indicated he desires to receive are not deemed unsolicited for the purposes of this section (39 U.S.C. 3001). (See § 124.7(b) of this chapter.)

(d) *Other prohibited matter*. The following are nonmailable:

(1) *Fictitious matter (18 U.S.C. 1342)*. Any matter addressed to a person using any fictitious name, title, or address in conducting, through the mail, any scheme or device in violation of law if, after notification, the addressee fails to appear at the post office and be identified or if the fictitious character of such mail is established to the satisfaction of the Judicial Officer in consequence of a proceeding initiated pursuant to Part 953 of this chapter.

(2) *Copyright violations (17 U.S.C. 109)*. Mail of foreign origin containing matter determined by a court of competent jurisdiction to violate the copyright laws of the United States or any copyright convention or treaty to which the United States is a party.

(3) *Certain foreign communications*. Matter addressed to foreign countries posted in violation of law or treaty stipulation.

(4) *Lewd or filthy matter (18 U.S.C. 1461, 1462)*. Obscene, lewd, lascivious, or filthy publications or writings, or mail containing information concerning where, how, or from whom such matter may be obtained, and matter which is otherwise mailable but which has on its wrapper or envelope any indecent, lewd, lascivious, or obscene writing or printing. Any mail containing any filthy, vile, or indecent thing.

(5) *Matter inciting to violence (18 U.S.C. 1461, 1717*. Any matter of a character tending to incite arson, murder, assassination, treason, insurrection, or forcible resistance of any law of the United States, or containing any threat to take the life of, or to inflict harm upon, the President of the United States.

(6) *Libelous matter (18 U.S.C. 1718)*. Any matter otherwise mailable which has on its outside wrapper or envelope or any postal card which bears on its face, any libelous, scurrilous, defamatory or threatening language or delineation or is otherwise obviously intended to reflect injuriously on the character or conduct of another.

(7) *Other matter (18 U.S.C. 1717)*. Every letter, writing, circular, postal card, picture, print, engraving, photograph, newspaper, pamphlet, book or other publication, matter or thing, described in the statutes hereinafter referenced.

(i) Forged or altered military or official passes (18 U.S.C. 499);

(ii) Matter bearing forged or altered seals of Government departments or agencies (18 U.S.C. 506);

(iii) Defense information (18 U.S.C. 793, 794);

(iv) Documents obtained by persons falsely assuming to be foreign diplomats (18 U.S.C. 915);

(v) False statements influencing foreign governments (18 U.S.C. 954);

(vi) Matter relating to a conspiracy to injure property of a foreign government (18 U.S.C. 956);

(vii) Matter unlawfully in aid of a foreign government (18 U.S.C. 957);

(viii) Matter relating to an expedition against a friendly nation (18 U.S.C. 960);

(ix) Matter relating to delivery of an armed vessel to a belligerent nation (18 U.S.C. 964);

(x) Matter wrongfully bearing seal of a Government department or agency (18 U.S.C. 1017);

(xi) Passport applications containing false statements, and passports falsely obtained (18 U.S.C. 1542);

(xii) Forged, altered or misused passports (18 U.S.C. 1543, 1544);

(xiii) Matter bearing false statements intended to injure armed forces during war (18 U.S.C. 2388).

§ 123.5 Sexually oriented advertisements.

(a) *General* (1) Section 3010 of title 39, United States Code, provides a means by which a member of the public can act to protect himself and his minor children from receiving unsolicited sexually oriented advertisements through the mails. This section permits any person who is served by the U.S. Postal Service to file with the Postal Service a statement that he does not desire to receive any sexually oriented advertisements through the mails. Any mailer who sends that person an unsolicited sexually oriented advertisement more than 30 days after the date on which the Postal Service adds his name to its reference list of those who desire this protection, may be subject to both civil and criminal sanctions, as provided in 39 U.S.C. section 3011 and in 18 U.S.C. sections 1735–37.

(2) 39 U.S.C. section 3010(d) defines a "sexually oriented advertisement" as "any advertisement that depicts, in actual or simulated form, or explicitly describes, in a predominantly sexual context, human genitalia, any act of natural or unnatural sexual intercourse, any act of sadism or masochism, or any other erotic subject directly related to the foregoing." It further provides that "material otherwise within the definition of this subsection shall be deemed not to constitute a sexually oriented advertisement if it constitutes only a small and insignificant part of the whole of a single catalog, book, periodical or other work the remainder of which is not primarily devoted to sexual matters."

(3) The responsibility for insuring that no unsolicited sexually oriented advertisement is sent through the mails to any person in violation of section 3010 is placed by that section on the mailers of sexually oriented advertisements. No provision of Postal Service regulations may be used to place this responsibility upon the Postal Service. For example, the privilege of a sender to recall a piece of mail provided by § 153.5 of this chapter may not be so used, although it may be used in good faith to request the recall of a specific piece of mail inadvertently deposited in the mails addressed to a person on the list.

(b) *Application for listing*. (1) A person may invoke the protection of § 3010 by completing and filing, with any postmaster or other designated Postal Service representative, Part II of Application for Listing Pursuant to 39 U.S.C. 3010, PS Form 2201, which may be obtained at any post office. Form 2201 bears a preprinted identifying number in two places: On the instruction portion (Part I) and on the application portion (Part II). After filing the application portion the customer should retain the instruction portion and should use the identifying number in any subsequent communication with the Postal Service concerning his application.

(2) A person may file on his own behalf and on behalf of any of his children under the age of 19 years who reside with him or are under his care, custody, or supervision. An authorized officer, agent, fiduciary, surviving spouse or other representative, may file in behalf of a corporation, firm, association, estate, or deceased or incompetent addressee.

(3) Each postmaster shall transmit all applications received at his post office of the Office of ADP Services, Management Information Systems Department, U.S. Postal Service, Box 677, Washington, DC 20044 on a daily basis. The applications shall be packaged so that they will not be subject to folding, bending or other mutilation or damage.

(4) The Mail Classification Division, Finance Department, as soon as practical after receipt of a Form 2201, shall place the customer's name and address and the names and addresses of his minor children if any are included on the application, on the Postal Service List (hereafter List) of persons desiring not to receive sexually oriented advertising. This information will be processed during the month and at the end of each month a revised or supplemental List will be prepared. The List will be dated the 10th day of the month following the month in which the Forms 2201 were processed. The 30-day period provided by section 3010(b) starts on the effective date of the List on which a person's name first appears.

(5) A person's name and address will be retained on the List for a period of 5 years, unless a request for revocation is sooner filed by that person. A person must file a new application at the end of the 5-year period if he desires to continue his name on the List. The names and addresses of minor children will be automatically removed from the List when they attain 19 years of age. A minor must file an original application in his own behalf if he desires to continue his name on the List after reaching 19 years of age.

(6) The filing of a single application results in the listing of a single address for the person filing. A person who receives mail at more than one address and who wishes the protection of section 3010 at more than one address should file a separate application for each. A person who moves must file a new application to receive the protection of section 3010 at his new address. The submission of Change of Address Order PS Form 3575 will not be effective for this purpose. It would not be a violation of section 3010 to mail a sexually oriented advertisement to a person at an address other than that which is shown for him on the List. It would be a violation, however, to mail such an advertisement to him at the address shown for him even though he has moved from that address.

(c) *Revocation of listing*. A person, at any time, may request the removal of his name and address, or that of one or more of his minor children, from the List by so notifying his postmaster. It would not be evidence of a violation of § 3010 if a person received a sexually oriented advertisement in the mails on or after the date he gives such notice.

(d) *Availability of Postal Service list*.

(1) Copies of the List or portions thereof and periodic amendments thereto shall be available to any person by annual subscription or by purchase of individual issues of the List. Requests for subscriptions and purchases of the individual issues should be submitted to the Manager, Mail Classification Division, Finance Department, U.S. Postal Service, Washington, D.C. 20260.

(i) A subscription year runs from January 1 through December 31. An annual subscriber will receive on a monthly schedule a reproduced copy of the printout of the List and may also receive, upon request, a computer tape of the List. If the blank tape used in preparation of the taped List is furnished by the Postal Service, a charge of $30 per tape is applied. Further information on the format of the tapes may be obtained from the Manager, Mail Classification Division. Computer tapes of the List will be available only to annual subscribers. Requests for subscriptions must be accompanied by a certified check for $5,000 payable to the U.S. Postal Service to be applied, at the end of the subscription year, against the annual subscription fee. Any excess over the annual subscription fee will be refunded and any deficiency charged to the subscriber. The annual subscription fee will be established at the end of each subscription year and will represent the net cost (after deduction of receipts from sales of individual issues of the List), prorated among the subscribers, of compiling, processing, printing, and distributing the List. In no event will the annual subscription fee exceed $10,000.

(ii) Nonsubscribers who wish to purchase reproduced copies of the printout of the List must request such copies by the 25th of each month to allow sufficient time for the List to be received by the 10th of the following month. The reproduced printout may be purchased at a fee of one-half of 1 cent per page, payable in cash or by certified check. All checks must be made payable to the U.S. Postal Service and should be sent to the Manager, Mail Classification Division.

(2) This List may be used by mailers only to protect persons whose names appear on it from receiving unwanted sexually oriented advertisements through the mails. No person, including a subscriber to the List, may use the List for any other purpose, and no person may sell, lease, rent, lend, exchange or license another to use this List for any purpose whatsoever, including its use by another to remove names from a list of persons to whom sexually oriented advertisements will be sent. No person may use the List or a copy thereof for the purpose of preparing mailing or other lists for sale, lease, rent, loan, exchange or use by another. Violators are subject to criminal prosecution.

(e) *Marking of envelope*. Section 3010 (a) authorizes and directs the Postal Service to provide a mark or notice which must be placed on the envelope or cover of any sexually oriented advertisement sent through the mails, together with the name and address of the sender. The following provisions are in implementation of this authority and direction:

(1) Any person who mails or causes to be mailed any sexually oriented advertisement shall place in the upper left-hand corner of the exterior face of the mail piece, whereon appear the address designation and postmarks, postage stamps, or indicia thereof, the sender's name and address. In the right-hand portion below the postage stamp, or indicia thereof, and above the addressee designation, there shall be placed "Sexually Oriented Ad". The words "Sexually Oriented Ad," however, need not be placed on the exterior envelope or cover of a mail piece containing such an advertisement, if the contents of the mail piece are enclosed in a sealed envelope or cover, inside the exterior envelope or cover, which sealed envelope or cover bears conspicuously the words "Sexually Oriented Ad."

(2) The name and address of the sender and the legend required by subparagraph (1) of this paragraph, if the latter is placed on the exterior face of the mail piece, shall be printed in a size type no smaller than that used for any other word on the envelope or other cover, and in no event smaller than 12-point type. Such type shall be no less conspicuous than the boldest type used to print other words on the exterior face of the mail piece.

(3) The contrast between the background and printing of the sender's name and address and the contrast between the background and the printing of the prescribed notice shall be no less than the contrast between the background and printing of any other words on the envelope or other wrapper.

(4) A clear space no less than one-quarter of an inch wide shall surround the sender's name and address and the prescribed notice, separating each from any other matter appearing on the same envelope or cover.

(f) *Violations*. (1) The following is a partial list of conduct which may violate 39 U.S.C. section 3010 or 18 U.S.C. section 1735:

(i) The mailing of a sexually oriented advertisement in an envelope or other wrapper which does not bear the name and address of the sender and the legend "sexually oriented ad" as provided by paragraph (e) of this section;

(ii) The mailing directly or indirectly of a sexually oriented advertisement to a person whose name and address have been on the List for more than 30 days;

(iii) The sale, loan, lease, or licensing the use of the List or a copy thereof in whole or in part;

(iv) The use of the List or a copy of it in whole or in part for any other purpose than to insure that no mailings of sexually oriented advertisements are made to persons on the List.

No person who mails sexually oriented advertisements only to persons who have specifically requested to receive the same will be deemed to have violated the statute or regulations, provided he is otherwise in compliance with the law, regardless of whether he has purchased and used the U.S. Postal Service list.

(2) A person who wishes to report that he has received an unsolicited sexually oriented advertisement after his name and address have been on the list for more than 30 days should submit the entire mail piece, including the envelope or other wrapper, to any postmaster. The

V 39 109 JUN 5 74 XUM

mail piece must be opened by the addressee. When submitting the mail piece, the addressee must endorse the envelope or other wrapper and also the contents thereof in substance as follows: "I received this mail piece on (date)", and sign the statement. He should also state the identifying number appearing on his application if it is known to him. See paragraph (b)(1) of this section. The postmaster of the installation to which the mail piece is submitted shall send it without delay to the Postal Inspector in Charge of the Division which has geographical jurisdiction over the address of the mailer.

(3) If a violation of paragraph (d) of this section comes to the attention of any postal officer or employee, he shall, through his postmaster, report such violation to the postal inspector whose territory includes his postal installation. Mail of a mailer in violation or apparent violation of section 3010 may not be refused for dispatch or delivery without a proper court order. Appropriate instructions to postmasters will be issued in the event that a court order is obtained.

(4) A customer who wishes to ascertain whether his name has been placed on the List should direct his inquiry to the Manager, Mail Classification Division, Finance Department, U.S. Postal Service, Washington, DC 20260.

(g) *Disposal of Original Form PS 2201.* (1) It is anticipated that because of the possible volume of filings pursuant to paragraph (b)(1) of this section it may be an undue burden upon the Postal Service to retain the original executed application forms. If it is determined by the Senior Assistant Postmaster General, Support Group, to be such a burden, each application shall be photographed on microfilm as soon as the information required for compliance with paragraph (b)(4) of this section has been obtained and shall thereafter be destroyed.

PART 124—NONMAILABLE MATTER—ARTICLES AND SUBSTANCES; SPECIAL MAILING RULES

Sec.

124.1 General provisions.
124.2 Harmful matter (18 U.S.C. 1716).
124.3 Radioactive material (18 U.S.C. 1716).
124.4 Firearms, knives and sharp instruments (18 U.S.C. 1715, 1716).
124.5 Controlled substances, narcotics (18 U.S.C. 1716).
124.6 Motor vehicle master keys (18 U.S.C. 1716A, 39 U.S.C. 3002).
124.7 Abortive and contraceptive devices or materials.
124.8 Nonmailable articles (18 U.S.C. 1716).

AUTHORITY: 39 U.S.C. 401, 3001–3011.

§ 124.1 General provisions.

(a) *Scope of this part.* Certain potentially harmful or dangerous articles and substances are nonmailable. Some of them may be mailed if specially prepared for mailing or if mailed between specified classes of persons. This Part covers the rules applicable to nonmailable articles and substances and the special rules under which certain of them may be mailed. This part does not contain rules relating to nonmailable written, printed or graphic material. For rules relating to these kinds of material, see Part 123 of this chapter.

(b) *Responsibility of mailer.* The mailer is responsible for compliance with applicable postal laws and regulations governing mailability and preparation for mailing as well as other laws and regulations pertaining to the shipment of particular matter. The general requirements applicable to preparation, packaging and packing of mailable matter are contained in Part 121 of this chapter.

(c) *Mailability rulings.* For rules on giving advice as to the mailability matter covered by this Part and Part 123, see § 123.3 of this chapter.

(d) *Other laws and regulations.* The customer's right to mail particular matter may be affected by conditions or limitations upon transportation of specific articles imposed by Federal agencies having jurisdiction over interstate transportation. See, for example: 49 CFR Parts 100 through 199 (Department of Transportation Regulations); 14 CFR Part 103 (Federal Aviation Regulations); the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Public Law 91–513), 21 U.S.C. 801; and the Gun Control Act of 1968 (Public Law 90–618), 18 U.S.C. 921. For the rule on advising mailers about these other laws and regulations see § 123.3(d).

(e) *Markings and labels*—(1) *Identification of contents.* The identity or nature of contents of anything mailed under any of the provisions of this Part 124, except firearms and switchblade knives (§ 124.4), controlled substances (§ 124.5) and motor vehicle master keys (§ 124.6) must be stated plainly on the outside of the parcel as a condition of mailing.

(2) *Address marking.* The name and address of both the mailer and the addressee must be affixed to the outside of any package the mailing of which is covered by this Part 124 using a material or method which is not water soluble and which cannot be easily rubbed off or smeared.

(3) *Labels.* Except for controlled substances mailed under § 124.6, labels or other markings required by Federal law or regulation of any Federal agency must be securely affixed to the outside of the package.

(4) *Airmail shipment certification* Every airmail shipment of restricted articles mailable under this Part shall be accompanied by a shipper's certification prepared in accordance with Federal Aviation Regulations, completed and signed in duplicate by the mailer.

§ 124.2 Harmful matter (18 U.S.C. 1716).

(a) Except as provided below, any article, composition, or material which may kill or injure another or injure the mail or other property is nonmailable. Harmful matter includes, but is not limited to:

(1) All kinds of poison or matter containing poison;

(2) All poisonous animals, except scorpions (see paragraph (i)(3)(iv) of this section), all poisonous insects, all poisonous reptiles, and all kinds of snakes;

(3) All disease germs or scabs;

(4) Narcotics and other "Controlled Substances" as defined by 21 U.S.C. 801 or the regulations thereunder, and

(5) All explosives, flammable material, infernal machines, and mechanical, chemical, or other devices or compositions which may ignite or explode.

Harmful matter also includes that which is likely to destroy, deface, or otherwise damage the mails or postal equipment, or which is likely to harm postal employees, such as caustic poisons (acids and alkalies), oxidizing materials, or highly flammable liquids, gases or solids; or which is likely under conditions incident to transportation to cause fires through friction, through absorption of moisture, through spontaneous chemical changes or as a result of retained heat from manufacturing or processing; explosives or containers previously used for shipping high explosives having a liquid ingredient (such as dynamite), ammunition; fireworks; radioactive materials; matches; or articles emitting abnoxious odors. (For advertisements for the mailing of harmful matter generally see § 123.4(c)(1) of this chapter.)

(b) *Chemicals.* The great variety of chemical compositions precludes the listing of each such item that may be mailed and each such item that may not be mailed. The acceptability of chemicals for mailing generally depends upon container fluid/vapor capacities, the ability of the complete package to contain the product, and the method of absorbing and containing the product in case of accidental leakage of the primary container. To permit mailability determinations on specific products, the following information is required:

(1) Name of material.

(2) Chemical composition by percentage of ingredient.

(3) Flash point.

(4) Toxic properties.

(5) Irritant action to eyes and skin.

(6) Special precautions necessary to permit handling to avoid harm to postal personnel or property or other mail matter.

(7) Explanation of warning labels required by State or Federal regulations.

(8) Proposed method of packaging.

(c) *Explosives.* All Class A and B explosives as defined by Title 49, CFR, are nonmailable. When specifically authorized by the Mail Classification Division, some Class C explosives may be mailed if they are prepared for mailing as may be determined sufficient to render such matter not outwardly or of their own force dangerous or injurious to life, health or property.

(d) *Flammable material*—(1) *Flammable solids and oxidizing materials; matches.* Flammable solids are those items, other than explosives, which are liable to cause fires through friction, absorption of moisture, spontaneous chemical changes, or retained heat or which can be readily ignited and when ignited burn rapidly, vigorously and persistently. Oxidizing materials are those, such as peroxide, which yield oxygen readily to stimulate combustion of organic matter. Flammable solids and oxidizing materials in general are subject to the rules relating to the mailability of chemicals. Matches are mailable under the following conditions:

(i) Strike-anywhere matches may not be mailed.

(ii) Safety matches may be mailed under the following conditions:

(A) Safety matches (book, card or strike-on-box) must be of a type that will not ignite spontaneously under conditions normally incident to transportation and of a type which can be readily ignited by friction only by striking on the manufacturer's (or similar) box, book or card.

(B) Matches must be tightly packed to prevent movement within the container and to prevent ignition by rubbing against adjoining boxes, books or cards. They must be securely wrapped in paper or foil or packed in tightly closed inner containers.

(C) Not more than 50 books of matches may be packed in each inside container. Inner packages shall be securely packed in strong wood or fiberboard mailing containers. The maximum weight of matches that may be packed in any outside container is 50 pounds. Alternatively, book safety matches up to a maximum of 50 books may be packed in a fiberboard carton, covered with kraft paper, having a securely-glued inside lining consisting of aluminum foil at least 0.0004 inch thick. The carton must have a full depth lid with all joints secured with gummed paper tape.

(2) *Flammable liquids.* Flammable liquids and semi-solids which may liquify under normal conditions of mailing and which have a flash point above 20° F. may be accepted for domestic surface mail. Overseas mail and air mail are restricted to items with a flash point above 100° F. Containers of flammable liquids must have sufficient air space to prevent vapor expansion pressure variations from causing container failure.

(e) *Gases.* Compresesd gas containers containing gaseous matter must be of metal or of other nonshattering material meeting Federal requirements applicable to the interstate transportation of gases. Containers with release mechanisms must be cushioned to absorb shock and protected against damage or accidental discharge in transit. (See § 121.5(c).) Definitions of terms covering compressed gases are set forth in Title 49, CFR. These items are generally considered mailable if exempt from compliance with Federal statutes, regulations, and associated tariffs applicable to their interstate transport. Nonexempt items are nonmailable.

(f) *Powders.* Powders which, if allowed to escape from their containers could cause damage, discomfort, destruction or soiling, must either be packed in sift-proof containers or in other containers sealed in durable sift-proof outer containers.

(g) *Poisons*—(1) *Highly toxic poisons for scientific use.* Highly toxic poisons for scientific use which are not outwardly or of their own force dangerous or injurious to life, health or property may be shipped only between manufacturers, dealers, bona-fide research or experimental scientific laboratories, and employees of the Federal, State, or local governments who have officials use for such poisons. Any such employee must be designated by the head of his agency to receive or send such poisons.

(2) *Highly toxic poisonous drugs and medicines.* Highly toxic poisonous drugs and medicines may be shipped only from the manufacturer thereof or dealer therein to licensed physicians, surgeons, dentists, pharmacists, druggists, cosmetologists, barbers and veterinarians. (See 18 U.S.C. 1716.)

(h) *Disease germs and biological products.* Disease germs and scabs, such as contained in etiologic agents, diagnostic specimens and biological products which may cause disease, are nonmailable except when it is determined that such items are properly prepared for mailing and conform to Federal requirements applicable to interstate transportation of such matter. To be accepted, such matter must be packaged in waterproof inner containers which are not permeable by the contents. When other than dry items are mailed, the inner container(s) must then be packaged in sufficient absorbent cushioning material to completely absorb the contents in case of leakage of the inner container. The cushioning and inner container(s) of liquid or semi-liquid must then be enclosed in a sealed nonpermeable outer container which may also serve as the shipping container.

(1) *Marking.* When applicable, the outer containers will have required marking affixed (e.g., the etiologic agent label required for international mail by § 213.25 of the Postal Service Publication 42).

(i) *Perishable matter*—(1) *Time factor.* Harmless live animals, perishable foods, and game may be sent through the mail only if they can reach their destination in good condition in the normal transit time between the mailing and address points. Perishable foods may be shipped at the mailer's risk, provided they are not subject to rapid decay and the generating of obnoxious odors. Air mail, special handling, or special delivery services are recommended.

(2) *Highly perishable food and game.* (i) Crates, boxes, baskets, or other containers used to ship highly perishable goods should be constructed to protect the contents and to prevent their escape.

(ii) Berries, fruits, and vegetables are not mailable unless presented in dry condition.

(iii) Water ice used as a refrigerant must be packed as though it were a liquid in accordance with § 121.5(c) of this chapter "Dry ice" (carbon dioxide solid) is acceptable when wrapped securely in heavy paper. Dry ice must not be packed in glass, metal, or other air-tight containers. Sufficient insulation is necessary if a fiberboard box is used, in order to prevent condensation and wetting of the shipping carton.

(3) *Live animals*—(i) *Live day-old poultry.* Live day-old chicks, ducks, geese, guinea fowl, and turkeys are acceptable in the mail only under the following conditions:

(A) They must be presented for mailing in the original unopened hatchery box from the hatchery of origin.

(B) The date and hour of hatching must be noted on the box by a representative of the hatchery who has personal knowledge thereof. (In the case of COD shipments made by a hatchery for the account of others, the name or initials and address of the hatchery or the post office box number and address of the hatchery must be prominently shown in connection with this requirement.)

(C) They must not be over 24 hours old.

(D) The box must be properly ventilated and of proper construction and strength to bear safe transmission in the mail. (These boxes will not be stacked more than 10 high.)

(E) They can be delivered to the addressee within 72 hours of the time of hatching regardless of whether the addressee resides in town or on a rural or star route.

(F) They must be mailed sufficiently early in the week to avoid receipt at the office of address, in case of missed connections, on a Sunday, on a national holiday, or on the afternoon preceding a Sunday or holiday.

(G) Shipments shall not be forwarded to the addressee from the office of origin address nor returned to mailer if delivery cannot be made to either the addressee or sender within 72 hours of the time of hatching, but will be disposed of in accordance with § 159.2(h) of this chapter, "Shipments" that are delayed beyond the 72-hour limit by washouts, snow blockades, wrecks, and the like, will be disposed of by postmasters in accordance with instructions in § 159.2(h) of this chapter.

(H) If a COD shipment is received at the office of address and it is not promptly accepted by the addressee, it will be held for delivery until the expiration of the 72-hour period from the time of hatching, if there is a possibility that delivery may be made within that period. If, at the expiration of the 72-hour period, the shipment has not been accepted, it will be sold. COD shipments will not be sold to the original addressee unless paid for in full, including all postal service charges. If the parcel is sent as ordinary or insured mail, it will be disposed of in accordance with § 159.2(h) of this chapter.

(I) Boxes of day-old poultry of approximately identical size, securely fastened together to prevent separation in transit, may be accepted for mailing as a single parcel provided such parcel

V 39 109 JUN 5 74 XUM

does not exceed 100 inches in length and girth combined.

(J) Day-old poultry, originally shipped by air express or air cargo and then presented for mailing, must be in first-class condition, and prepared in accordance with paragraph (i)(3)(i) (A) through (F) of this section.

(K) The shipments must bear special delivery or special handling postage in addition to regular postage.

(L) Day-old poultry vaccinated with Newcastle Disease (live virus) are nonmailable.

(M) Each box should bear, in addition to the address label on top, another address label on the side, or the narrow end, if the box is rectangular in shape, to eliminate unnecessary handling when boxes are stacked.

(N) Whenever live, day-old poultry is sent air mail all provisions of the airline tariffs must be met and air carriers must have equipment available to safely deliver shipments within the specified time limitations, allowing for delays en route in air and ground transportation.

(ii) *Other animals.* (A) Mailable—Small, harmless, cold-blooded animals (except snakes) which do not require food or water or attention during handling in the mail and which do not create sanitary problems or obnoxious odors are mailable. For example, the following are mailable: Baby alligators and caymans not exceeding 20 inches in length, bloodworms, earthworms, mealworms, chameleons, frogs, toads, goldfish, hellgrammites, newts, salamanders, leeches, lizards, snails and tadpoles. Turtles (including terrapins, tortoises and all other animals of the Order *Testudinata,* Class *Reptilia*) with a carapace not exceeding 2½ inches in length, and viable turtle eggs, may be accepted for mailing only when accompanied by a certificate issued by the State Health Department of the State of origin certifying that such turtles or viable turtle eggs are free of bacteria of the *Salmonella* and *Arizona* genera. The certification shall be based upon results obtained through the test procedures specified by the Department of Health, Education, and Welfare. (See 42 CFR 72.26.) The mailing containers shall be marked in bold block letters: "Turtles or turtle eggs—complies with 124.293b, PSM." Turtles with a carapace exceeding 2½ inches in length are nonmailable. Animals mailed into the Trust Territory of the Pacific Islands require a permit issued by the Director of Agriculture of that Territory. Shipping containers for mailable animals must be, as a minimum, made of 275-pound double-wall corrugated weather-resistant fiberboard, and shall be adequately ventilated and marked to indicate contents.

(B) Nonmailable—No warm-blooded animals except day-old poultry are acceptable. The following are examples of animals which are not mailable: Hamsters, white mice, rats, guinea pigs, rabbits, kittens, puppies, chickens, flying squirrels, parakeets, canaries and pigeons.

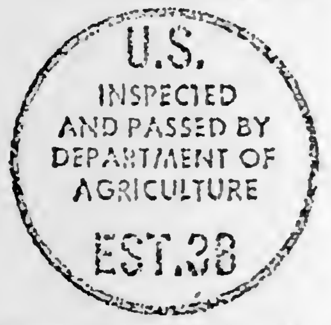
(iii) *Insects.* (A) Bees are acceptable in the continental surface mail when shipped in accordance with Federal and State regulations to assure that they are free of disease. Packages of honey bees must bear special delivery or special handling postage. Queen bees only may be shipped airmail.

(B) Other live, nonpoisonous and nondisease-conveying insects may be sent through the mail when properly prepared for mailing and when shipped in accordance with regulations of the U.S. Department of Agriculture. When such insects are mailed into the Trust Territory of the Pacific Islands, they are also subject to regulations of the Director of Agriculture of that Territory.

(iv) *Live scorpions.* Live scorpions which are to be used for purposes of medical research or for the manufacture of antivenin will be accepted only in the continental surface mail when packaged in a double mailing container, both parts of which are closed or fastened to prevent escape of the scorpions. The inner container must be of material which cannot be punctured by the scorpions and must be plainly marked "Live Scorpions." Cushioning material must be used when necessary to prevent shifting of the inner container. The outer container must be of sufficient strength to prevent crushing of the package or exposure of the contents during normal handling in the mail, and also must be plainly marked "Live Scorpions."

(4) *Meat and meat products*—(i) *Certificate required.* Shipments of meats and meat products may be sent through the mail only if they conform with regulations of the U.S. Department of Agriculture under Federal statutes. Each shipment must be accompanied by a certificate by the mailer unless the shipment shows on the outside the mark of Federal meat inspection. The mailer's certificate may be applied directly to the outside of the parcel, container or wrapper (in the case of volume shippers), or be submitted on Form 3583 filed at a time of mailing. (See paragraph (i)(4)(iii) of this section.)

(ii) *Mark of federal meat inspection.* Outside containers used to mail meat or meat products hearing the following mark of Federal Meat Inspection may be accepted without requiring a certificate:



(iii) *Form of certificate.* (A) Volume shippers of U.S. inspected and passed products may elect to rubber hand stamp or by other means affix the following certificate to the address side of each package of meat and meat products:

I hereby certify that the following described product, which is offered for shipment in commerce, has been U.S. inspected and passed by the U.S. Department of Agriculture, is so marked, and at this date is not adulterated or misbranded.

Kind of product	*Amount and weight*
-------------------	-------------------
-------------------	-------------------
-------------------	-------------------

Signature of shipper

Address of shipper

(B) Mailers not preparing their shipments as provided in paragraph (i)(4)(ii) or (iii)(A) of this section should use Form 3583, "Certificate of Shipper Interstate Mail Shipment of Meat or Meat-Food Products." The form is designed for use by all other shippers of meat or meat-food products subject to the inspection regulations of the U.S. Department of Agriculture. Three types of certificates are included in the form. The shipper must complete both sides of the form and submit it to the postmaster with each shipment.

(iv) *Disposition of Form 3583.* The original Form 3583 shall be filed in such a manner as to be readily available to authorized Department of Agriculture employees. This original shall be maintained for a period of two years after December 31 of the year in which the transaction occurred. A copy will be provided the mailer upon request.

(5) *Dead wild animals.* The dead bodies, or parts thereof, of any wild animals, wild birds or their eggs, are acceptable for mailing only when they have been lawfully killed or taken, and their shipment is not prohibited by law of the United States or of the State, Territory, district or foreign country or subdivision thereof in which killed or taken or offered for shipment. Mailing of fresh game is also subject to requirements of paragraph (i)(4) of this section.

(6) *Furs, hides, skins or pelts.* Parcels containing furs, hides, skins, or pelts of wild animals are mailable only when their contents are properly dried or cured, have no offensive odor, and are plainly marked, labeled, or tagged on the outside with the names and addresses of the shipper and addressee, together with such endorsement, if any, as may be required by state laws. Hides and pelts must be wrapped when necessary to prevent damage to other mail.

(7) *Plant quarantines.* Regulations on plant quarantines are found in Postal Service Publication 14.

§ 124.3 Radioactive Material (18 U.S.C. 1716).

Radioactive material may not be mailed except in accordance with the regulations found in Publication 6. (For advertisements for the mailing of radioactive material, see § 123.4(c)(1).)

§ 124.4 Firearms, knives and sharp instruments (18 U.S.C. 1715, 1716).

(a) *Pistols, revolvers and other concealable firearms generally.* Pistols, revolvers and other firearms capable of

being concealed on the person (hereinafter referred to as "hand guns") are nonmailable except when mailed between the parties specified in paragraph (a) (2) and (4) of this section and upon the filing of an affidavit or statement as required by paragraph (a) (3) and (5) of this section.

(1) *Definitions.* (i) The term "hand gun" means any pistol, revolver or other firearm or device the mailing of which is regulated by this section.

(ii) The term "pistol" or "revolver" means a hand gun styled to be fired by the use of a single hand and to fire or otherwise expel a projectile by the action of an explosion, spring, or other mechanical action, or air- or gas-pressure with sufficient force to be used as a weapon.

(iii) The term "firearm" means any device, including a starter gun, which is designed to or may readily be converted to expel a projectile by the action of an explosion, spring, or other mechanical action, or air- or gas-pressure with sufficient force to be used as a weapon.

(iv) The phrase "other firearms capable of being concealed on the person" includes, but is not limited to, short-barreled shotguns, and short-barreled rifles.

(v) The term "short-barreled shotgun" means a shotgun having one or more barrels less than 18 inches in length. The term "short-barreled rifle" means a rifle having one or more barrels less than 16 inches in length. These definitions include any weapon made from a shotgun or rifle, whether by alteration, modification or otherwise, if such weapon as modified has an overall length of less than 26 inches. A short-barreled shotgun or rifle of greater dimension may also be regarded as nonmailable when it has characteristics allowing it to be concealed on the person.

(vi) The terms "licensed manufacturer" and "licensed dealer" mean, respectively, a manufacturer of firearms or a bona-fide dealer therein duly licensed by the Bureau of Alcohol, Tobacco and Firearms of the Department of the Treasury, pursuant to the Gun Control Act of 1968 (Pub. L. 90–618), 18 U.S.C. 921 et seq.

(vii) The term "antique firearm" means any firearm (including those with a matchlock, flintlock, percussion cap, or similar type of ignition system) manufactured in or before 1898, or any replica thereof if such replica

(A) Is not designed or redesigned for using rimfire or conventional centerfire fixed ammunition, or

(B) Uses rimfire or conventional centerfire fixed ammunition which is no longer manufactured in the United States and which is not readily available in the ordinary channels of commercial trade.

(2) *Mailings between authorized persons.* Subject to the requirements of paragraph (a)(3) of this section, hand guns may be mailed by a licensed manufacturer of firearms, a licensed dealer therein, or an authorized agent of the Federal Government or the government of a State, District or Territory, only when addressed to a person in one of the following categories for use in connection with his official duties:

(i) Officers of the Army, Navy, Air Force, Coast Guard, Marine Corps, or Organized Reserve Corps.;

(ii) Officers of the National Guard or Militia of a State, District or Territory;

(iii) Officers of the United States or of a State, Territory or District whose official duty is to serve warrants of arrest or commitment;

(iv) Employees of the Postal Service specifically authorized by the Chief Postal Inspector;

(v) Officers and employees of enforcement agencies of the United States;

(vi) Watchmen engaged in guarding the property of the United States, a State, Territory or District;

(vii) Purchasing agent or other designated member of agencies employing officers and employees included in paragraph (a)(2)(iii), (iv), and (v) of this section.

(3) *Affidavit of addressee required.* Any person proposing to mail a hand gun pursuant to § 124.412 must file with the postmaster, at the time of mailing, an affidavit signed by the addressee setting forth that he is qualified to receive the firearm under the particular paragraph (a)(2) (i) through (vii) of this section, and that the firearm is intended for his official use. The affidavit must also bear a certificate stating that the firearms are for the official duty use of the addressee, signed by one of the following as appropriate:

(i) For officers of Armed Forces, a certificate by the commanding officer;

(ii) For officers and employees of enforcement agencies, a certificate signed by the head of the agency employing the addressee to perform the official duty in connection with which the firearm is to be used;

(iii) For watchmen, a certificate signed by the chief clerk of the department, bureau or independent branch of the Government of the United States, the State, the Territory, or the District by which the watchman is employed;

(iv) For the purchasing agent or other designated member of enforcement agencies, a certificate signed by the head of such agency, that the firearm is to be used by an officer or employee included in paragraph (a)(2) (iii), (iv), and (v) of this section.

(4) *Mailings between licensed manufacturers and dealers.* Hand guns may also be conveyed in the mails between licensed manufacturers of firearms and licensed dealers therein in customary trade shipments or for repairs or replacement of parts.

(5) *Certificate of manufacturers and dealers.* A licensed manufacturer or dealer need not file the affidavit required under paragraph (a)(3) of this section but must file with the postmaster a statement (Form 1508, "Statement by Shipper of Firearms") signed by the mailer that he is a licensed manufacturer of firearms or dealer therein, that the parcels containing handguns (or major component parts thereof) are customary trade shipments or contain such articles for repair or replacement of parts, and that to the best of his knowledge or belief the addressees are licensed manufacturers of firearms or dealers therein. If satisfied with the mailer's statement, the postmaster will accept the parcels for mailing. If the postmaster is not satisfied with the mailer's statement, he will forward it to the Mail Classification Division, Finance Department, for a ruling.

(6) *Federal Bureau of Investigation; crime detection bureaus.* Hand guns addressed to the Federal Bureau of Investigation, or its Director, or to the scientific laboratory or crime detection bureau of any agency whose members are federal law-enforcement officers or officers of a State, Territory or District authorized to serve warrants of arrest or commitment, may be accepted for mailing without regard to the provisions of paragraph (a) (2) through (5) of this section.

(7) *Official shipments.* Hand guns may be accepted for mailing without regard to the provisions of paragraph (a) (2) (5) of this section when offered by an authorized agent of the federal government as an official shipment to any qualified addressee in paragraph (a)(2) (i) through (vii) of this section or to a licensed manufacturer of firearms or dealer therein or to a federal agency.

(b) *Antique firearms.* Antique firearms sent as curios or museum pieces may be accepted for mailing without regard to the provisions of paragraph (a) (2) through (5) of this section.

(c) *Rifles and shotguns.* While unloaded rifles and shotguns not precluded by paragraphs (a), (a)(1) of this section are mailable, mailers are responsible for compliance with the Gun Control Act of 1968, Pub. L. 90–618, 26 U.S.C. 921, et seq., and the rules and regulations promulgated thereunder, 26 CFR 178, as well as state and local laws. The mailer may be required by the Postal Service to establish, by opening of the parcel or by written certification, that the gun is unloaded and not precluded by paragraph (a)(1)(v) of this section. It is recommended that all such mailings be sent by registered mail.

(d) *Legal opinions about mailing firearms.* Postmasters are not authorized to give opinions concerning the legality of any shipment of rifles or shotguns. (See § 124.3(d).)

(e) *Switchblade knives*—(1) *When mailable.* Knives having a blade which opens automatically by hand pressure applied to a button or other device in the handle, or by operation of inertia, gravity, or both, are mailable only when sent to:

(i) The following designated supply or procurement officers and employees ordering, procuring, or purchasing such knives for use in connection with the activities of their respective governments or organizations:

(A) Civilian or Armed Forces supply or procurement officers and employees of the federal government;

V 39 — 109 JUN 5 74 XUM

(B) Supply or procurement officers of the National Guard, the Air National Guard, or the Militia of a State, Territory, or the District of Columbia;

(C) Supply or procurement officers or employees of the municipal government of the District of Columbia or of the government of any State or Territory, or of any county, city or other political subdivision of a State or Territory;

(ii) Manufacturers of such knives, or bonafide dealers therein, in connection with a shipment made pursuant to an order from any person designated in paragraph (e)(1)(i) of this section. (For advertisements for the mailing of switchblade knives, see paragraph (c)(1) of this section.)

(2) *Identification of addressee.* Before making delivery, the postmaster will satisfy himself that the addressee is in one of the categories of 124.4 1a.

(3) *Explanation of mailing.* When the postmaster is in doubt as to the mailability of a proposed shipment of switchblade knives, he shall require the mailer to furnish a written statement explaining how the mailing complies with this section. If the explanation is not satisfactory to the postmaster, he will forward it to the Mail Classification Division, Finance Department, for a ruling.

(f) *Marking of parcels of firearms and switchblade knives.* No markings of any kind which would indicate the nature of the contents shall be placed on the outside wrapper or container of any parcel containing firearms or switchblade knives.

(g) *Sharp objects and knives.* Sharp-pointed or sharp-edged instruments such as knives, tools, ice picks, razor blades, etc., must be wrapped to protect their points and edges from cutting through the outer carton in which they are shipped.

§ 124.5 Controlled substances, narcotics (18 U.S.C. 1716).

(a) *Definitions*—(1) *Controlled substances.* A "controlled substance" is any narcotic, hallucinogenic, stimulant or depressant drug included in Schedules I through V of the "Controlled Substances Act" (Public Law 91–513), 21 U.S.C. 801 et seq., and the regulations thereunder, 21 CFR 1300 et seq.

(2) *Narcotic drugs.* Narcotic drugs as defined in the Controlled Substances Act include opium, cocaine and opiates (synthetic narcotics) and the derivatives thereof.

(b) *Declaration as to injurious nature.* Controlled substances are, by reason of their addictive nature or capacity for abuse, hereby declared to be "Articles, compositions, or materials which may kill or injure another" within the intent and meaning of 18 U.S.C. 1716.

(c) *Nonmailable generally.* Except under the conditions specified in § 124.5, controlled substances are nonmailable matter and shall not be conveyed in the mails or delivered from any post office or station thereof nor by any letter carrier.

(d) *Mailing requirements*—(1) *Authorized mailings.* Controlled substances may be transmitted in the mails between persons registered with the Drug Enforcement Administration or between persons who are exempted from registration such as military, law enforcement and civil defense personnel in the performance of their official duties. Prescription medicines containing nonnarcotic controlled substances may be mailed from a registered practitioner or dispenser to an ultimate user. Prescription medicines containing narcotic drugs may be mailed only by Veterans Administration medical facilities to certain veterans. Parcels containing controlled substances must be prepared and packed for mailing in accordance with the requirements of paragraph (d)(2) of this section.

(2) *Preparation and packing.* (i) The inner container or any parcel containing controlled substances must be marked and sealed in accordance with the applicable provisions of the Controlled Substances Act, 21 U.S.C. 801, and the regulations promulgated thereunder, 21 CFR 1300 et seq.

(ii) The inner container of prescription medicines containing controlled substances must, in addition to the marking and sealing requirements set forth above, be labeled to show the name and address set forth above, be labeled to show the name and address of the practitioner or the name and address of the pharmacy or other person dispensing the prescription (if other than the practitioner) and the prescription number.

(iii) Every parcel containing controlled substances shall be placed in a plain outer container or securely overwrapped in plain paper.

(iv) No markings of any kind which would indicate the nature of the contents shall be placed on the outside wrapper or container of any parcel containing controlled substances.

(3) *Use of registered mail required.* Parcels containing controlled substances, including those sent to D.E.A. Regional Offices for disposal (see 21 CFR 1307.21), generally must be sent by registered mail, return receipt requested. The Drug Enforcement Administration number or exemption status of the sender shall be set forth in the senders' address section of PS 3806 or PS 3877, as applicable. This information shall appear in the following format:

DEA Registration No. 654321

or

DEA Exempt—Police.

(4) *Regular mail permitted.* The following may be sent by regular mail without regard to the provisions of paragraph (d)(3) of this section.

(i) Prescription medicines containing non-narcotic controlled substances listed in Schedule II in amounts not exceeding a 34-day supply or 100 dosage units, whichever is less; and

(ii) Prescription medicines containing controlled substances listed in Schedules III, IV and V in amounts not exceeding a 100-day supply or 200 dosage units, whichever is less.

(iii) Physician's samples of medicines containing nonnarcotic controlled substances in amounts not exceeding the limitations set forth in paragraph (d)(4)(i) or (ii) of this section.

(e) *Exempt shipments.* Small quantities of unknown matter suspected of containing controlled substances may be sent by regular mail without regard to the other provisions of § 124.5 only when addressed to a federal, state or local law enforcement agency for law enforcement purposes. Such mailings must comply with paragraph (d)(2)(iii) and (iv) of this section.

(f) *Violations.* Violations of this section shall be referred to the Inspection Service.

§ 124.6 Motor vehicle master keys (18 U.S.C. 1716A, 39 U.S.C. 3002).

(a) *Definition.* Motor vehicle master key means any key (other than the key furnished by the manufacturer with the motor vehicle, or the key furnished with a replacement lock, or an exact duplicate of such keys) or manipulation type device designed to operate two or more motor vehicle ignition, door, or trunk locks of different combinations, including any pattern, impression, or mold from which a master key or manipulation device can be made.

(b) *Mailability.* The items defined in § 124.6(a) and any advertising (§ 124.4(c)(2)) for the sale of any of these items, are nonmailable except when sent to:

(1) Lock manufacturers
(2) Professional locksmiths
(3) Motor vehicle manufacturers or
(3) Motor vehicle manufacturers or
(4) Federal, State or local government agencies.

(c) *Marking.* No markings of any kind which would indicate the nature of the contents shall be placed on the outside wrapper or container of any parcel containing motor vehicle master keys.

(d) *Questioned mailings.* When the postmaster at either the office of mailing or the office of address has reason to question whether the addressee qualifies under paragraph (b) of this section to receive a mailing, or whether an item is nonmailable for any other reason, he shall require the mailer or addressee to furnish a written explanation of the addressee's eligibility, or of the item's mailability. If the explanation is not satisfactory to the postmaster, he shall forward it with his statement of the pertinent facts to the Mail Classificaiton Division, Finance Department, for a ruling.

§ 124.7 Abortive and contraceptive devices or materials.

(a) *Abortive devices and materials (18 U.S.C. 1461).* Any article or thing designed, adapted or intended for producing abortion is nonmailable. (For advertisements of abortive devices and materials see § 123.433 of this chapter.)

(b) *Unsolicited samples of contraceptive materials (39 U.S.C. 3001, 18 U.S.C. 1461).* Unsolicited samples of articles or things which are designed, adapted or intended for preventing conception are mailable only when sent through the mails to a manufacturer of such articles or things, a dealer therein, a licensed physician or surgeon, or a nurse, pharmacist, druggist, hospital or clinic. (For advertisement of contraceptive materials, see § 123.4(c)(4) of this chapter.)

§ 124.8. Nonmailable articles (18 U.S.C. 1716).

(a) *Intoxicating liquors.* Potable beverages of ½ percent or more alcoholic content by weight, which are taxable under Chapter 51 of the Internal Revenue Service Code, are nonmailable. If the product conforms to applicable requirements of the Internal Revenue Service and Food and Drug Administration and is neither an alcoholic beverage, poisonous nor flammable (See § 124.2(d)), it may be mailed. (For advertisements for the mailing of intoxicating liquor, see § 123.4(c)(1)) of this chapter.

(b) *Matter emitting obnoxious odors.* Any matter which is a source of an obnoxious odor is nonmailable.

(c) *Liquids.* Liquids and semi-solids which may liquify under normal conditions and are otherwise mailable, must be adequately prepared for mailing in accordance with § 121.5(b) of this chapter.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 230]

[Release No. 33–5497]

EXEMPTION OF CERTAIN PROMISSORY NOTES

Withdrawal of Proposed Rule

The Securities and Exchange Commission announced today that it was withdrawing proposed Rule 239 (17 CFR 230.239) under the Securities Act of 1933 ("Act") from further consideration. The proposed rule, if adopted, would have provided a limited exemption from the registration provisions of the Act for certain first lien mortgages on real property. See in this regard, Securities Act Release No. 5419 (September 6, 1973, 38 FR 24668) which originally announced the proposed rule.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

MAY 23, 1974.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Monetary Offices

REPORTING OF LARGE DOMESTIC CURRENCY TRANSACTIONS

Notice of Intent To Enforce Regulations

The Treasury Department announced today that beginning June 15, 1974, the regulations requiring banks and certain other financial institutions to report unusual transactions involving more than $10,000 in currency will be enforced. The regulations are among those which implement Titles I and II of Pub. L. 91–508, which was upheld by the Supreme Court on April 1, 1974. Until the Court's decision, enforcement of the provisions requiring the reporting of large domestic currency transactions had been enjoined by a Federal district court. Such transactions should be reported on IRS Form 4789, which may be obtained from any Internal Revenue Service district office.

Dated: May 31, 1974.

[SEAL] EDWARD C. SCHMULTS,
General Counsel.

DAVID R. MACDONALD,
Assistant Secretary.

Office of the Secretary

LOAN TO GOVERNMENT OF MALAYSIA

Public Notice of Invitation To Bid

I. *Invitation to bid—classes of bidders.* The Department of the Treasury, acting for the Department of Defense, by this notice and under the terms and conditions hereof invites bids on the interest rate on a $9,375,000 loan to the Government of Malaysia, hereinafter referred to as the borrower. The loan is described in Section V hereof. Bidding hereunder shall be subject to the "Regulations Governing the Sales of Treasury Bonds Through Competitive Bidding" (31 CFR 340) insofar as applicable.

The purpose of the loan is to provide private financing for the purchase by the borrower of defense articles and services from United States sources in furtherance of the Foreign Military Sales Act, as amended, P.L. 90–626, October 22, 1968, 82 Stat. 1326; 22 U.S.C. 2571–2793 and Executive Order 11501, December 22, 1969, 34 FR 20169.

Bids will be received only from incorporated banks, trust companies, recognized dealers in investment securities, and other financial institutions doing business in the United States. Bids must be submitted to the Federal Reserve Bank of New York in accordance with the provisions of the last section hereof.

II. *United States Government Guaranty of Loan.* The loan agreement provides that the obligation of the lender is to be conditioned upon the issuance by the United States of a guaranty of timely payment of 100 percent of the principal and 100 percent of the interest thereon by the borrower. The guaranty will further provide that the United States agrees that any claim which it may now or hereafter have against any beneficiary for any reason whatsoever shall not affect in any way the right of any other beneficiary to receive full and prompt payment of any amount otherwise due under this guaranty.

In addition, the borrower covenants at section 5(b) of the loan agreement that:

> Any claim which it may now or hereafter have against any person, corporation, firm or association or other entity (including without limitation, the United States, DOD, any Bank, any assignee of any Bank, and any supplier of the Defense items) in connection with any transaction, for any reason whatsoever, shall not affect the obligation of the Borrower to make the payments required to be made to the Undersigned under this Loan Agreement, or under the Notes, and shall not be used or asserted as a defense to the payment of such obligation or as a setoff, counterclaim, or deduction against such payments.

The guaranty, which is authorized by the Foreign Military Sales Act, will be made by the Government of the United States acting through the Department of Defense. The Act provides that "any guaranties issued hereunder shall be backed by the full faith and credit of the United States."

III. *Tax exemptions.* There will be *no:*

(a) Federal income tax resulting from section 7.1 of the loan agreement which will provide that the borrower shall pay to the lender the guaranty fee charged to the latter by the Department of Defense. (The lender will be acting merely as a conduit.)

(b) Federal stamp tax; or

(c) Tax imposed by the borrower.

IV. *The loan, promissory notes, participations—eligibility for purchase by national banks as collateral for treasury tax and loan accounts, etc.* (a) Because of the guaranty, the loan, the promissory notes and the participations are deemed to be fully and unconditionally guaranteed obligations of the United States backed by its full faith and credit. Accordingly, they will not be subject to the lending limits of national banks or to the limitations and restrictions concerning dealing in, underwriting and purchase of investment securities.

(b) Section 1.4 of the loan agreement authorizes the sale of participations to legal entities doing business in the United States. Such participation will be acceptable from special depositaries of public money at their face amount to secure deposits under Department of the Treasury Circular No. 92, current revision (31 CFR 203), provided that they adequately identify the loan and meet the following conditions:

(1) The participation certificate contains the following provision: "Participant may assign or endorse over this participation certificate to the (*Name of the Federal Reserve Bank or Branch of the territory in which the participant is located*) in connection with a pledge of collateral security to protect a Treasury tax and loan account under Treasury regulations published at Title 31, Code of Federal Regulations, Part 203. In the event that this participation certificate is assigned to (*Same bank or branch as above*), it shall not be further assigned or sub-divided without prior written notice to that bank and the prior written consent of this bank."

(2) The participation certificate is supported by the original or certified copies of the guaranty agreement relating to the basic loan and the necessary power of attorney and resolution in favor of the Reserve Bank as prescribed in 31 CFR 203.8(d).

(3) The guaranty agreement provides that the guaranty referred to therein is transferable to any participant or beneficiary.

V. *Description of loan agreement.* The principal features of the loan are as follows:

(a) There will be a commitment fee payable semiannually of one-quarter of one percent (¼ of 1 percent) per annum on the daily average unused amount of the commitment. The commitment fee will be calculated on a 365-day basis and actual days elapsed.

(b) There will be a commitment period from the "date of execution" of the loan agreement to and including December 31, 1974 or such earlier date as the entire commitment of the lender shall have been utilized. For this purpose, the "date of execution" will be the date on which the loan agreement is signed on behalf of the borrower or the date on which the Department of Defense executes the guaranty agreement, whichever is later.

(c) The minimum drawdown under the loan agreement will be $500,000.

(d) The principal is to be repayable in eight consecutive semiannual installments of $1,171,875, specifically each December 31 and June 30, beginning December 31, 1974 and ending on June 30, 1978.

(e) Interest is payable on a fixed semiannual basis beginning December 31, 1974 and thereafter on June 30 and December 31 of each year until the entire principal has been repaid.

VI. *Submission of bids—acceptance and opening of bids.* Each bid shall be submitted in triplicate on the letterhead of the bidder and shall specify a single annual rate of interest which shall apply on a 365-day basis only to the portion of the loan in use. The rate shall be expressed as a percent per annum not to exceed three decimals, for example, 5.125 percent. Each bidder may submit a bid for the entire amount of the loan or portions thereof in multiples of $3,125,000.

Bidders should fill in the blanks in the loan agreement (except for the date of the loan agreement itself) and should furnish three signed copies when submitting the bids. Most of the blanks are self-explanatory. At section 7.1., the guaranty fee will be 1/400th of the amount of the principal liability under the guaranty.

The bids should be enclosed in sealed envelopes and must be received in the Securities Department of the Federal Reserve Bank of New York, 33 Liberty Street, New York, New York 10045, not later than 11:00 a.m., Eastern Daylight Time, on June 14, 1974.

Bids will be opened at the Federal Reserve Bank at 11:00 a.m., Eastern Daylight Time, on June 14, 1974. In determining the successful bids, those specifying the lowest rate of interest will be accepted. Upon award of the bids, the Government of the United States will promptly secure the signature of the borrower to the loan agreement, as well as necessary copies thereof, and will return one copy.

Copies of the loan agreement, of the exhibits and of the guaranty agreement may be obtained upon request from the Department of the Treasury, Bureau of the Public Debt, Room 200, Washington Building, Washington, D.C. 20226, or by telephoning (202) 964–2992 or (202) 964–8241.

Dated: May 30, 1974.

[SEAL] PAUL A. VOLCKER,
Under Secretary of the Treasury for Monetary Affairs.

TAPERED ROLLER BEARINGS FROM JAPAN

Antidumping; Withholding of Appraisement Notice

JUNE 3, 1974.

Information was received on October 31, 1973, that tapered roller bearings from Japan were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER on December 4, 1973, on page 33408. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the exporter's sales price (section 204 of the Act; 19 U.S.C. 163) of tapered roller bearings from Japan is less, or is likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Statement of reasons. The information currently before the U.S. Customs Service tends to indicate that there are sufficient sales in the home market to provide an adequate basis of comparison for fair value purposes. Sales by the manufacturers are to related parties in the United States. Accordingly, the probable basis of comparison will be between exporter's sales price and the adjusted home market price of such or similar merchandise sold in Japan.

Exporter's sales price will probably be calculated by deducting from the resale price to unrelated purchasers in the United States, U.S. duties, Customs brokerage fees, freight and insurance charges, commissions, inspection fees and selling expenses, as appropriate.

Home market price will probably be calculated on the basis of a preponderant delivered price, with a deduction for inland freight. Adjustments will probably be made for differences in warranty costs, credit costs, selling expenses and packing costs.

Using the above criteria, there are reasonable grounds to believe or suspect that exporter's sales price will be lower than the adjusted home market price.

Customs officers are being directed to withhold appraisement of tapered roller bearings from Japan in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street, N.W., Washington, D.C. 20229, in time to be received by his office on or before June 17, 1974. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before July 5, 1974.

This notice, which is published pursuant to § 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective on June 5, 1974. It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[New Mexico 20101]

NEW MEXICO

Notice of Application

MAY 29, 1974.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185) as amended by the Act of November 16, 1973 (87 Stat. 576), Llano, Inc. has applied for a 4-inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 21 S., R. 27 E.,
  Sec. 8, NW¼NE¼, S½NE¼ and E½SE¼;
  Sec. 9, SW¼SW¼;
  Sec. 16, N½NW¼ and SE¼NW¼.

This pipeline will convey natural gas across 1.47 miles of national resource land in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Managment, P.O. Box 1397, Roswell, New Mexico 88201.

MARIE D. LARRAGOITE,
Acting Chief, Branch of Lands and Minerals Operations.

PROPOSED IMPORTATION REGULATIONS ON INJURIOUS WILDLIFE

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, Public Law 91–190, the Department of the Interior has prepared a draft environmental statement for the Proposed Importation Regulations on Injurious Wildlife, and invites written comments on or before July 29, 1974.

Importation Regulations on Injurious Wildlife. The proposal recommends restrictions on the importation of all wildlife, except that which is found to create a low risk of injury to human beings, the interests of agriculture, horticulture, forestry, or to wildlife or the wildlife resources of the United States. A list of

V 39 109 JUN 5 74 XUM

such "low risk" wildlife is included with the proposal.

Copies of the draft statement are available for inspection at the following locations:

GENERAL CONFERENCE COMMITTEE OF THE NATIONAL POULTRY IMPROVEMENT PLAN

Notice of Meeting

Notice is hereby given that the General Conference Committee of the National Poultry Improvement Plan will meet at 8 a.m., June 17, 1974 at the Hotel Utah, Salt Lake City, Utah. This Committee represents cooperating State Agencies and participating industry members in advising the Department of Agriculture with respect to the interpretation of and changes in the provisions of the National Poultry Improvement Plan.

The purpose of the meeting will be to review the proposed changes to the National Poultry Improvement Plan. These proposed changes will subsequently be discussed and voted on by official delegates from the 47 cooperating States, during the biennial National Plan Conference, Hotel Utah, Salt Lake City, Utah, June 17-19, 1974.

The meeting of the General Conference Committee is open to the public. Written statements may be filed with the Committee before or after the meeting. Public attendance, depending on available space, may be limited to those persons who have notified the Chairman in writing, at least 5 days prior to the meeting, of their intention to attend the June 17 meeting.

All communications regarding this meeting should be addressed to Raymond D. Schar, Chairman, General Conference Committee, Building 265, BARC-East, Beltsville, Maryland 20705.

Done at Washington D.C., this 31st day of May 1974.

RALPH J. MCCRACKEN,
Acting Administrator,
Agricultural Research Service.

Farmers Home Administration

[Notice of Designation Number A050]

PUERTO RICO

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following municipalities in Puerto Rico:

Aguada
Aguadilla
Aibonito
arroyo
Barceloneta
Barranquitas
Cabo Rojo
Cayey
Cidra
Coamo
Comerio
Corozal
Culebra
Dorado
Florida
Guanica
Guayama
Guayanilla
Jayuya
Juan Diaz
Lajas
Lares
Las Marias
Manati
Maricao
Maunabo
Moca
Morovis
Naranjito
Orocovis
Patillas
Penuelas
Ponce
Rincon
Sabana Grande
Salinas
San German
San Sebastian
Santa Isabel
Tos Alta
Tos Baja
Vega Alta
Vega Baja
Vieques
Villalba
Yauca

The Secretary has found that this need exists as a result of a natural disaster consisting of drought occurring from October 1, 1972, through July 1, 1973, in all 46 municipalities. The municipalities of Morovis and Vega Baja also suffered adversely because of a hailstorm and tornado on May 1, 1973, in addition to the drought.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Rafael Hernandez-Colon that such designation be made.

Applications for Emergency loans must be received by this Department no later than June 30, 1974, for physical losses and production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 30th day of May 1974.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

Forest Service

COOPERATIVE SPRUCE BUDWORM SUPPRESSION 1974 PROJECT

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for suppression of the spruce budworm in Minnesota in 1974. Forest Service Report Number USDA-FS-NA-FES (Adm.) 74-02.

The environmental statement concerns a proposed cooperative aerial spray project on approximately 3,500 acres of forest lands within Finland State Forest, in Lake County, Minnesota to prevent or minimize tree mortality and reduce high spruce budworm populations until the mature timber can be harvested. To accomplish these objectives, the insecticide mexacarbate (Zectran®) will be applied by aircraft. The impacts, both beneficial and adverse, available alternative actions, and the purposes and objectives of the cooperative spruce budworm suppression program are discussed in detail.

This final environmental statement was filed with CEQ on May 22, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. and Independence Ave. SW.
Washington, D.C. 20250

USDA, Forest Service
Northeastern Area
State and Private Forestry
6816 Market Street, Room 207
Upper Darby, Pennsylvania 19082

A limited number of single copies are available upon request to:

Robert D. Raisch, Area Director
Northeastern Area
State and Private Forestry
6816 Market Street
Upper Darby, Pennsylvania 19082

Copies of the environmental statement have been sent to various Federal, state and local agencies as outlined in the CEQ guidelines.

Dated: May 22, 1974.

H. W. BURNETT,
Acting Director, Northeastern Area, State and Private Forestry.

MULTIPLE-USE PLAN—HOLLAND LAKE PLANNING UNIT

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the proposed Multiple-Use Plan—Holland Lake Planning Unit, Report Number USDA-FS-FES (Adm). 74-62.

The environmental statement concerns a proposed management plan for about 70,750 acres of National Forest land on the Swan Lake Ranger District of the Flathead National Forest, Missoula County, Montana. The proposed plan provides the District Ranger with management direction and guidance for each of the eleven management units within the total planning area.

This final environmental statement was filed with CEQ on May 29, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. and Independence Ave., SW
Washington, DC 20250

USDA, Forest Service
Region 1—Northern Region
200 East Broadway
Missoula, Montana 59801

USDA, Forest Service
Flathead National Forest
290 North Main
Kalispell, Montana 59901

USDA, Forest Service
Swan Lake Ranger Station
Bigfork, Montana 59911

A limited number of single copies are available upon request to Edsel L. Corpe, Forest Supervisor, Flathead National Forest, 290 North Main, Kalispell, Montana 59901.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

KEITH M. THOMPSON,
Acting Regional Forester,
Northern Region, Forest Service.

MAY 29, 1974.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-418]

DELTA STEAMSHIP LINES, INC.

Notice of Application

Notice is hereby given that Delta Steamship Lines, Inc. has applied for an increase in its aggregate number of sailings for all its subsidized services from 79 to 91 sailings per annum. Delta provides service between U.S. Gulf ports and ports on the East Coast of South America and between U.S. Gulf ports and ports in West Africa. Concurrently, Delta is also applying for authorization to operate up to two additional C-4 type cargo vessels on its Trade Route No. 14 Service 2 from U.S. Gulf ports to West Africa.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 605(c) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1175), should by the close of business on June 19, 1974, notify the Secretary, Maritime Subsidy Board in writing, in triplicate, and file petition for leave to intervene in accordance with the Rules of Practice and Procedure of the Maritime Subsidy Board.

In the event a section 605(c) hearing is ordered to be held, the purpose thereof will be to receive evidence relevant to (1) whether the application is one with respect to a vessel to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of United States registry in such essential service is inadequate, and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated therein.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.504, Operating-Differential Subsidies (ODS))

By Order of the Maritime Subsidy Board/Maritime Administration.

Dated: June 3, 1974.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.74-13017 Filed 6-4-74;8:45 am]

National Bureau of Standards

VOLUNTARY STANDARDS

Action on Proposed Withdrawal

In acordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the withdrawal of the following Commercial Standards:

CS 120–58, "Ponderosa Pine Doors.
CS 163–64, "Ponderosa Pine Windows, Sash and Screens (Using Single Glass and Insulating Glass)"
CS 171–58, "Hardwood Veneered Doors (Solid-Core, Hollow-Core and Panel and Sash)"
CS 190–64, "Wood Double-Hung Window Units"
CS 204–64, "Wood Awning Window Units"
CS 205–64, "Wood Casement Window Units"
CS 208–57, "Standard Stock Exterior Wood Window and Door Frames"
CS 262–63, "Water-Repellent Preservative Non-Pressure Treatment for Millwork"
CS 264–64, "Wood Horizontal-Sliding Window Units (All Sash Operating)"
CS 265–64, "Wood Horizontal-Sliding Window Units (One or More Non-Operating Sash)"
CS 266–64, "Wood Single-Hung Window Units"

It has been determined that each of these standards has become technically inadequate, and in view of the existence of up-to-date National Woodwork Manufacturers Association standards for the products covered, revision of the Commercial Standards would serve no useful purpose.

This action is taken in furtherance of the Department's announced intentions as set forth in the public notice appearing in the FEDERAL REGISTER of March 27, 1974 (39 FR 11319), to withdraw these standards.

The effective date for the withdrawal of these standards will be 60 days after the publication of this notice. This withdrawal action terminates the authority to refer to these standards as voluntary standards developed under the Department of Commerce procedures.

Dated: May 30, 1974.

RICHARD W. ROBERTS,
Director.

MULTI-ESTABLISHMENT COMPANIES

Notice of Consideration for Surveys

Notice is hereby given that the Bureau of the Census is considering a proposal under the provisions of title 13, United States Code, sections 181, 224, and 225, to conduct a 1974 Company Organization Survey. It is designed to collect information on the number of employees, payrolls, geographic location, current status and kind of business for the establishment of multi-establishment companies. The information will provide a base for the general purpose Standard Statistical Establishment List. The data will have significant application to the needs of the public and to governmental agencies, and are not publicly available from nongovernmental or governmental sources.

The survey, if conducted, shall begin not earlier than November 1, 1974.

Copies of the proposed forms are available on request to the Director, Bureau of the Census, Washington, D.C. 20233.

Any suggestions or recommendations concerning the subject matter of the proposed survey submitted to the Director in writing on or before July 5, 1974, will receive consideration.

EDWARD D. FAILOR,
Administrator, Social and Economic Statistics Administration.

EXPORTERS' TEXTILE ADVISORY COMMITTEE

Notice of Public Meeting

The Exporters' Textile Advisory Committee will meet at 10:00 a.m. on June 18, 1974, in Room 3817, Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

The Committee, which is comprised of 26 members representing exporting firms and three trade associations, advises Department officials concerning ways of increasing U.S. exports of textile and apparel products.

The agenda for the meeting is as follows:

1. Review of Export Trends.
2. Report on Conditions in the Export Markets.
3. Non-Tariff Barriers Affecting U.S. Trade.
4. Export Documentation.
5. Other Business.

A limited number of seats will be available to the public. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available at the end of the meeting, the presentation of oral statements will be allowed.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Notice of Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92–463, 86 Stat. 770–776; 5 U.S.C. App.), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Dentifrices and Dental Care Agents.	June 19 and 20, 9 a.m., Conference Room L, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open June 19, 9 a.m. to 10 a.m., closed June 19 after 10 a.m., closed June 20. Michael D. Kennedy, Room 10B–05, 5600 Fishers Lane, Rockville, Md. 20852, 301–443–4960.

Purpose. Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing dentifrices and dental care agents.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Skin Test Antigens.	June 25, 9:30 a.m., Room 121, Bldg. 29, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md.	Open 9 a.m. to 12 noon, closed after 12 noon. Clay Sisk, Room 220, Bldg. 29, 9000 Rockville Pike, Bethesda, Md. 20014, 301–496–2883.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and adequacy of labeling of currently marketed biological products which are used in diagnostic substances for dermal tests.

Agenda. Open session: Panel orientation; introductory session; and panel organizational matters. Closed session: General review of data submitted and assignments to panel members.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of discussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice of the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views crally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meetings is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552 (b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: May 30, 1974.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.74–12795 Filed 6–4–74;8:45 am]

[DESI 9296]

CERTAIN ANTIHYPERTENSIVE COMBINATION DRUGS

Drugs for Human Use; Drug Efficacy Study Implementation

In the FEDERAL REGISTER of February 6, 1973 (38 FR 3418), the Commissioner of Food and Drugs published conclusions concerning the effectiveness of certain antihypertensive combination drugs. That announcement is amended to include the following reformulated antihypertensive combination drug:

NDA 12–708; Diutensen-R Tablets containing methyclothiazide and reserpine; Mallinckrodt Chemical Works, Pharmaceutical Products Division, Post Office Box 5439, St. Louis, MO 63160.

This drug is concluded to be effective for treatment of hypertension, and the FEDERAL REGISTER of February 6, 1973 states the conditions of approval and marketing of such combination drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: May 30, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc. 74–12793 Filed 6–4–74;8:45 am]

[DESI 1002; Docket No. FDC–D–0211; NDA 10–740]

MERRELL-NATIONAL LABORATORIES, PIPRADROL HYDROCHLORIDE

Order Refusing Approval of Supplemental New Drug Application

In the FEDERAL REGISTER of September 12, 1969 (34 FR 14339) the Food and Drug Administration published its conclusions, pursuant to the Drug Efficacy Study, concerning Alertonic Elixir (pipradrol hydrochloride, choline, inositol, vitamins and minerals) marketed by Merrell-National Laboratories, Division of Richardson-Merrell, Inc., 110 Amity Road, Cincinnati, OH 45215 (NDA 10–740). The notice stated that there was a lack of substantial evidence that the product is effective for its claimed uses. Subsequently, a notice of opportunity for hearing (35 FR 16421; October 21, 1970) and a final order withdrawing approval (39 FR 8179; March 4, 1974) were published.

Merrell-National elected to reformulate Alertonic and submitted a supplement to NDA 10–740 to provide for a liquid dosage form containing pipradrol hydrochloride as the only active ingredient. Having reviewed available data pertaining to pipradrol hydrochloride in liquid or solid dosage form, the Food and Drug Administration concluded that the reformulated Alertonic was less-than-effective (possibly effective) for fatigue, apathy, or lack of energy and activity accompanying mild depression or occurring by themselves without sufficient physical cause. That conclusion was published in the FEDERAL REGISTER of December 12, 1972 (37 FR 26455). Data submitted did not provide substantial evidence of effectiveness and, in a letter of February 28, 1974, Merrell-National was informed that the supplemental application was not approvable and that the Director of the Bureau of Drugs intended to recommend that a notice of opportunity for hearing issue on the proposal to refuse to approve the supplement. Merrell-National responded March 21, 1974, stating that the product had been deleted, and waived opportunity for a hearing on the issue of refusal to approve the supplement.

The Director of the Bureau of Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and under authority delegated to him

V 39 109 JUN 5 74 XUM

(21 CFR 2.121), finds that on the basis of information submitted to him as part of the supplemental application, there is a lack of substantial evidence that the drug product will have the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

Therefore, pursuant to the foregoing finding, approval of the supplement to NDA 10–740 providing for reformulated Alertonic, filed on July 13, 1972, is refused.

Dated: May 30, 1974.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc.74–12796 Filed 6–4–74;8:45 am]

[DESI 9366; Docket No. FDC–D–556; NDA 11–932]

PFIZER LABORATORIES, DIVISION OF PFIZER, INC.

Nialamide, Withdrawal of Approval of New Drug Application

On January 4, 1974, there was published in the FEDERAL REGISTER (39 FR 1084) a notice of opportunity for hearing (DESI 9366) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of NDA 11–932 for Nimid Tablets containing 25 milligrams or 100 milligrams nialamide per tablet; Pfizer Laboratories, Division or Pfizer, Inc., 235 East 42nd Street, New York, New York 10017.

The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

Neither the holder of the application nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of an opportunity for hearing.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (HFD–300), 5600 Fishers Lane, Rockville, Maryland 20852.

The Director of the Bureau of Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and under authority delegated to him (21 CFR 2.121), finds that on the basis of new information before him with respect to the drug product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug product will have the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 11–932 and all amendments and supplements applying thereto is withdrawn effective on June 17, 1974.

Shipment in interstate commerce of the above-listed product or of any identical, related or similar product, not the subject of an approved new drug application, will then be unlawful.

Dated: May 30, 1974.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc.74–12797 Filed 6–4–74;8:45 am]

[DESI 8904; Docket No. FDC–D–674; NDA 8–904]

WILLIAM H. RORER, INC., PROCAINE ISOBUTYRATE

Notice of Withdrawal of Approval of New Drug Application

On December 5, 1973, there was published in the FEDERAL REGISTER (38 FR 33512) a notice of opportunity for hearing (DESI 8904) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of NDA 8–904 for Probutylin Capsules and Elixir, containing procaine isobutyrate; William H. Rorer, Inc., 500 Virginia Drive, Port Washington, PA 19034.

The basis of the proposed action was the lack of substantial evidence that the drug product is effective for its labeled indications.

Neither the holder of the application nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing. Rorer has informed the Administration that the products have been discontinued.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (HFD–300), 5600 Fishers Lane, Rockville, MD 20852.

The Director of the Bureau of Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and under authority delegated to him (21 CFR 2.121), finds that on the basis of new information before him with respect to the drug products, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

Therefore, pursuant to the foregoing finding, approval of new drug application NDA 8–904 and all amendments and supplements applying thereto is withdrawn effective on June 17, 1974.

Shipment in interstate commerce of the above-listed products or any identical, related, or similar product, not the subject of an approved new drug application, will then be unlawful.

Dated: May 30, 1974.

J. RICHARD CROUT,
Director, Bureau of Drugs.

National Highway Traffic Safety Administration

CHEVROLET AND BUICK CARBURETORS

Public Proceeding Regarding Defect Investigation

Pursuant to section 113 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq., 1402), the Associate Administrator, Motor Vehicle Programs, has made an initial determination that a defect relating to motor vehicle safety exists with respect to failures of the fuel inlet plug on Rochester "Quadrajet" carburetors in 1965 and 1966 Chevrolets and 1966 Buicks manufactured by General Motors, in that such failures result in engine compartment fires which could cause loss of vehicle control and personal injury.

A public proceeding will be held at 10 a.m., on July 9, 1974, in Room 5332, Department of Transportation Headquarters, 400 Seventh Street, SW., Washington, D.C. 20590, at which General Motors will be afforded an opportunity to present its views and evidence to establish that the alleged defect does not exist or does not affect motor vehicle safety. Interested persons are invited to participate through written or oral presentations. A transcript will be kept and exhibits may be accepted. There will be no cross examination of witnesses.

The agency's investigative file in this matter is available for public inspection during regular working hours (7:45 a.m. to 4:15 p.m.) in the Technical Reference Division, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590.

(Sec. 113, Pub. L. 89–563, 80 Stat. 718 (25 U.S.C. 1402); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on May 30, 1974.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50–269, 50–270]

DUKE POWER CO.

Notice of Issuance of Facility Licenses Amendments

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 1 to Facility Operating License Nos. DPR–38 and DPR–47 (respectively) issued to the Duke Power Company which revised Technical Specifications for operation of the Oconee Nuclear Station, Units 1, and 2, located in Oconee County, South Carolina. The amendments are effective one day from date of issuance.

The amendments permit changes in control rod group and power distribution limits and require tighter control over reactor power quadrant tilt.

The application for the amendments complies with the standards and requirements of the Act and the Commission's rules and regulations and the Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the license amendments.

For further details with respect to these actions, see (1) the application for amendments dated March 8, 1974, (2) Amendment Nos. 1 to License No. DPR–38 and License No. DPR–47, with any attachments, and (3) the Commission's related Safety Evaluation dated April 19, 1974. All of these are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Oconee County Library, 201 S. Spring Street, Walhalla, South Carolina 29691.

A copy of items (2) and (3) may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 29th day of May 1974.

For the Atomic Energy Commission.

ALBERT SCHWENCER,
Chief, Light Water Reactors Branch 2–3, Directorate of Licensing.

EXXON NUCLEAR CO.

Notice of Availability of Final Environmental Statement for Mixed Oxide Fabrication Plant

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that the Final Environmental Statement prepared by the Commission's Directorate of Licensing, related to the Mixed Oxide Fabrication Plant currently operating under an interim license by EXXON Nuclear Company in Richland, Washington, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C., and in the Richland Public Library, Swift and Northgate Streets, Richland, Washington 99352. The Final Environmental Statement is also being made available at the State Clearinghouse, Office of the Governor, State Planning and Community Affairs Agency, Olympia, Washington 98504, and at the Regional Clearinghouse, Benton-Franklin Governmental Conference, 906 Jadwin Avenue, Richland, Washington 99352.

The notice of availability of the Draft Environmental Statement for the Mixed Oxide Fabrication Plant, and requests for comments from interested persons was published in the FEDERAL REGISTER on January 4, 1974 (39 FR 1090). The comments received from Federal agencies, State and local officials, and interested members of the public have been included as appendices to the Final Environmental Statement.

Single copies of the Final Environmental Statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Fuels and Materials, Directorate of Licensing.

Dated at Bethesda, Maryland, this 19th day of May.

For the Atomic Energy Commission.

R. B. CHITWOOD,
Chief, Technical Support Branch, Directorate of Licensing.

[Docket No. PRM–20–5]

WEST MICHIGAN ENVIRONMENTAL ACTION COUNCIL, INC.

Filing of Petition

Notice is hereby given that the West Michigan Environmental Action Council, Inc. (WMEAC) 822 Cherry Street, SE., Grand Rapids, Michigan, by petition for rule making dated April 10, 1974, has petitioned the Commission to amend its radiation protection standards as they apply to insoluble particles of plutonium and other alpha-emitting hot particles as more fully described in petition for rule making 20–5 filed by the Natural Resources Defense Council, Inc. (NRDC) together with the report appended to the NRDC petition by Drs. Arthur R. Tamplin and Thomas B. Cochran, entitled "Radiation Standards for Hot Particles."

A notice of filing of petition for rule making 20–5 by NRDC was published in

V 39 109 JUN 5 74 XUM

the FEDERAL REGISTER on March 28, 1974 (39 FR 11450) inviting comments from interested persons on or before May 28, 1974. The petition filed by WMEAC incorporates by reference the petition filed by NRDC.

WMEAC is an intervenor *In the Matter of Consumers Power Company (Big Rock Point Nuclear Plant)*, Docket No. 50–155. The petitioner requests the Commission to order the Atomic Safety and Licensing Board in Docket No. 50–155 to take no further action (except to void or suspend the effectiveness of Amendment No. 4 to Consumers Power Company's license No. DPR–6 for the Big Rock Point plant) in said proceeding until the matters set at issue in the petition for rule making have been finally determined.

A copy of the petition for rule making by WMEAC is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition may be obtained by writing the Rules and Proceedings Branch at the below address.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Rules and Proceedings Branch, Office of Administration—Regulation, U.S. Atomic Energy Commission, Washington, D.C., on or before August 5, 1974.

Dated at Germantown this 30th day of May, 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN HAITI

Entry or Withdrawal From Warehouse for Consumption

MAY 31, 1974.

On October 4, 1973, there was published in the FEDERAL REGISTER (38 FR 27545) a letter dated September 28, 1973 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, establishing levels of restraint applicable to certain specified categories of cotton textiles and cotton textile products produced or manufactured in Haiti and exported to the United States during the twelve-month period which began on October 1, 1973, pursuant to the Bilateral Cotton Textile Agreement of November 3, 1971, as amended, between the Governments of the United States and Haiti.

Among the provisions of the agreement, as amended, is one establishing an aggregate limit for the 64 categories of 4,961,250 square yards equivalent for the agreement year which began on October 1, 1973. Pursuant to paragraph 16 of the agreement, the United States Government has decided to control imports at that aggregate level for the remainder of the agreement year. The level of restraint contained in the letter published below has been adjusted to reflect entries charged against such level through March 31, 1974 for categories not subject to specific ceilings. The level has not been adjusted to reflect entries in Categories 39, 51, 53 and 63 which are subject to specific ceilings.

Accordingly, there is published below a letter of May 31, 1974 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that the amounts of cotton textile products in Categories 1 through 64, produced or manufactured in Haiti, which may be entered or withdrawn from warehouse for consumption during the twelve-month period beginning October 1, 1973 and extending through September 30, 1974, be limited to 3,568,708 square yards equivalent.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

MAY 31, 1974.

DEAR MR. COMMISSIONER: This directive further amends but does not cancel the directive issued to you on September 28, 1973 by the Chairman of the Committee for the Implementation of Textile Agreements, which directed you to prohibit entry during the twelve-month period beginning October 1, 1973 of cotton textiles and cotton textile products in certain specified categories, produced or manufactured in Haiti, in excess of designated levels of restraint. The directive of September 28, 1973 was previously amended by directive of December 5, 1973.

Pursuant to paragraph 16 of the Bilateral Cotton Textile Agreement of November 3, 1971, as amended, between the Governments of the United States and Haiti, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed, effective as soon as possible, and for the period extending through September 30, 1974, to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 64, produced or manufactured in Haiti, in excess of an adjusted level of restraint of 3,568,708 square yards equivalent.[1]

Cotton textiles and cotton textile products in categories other than Categories 39, 51, 53 and 63, produced or manufactured in Haiti, and which have been exported to the United States prior to October 1, 1973 shall not be subject to this directive.

Cotton textiles and cotton textile products in categories other than Categories 39, 51, 53 and 63 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

A detailed description of the categories in terms of T.S.U.S.A. numbers and factors for converting category units into equivalent square yards was published in the FEDERAL REGISTER on January 25, 1974 (39 FR 3430).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Haiti and with respect to imports of cotton textile products from Haiti have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.74–12915 Filed 6–4–74;8:45 am]

---

[1] This level has been adjusted to reflect entries charged through March 31, 1974 for categories not subject to specific ceilings. It has not been adjusted to reflect entries in Categories 39, 51, 53, and 63.

ENVIRONMENTAL PROTECTION AGENCY

CHEVRON CHEMICAL CO.

Notice of Establishment of Temporary Tolerances

Chevron Chemical Co., 940 Hensley St., Richmond, CA 94804, submitted a petition (PP 4G1420) requesting establishment of temporary tolerances for residues of the fungicide *cis-N*-(1,1,2,2-tetrachloroethyl) - thio]-4-cyclohexene-1,2-dicarboximide in or on the raw agricultural commodities peanut hulls at 1 part per million and peanuts at 0.1 part per million.

It has been determined that temporary tolerances for residues of the fungicide in or on peanut hulls at 1 part per million and peanuts at 0.1 part per million will protect the public health. They are therefore established as requested on condition that the fungicide be used in accordance with the temporary permit being issued concurrently and which provides for distribution under the Chevron Chemical Co. name.

These Temporary tolerances expire May 31, 1975.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038).

Dated: May 31, 1974.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.74–12914 Filed 6–4–74;8:45 am]

[OPP–180011]

USE OF STRYCHNINE ALKALOID IN AN EMERGENCY RABID ANIMAL CONTROL PROGRAM IN TEXAS

Notice of Issuance of a Specific Exemption

Pursuant to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973), notice is hereby given that the Environmental Protection Agency (EPA) granted a specific exemption from the provisions of section 3 of the Act (86 Stat. 979) on May 15, 1974, to the Texas State Department of Health, Austin, Texas. This specific exemption will allow the use of strychnine alkaloid baits as a means of emergency control of rabid foxes, raccoons, skunks, possums, bobcats, and coyotes only in Sutton and Schleicher counties, on non-Federal lands. However, EPA has determined that, if the State of Texas diagnoses rabies in animals in additional counties, the State should contact Regional EPA personnel prior to June 30, 1974, when the approved program is to be concluded, for possible approval to extend the control program to these additional counties.

The primary (non-urban) program will include placement of strychnine alkaloid-treated tallow baits. Trained personnel of the Bureau of Veterinary Public Health, Texas State Department of Health, will be responsible for conducting and monitoring this control program. A maximum of 500 strychnine baits will be placed within each 3-mile radius where rabid animals are detected, provided this radius encompasses areas of human habitation. Baits are to be labeled as poisonous and placed to maximize efficacy and limit non-target animal exposure. Baits remaining longer than 30 days must be collected and destroyed. Animals killed by poisoning must be buried.

If it is determined that a clear hazard to humans and domestic animals also exists in the urban area, a secondary program similar to the primary program will be implemented. In this case, the local citizenry must be notified of the program in advance to prevent poisoning of humans and domestic animals. In addition, the EPA Regional Office (VI) must be notified in advance of this secondary program. These strychnine baits will be made from eggs; the egg baits will be placed in the urban areas at night at 10 p.m. or after and must be picked up the following morning by daylight, in order to lessen the possibility of accidental poisoning of humans and domestic animals. No egg bait will be left in the urban areas during daylight hours. No more than 5,000 baits (eggs or tallow) are to be used in the program. These and other details are to be coordinated with the Regional office.

This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR § 166.2(a), issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for the use of pesticides under emergency conditions. The purpose of this control program is to prevent further exposure of domestic animals and man to rabid animals, thereby preventing, so far as is possible, domestic animal deaths and the need for postexposure human antirabies treatment.

No irreversible adverse environmental effects have been detected in previous use of strychnine in similar programs nor are any anticipated as a result of use in this rabid animal control program. Because of the emergency nature of the situation and the epizootic proportions, a poisoning program as outlined above is deemed to be the best possible alternative. This program has been authorized with the concurrence and support of the Center for Disease Control, Atlanta, Georgia.

This exemption is valid only through June 30, 1974; it is subject to withdrawal if it is determined by the Administrator (EPA) that the State of Texas is not complying with the governing regulations or if such action is necessary to protect man or the environment.

The official file on this subject will be available for review by interested parties during regular working hours (8 a.m. to 4:30 p.m.) and will be maintained in the Office of the Director, Registration Division, Office of Pesticide Programs, Environmental Protection Agency, Room 347, East Tower, Waterside Mall, 401 M Street SW., Washington, D.C. 20460.

Dated: May 24, 1974.

CHARLES L. ELKINS,
Acting Assistant Administrator for Water and Hazardous Materials.

FEDERAL ENERGY OFFICE

[Order 5]

STATE OFFICES OF PETROLEUM ALLOCATION

Delegation of Authority

Section 211.15 (10 CFR 211.15) of the Mandatory Petroleum Allocation Regulations provides that any state, including the territories and possessions of the United States, may apply to the Federal Energy Office for permission to establish a State Office of Petroleum Allocation. Section 211.15 also provides for delegation of authority to State Offices by FEO.

Effective June 1, 1974, each supplier which supplies allocated products for which there is a State set-aside is required by § 211.17(c) to designate a representative within each State in which the supplier acts as a prime supplier. Such designation must be made by June 15, 1974. The State Offices of Petroleum Allocation are required to consult, to the maximum extent practicable, with a prime supplier's representative before issuing authorizing documents affecting the set-aside volumes to be provided by the supplier.

In order to provide the State Offices of Petroleum Allocation with sufficient flexibility to continue past practices which have proved satisfactory in the administration of the State set-aside program, FEO believes that each State Office of Petroleum Allocation should be delegated the authority to waive the requirements of § 211.17(c).

Therefore, pursuant to the authority vested in me as Administrator of the Federal Energy Office by Executive Order 11748, 38 FR 33575, *It is hereby ordered*, That:

1. The authority of the Federal Energy Office to waive the provisions of § 211.17 (c) of the Mandatory Petroleum Allocation Regulations, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, by granting exceptions or exemptions thereto, is delegated to the State Offices of Petroleum Allocation which have been certified pursuant to § 211.15 of the regulations.

2. The State Offices of Petroleum Allocation may by exception or exemption waive in whole or in part the requirements of § 211.17(c).

3. Such waivers may be revoked or modified at any time by the State Offices of Petroleum Allocation.

4. This order is effective June 1, 1974.

JOHN C. SAWHILL,
Administrator,
Federal Energy Office.

MAY 31, 1974.

FEDERAL MARITIME COMMISSION

CITY OF MILWAUKEE AND HANSEN SEAWAY SERVICE, LTD.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with

V 39 — 109 JUN 5 74 XUM

the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before June 25, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

J. L. Haskell
Deputy Port Director
Board of Harbor Commissioners of the City of Milwaukee
City Hall, Room 606
Milwaukee, Wisconsin 53202

Agreement T-2965, between the City of Milwaukee (City) and Hansen Seaway Service, Ltd. (Hansen) grants Hansen the exclusive right to provide stevedoring services at the City Heavy Lift Dock located at Milwaukee, Wisconsin. The term of this agreement will be for a period of 2 years with renewal options. Hansen will pay City an annual fee of $12,000, a tonnage charge based on the amount of cargo handled over the facility and wharfage charges as they appear in City's published tariff. At the same time, Hansen will be permitted to rent office space and other available covered space as well as the use of agreed storage space at rates to be agreed upon by the parties. Finally, Hansen will abide by all the rules, regulations and charges as set forth in City's published tariff.

Dated: May 31, 1974.

By order of the Federal Maritime Commission.

FEDERAL POWER COMMISSION

[Docket No. E-8796]

ALABAMA POWER CO.

Rate Schedule Change

May 28, 1974.

Take notice that on May 13, 1974 Alabama Power Company (Alabama) tendered for filing an unsigned service agreement with Pea River Electric Cooperative, Inc. (Pea River) intended to replace Rate Schedules FPC No. 114 and No. 115. Alabama states the said Agreement provides that the Ozark delivery point of Pea River will be converted to Alabama's FPC Electric Tariff Original Volume No. 1, as of June 18, 1974. In addition, the said Agreement, according to Alabama shows that the Newton Delivery Point of Pea River will be converted to Alabama's FPC Electric Tariff, Original Volume No. 1, as of July 15, 1974.

Alabama also tendered for filing Sixth Revised Sheet No. 38 to its FPC Electric Tariff, Original Volume No. 1. Alabama states the said Revised Sheet indicates that the Newton and Ozark delivery points of Pea River will be converted to Rate Schedule REA-1 of Alabama's FPC Tariff, Original Volume No. 1.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 10, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-12802 Filed 6-4-74;8:45 am]

[Docket No. RP74-92]

ALGONQUIN GAS TRANSMISSION CO.

Proposed Changes in Rates, Charges, and Tariff

May 28, 1974.

Take notice that on May 16, 1974, Algonquin Gas Transmission Company (Algonquin Gas) tendered for filing proposed changes in rates and charges, to become effective on July 1, 1974. Algonquin Gas states that the proposed changes are applicable to gas service rendered to its customers under its tariff Rate Schedules F-1, WS-1, I-1, E-1, X-5, T-1, and SNG-1. The change amounts to an increase in revenues of approximately $17.6 million annually based upon volumes for the twelve months ended February 28, 1974, as adjusted.

Of the total increase, $16.5 million applies to Rate Schedule SNG-1, and, $1.1 million represents increases applicable to other rate schedules.

According to Algonquin Gas, the proposed change in rates is needed in order to meet increased cost of operations under current economic conditions, including an overall rate of return of 9.75 percent. Algonquin Gas requests an effective date of July 1, 1974 for the proposed changes.

Algonquin Gas also tendered for filing a newly revised FPC Gas Tariff entitled, "FPC Gas Tariff, First Revised Volume No. 1 (Supersedes Original Volume No. 1)." The Company states it is necessary to file a newly revised tariff since several tariff provisions have become obsolete, in that they are no longer applicable to Algonquin Gas' current operating conditions, and the tariff in general requires revision in order to eliminate duplicate provisions and to combine and coordinate provisions which are common to each rate schedule. Algonquin Gas further states that the newly revised tariff modifies the Company's delivery and billing unit in all of its rate schedules from "Mcf" to "MMBtu" in order to provide a unit which reflects possible differences in heat content of gas delivered as among the customers served, and to coordinate with a similar change in the FPC Gas Tariff of Algonquin Gas' pipeline supplier, Texas Eastern Transmission Corporation.

Algonquin Gas states further that copies of the filing have been served upon all of its customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before June 6, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Algonquin Gas' proposed revised tariff and rate filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-12832 Filed 6-4-74;8:45 am]

[Docket No. E-8795]

ALLEGHENY POWER SERVICE CORP.

Modification of Electric Service Agreement

May 29, 1974.

Take notice that on May 9, 1974, Allegheny Power Service Corporation (Applicant) filed, pursuant to section 35 of the Commission's Regulations, a Modification to the Electric Service Agreement, dated October 31, 1967, between Applicant and the City of Hagerstown, Maryland. Said Electric Service Agreement has been designated as Applicant's Rate Schedule FPC No. 30. The Modification tendered in this application provides for an additional point of interconnection.

Exhibit B in the tendered filing provides as follows: The Modification does not increase any rate; it only adds an additional supply point and increases the amount of service that Hagerstown can receive. Granting of this request will have no effect upon purchases under other rate schedules. The Applicant provided an additional point of interconnection with Hagerstown in May 1972, and increased the capacity available to Hagerstown to 48,000 Kw.

The City of Hagerstown, Maryland Certificate of Concurrence is simultaneously filed. It is requested that the Modification to the Electric Service Agreement be deemed effective as of May 1, 1972.

Any person desiring to be heard or to make any protest with reference to the subject matter of this Notice should on or before June 7, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The documents referred to above are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

[Docket No. E-8187]

BOSTON EDISON CO.

Further Postponement of Prehearing Conference and Hearing

May 24, 1974.

On May 16, 1974, Staff Counsel filed a motion for change of hearing date in the above matter because of conflict in the schedule of the Administrative Law Judge. The motion states the proposed date of July 1 would conflict with other scheduled commitments of Counsel for the Town of Norwood. On May 23, 1974, the City of Norwood (Norwood) filed a motion or answer in partial opposition to change in hearing date. The answer requests that the hearing be phased and that the discrimination issue be set for hearing on June 10, 1974.

On May 24, 1974, Commission Staff Counsel filed a reply to Norwood's answer.

Upon consideration, notice is hereby given that the hearing is postponed to July 1, 1974, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-12801 Filed 6-4-74;8:45 am]

[Docket No. CI74-385]

BRUNSON & McKNIGHT, INC.

Order Establishing Procedures, Setting Hearing Date and Granting Intervention

May 24, 1974.

On January 31, 1974, Brunson & McKnight, Inc. (B&M) filed in Docket No. CI74-385 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Company (Transwestern) from the Hat Mesa (Morrow) Field, Lea County, New Mexico (Permian Basin), all as more fully set forth in the application in this proceeding.

B&M proposes to sell approximately 90,000 Mcf per month from the Brunson & McKnight, Inc. Hat Mesa well for a period of one year at a rate of 55.0¢ per Mcf (14.65 psia) which is to be adjusted upward or downward from 1,000 Btu per cubic foot, but is not to be adjusted upward beyond 1,100 Btu per cubic foot. The proposed rate is in excess of 35¢ per Mcf established by Commission Opinion No. 662. This application was noticed on February 11, 1974 and was published in the Federal Register on February 19, 1974. On February 28, 1974, Transwestern petitioned to intervene in these proceedings.

In Order 431, issued April 15, 1971, the Commission stated, inter alia, that it would consider limited term certificates with pre-granted abandonment, if the pipeline were to demonstrate emergency need. We note, however, that the Commission in a recent order has already held that an emergency exists on Transwestern's system. See Marathon Oil Co., ------ FPC ------, Docket No. CI74-258, issued January 16, 1974. We therefore conclude that there is an emergency on El Paso's system.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted in the hearing hereinafter ordered by the pipeline (to the extent not hereinabove found to exist) (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to Section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the Nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the shortfall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act. Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market (Nueces Industrial Gas Company, 45 FPC 1224, 1227 (1971)), and whether that rate is in line with the prevailing normal intrastate market (Atlantic Richfield Company, ------ FPC ------, Docket No. CI73-691, order issued August 30, 1973, and ------ FPC ------, order granting rehearing issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arm's length negotiations and competitive bidding through non-affiliated entities.

The Commission finds:

(1) Good cause exists to set for formal hearing the application for a limited term certificate herein.

(2) The intervention of Transwestern in this proceeding may be in the public interest.

---

[1] Section 2.70 of the Commission's General Policy and Interpretations.

V 39 1099 JUN 5 74 XUM

The Commission orders:

(A) The application for limited term certificate for sale of natural gas filed in Docket No. CI74–385 is hereby set for hearing.

(B) Transwestern is hereby permitted to interevene in this proceeding, subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15, and 16 and the Commission's Rules and Regulations under that Act, a public hearing shall be held commencing July 15, 1974, at 10 a.m., e.d.t., at a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited-term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(D) Applicant and all petitioners supporting the application shall, on or before July 8, 1974, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

By the Commission.[2]

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74–12799 Filed 6–4–74;8:45 am]

[Docket No. CI74–649]

RICHARD A. CAMPBELL

Notice of Application

MAY 29, 1974.

Take notice that on May 14, 1974, Richard A. Campbell (Applicant), P.O. Box 51733, Lafayette, Louisiana 70501, filed in Docket No. CI74–649 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Gas Transmission Corporation (Texas Gas) from certain leases in the Church Point Field, Acadia Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced an emergency sale of natural gas to Texas Gas from subject acreage on March 27, 1974, for 60 days within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale after the end of the emergency period for one year at 55.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant estimates monthly deliveries of gas to Texas Gas at 3,750 Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised. It will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB.
Secretary.

[FR Doc.74-12827 Filed 6–4–74;8:45 am]

[Docket No. CI74–434]

C & K OFFSHORE CO.

Notice Postponing Hearing

MAY 28, 1974.

On May 24, 1974, Staff Counsel filed a motion to postpone the hearing scheduled for May 19, 1974 by Order issued April 22, 1974 in the above-designated matter. On May 28, 1974, C & K Offshore Company filed an answer opposing the motion. By letter dated May 28, 1974, Staff Counsel advised that the Public Service Commission of New York and the American Public Gas Association concur in the request.

Upon consideraton, notice is hereby given that the hearing in the above matter is postponed to June 12, 1974, at 2 p.m. Staff counsel and interveners may file supplementary testimony on or before June 7, 1974.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–12814 Filed 6–4–74;8:45 am]

[Docket No. CI74–629]

CNG PRODUCING CO.

Notice of Application

MAY 28, 1974.

Take notice that on April 30, 1974, CNG Producing Company (Applicant), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CI74–629 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Consolidated Gas Supply Corporation (Consolidated) from the Block 118 Field, East Cameron Area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional pricing procedure to sell to Consolidated natural gas produced from the East Cameron Block 118 Field at an initial price of 45 cents per Mcf at 15.025 psia subject to Btu adjustment[1] pursuant to the terms of a contract dated April 24, 1974. Said contract provides for fixed annual price escalations of 1.0 cent per Mcf, as well as certain tax reimbursement and provisions for upward price adjustment to an area ceiling rate.[2] The application states that sales volumes under the subject contract are estimated to be 66,000 Mcf per month.

The application states that the contract price of 45 cents per Mcf is lower than that contracted for by other producers operating in the East Cameron Block 118 Field who have contracted to sell natural gas to Texas Eastern at an initial rate of 50 cents per Mcf with such contracts limited to terms of 10 years. The application asserts further that it is universally recognized that there is no cheaper alternative supply than domestically produced natural gas, noting that LNG, SNG, and gasified coal gas are all estimated to cost in excess of one dollar per Mcf and, based on present estimates, will not become available to Consolidated until the mid-1970's in the case of LNG and the 1980's in the case of coal gas. Applicant asserts that 45.0 cents per Mcf is the minimum price necessary to enable Applicant to continue its drilling program in the East Cameron Block 118 Field and assist Consolidated in avoiding the necessity to curtail firm services.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74–495]

CNG PRODUCING CO.

Extension of Time and Postponement of Hearing

MAY 29, 1974.

On May 24, 1974, CNG Producing Company filed a motion for consolidation with Docket No. CI74–629 and revision of the procedural dates fixed by order issued July 15, 1974, in the above-designated matter. The motion states that there was no objection to the motion by any of the parties or the staff.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Direct evidence of Applicant and Interveners, June 25, 1974.
Answering evidence of Staff and Interveners in opposition, July 25, 1974.
Rebuttal evidence, August 13, 1974.
Hearing, September 4, 1974 (10 a.m., e.d.t.).

Action on the motion for consolidation is deferred pending further action.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74–282]

COLUMBIA GULF TRANSMISSION CO.

Notice of Application

MAY 28, 1974.

Take notice that on May 6, 1974, Columbia Gulf Transmission Company (Applicant), P.O. Box 683, Houston, Texas 77001, filed in Docket No. CP74–282 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain field lines and measuring stations, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon in place and by salvage a measuring station located in the Orange Grove Field, Terrebonne Parish, Louisiana, used to receive gas from Texasgulf Inc. (Operator), et al., and 1,700 feet of 4-inch supply line and measuring station, and 24,000 feet of 6-inch supply line in the Twin Island field, Cameron Parish, Louisiana, used to receive gas from Consolidated Gas Supply Corporation. Applicant states that the wells connected to the subject facilities are no longer capable of producing natural gas and that the reservoirs in which they were completed are fully depleted. Applicant states further that the gas purchase contracts relating to sales by the producers from said fields have been terminated by cancellation agreements executed by the purchaser, Columbia Gas Transmission Corporation, and the respective producers. Texasgulf Inc. was authorized in Docket No. CI73–852 to abandon the sale of natural gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10 and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–12805 Filed 6–4–74;8:45 am]

[Docket No. RI74–46]

DALPORT OIL CORP.

Notice of Settlement Agreement

MAY 28, 1974.

The Federal Power Commission hereby issues notice of a settlement agreement submitted in this proceeding by Dalport Oil Corporation (Dalport) on April 8, 1974. This proceeding involves an increase in rate for gas sold to El Paso Natural Gas Company (El Paso), pursuant to Dalport's FPC Gas Rate Schedule No. 6. This gas is produced in Lea County, New Mexico (Permian Basin Area).

On July 11, 1973, Dalport filed a petition for special relief to 35 cents per Mcf for the period ending December 31, 1973, with a 1 cent annual escalation per Mcf.

Pursuant to Commission order issued March 13, 1974, a prehearing conference was held on March 14, 1974. At the prehearing conference Dalport provided additional information and explanations, and supporting data. After evaluation of these filings, Staff constructed a cost study which supports the rate proposed by Dalport. The Staff's cost study shows that the proposed rate is justified taking into consideration the additional work which must be completed on the subject well in order to produce the remaining reserves and provide these volumes of natural gas to the interstate market.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–8797]

ELECTRIC ENERGY, INC.

Supplement To Rate Schedule

MAY 28, 1974.

Take notice that on May 14, 1974 Electric Energy Inc. (Electric) tendered for filing Supplement No. 8 to its Rate Schedule FPC No. 3. Electric states the said Supplement consists of a Letter Agreement, dated May 10, 1973, between

---

[2] Concurring statements of Commissioners Brooke and Smith, and dissenting statement of Commissioner Moody are filed as part of the original document.

[1] Btu adjustment is calculated downward for gas containing less than 1,000 Btu per cubic foot or upward adjustment if provided by an area ceiling rate.

[2] Applicant waives said "area rate clause" conditioned upon receipt of a satisfactory order by the Commission granting the instant application as herein requested.

V 39—109 JUN 5 74 XUM

Electric and the Atomic Energy Commission (AEC), whereby supplemental power, reserved on a weekly basis, will be obtained from any of Electric Energy, Inc. Sponsoring Companies and delivered to the AEC during the period May 3, 1974 to June 30, 1974.

Electric requests an effective date of May 3, 1974 for said Supplement.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 5, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12803 Filed 6-4-74;8:45 am]

[Docket No. CP74-289]

EL PASO NATURAL GAS CO.

Notice of Application

MAY 29, 1974.

Take notice that on May 13, 1974, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP74-289 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing special operating arrangements with Pacific Gas and Electric Company (PG&E) and Southern California Gas Company (SoCal) to assist Applicant in maintaining reliable service to Priority 1 and 2 east-of-California natural gas customers during the 1974-75 heating season, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant projects that for the 1974-75 heating season (November 1, 1974, through April 30, 1975) Priority 1 and 2 needs of its full requirement east-of-California natural gas customers will exceed Applicant's supply of gas by approximately 6.5 million Mcf. To meet such deficiency Applicant proposes, by contract with PG&E dated April 18, 1974, the following arrangements to commence on May 1, 1974 (or such later date following receipt of all necessary regulatory authorizations) and to continue through April 30, 1975:

By curtailing daily deliveries of gas to its low priority[1] east-of-California customers, Applicant states it will obtain and deliver to PG&E additional quantities of gas (advance sale gas) above those quantities PG&E would otherwise receive from Applicant at the Topock, Arizona, delivery point, subject to PG&E's operational capability to receive such deliveries and limited to cumulative deliveries of 25,000,000 Mcf during the contract period. Additionally, for each advance sale delivery day a quantity of gas equal to 1½ percent of advance sales for that day is proposed to be delivered at no charge to PG&E to replace its compressor fuel used and losses incurred incident to this arrangement. It is stated that during the 1974-75 heating season, Applicant has the right, subject to PG&E's consent, to reduce, by a maximum of the lesser of 300,000 Mcf or the cumulative total of advance sales to date, daily deliveries to PG&E below the volume which PG&E would otherwise receive under the currently effective service agreement between the parties dated February 10, 1969, now on file with the Commission. By PG&E's subsequently accepting reduced deliveries at Applicant's request (after prior accumulation of advance sale deliveries), Applicant states that equivalent quantities will be available to maintain Priority 1 and 2 service to its east-of-California customers during the 1974-75 heating season.

It is proposed that PG&E will purchase such advance sale gas from Applicant on a monthly basis at the rate in effect under Rate Schedule G of Applicant's FPC Gas Tariff, Original Volume No. 1, computed at the unit cost that results from a load factor of 100 percent.[2] In consideration of the added burden on PG&E's storage and other facilities, applicant proposes to credit PG&E's monthly account by the total of a uniform monthly amount obtained by dividing $4,392,000 by the total number of months (a partial month counting as a whole month for this purpose) during the period from the date that all regulatory authorizations have been received through April 30, 1975, plus 1.1 percent of an amount equal to the sum paid by PG&E (calculated without regard to the storage billing credit herein provided) for the total cumulative volume of advance sale gas, if any, delivered through the end of the billing month less a sum proportionate to the total cumulative reductions in deliveries, if any, made under the agreement through the end of the billing month. If at the term's end total reductions in PG&E deliveries are less than total advance sales, and if for any reason a similar temporary agreement between Applicant and PG&E is not reached for the 1975-76 heating season, then, the application indicates, a uniform schedule of reducing deliveries to PG&E through July 1975 will be agreed upon to amortize said advance sale gas credit remaining at term's end.

As a condition of PG&E's entering into the subject agreement, Applicant has also entered into a "back-up" agreement with SoCal dated April 26, 1974. The "back-up" agreement provides that on those days on which PG&E does not consent to accept reduced deliveries from Applicant, Applicant may divert from SoCal up to 300,000 Mcf of gas per day, below the quantities of gas which SoCal would otherwise receive, during the period November 1, 1974, through April 30, 1975. The agreement, it is stated, is subject to the conditions that (1) the outstanding accumulative reduction in deliveries at any one times does not exceed 1,500,000 Mcf, (2) prior to diversion from SoCal maximum reductions in deliveries to PG&E have been made, and (3) gas diverted from SoCal by Applicant will be returned in kind prior to any further advance sales to PG&E or resumption of deliveries to low priority east-of-California customers. Applicant states that the "back-up" agreement provides that in consideration of SoCal's support, Applicant will reduce SoCal's monthly bill by $0.375 multiplied by the volumes in Mcf diverted.

Applicant states that it has filed concurrently with its application, pursuant to Part 154 of the Commission's Regulations, changes in the storage service provisions of its tariff as necessary to implement the special operating arrangements, including provisions for a surcharge rate of 5.77¢ per Mcf to be paid by Applicant's east-of-California customers having Priority 1 and 2 gas requirements which are to be protected as a result of the special operating arrangements herein proposed. Such surcharge is designed to recover for Applicant the cost to be incurred by it under the special operating arrangements from the commencement of service through April 30, 1975, from those east-of-California customers which will be the beneficiaries of the service protection afforded by such arrangements. Applicant proposes to contract with those of its direct industrial customers who have Priority 1 and 2 requirements, and who will benefit from the project presented herein, for the recovery from such customers of that portion of such cost attributable to them. Separate provisions are also made for refund to Applicant's appropriate east-of-California customers of any excess in surcharge revenues over actually incurred costs and provisions for Applicant to recover from its affected east-of-California customers any deficiencies in such surcharge revenues under actually incurred costs.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 14, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any

---

[1] Presently Applicant anticipates that the subject special operating arrangements can be fully utilized through curtailment of only Priority 5 service to its east-of-California customers.

[2] Such rate in effect on April 2, 1974, is 53.31 cents per Mcf.

person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Rate Schedule 12, etc.]

EXXON CORP. ET AL.

Rate Change Filings

MAY 28, 1974.

Take notice that the procedures listed in the Appendix attached hereto have filed proposed increased rates to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-136]

FLORIDA GAS TRANSMISSION CO.

Proposed Changes in Rates and Charges

MAY 28, 1974.

Take notice that on May 15, 1974, Florida Gas Transmission Company (Florida Gas) tendered for filing Fifth Revised Sheet 3-A to its FPC Gas Tariff, Original Volume No. 1, containing changes in rates in its Rate Schedules G and I. The changes in rates result from the application of the purchased gas cost adjustment provision in Section 15, General Terms and Conditions of the tariff, which was approved by the Commission in Docket No. RP72-136. Florida Gas proposes the changes become effective on July 1, 1974.

A comparison between the currently effective rates and those to be made effective on July 1, 1974 under this filing is as follows:

	Cents per therm	
	Currently effective	To become effective July 1, 1974
Rate Schedule G	6.977	7.011
Rate Schedule I	5.587	5.621

The annual effect on the proposed changes is $252,000 based on sales for the twelve months ended March 31, 1974.

Florida Gas states that a copy of its filing has been served upon all customers purchasing gas under its FPC Gas Tariff, Original Volume No. 1 and the Florida Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12831 Filed 6-4-74;8:45 am]

[Docket No. CI74-650]

GREAT SOUTHERN OIL AND GAS COMPANY, INC.

Notice of Application

MAY 29, 1974.

Take notice that on May 13, 1974, Great Southern Oil and Gas Company, Inc. (Applicant), P.O. Box 51436, Lafayette, Louisiana 70501, filed in Docket No. CI74-650 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Gas Transmission Corporation (Texas Gas) from the Mowata Field, Acadia Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell to Texas Gas an estimated 4,000 Mcf of natural gas per month for one year from the Mowata Field at a rate of 35.0 cents per Mcf at 15.025 psia, subject to a downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

Any person desiring to be heard or to make any protest with reference to said application should on or before June 18, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12824 Filed 6-4-74;8:45 am]

[Docket No. RI74-235]

GROUP 27, AGENT

Petition for Special Relief

MAY 28, 1974.

Take notice that on May 16, 1974, Group 27, Agent (Petitioner), P.O. Box 13244, Houston, Texas 77019, filed a petition for special relief in Docket No. RI74-235 seeking a rate of 75 cents per Mcf for the sale of gas to Tennessee Gas Pipeline Company from a well in the South Luck Field, Matagorda County, Texas. Petitioner states that it is willing to expend $25,000 for the installation of a pump which would restore gas production from the subject well, in exchange for its proposed rate, and estimates a production rate of 250,000 cubic feet per day.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12818 Filed 6-4-74;8:45 am]

[Docket No. CP73-294]

IROQUOIS GAS CORP. ET AL.

Application To Amend

MAY 28, 1974.

Take notice that on May 22, 1974, Iroquois Gas Corporation (Iroquois), 10 Lafayette Square, Buffalo, New York 14203, Pennsylvania Gas Company (Penn Gas), 213 Second Avenue, Warren, Pennsylvania 16365, United Natural Gas Company (United), 308 Seneca Street, Oil City, Pennsylvania 16301, and NFG Gas Corporation (National-NY), 10 Lafayette Square, Buffalo, New York 14203, filed in Docket No. CP73-294 an application to amend the Commission's order issued May 10, 1974, in said docket (51 FPC ______), pursuant to sections 7(b) and 7(c) of the Natural Gas Act, all as more fully set forth in the application to amend which is on file with the Commission and open to public inspection.

The order of May 10, 1974, granted Applicants permission and approval to abandon certain facilities and issued a certificate of public convenience and necessity authorizing the acquisition and operation of these same facilities, all to to facilitate a major realignment of the National Fuel Gas Company (National-NJ) system. The applicants are to be transformed into two companies, one, United, with the name changed to National Fuel Gas Supply Corporation (NFG), will assume the production, gas purchase, gathering, storage, transmission, and sale for resale functions, and the other, National-NY, will assume the distribution functions. The existing holding company, National-NJ, was to be merged by National-NY. Applicants state that the plan of realignment has been conditional upon receiving a satisfactory tax ruling to be certain that there would be no additional federal tax burden on either investors or customers and that they have been advised that the realignment of the three operating companies can proceed without adverse tax consequences but that elimination of the holding company would be considered in a way that would incur adverse tax consequences.

Applicants state that after consideration they have concluded that the tax consequences require the holding company to be kept in existence. Accordingly, Applicants request modification of the order of May 10, 1974, to recognize that this aspect of the original proposal will not be undertaken and National-NJ will remain in existence with two major subsidiaries, the distribution company and the supply company.

Applicants describe the steps in the amended plan of realignment as follows:

> The first step of the amended plan of realignment will be the transfer of the gas distribution property, related intrastate transmission and general plant facilities, and certain other assets of Iroquois, Penn Gas and United to National-NY. In exchange for these assets National-NY will (a) assume certain liabilities related to gas distribution operations, (b) issue common stock to each transferor and (c) assume certain long-term indebtedness of each transferor to National-NJ. The consideration received by the transferors will in each case equal the original cost of its assets transferred to National-NY net of accumulated depreciation. By this step, National-NY will become a gas distribution company, operating under the jurisdiction of the New York, Pennsylvania and Ohio public utility regulatory commissions, and carrying out the distribution and intrastate transmission operations now performed by Iroquois, Penn Gas and United.
>
> The second step will be for Iroquois, Penn Gas and United to transfer all of the shares of National-NY held by them to National-NJ in exchange for certain of their respective shares held by National-NJ. After such exchange of shares, Iroquois, Penn Gas, United and National-NY will all be wholly owned subsidiaries of the holding company, National-NJ.
>
> The final step of the amended realignment will be the creation of an integrated gas supply network by the transfer of the remaining plant and property of Iroquois and Penn Gas to United by means of a merger of these three companies. United, as the owner and operator of this network will be engaged in the production, purchase, storage, interstate transmission and sale for resale of natural gas. It will make no sales to ultimate consumers and over 98 percent of its sales will be to its affiliate, National-NY. The remainder will be sales for resale to non-affiliated distributors currently being made by United and Penn Gas.

Applicants assert that the completed realignment will result in National-NY's, the distribution company, and United's, the supply company, providing integrated wholesale and retail gas service to the area now being served by Iroquis, Penn Gas and United and each resulting company will be a wholly-owned subsidiary of National-NJ, with their outstanding long-term indebtedness also held by National-NJ. Applicants further state that the continuation of the holding company will have no effect on the operations of the supply and distribution companies and that all of the operating benefits anticipated in the original proposal will be equally obtainable under the new arrangement.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application to amend should on or before June 12, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12809 Filed 6-4-74;8:45 am]

[Docket No. CI74-433]

J. S. ABERCROMBIE MINERAL COMPANY, INC., ET AL.

Order Establishing Procedures, Setting Hearing Date and Granting Interventions

MAY 24, 1974.

On February 11, 1974, J. S. Abercrombie Mineral Company, Inc., et al. (Abercrombie) filed in Docket No. CI74-433 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of

natural gas in interstate commerce to El Paso Natural Gas Company (El Paso) from the Antelope Ridge Area, Lea County, New Mexico (Permian Basin), all as more fully set forth in the application in this proceeding.

Abercrombie proposes to sell approximately 600,000 Mcf per month to El Paso from the subject acreage for 16 months at an initial rate of 55.0¢ per Mcf (14.65 psia) which is to be adjusted upward or downward from 1,000 Btu per cubic foot. The proposed rate is in excess of 35¢ per Mcf established by Commission Opinion No. 662. This application was noticed on February 26, 1974 and was published in the Federal Register on March 5, 1974. On March 18, 1974, Pacific Gas and Electric Company petitioned to intervene in these proceedings, as did El Paso on March 20, 1974.

In Order 431, issued April 15, 1971, the Commission stated, interalia, that it would consider limited term certificates with pre-granted abandonment, if the pipeline were to demonstrate emergency need. We note, however, that the Commission in a recent order has already held that an emergency exists on El Paso's system. See *Superior Oil Co.*, ____ FPC ____, Docket No. CI74-327, issued March 25, 1974. We therefore conclude that there is an emergency on El Paso's system.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted in the hearing hereinafter ordered by the pipeline (to the extent not hereinabove found to exist) (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the Nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the short-fall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act. Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market (Nueces Industrial Gas Company, 45 FPC 1224, 1227, (1971)), and whether that rate is in line with the prevailing normal intrastate market (Atlantic Richfield Company, ____ FPC ____, Docket No. CI73-691, order issued August 30, 1973, and ____ FPC ____, order granting rehearing issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arm's length negotiations and competitive bidding through non-affiliated entities.

The Commission finds:

(1) Good cause exists to set for formal hearing the application for a limited term certificate herein.

(2) The intervention of the above parties in this proceeding may be in the public interest.

The Commission orders:

(A) The application for limited term certificate for sale of natural gas filed in Docket No. CI74-433 is hereby set for hearing.

(B) The above parties are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of said interveners shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15 and 16 and the Commission's Rules and Regulations under that Act, a public hearing shall be held commencing July 17, 1974, at 10 a.m., e.d.t., at a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(D) Applicant and all petitioners supporting the application shall, on or before July 10, 1974, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at the hearings in this proceeding and shall prescribe relevant procedural matters not herein provided.

By the Commission.[2]

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1586]

FRANCIS L. KINNEY

Supplemental Application

MAY 29, 1974.

Take notice that on May 20, 1974, Francis L. Kinney (Applicant), filed a supplemental application with the Federal Power Commission, seeking authority to hold the following positions pursuant to section 305(b) of the Federal Power Act:

Vice President, The Connecticut Light and Power Company, Public Utility.
Vice President, The Hartford Electric Light Company, Public Utility.
Vice President, Western Massachusetts Electric Company, Public Utility.
Vice President, Holyoke Water Power Company, Public Utility.
Vice President, Holyoke Power & Electric Company, Public Utility.

Both The Connecticut Light and Power Company and The Hartford Electric Light Company are Connecticut corporations, engaged principally in the production, purchase, transmission distribution and sale of electricity, at wholesale and retail, and the production, purchase, distribution and sale of gas at retail within the State of Connecticut.

Western Massachusetts is a Massachusetts corporation engaged principally in the production, purchase, transmission, distribution and sale of electricity at wholesale and retail in a substantial portion of western Massachusetts.

Holyoke Water Power is a Massachusetts corporation engaged principally in the manufacture, purchase, transmission, distribution and sale of electricity to industrial, municipal and wholesale customers in the Cities of Holyoke and Chicopee and to the Town of South Hadley in western Massachusetts.

Holyoke Power and Electric is a wholly-owned subsidiary of Holyoke which conducts certain of Holyoke's electric operations.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to

make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12816 Filed 6-4-74;8:45 am]

[Docket No. CI74-292]

KIRBY PETROLEUM CO.

Order Granting Intervention, Setting Hearing Date and Prescribing Procedure

MAY 24, 1974.

On November 1, 1973, Kirby Petroleum Company (Kirby) filed, in Docket No. CI74-292, an application requesting issuance of a limited term certificate of public convenience and necessity with pre-granted abandonment authority, pursuant to section 7(c) of the Natural Gas Act and the Commission's Regulations thereunder, for the sale of gas to Texas Eastern Transmission Corporation (Texas Eastern) from acreage in the White Castle Area, Iberville Parish, South Louisiana (Southern Louisiana Area).

Specifically, Kirby proposes to sell and deliver to Texas Eastern up to 2,000 Mcf of gas per day, plus additional gas which may be available and which the purchaser can receive, at a rate of 55.0 cents per Mcf subject to downward Btu adjustment from a base of 1,000 and upward Btu adjustment from a base of 1,000 to a maximum of 1,100 Btu's per cubic foot.

Concurrently with its certificate application, Kirby submitted a letter agreement dated October 17, 1973, as the proposed rate schedule. The letter agreement limits Texas Eastern's take or pay obligation to 2,000 Mcf per day; however, if additional volumes are available and Texas Eastern has sufficient capacity to handle the additional volumes, Kirby will deliver such volumes to Texas Eastern.

Kirby commenced an emergency sale to Texas Eastern from the subject acreage on October 23, 1973, at a rate of 55.0 cents per Mcf, pursuant to Order No. 418.

Texas Eastern on November 21, 1973, and Algonquin Gas Transmission Company (Algonquin) on November 26, 1973, filed timely petitions to intervene in support of the application.

We take further note, however, that the Commission in a number of recent orders has already held that an emergency exists on Texas Eastern's system. See Southwestern Electric Power Co. et al., —— FPC ——, Docket No. CI74-131, issued November 15, 1973. We therefore, conclude that there is an emergency on Texas Eastern's system which could warrant the issuance of a certificate if the price conforms to the public convenience and necessity.

The subject application was filed under Order No. 431[1] and therefore requires evidence to be submitted in the hearing hereinafter ordered by the pipeline (to the extent not hereinabove found to exist) (1) that it has an emergency need for such supply; (2) that it has made every reasonable effort to fill its storage field during the storage injection season; and (3) that, if curtailment is necessary on its system, it has filed a plan pursuant to section 4 of the Natural Gas Act. The proposed sale represents a sizeable volume of gas potentially available to the interstate market and due to the Nation's present shortfall of natural gas supplies, it is of critical importance that emergency supplies of gas be made available to interstate pipelines that show a need for such short-term supplies in order to avoid disruption of service to their customers. While the need for such supplies is manifest where the shortfall of supplies renders service on a pipeline's system potentially unreliable, we nevertheless must meet our statutory obligations and determine whether the proposed rate to be paid for such supply is required by the public convenience and necessity criteria of the Act. Atlantic Refining Company v. Public Service Commission of New York, 360 U.S. 378 (1960). We will therefore set this matter for hearing to establish an evidentiary record on the issues heretofore discussed. In that hearing, the record should contain evidence on whether the rate to be paid is "no higher than necessary to elicit the supply of gas" into the interstate market (Nueces Industrial Gas Company, 45 FPC 1224, 1227 (1971)), and whether that rate is in line with the prevailing normal intrastate market (Atlantic Richfield Company, —— FPC ——, Docket No. CI73-691, order issued August 30, 1973, and —— FPC ——, order granting rehearing issued October 10, 1973). The normal market price for this supply cannot be established merely on the basis of prices agreed to by affiliates. The price evidence must be based on arm's-length negotiations and competitive bidding through non-affiliated entities.

The Commission finds:

(1) The intervention of Texas Eastern and Algonquin in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

The Commission orders:

(A) Texas Eastern and Algonquin are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of said intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of said intervenors shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on July 24, 1974, at 10 a.m., (e.d.t.), in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by the applicant.

(C) On or before July 15, 1974, Kirby and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge shall preside at, and control, this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

By the Commission.[2]

[Docket No. ID-1733]

JOSEPH R. MAHER

Notice of Application

MAY 29, 1974.

Take notice that on May 20, 1974, Joseph R. Maher (Applicant) filed an initial application with the Federal Power Commission, seeking authority to hold the following positions pursuant to section 305(b) of the Federal Power Act:

Director, The Connecticut Light and Power Company, Public Utility.
Director, The Hartford Electric Light Company, Public Utility.
Director, Western Massachusetts Electric Company, Public Utility.
Director, Holyoke Water Power Company, Public Utility.
Director, Holyoke Power & Electric Company, Public Utility.

Both The Connecticut Light and Power Company and The Hartford Electric Light Company are Connecticut corporations, engaged principally in the production, purchase, transmission, distribution and sale of electricity, at wholesale and retail, and the production, purchase, distribution and sale of gas at retail within the State of Connecticut.

Western Massachusetts is a Massachusetts corporation engaged principally in the production, purchase, transmission, distribution and sale of electricity at wholesale and retail in a substantial portion of western Massachusetts.

Holyoke Water Power is a Massachusetts corporation engaged principally in the manufacture, purchase, transmission, distribution and sale of electricity to industrial, municipal and wholesale customers in the Cities of Holyoke and Chipcopee and to the Town of South Hadley in western Massachusetts.

Holyoke Power and Electric is a wholly-owned subsidiary of Holyoke which conducts certain of Holyoke's electric operations.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12823 Filed 6-4-74;8:45 am]

[Docket No. E-8806]

NORTHERN INDIANA PUBLIC SERVICE CO.

Notice of Memorandum

MAY 29, 1974.

Take notice that on May 15, 1974 Northern Indiana Public Service Company (NIPS) tendered for filing Memorandum No. 59 to its Rate Schedule FPC No. 8. NIPS states said Memorandum relates to the costing of overhaul and emergency energy when such energy must be supplied at a cost higher than the State Line Generating Station, either from oil or gas-fired units or from other Commonwealth Edison of Illinois sources.

NIPS requests an effective date of May 6, 1974 for said Memorandum.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 12, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-88]

NORTH PENN GAS CO.

Proposed Changes in FPC Gas Tariff

MAY 29, 1974.

Take notice that North Penn Gas Company (North Penn), on May 15, 1974, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, effective July 1, 1974. The proposed changes would increase revenues from jurisdictional sales and service by $970,491 based on the 12-month period ending February 28, 1974 as adjusted.

North Penn states that the principal reasons for the proposed increase are:

1. To reflect the general inflation in costs in every aspect of its pipeline operations which are not now reflected in its current effective rates.

2. To increase its rate of return to 9.5% which is the minimum return required to maintain the integrity of investor-provided capital presently devoted to the business and attract on a reasonable basis the necessary amount of capital required in the future.

In addition North Penn is requesting a Gross Receipts Tax Surcharge Clause in its tariff which will be applicable to Rate Schedule P-1 only.

Copies of the filing were served upon the Company's jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 13, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. G-9279, etc.]

NORTHERN NATURAL GAS CO.

Motion To Order Payment of Refunds

MAY 29, 1974.

Take notice that on May 7, 1974, Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska) transmitted a motion to this Commission that it order Northern Natural Gas Company (Northern) to refund to Kansas-Nebraska the sum of $2,432.44, plus accumulated interest.

Kansas-Nebraska states that Northern was ordered by this Commission, in the above captioned docket, to retain portions of the amounts received by Northern from Pan American Petroleum Corporation in this proceeding because of uncertainties concerning Kansas-Nebraska's intended disposition of its share of the refund.

Kansas-Nebraska states in its motion that it proposes to refund to its jurisdictional customers the amount retained by Northern plus the accumulated interest on such amount by crediting the sum to its Unrecovered Purchase Gas Cost Account in accordance with its FPC Gas Tariff, Second Revised Volume No. 1.

Kansas-Nebraska, in its motion, requests the Commission to issue an order approving the proposed disposition and directing Northern to refund said amount plus accumulated interest.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 7, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP69-1]

NORTHERN NATURAL GAS CO.

Motion To Order Payment of Refunds

MAY 29, 1974.

Take notice that on May 7, 1974, Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska) transmitted a motion to this Commission that it order Northern Natural Gas Company (Northern) to refund to Kansas-Nebraska the sum of $26,647.19 plus accumulated interest.

Kansas-Nebraska states that Northern was ordered by this Commission, in the above captioned docket, to retain refunds due to Kansas-Nebraska because of uncertainties concerning Kansas-Nebraska's intended disposition of its share of the refund.

Kansas-Nebraska states in its motion that it proposes to refund to its jurisdictional customers the amount retained by Northern plus the accumulated interest on such amount by crediting the sum to its Unrecovered Purchase Gas Cost Account in accordance with its FPC Gas Tariff, Second Revised Volume No. 1.

V 39 109 JUN 5 74 XUM

Kansas-Nebraska, in its motion, requests the Commission to issue an order approving the proposed disposition and directing Northern to refund said amount plus accumulated interest.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 7, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP72-115]

OKLAHOMA NATURAL GAS GATHERING CORP.

Tendered Tariff Sheets

MAY 28, 1974.

Take notice that on May 16, 1974, Oklahoma Natural Gas Gathering Corporation (Gathering Corporation), tendered for filing tariff sheets providing for changes in Gathering Corporation's FPC Gas Tariff to include Fourth Revised Sheet PGA-1. The Company states that the tariff sheet will become effective July 1, 1974 and will revise Gathering Corporation's Base Tariff Rate to recover the balance accumulated in the unrecovered purchase gas cost account and flow through the increase in the system cost of purchased gas.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 7, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CI74-655]

PETROLEUM CORP.

Notice of Application

MAY 28, 1974.

Take notice that on May 14, 1974, The Petroleum Corporation (Applicant), 3303 Lee Parkway, Dallas, Texas 75219, filed in Docket No. CI74-655 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company (El Paso) from the existing Hull No. 1 Well and any additional wells hereafter drilled, owned or controlled by Applicant in section 121, Block A.H.E. & W.T. Ry. Co. Survey in the Sonora Upper Canyon Gas Field, Sutton County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant is currently selling up to 2,000 Mcf of gas per day from subject acreage to El Paso under a one-year certificate granted by Commission order issued in Docket No. CI73-854 on July 31, 1973, at a price of 45.0 cents per Mcf at 14.65 psia. Applicant proposes to sell to El Paso up to 200 Mcf of gas per day from subject acreage at a price of 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, commencing on August 1, 1974, or on the issuance date of an appropriate certificate if such date is later, within the contemplation of § 2.70 of the Commission's general policy and interpretations.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12817 Filed 6-4-74;8:45 am]

[Docket No. CI74-626]

PHILLIPS PETROLEUM CO.

Notice of Application

MAY 28, 1974.

Take notice that on May 3, 1974, Phillips Petroleum Company (Applicant), Bartlesville, Oklahoma 74004, filed in Docket No. CI74-626 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Pacific Lighting Service Company (PLS) from Applicant's interest in gas well gas from Federal Lease No. OCS P-0166, between the depth of 100 feet below the bottom of the Repetto Sands and the depth of 100 feet below the bottom of the Vaqueros Sands, offshore Santa Barbara County, California, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell and deliver natural gas from said acreage to PLS pursuant to the terms of a 20-year contract dated November 29, 1973. Under said agreement Applicant is to deliver the subject gas to PLS at Applicant's LaConchita Shore site located in Ventura County, California, at an initial price for such gas well gas of 60.0 cents per Mcf at 14.73 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot.

Applicant states that the only pipelines that Applicant will own or operate in connection with this sale will consist of its gathering lines extending from the production platforms to the point of delivery described above. Applicant states further that its initial price of 60.0 cents per Mcf is less than the prices charged in numerous intrastate sales and less than prices in some emergency interstate sales. Applicant asserts that the testing and development of these deep gas reserves are in the public interest.

The application states that estimated sales volumes under the instant application are unknown at this time.

Applicant states that it is presently selling casinghead gas to PLS from the Repetto Sands underlying Federal Lease No. OCS P-1066.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7

and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project 2140]

PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE

Application for New License

MAY 24, 1974.

Public notice is hereby given that application for new license was filed December 22, 1972, under the Federal Power Act (16 U.S.C. 791a-825r) by the Public Service Company of New Hampshire (Correspondence to: Mr. Eliot Priest, Vice President, Public Service Company of New Hampshire, 1000 Elm Street, Manchester, New Hampshire 03105) for its constructed Project No. 2140, known as the Garvins Falls Project located on the Merrimack River in the Town of Bow, City of Concord, Merrimack County, New Hampshire. The project affects navigable waters of the United States and the Cities of Laconia and Manchester are within a radius of approximately 25 miles. The present license expires December 31, 1975.

The Garvins Falls Project with an installed capacity of 5,600 kw consists of: (1) A dam, approximately 550 feet in length with maximum height of 18 feet, in two sections (a) a low crest section (elevation 216.85 feet U.S.G.S. datum) approximately 475 feet in length surmounted by 3-foot flashboards and (b) a high crest section (elevation 218.65 feet U.S.G.S. datum) approximately 75 feet in length; (2) a canal about 500 feet in length leading from the southern end of the dam to the powerhouse; (3) a ten-foot wide waste gate at the end of the canal; (4) a reservoir, eight miles in length, extending upstream to the foot of the Sewalls Falls Dam; (5) a powerhouse containing two generators rated at 2400 kw and 3200 kw, (6) a substation containing six 1500 kva step-up transformers; (7) a single 34.5 kv transmission line extending 340 feet to the Applicant's Garvins Substation, and (8) all other facilities and interests appurtenant to the operation of the project.

Applicant's estimated net investment in the project is $600,615 which is less than its estimate of fair value.

Under present plans, the Applicant proposes to develop a boat ramp and dock in addition to the recreation facilities to be developed at its downstream Hooksett Project No. 1913.

Applicant's supplies project energy to its system which serves 10 cities and 183 other municipalities within the State of New Hampshire and 16 communities in Maine and Vermont. Electricity is also furnished to 8 other utilities. In addition, the project releases a 1000 cfs continuous flow from the project for the benefit of Applicant's downstream Merrimack Steam Station.

Any person desiring to be heard or to make protest with reference to said application should on or before July 26, 1974 file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12811 Filed 6-4-74;8:45 am]

[Docket No. E-8807]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Notice of Cancellation of Contract

MAY 29, 1974.

Take notice that on May 20, 1974, Public Service Company of Oklahoma (PSCO) tendered for filing a Notice of Cancellation of Contract. This Notice of Cancellation is of a contract between PSCO and Red River Valley Rural Electric Association dated October 2, 1968, Rate Schedule FPC No. 179. The contract was canceled effective November 18, 1973.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed or or before June 10, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-49]

SOUTH GEORGIA NATURAL GAS CO.

Revised Tariff Sheets

MAY 28, 1974.

Take notice that on May 16, 1974 South Georgia Natural Gas Company (South Georgia) tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1:

Sixth Revised Sheet No. 3A.
Thirty-First Revised Sheet No. 5.
Thirtieth Revised Sheet No. 6.
Twenty-Second Revised Sheet No. 9.
Twenty-First Revised Sheet No. 11.
Twenty-Fifth Revised Sheet No. 12B.

South Georgia states that the above sheets represents a rate change under its PGA clause, such clause approved to become effective April 14, 1973, by Commission Order in Docket No. RP73-49 issued April 13, 1973. South Georgia further states that it proposes to increase its rates $456,025 for the purpose of tracking a rate increase filing by Southern Natural Gas Company on May 16, 1974, which would increase South Georgia's cost of gas $785,593 annually.

South Georgia requests an effective date of July 1, 1974, or such other date as the rate increase filed by Southern Natural is permitted to go into effect.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C., in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 10, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12829 Filed 6-4-74;8:45 am]

[Docket No. RI74-237]

SUN OIL CO.

Petition for Special Relief

MAY 29, 1974.

Take notice that on May 22, 1974, Sun Oil Company (Petitioner), P.O. Box 2880, Dallas, Texas 75221, filed a petition for special relief in Docket No. RI74-237, seeking a rate above the applicable area ceiling under Opinion No. 586. Petitioner seeks a price of 40.0 cents per Mcf, plus 1¢ per Mcf annual escalations, adjusted for upward and downward Btu from a base of 1000, for the sale of gas from certain leases in the John Creek Field, Hutchinson County, Texas to Northern Natural Gas Company under its FPC Gas Rate Schedule Nos. 139 and 347 and to Transwestern Pipeline Company under

V 39 109 JUN 5 74 XUM

its FPC Gas Rate Schedule No. 122. Petitioner states that it plans to enter the Yanda et al. Unit Well No. 1, located in the John Creek Field and dually complete this well in the Cleveland Sand and, if successful, plans to dually complete up to five wells in the Cleveland Sand. Petitioner states that it estimates that there are some 2.763 Bcf of recoverable reserves which could be obtained through its proposed program.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12825 Filed 6-4-74;8:45 am]

[Docket No. RI74-236]

SUN OIL CO.

Petition for Special Relief

MAY 29, 1974.

Take notice that on May 22, 1974, Sun Oil Company (Petitioner), P.O. Box 2880, Dallas, Texas 75221, filed a petition for special relief in Docket No. RI74-236, seeking a rate above the applicable area ceiling under Opinion No. 586. Petitioner seeks a price of 45.0 cents per Mcf, plus 1¢ per Mcf annual escalations, adjusted for upward and downward Btu from a base of 1000, for the sale of gas to Natural Gas Pipeline Company of America under its FPC Gas Rate Schedule No. 233 from the Cole-McGrew Unit Well No. 2, Morrow-Chester Formation, section 28-4N-24ECM, Beaver County, Oklahoma. Petitioner proposes to re-enter the dry hole and to complete the Morrow-Chester Formation. Petitioner states that there are some 500 MMcf of reserves located in the Morrow-Chester Formation which may be obtained by such proposal.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7929]

TOLEDO EDISON CO.

Revised Tariff Sheets

MAY 28, 1974.

Take notice that The Toledo Edison Company (Toledo) on May 8, 1974, tendered for filing service agreements with the City of Bryan, Ohio, and the Village of Pemberville, Ohio, under Toledo's FPC Electric Tariff, Original Volume No. 1. Toledo states that the existing contracts (Rate Schedule FPC Nos. 7 and 17) with these two customers terminate on May 31, 1974, and that as of that date they will be served under Toledo's Tariff. An effective date of June 1, 1974, is requested.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 10, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12813 Filed 6-4-74;8:45 am]

[Docket No. E-8794]

TOLEDO EDISON CO.

Changes in Rates and Charges

MAY 28, 1974.

Take notice that The Toledo Edison Company (Toledo) on May 16, 1974, tendered for filing a proposed new Fuel Conservation Power Schedule, pursuant to the Commission's Notice and Order issued April 30, 1974, in New England Power Pool Participants, et al., Docket No. RM74-22, et al. Toledo states that service under the proposed rate schedule will be offered as soon as it becomes effective. The Company is not requesting any accelerated effective date since it has received no request for fuel conservation energy.

The proposed new rate schedule states that it is intended to provide a rate under which coal generated electric power would be available on an off-peak basis for transmission to other systems during periods of critical oil shortage. The Energy Charge is priced at out-of-pocket generation costs, with fuel priced on a replacement basis, plus ten percent. The Generation Usage Charge of 2.5 mills per KWH is derivable by proration from a supported, approved and widely used short term power rate of 45 cents per KW-week.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 7, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12807 Filed 6-4-74;8:45 am]

[Docket No. RP74-89]

TRUNKLINE GAS CO.

Proposed Changes in FPC Gas Tariff

MAY 28, 1974.

Take notice that Trunkline Gas Company (Trunkline) on May 15, 1974, tendered for filing proposed changes in its FPC Gas Tariff, Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by $63,940,397 based on the 12 month period ending January 31, 1974, as adjusted.

Changes in Trunkline's tariff, other than the increased rates being filed for, are as follows:

(1) A new format in which the commodity rate in each zone was split into its component parts defined as gas supply and capacity, respectively.

(2) Revisions of the Pipeline Service, Excess Service, General Service and Small General Service Rate Schedules requiring adjustments to the capacity component of the commodity rate at six months intervals to reflect the changes in Trunkline's gas deliveries above and below the base levels which have been established in the proposed rates.

(3) Section 19 of Trunkline's General Terms and Conditions is a proposed tariff provision authorizing Trunkline to adjust its rates upward or downward semiannually for changes in the level of advance payments included in Account 166. Section 19 is based on the tracking provision for advance payments which has been in effect since April 1972 pursuant to Article V of the Stipulation and Agreement dated February 8, 1972.

Trunkline states that this increase in rates is necessitated by additional new transportation and gas supply costs associated with the Stingray project, a revision in depreciation rates, increases in costs of senior capital and operating expenses and declining gas supply. Trunkline requests an effective date of July 1, 1974 for the proposed changes.

Copies of the filing were served upon the company's jurisdictional customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 6, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-8803]

VIRGINIA ELECTRIC AND POWER CO.

Notice of Supplement

MAY 29, 1974.

Take notice that on May 17, 1974 Virginia Electric and Power Company (VE&P) tendered for filing Supplement dated May 4, 1974 to its FPC Rate Schedule No. 87-18. VE&P states the said Supplement is between it and Virginia Electric Cooperative for connection of a new Delivery Point (Kings Dominion), located east of Route 688 near Doswell, in Hanover County, Virginia.

VE&P requests an effective date as that of the date of connection of facilities which it expects to occur sometime in July, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 14, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12815 Filed 6-4-74;8:45 am]

[Docket No. RP72-110]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Rate Change

MAY 30, 1974.

Take notice that Algonquin Gas Transmission Company (Algonquin Gas) on May 16, 1974, tendered for filing Substitute Eighth Revised Sheet No. 3-A to its FPC Gas Tariff, Original Volume No. 1.

This sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 22 of the General Terms and Conditions of its FPC Gas Tariff, Original Volume No. 1. The rate change, Algonquin Gas states, is being filed to reflect a decrease in purchased gas costs to be paid by Algonquin Gas to its supplier, Texas Eastern Transmission Corporation (Texas Eastern) effective May 1, 1974, as a result of a rate decrease issued by Texas Eastern on May 7, 1974.

The above-noted Texas Eastern filing reflects a reduction in Texas Eastern's base tariff rates and was filed under Commission Opinion Nos. 672 (issued November 1, 1973) and 672-A (issued January 15, 1974), disallowing inclusion of certain advance payments (Nova Scotia) in Texas Eastern's rate base. Accordingly, Algonquin Gas has filed, in place of its Eighth Revised Tariff Sheet No. 3-A filed on April 19, 1974, a substitute tariff sheet reflecting the above-noted Texas Eastern May 1, 1974 revision. The proposed effective date of the substitute tariff sheet is May 1, 1974, the effective date of Texas Eastern's rate decrease.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 5, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12895 Filed 6-4-74;8:45 am]

[Docket No. RP74-91-1]

CITY OF RIPLEY, MISSISSIPPI

Notice of Petition for Emergency Relief

MAY 31, 1974.

Take notice that on May 8, 1974, the City of Ripley, Mississippi (City), filed a petition for emergency relief pursuant to § 1.7 of the Commission's Rules of Practice and Procedure requesting, (1) waiver of a $40,710.00[1] penalty assessed by Tennessee Gas Pipeline Company, a Division of Tenneco (Tennessee) for violations of Tennessee's curtailment plan during the January-March, 1974, curtailment period; or (2) a reduction in the City's April-October, 1974, period entitlement by the amount of the overrun (i.e. 4071 Mcf) to offset the penalty imposed by Tennessee.

The gas the City purchases from Tennessee is used in a municipally owned natural gas transmission and distribution system serving the citizens of the City and its environs and the towns of Blue Mountain and Falkner, Mississippi, as well as residences and commercial establishments along the routes of the City's gas main.

The City states it had adequate notice of Tennessee's implementation of its curtailment plan and in order to comply with the plan's provisions the City installed a telemetry system which records the quantity of gas received from Tennessee. The City further states that due to a malfunction of the telemetry system in March, 1974, it overran its Curtailment Period Quantity Entitlement (CPQE) by 4,071 Mcf. City states, that Tennessee thereupon assessed a penalty of $40,710.00 for the overrun ($10.00 per Mcf) in accordance with its tariff provisions.

In support of its petition for emergency relief, the City states that payment of the penalty would create a severe economic depression in the City's economy; that the payment of the penalty would have to be passed on to the citizens, taxpayers, and consumers of the City, and that the negative economic effect of these citizens would be incalculable.

A shortened notice period in this proceeding may be in the public interest. Any person desiring to be heard or to make protest with reference to said petition should on or before June 10, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to this proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The petition is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12911 Filed 6-4-74;8:45 am]

---

[1] City's Petition for Emergency Relief stated the amount of the overrun penalty was $40,071.00. By letter of May 13, 1974, the City informed us the correct penalty figure is $40,710.00. We shall therefore, accept the corrected figure as part of the City's Petition for Emergency Relief.

V39-109 JUN 5 74 XUM

[Project No. 460]

CITY OF TACOMA

Notice of Issuance of Annual License

MAY 30, 1974.

The City of Tacoma, Licensee for Lake Cushman Project No. 460, located in Mason County, State of Washington, has been granted an extension of time until December 1, 1974, to file an application for a new license pursuant to section 15 of the Federal Power Act and Commission Regulations thereunder (sections 16.1–16.6).

The license for Project No. 460 was issued effective June 3, 1924, for a period ending June 3, 1974, therefore in order to authorize the continued operation of the project, pursuant to Section 15 of the Act pending filing and completion of Licensee's application and Commission action thereon, it is appropriate and in the public interest to issue an annual license to the City of Tacoma for the continued operation and maintenance of Lake Cushman Project No. 460.

Take notice that an annual license is issued to the City of Tacoma (Licensee) for the period June 4, 1974, to June 3, 1975, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of Project No. 460 subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12887 Filed 6-4-74;8:45 am]

[Project No. 2739]

CITY OF VANCEBURG, ET AL.

Notice of Application for Approval of a Preliminary Permit for Unconstructed Project

MAY 30, 1974.

Public notice is hereby given that application for preliminary permit has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by City of Vanceburg, Kentucky and Vanceburg Light, Heat and Power System (Correspondence to: Philip P. Ardery, Brown, Todd & Heyburn, Sixteenth Floor, Citizens Plaza, Louisville, Kentucky 40202) for proposed Project No. 2739, known as the Meldahl Project, which is located on the Ohio River on the Kentucky side of the Captain Anthony Meldahl Locks and Dam in the Commonwealth of Kentucky, County of Bracken some 436.2 river miles below Pittsburgh, Pennsylvania, and approximately 1.7 river miles downstream from the town of Chilo, Ohio. The proposed project would also be located near the towns of Maysville and Newport, Kentucky, and New Richmond, Ripley, and Cincinnati, Ohio.

The proposed run of the river project would affect approximately 81.4 acres of U.S. land which are under the supervision of the U.S. Corps of Engineers and would utilize water from a government dam. The hydroelectric facilities for this project would consist of a powerhouse containing low-head generating units with a proposed capacity of 70,000 kw.

Vanceburg plans to use the power generated at the project to meet its load requirements and to sell any excess energy to East Kentucky Rural Electric Cooperative Corporation. Vanceburg, through its transmission facilities, plans to be interconnected with the East Kentucky System.

Any person desiring to be heard or to make protest with reference to said application should on or before July 29, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12890 Filed 6-4-74;8:45 am]

[Dockets Nos. CP74-292 and CP74-293]

Notice of Applications

INTERSTATE TRANSMISSION ASSOCIATES (ARCTIC) ET AL.

MAY 30, 1974.

Take notice that on May 14, 1974, Interstate Transmission Associates (Arctic) (ITAA), Pacific Interstate Transmission Company (PacIn), 720 West Eighth Street, Los Angeles, California 90017, and Northwest Energy Company (Energy), 315 East Second South, Salt Lake City, Utah 84111, [hereinafter collectively referred to as "Applicant"] [1] filed in Docket No. CP74-292 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities to transport natural gas in interstate commerce from a point near Kingsgate, British Columbia, through the states of Idaho, Washington, Oregon, and Nevada to the Nevada-California border all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Take further notice that, in conjunction with the above proposal, Applicant filed in Docket No. CP74-293 an application pursuant to Executive Order No. 10485 for a permit to construct, operate, maintain and connect a 42-inch O.D. pipeline approximately 2.6 miles in length, extending from a point of connection with the facilities of Canadian Arctic Gas Pipeline Limited (Canadian Arctic) at the international boundary near Kingsgate to a point of connection with a meter station, also to be constructed under such permit, which meter station is to consist of measuring equipment, instrumentation, meter buildings and other appurtenances all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant proposes in Docket No. CP74-292 to construct and operate, as a contract carrier of natural gas, a 42-inch pipeline approximately 373 miles in length from a point near Kingsgate through Idaho and Washington to Rye Valley, Oregon,[2] and a 36-inch pipeline approximately 504 miles in length from Rye Valley to a point on the California-Nevada border near Oasis, California. Applicant further proposes to construct and operate a total of 249,350 standard installed horsepower to be located at eleven compressor stations along the pipeline, four meter stations, and other appurtenant facilities. Applicant requests authority to transport up to a maximum design capacity of 1,900,000 Mcf of natural gas per day at 14.73 psia for PacIn's account through these proposed facilities.

Applicant states that the instant applications are part of an overall project designed to make available to markets in the lower 48 states volumes of natural gas from Northern Alaska and the Mackenzie Delta region of northern Canada. Natural gas produced in the Prudhoe Bay area of the North Slope of Alaska will be transported across Alaska through a natural gas transmission system proposed to be constructed by Alaskan Arctic Gas Pipeline Company (Alaskan Arctic) in Docket No. CP74-239. Alaskan Arctic will deliver such natural gas at the Alaskan-Canadian international boundary to Canadian Arctic at a point of interconnection with the facilities proposed to be constructed by Canadian Arctic, including facilities to connect the Mackenzie Delta reserves. Canadian Arctic will transport the gas in a southeasterly direction through Canada, continuing to a point near Caroline, Alberta. At this point, the pipeline will split with one line delivering the gas destined for mid-western and eastern regions of the United States to a delivery point on the international boundary near Monchy, Saskatchewan. The other line, which will transport gas destined for the western and Rocky Mountain markets of the United States, will extend to a delivery point near Kingsgate.

---

[1] PacIn, a wholly-owned subsidiary of Pacific Lighting Corporation (PacLight), is a corporation organized and existing under the laws of the State of California. Energy, a wholly-owned subsidiary of Northwest Pipeline Corporation (Northwest), is a corporation organized and existing under the laws of the State of Delaware, with its principal place of business in Salt Lake City. PacIn and Energy intend to form ITAA as a general partnership to be organized under the laws of Utah, with the possibility of using a corporate form of organization either initially or at a subsequent time. Upon formation of ITAA, PacIn and Energy will withdraw as Applicants in the instant proceedings, leaving ITAA as the sole Applicant.

[2] Interstate Transmission Associates (ITA), a general partnership owned by PacIn and Energy, filed in Docket No. CP74-216, on February 26, 1974, an application for authority to construct, *inter alia*, a 26-inch pipeline which will parallel the 42-inch pipeline under consideration in the instant application. Applicant states that it is possible that ITAA will acquire the facilities of ITA subsequent to certification in Docket No. CP74-216 and size the first 373 miles of its pipeline so that the combination of the 26-inch and the new pipeline would have approximately the same capacity as the single pipeline proposed by ITAA in the instant application. In this way there would be no duplication of facilities, according to Applicant. The facilities proposed in Docket No. CP74-216 are to be constructed to transport gas produced in Alberta by Pan-Alberta Gas, Ltd.

The gas destined for the mid-western and eastern market areas will be delivered by Canadian Arctic into the facilities proposed to be constructed by the Northern Border Pipeline Company (Northern Border) in Docket No. CP74-290 at a point of interconnection between the facilities of Canadian Arctic and Northern Border near Monchy. Northern Border will transport and deliver such volumes to various pipeline companies serving the mid-western and eastern market areas.

The gas destined for the western markets served by ITAA will be transported by Canadian Arctic to an interconnecting point near Kingsgate, frim which Applicant will transport its share of the volumes to its markets. The gas destined for markets served by Pacific Gas Transmission Company (PacGas) will be delivered to Alberta Natural Gas Company Ltd. (Alberta Gas) by Canadian Arctic at the Alberta-British Columbia border then further transported to PacGas at Kingsgate for ultimate transportation and delivery to markets in northern and central California, as more fully explained in the application in Docket No. CP74-242.

Applicant expects initially to deliver approximately 20 percent of such volumes as are received from Candian Arctic for the account of PacIn into the facilities of Northwest in the vicinity of Rye Valley and to deliver approximately 80 percent of such volumes to Southern California Gas Company (SoCal) at the Nevada-California border near Oasis.

Applicant states that initially the proposed facilities will have a daily capacity of 558,000 Mcf of natural gas, but that such facilities through the addition of compressor horsepower may be increased to the ultimate design capacity of 1,900,000 Mcf of gas per day, as described *supra*. The timing of the construction of facilities neecssary to increase the system capacity, according to Applicant, will depend upon the contractual commitments between shippers and producers as well as the deliverability of the committed gas reserves. Applicant intends to present the detailed timing of facilities and the resulting economic impact as part of supplemental exhibits to be filed later. Applicant therefore, requests, pursuant to Sections 1.7 and 1.14 of the Commission's Rules of Practice and Procedure (18 CFR 1.7 and 1.14), that the Commission waive the requirements to file Exhibits I, K, L, N, O and P to the application in Docket No. CP74-292 and proposes to file the balance of the required exhibits in support of this proposed project at the earliest possible date.

Applicant states the following applications are interdependent with Applicant's filing and are necessary to effectuate Applicant's proposal herein:

APPLICATIONS PRESENTLY ON FILE

(1) Applications of Alaskan Arctic in Docket Nos. CP74-239 and CP74-240 pursuant to Section 7(c) of the Natural Gas Act and Executive Order No. 10485, respectively, for permission to construct and operate a pipeline from the Prudhoe Bay area on the North Slope of Alaska to the Alaskan-Yukon international boundary where it will interconnect with the pipeline of Canadian Arctic and for permission to construct, operate, maintain and connect facilities at the Alaskan-Yukon international boundary.

(2) Application of Canadian Arctic before the National Energy Board of Canada for authority to construct and operate the Canadian Arctic system.

APPLICATIONS TO BE FILED

(1) Applications of various shippers before the Federal Power Commission and the National Energy Board to export and import natural gas between the United States and Canada.

(2) Applications of various producers of Alaskan gas for certificates to sell gas in interstate commerce pursuant to section 7(c) of the Natural Gas Act.

(3) Application of PacIn pursuant to section 7(c) of the Natural Gas Act for authorization to sell natural gas in interstate commerce.

(4) Application, if necessary, of Northwest to construct and operate facilities on its transmission system in order to accept and redeliver gas received from PacIn pursuant to this project.

(5) Application of SoCal before the California Public Utilities Commission for authority to construct and operate facilities in order to transport gas to be delivered to it by Applicant at the Nevada-California border.

Applicant states that it has not yet entered into contracts for the construction of, or for any of the materials requisite to the construction of the proposed facilities. Applicant further states that Northwest will act as operator of the proposed facilities, pursuant to an operating agreement, not yet executed, between Applicant and Northwest.

Any person desiring to be heard or to make any protest with reference to said applications should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on the application in Docket No. CP74-292 if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8587]

PUBLIC SERVICE COMPANY OF INDIANA

Order Denying Applications for Rehearing and Denying Motion To Dismiss

MAY 30, 1974.

On April 4, 1974, the Cities of Crawfordsville, Logansport, Peru, and Washington, Indiana (Cities), and the City of Frankfort, Indiana (Frankfort), tendered for filing Applications for Rehearing of the Commission's Suspension Order issued March 7, 1974, in the above referenced docket. The Cities also tendered for filing a Motion to Dismiss the Section 206 investigation instituted by that order. On April 23, 1974, the Public Service Company of Indiana (PSCI) filed an answer to the Motion to Dismiss.

Our order of March 7, 1974, concluded that the Cities' Interconnection Agreements (Agreements) with PSCI were fixed rate, fixed term contracts, and accordingly, we instituted an investigation pursuant to Section 206 of the Federal Power Act to determine whether PSCI's proposed rates were in the public interest. In regard to Frankfort's Interconnection Agreement (Agreement), however, we concluded that the Agreement contained a proper *Memphis*[1] clause in Article 12 which would permit such a unilateral filing with the Commission. As a result, the proposed rates for Frankfort were accepted for filing, suspended for the full statutory period, and set for

---

[1] *United Gas Pipe Line Company v. Memphis Light, Gas and Water Division*, 358 U.S. 103 (1958).

V 39 109 JUN 5 74 XUM

hearing pursuant to section 205 of the Federal Power Act.

Cities, in their application, raise the following allegations: (1) the Commission instituted the section 206 investigation based solely on PSCI's unsupported allegation that failure to apply the rate increase to the Cities would result in undue discrimination vis a vis other wholesale customers; (2) there were not sufficient facts available concerning the profitability of the contracts between PSCI and the Cities to justify our determination that a section 206 investigation is necessary; (3) the Commission failed to examine every facet of PSCI's operations to determine if an undue discriminatory burden on other PSCI customers would result; (4) the lack of specificity in the March 7, 1974, order shifted to the Cities the burden of proving that the rates currently in effect are profitable; and (5) the Commission did not articulate the specific issues which will be the subject of the section 206 investigation.

Although the Supreme Court has indicated that the fixed rate contract can only be unilaterally changed pursuant to a section 206 investigation,[2] at no point has the Court articulated any restrictions on our authority to institute such an investigation. As the Court emphasized in the *Mobile* decision, contracts remain fully subject to the paramount power of the Commission to modify them when necessary in the public interest.[3] In its answer to the Cities' petition to intervene filed with the Commission on February 19, 1974, PSCI alleges that its rate of return from firm power sales to the five municipalities with generation was 2.57 percent for the twelve months ended June 30, 1973, and that sufficient information is available to determine whether the proposed rates are not in the public interest. Further, the fact that Cities' are served under fixed rate, fixed term contracts while Frankfort is subject to the change in rates proposed by PSCI (immediately following the suspension period) may indicate undue rate discrimination among these customers. We believe that there is before us at least a prima facie case requiring further investigation in an evidentiary hearing. We conclude that a section 206 investigation is necessary to determine whether a sufficient showing can be made so as to satisfy the test enunciated by the Supreme Court in the *Sierra* case, supra. With regard to the question of the burden of proof, our order of March 7, 1974, did not shift the burden of proof to the Cities.

Frankfort's petition alleges that we misinterpreted the provisions of its contract with PSCI. Article 12 of its Agreement with PSCI reads as follows:

> This Agreement is made subject to the jurisdiction of any governmental authority or authorities having jurisdiction in the premises. The terms and conditions of this Agreement, and the provisions of the rates attached hereto and made a part hereof, may be changed by the Company from time to time by filing such change(s) with the Federal Power Commission and upon receipt of such Commission's acceptance for filing will supersede and cancel the present terms and conditions of this Agreement and such rate provisions.

It is Frankfort's contention that, despite the above provisions, Article 2, sections 2.2 and 2.3 and Article 11 of the Agreement require a binding mutual agreement before any amendment to the contract can be effected. The relevant portion of Section 2.2 reads as follows:

> Inasmuch as the specific services to be rendered in furtherance of such purpose will vary from time to time during the duration of this Agreement, and the terms and conditions applicable to such services may require modification from time to time, it is intended that such specific services and the terms and conditions applicable thereto will be set forth in service schedules mutually agreed upon between the parties. Subject to the provisions of Article 12 hereof, such service schedules, until and unless changed by such mutual agreement, shall be those provided by section 2.3 hereof.

Frankfort's argument assumes that Article 12 is merely an implementing provision for Articles 2 and 11.

Our interpretation of the Agreement is that Article 12 provides PSCI with an alternate means of revising the Agreement through the machinery of the regulatory process. To interpret Articles 2 and 11 as a precondition to Article 12 would eliminate any need for Article 12. Our interpretation of Frankfort's contract is strengthened by comparing it with the provisions found in the Cities' fixed term, fixed rate contracts. Frankfort's Agreement is the most recent of the Agreements at issue in this proceeding, and it is identical to the other contract except for the addition of the language in Section 2.2 subjecting that section to the provisions of Article 12 and a substantial revision of the language of Article 12 itself. In contrast to Article 12 in Frankfort's contract, the Article 12 in the Cities' Agreements read as follows:

> "This Agreement is made subject to the jurisdiction of any governmental authority or authorities having jurisdiction to the premises."

The language of this article evidences no *Memphis* intent and, in fact, seems to have the kind of implementing function that Frankfort would have us assign to the Article 12 in its contract.

The applications for reconsideration of the Cities and Frankfort and Cities' motion to dismiss raise no facts or points of law which would provide an appropriate basis for modification of the Commission's Order of March 7, 1974.

The Commission finds:

The applications for reconsideration of the Cities and Frankfort and Cities' motion to dismiss raise no facts or points of law which would provide an appropriate basis for modification of the Commission's Order of March 7, 1974.

The Commission orders:

(A) The applications for reconsideration of the Cities and Frankfort, filed on April 4, 1974, are denied.

(B) The Cities' motion to dismiss the section 206 investigation, filed on April 4, 1974, is denied.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-89]

SEA ROBIN PIPELINE CO.

Notice of Filing of Revised Tariff Sheet

MAY 29, 1974.

Take notice that on May 16, 1974, Sea Robin Pipeline Company tendered for filing Third Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1 to affect a purchased gas adjustment to its rates. The tariff sheet has a proposed effective date of July 1, 1974, and is in purported compliance with the provisions of Order Nos. 452, 452-A and 452-B.

Sea Robin states that copies of the revised tariff sheet and supporting data are being mailed to Sea Robin's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 17, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8176]

SOUTHERN CALIFORNIA EDISON

Notice of Extension of Time

MAY 29, 1974.

On May 23, 1974, Southern California Edison Company filed a motion for an extension of time to serve its rebuttal evidence as required by notice issued March 29, 1974, in the above-designated matter. The motion states that neither Staff Counsel nor Interveners object to the requested extension.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

[Docket No. CP73-154]

SOUTHERN NATURAL GAS CO.

Notice of Withdrawal of Application in Part

MAY 30, 1974.

By amendment filed April 1, 1974, to its application in Docket No. CP73-154 for a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act, Southern Natural Gas Company has withdrawn that part of the application designated as Phase II, in which authorization is sought for a synthetic natural gas or maximum utilization plant, and so much of that part of the application designated as Phase I as is concerned with the addition of compression facilities at the existsing Selma Compressor Station. No hearing has been held or convened on the subject application.

Therefore, take notice that pursuant to Section 1.11 of the Commission's Rules of Practice and Procedure, 18 CFR 1.11, the withdrawal of the application in part shall be effective May 1, 1974.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12894 Filed 6-4-74;8:45 am]

[Docket No. CP74-287]

TRANSWESTERN PIPELINE CO.

Notice of Application

MAY 30, 1974.

Take notice that on May 13, 1974, Transwestern Pipeline Company (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP74-287 an application pursuant to section 7 (b) and (c) of the Natural Gas Act and § 157.7 (g) of the Regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval of the abandonment, for the 12-month period commencing July 1, 1974, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system saleable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment will not exceed $3,000,000, nor will the cost of any single project exceed $500,000. Applicant states that the proposed facilities will be initially financed from funds made available from company operations and may at some later date be financed through issuance of long-term debt or additional equity.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 18, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-12884 Filed 6-4-74;8:45 am]

[Project No. 1889]

WESTERN MASSACHUSETTS ELECTRIC CO.

Notice of Supplement to Pending Application

MAY 30, 1974.

Public notice is hereby given that a supplement to an existing application for new major license was filed March 25, 1974 under the Federal Power Act (16 U.S.C. 791a-825r) by Western Massachusetts Electric Company (correspondence to: Mr. Robert E. Barrett, Jr., President, Western Massachusetts Electric Company, 174 Brush Hill Avenue, West Springfield, Massachusetts 01089) for the pending Exhibit S for the constructed Turners Falls Project No. 1889, located on the Connecticut River, in the Towns of Erving, Gill, Greenfield, Montague and Northfield, Massachusetts and in the vicinity of Town of Hinsdale, New Hampshire and the town of Vernon, Vermont.

The supplement presents four Exhibit S drawings which propose a design for fish passage facilities at Cabot powerhouse, at the spillway of the Turners Falls dam, and at the Gatehouse at the dam which controls the discharge of impounded project water into the power canal extending to Cabot powerhouse. The purpose of these facilities is to allow anadromous fish arriving at the tailrace of Cabot powerhouse or at the base of Turners Falls dam of Project No. 1889 to reach the project reservoir formed by Turners Falls dam across the Connecticut River.

Any person desiring to be heard or to make protest with reference to said application should on or before July 20. 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8157]

WISCONSIN PUBLIC SERVICE CORP.

Notice of Filing of Rate Schedules

MAY 29, 1974.

Take notice that on May 20, 1974, Wisconsin Public Service Corporation (WPSC) tendered for filing 6th Revised Sheet No. 1, Schedule W-1, which reflects certain revisions in its rate schedule for Primary Resale Service. This filing was made pursuant to the Commission's Order Approving Rate Settlement in Docket No. E-8157 (issued April 30, 1974). The Company states that copies of the filing have been mailed to the customers affected and to the appropriate state commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 7, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

V 39 109 JUN 5 74 XUM

[Docket No. E-8798]

WESTERN MASSACHUSETTS ELECTRIC CO.

Notice of Rate Schedule Changes

MAY 30, 1974.

Take notice that Western Massachusetts Electric Company (WMECO) on May 16, 1974, tendered for filing proposed changes in its rate schedules designated FPC Nos. 22, 24, 25, 33, 45 and 67. The proposed changes would, effective June 15, 1974, increase revenues from jurisdictional sales and service by $686,000 based on the 12 month period ending December 31, 1974. In addition, WMECO proposes to make modifications in its fuel adjustment clause formula and, with respect to certain of its wholesale customers, to adopt a demand energy charge rate form and reactive power and late payment charges.

The increased rates are proposed in order to provide WMECO with increased revenues in order to permit it to earn a higher return upon its property devoted to service of its wholesale customers. WMECO cites, *inter alia*, increased taxes, high interest rates and rising labor and material costs in support of this rate increase.

Copies of the filing were served upon WMECO's jurisdictional customers and the Commonwealth of Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 6, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

GENERAL SERVICES ADMINISTRATION

COMMISSION ON GOVERNMENT PROCUREMENT RECOMMENDATIONS

Executive Branch Position

Notice is given that an executive branch position has been reached on the following Commission on Government Procurement (COGP) recommendations:

I. *Recommendation I-1.* "Implement the revised Presidential Statement of Government Patent Policy promptly and uniformly."

Executive Branch Position. The recommendation has been adopted. Implementation has been accomplished by: (1) the promulgation of GSA licensing regulations in Federal Property Management Regulations (FPMR) 101-4.1 for Government owned inventions; (2) Part 1-9 of the Federal Procurement Regulations (FPR) establishing uniform contract clauses and procedures for patent rights applicable to civilian agencies; and (3) a revision to the Armed Services Procurement Regulation (ASPR), Section 9. The Federal Council for Science and Technology will be assigned responsibility to consider amending or repealing certain legislation to allow for total Government-wide implementation of the Presidential Statement of Government Patent Policy.

II. *Recommendation I-14, 15, and 16. Recommendation I-14.* "Amend or repeal statutes limiting agency flexibility in dealing with the publication of works developed under Government contracts."

Recommendation I-15. "Enact legislation giving all agencies authority to acquire private copyrights or interests therein."

Recommendation I-16. "Establish an interagency task force under the lead of the Office of Federal Procurement Policy to develop and evaluate the implementation of a statement of Government copyright policy."

Executive Branch Position. The recommendations have been adopted. The Federal Council for Science and Technology will be assigned responsibility to lead an interagency task force and develop a statement of Government copyright policy in implementation of Recommendation I-16. The Council will also, during this study, consider appropriate implementation of Recommendations I-14 and I-15.

Dated at Washington, DC, on May 22, 1974.

R. E. ZECHMAN,
Acting Associate Administrator for Federal Management Policy.

[FR Doc.74-12854 Filed 6-4-74;8:45 am]

COMMISSION ON GOVERNMENT PROCUREMENT RECOMMENDATIONS

Implementation

In accordance with our policy to announce implementations or pending implementations of Commission on Government Procurement (COGP) recommendations, the following notice is given:

I. *Recommendation A-36.* "Enact legislation to authorize negotiated sale of surplus elephantine tools (such as heavy machine tools) and of equipment which is 'excess to Government ownership but not to Government requirements,' with adequate protection to the Government for its future needs when competition is not feasible. While the lack of such authority now appears to be a problem only for the Department of Defense, to provide for future contingencies the legislation should cover all agencies."

Executive Branch Position. This recommendation has been accepted and it is expected that implementation will be effected through appropriate legislation. (H.R. 611 and S. 2152)

II. *Recommendation B-12.* "When a potential organizational conflict of interest exists and use of a hardware exclusion clause is proposed, require a senior official of the procurement agency to examine the circumstances for benefits and detriments to both the Government and potential contracts, and reach and justify his decision to contract with either no restraint, partial restraint, or strict hardware exclusion provisions."

Executive Branch Position. This recommendation has been accepted. Implementation will be effected by appropriate regulatory issuances in the Federal Procurement Regulations (FPR) and the Armed Services Procurement Regulation (ASPR). Executive branch coordination and private sector comments will be sought.

III. *Recommendation D-5.* "Encourage agencies to use headquarters procurement staff personnel in the conduct of on-the-job training of field procurement personnel to (a) implement techniques adopted to specific field activity needs, and (b) identify possibilities for procurement innovation and transfusion."

Executive Branch Position. This recommendation has been adopted. The recommendation will be implemented by the media of a Federal Management Notice which will soon be issued by GSA. The provisions of the Notice will apply to all executive departments and establishments having decentralized purchasing activities.

IV. *Recommendation D-19.* "Review transportation procurement techniques to determine whether more innovative procurement methods are warranted when alternative sources and modes are available."

Executive Branch Position. This recommendation has been adopted. It is being implemented through the ongoing efforts to implement the recommendations of the Joint Agency Transportation Study and by a continuing examination of procurement techniques relative to obtaining competition among alternative sources and modes of transportation services.

V. *Recommendation G-18.* "Improve contracting agency debriefing procedures."

Executive Branch Position. This recommendation has been accepted: Implementation will be effected by appropriate regulatory issuances in the Federal Procurement Regulations (FPR) in conjunction with issuances in the Armed Services Procurement Regulation (ASPR). Executive branch coordination and private sector comments will be sought.

Dated at Washington, DC, on May 30, 1974.

R. E. ZECHMAN,
Acting Associate Administrator for Federal Management Policy.

[FR Doc.74-12855 Filed 6-4-74;8:45 am]

[Federal Procurement Regs.; Temporary Reg. 27, Supplement 6]

NEGOTIATED NONDEFENSE CONTRACTS

Certain Accounting Provisions

Subject. Revision of regulations pursuant to Public Law 91-379, as implemented by the Cost Accounting Standards Board

1. *Purpose.* This regulation provides that the standards of the Cost Accounting Standards Board (CASB) on Accounting for Unallowable Costs and on the Cost Accounting Period are applicable to negotiated nondefense contracts under the provisions of FPR Temporary Regulation 27.

2. *Effective date.* This regulation is effective May 24, 1974, for CASB standard 405 and July 1, 1974, for CASB standard 406 for negotiated nondefense contracts. The standards are effective on April 1, and July 1, 1974, respectively, for negotiated defense contracts as provided in CASB regulations.

3. *Expiration date.* This regulation will continue in effect until canceled.

4. *Background.* (a) FPR Temporary Regulation 27, including Supplements 1, 2, 3, 4, and 5, implements the CASB standards and regulations with respect to negotiated defense contracts. The application of the Board's rules, subject to certain exemptions, has been extended to negotiated nondefense contracts in the interest of Governmentwide uniformity of procurement policies and procedures. FPR Temporary Regulation 27 provides that CASB standards are operative for defense contracts as the standards become effective. However, individual implementation of new standards is required with respect to nondefense contracts. The CASB now has promulgated standards on Accounting for Unallowable Costs (4 CFR 405, 38 FR 24195, September 6, 1973) and the Cost Accounting Period (4 CFR 406, 38 FR 30730, November 7, 1973).

(b) The effective date of Part 405, Accounting for Unallowable Costs, was April 1, 1974, as specified in 38 FR 31813, November 19, 1973. The effective date of Part 406, Cost Accounting Period, will be July 1, 1974, as specified in 39 FR 10115, March 18, 1974.

5. *Agency action.* Agencies entering into negotiated nondefense contracts which are subject to CASB standards and regulations, by reason of the requirements of FPR Temporary Regulation 27, shall require the contractors and subcontractors under such contracts to comply with the CASB standards on Accounting for Unallowable Costs and on the Cost Accounting Period which have been prescribed by the CASB in accordance with the terms of those standards. As indicated in paragraph 4 above, the referenced standards are also applicable to negotiated defense contracts.

ARTHUR F. SAMPSON,
Administrator of General Services.

MAY 24, 1974.

[FR Doc.74-12853 Filed 6-4-74;8:45 am]

OFFICE OF THE FEDERAL REGISTER

STANDARDIZATION OF INDEXING TERMS

Extension of Time for Filing Comments

The purpose of this notice is to extend the time for filing comments in response to the Office of the Federal Register's notice published at 39 FR 14548, April 24, 1974 and republished at 39 FR 14773, April 26, 1974.

Interest in the development of a thesaurus of indexing terms for publications of the Office of the Federal Register has been so great that the Office of the Federal Register has determined that an extension of the comment period is warranted.

The original date of June 1, 1974 is therefore extended to June 28, 1974. Comments should be sent to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

Dated: June 4, 1974.

FRED J. EMERY,
Director of the Federal Register.

NATIONAL ENDOWMENT FOR THE ARTS

ARCHITECTURE AND ENVIRONMENTAL ARTS PROGRAM

Guidelines, Fiscal Year 1975; Correction

The application deadline for Professional Education and Development grants made under the Architecture and Environmental Arts Program of the National Endowment for the Arts was erroneously given in the May 13, 1974 issue of the Federal Register. The actual deadline is January 6, 1975. Interested persons should contact Bill N. Lacy, Director, Architecture and Environmental Arts Program, National Endowment for the Arts, Washington, D.C. 20506, (202) 382-6657 for guidelines and application forms.

Signed at Washington, D.C. on 24 May 1974.

Fannie Taylor,
Director,
Program Information.

[FR Doc.74-12788 Filed 6-4-74;8:45 am]

MUSIC PROGRAM

Guidelines for Grants to Symphony Orchestras, Fiscal Year 1976

The following are guidelines for grants made to Orchestras under the Music Program of the National Endowment for the Arts, an independent agency of the Federal government which makes grants to organizations and individuals concerned with the arts throughout the United States.

Notice is hereby given that the deadline for this program is December 1, 1974. Interested persons should contact Walter Anderson, Director, Music Program, National Endowment for the Arts, Washington, D.C. 20506, (202) 382-5755 for further information and application forms. Only the Music Program office may distribute application forms.

Signed at Washington, D.C., on May 24, 1974.

Fannie Taylor,
Director, Program Information.

General Information

The National Endowment for the Arts plans to continue its program of assistance to symphony orchestras in Fiscal Year 1976 (July 1, 1975–June 30, 1976). Although total resources available for this program may not be known before the fall of 1975, applications are being requested in time for the symphony orchestras to plan in advance.

DEADLINE

Applications must be postmarked no later than December 1, 1974.

The deadline will be adhered to strictly. Applications postmarked later than December 1, 1974 will not be considered under the Fiscal Year 1976 Orchestra Program.

Applications for orchestras meeting the eligibility criteria as set forth on page 2 may be obtained from the Music Program, National Endowment for the Arts, Washington, D.C. 20506. Project Grant Application Forms No. NEA-3/Rev. should be requested.

The completed application forms in triplicate, and all accompanying material, in duplicate, should be returned to the Grants Office, National Endowment for the Arts, Washington, D.C. 20506.

GENERAL PURPOSE

The purpose of this program in support of symphony orchestras is to:

(1) Encourage and strengthen the performances of symphony orchestras in all sections of the country and to improve the level of artistic quality and management;

(2) Broaden the repertory to include works of various historical periods, with particular emphasis on works by American composers;

(3) Provide sustained professional opportunities for American artists;

(4) Encourage more flexible service of symphony orchestras to the larger community through the use of smaller performing units.

BICENTENNIAL

The Endowment recognizes that the arts will play an important role in the next few years in the celebration of our country's bicentennial. The Endowment welcomes this involvement on the part of artists and cultural organizations. The Endowment has an active interest in participating in these efforts, within the funds available to it, and insofar as they are directed to professional creation and presentation of new works, improvement of artistic standards, preservation of our cultural heritage, and increasing the availability of the arts for all Americans. If funds under these guidelines are sought for the projects deemed by the applicant to be related to the bicentennial, a brief description of this relationship should be made in the application.

While most music projects in support of the nation's bicentennial will fall into one of of the regular music categories, it is possible that projects may be developed which do not readily meet the regular program guidelines. If funding levels permit, an additional grant may be considered for support of a special bicentennial project. Such grants are not expected to be awarded to all organizations meeting eligibility criteria, but will be reserved for imaginative and significant activities. It is anticipated that these grants will be on a highly competitive basis to a limited number of organizations. Further information will be forwarded concerning applications if the program is initiated.

ELIGIBILITY

By statute the National Endowment for the Arts is limited to the support of organizations which meet the following criteria:

(1) *Only* those organizations in which no part of net earnings inures to the benefit of a private stockholder or individual and to which donations are allowable as a charitable contribution under Section 170(c) of the Internal Revenue Code of 1954, as amended. *Copy of Internal Revenue Service determination letter of tax-exempt status must be submitted with each application.*

(2) *Only* those organizations which compensate at the equivalent of the prevailing minimum compensation level or on the basis of negotiated agreements which would satisfy the requirements of Parts 3, 5, and 505 of Title 29 of the Code of Federal Regulations for the duration of any project supported in whole or in part by the National Endowment for the Arts.

(3) *Only* those organizations which meet the requirements of Title VI of the Civil Rights Act of 1964 for the duration of any project supported in whole or in part by the National Endowment for the Arts.

Assistance, further, will be limited to professional orchestras which have maintained an annual operating budget in excess of $100,000 for a minimum of three seasons and:

(1) Which have national or regional impact while demonstrating high standards of performance and administration;

Or

(2) Which serve unique needs due to geographical location or other special conditions and demonstrate high standards of performance and administration.

GRANT PERIOD

The proposed period of grant support should not begin prior to September 1, 1975. In some instances the Endowment will accept applications for projects taking place in the summer of 1975. Generally, the projected grant period may not extend beyond a one-year period.

NOTICE OF APPROVAL OR REJECTION

Notice of approval or rejection will be sent as the Chairman authorizes in the summer or early fall of 1975. Applicants are requested not to seek information on the status of their applications prior to notification. Funding levels will not be confirmed until Congressional appropriations are known.

GRANT AMOUNTS

Grants to symphony orchestras will be considered in amounts within the following budget ranges:

Budgets in excess of $1,000,000. Orchestras with annual budgets in excess of $1,000,000 during the 1973–1974 season may request assistance of up to $150,000 *in federal funds.*

Applicants in this category should request assistance through a combination of Program Funds and Treasury Funds with no more than $100,000 through the Program Fund. Please refer to: Methods of Funding, Option 3, page 6.

In many instances grants will be for lesser amounts; therefore, orchestras are urged to limit any requests for increased support above previous funding to moderate increments.

Budgets of $500,000 to $1,000,000. Orchestras with expenditures in the 1973–1974 season within this range will be considered for grants in varying amounts, up to a maximum of $50,000 *in federal funds.*

In most instances grants will be for lesser amounts; therefore, orchestras are urged to limit any requests for increased support above previous funding to moderate increments.

Budgets of $100,000 to $500,000. Orchestras with expenditures in the 1973–1974 season within this range will be considered for grants in varying amounts up to $35,000 *in federal funds.*

In most instances grants will be for lesser amounts; therefore, orchestras are urged to limit any requests for increased support above previous funding to moderate increments.

Orchestras not previously receiving assistance, and which are now eligible, are asked to request only moderate amounts, that is, amounts within the scope of realistic fiscal planning.

Note to All Applicants. Grants in each category will not be considered in amounts:

(1) **Exceeding the limits set forth under Grant Amounts.**

(2) Exceeding 50% of the total cost of the project(s).

For clarification of assistance available through the Program Funds, the Treasury Fund and the Combined Program Funds and Treasury Fund Method, see "Methods of Funding," page 6.

PROJECT EXAMPLES

Although the Endowment welcomes the vitality of new programs and, under all conditions, encourages applicants to develop *new* sources of funds, applications first and foremost should represent the genuine needs of the applicant organizations. Accordingly, *orchestras may request assistance to strength existing programs.* Also assistance may me requested to support the same project for more than one year. In no instance however, should organizations attempt to extend their programs beyond their capacity to accommodate and sustain the level of proposed expansion into future seasons.

The following are examples of projects that are eligible for assistance. The National Council on the Arts has recommended that the Endowment extend first priority to applications which would provide assistance and recognition to American artists.

(1) Programs by full orchestra or smaller ensembles from the orchestras designed to present works by contemporary composers, especially living American composers.

(2) Programs designed to present gifted young American artists as soloists with the orchestra or smaller ensembles.

(3) Programs designed to reach larger and more diversified audiences than those usually served by the subscription series; e.g., improved services to local communities, such as schools, inner-city areas, parks, neighborhoods, churches, industries, et cetera.

(4) Collaboration with and/or sponsorship of programs with other established performing organizations, such as dance companies, opera companies, resident professional theatre companies and experimental groups through use of the orchestra or smaller ensembles.

(5) Projects to improve the quality of performance, including increased rehearsal time and improved artistic direction and management.

(6) Flexible use of orchestral personnel in smaller ensembles and solo performances.

(7) Experimental programming with commercial and educational public media through radio, television, film, and new technological developments. Project proposals in this area should include:

A full description of the proposed program(s).
Letters of interest from the stations involved.
Resumes and a sample of previous work of key artistic personnel: director, producer, filmmaker, et cetera.

(8) Exploration of new ways to improve earned and contributed income, including development programs staffed by professional development personnel and new methods of promotion to increase audiences and improve ticket sales.

(9) Professional apprentice programs in performance and/or management.

(10) Regional touring programs, particularly to areas where instrumental performances of quality normally are not possible.

(11) Special series of concerts in cooperation with unions, schools, teacher organizations, college groups, etcetera. Project proposals in this area should include:

Full description of the proposed project to include the planning stage, program implementation and evaluation.
Letters of interest from the organizations involved.

(12) Extended seasons. Evidence that the extension, without continued Endowment support, would not jeopardize the orchestra's continued existence will be required.

(13) Cooperative planning among orchestras on a regional level to achieve greater efficiency in operations, improvement in quality of performance, enlarging touring opportunities (perhaps via an arrangement with regional blocs of state arts agencies).

LIMITATIONS

(1) Although the Endowment seeks information regarding plans for recording, the present policy of the Endowment does not include support to orchestras for the purpose of recording.

(2) Applications will rarely be considered for non-specific support.

(3) The Endowment's assistance is never intended to discourage admission fees irrespective of how nominal the charge may be.

(4) The Endowment's assistance is never intended to substitute for previous local support but, instead, is designed to encourage continuing and increased local contributions.

(5) Applicants are required to limit their requests to a single application; however, requests for more than one project may be presented in the application if:

The total funds sought do not exceed the maximum levels outlined under grant amounts.
The overall project description does not attempt to encompass all or most aspects of the orchestra's total program.

(6) The Endowment's assistance under this program is not intended to provide support for youth orchestras and their activities or for the support of scholarshipa for young student musicians.

(7) The Endowment's assistance is not intended to provide support for the initial employment of a general manager.

Methods of Funding

OPTION 1, PROGRAM FUNDS METHOD

Applicants requesting assistance from Program Funds must present evidence in the proper space provided on the application that one-half the total cost of the project will be provided by the applicant. Sources of matching funds must be identified.

Example

Grantee receives endowment award	$20,000
Required matching by the grantee	20,000
Minimum required budget	40,000

OPTION 2, TREASURY FUND METHOD

Applicants are encouraged to use the Treasury Fund Method.

Example

Restricted gift(s)	$50,000
Endowment Treasury funds	50,000
Proposed award	100,000
Required matching by the grantee	100,000
Minimum required budget	200,000

OPTION 3, COMBINED PROGRAM FUNDS AND TREASURY FUND METHOD

Applicants may request assistance through a combination of funds through the Treasury Fund method and Program Funds method, but the combined amount of federal funds cannot exceed the program maximum.

Example

Program funds	$100,000
Restricted gift(s)	35,000
Endowment Treasury funds	35,000
Combined restricted gift(s) and endowment Treasury funds	70,000
Proposed award	170,000
Required matching by the grantee	170,000
Minimum required budget	340,000

Grant Application

THE APPLICATION FORM

Typewritten application forms must be submitted in triplicate. All essential elements of the proposal *must be included in a concise project description* in the space provided on the first page of the application. If additional space is needed, no more than two additional 8½" x 11" pages may be attached to each of the application forms.

If the applicant develops a multi-purpose application, please number each project separately with its own budget. For example: if the application contains three projects numbered 1, 2, 3—develop the budget numbered 1, 2, 3 to correspond with the appropriate project description. Budget detail for the individual projects should be in accordance with the categories on the application, such as: Personnel, Fringe Benefits, Supplies, et cetera. The budget figures appearing on the first page of the application must represent the sum of all expenses related to projects.

The Music Staff advises applicants to study carefully, point by point, the Eligibility Criteria, Maximum Grant Amounts and Program Limitations, as described earlier, before submitting an application. Applicants are urged to retain duplicates of any materials sent to the agency.

ADDITIONAL REQUIRED MATERIALS

Please forward *in duplicate* the following.

(1) Copy of Internal Revenue Service determination letter for tax-exempt status. Although this letter may have been submitted previously, it must be submitted with each application.

(2) Audited financial statement for the most recent completed fiscal period. Unaudited financial statement is acceptable if audited statement is not available, but the audit should be forwarded when available.

(3) Total operating budget showing estimated income and expenses for the 1974–75 and the 1975–76 seasons.

(4) Complete representative reviews of regular performances from the past year with dates provided.

(5) Biographical sketches of Project Director, Manager, and Conductor.

(6) The supplementary information sheet completed in full.

SUPPLEMENTARY INFORMATION

The following materials is required of all applicants which have not received assistance in Fiscal Year 1975 *and* applicants for which previously submitted information is not up-to-date. Please submit, *in duplicate:*

(1) A brief history of the organization.

(2) The number of members of the board and the executive committee.

(3) The number of times the board and the executive committee meet.

SUPPORTING STATEMENTS

The following statements are required of applicants as indicated below, *in duplicate.*

Statements to confirm the involvement of cooperating organizations and/or individuals

V 39 109 JUN 5 74 XUM

must accompany all applications in the following areas:

(1) School-related proposals. The Endowment must be assured that school-related proposals have the cooperation of the appropriate officials and classroom teachers and that careful, coordinated planning for in-school concerts or educational programs has been accomplished. See page 5, no. 11.

(2) Programs in special areas. The Endowment must be assured that proposals for programs in special areas, such as the inner city, have the cooperation of the leaders in those areas and that businesses and other involved organizations are prepared to identify with the program plans.

The Endowment is anxious to know where and when presentations will occur, recognizing that some details must be tentative from time to time, but that, in general, a well-defined proposal is under consideration.

APPLICATION PROCESSING

The application, if not completed properly, will be returned to the applicant for corrections. If the corrected application is not received by the Endowment in time for processing in accordance with the deadline date, it will not be considered under the Fiscal Year 1976 appropriations. The Endowment cannot accept responsibility for delays occasioned by the late arrival of applications or requests which have been improperly submitted.

Incomplete application files. If all additional required material has not been submitted, the application may be rejected.

APPLICATION REVIEW

After an application with all necessary information has been received, the file will be reviewed as follows:

(1) The Endowment Music Staff, the Music Advisory Panel, and the National Council on the Arts successively review the application;

(2) The applicant is notified concerning final action taken by the Chairman of the Endowment.

Applications are reviewed according to the following criteria:

(1) Artistic quality;
(2) Merit of the project;
(3) Organizational stability;
(4) Capacity to achieve objectives;
(5) Professional service to the maximum constituency.

Notices of approval or rejection will be sent, as the Chairman authorizes. Applicants are requested not to seek information on the status of their applications prior to such notification. While the Endowment welcomes expressions of interest in a project, extraordinary pressures beyond direct negotiations are not helpful.

FINAL REPORTS

At the conclusion of the grant period, the Endowment requires final reports from all grantees. Reporting suggestions will accompany the grant letter. All grantees are required to submit the following *in triplicate:*

(1) *Final Descriptive Report:* A detailed narrative report describing what was accomplished during the grant period with NEA funds.

(2) *Final Expenditure Report:* An accounting of total expenditures and matching funds related to the project. *Note:* This report is to be submitted on the same form No. NEA-7 (Rev. 71) used for interim cash requests. The final cash request may also serve as a final expenditure report if all income and expenditures for the project may be detailed.

SUPPLEMENTARY INFORMATION SHEET

This page and all other material should be sent to Grants Office, National Endowment for the Arts, Washington, D.C. 20506.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ECONOMICS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Economics to be held at 9 a.m. on June 24, 1974, in Room 511 at 1800 G Street NW., Washington, D.C. 20550.

The purpose of the panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects. The agenda will be devoted to the review and evaluation of research proposals.

This meeting is concerned with matters which are within the exemptions of 5 U.S.C. 552 (b) and will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92-463.

Individuals requiring further information about this panel may contact Dr. James Blackman, Program Director, Economics Program, Room 205, 1800 G Street NW., Washington, D.C. 20550.

T. E. JENKINS,
Assistant Director for Administration.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on May 30, 1974 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529).

NEW FORMS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration: Availability Form and Claim Form for Electronic Products, Forms FLH 2768, FD 2767, FLH 2769, FD 2766, Occasional, Caywood, Business firms.

Health Resources Administration: Follow-up Health Surveys for Evaluating Selected Neighborhood Health Centers. Form HRABHSR 0424, Single time, HRD/Reese, Households in 5 selected NHC service areas.

Health Services Administration: Evaluation of Women's Health Care Specialists, Form HSABCHS 0517, Single time HRD/Reese, Women's health care specialist graduates.

DEPARTMENT OF THE INTERIOR

Geological Survey:
- Preliminary Determination of Epicenter and PDE Monthly Listing, Form, Single time, Weiner, Seismologists earthquake data contributors.
- Earthquake Data Report, Form, Single time, Weiner, Seismologists earthquake data contributors.

DEPARTMENT OF LABOR

Employment Standards Administration: Application for Continuation of Death Benefit for Student, Form LS 266, Single time, Caywood, Parent or guardian of workmen's compensation survivors under 18.

NATIONAL SCIENCE FOUNDATION

Report on Attitudes of the U.S. Public Toward Science and Technology, Form, Single time, Weiner/Wann/Planchon, Households in 360 communities.

REVISIONS

DEPARTMENT OF DEFENSE

Department of the Air Force: AFLCM 65-1, Chapter 5, "Material Requirements List," Form, Quarterly, Sheftel, Aerospace hardware repair contractors.

EXTENSIONS

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service: Cotton Market Canvas, Form CN 73-1, Occasional, Evinger, Cotton merchants.

Animal and Plant Health Inspection Service: Regulations-Recognitions of Breeds and Books of Record of Purebred Animals, Form, Occasional, Evinger, Animal importers.

Statistical Reporting Service: Cleaners Report of Seed Cleaned, Form, Annual, Evinger, Seed buyers and cleaners.

SECURITIES AND EXCHANGE COMMISSION

[70-5503]

APPALACHIAN POWER CO.

Proposed Agreement for Construction of Pollution Control Equipment

MAY 30, 1974.

Notice is hereby given that Appalachian Power Company ("Appalachian"), 40 Franklin Road, Roanoke, Virginia 24009, an electric utility subsidiary company of American Electric Power Company, Inc., a registered holding company, has filed an application-declaration and an amendment thereto with this Commission designating sections 6(b), 9(a), 10, and 12(d) of the Public Utility Holding Company Act of 1935 ("Act"), and Rules 44(b)(3) and 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Appalachian states that in order to comply with prescribed air and water quality control standards of the State of Virginia it has been and will be necessary to construct certain high efficiency electrostatic precipitators ("Project") for particulate emission control and related facilities at its Glen Lyn and Clinch River Plans. By resolution of September 26, 1972, the Industrial Development Authority of Russell County, Virginia ("Authority"), authorized a proposal to Appalachian to construct the Project at the Glen Lyn and Clinch River Plants.

Appalachian proposes to enter into an agreement of sale ("Agreement") with the Authority whereby the Authority will construct and equip the Project. To finance construction, the Authority will issue, pursuant to an indenture ("Indenture") to be entered into between the Authority and an indenture trustee ("Trustee"), pollution control revenue bonds ("Revenue Bonds") in principal amount presently estimated not to exceed $45,000,000. The proceeds from the sale of the Revenue Bonds will be deposited by the Authority with the Trustee and will be applied to the payment of the cost of construction (as defined in the Agreement) of the Project.

The Agreement also will provide for the sale of the Project to Appalachian at a price payable in semi-annual installments over a term of years sufficient to pay the principal of and interest on the Revenue Bonds as they become due and payable. The Agreement further provides that Appalachian may prepay the purchase price (a) at any time on or after 10 years from the date of issuance of the Revenue Bonds, in whole or in part at the option of Appalachian, such payments to be sufficient to redeem or purchase outstanding Revenue Bonds, including applicable premiums, and (b) in whole, without premium, at the option of Appalachian, in certain other specified conditions.

In order to obtain the benefit of a rating for the Revenue Bonds equivalent to a rating enjoyed by the first mortgage bonds outstanding under Appalachian's bond indenture ("Mortgage"), Appalachian proposes to issue a series of such first mortgage bonds ("Collateral Bonds") under the Mortgage, pursuant to a supplemental indenture ("Supplemental Indenture"). The Collateral Bonds, to be issued in a principal amount (not exceeding $45,000,000) equal to the principal amount of the Revenue Bonds, will be deposited with the Trustee as security for Appalachian's obligations under the Agreement. The Collateral Bonds will have a stated interest rate equal to the interest rate per annum to be borne by the Revenue Bonds, will mature on the maturity date of such Revenue Bonds, will be non-transferable, and interest on the Collateral Bonds will accrue at the time and under conditions specified in the Supplemental Indenture.

The Indenture will provide that, upon deposit of funds with the Trustee or direction to the Trustee by Appalachian to apply available funds, or upon delivery of outstanding Revenue Bonds sufficient to pay or redeem all or any part of the Revenue Bonds, the Trustee will be obligated to deliver to Appalachian Collateral Bonds in an aggregate principal amount equal to that amount of Revenue Bonds for the payment or redemption of which such funds have been deposited or applied or which shall have been so delivered.

The terms of the Revenue Bonds contain sinking fund provisions, which, in the aggregate, will retire at least twenty-five percent of the original issue by its final maturity date.

In order to comply with the provisions of the Mortgage, it will be necessary for Appalachian to sell to the Authority such portions of the Project which have been constructed and now owned by Appalachian ("Existing Facilities"). The Agreement states that Appalachian will receive, out of the proceeds of the Revenue Bonds, an amount equal to Appalachian's original cost for the Existing Facilities. The Existing Facilities will become a part of the Project which Appalachian proposes to purchase as provided in the Agreement. The proceeds to be received by Appalachian for the Existing Facilities will be applied to obtain their release from the lien of the Mortgage and, after such release, Appalachian will convey said Existing Facilities to the Authority free and clear of the Mortgage Lien.

It is contemplated that the Revenue Bonds will be sold by the Authority pursuant to arrangements with a group of underwriters represented by Blyth Eastman Dillon & Co. Incorporated. In accordance with the laws of the State of Virginia, the interest rate to be borne by the Revenue Bonds will be fixed by the board of directors of the Authority. While Appalachian will not be a party to the underwriting arrangements for the Revenue Bonds, the Agreement will provide that the terms of the Revenue Bonds and their sale by the Authority shall be satisfactory to Appalachian.

Appalachian has been advised that the annual interest rates on obligations, interest on which is tax exempt, historically have been and can be expected at the time of issue of the Revenue Bonds to be 1½ to 2½ percent lower than the rates on obligations of like tenor and comparable quality, interest on which is fully subject to federal income tax.

The application-declaration states that the fees and expenses incident to the proposed disposition of the Existing Facilities and the acquisition of the Project (as distinguished from and excluding fees and expenses incident to the sale of the Revenue Bonds by the Authority payable out of the proceeds of such sale) will be supplied by amendment. It is stated that the issuance of the Collateral Bonds is subject to the jurisdiction of the State Corporation Commission of Virginia and the Public Service Commission of Tennessee, and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Appalachian further requests exception from the competitive bidding requirements of Rule 50 under the Act in respect of the issuance of the Collateral Bonds, stating that such requirements are inappropriate under the circumstances described herein, inasmuch as the Collateral Bonds are to be issued and pledged solely to secure Appalachian's obligations to the Authority and no public offering of the Collateral Bonds is to be made.

Notice is further given that any interested person may, not later than June 27, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 81-153]

CAMPEAU CORP.

Notice of Application and Opportunity for Hearing

MAY 29, 1974.

Notice is hereby given that Campeau Corporation ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended ("the 1934 Act"), that Applicant be granted an exemption from the provisions of sections 12(g), 13, 14, 15(d), and 16 of the 1934 Act.

Section 12(g) of the 1934 Act requires the registration of the equity securities of every issuer which is engaged in, or is in a business affecting, interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, and on the last day of its fiscal year has total assets exceeding $1 million and a class of equity securities held of record by 500 or more persons.

Section 15(d) provides that each issuer who has filed a registration statement which has become effective pursuant to the Securities Act of 1933, as amended, shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors, such supplementary and periodic information, documents, and reports as may be required pursuant to section 13 of the 1934 Act in respect of a security registered pursuant to section 12 of the 1934 Act.

Section 13 of the 1934 Act requires that issuers of securities registered pursuant to section 12 must file certain periodic reports with the Commission. Section 14 requires that issuers of securities registered pursuant to section 12 must comply with certain requirements with respect to proxy solicitation. Section 16 imposes certain ownership reporting requirements upon the beneficial owners of more than 10 percent of a class of equity security registered pursuant to section 12 and upon officers and directors of the issuer of such security.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the registration, periodic reporting or proxy solicitation provisions under sections 12, 13 and 14 and any officer, director or beneficial owner of more than 10 percent of the 12(g) registered equity securities of any issuer from the insider trading provisions of Section 16 of the 1934 Act, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The applicant states, in part:

1. Applicant is a Canadian corporation formed on October 1, 1973, upon consummation of an amalgamation of Campeau Corporation Limited ("Campeau Ltd.") with Canadian Interurban Properties Limited ("Interurban") and certain of its wholly-owned subsidiaries.

2. In connection with the amalgamation, Campeau Ltd. filed a registration statement on Form S-14 pursuant to the Commission's Rule 145 under the Securities Act of 1933, to register the shares of Applicant which were to be delivered to those shareholders of Campeau Ltd. or Interurban who were residents in the United States upon the consummation of the amalgamation. This registration statement became effective on August 23, 1973.

3. Prior to the amalgamation, Campeau Ltd., had two classes of shares outstanding; Campeau Ltd. Class A Common Shares were held by 15 persons resident in the United States and by 4,199 persons resident in countries other than the United States. Campeau Ltd. Class A Shares Par $.20 were held by one person, a Canadian. Applicant's Class A Common Shares were issued for Campeau Ltd.'s Class A Common Shares. Applicant's Second Preference Shares were issued for the latter class of Campeau Ltd.'s shares.

4. Interurban Common Shares were 98.7 percent owned by Campeau Ltd.; 1,250 persons resident in the United States held approximately .53 percent of the outstanding common shares, and the remainder were held by 487 persons resident in countries other than the United States. Interurban's Series A Preference Shares Par $10 were owned by 8 residents of the United States and by 705 residents of countries other than the United States. Pursuant to the plan of amalgamation, Applicants First Preference Shares were issued for Interurban's Third Preference Shares were issued for Interurban's Series A Preference Shares and Applicant's common shares. The Third Preference Shares were redeemed for cash on December 18, 1973.

5. The present stock ownership of Applicant is as follows:

Security	Number of shareholders	Number of shares
Class A common shares	15 United States	2,546
	4,199 Canadian and Foreign.	6,724,530
First preference shares	8 United States	3,750
	705 Canadian and Foreign.	757,105
Second preference shares.	1 Canadian	1,000,000

6. Applicant states that its contacts with the United States are limited in that Applicant had less than 1 percent of its gross assets of $313,000,000 at December 31, 1972 located in the United States and derived less than 1 percent of its gross revenues of $91,000,000 for the year then ended from the United States. In addition Applicant asserts that Campeau Ltd. has never made a public offering in the United States (other than the S-14 mentioned above) and that as the successor to Campeau Ltd., Applicant has no existing plans to engage in any public financing transactions in the United States, either by way of a public offering of its securities within the United States or otherwise and that a trading market in the United States for its securities does not exist at present and that development of such a market is unlikely.

7. Applicant asserts that it is subject to Canadian securities laws which require (a) distribution to shareholders of quarterly reports containing unaudited comparative financial information and an annual report containing certified comparative financial statements, and (b) submission of these reports to the Ontario Securities Commission.

8. Applicant further asserts that compliance with the reporting requirements of both the United States and Canada would require Applicant (at substantial expense) to prepare two sets of financial statements to reflect the accounting principles and practices of both countries.

In the absence of an exemption, Applicant would be required to register its shares pursuant to section 12(g) of the 1934 Act by reason of the facts that Applicant is engaged in interstate commerce and that Applicant has more than $1,000,000 in assets and 500 shareholders. In the absence of an exemption, Applicant would be subject to the provisions of Section 15(d) relating to reports to be filed with the Commission by reason of the fact that its registration statement on Form S-14 was declared effective.

Applicant argues that the exemptive order requested by it is appropriate in view of the fact that a trading market in the United States for its securities does not exist at present and that development of such a market is unlikely; that the Applicant now has only 23 shareholders who are resident in the United States; that the 23 shareholders will be receiving reports distributed pursuant to the laws of the Province of Ontario; and that the requirement for reports filed pursuant to section 15(d) of the 1934 Act would subject Applicant to the not insubstantial burden of compliance.

Applicant states that it is willing to have the Commission issue a conditional order granting the application which conditional order would remain in effect only so long as:

a. Applicant has fewer than 300 shareholders resident in the United States.

b. Applicant files with the Commission all of the reports which it is required pursuant to the laws of the Province of Ontario to distribute to its shareholders or to submit to the Ontario Securities Commission.

For a more detailed statement of the information presented, all persons are referred to said application and amendments which are on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C.

Notice is further given that any interested person not later than June 24, 1974 may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

CANADIAN JAVELIN, LTD.

Suspension of Trading

MAY 24, 1974.

The common stock of Canadian Javelin, Ltd., being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Canadian Javelin, Ltd. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to sections 19(a) (4) and 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from May 28, 1974 through June 6, 1974.

By the Commission.

COLUMBIA GAS SYSTEM, INC.

Proposed Issue and Sale of Preferred Stock at Competitive Bidding

MAY 29, 1974.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), 20 Montchanin Road, Wilmington, Delaware 19807, a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transaction.

All external financing for the Columbia System is done at the parent company level, i.e., through the issue and sale of securities of Columbia. In anticipation of the sale of an initial series of preferred stock Columbia, on April 18, 1974, amended its Certificate of Incorporation (see HCAR No. 18304, March 15, 1974) so as to restate its preferred stock protective provisions in substantial conformity with the Statement of Policy with respect to preferred stock promulgated by the Commission in 1956 and 1970 (HCAR Nos. 13106 and 16758). Columbia now proposes to issue and sell in July 1974, subject to the competitive bidding requirements of Rule 50 under the Act, 1,000,000 shares of ---- percent Cumulative Preferred Stock, Series A, par value $50 per share ("Stock").

The dividend rate (which shall be a multiple of 0.08 percent) and the price (which shall be not less than $50 nor more than $51.375 per share) will be determined by the competitive bidding. The terms of the Stock will provide that Columbia shall have the option to redeem shares of the Stock, provided however, that no such optional redemption shall be made prior to July 1, 1979, directly or indirectly, with borrowed funds having a lower effective interest cost or from the issuance of another series of preferred stock having a lower effective dividend cost. A sinking fund will be provided to redeem 50,000 shares of Stock yearly beginning with the year 1980.

The following tabulation shows the consolidated capital structure of Columbia and its subsidiaries as to March 31, 1974, actual and pro forma, giving effect to the issuance of the Stock, at an assumed price to Columbia of $50 per share.

[Dollars in thousands]

	Actual		Pro Forma	
	Amount	Percent	Amount	Percent
Long-term debt: [1]				
Debentures	$1,108,621	51.6	$1,108,621	50.6
Subordinated bank loans	60,000	2.8	60,000	2.7
Term bank loans	50,000	2.3	50,000	2.3
Other	8,621	0.4	8,621	0.4
Total long-term debt	1,227,242	57.1	1,227,242	56.0
Common Stock equity	920,485	42.9	[2] 915,860	41.7
Preferred Stock equity			50,000	2.3
Total	2,147,727	100.0	2,193,102	100.0

[1] Includes current maturities.

[2] After payment of preferred dividends at an assumed rate of 9¼%.

Columbia proposes to use the proceeds from the sale of the Stock together with: (1) proceeds from the sale of $40 million principal amount of ---- percent Debentures, Series due June 1999 (File No. 70-5486); (2) an additional $85 million of long-term financing in late 1974 (in a form to be determined); and (3) internally generated funds, to finance the 1974 capital expenditure program of Columbia's subsidiaries (estimated at approximately $340 million).

Columbia also expects, in 1974, to issue and sell (i) an additional $60 million of subordinated notes to banks, pursuant to the authorization granted in File No. 70–5039 (HCAR No. 17213, August 2, 1971); and (ii) commercial paper and/or notes to banks ("short-term notes") in an aggregate face amount not exceeding $220 million at any time outstanding, pursuant to the authorization sought in File No. 70–5481 (HCAR No. 18388, May 10, 1974). After applying part of the proceeds from the anticipated long-term financing later in 1974, to retirement of short-term notes, Columbia expects that the amount thereof outstanding at December 31, 1974 will consist of $20 million commercial paper and $115 million of gas inventory bank loans. Said inventory bank loans are expected to be repaid early in 1975 as gas is withdrawn from inventory and sold.

A statement of the fees and expenses to be incurred in connection with the proposed transaction will be filed by amendment. It is stated that no State or Federal commission, other than this Commission, has jurisdiction over the transaction proposed herein.

Notice is further given that any interested person may, not later than June 25, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 24SF–4052]

DELTA STEEL CORP.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

MAY 29, 1974.

I. Delta Steel Corporation ("Delta"), 1745 East Factory Street, Tucson, Arizona 85719, is an Arizona corporation located at 1745 East Factory Street, Tucson, Arizona 85719. It was organized on November 2, 1972. Its purpose is to manufacture steel.

On December 19, 1972, Delta filed a notification pursuant to Regulation A in connection with the proposed public offering of 500,000 shares of its 10¢ par value common stock at $1.00 per share with the Fort Worth Regional Office, 24FW–1565. This filing was withdrawn by Delta on May 16, 1973. On December 4, 1973, Delta filed another notification for the same number of shares at the same price with the Fort Worth Regional Office, 24FW–1605. Since this filing was improperly filed in the Fort Worth Regional Office, it was effectively withdrawn on March 20, 1974, and on March 22, 1974, was transferred to the San Francisco Branch Office, which administers the area where Delta's principal place of business is located.

II. The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe:

A. The notification and offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading in the following respects:

1. The failure to disclose James N. Concannon as the manager and controlling person of Delta;

2. The failure to state that certain designated directors and/or officers, including the president, the secretary, and the treasurer are not active in the management of Delta.

3. Falsely stating that certain persons were engaged in providing technical advice to Delta.

B. The terms and conditions of Regulation A have not been met in that the notification and offering circular fail to list James N. Concannon as an affiliate of Delta.

C. The offering would be made in violation of section 17 of the Securities Act of 1933.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of Delta Steel Corporation under Regulation A be temporarily suspended.

It is ordered, Pursuant to Rule 261 of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption of the issuer under Regulation A be, and hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in the order within thirty days of the entry thereof.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for the said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

[812–3416]

NEW YORK HEDGE FUND, INC.

Notice of Application

Notice is hereby given that New York Hedge Fund, Inc. ("Applicant"), 116 John Street, New York, New York 10038, a nondiversified, open-end management investment company registered under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 22(e)(3) of the Act for an order of the Commission permitting, retroactively, postponement of full payment for shares tendered to the Applicant for redemption. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

On March 5, 1973, the Commission announced that it had ordered the temporary suspension of over-the-counter trading in the securities of Beneficial Laboratories, Inc. ("Beneficial") for a period of 10 days. This order was renewed for successive 10-day periods until October 30, 1973. Applicant states that, based on a valuation of its assets made shortly before said suspension, securities of Beneficial represented approximately 71 percent of its total net asset value. Applicant maintains that because of the suspension of trading in the stock of Beneficial it could not, during the period of the trading suspension, ascribe a fair market value to the shares of Beneficial held by it and that it was, therefore, not reasonably practicable for it fairly to determine the value of all its net assets during that time.

Applicant, therefore, adopted a plan of a partial postponement of payment for shares tendered for redemption pursuant to which shareholders who requested redemeption subsequent to March 5, 1973, and before trading in Beneficial was resumed, received the net asset value of their shares, exclusive of their interests in the assets of Applicant represented by its holdings of securities of Beneficial. These shareholders were also allocated a pro-rata interest in the shares of Beneficial held by Applicant. On March 8, 1973, Applicant filed an application for an order permitting its plan of partial postponement of payment. After the resumption of trading in Beneficial, Applicant sold its Beneficial holdings, and the proceeds of such sale allocable to shareholders who had redeemed their shares were distributed to them.

On January 16, 1973, the Commission suspended trading in the shares of Pelorex Corporation ("Pelorex"). Prior to such suspension, Applicant had sold 500 shares of Pelorex short and was entitled to receive $46,475 upon delivery of 500 shares of Pelorex common stock to the selling broker-dealer. On June 22, 1973, Applicant's board of directors determined that it could no longer ascribe a good faith valuation to Hedge Fund's interest in Pelorex. Consequently, shareholders who submitted their shares for redemption after such determination received an amount based on their pro-rata share of the assets of Hedge Fund calculated without regard to the Pelorex interest. These shareholders were also allocated a pro-rata interest in any proceeds obtained from completion of the Pelorex short sale. On September 2, 1973, the Commission permitted the resumption of trading in shares of Pelorex, and Applicant proceeded to complete the short sale, realizing $33,475. Subsequently, the pro-rata shares of the proceeds of the short sale allocable to shareholders who had redeemed their shares were distributed to them.

Section 22(e)(3) of the Act provides that the Commission may, by order, for the protection of the security holders of the company, permit a registered investment company to suspend the right of redemption or postpone the date of payment or satisfaction upon redemption of any redeemable security.

Applicant maintains that its plan of partial postponement of payment was appropriate under the circumstances since the plan permitted immediate redemption by Applicant's shareholders of their pro-rata interests in their fund's portfolio other than in the fund's position in securities in which trading had been suspended, and enabled shareholders who had redeemed their shares to receive, after trading in such securities had resumed, amounts equal to their pro-rata shares of the market value of Applicant's positions in such securities.

Notice is further given that any interested person may, not later than June 24, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the matter will be issued as of course following June 24, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[812–3626]

PIONEER ENTERPRISE FUND, INC. AND PIONEER II, INC.

Filing of Application

MAY 30, 1974.

Notice is hereby given that Pioneer Enterprise Fund, Inc. ("Enterprise") and Pioneer II, Inc. ("Pioneer") (collectively referred to as "Applicants"), 28 State Street, Boston, Massachusetts 02109, both registered under the Investment Company Act of 1940 ("Act") as diversified, open-end management investment companies, have filed an application pursuant to section 17(b) of the Act for an order of the Commission exempting from the provisions of section 17(a) of the Act the proposed sale by Enterprise of substantially all of its assets to Pioneer in exchange for shares of common stock of Pioneer. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Enterprise, a Delaware corporation, was organized in 1955 and, as of March 31, 1974, had net assets of $4,590,000. Pioneer, a Massachusetts corporation, was organized in 1969 and, as of March 31, 1974, had net assets of $8,746,000. The principal investment objective of Enterprise is to seek long-term capital growth

V 39 109 JUN 5 74 XUM

and that of Pioneer is to seek reasonable income and growth of capital. Each of the Applicants employ Pioneering Management Corporation (the "Adviser"), a wholly-owned subsidiary of Fund Research and Management, Inc. ("Fund Research"). as its investment adviser pursuant to identical investment advisory contracts. Fund Research acts as principal underwriter for both Applicants. The board of directors of each of the Applicants are identical and their officers are the same individuals with the exception of their vice presidents.

Enterprise and Pioneer have entered into an Agreement and Plan of Reorganization (the "Agreement") providing for the acquisition of substantially all of the assets of Enterprise by Pioneer and the liquidation and subsequent dissolution of Enterprise. The proposed transaction is contingent upon the receipt of an opinion of counsel to the effect that the proposed transaction will constitute a tax-free reorganization and that no gain or loss will be recognized by the Applicants or their shareholders as the result of the transaction. The Agreement is subject to approval by the affirmative vote of at least a majority of the outstanding voting securities of Enterprise. If the Agreement is approved by shareholders, it is anticipated that the transaction will take place on June 28, 1974.

Prior to the closing date of the proposed transaction, ("Closing Date"), Enterprise will declare and distribute to shareholders all of its net investment income. On the Closing Date, Enterprise will retain from cash an amount estimated to pay its expenses under the Agreement including the expenses of liquidation and dissolution. Pioneer will assume all other liabilities of Enterprise. The number of shares of Pioneer to be issued to shareholders of Enterprise will be determined on the basis of the relative net asset values per share of each of the Applicants computed as of the close of the New York Stock Exchange on the Closing Date. The net asset value per share of each of the Applicants will be determined by dividing the total value of the investments and other assets of each of the Applicants less any liabilities by the total number of shares outstanding. Upon consummation of the transaction as contemplated by the Agreement, each Enterprise shareholder will have an account established in his name on the books of Pioneer credited with the number of Pioneer shares (including fractional shares carried to four decimal places) due such shareholder.

As of March 31, 1974, Enterprise had a tax loss carry forward of $119,910 and Pioneer had an undistributed net realized gain of $1,060,052. In addition to these tax positions, Enterprise and Pioneer have net unrealized depreciation on the securities in their portfolios of $1,590,436 and $728,673, respectively. It is submitted that no adjustment on account of these differences in realized and unrealized gains and losses can be demonstrated to result in fairer treatment for the shareholders of the Applicants than not making an adjustment since any such adjustment must relate to individual shareholders with different objectives, holding periods, tax bases and tax rates. Accordingly, the Agreement does not provide for any adjustment to be made in the bases of exchange between the Applicants. If the proposed transaction had been consummated on March 31, 1974, the shareholders of Enterprise would have received approximately 34.2% of the shares of Pioneer.

Applicants state that, since the boards of directors and most of the officers of the Applicants are identical, the Applicants might be deemed to be under "common control" and each of the Applicants might be deemed to be an "Affiliated person" of the other under the definition of "affiliated person" set forth in section 2(a)(3) of the Act.

Section 17(a) of the Act, in pertinent part, provides that it is unlawful for any affiliated person of a registered investment company knowingly to sell to or purchase from such registered investment company any security or other property except securities of which the investment company is the issuer. Pursuant to section 17(b) of the Act, the Commission, upon application, may grant an exemption from such prohibition after finding that the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned and the general purposes of the Act.

Applicants represent that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned since shares of Pioneer will be issued to the shareholders of Enterprise on the basis of the respective net asset values of each of the Applicants determined at the same point in time and in the same manner. It is stated that Enterprise has experienced a declining trend in both assets and numbers of shareholders while per share expenses have increased. Applicants assert that the shareholders of both of the Applicants will benefit by the elimination of certain duplicated costs, principally costs relating to legal and accounting and printing services and mailings. It is stated that the Adviser and Fund Research will also benefit from the consummation of the proposed transaction. Applicants anticipate that annual cash benefits for the shareholders of the Applicants as the result of the proposed transaction will be about one-third of such benefits for the Adviser and Fund Research. The Adviser and Fund Research have agreed to bear three quarters of the expenses of the reorganization which are estimated at $24,000. Of the remaining expenses, Enterprise will bear approximately $4000, which amount includes its liquidation and dissolution costs, and Pioneer will bear approximately $2000.

Applicants assert that the proposed transaction is consistent with the policies of both Enterprise and Pioneer and the general purposes of the Act. Applicants state that the investment restrictions and policies of both of the Applicants are substantially the same. Pioneer has an investment restriction which limits borrowing from banks to 5 percent of the value of its total assets at the time of borrowing, Enterprise may borrow from banks up to 10% of the value of its net assets at the time of borrowing. It is stated that neither of the Applicants has ever borrowed any money. It is submitted that, in the opinion of management of the Applicants, the investment portfolio of Enterprise is, at present, generally comparable to that of Pioneer. It is represented that the investment manager and the Boards of Directors of Pioneer will determine what securities, if any, in the Enterprise portfolio are not compatible with the investment objective of Pioneer and those securities will be sold by Enterprise prior to the Closing Date.

Notice is further given that any interested person may, not later than June 21, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following June 21, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

VANGUARD FUND, INC.

Notice of Application

MAY 30, 1974.

Notice is hereby given that Vanguard Fund, Inc. ("Applicant"), 116 John Street, New York, New York 10038, a diversified, open-end management investment company registered under the

Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 22(e)(3) of the Act for an order of the Commission permitting, retroactively, postponement of full payment for shares that had been tendered for redemption. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

On March 5, 1973, the Commission announced that it had ordered the temporary suspension of over-the-counter trading in the securities of Beneficial Laboratories, Inc. ("Beneficial"), for a period of 10 days. This order was renewed for successive 10-day periods until October 30, 1973. Applicant states that, based on a valuation of its asset made shortly before said suspension, securities of Beneficial represented approximately 17.7 percent of it total net asset value. Applicant maintains that because of the suspension of trading in the stock of Beneficial it could not, during the period of the trading suspension, ascribe a fair market value to the shares of Beneficial held by it and that it was, therefore, not reasonably practicable for it fairly to determine the value of all its net assets during that time.

Applicant, therefore, adopted a plan of partial postponement of payment for shares tendered for redemption pursuant to which shareholders who requested redemption subsequent to March 5, 1973, and before trading in Beneficial was resumed, received the net asset value of their shares exclusive of their interests in the assets of Applicant represented by its holdings of securities of Beneficial, and all shareholders of record as of March 5, 1973, were also allocated pro-rata interests in the shares of Beneficial held by Applicant. On March 8, 1973, Applicant filed an application for an order permitting such partial postponement of payment. After the resumption of trading in Beneficial, Applicant's shares of Beneficial were sold, and the proceeds of such sale allocable to shareholders who had redeemed their shares were distributed to them.

Section 22(e)(3) of the Act provides that the Act provides that the Commission may, by order, for the protection of the security holders of the company, permit a registered investment company to suspend the right of redemption or postpone the date of payment or satisfaction upon redemption of any redeemable security.

Applicant maintains that its plan of partial postponement of payment was appropriated in all the circumstances since the plan permitted immediate redemption by Applicant's shareholders of their pro-rata interests in their fund's portfolio other than in the fund's position in securities in which trading had been suspended, and enabled shareholders who had redeemed their shares to receive, after trading in such securities had resumed, amounts equal to their pro-rata shares of the market value of Applicant's position in such securities.

Notice is further given that any interested person may, not later than June 24, 1974, at 5:30 p.m., submit to the Commission in writing a request for hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the matter will be issued as of course following June 24, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the data of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 05/05–0099]

NORTH STAR VENTURES, INC.

Notice of Issuance of Small Business Investment Company License

On April 17, 1974, a notice was published in the FEDERAL REGISTER (39 FR 13821) stating that an application had been filed by North Star Ventures, Inc., 2300 Northwestern Financial Center, 7900 Xerxes Avenue, S., Minneapolis, Minnesota 55431, with the Small Business Administration (SBA) pursuant to Section 107.102 of the Regulations governing small business investment companies (13 CFR 107.102(1974)) for a license as a small business investment company.

Interested parties were given until close of business May 2, 1974, to submit their comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information, SBA issued License No. 05/05–0099 to North Star Ventures, Inc., to operate as a small business investment company.

Dated: May 23, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[Declaration of Disaster Loan Area 1066]

GEORGIA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of May, because of the effects of a certain disaster, damage resulted to property located in the State of Georgia;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of Section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Bullock, Effingham, Liberty, Seminole and Tattnall Counties, and adjacent affected areas, suffered damage or destruction resulting from tornadoes, high winds and flooding which occurred on or about May 11, 1974.

OFFICE

Small Business Administration, Regional Office, 1401 Peachtree Street NE., Atlanta, Ga. 30309.

Applications for disaster loans under the authority of this declaration will not be accepted subsequent to July 26, 1974.

Dated: May 24, 1974.

INTERSTATE COMMERCE COMMISSION

[Notice 522]

ASSIGNMENT OF HEARINGS

MAY 31, 1974.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC-95540 (Sub-No. 886), Watkins Motor Lines, Inc., now assigned June 3, 1974, at Denver, Colo., is cancelled and the application is dismissed.

MC 134903 (Sub-No. 1), Kentucky Motor Freight, Inc., now assigned June 3, 1974, at Frankfort, Ky., is postponed indefinitely.

MC-97629 Sub 9, Hiller Truck Lines, Inc., is continued to July 9, 1974, at the Hyatt House, 921 North 21st Street, Birmingham, Ala.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

MAY 31, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 17, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC-5470 (Sub-No. E1), filed May 10, 1974. Applicant: TAJON, INC., R.D. No. 5, P.O. Box 146, Mercer, Pa. 16137. Applicant's representative: Patrick McEligot, 918 Sixteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ferro alloys*, in bulk, in dump vehicles, (a) from Calvert City, Ky., to points in Connecticut, Delaware, New Jersey, and Maryland; (b) from Riverview, Ohio, to points in Rhode Island, Massachusetts, New Hampshire, and Vermont; (c) from Calvert City, Ky., to points in the states of Massachusetts; Rhode Island, New Hampshire, and Vermont; (d) from East Liverpool, Ohio, to points in Indiana; (e) from Graham, W. Va., to points in Arkansas, Alabama, Florida, Georgia, Louisiana, Mississippi, Missouri, Tennessee, and Wisconsin; (f) from Vancoram, Ohio, to points in North Carolina, South Carolina, and Vermont; (g) from Graham, W. Va., to points in North Carolina and South Carolina; (h) from a railhead at East Liverpool, Ohio, to points in Pennsylvania on and east of U.S. Highway 15; (2) *alloys*, in dump vehicles (a) from the plant sites of Ohio Ferro-Alloys Corporation located at or near Brilliant, Powhatan, and Philo, Ohio, to points in New York on and east of Highway 15; (b) from the plant site of Ohio Ferro-Alloys Corporation located at or near Powhatan (Monroe County) Ohio, to points in New York on and west of U.S. Highway 15, (c) from Ashtabula, Ohio, to Roanoke, Virginia; (d) from the plant sites of Ohio Ferro-Alloys Corporation located at or near Brilliant, Powhatan, and Philo, Ohio, to points in Connecticut, Delaware, Massachusetts, New Hampshire, and Vermont; (e) from the plant sites of Ohio Ferro-Alloys Corporation located at or near Brilliant, Powhatan, and Philo, Ohio, to New York, N.Y., and points in New Jersey (except points in Cumberland, Salem, Bloucester, Cape May, Atlantic, Camden, and Burlington Counties, N.J.); (3) *alloys and ores*, in dump vehicles, (a) from Charleston, S.C., to points in Massachusetts, New Hampshire, and Rhode Island; (b) from Alloy, Va., to points in Massachusetts, New Hampshire, Rhode Island, and Vermont; (4) *alloys, ores, dry fertilizer, clay, petroleum coke, coal tar pitch, pitch prell, pig iron, and scrap metal*, in dump vehicles, between any railhead in Ashtabula County, Ohio, on the one hand, and, on the other, points in New York on and east of U.S. Highway 15, and points in Pennsylvania on and east of U.S. Highway 15; (5) *alloys*, in bulk, in dump vehicles, from the plant site of Ohio Ferro-Alloys Corporation located at or near Philo, Ohio, to points in New York, on and west of U.S. Highway 15.

(6) *Alloys, pig iron, scrap metal*, and *silicon metals*, in dump vehicles, from Baltimore, Md., to points in Wisconsin; (7) *alloys, ores, silicon metals, scrap metals, and pig iron*, in dump vehicles, between Charleston, S.C., on the one hand, and, on the other, points in Wisconsin; (8) *such bulk commodities as are usually transported in dump trucks and can be unloaded* by dumping, from a railhead at Brilliant, Ohio, to points in New York on and west of U.S. Highway 15; (9) *ferro-alloys* and *silicon metal*, in dump vehicles, from Ashtabula, Ohio, to Baltimore, Md.; (10) *alloys, minerals, ores, and silicon metals*, in dump vehicles, from a railhead at Brilliant, Ohio, to points in North Carolina and South Carolina; (11) *aluminum dross and aluminum scrap*, in dump vehicles, from Cressona, Pa., to Maple Heights, Ohio.

The purpose of this filing is to eliminate the gateways of (A) Marietta or Riverview, Ohio, for 1(a) above; (B) Erie, Pa., for 1 (b) and (c), 3(b), and 4 above; (C) Vancoram, Ohio, for 1 (d) and (h), and 9 above; (D) points in Ohio, for 1(e) and 7 above; (E) Monaca, Pa., for 1(f) and 10 above; (F) Marietta, Ohio, for 1(g) above; (G) Brilliant, Ohio, points in Mahoning County, Ohio, and Erie, Pa., for 2(a) above; (H) Brilliant, Ohio, and points in Mahoning County, Ohio, for 2(b) above; (I) Alloy, W. Va., for 2(c) above; (J) Brilliant, Ohio, and Monaca, Pa., for 2 (d) and (e) above; (K) Birdsboro, Pa., for 3(a) above; (L) Brilliant, Ohio, points in Mahoning County, Ohio, and points in that part of Ohio on and west of a line beginning at the Kentucky-Ohio State line and extending along U.S. Highway 23 to Waldo, Ohio, thence along Ohio Highway 98 to Bucyrus, Ohio, thence along Ohio Highway 4 to Sandusky, Ohio, for 5 above; (M) points in Mahoning County, Ohio, for 8 above; and (N) Akron, Ohio, for 11 above.

No. MC-26001 (Sub-No. E1), filed May 9, 1974. Applicant: AMERICAN FREIGHTWAYS CO., INC., 518 Parter Avenue, Brooklyn, N.Y. 11222. Applicant's representative: Michael R. Werner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), between points in Albany, Allegany, Broome, Columbia, Cortland, Delaware, Dutchess, Greene, Oneida, Onandaga, Orange, Putnam, Rensselaer, Rockland, Schenectady, Sullivan, Ulster, and Westchester Counties, N.Y., on the one hand, and, on the other, points in Nassau and Suffolk Counties, N.Y. The purpose of this filing is to eliminate the gateway of those points in Hudson and Bergen Counties, N.J., in the New York N.Y., commercial zone.

No. MC-104421 (Sub-No. E1), filed April 15, 1974. Applicant: FREEMAN TRANSFER, INC., P.O. Box 623 D.T.S., Omaha, Nebr. 68101. Applicant's representative: Roger W. Norris (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Feed* and *grain* (except in bulk), between Washington, Kans., and points within 15 miles of Washington, on the one hand, and, on the other, Sioux City, Iowa. (2) *Emigrant movables* (except those requiring special equipment), (a) between Axtell, Kans., and points within 12 miles of Axtell, on the one hand, and, on the other, Nickerson, Nebr., and points in Nebraska within 50 miles of Nickerson; and (b) between Axtell, Kans., and points within 12 miles of Axtell, on the one hand, and, on the other, Sioux City, Iowa; (3) *Farm machinery and parts, and agricultural commodities* (except commodities in bulk and those requiring special equipment), (a) between St. Joseph and Kansas City, Mo., and Kansas City, Kans., on the one hand, and on the other, Sioux City, Iowa; (b) between Axtell, Kans., and points within 12 miles of Axtell, on the one hand, and on the other, Nickerson, Nebr., and points in Nebraska within 50 miles of Nickerson; and (c) between Axtell, Kans., and points within 12 miles of Axtell, on the one hand, and, on the other, Sioux City, Iowa. (4) *General Commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, trailers, mobile homes, and prefabricated buildings, and those injurious or contaminating to other lading), (a) between Axtell and Summit, Kans., on the one hand, and, on the other, Nickerson, Nebr., and points in Nebraska within 50 miles of Nickerson; (b) between Axtell and Summit, Kans., on the one hand, and, on the other, Sioux City, Iowa; (c) between Summerfield, Kans., on the one hand, and on the other, Nickerson, Nebr., and points in Nebraska within 50 miles of Nickerson; (d) between Summerfield, Kans., on the one hand, and on the other, Sioux City, Iowa. (5) *Binder twine, feed, paint, building materials; petroleum products*, in containers, and *gasoline station supplies* (except commodities in bulk, those requiring special equipment, and those injurious or contaminating to other lading), between St. Joseph and Kansas City, Mo., and Kansas City, Kans., on the one hand, and, on the other, Sioux City, Iowa. (6) *Agricultural commodities, feed, petroleum products*, in containers, *empty petroleum product containers, building materials, and agricultural implements and parts* (except commodities in bulk, those requiring special equipment, and those injurious or contaminating to other lading), between St. Joseph, Kansas City and North Kansas City, Mo., and Kansas City, Kans, on the one hand, and, on the other, Sioux City, Iowa.

The purpose of this filing is to eliminate the gateways of Fairburg, Nebr., and points within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr. in (1) above; points in Nebraska within 12 miles of Axtell, Kans., in (2a) above; points in Nebraska within 12 miles of Axtell, Kans., and points in Nebraska within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr., in (2b) above; points in Nebraska within 10 miles of Beattie, Kans., and points in Nebraska within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr. in (3a) above; points in Nebraska within 12 miles of Axtell, Kans. in (3b) above; points in Nebraska within 12 miles of Axtell, Kans., and points in Nebraska within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr. in (3c) above; points in Nebraska within the Summerfield, Kans., commercial zone in (4a) above; points in Nebraska within the Summerfield, Kans., commercial zone and points in Nebraska within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr., in (4b) above; Burchard, Nebr., in (4c) above; Burchard, Nebr., and points in Nebraska within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr., in (4d) above; points in Nebraska within 10 miles of Beattie, Kans., and points in Nebraska within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr., in (5) above; and Axtell, Kans., points in Nebraska within the Summerfield, Kans., commercial zone, and points in Nebraska within 15 miles of Jackson, Nebr., and 50 miles of Nickerson, Nebr., in (6) above.

No. MC-107295 (Sub-No. E9), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ceiling tile*, from Lodi, N.J., (1) to points in Arizona, Arkansas, California, Idaho, Montana, Nevada, New Mexico, North Dakota, Utah, Washington, and Wyoming, and (2) to points in Colorado and South Dakota. The purpose of this filing is to eliminate the respective gateways of (1) Kalamazoo, Mich., and (2) Fort Dodge, Iowa.

No. MC-110525 (Sub-No. E265), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Maryland to points

in California. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Mapleton, Ill.

No. MC–110525 (Sub-No. E266), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Maryland to points in Colorado. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E268), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in Maryland to points in Florida. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E322), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 211, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Missouri. The purpose of this filing is to eliminate the gateways of Newark, N.J., and South Fayette Township, Allegheny County, Pa.

No. MC–110525 (Sub-No. E323), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Montana. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E324), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Nebraska. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E325), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liq-* from points in Massachusetts to points in Nevada. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E326), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in New Mexico. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub–No. E327), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Pittsburgh, Pa.

No. MC–110525 (Sub-No. E328), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in North Carolina. The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–110525 (Sub-No. E329), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in North Dakota. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E330), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, *uid chemicals*, in bulk, in tank vehicles, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Ohio. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Pittsburgh, Pa.

No. MC–110525 (Sub-No. E331), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 667, in bulk, in tank vehicles, from points in Massachusetts to points in Oklahoma. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Pittsburgh, Pa.

No. MC–110525 (Sub-No. E332), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Oregon. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E333), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in that part of Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line, thence along Pennsylvania Highway 191 to Homesdale, thence along U.S. Highway 6 to the Pennsylvania-New Jersey State line. The purpose of this filing is to eliminate the gateway of Carteret, N.J.

No. MC–110525 (Sub-No. E334), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in South Carolina. The purpose of this filing is to eliminate the gateway of Carteret, N.J.

No. MC–110525 (Sub-No. 335), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to

points in South Dakota. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E336), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Tennessee. The purpose of this filing is to eliminate the gateway of Carteret, N.J.

No. MC–110525 (Sub-No. E337), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Texas. The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–110525 (Sub-No. E338), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Utah. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E340), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Washington. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E342), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Massachusetts to points in Wisconsin. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Pittsburgh, Pa.

No. MC–110525 (Sub-No. E343), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts, to points in Wyoming. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E344), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677 (except liquefied petroleum gases), in bulk, in tank vehicles, from that part of Michigan on and east of a line beginning at Mackinaw City, thence along Interstate Highway 75 to Clare, thence along U.S. Highway 27 to Lansing, thence along Interstate Highway 96 to junction Michigan Highway 52, thence along Michigan Highway 52 to Adrian, to points in that part of Arizona on and east of U.S. Highway 89. The purpose of this filing is to eliminate the gateway of Houston, Texas.

No. MC–110525 (Sub-No. E345), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in Connecticut. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Fort Lee, N.J.

No. MC–110525 (Sub-No. E346), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in Delaware. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–110525 (Sub-No. E347), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to the District of Columbia. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–110525 (Sub-No. E348), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 206, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in the *Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Michigan to points in Florida. The purpose of this filing is to eliminate the gateway of Institute, W. Va.

No. MC–110525 (Sub-No. E350), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in Maine. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa., and Syracuse, N.Y.

No. MC–110525 (Sub-No. E351), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula in Michigan to points in Maryland. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–110525 (Sub-No. E352), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in Massachusetts. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Ft. Lee, N.J.

No. MC–110525 (Sub-No. E353), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in New Hampshire. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Syracuse, N.Y.

No. MC–110525 (Sub-No. E391), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Liquid chemicals (except petrochemicals

V 39 109 JUN 5 74 XUM

and derivations of coal tar), in bulk, in tank vehicles, from points in New Jersey to points in Kentucky. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Ironton, Ohio.

No. MC–110525 (Sub-No. E392), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Dowingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivations of petroleum or bituminous materials), in bulk, in tank vehicles, from points in New Jersey to points in Louisiana. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E393), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Dowingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677 (except bituminous products and materials), in bulk, in tank vehicles, from points in New Jersey to points in Michigan. The purpose of this filing is to eliminate the gateways of Follansbee and Natrium, W. Va.

No. MC–110525 (Sub-No. E394), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in New Jersey to points in Minnesota. The purpose of this filing is to eliminate the gateway of Bridgeville, Pa.

No. MC–110525 (Sub-No. E395), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivations of petroleum or bituminous materials), in bulk, in tank vehicles, from points in New Jersey to points in Mississippi. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E396), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irrgeular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Missouri. The purpose of this filing is to eliminate the gateway of South Fayette Township, Allegheny County, Pa.

No. MC–110525 (Sub-No. E397), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Montana. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E398), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Nebraska. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E399), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Nevada. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E400), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in New Mexico. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E401), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in North Carolina. The purpose of this filing is to eliminate the gateway of Baltimore, Md.

No. MC–110525 (Sub-No. E402), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehile, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in North Dakota. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E403), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Ohio. The purpose of this filing is to eliminate the gateway of points in Allegheny County, Pa.

No. MC–110525 (Sub-No. E404), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Oklahoma. The purpose of this filing is to eliminate the gateway of Institute, W. Va.

No. MC–110525 (Sub-No. E405), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey, to points in Oregon. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E406), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in New Jersey to points in South Carolina. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E407), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in South Dakota. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E408), filed May 8, 1974. Applicant: CHEMICAL

LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Tennessee, restricted against the transportation of bituminous products and materials to points in that part of Tennessee on and east of U.S. Highway 27. The purpose of this filing is to eliminate the gateway of Institute, W. Va.

No. MC–110525 (Sub-No. E409), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey, to points in Utah. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston,, Ohio.

No. MC–110525 (Sub-No. E410), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Dowingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), from points in New Jersey to points in Virginia. The purpose of this filing is to eliminate the gateways of Wilmington, Del., Baltimore, Md., and those points in Virginia within the District of Columbia commercial zone.

No. MC–110525 (Sub-No. E411), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Washington. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E412), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in New Jersey to points in that part of West Virginia on and west of U.S. Highway 219. The purpose of this filing is to eliminate the gateway of Morgantown, W. Va.

No. MC–110525 (Sub-No. E413), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in New Jersey to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–110525 (Sub-No. E414), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey, to points in Wyoming. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E415), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell* Co., *Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in New York to points in Alabama. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Charleston, W. Va.

No. MC–113843 (Sub-No. E41), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Indiana to points in Cattaraugus, Chautauque, and Erie Counties, N.Y. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y.

No. MC–113843 (Sub-No. E42), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, and frozen vegetables*, from points in Indiana to Manchester, N.H., and Portland, Maine. The purpose of this filing is to eliminate the gateway of Dundee, N.Y.

No. MC–113843 (Sub-No. E43), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Indiana, to Portland and Bangor, Maine, Rutland, Vt., and Manchester, N.H. The purpose of this filing is to eliminate the gateway of Dundee, N.Y.

No. MC–113843 (Sub-No. E44), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Connecticut to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Le Roy, N.Y.

No. MC 113843 (Sub-No. E45), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Rhode Island to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Le Roy, N.Y.

No. MC–113843 (Sub-No. E47), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts*, as described in Section A of Appendix I to the report in *Descriptions In Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (except frozen foods and commodities in bulk, in tank vehicles), from Boston, Mass., to points in Illinois. The purpose of this filing is to eliminate the gateway of Hamlin, N.Y.

No. MC–113843 (Sub-No. E48), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles and frozen foods), from Boston, Mass., to points in Indiana. The purpose of this filing is to eliminate the gateway of Hamlin, N.Y.

No. MC–113843 (Sub-No. E49), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts*, as described in Section A of Appendix I to the report in *Descriptions*

V 39 109 JUN 5 74 XUM

in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles and frozen foods), from Boston, Mass., to points in Michigan. The purpose of this filing is to eliminate the gateway of Hamlin, N.Y.

No. MC–113843 (Sub-No. E50), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products,* as described in Section A of Appendix I to the report in *Descriptions In Motor Carrier Certificates,* 61 M.C.C. 209 and 766 (except commodities frozen and in bulk, in tank vehicles) from Boston, Mass., to points in Illinois and Indiana. The purpose of this filing is to eliminate the gateway of Williamson, N.Y.

No. MC–113843 (Sub-No. E51), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen foods,* from points in Massachusetts to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Le Roy, N.Y.

No. MC–114045 (Sub-No. E87), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen meats* (except hides and commodities in bulk), from points in Texas (except Palestine), to points in Ohio and the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Lexington, Ky.

No. MC–114045 (Sub-No. E110), filed May 10, 1974. Applicant: Trans-Cold Express, Inc., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen pies* and *frozen bakery products,* from Pittsburgh and Saltsburgh, Pa., to points in Colorado, Nevada, Oregon, Utah, and Washington. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC–114045 (Sub-No. E111), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Prepared unfrozen food products* (except in bulk, and except meats, meat products, meat by-products and dairy products), in vehicles equipped with mechanical refrigeration, from the plant site and warehouse facilities utilized by the Pillsbury Company at Cincinnati, Ohio, to points in Arizona and New Mexico. The purpose of this filing is to eliminate the gateway of Muscatine, Iowa.

No. MC–114045 (Sub-No. E112), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, frozen vegetables, frozen fruit concentrates, frozen pies, and frozen potato products,* from Ontario, Oreg., to points in Kentucky, Tennessee (except Memphis), and Pittsburgh, Pa., and the District of Columbia. The purpose of this filing is to eliminate the gateway of points in Texas.

No. MC–114045 (Sub-No. E113), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts,* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766 (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from Dayton, Ohio, to points in Oregon and Washington. The purpose of this filing is to eliminate the gateway of Evansville, Indiana.

No. MC–114045 (Sub-No. E114), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen meats* (except hides and commodities in bulk), from Cleveland, Ohio to points in Florida. The purpose of this filing is to eliminate the gateway of Lexington, Ky.

No. MC–114045 (Sub-No. E115), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen dairy products,* (1) from Waverly, Fredonia, and Dundee, N.Y., to points in Oregon and Utah, and (2) from New York, N.Y., to points in Idaho, Oregon, Washington, and Utah. The purpose of this filing is to eliminate the gateway of Oklahoma City, Okla.

No. MC–114045 (Sub-No. E116), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Unfrozen dairy products* as described in Section B of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209, (except commodities in bulk, in tank vehicles), from Vineland, N.J., to points in Idaho, Oregon, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of Hillsboro, Hutchinson, or Wichita, Kansas.

No. MC–114045 (Sub-No. E117), filed May 9, 1974. Applicant: TRANS–COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen pies and frozen bakery products,* from Cleveland, Ohio to points in Arizona, California, Nevada, New Mexico, Oregon, and Utah. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC–114045 (Sub-No. E125), filed May 9, 1974. Applicant: TRANS–COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same as above) Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products,* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766, from Miami, Okla., to points in Connecticut, Massachusetts, and Rhode Island. The purpose of this filing is to eliminate the gateway of Wichita, Kans.

No. MC–114045 (Sub-No. E126), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box. 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen dessert and bakery topping,* from Chadds Ford, Pa., to New Orleans and Shreveport, La. The purpose of this filing is to eliminate the gateway of Louisville, Ky.

No. MC–114045 (Sub-No. E127), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box. 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen pies and frozen bakery products,* from Buffalo, New York City, Waverly, Fredonia, Dundee, Brockport, and Rochester, N.Y., to points in Arizona, California, New Mexico, Nevada, Oregon, and Utah. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC–114045 (Sub-No. E128), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products,* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766, from Miami,

Okla., to points in Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of Dodge City, Kans.

No. MC–114045 (Sub-No. E129), filed May 10, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: J. B Stuart (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Canned meats,* from Lindale, Tex., to points in Colorado, Idaho, Oregon, North Dakota, South Dakota, Utah, and Washington. The purpose of this filing is to eliminate the gateway of Dodge City, Kans.

[Notice 45]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

MAY 31, 1974.

The following publications (except as otherwise specifically noted, each applicant on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application, are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 109533 (Sub-No. 54) (Republication), filed July 9, 1973, and published in the FEDERAL REGISTER issue of September 20, 1973, and republished this issue. Applicant: OVERNITE TRANSPORTATION COMPANY, a Corporation, 1100 Commerce Road, Richmond, Va. 23224. Applicant's representative: Eugene T. Liipfert, Suite 1100, 1660 L Street, NW., Washington, D.C. 20036. An Order of the Commission, Operating Rights Board, dated May 6, 1974, and served May 22, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over regular routes, of *general commodities* (except those of usual value, Classes A and B explosives, new furniture, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Bluefield, W. Va., and Huntington,

V 39 109 JUN 5 74 XUM

W. Va., from Bluefield over U.S. Highway 460 to junction West Virginia Turnpike (Interstate Highway 77), thence over West Virginia Turnpike (Interstate Highway 77) to Charleston, W. Va., thence over Interstate Highway 64 to Huntington, and return over the same route, serving no intermediate points, and serving the off-route point of Louisa, Ky., subject to the condition that the regular-route authority granted herein shall not be severable, by sale or otherwise, from the irregular-route authority conatined in No. MC-109533 (Sub-Nos. 45 and 48); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purposes of this republication are (1) to delete uncrated new household, office, and store appliances and equipment, and (2) to delete Ashland and Catlettsburg, Ky., Chesapeake, Ohio, and Ceredo and Kenova, W. Va., as off-route points as previously published. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC-113658 (Sub-No. 7) (Republication), filed January 30, 1973, and published in the Federal Register issue of March 8, 1973, as Scott Truck Line, Inc., now reentitled Neylon Freight Lines, Inc., and republished this issue. Applicant: NEYLON FREIGHT LINES, INC., Lincoln, Nebr. Applicant's representative: Marion F. Jones, Suite 1600, Lincoln Center, 1660 Lincoln Street, Denver, Colo. 80203. An Order of the Commission, Review Board Number 1, dated May 15, 1974, and served May 23, 1974, finds that Neylon Freight Lines, Inc., has been substituted for Scott Truck Line, Inc., and finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of *general commodities* (except household goods as defined by the Commission, emigrant moveables, commodities of unusual value, classes A and B explosives, commodities requiring special equipment, and commodities in bulk) between points in Nebraska, on the one hand, and, on the other, points in that part of Colorado east and north of a line beginning at the Colorado-Wyoming State line and extending along U.S. Highway 87 to Denver, Colo., thence along U.S. Highway 40 to Strasburg, Colo., and thence along U.S. Highway 36 to the Colorado-Kansas State line, including points on the indicated portions of the highways specified; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to show that the authority granted is to be that of an irregular route as opposed to a regular route. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 59150 (Sub-No. 16) (Notice of filing of petition to eliminate a commodity restriction), filed May 13, 1974. Petitioner: PLOOF TRANSFER COMPANY, INC., 1901 Hill Street, P.O. Box 38047, Jacksonville, Fla. 32202. Petitioner's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, Fla. 32207. Petitioner holds a motor *common carrier* certificate in No. MC 59150 (Sub-No. 16) issued September 22, 1966, authorizing transportation, over irregular routes, of *tractors* (except truck tractors) and *parts, implements, attachments, accessories, and supplies therefor,* when moving incidentally thereto as a part of the same shipment (except commodities which because of their size or weight require the use of special equipment or handling) between points in Arkansas, North Carolina, South Carolina, Florida, Georgia, Tennessee, Alabama, and Mississippi, restricted to traffic originating at and destined to points in the states described above. By the instant petition, petitioner seeks to eliminate the commodity restriction "except commodities which because of size or weight require the use of special equipment or handling." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 134531 (Sub-No. 1) (Notice of filing of petition to modify an origin point), filed May 17, 1974. Petitioner: AGGREGATE HAULERS, INC., P.O. Box 386, Cayce, S.C. 29033. Petitioner's representative: Edward J. Morrison, P.O. Box 67, Lexington, S.C. 29072. Petitioner holds a motor *common carrier* certificate in No. MC 134531 (Sub-No. 1) issued September 17, 1971, authorizing, as pertinent, transportation, over irregular routes, of, *cement and mortar mix,* in bags, from points in Richland County, S.C., to points in Georgia and North Carolina. By the instant petition, petitioner seeks to modify its origin point to read as follows: "from points in Richland County, S.C., and that portion of the Columbia, S.C., Commercial Zone in Lexington County, S.C." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 135867 (Sub-No. 1) (Notice of filing of petition to modify permit), filed May 13, 1974. Petitioner: H.T.L., INC., P.O. Box 122, Fairfield, Ala. 35064. Petitioner's representative: Robert E. Tate, P.O. Box 517, Evergreen, Ala. 36401. Petitioner holds a motor *contract carrier,* permit in No. MC 135867 (Sub-No. 1) issued June 8, 1972, authorizing transportation, over irregular routes, of (1) *steel and steel products,* from the plant and warehouse site of Hanna Steel Corporation at Fairfield, Ala., to points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, and Texas; and (2) *equipment materials and supplies* used in the processing of steel and steel products (except commodities in bulk and except iron and steel articles from Nashville, Tenn.), from points in the destination states named in (1) above, to the plant and warehouse site of Hanna Steel Corporation, at Fairfield, Ala., under a continuing contract or contracts with Hanna Steel Corporation. By the instant petition, petitioner seeks to add the plant and warehouse site of Hanna Steel Corporation at Gadsen, Ala., as an additional point of origin in (1) above, and as a destination point in (2) above. Any interested person, or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

Applications Under Sections 5 and 210(a)(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

Motor Carriers of Property

Applications for Certificates or Permits Which Are To Be Processed Concurrently With Applications Under Section 5 Governed by Special Rule 240 to the Extent Applicable

No. MC-56640 (Sub-No. 33), filed May 1, 1974. Applicant: DELTA LINES, INC., 333 Hegenberger Road, Oakland, Calif. 94621. Applicant's representative: Marshall G. Berol, 100 Bush Street, 21st Floor, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: (A) *General commodities* (except those of unusual value, Classes A and B explosives other than small arms ammunition, household goods, as defined by the Commission, livestock, and commodities in bulk), (1) between San Bernardino, California, and Las Vegas, Nevada, serving all intermediate points; and off-route points in Nevada within 50 miles of Las Vegas: From San Bernardino over U.S. Highway 91 to Las Vegas, and return over the same route; (2) between Los Angeles, California, and San Bernardino, California, serving all intermediate points; and off-route points within 25 miles of Los Angeles: From Los Angeles over U.S. Highway 66 to San Bernardino and return over the same route; (3) between Las Vegas, Nevada, and Boulder City, Nevada, serving all intermediate points; and off-route points in Nevada within 50 miles of Las Vegas: From Las Vegas over U.S. Highway 93 to Boulder City and return over the same route; (4) between Las Vegas, Nevada, and Mercury, Nevada, serving all intermediate points; and off-route points in Nevada within 50 miles of Las Vegas: From Las Vegas over U.S. Highway 95 to junction unnumbered highway, thence over unnumbered highway to Mercury, and return over the same route.

(B) *General commodities* (except livestock and household goods as defined by the Commission), between Battle Mountain, Nevada, and Tonopah, Nevada, serving no intermediate points, and serving the off-route points of Copper Canyon, Nevada, and points within 10 miles of Copper Canyon: From Battle Mountain over Nevada Highway 8A to junction U.S. Highway 6, and thence over U.S. Highway 6 to Tonopah, and return over the same route. RESTRICTION: The authority granted above, to the extent that it authorizes the transportation of Classes A and B explosives, shall expire in five years. (C) *General commodities* (except explosives, wool, and household goods as defined by the Commission), between Beatty, Nevada, and Mojave, California, serving no intermediate points: From Beatty over U.S. Highway 95 to junction Nevada Highway 29, thence over Nevada Highway 29 to Nevada-California State line, thence over California Highway 127 to Baker, California, and thence over U.S. Highway 466 to Mojave and return over the same route. (D) *General commodities* (except explosives and wool), between junction U.S. Highway 6 and Nevada Highway 47, and Silverpeak, Nevada, serving all intermediate points; and points within 80 miles of Silverpeak, Nevada: From junction U.S. Highway 6 and Nevada Highway 47 over Nevada Highway 47 to Silverpeak, Nevada, and return over the same route. (E) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious of contaminating to other lading), between Tonopah, Nevada, and Las Vegas, Nevada, serving all intermediate points, and the off-route point of the site of the United States Atomic Energy Project, near Indian Springs, Nevada: From Tonopah over U.S. Highway 95 to Las Vegas, and return over the same route.

(F) *General commodities,* except household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, between Los Angeles, California, and Death Valley Junction, California, serving all intermediate points on California Highway 127, north of Baker, California, not including Baker, and the off-route point of Tecopa, California, service to be restricted to shipments originating at or destined to Death Valley Junction, Tonopah, and the described intermediate points on California Highway 127, north of Baker, California: From Los Angeles over U.S. Highway 66 via Victorville, California, to Barstow, California, thence over U.S. Highway 91 via Yermo and Harvard, California, to Baker, Calif., and thence over California Highway 127 via Shoshone, Calif., to Death Valley Junction, and return over the same route. (G) *General commodities* (except livestock and household movings, including office furniture, uncrated), between junction U.S. Highway 95 and Nevada Highway 29, and Death Valley Junction, Calif., serving all intermediate points: From junction U.S. Highway 95 and Nevada Highway 29 over Nevada Highway 29 to the Nevada-California State line, and thence over California Highway 127 to Death Valley Junction, and return over the same route. (H) *General commodities* (except livestock, commodities in bulk, and articles injurious or contaminating to other lading), between Death Valley Junction, Calif., and Beatty, Nev., serving all intermediate points: From Death Valley Junction over California Highway 190 to junction unnumbered highway thence over unnumbered highway via Hells Gate and Daylight Pass, California, to the California-Nevada State line, and thence over Nevada Highway 58 to Beatty, and return over the same route.

(I) *General commodities* (except livestock, commodities of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Las Vegas, Nev., and Henderson, Nev., serving the intermediate point of Whitney, Nevada: From Las Vegas over U.S. Highway 95 to Henderson and return over the same route. IRREGULAR ROUTES: *General commodities,* from Tonopah, Nev., to Manhattan, Round Mountain, Gold Point, Cuprite, Lida, Goldfield, Klondyke, Silverpeak, Blair Junction, Gilbert, Millers, and Coaldale, Nev., and points within five miles of each and return to Tonopah, Nevada. ALTERNATE ROUTES FOR OPERATING CONVENIENCE ONLY: *General commodities* (except household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between junction U.S. Highway 95 and Nevada Highway 16, about 16 miles east of Lathrop Wells, Nevada, and Shoshone, Calif., connection with carrier's presently authorized regular-route operations, serving no intermediate points: From junction U.S. Highway 95 and Nevada Highway 16 over Nevada Highway 16 to Pahrump, Nevada, thence over Nevada Highway 52 to the Nevada-California State line, and thence over unnumbered highway to Shoshone and return over the same route. This is a matter directly related to the Section 2 proceeding in MC-F-12212 published in the Federal Register issue of May 15, 1974. If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif., or Las Vegas, Nev.

No. MC-111231 (Sub-No. 186), filed April 25, 1974. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, Ark. 72764. Applicant's representative: A. Alvis Layne, Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Clarksdale, Miss., and Jackson, Miss.: From Clarksdale over U.S. Highway 49 to Tutwiler, Miss., thence over U.S. Highway 49E to Yazoo City, Miss. (also over U.S. Highway 49W), and thence over U.S. Highway 49 to Jackson, and return over the same routes, serving all intermediate points on and north of Mississippi Highway 8 and serving all other points in that part of Mississippi on and south of Mississippi Highway 4, on and west of Interstate Highway 55, and on and north of Mississippi Highway 8 (except points on U.S. Highway 51 and points in their commercial zones) as off-route points, restricted to the transportation of shipments moving from, to, or through Jackson, Miss., with service at Jackson and points in its commercial zone restricted against the transportation of shipments originating at, destined to, or interchanged with other carriers at Memphis, Tenn., and points in its commercial zone.

Note.—Common control may be involved. The authority sought herein is intended to convert to regular routes the irregular-routes certificate Jones Truck Lines seeks to acquire from Shippers Express in MC-66746. This is a matter directly related to the Section 5 proceeding in MC-F 12210 published in the FR issue of May 15, 1974. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Jackson, Miss.

No. MC 125433 (Sub-No. 50), filed April 11, 1974. Applicant: F-B TRUCK LINE COMPANY, a Corporation, 1891 West 2100 South, Salt Lake City, Utah 84119. Applicant's representative: Earl H. Scudder, Jr., P.O. 82028, 605 South

V 39 109 JUN 5 74 XUM

14th Street, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities* which by reason of size, weight, or bulk require specified handling or the use of special equipment; (2) *self-propelled articles* transported on trailers; (3) *construction, mining and logging machinery, equipment, materials and supplies;* (4) *commodities* which do not require the use of special equipment or special handling, when moving in the same shipments on the same bill of lading as the commodities described in (1), (2), and (3) above, and *materials, parts or supplies* that are appurtenant to or necessary part of the commodities described in (1), (2), and (3) above; (5) *iron and steel articles* as described in Appendix V to the Report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766; and (6) pipe and fittings, between points in California.

NOTE.—Common control may be involved. Applicant seeks to purchase the operating rights held by Dalzell Corporation in Docket MC 121075. This is a matter directly related to the Section 5 purchase proceeding in MC–F–12194 published in the Federal Register issue of April 24, 1974. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC–F–12032. (Supplemental) (DORN'S TRANSPORTATION INC. —Purchase (Portion)—FINAN'S EXPRESS, INC.), published in the November 7, 1973, issue of the Federal Register on page 30804. The prior publication should be amended to show that if the application is approved Dorn's Transportation Inc., seeks authority to eliminate the gateway of Barre, Mass.

The following notice of proposal to eliminate gateway for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protest against the proposed elimination of the gateway herein described may be filed with the Interstate Commerce Commission.

No. MC–F–12089. (Supplemental) (BOND TRANSPORT, INC.—Purchase (Portion)—PARKHILL TRUCK COMPANY), published in the January 16, 1974, issue of the Federal Register on pages 2058 and 2059. By the subject application, Bond Transport, Inc., seeks to acquire authority to operate as a motor common carrier, over irregular routes, of various specified commodities, between points in Indiana, on the one hand, and, on the other, points in Ohio and a described area of Illinois. The prior publication should be amended to show that Bond Transport, Inc., proposes to eliminate gateway in Ohio for the performance of through service under the combined rights. The application is now unopposed.

The following notice of proposal to eliminate gateway for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of the gateway herein described may be filed with the Interstate Commerce Commission.

No. MC–F–12223. Authority sought for purchase by NEWPORT TRUCKING CORP., c/o Franklin Swersky, Suite 1803, 744 Broad St., Newark, N.J. 07102, of the operating rights and property of RELAY TRANSPORT, INC., 300 Marcus Blvd., Lake Success, N.Y. 11040, and for acquisition by ARTHUR M. GOLDBERG, 1415 Coles Ave., Mountainside, N.J. 07092, of control of such rights and property through the purchase. Applicants' attorneys: A. David Millner, 744 Broad St., Newark, N.J. 07102, and Leonard A. Jaskiewicz, 1730 M St. NW., Washington, D.C. 20036. Operating rights sought to be transferred: *Flavoring syrup, liquid and invert sugar,* all commodities moving in bulk, in tank vehicles, as a *contract carrier* over irregular routes, from Long Island City, N.Y., to Alexandria, Va., traversing Delaware, Maryland, New Jersey, Pennsylvania, and the District of Columbia; *flavoring syrup,* in bulk, in tank vehicles, from Long Island City, N.Y., to Newark, New Brunswick, Teterboro, and Asbury Park, N.J., and Philadelphia, Pa.; *liquid sugar,* in bulk, in tank vehicles, from Long Island City, N.Y., to Newark, N.J.; *invert sugar,* in bulk, in tank vehicles, from Long Island City, N.Y., to Newburgh, N.Y., Hamden and Fairfield, Conn., and Elizabeth and Bridgeton, N.J.; *syrup,* in bulk, in tank vehicles, from Long Island City, N.Y., to points in Atlantic County, N.J., Fairfield and Hartford Counties, Conn., and Wilmington, Del.; liquid sugar, invert sugar, corn syrup, and blends thereof, in bulk, in tank vehicles, from Long Island City, N.Y., to points in Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Middlesex, Monmouth, Morris, Passaic, and Union Counties, N.J., Philadelphia, Pa., Wilmington, Del., and points in Fairfield, Hartford, New Haven, and New London Counties, Conn., and Springfield, Mass.; *flavoring syrup, liquid sugar, invert sugar,* and blends thereof, in bulk, in tank vehicles, from the plant sites of PepsiCo, Inc., and Pepsicola Metropolitan Bottling Co., Inc., at Long Island City, N.Y., to points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, Virginia, and the District of Columbia; *carbonated beverages,* in containers, from the plant site of PepsiCo, Inc., and Pepsi-Cola Metropolitan Bottling Co., Inc., at Long Island City, N.Y., to points in Connecticut, Massachusetts, New Jersey, New York, and Pennsylvania, and return with *empty containers,* with restrictions. Vendee holds no authority from this Commission. However it is affiliated with (1) FAIRLAWN TRUCKING CO., INC., 21–02 Morlot Ave., Fairlawn, N.J. 07410, and (2) GROSS & HECHT TRUCKING INC., P.O. Box 514, Newark, N.J. 59806, which are authorized to operate as *contract carriers* in (1) New York and New Jersey (2) New York and New Jersey. Application has been filed for temporary authority under section 210a(b).

No. MC–F–12224. Authority sought for purchase by CENTRAL TRANSFER COMPANY, 10880 Springfield Rd., Union, N.J. 07083, of the operating rights of METROPOLITAN FREIGHT CARRIERS CORP., 57 Charles St., Newark, N.J. 07105, and for acquisition by P. A. ALBANESE, also of Union, N.J. 07083, of control of such rights through the purchase. Applicants' attorneys: A David Millner, 744 Broad St., Newark, N.J. 07102 and George Olsen, 69 Tonnelle Ave., Jersey City, N.J. 07306. Operating rights sought to be transferred: *General commodities,* excepting among others, classes A and B explosives, household goods, and commodities in bulk, as a *common carrier* over irregular routes, between New York, N.Y., and points in Orange, Rockland, Westchester, and Nassau Counties, N.Y., on the one hand, and, on the other, points in that part of New Jersey north of a line beginning at Trenton, N.J., and extending in a southeasterly direction through Lakehurst and Toms River, N.J., to the Atlantic Ocean, including the points named. Vendee is authorized to operate as a *common carrier* in Maryland, New Jersey, New York, and Pennsylvania. Application has been filed for temporary authority under section 210a(b).

No. MC–F–12225. Authority sought for control and merger by FAIRALL TRUCKING COMPANY, 18472 Allen Rd., Wyandotte, MI 48192, of the operating rights and property of GREAT LAKES TRUCKING COMPANY, 29 Washington St., Monroe, MI 48161, and for acquisition by MARY I. FAIRALL, 10167 Reeck Rd., Allen Park, MI 48101, THOMAS A. FAIRALL, 20655 Canal, Grosse Ile, MI 48138, and GEORGE M. FAIRALL, 2171 Edsel Dr., Trenton, MI 48183, of control of such rights and property through the transaction. Applicants' attorney: Wilhelmina Boersma, 1600 First Federal Bldg., Detroit, MI 48226. Operating rights sought to be controlled and merged: *Wax paper, panel boards,* finished or unfinished, and *raw material* used in the manufacture thereof, as a *contract carrier* over regular routes, between Detroit, Mich., and Toledo, Ohio, serving various intermediate and off-route points; *paper and paper products,* over irregular routes, between Monroe,

Mich., on the one hand, and, on the other, points in Ohio, from Monroe, Mich., to Connersville, Ind., and points in that part of Indiana on and north of U.S. Highway 40, from Monroe, Mich., to points in Ohio, and those in that part of Pennsylvania on and west of U.S. Highway 19, between Donora, Pa., on the one hand, and, on the other, points in Michigan, Ohio, and Indiana, with restriction; *strawboard, fibreboard, corrugated board, and boxes* manufactured therefrom, from Monroe, Mich., to points in Illinois, and certain specified points in Missouri, Wisconsin, and West Virginia; *raw materials* used in the manufacture of the above-specified commodities, from the above-specified destination points to Monroe, Mich.; *raw materials* used in the manufacture of paper and paper products, from Connersville, Ind., and points in that part of Indiana on and north of U.S. Highway 40 to Monroe, Mich., with restriction, from points in Ohio, and those in that part of Pennsylvania on and west of U.S. Highway 19, to Monroe, Mich.; *scrap and waste paper* (except in bulk), from points in Pennsylvania, Wisconsin, Illinois, Indiana, West Virginia, Ohio, and Kentucky, to Constantine, Palmyra, and Adrian, Mich., with restriction. FAIRALL TRUCKING COMPANY, is authorized to operate as a *contract carrier* in Illinois, Indiana, Michigan and Ohio. Application has been filed for temporary authority under section 210a(b).

Notice is hereby given that on May 9, 1973, Caffall Bros. Forest Products, Inc. (Caffall Bros.) a non-carrier, filed with the Interstate Commerce Commission an application under Section 5(2) of the Interstate Commerce Act (Act) to acquire through the purchase of all of its outstanding stock of the Mirene Company, a water carrier subject to Part III of the Act; and that by the same application C. C. Caffall, R. H. Caffall, and Rex Caffall, Jr., who control Caffall Bros. through ownership of all of its outstanding capital stock, seek authority to acquire control of the operating rights and property through the transaction. The application has been assigned Finance Docket No. 27652.

C. C. Caffall, R. H. Caffall, and Rex Caffall, Jr., also, control Ramona Tow Boat, Inc., a water carrier subject to Part III of the Act, through ownership of 97.4% of its outstanding capital stock.

The Mirene Company operates as a common carrier by water on the Columbia and Willamette Rivers and tributaries and along the Pacific Coast from Grays Harbor, Washington, to Coos Bay, Oregon, serving various points in Oregon and Washington. Ramona Tow Boat Co., Inc., operates as a common carrier by water on the Columbia and Willamette Rivers and tributary waterways serving ports in Oregon and Washington.

In the opinion of the applicants, the requested Commission action involves no known effect on the quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), Implementation — Nat'l Environmental Policy Act, 1969, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effects is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (B) (1)–(5), 340 I.C.C. 431, 461.

An application for temporary authority pertaining to this proceeding has been filed under Section 311(b). The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the Federal Register.

NOTICE

Notice of filing of an Application By Thomas F. Patton and Ralph S. Tyler, Jr., Trustees of the property of Erie Lackawanna Railway Company, Debtor, under Section 5(2) of the Interstate Commerce Act, as amended, for an order or orders granting such approval and authorization as is requisite to the purchase and operation of a part of the Vallonia Branch and a portion of the Meadville Branch of Bessemer and Lake Erie Railroad Company. Finance Docket No. 27574.

Notice is hereby given that on February 1, 1974, the above Application was filed with the Interstate Commerce Commission.

With respect to this notice, the following information is supplied:

1. Name and address of applicants:

Thomas F. Patton and Ralph S. Tyler, Jr., Trustees of the Property of Erie Lackawanna Railway Company, Debtor, Midland Building, 101 Prospect Avenue NW., Cleveland, Ohio 44115.

Name and address of counsel for applicants:

Richard Jackson, Vice President—Law, Erie Lackawanna Railway Company, Midland Building, 101 Prospect Avenue NW., Cleveland, Ohio 44115.

2. The proposed transaction covers the acquisition by purchase for cash of approximately 7370.4 linear feet of lines of railroad of the Bessemer and Lake Erie Railroad Company (B&LE) a carrier subject to Part I of the Interstate Commerce Act.

3. The property in question consists of a single track line of railroad located in Crawford County, Pennsylvania, and running easterly from State Route 85 in the City of Meadville to its terminus at the bridge crossing French Creek. The operation sought to be performed will be a substitution of branch line switching operations by Erie Lackawanna Railway Company in lieu of the operations presently performed in the same area and over the same trackage by B. & L.E.

4. In the opinion of the applicant, this application is not a major Federal action within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Nat'l Environmental Policy Act, 1969,* 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (B) (1)–(5), 340 I.C.C. 431, 461.

5. The proceedings will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protest submitted shall be filed with the Interstate Commerce Commission no later than thirty (30) days of the date of filing in the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 78]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 30, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131) published in the Federal Register, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the Federal Register publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 29555 (Sub-No. 70 TA), filed May 21, 1974. Applicant: BRIGGS TRANSPORTATION CO., a Corporation, 2360 W. County Road C, St. Paul, Minn. 55113. Applicant's representative: Winston W. Hurd (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, except those requiring temperature control, and those injurious or contaminating to other lading), serving the New Gentlemen Power Station located approximately 5 miles south of Sutherland, Nebr., as an off-route point in connection with applicant's authorized regular route operations, for 180 days. SUPPORTING SHIPPER: Stearns Roger Inc., P.O. Box 5888, Denver, Colo. 80217. SEND PROTESTS TO: Raymond T. Jones, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 414 Federal Building and U.S. Courthouse, 110 So. 4th Street, Minneapolis, Minn. 55401.

NOTE.—Applicant will interline with other carriers at all points in our system where interlining is possible.

No. MC 30844 (Sub-No. 508 TA), filed May 20, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, P.O. Box 5000, Waterloo, Iowa 50705. Applicant's representative: Larry L. Strickler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Air cleaner filter paper*, from West Groton, Mass., to Dixon, Ill.; Cresco, Iowa; Minneapolis, Minn.; and Kirksville, Mo., for 180 days. SUPPORTING SHIPPER: Donaldson Company, Inc., P.O. Box 1299, Minneapolis, Minn. 55440. SEND PROTESTS TO: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 36509 (Sub-No. 23 TA), filed May 15, 1974. Applicant: LOOMIS ARMORED CAR SERVICE, INC., 55 Battery Street, Seattle, Wash. 98121. Applicant's representative: George H. Hart, 1100 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Special nuclear material*, between Richland, Wash., and Hanford Works U.S. Atomic Energy Commission Reservation at or near Richland, Wash., on the one hand, and, on the other, points in the Seattle, Wash., Commercial Zone, on shipments having an immediate prior or subsequent out-of-state movement, for 180 days. MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 25, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will pospone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75137. By order of May 30, 1974, the Motor Carrier Board approved the transfer to James W. Finfrock, doing business as La Cygne Truck Line, La Cygne, Kans., of Certificates Nos. MC-29611, MC-29611 (Sub-No. 2), and MC-29611 (Sub-No. 5), issued March 12, 1962, March 26, 1974, and October 4, 1967, respectively, to Raymond D. Good, doing business as La Cygne Truck Line, La Cygne, Kans., authorizing the transportation of general commodities, with exceptions, and specified commodities from, to, and between La Cygne, Kans., Kansas City, Mo., points in Bates and Cass Counties, Mo., Kansas City, Mo.-Kans., Commercial Zone, and Louisburg, Stilwell, and Stanley, Kans., Clyde N. Christy, Esq., attorney for Applicants, 64 Harrison Street, Topeka, Kans. 66603.

No. MC-FC-75167. By order entered May 28, 1974, the Motor Carrier Board approved the transfer to Earl Koch, Sabetha, Kans., of the operating rights set forth in Certificate No. MC-84574, issued November 12, 1969, to Paul W. Hill, doing business as Hill Truck Line, (Dan E. Turner, Trustee-in-Bankruptcy), Onaga, Kans., authorizing the transportation of general commodities, with the usual exceptions, livestock, feed, seed, farm implements and machinery and parts, oil, hardware, fencing materials, building material, agricultural commodities, and crated furniture, from, to, or between specified points in Kansas and Missouri. Erle W. Francis, Suite 719, 700 Kansas Ave., Topeka, Kans. 66603.

II. Between Salina, Kans., and Herington, Kans., as follows: From Salina, Kans., south over old U.S. Highway 81 to its junction with Kansas Highway 4 thence east on Kansas Highway 4 to Herington, Kans., serving the intermediate and off route points of Kipp, Gypsum, Carlton, Elmo, Dillon, Ramona, and Hope, Kans., and return over the same route. From Salina, Kans., east over unnumbered county road to its junction with Kansas Highway 15 thence south over Kansas Highway 15 approximately 3 miles to its junction with unnumbered county road thence east over said unnumbered county road to its junction with U.S. Highway 77 serving the intermediate points of Navarre and Woodbine, Kans., and return over the same route. From Elmo, Kans., north over Kansas Highway 15 to Abilene, Kans., and return over the same route. From Hope, Kans., north over Kansas Highway 43 to Enterprise, Kans., and return over the same route. From Chapman, Kans., south over unnumbered county road to its junction with unnumbered county road between Navarre and Woodbine, Kans., and return over the same route.

From Chapman, Kans., north over Kansas Highway 206 to its junction with Interstate Highway 70 thence east over Interstate Highway 70 to its junction with U.S. Highway 77 serving the site of North Central Foundry and return over the same route. From Herington Kans., east on U.S. Highway 77 to Develan, Kans., serving the off-route point of the former Herington Air Base now more commonly known as the Herington Industrial Park and return over the same route. III. Between Herington, Kans., and Waterville, Kans., as follows: From Herington, Kans., north over U.S. Highway 77 to Waterville, Kans., serving the intermediate and off-route points of Milford, Bala, Broughton, Riley, Leonardville, and Randolph, Kansas, and return over the same route. Also serving the Rock Springs 4-H Camp approximately 4 miles east of U.S. Highway 77 on Kansas Highway 157 as an off-route point. From Clay Center, Kansas, east on U.S. Highway 24 to Leonardville, Kansas, serving Green, Kans., as an off-route point and return over the same route. From Wakefield, Kans., east over Kansas Highway 82 to its junction with U.S. Highway 77 and return over the same route. IV. Between Salina, Kans., and Clifton, Kans., as follows: From Salina, Kans., north over U.S. Highway 81 to Concordia, Kans., thence east over Kansas Highway 9 to Clifton, Kans., serving the intermediate points of Concordia, Rice, Ames, Clyde, and Vining, Kans., and the off-route point of Wells, Kans., and return over the same route. From Clifton, Kans., south over unnumbered county road to its junction with U.S. Highway 24 and return over the same route. From Miltonvale, Kans., west over U.S. Highway 24 to its junction with U.S. Highway 81 and return over the same route. V. Also, service from and to Bremen and Herkimer, Kans., as off-route points on present route between Washington and Marysville, Kansas. All of the above authority to be tacked to the authority presently held by C & R Truck Line.

NOTE.—Five businessmen in Clyde, Kans., have made a specific request to the Interstate Commerce Commission for service to their town by this applicant. This applicant cannot economically serve the transportation needs of this town without the additional authority outlined in paragraph IV. The Wakefield area is currently without daily service which this applicant can provide. The proposed route between Salina and Herington, Kans., has been served by Graves Truck Line, Inc., through the lease of vehicles and drivers from the applicant to Graves Truck Line for approximately two years. The public convenience and necessity can best be served by this applicant holding its own authority to serve this area and thus eliminating the confusion of the public over the service to this area.

V 39 109 JUN 5 74 XUM

HEARING: July 10 and July 11, 1974, at the Probate Court, 300 West Ash, City County Building, Salina, Kans., at 10:00 A.M. Requests for procedural information should be addressed to the State Corporation Commission, Fourth Floor, State Office Bldg., Topeka, Kans. 66612, and should not be directed to the Interstate Commerce Commission.

Montana Docket No. 2224, filed May 10, 1974. Applicant: ROBERT J. POLISH, R.F.D. SE, Deer Lodge, Mont. Applicant's representative: William R. Taylor, Masonic Temple Bldg., Deer Lodge, Mont. Certificate of public convenience and necessity sought to operate a passenger service as follows: Transportation of *Class "B" persons and baggage* by charter, originating in the City of Deer Lodge to all points and places in the State of Montana and return over and all Montana Interstate and secondary highways. Both, interstate and intrastate authority sought.

HEARING: Date, time, and place not shown. Requests for procedural information should be addressed to the Montana Public Service Commission, 1227 11th Avenue, Helena, Mont. 59601, and should not be directed to the Interstate Commerce Commission.

Tennessee Docket No. MC–5204 (Sub-No. 2), filed May 6, 1974. Applicant: MILAN EXPRESS, INC., P.O. Box 439, Milan, Tenn. 38358. Applicant's representative: Mr. Walter Harwood, P.O. Box 15214, Nashville, Tenn. 37215. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities,* except household goods, commodities in bulk, and articles which because of size or weight require special equipment, between any and all points within 35 miles of Jackson, Tenn., restricted against tacking and restricted against interchange of traffic with Lexington-Paris Motor Freight, Inc. Intrastate, interstate, and foreign commerce authority sought.

HEARING: June 26, 1974, at the Alexandria Room, Ramada Inn, Highway 45 By-Pass, Jackson, Tenn., at 9:30 a.m. Requests for procedural information should be addressed to the Tennessee Public Service Commission, C1–102 Cordell Hull Building, Nashville, Tenn. 37219, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

PART II

DEPARTMENT OF JUSTICE

U.S. Board of Parole

■

PAROLE, RELEASE, SUPERVISION, AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE, U.S. BOARD OF PAROLE

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS

The following rules reflect the revised organization, operation, procedures, and policies of the United States Board of Parole and are published under the authority of 28 CFR, Part O, Subpart V, and 18 U.S.C. 4201–4210, 5001–5037.

The Board of Parole expressly disclaims that its rules are subject to the rulemaking provisions of the Administrative Procedure Act, 5 U.S.C. 553(b).

With the exception of § 2.20, these rules will become effective in the Board's Northeast Region (Region I) on June 5, 1974, and will apply to all subsequent parole and parole revocation hearings conducted in that region. Region I is comprised of the following states: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia. Federal prisoners outside the Northeast Region will be considered for parole and parole revocation under the Board's present rules until such time as the revised procedures are made applicable to other regions as these regions become operational.

Section 2.20, the Board's paroling policy guidelines will become effective nationwide on June 5, 1974. This statement of policy is published in order to inform the public of the Board's customary paroling policy. The guidelines incorporated in the policy statement are merely indications of how the Board generally intends to exercise its discretion in making future parole release decisions.

Part 2 of 28 CFR is revised to read as follows:

Sec.
2.1 Definitions.
2.2 Eligibility for parole, regular adult sentences.
2.3 Same; adult indeterminate sentences.
2.4 Same; juvenile delinquents.
2.5 Same; committed youth offenders.
2.6 Same; sentences under the Narcotic Addict Rehabilitation Act.
2.7 Same; sentences under the gun control statute.
2.8 Same; sentences of six months or less followed by probation.
2.9 Study prior to sentencing.
2.10 Date service of sentence commences.
2.11 Application for parole.
2.12 Hearing procedure.
2.13 Initial hearing.
2.14 Review hearings.
2.15 Petition for consideration of parole prior to date set at hearing.
2.16 Parole of prisoner in state or territorial institution.
2.17 Original jurisdiction cases.
2.18 Granting of parole.
2.19 Consideration by the Board.
2.20 Paroling policy guidelines; statement of general policy.
2.21 Reports considered.
2.22 Communication with the Board.
Sec.
2.23 Delegation to hearing examiners.
2.24 Review of panel decision by the Regional Director and the National Appellate Board.
2.25 Appeal of hearing panel decision.
2.26 Appeal to National Appellate Board.
2.27 Appeal of original jurisdiction cases.
2.28 Reopening of cases.
2.29 Withheld and forfeited good time.
2.30 Release; modification of release date.
2.31 False or withheld information.
2.32 Committed fines.
2.33 Parole to detainers; statement of policy.
2.34 Parole to local or immigration detainers.
2.35 Mental competency proceedings.
2.36 Release plans.
2.37 Release on parole; statement of policy.
2.38 Sponsorship of parolees; statement of policy.
2.39 Mandatory release in the absence of parole.
2.40 Same; youth offenders.
2.41 Reports to police departments of names or parolees; statement of policy.
2.42 Community supervision by United States Probation Officers.
2.43 Duration of period of community supervision.
2.44 Conditions of release.
2.45 Travel by parolees and mandatory releasees.
2.46 Supervision reports, modification and discharge from supervision.
2.47 Modification and discharge from supervision; youth offenders.
2.48 Setting aside conviction.
2.49 Revocation of parole or mandatory release.
2.50 Same; youth offenders.
2.51 Unexpired term of imprisonment.
2.52 Execution of warrant; notice of alleged violations.
2.53 Warrant placed as a detainer and dispositional interview.
2.54 Revocation by the Board, preliminary interview.
2.55 Local revocation hearing.
2.56 Revocation hearing procedure.
2.57 Confidentiality of parole records.

AUTHORITY: 18 U.S.C. 42101–4210, 5001–5037; 28 CFR Part O, Subpart v.

§ 2.1 Definitions.

(a) For the purpose of this part, the term "Board" means the United States Board of Parole; and the terms "Youth Correction Division" and "Division" each mean the Youth Correction Division of the Board.

(b) As used in this part, the term "National Appellate Board" means the Chairman, Vice Chairman, and at least one member of the Board, all of whom also serve as National Appellate Board members in the headquarters office, i.e., Washington, D.C.

(c) All other terms used in this part shall be deemed to have the same meaning as identical or comparable terms have when those terms are used in Chapter 311 of Part IV of Title 18 of the United States Code or Chapter I, Part O, Subpart V of Title 28 of the Code of Federal Regulations.

§ 2.2 Eligibility for parole, regular adult sentences.

Except as set out in the following sections, a federal prisoner wherever confined and serving a definite term or terms of over one hundred and eighty days may, in accordance with the regulations prescribed in this part, be released on parole after serving one-third of such term or terms or after fifteen years of a life sentence or a sentence of over forty-five years (18 U.S.C. 4202).

§ 2.3 Same; adult indeterminate sentences

A Federal prisoner, other than a juvenile delinquent or a committed youth offender, who has been sentenced to a maximum term of imprisonment in excess of one year may, if the court has designated a minimum term to be served, which term may be less than, but not more than, one-third of the maximum sentence imposed, be released on parole after serving the minimum term. In cases in which a court imposes a maximum sentence of imprisonment upon a prisoner and specifies that the prisoner may become eligible for parole at such times as the Board may determine, the prisoner may be released on parole at any time in the discretion of the Board (18 U.S.C. 4208(a)).

§ 2.4 Same; juvenile delinquents.

A juvenile delinquent who has been committed and who, by his conduct, has given satisfactory evidence that he has reformed, may be released on parole at any time under such terms and conditions as the Board deems proper if it shall appear to the satisfaction of the Board that there is a reasonable probability that the juvenile will remain at liberty without violating the law (18 U.S.C. 5037).

§ 2.5 Same; committed youth offenders.

The Youth Correction Division may at any time, after reasonable notice to the Director of the Bureau of Prisons, release conditionally under supervision a committed youth offender. A youth offender committed under section 5010(b) of title 18 of the United States Code to a maximum six year term shall be released conditionally under supervision on or before the expiration of four years from the date of his conviction. A youth offender committed under section 5010 (c) of title 18 of the United States Code to a maximum term which is more than six years shall be released conditionally under supervision not later than two years before the expiration of the term imposed by the court (18 U.S.C. 5017).

§ 2.6 Same; sentences under the Narcotic Addict Rehabilitation Act.

The Narcotic Addict Rehabilitation Act provides for sentence to a maximum term for treatment as a narcotic addict. Parole may be ordered by the Board after at least six months in treatment, not including any period of time for "study" prior to final judgment of the Court. Before parole is ordered by the Board, the Surgeon General or his designated representative must certify that the prisoner has made sufficient progress to warrant his release and the Attorney General or his designated representative may also report to the Board whether the prisoner should be released. Recertification by the Surgeon General prior to reparole consideration is not required (18 U.S.C. 4254).

§ 2.7 Same; sentences under the gun control statute.

A Federal prisoner sentenced under 18 U.S.C. 924 for violation of Federal gun control laws is considered eligible for parole at such time as the Board may determine. Prisoners sentenced under this provision are considered for parole in the same manner as if they had been sentenced under 18 U.S.C. 4208(a)(2).

§ 2.8 Same; sentences of six months or less followed by probation.

A Federal prisoner sentenced under 18 U.S.C. 3651 to serve a period of six months or less in a jail type or treatment institution, with a period of probation to follow, is not eligible for parole.

§ 2.9 Study prior to sentencing.

(a) When an adult Federal offender has been committed to an institution by the sentencing court for observation and study prior to sentencing under the provisions of 18 U.S.C. 4208(b), the report to the sentencing court is prepared and submitted directly by the United States Bureau of Prisons.

(b) The court may order a youth to be committed to the custody of the Attorney General for observation and study at an appropriate classification center or agency. Within sixty days from the date of the order, or such additional period as the court may grant, the Youth Correction Division shall report its findings to the court (18 U.S.C. 5010(e)).

§ 2.10 Date service of sentence commences.

(a) Service of a sentence of imprisonment commences to run on the date on which the person is received at the penitentiary, reformatory, or jail for service of the sentence: *Provided, however,* That any such person shall be allowed credit toward the service of his sentence for any days spent in custody in connection with the offense or acts for which sentence was imposed.

(b) Service of the sentence of any person who is committed to a jail or other place of detention to await transportation to the place at which his sentence is to be served shall commence to run from the date on which he is received at such jail or other place of detention.

(c) Service of the sentence of a committed youth offender or a person committed under the Narcotic Addict Rehabilitation Act commences to run and continues to run uninterruptedly from the date of conviction, except when such offender is on bail pending appeal or is in escape status.

§ 2.11 Application for parole.

(a) A prisoner, other than a juvenile delinquent, a committed youth offender, or an offender committed under the Narcotic Addict Rehabilitation Act, desiring to apply for parole shall execute such application forms as may be prescribed by the Board. Such forms shall be available at each Federal institution and shall be provided to prisoners eligible for parole. Such prisoners may waive parole consideration on a form provided for that purpose. If such a prisoner waives parole consideration, he may later apply for parole and may be heard during the next visit of the Board to the institution where he is confined, provided he has applied prior to 45 days from the first scheduled date of this visit. A prisoner who receives an initial hearing may not waive any subsequent review hearing scheduled by the Board except as provided in § 2.16 (c). New parole applications are not necessary for such review hearings.

(b) A prisoner who is required to apply before receiving a parole hearing but who fails to submit either an application or a waiver form shall be referred to the Board's representatives by the chief executive officer of the institution. The prisoner shall then receive an explanation of his right to apply for parole at a later date.

(c) Juvenile delinquents, youthful offenders, and those committed under the Narcotic Addict Rehabilitation Act shall not apply for parole. Instead, such prisoners shall be scheduled for initial hearings at the first visit to the institution by representatives of the Board after they have been classified by the institution. The Board may order parole as a result of any such hearing or may order review of such prisoner's case at a later date.

§ 2.12 Hearing procedure.

(a) Prisoners shall be given written notice of the time and place of the hearing described in §§ 2.13 and 2.14. Prisoners may be represented at hearings by a person of their choice. The function of the prisoner's representative shall be to offer a statement at the conclusion of the interview of the prisoner by the examiner panel, and to provide such additional information as the examiner panel shall request. Interested parties who oppose parole may select a representative to appear and offer a statement. The presiding hearing examiner shall limit or exclude any irrelevant or repetitious statement.

(b) No interviews with the Board, or any representative thereof, shall be granted to a prisoner unless his name is docketed for a hearing in accordance with Board procedures. Hearings shall not be open to the public, and the records of all such hearings shall be treated as confidential and shall not be open to inspection by the prisoner concerned, his representative or any other unauthorized person.

§ 2.13 Initial hearing.

(a) An initial hearing shall be conducted by a panel of two hearing examiners designated by the Board. The examiner panel shall inform the prisoner of the decision and, if parole is denied, of the reasons therefor. The decision of the examiner panel, subject to provisions of § 2.23 (b) and (c) shall be final unless action is initiated by the Regional Director pursuant to § 2.24.

(b) In accordance with § 2.18 the reasons for parole denial may include, but are not limited to, the following reasons, with further specification where appropriate:

(1) Release at this time would depreciate the seriousness of the offense committed and would thus be incompatible with the welfare of society.

(2) There does not appear to be a reasonable probability at this time that the prisoner would live and remain at liberty without violating the law.

(3) The prisoner has (a serious) (repeated) disciplinary infraction(s) in the institution.

(4) Additional institutional treatment is required to enhance the prisoner's capacity to lead a law-abiding life.

(c) In lieu of or in combination with the reasons in paragraph (b) (1) and (2) of this section the prisoner after initial hearings shall be furnished a guideline evaluation statement which includes the prisoner's salient factor score and offense severity rating as described in § 2.20, as well as the reasons for a decision to continue the prisoner for a period outside the range indicated by the guidelines.

(d) Written notification of the decision or referral under § 2.17 or § 2.24 shall be mailed or transmitted to the prisoner within fifteen working days of the date of the hearing. If parole is denied, the prisoner shall also receive in writing as a part of the decision, the reasons therefor.

§ 2.14 Review hearings.

All hearings subsequent to the initial hearing shall be considered as review hearings. Review hearings by examiners designated by the Board shall be scheduled for each Federal institution, and prisoners shall appear for such hearings in person, except for the following cases:

(a) A case receiving a continuance of six months or less shall be considered by an examiner panel on the record (including a current institutional progress report).

(b) A prisoner with a sentence under 18 U.S.C. 4208(a)(2) or 924 who receives a continuance to a date past one-third of his maximum sentence at an initial hearing shall upon completion of one-third of his sentence receive a review by an examiner panel on the record (including a current institutional progress report).

(c) A prisoner sentenced under the Youth Corrections Act or Federal Juvenile Delinquency Act who receives a continuance of two years or more shall receive a review by an examiner panel on the record (including a current institutional progress report) upon completion of eighteen months of such continuance.

(d) Notification of review decisions shall be given as set forth in § 2.13(c). No prisoner shall be continued for more than three years from the time of the last hearing without further review.

§ 2.15 Petition for consideration of parole prior to date set at hearing.

When a prisoner has met the minimum time of imprisonment required by law,

V39—109 JUN 5 74
XUM

the Bureau of Prisons may petition the responsible Regional Director for reopening the case under § 2.28 and consideration of parole prior to the date set by the Board at the initial or review hearing. The petition must show cause why it should be granted, i.e., an emergency, hardship, or the existence of other extraordinary circumstances that would warrant consideration of early parole.

§ 2.16 Parole of prisoner in state or territorial institution.

(a) Any person who has been convicted of any offense against the United States which is punishable by imprisonment but who is confined therefor in a state reformatory or other state or territorial institution, shall be eligible for parole by the Board on the same terms and conditions by the same authority, and subject to recommital for the violation of such parole, as though he were confined in a Federal penitentiary, reformatory, or other correctional institution.

(b) Federal prisoners serving concurrent state and Federal sentences in state, local, or territorial institutions shall be furnished upon request parole application forms. Upon receipt of the application and any supplementary classification material submitted by the institution, the parole decision shall be made by an examiner panel of the appropriate region on the record only.

(c) Prisoners who are serving Federal sentences exclusively but who are being boarded in state, local, or territorial institutions may be considered for parole on the record only, provided they sign a waiver of their right to a personal hearing. If such a prisoner does not waive a personal hearing, he shall be transferred by the Bureau of Prisons to a Federal institution where he will be considered for parole at the next visit by an examiner panel of the Board.

§ 2.17 Original jurisdiction cases.

(a) A Regional Director may designate certain cases to be within the original jurisdiction of the Regional Directors. All original jurisdiction cases shall be heard by a panel of hearing examiners who shall follow the procedures provided in § 2.12. A summary of this hearing and any additional comments that the hearing examiners may deem germane shall be submitted to the five Regional Directors. The Regional Directors shall make the original decision by a majority vote.

(b) The following criteria will be used in designating cases for the original jurisdiction of the Regional Directors:

(1) *National security.* Prisoners who have committed serious crimes against the security of the nation, e.g., espionage or aggravated subversive activity.

(2) *Organized crime.* Persons who the Regional Director has reason to believe may have been professional criminals or may have played a significant role in an organized criminal activity.

(3) *National or unusual interest.* Prisoners who have received national or unusual attention because of the nature of the crime, arrest, trial or prisoner status, or because of the community status of the offender or his victim.

(4) *Long-term sentences.* Prisoners sentenced to a maximum term of forty-five years (or more) or prisoners serving life sentences.

§ 2.18 Granting of parole.

The granting of parole rests in the discretion of the Board of Parole. The Board may parole a prisoner who is otherwise eligible if (a) in the opinion of the Board such release is not incompatible with the welfare of society; (b) he has observed substantially the rules of the institution in which he is confined; and (c) there is a reasonable probability that he will live and remain at liberty without violating the laws (18 U.S.C. 4203(a)).

§ 2.19 Consideration by the Board.

In the exercise of its discretion, the Board generally considers some or all of the following factors and such others as it may deem appropriate:

(a) Sentence data:

(1) Type of sentence;

(2) Length of sentence;

(3) Recommendations of judge, U.S. Attorney, and other responsible officials.

(b) Present offense:

(1) Facts and circumstances of the offense;

(2) Mitigating and aggravating factors;

(3) Activities following arrest and prior to confinement, including adjustment on bond or probation, if any.

(c) Prior criminal record:

(1) Nature and pattern of offenses;

(2) Adjustment to previous probation, parole, and confinement;

(3) Detainers.

(d) Changes in motivation and behavior:

(1) Changes in attitude toward self and others;

(2) Reasons underlying changes;

(3) Personal goals and description of personal strength or resources available to maintain motivation for law abiding behavior.

(e) Personal and social history:

(1) Family and marital history;

(2) Intelligence and education;

(3) Employment and military experience;

(4) Physical and emotional health.

(f) Institutional experience:

(1) Program goals and accomplishments;

(i) Academic;

(ii) Vocational education, training or work assignments;

(iii) Therapy.

(2) General adjustment:

(i) Inter-personal relationships with staff and inmates;

(ii) Behavior, including misconduct.

(g) Community resources, including release plans:

(1) Residence; live alone, with family or others;

(2) Employment, training, or academic education;

(3) Special needs and resources to meet them.

(h) Results of scientific data and tools:

(1) Psychological tests and evaluations;

(2) Statistical parole experience tables (salient factor score).

(i) Paroling policy guidelines as set forth in § 2.20;

(j) Comments by hearing examiners; evaluative comments supporting a decision, including impressions gained from the hearing.

§ 2.20 Paroling policy guidelines; statement of general policy.

(a) To establish a national paroling policy, promote a more consistent exercise of discretion, and enable fairer and more equitable decision-making without removing individual case consideration, the United States Board of Parole has adopted guidelines for parole release consideration.

(b) These guidelines indicate the customary range of time to be served before release for various combinations of offense (severity) and offender (parole prognosis) characteristics. The time ranges specified by the guidelines are established specifically for the cases with good institutional adjustment and program progress.

(c) These time ranges are merely guidelines. Where the circumstances warrant, decisions outside of the guidelines (either above or below) may be rendered. For example, cases with exceptionally good institutional program achievement may be considered for earlier release.

(d) The guidelines contain examples of offense behaviors for each severity level. However, especially mitigating or aggravating circumstances in a particular case may justify a decision or a severity rating different from that listed.

(e) An evaluation sheet containing a "salient factor score" serves as an aid in determining the parole prognosis (potential risk of parole violation). However, where circumstances warrant, clinical evaluation of risk may override this predictive aid.

(f) These guidelines do not apply to parole revocation or reparole considerations. The Board shall review the guidelines periodically and may revise or modify them at any time as deemed appropriate.

Adult guidelines for decisionmaking, average total time (in months) served before release (including jail time)

(Revised April 1974)

Offense characteristics—Severity of offense behavior (examples)	Offender characteristics—Parole prognosis (salient factor score)			
	Very good (11–9)	Good (8–6)	Fair (5–4)	Poor (3–0)
Low	6–10	8–12	10–14	12–16
Immigration law violations				
Minor theft (includes larceny and simple possession of stolen property less than $1,000)				
Walkaway				
Low moderate	8–12	12–16	16–20	20–25
Alcohol law violations				
Counterfeit currency (passing/possession less than $1,000)				
Drugs: Marijuana, possession (less than $500)				
Firearms Act, possession/purchase/sale single weapon—not altered or machinegun				
Forgery/fraud (less than $1,000)				
Income tax evasion (less than $3,000)				
Selective Service Act violations				
Theft from mail (less than $1,000)				
Moderate	12–16	16–20	20–24	24–30
Bribery of public officials				
Counterfeit currency (passing/possession $1,000–$19,999)				
Drugs:				
"Hard drugs," possession by drug user (less than $500)				
Marijuana, possession ($500) or more)				
Marijuana, sale (less than $5,000)				
"Soft drugs," possession (less than $5,000)				
"Soft drugs," sale (less than $500)				
Embezzlement (less than $20,000)				
Explosives, possession/transportation				
Firearms Act, possession/purchase/sale altered weapon(s), machinegun(s), or multiple weapons				
Income tax evasion ($3,000–$50,000)				
Interstate transportation of stolen/forged securities (less than $20,000)				
Mailing threatening communications				
Misprison of felony				
Receiving stolen property with intent to resell (less than $20,000)				
Smuggler of aliens				
Theft, forgery/fraud ($1,000–$19,999)				
Theft of motor vehicle (not multiple theft or for resale)				
High	16–20	20–26	26–32	32–38
Burglary or larceny (other than embezzlement) from bank or post office				
Counterfeit currency (passing/possession $20,000 or more)				
Counterfeiting (manufacturing)				
Drugs:				
"Hard drugs," possession by drug-dependent user ($500 or more)				
"Hard drugs," sale to support own habit				
Marijuana, sale ($5,000 or more)				
"Soft drugs," possession ($5,000 or more)				
"Soft drugs," sale ($500–$5,000)				
Embezzlement ($20,000–$100,000)				
Interstate transportation of stolen/forged securities ($20,000–$100,000)				
Mann Act (no force—commercial purposes)				
Organized vehicle theft				
Receiving stolen property ($20,000–$100,000)				
Robbery (no weapon or injury)				
Theft, forgery/fraud ($20,000–$100,000)				
Very high	26–36	36–45	45–55	55–65
Robbery (weapon)				
Drugs:				
"Hard drugs," possession by nondrug-dependent user ($500 or more) or by nonuser (any quantity)				
"Hard drugs," sale for profit [no prior conviction for sale of "hard drugs"]				
"Soft drugs," sale (more than $5,000)				
Extortion				
Mann Act (force)				
Sexual act (force)				
Greatest	(Greater than above—however, specific ranges are not given due to the limited number of cases and the extreme variations in severity possible within the category.)			
Aggravated felony (e.g. robbery, sexual act, assault)—weapon fired or serious injury				
Aircraft hijacking				
Drugs: "Hard drugs," sale for profit [prior conviction(s) for sale of "hard drugs"]				
Espionage				
Explosives (detonation)				
Kidnapping				
Willful homicide				

NOTES

1. If an offense is not listed above, the proper category may be obtained by comparing the severity of the offense behavior with those of similar offenses listed.
2. If an offense behavior can be classified under more than one category, the most serious applicable category is to be used.
3. If an offense behavior involved multiple separate offenses, the severity level may be increased.
4. If a continuance is to be given, allow 30 days (1 month) for release program provision.
5. These guidelines are predicted upon good institutional conduct and program performance.
6. "Hard drugs" include heroin, cocaine, morphine, or opiate derivatives, and synthetic opiate substitutes.

GUIDELINE EVALUATION WORKSHEET

Case Name .... Register Number ....

SALIENT FACTORS

Item A .... ☐
No prior convictions (adult or juvenile) = 2
One or two prior convictions = 1
Three or more prior convictions = 0
Item B .... ☐
No prior incarcerations (adult or juvenile) = 2
One or two prior incarcerations = 1
Three or more prior incarcerations = 0
Item C .... ☐
Age at first commitment (adult or juvenile) 18 years or older = 1
Otherwise = 0
Item D .... ☐
Commitment offense did not involve auto theft = 1
Otherwise = 0
Item E .... ☐
Never had parole revoked or been committed for a new offense while on parole = 1
Otherwise = 0
Item F .... ☐
No history of heroin, cocaine, or barbiturate dependence = 1
Otherwise = 0
Item G .... ☐
Has completed 12th grade or received GED = 1
Otherwise = 0
Item H .... ☐
Verified employment (or full-time school attendance) for a total of at least 6 months during last 2 years in the community = 1
Otherwise = 0
Item I .... ☐
Release plan to live with spouse and or children = 1
Otherwise = 0
Total Score .... ☐

Offense Severity: Rate the severity of the present offense by placing a check in the appropriate category. If there is a disagreement, each examiner will initial the category he chooses.

Very High ....
Greatest ....
(e.g. willful homicide, kidnapping)

Jail Time (Months) .... + Prison Time (Months) .... = Total Time Served To Date ...... Months.
Guidelines Used: .... Youth .... Adult .... NARA
Tentative Decision ....

§ 2.21 Reports considered.

Decisions as to whether a parole shall be granted or denied shall be determined on the basis of the application, if any, submitted by the prisoner, together with the classification study and all reports assembled by all the services which shall have been active in the development of the case. These reports may include the reports by the prosecution officers, reports by or for the sentencing court, records from the Federal Bureau of Investigation, reports from the officials in each institution in which the applicant shall have been confined, all records of social agency contacts, and all correspondence and such other records as are necessary or appropriate for complete presentation of the case. Before making a decision as to whether a parole should be granted or denied in any particular case, the Board will consider all available relevant and pertinent information concerning the case. The Board encourages the submission of such information by interested persons.

§ 2.22 Communication with the Board.

Attorneys, relatives, or interested parties wishing a personal interview to discuss a specific case with a representative of the Board of Parole must submit a written request to the appropriate regional office setting forth the nature of the information to be discussed. Such personal interview may be conducted by staff personnel in the regional offices. Personal interviews, however, shall not be held by an examiner or member of the Board, except under the Board's appeals procedures.

§ 2.23 Delegation to hearing examiners.

(a) There is hereby delegated to hearing examiners the authority to make decisions relative to the granting or denial of parole, or reparole and revocation or reinstatement of parole or mandatory release and to fix conditions of parole.

(b) Hearing examiners shall function as two-man panels and the concurrence of both examiners shall be required for their decision. In the event of a split decision by the panel, the appropriate regional Administrative Hearing Examiner shall cast the deciding vote.

(c) When a hearing examiner panel proposes to make a decision which falls outside of explicit guidelines for parole decision-making promulgated by the Board, the case shall be reviewed by the appropriate regional Administrative Hearing Examiner. When an Administrative Hearing Examiner does not concur in a decision of an examiner panel to set a parole effective date or continuance outside the Board's guidelines he may with the concurrence of the Regional Director modify the date to the nearest limit of the guidelines.

(d) In the event the Administrative Hearing Examiner is serving as a member of a hearing examiner panel or is otherwise unavailable, cases requiring his action under paragraphs (b) and (c) of this section will be referred to another hearing examiner.

§ 2.24 Review of panel decision by the Regional Director and the National Appellate Board.

A regional Director may review the decision of any examiner panel and refer this decision, prior to written notification to the prisoner, with his recommendation and vote to the National Appellate Board for reconsideration and any action it may deem appropriate. Written notice of this reconsideration action shall be mailed or transmitted to the prisoner within fifteen working days of the date of the hearing. The Regional Director and each member of the National Appellate Board shall have one vote and decisions shall be based upon the concurrence of two out of three votes.

§ 2.25 Appeal of hearing panel decision.

(a) A prisoner may file with the responsible Regional Director a written appeal of a decision of a hearing examiner panel or a decision under § 2.24 to grant, deny or revoke parole or to revoke mandatory release. This appeal must be filed on a form provided for that purpose within thirty days from the date of entry of such decision. The appeal shall be considered by the Regional Director who may affirm the decision, order a new institutional hearing, order a regional appellate hearing, reverse the decision, or modify a continuance or the effective date of parole. Reversal of an examiner panel decision or the modification of such a decision by more than one hundred eighty days, whether based upon the record or following a regional appellate hearing, shall require the concurrence of two out of three Regional Directors. Appellate decisions requiring a second or additional vote shall be referred to other Regional Directors on a rotating basis as established by the Chairman.

(b) Regional appellate hearings shall be held at the regional office before the Regional Director. Attorneys, relatives and other interested parties who wish to appear must submit a written request to the Regional Director stating their relationship to the prisoner and the general nature of the information they wish to present. The Regional Director shall determine if the requested appearances will be permitted. The prisoner shall not appear personally.

(c) If no appeal is filed within thirty days of entry of the original decision, this decision shall stand as the final decision of the Board.

(d) Appeals under this section may be based only upon the following grounds:

(1) The reasons given for a denial or continuance do not support the decision; or

(2) There was significant information in existence but not known at the time of the hearing.

§ 2.26 Appeal to National Appellate Board.

(a) A prisoner may file a written appeal of the Regional Director's decision under § 2.25 to the National Appellate Board on a form provided for that purpose within thirty days after the entry of the Regional Director's written decision. The National Appellate Board may, upon the concurrence of two members, affirm, modify, or reverse the decision, or order a rehearing at the institutional or regional level.

(b) The bases for such appeal shall be the same as for a regional appeal as set forth in § 2.25(d). However, any matter not raised on a regional level appeal may not be raised on appeal to the National Appellate Board.

(c) Decisions of the National Appellate Board shall be final.

§ 2.27 Appeal of original jurisdiction cases.

(a) Cases decided under the procedure specified in § 2.17 may be appealed within thirty days of the entry of the decision to the National Appellate Board. The National Appellate Board, upon the concurrence of two members, may affirm the decision or schedule the case for a review by the entire Board at its next quarterly meeting. A quorum of five members shall be required and all decisions shall be by a majority vote. The Chairman shall vote on the decision only in the absence of a member. This appellate decision shall be final.

(b) If an appellate hearing is scheduled, attorneys, relatives, or other interested parties who wish to speak for or against parole at such hearing must submit a written request to the Chairman of the Board stating their relationship to the prisoner and the general nature of the material they wish to present. The Chairman shall determine if the requested appearances will be permitted.

(c) If no appeal is filed within thirty days of the entry of the Regional Director's decision, this decision shall stand as the final decision of the Board.

(d) The bases for this appeal shall be the same as for a regional appeal as set forth in § 2.25(d).

§ 2.28 Reopening of cases.

Notwithstanding the appeal procedure of § 2.25 and § 2.26, the appropriate Regional Director may on his own motion reopen a case at any time upon the receipt of new information of substantial significance and may then schedule an institutional hearing or take any other action authorized under the provisions of § 2.25. Original jurisdiction cases may be reopened under the procedure of this section on the motion of two out of three Regional Directors and may be scheduled for an institutional hearing or for review by the Regional Directors on the record.

§ 2.29 Withheld and forfeited good time.

(a) Section 4202 of title 18 of the United States Code permits Federal prisoners to be paroled if they have observed the rules of the institution in which they are confined and if they are otherwise eligible for parole. Any forfeiture of statutory good time shall be deemed to indicate that the prisoner has violated the rules of the institution to a serious degree, and a parole will not be granted in any such case in which such a forfeiture remains effective against the prisoner concerned. Any withholding of statutory good time shall be deemed to indicate that the prisoner has engaged in some less serious breach of the rules of the institution. Nevetheless, parole will not usually be granted unless and until such good time has been restored.

(b) Neither a forfeiture of good time nor a withholding of good time shall bar a prisoner from applying for and receiving a parole hearing.

(c) The above restrictions shall not apply, however, to the forfeiture or withholding of *extra good time* which is granted because of meritorious behavior. Parole may be ordered without regard to a prisoner's status insofar as *extra good time* is concerned, although the reasons for any forfeiture or withholding will be included among the other factors used in making the parole decision.

§ 2.30 Release; modification of release date.

(a) When an effective date has been set by the Board, release on that date shall be conditioned upon continued good conduct by the prisoner and the completion of a satisfactory plan for his supervision. The appropriate Regional Director may, on his own motion, reconsider any case prior to release and may reopen and advance or retard a parole date. If such previously granted parole date is retarded for more than sixty days because of institutional misconduct, the prisoner will be given a new hearing in accordance with § 2.12. The purpose of the hearing is to determine if the prisoner's parole grant should be rescinded or a new parole date established. Such hearings will be held on the next hearing docket at a Federal institution. If such a prisoner's misconduct occurred in a Federal Community Treatment Center or a state or local Halfway House, he shall be placed on the first hearing docket after return to a Federal institution.

(b) In any case of a prisoner who has been notified of parole and who has subsequently engaged in conduct in violation of the rules of his custody or confinement sufficient to become a matter of record, the Regional Director shall be advised promptly of such violation. The prisoner shall not be released until the institution has been advised that no change has been made in the Board's order to parole.

§ 2.31 False or withheld information.

All paroles are ordered on the assumption that information from the prisoner has not been fraudulently given or withheld from the Board. If evidence comes to the attention of the Board that a prisoner willfully concealed or misrepresented information deemed significant, the Board, acting under the procedures of § 2.17 may act to rescind or revoke the parole.

§ 2.32 Committed fines.

In any case in which a prisoner shall have had a fine imposed upon him by the committing court for which he is to stand committed until it is paid or until he is otherwise discharged according to law, such prisoner shall not be released on parole or mandatory release until payment of the fine, or until the fine commitment order is discharged according to law as follows:

(a) An indigent prisoner may make application to a U.S. Magistrate in the District wherein he is incarcerated or to the chief executive officer of the institution setting forth, under institutional regulations, his inability to pay such fine; if the magistrate or chief executive officer shall find that the prisoner, having no assets exceeding $20 in value except such as are by law exempt from being taken on execution for debt, is unable to pay the fine, and if the prisoner takes a prescribed oath of indigency, he shall be discharged from the commitment obligation of the committed fine sentence.

(b) If the prisoner is found to possess assets in excess of the exemption in paragraph (a) of this section nevertheless if the Board shall find that retention of all of such assets if reasonably necessary for his support or that of his family, upon taking of the prescribed oath concerning his assets the prisoner shall be discharged from the commitment obligation of the committed fine sentence. If the Board shall find that retention by the prisoner of any part of his assets is reasonably necessary for his support or that of his family, the prisoner upon taking of the prescribed oath concerning his assets, shall be discharged from the commitment obligation of the committed fine sentence upon payment on account on his fine of that portion of his assets in excess of the amount found to be reasonably necessary for his support or that of his family.

(c) Discharge from the commitment obligation of any committed fine sentence does not discharge the prisoner's obligation to pay the fine as a debt due the United States.

§ 2.33 Parole to detainers; statement of policy.

The policy of the Board with regard to parole to detainers is in general accord with the principles recommended by the Association of Administrators of the Interstate Compact for the Supervision of Parolees and Probationers:

(a) The status of detainers held against prisoners in Federal institutions will be investigated, so far as is reasonably possible, prior to parole hearings.

(b) In appropriate cases summary information regarding such prisoner will be provided to state or local authorities. The Board urges institution officials to provide such information.

(c) Where the detainer is not lifted, the Board may grant parole to such detainer if a prisoner is considered in other respects to be a good parole risk. Ordinarily, however, the Board will grant parole to such detainer only if the status of that detainer has been investigated.

(d) The Board will cooperate in working out arrangements for concurrent supervision with other jurisdictions where it is feasible and where release on parole appears to be justified.

(e) The presence of a detainer is not of itself a valid reason for the denial

V 39—109 JUN 5 74 XUM

of parole. It is recognized that where the prisoner appears to be a good parole risk, there may be distinct advantage in granting parole despite a detainer.

§ 2.34 Parole to local or immigration detainers.

(a) When a state or local detainer is outstanding against a prisoner whom the Board wishes to parole, the Board may order either of the following:

(1) "Parole to the actual physical custody of the detaining authorities only." In this event, release is not to be effected except to the detainer. When such a detainer is withdrawn, the prisoner is not to be released unless and until the Board makes a new order of parole.

(2) "Parole to the actual physical custody of the detaining authorities or an approved plan." In this event, release is to be effected even though the detainer might be withdrawn, providing there is an acceptable plan for community supervision.

(b) When the Board wishes to parole a prisoner subject to a detainer filed by Federal immigration officials, the Board may order one of the following:

(1) "Parole for deportation only." In this event, release is not to be effected unless immigration officials make full arrangements for deportation immediately upon release.

(2) "Parole to the actual physical custody of the immigration authorities only." In this event, release is not to be effected unless immigration officials take the prisoner into custody—regardless of whether or not deportation follows.

(3) "Parole to the actual physical custody of the immigration authorities or an approved plan." In this event, release is to be effected regardless of whether or not immigration officials take the prisoner into custody, providing there is an acceptable plan for community supervision.

(c) As used in this section "parole to a detainer" means release to the "physical custody" of the authorities who have lodged the detainer. Temporary detention in a jail in the county where the institution of confinement is located does not constitute release on parole. If the authorities who lodged the detainer do not take the prisoner into custody for any reason, he shall be returned to the institution to await further order from the Board.

§ 2.35 Mental competency proceedings.

(a) Whenever a prisoner or parolee is scheduled for a hearing in accordance with the provisions of this part and reasonable doubt exists as to his mental competency, i.e., his ability to understand the nature of and participate in scheduled proceedings, a preliminary hearing to determine his mental competency shall be conducted by a panel of hearing examiners or other official(s) (including a U.S. Probation Officer) designated by the Board of Parole.

(b) At the competency hearing, the hearing examiners or designated official(s) shall receive oral or written psychiatric testimony and other evidence that may be available. A preliminary determination of the prisoner's mental competency shall be made upon the testimony, evidence, and personal observations of the prisoner. If the examiner panel or designated official(s) determines that the prisoner is mentally competent, the previously scheduled hearing shall be held. If they determine that the prisoner is not mentally competent, the previously scheduled hearing shall be temporarily postponed.

(c) Whenever the hearing examiners or designated official(s) determine that a person is incompetent and postpone the previously scheduled hearing, they shall forward the record of the preliminary hearing with their findings to the Regional Director for review. If the Regional Director concurs with their findings, he shall order the temporarily postponed hearing to be postponed indefinitely until such time as it is determined that the prisoner or parolee has recovered sufficiently to understand the nature of and participate in the proceedings and, in the case of a parolee, may order such parolee committed to a Bureau of Prison's facility for further examination. In any such case, the Regional Director shall require a progress report at least every six months on the mental health of the prisoner. When the Regional Director determines that the prisoner has recovered sufficiently, he shall reschedule the hearing for the earliest possible date.

(d) If the Regional Director disagrees with the findings of the hearing examiners or designated official(s) as to the mental competency of the prisoner, he shall take such action as he deems appropriate.

§ 2.36 Release plans.

(a) A grant of parole is conditioned upon the approval of release plans by the Regional Director. In general, the following factors should be present before a prisoner is released after parole has been granted:

(1) The probation officer to whom the releasee is assigned may, in his discretion, require that there be available to the releasee an adviser who is a responsible, reputable, and law-abiding citizen living in or near the community in which the releasee will reside. The adviser should act as a source of advice for the releasee relative to community adjustment. The adviser may provide special services such as vocational placement, personal counsel, or referral to community agencies. The adviser is expected to report to the probation officer any law violation or serious misconduct on the part of the releasee. The adviser may be required by the probation officer to countersign the parolee's monthly supervision report to indicate actual contact with the parolee.

(2) There should be satisfactory evidence that the prospective parolee will be legitimately employed following his release; and

(3) There should be satisfactory assurance that necessary aftercare will be available to a parolee who is ill or who has some other problem which requires special care.

(b) Generally, parolees will be released only to the place of their legal residence unless the Board is satisfied that another place of residence will serve the public interest more effectively or will improve the probabilities of the applicant's readjustment.

(c) Insofar as it is practicable, the details of each plan for release shall be verified by a field investigation by the United States Probation Officer of the District into which release will be made.

(d) Any of the requirements described in this section may be waived by the Regional Director whenever circumstances warrant.

§ 2.37 Release on parole; statement of policy.

Parole release dates generally will not be set more than six months from the date of the parole hearing. Exceptions may be made in extraordinary situations or when necessary to permit an adequate period of residence in a Community Treatment Center. Such residence in a Community Treatment Center shall not generally exceed one hundred twenty days. An effective date of parole shall not be set for a Saturday, Sunday or a legal holiday. A parole grant may be retarded by the Regional Director for up to one hundred twenty days without a hearing for development and approval of release plans.

§ 2.38 Sponsorship of parolees: statement of policy.

It is the policy of the Youth Corrections Division to cooperate with groups desiring to serve as sponsors of parolees. In all cases, sponsors shall serve under the direction of and in cooperation with the probation officers to whom the parolees are assigned.

§ 2.39 Mandatory release in the absence of parole.

A prisoner shall be mandatorily released by operation of law at the end of the sentence imposed by the court less such good time deductions and extra good time deductions as he may have earned through his behavior and efforts at the institution of confinement. He shall be released as if on parole, under supervision until the expiration of the maximum term or terms for which he was sentenced less one hundred eighty days. Insofar as possible, release plans shall be completed before the release of any such prisoner.

§ 2.40 Same; youth offenders.

A prisoner committed under the Youth Corrections Act must be initially released conditionally under supervision not later than two years before the expiration of the term imposed by the court.

§ 2.41 Reports to police departments of names of parolees; statement of policy.

Names of parolees under supervision will not routinely be furnished to a police department of a community, except as required by law. All such notifications are to be regarded as confidential.

§ 2.42 Community supervision by United States Probation Officers.

(a) Pursuant to section 3655 of title 18 of the United States Code, United States Probation Officers are required to provide such parole services as the Attorney General may request. The Attorney General has delegated his authority in this regard to the Board (28 CFR 0.126[b]). In conformity with the foregoing, probation officers function as parole officers and provide supervision to parolees and mandatory releasees under the Board's jurisdiction.

(b) A parolee or mandatory releasee may be transferred to a new district of supervision with the permission of the probation officers of both the transferring and receiving district, provided such transfer is not contrary to instructions from the Board.

§ 2.43 Duration of period of community supervision.

(a) Any prisoner, with the exception of those sentenced prior to June 29, 1932, who is released under the provisions of laws relating to parole, shall continue until the expiration of the maximum term or terms specified in his sentence without deductions of allowance for good time. Prisoners sentenced prior to June 29, 1932, shall receive reductions in their maximum term or terms of imprisonment for such good time allowances as may be authorized by law.

(b) The Regional Director may discharge from supervision prior to the normal expiration date as provided in § 2.46(b), but the sentence is not thus commuted and such a parolee may be reinstated to supervision or retaken on the basis of a violator warrant.

(c) For certain narcotic offenses a prisoner will have a "special parole term" imposed by the court at the time of sentencing. The period of supervision under the basic sentence is served separately and must be completed prior to the beginning of any "special parole term." The "special parole term" will not be aggregated with the basic sentence for any purpose, including computation of time to serve following parole revocation, if any.

§ 2.44 Conditions of release.

The conditions of release are printed on the release certificate and are binding regardless of whether the releasee signs the certificate. The Board, or a member thereof, may add special conditions or modify the conditions of release at any time.

§ 2.45 Travel by parolees and mandatory releasees.

(a) The probation officer may approve travel outside the district without approval of the Regional Director in the following situations:

(1) Vacation trips not to exceed thirty days,

(2) Trips, not to exceed thirty days, to investigate reasonably certain employment possibilities,

(3) Recurring travel across a district boundary, not to exceed fifty miles outside the district, for purposes of employment, shopping, or recreation.

(b) Specific advance approval by the Regional Director is required for other travel, including travel outside the continental limits of the United States, employment more than fifty miles outside the district, and vacations exceeding thirty days. A special condition imposed by the Regional Director prohibiting certain travel shall supersede any general rules relating to travel as set forth above.

§ 2.46 Supervision reports, modification and discharge from supervision.

(a) All parolees and mandatory releasees shall make such reports to the United States Probation Officers to whom they have been assigned as may be required by the Board or Probation Officers. Probation Officers shall submit summary reviews of the progress of parolees and mandatory releasees according to Board policy. On the basis of summary reviews of the progress of parolees, the Regional Director may modify the reporting requirement of parolees or releasees.

(b) After the parolee or mandatory releasee has been under supervision for at least one year, the Regional Director may, in his discretion, permit the parolee to submit a written report to his probation officer on a less frequent basis than once a month. After a period of such reduced reporting the Regional Director may further order that the parolee be discharged from all supervision by the Probation Officer. In the latter instances, a parolee may be reinstated to supervision or a warrant may be issued for him as a violator at any time prior to the expiration of the sentence or sentences imposed by the court. Other modification in the reporting requirements may be made by the Regional Director at any time during the parolee's term.

§ 2.47 Modification and discharge from supervision; youth offenders.

A committed youth offender may remain under supervision until the expiration of his sentence or he may be released from supervision or unconditionally discharged at any time after one year of continuous supervision on parole.

§ 2.48 Setting aside conviction.

When an unconditional discharge has been granted to a youth offender prior to the expiration of his maximum term of sentence, his conviction shall be automatically set aside and the Regional Director shall issue to the youth offender a certificate to that effect.

§ 2.49 Revocation of parole or mandatory release.

(a) If a parolee or mandatory releasee violates any of the conditions of his release, and satisfactory evidence thereof is presented to the Board, or a member thereof, a warrant may be issued and the offender returned to an institution. Warrants shall be issued or withdrawn only by the Board, or a member thereof.

(b) A warrant for the apprehension of any parolee shall be issued only within the maximum term or terms for which the prisoner was sentenced.

(c) A warrant for the apprehension of any mandatory releasee shall be issued only within the maximum term or terms for which the prisoner was sentenced, less one hundred eighty days.

§ 2.50 Same, youth offenders.

In addition to issuance of a warrant on the basis of violation of any of the conditions of release, the Youth Corrections Division may, when the Division is of the opinion that such youth offender would benefit by further treatment, direct his return to custody or issue a warrant for his apprehension and return to custody. Upon his return to custody, such youth offender shall be given a revocation hearing under the same provisions as adult offenders as specified in § 2.54–§2.56. Following the revocation hearing parole may be reinstated, revoked or the terms and conditions thereof may be modified.

§ 2.51 Unexpired term of imprisonment.

The time a prisoner was on parole or mandatory release is not credited to the service of his sentence if revocation occurs. When a warrant is issued the sentence ceases to run, but begins to run again when the releasee is taken into Federal custody by the execution of the Board's violation warrant. However, the sentences of prisoners committed under the Narcotic Addict Rehabilitation Act or the Youth Corrections Act run uninterruptedly from the date of conviction without regard to any revocation, except as provided in § 2.10(c). In no case may the commitment of a person under the Federal Juvenile Delinquency Act extend past his twenty-first birthday.

§ 2.52 Execution of warrant; notice of alleged violations.

(a) Any officer of any Federal correctional institution, or any Federal officer authorized to serve criminal process within the United States, to whom a warrant shall be delivered shall execute such warrant by taking such prisoner and returning him to the custody of the Attorney General. The warrant shall be considered delivered to a Federal officer when the warrant is signed and placed in the mail at the Board headquarters or regional office before the expiration of the maximum term of sentence.

(b) On arrest of the prisoner the officer executing the warrant shall deliver to him a copy of the Warrant Application listing the alleged violations of parole or mandatory release upon which the warrant was issued.

(c) If execution of the warrant is delayed pending disposition of local charges, for further investigation, or for some other purpose, the parolee or man-

V39—109 JUN 5 74 XUM

datory releasee is to be continued under supervision by the probation officer until the normal expiration of the sentence, or until the warrant is executed, whichever comes first. Monthly supervision reports are to be submitted, and the releasee must continue to abide by all the conditions of release.

§ 2.53 Warrant placed as a detainer and dispositional interview.

(a) In those instances where the prisoner is serving a new sentence in an institution, the warrant may be placed there as a detainer. Such prisoner shall be advised that he may communicate with the Board relative to disposition of the warrant, and may request that it be withdrawn or executed so his violator term will run concurrently with the new sentence. Should further information be deemed necessary, the Regional Director may designate a hearing examiner panel to conduct a dispositional interview at the institution where the prisoner is confined. At such dispositional interview the prisoner may be represented by counsel of his own choice and may call witnesses in his own behalf, provided he bears their expenses. He shall be given timely notice of the dispositional interview and its procedure.

(b) Following the dispositional review the Regional Director may:

(1) Let the detainer stand

(2) Withdraw the detainer and close the case if the expiration date has passed;

(3) Withdraw the detainer and reinstate to supervision; thus permitting the federal sentence time to run uninterruptedly from the time of his original release on parole or mandatory release.

(4) Execute warrant, thus permitting the sentence to run from that point in time. If the warrant is executed, a previously conducted dispositional interview may be construed as a revocation hearing.

(c) In all cases, including those where a dispositional interview is not conducted, the Board shall conduct annual reviews relative to the disposition of the warrant. These decisions will be made by the Regional Director. The Board shall request periodic reports from institution officials for its consideration.

§ 2.54 Revocation by the Board, preliminary interview.

(a) A prisoner who is retaken on a warrant issued by a Board Member shall be given a preliminary interview by an official designated by the Regional Director to determine if there is probable cause to hold the prisoner for a revocation hearing and, if so, whether such revocation hearing should be conducted in the locality of the charged violation(s) or in a Federal institution. The official designated to conduct the preliminary interview may be a United States Probation Officer in the district where the prisoner is confined, provided he is not the officer who recommended that the warrant be issued.

(b) At the beginning of the preliminary interview, the hearing officer shall explain the Board's revocation procedure to the prisoner and shall advise the prisoner that he may have the preliminary interview postponed so that he may obtain representation by an attorney or may arrange for the attendance of witnesses. The prisoner shall also be advised that if he cannot afford to retain an attorney he may apply to a United States District Court for appointment of counsel to represent him at the preliminary interview and the revocation hearing. The prisoner may also request the presence of persons who have given information upon which revocation may be based. Such adverse witnesses shall be requested to attend the preliminary interview unless the prisoner admits a violation or has been convicted of a new offense committed while on supervision or unless the hearing officer finds good cause for their non-attendance. At the preliminary interview the hearing officer shall review the violation charges with the prisoner, receive the statements of witnesses and documentary evidence on behalf of the prisoner, and allow cross-examination of those adverse witnesses in attendance.

(c) At the conclusion of the preliminary interview, the hearing officer shall prepare and submit to the Regional Director a summary of the interview, which shall include recommended findings of whether there is probable cause to hold the prisoner for a revocation hearing. Upon receipt of the summary of the preliminary interview, the Regional Director shall either order the prisoner reinstated to supervision, order that a revocation hearing be conducted in the locality of the charged violation(s), or direct that the prisoner be transferred to a Federal institution for a revocation hearing.

(d) The prisoner shall be retained in local custody pending completion of the preliminary interview, submission of the summary of the hearing officer, and notification by the Regional Director relative to further action.

(e) A postponed preliminary interview may be conducted as a local revocation hearing, by an examiner panel or other hearing officer designated by the Regional Director provided that the prisoner has been advised that the postponed preliminary interview will constitute his final revocation hearing.

§ 2.55 Local revocation hearing.

(a) If the prisoner requests a local revocation hearing prior to his return to a Federal institution, he shall be given a revocation hearing reasonably near the place of an alleged violation if the following conditions are met:

(1) The local hearing would facilitate the production of witnesses or the retention of counsel;

(2) The prisoner has not been convicted of a crime committed while under supervision; and

(3) The prisoner denies that he has violated any condition of his release. Otherwise, he shall be given a revocation hearing after he is returned to a Federal institution. However, the Regional Director may, on his own motion, designate a case for a local revocation hearing.

(b) If there are two or more alleged violations, the hearing shall be conducted near the place of the violation chiefly relied upon as a basis for the issuance of the warrant, as determined by the Regional Director.

(c) Following the hearing the prisoner shall be retained in custody until final action is taken relative to revocation or reinstatement, or until other instructions are issued by the Regional Director.

§ 2.56 Revocation hearing procedure.

(a) A revocation hearing shall be conducted by a hearing examiner panel or, in a local revocation hearing only, by another official designated by the Regional Director. In the latter case, the decision relative to revocation shall be made by an examiner panel on the basis of the hearing summary pursuant to the provisions of § 2.23. A revocation decision may be appealed under the provisions of § 2.25, § 2.26, or § 2.27 as applicable.

(b) The purpose of the revocation hearing shall be to determine whether the prisoner has violated the conditions of his release and, if so, whether his parole or mandatory release should be revoked or reinstated.

(c) The alleged violator may present voluntary witnesses and documentary evidence in his behalf. However, the presiding hearing officer or examiner panel may limit or exclude any irrelevant or repetitious statement or documentary evidence.

(d) If the alleged violator has not been convicted of a new criminal offense while under supervision and does not admit violation of any of the conditions of his release, the Board shall, on the request of the alleged violator or on its own motion, request the attendance of persons who have given statements upon which revocations may be based. Those adverse witnesses who are present shall be made available for questioning and cross-examination in the presence of the alleged violator unless the presiding hearing officer or examiner panel finds good cause for their non-attendance.

(e) All evidence upon which the finding of violation may be based shall be disclosed to the alleged violator at the revocation hearing. The hearing officer or examiner panel may disclose documentary evidence by reading or summarizing the appropriate document for the alleged violator.

§ 2.57 Confidentiality of parole records.

To the end that the objectives and procedures of professionalized parole may be advanced and, more specifically so that the channels of information vital to sound parole actions may be kept open and that offenders released on parole may be protected against publicity deleterious to their adjustment, the following principles relating to the confidentiality of parole records shall be followed by the Board:

(a) Dates of sentence and commitment, parole eligibility dates, mandatory release dates, dates of termination of sentence and whether an inmate is being considered for parole, has been granted or denied parole, and if granted parole, the effective date set by the Board will be disclosed in individual cases upon proper inquiry by a party in interest.

(b) Who, if any one, has supported or opposed an application for parole may be revealed at the Board's discretion only in the most exceptional circumstances, with the express approval of such person(s) and after a decision relative to parole has been made.

(c) Other matters contained in parole records, including how a member votes relative to parole, will be held strictly confidential and will not be disclosed to unauthorized persons.

Dated: May 28, 1974.

MAURICE H. SIGLER,
Chairman,
U.S. Board of Parole.

Proposed Contracting Requirements

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 249]

MEDICAL ASSISTANCE PROGRAM

Proposed Contracting Requirements

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposal sets forth requirements for contracts between State agencies and prepaid health insuring organizations, health maintenance organizations, fiscal agents, private nonmedical institutions, or health care project grant centers, for the provision of or payment for medical and remedial services authorized under title XIX of the Social Security Act.

Existing requirements in 45 CFR 249.82, relating to contracts with health insuring organizations, fiscal agents, and private nonmedical institutions, have been revised and updated to consolidate in § 249.82(c)(1) the requirements for all types of contracts and to set forth in succeeding paragraphs additional requirements for each specific type. General requirements now include provisions on evaluation of services, medical records of enrollees, and confidentiality. Health insuring organizations now must assume the underwriting risk and demonstrate the basis for premium computation; fiscal agents must include termination procedures in the contract.

A major expansion of the current regulations relates to requirements for contracts with health maintenance organizations (HMOs). There has been increasing use of HMOs under title XIX, and such increase may be accelerated with implementation of the Health Maintenance Organization Act of 1973 (P.L. 93–222, December 29, 1973). These proposed regulations are consistent with the overall provisions of that statute, while recognizing specific elements of the Medicaid program, such as extent of services provided under the title XIX State plan and upper limits on payments; however they do not require HMOs to meet the certification requirements of the Health Maintenance Organization Act.

Included for the first time in regulations on contracts are specific provisions for contracts with health care project grant centers, such as community health, family planning or maternity and infant care centers, which are supported by Federal project grant funds. The proposal applies to such contracts the general requirements for title XIX contracts, under which Federal financial participation is available in payments for services to Medicaid recipients. Such centers are also governed, of course, by the applicable regulations under their specific statutory authorities. State Medicaid agencies are encouraged to develop close relations with these programs in order to increase project center utilization by Medicaid recipients and to enable centers to maximize all available third-party funding.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013, on or before July 5, 1974. Such comments are available for review in room 5224 of the Department's offices at 301 C Street SW., Washington, D.C., Monday through Friday of each week, between 8:30 a.m. and 5 p.m. (202–245–0365).

(Section 1102, 49 Stat. 647 (42 U.S.C. 1302)).

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program.)

Dated: March 26, 1974.

James S. Dwight, Jr.,
Administrator, Social and Rehabilitation Service.

Approved: May 30, 1974.

Frank Carlucci,
Acting Secretary of Health, Education, and Welfare.

Section 249.82 of Part 249, Chapter II, Title 45 of the Code of Federal Regulations is revised to read as follows:

§ 249.82 Contracts for provision of or payment for health service benefits.

(a) *Purpose.* This section sets forth the requirements for certain State contracts for the provision of or payment for medical and remedial services under title XIX of the Social Security Act.

(b) *Definitions.* (1) "Contractor" means a prepaid health insuring organization, a health maintenance organization, a fiscal agent, a private nonmedical institution, or a health care project grant center which contracts with the single State agency, under the terms of this section, to pay for or provide medical services under a State medical assistance plan, in consideration of a payment.

(2) "Prepaid health insuring organization" means a contractor which provides payment for medical services for a premium.

(3) "Fiscal agent" means a contractor which processes and pays vendor claims on behalf of the single State agency.

(4) "Private nonmedical institution" means a facility such as a child-care institution or a maternity home, whose regular business is not that of a prepaid health insuring organization, or community health care center, but which provides medical care through contracts or other arrangements with medical providers, and which receives payments on a prepaid capitation basis through contract with the single State agency. No assumption of underwriting risk is borne by the institution.

(5) "Health care project grant center" means an organization supported in whole or in part by Federal project grant financial assistance which provides or arranges for medical services to an enrolled population and receives payment for services to eligible recipients through contract with the single State agency.

(6) "Premium" means the amount paid by the single State agency to a contractor for each eligible recipient of the covered population for the payment for or provision of medical care and services under the State's medical assistance plan.

(7) "Eligible recipient" means a person entitled to receive benefits under the State's medical assistance plan.

(8) "Underwriting risk" means the risk of loss assumed by the contractor who receives the premium under an insuring arrangement with the single State agency for providing or paying for covered medical services to eligible recipients.

(9) "Health maintenance organization (HMO)" means a public or private organization which:

(i) Provides, either directly or through arrangements with others, health services to individuals enrolled with such organization on a prepayment basis;

(ii) Provides, either directly or through arrangements with others and through institutions, entities, and persons meeting the requirements established for providers under title XIX of the Social Security Act, those health services which a defined population might reasonably require in order to be maintained in good health, including, as a minimum, inpatient hospital services, outpatient hospital services, and physicians' services;

(iii) Provides physicians' services (A) directly through physicians who are either employees or partners of such organization, or (B) under arrangements with one or more groups of physicians (organized on a group practice or individual practice basis) under which each such group is reimbursed for its services primarily on the basis of an aggregate fixed sum or on a per capita basis, regardless of whether the individual physician members of any such group are paid on a fee-for-service or other basis;

(iv) Demonstrates, to the satisfaction of the single State agency, proof of financial responsibility and proof of capability to provide the services under the contract efficiently, effectively, and economically;

(v) Demonstrates to the satisfaction of the single State agency that adequate feasibility and planning studies have been made for the enrollment of a sufficient number of members to assure the economic viability of the organization;

(vi) Provides assurances, satisfactory to the single State agency, that the health services required by its members will be received promptly and appropriately and that the services which are received will meet quality standards;

(vii) Assures timely and appropriate entry into the health care system and a logical continuity of care among and between the HMO's health services;

(viii) Has an open enrollment period of at least thirty days at least every year under which it accepts individuals in the order in which they apply for enrollment, up to the limits of its capacity and without restrictions, except as may be authorized by the Administrator; and

(ix) Serves a population broadly representative of the various age, social, and income groups within the area it serves, except that within two years after the effective date of the contract no more than 50% of the enrolled members may be individuals receiving benefits under Title XVIII and individuals receiving assistance under Title XIX of the Social Security Act. Any contractor under contract with the single State agency prior to the effective date of this regulation must conform to this requirement within two years after such effective date. The provisions of this subdivision may be waived by the Administrator for good cause shown.

(c) *State plan requirements*—(1) *All contractors.* A State plan under title XIX of the Social Security Act which provides part or all of its medical assistance through arrangements with contractors must provide that the contract will:

(i) Specify the contract period;

(ii) Specify the functions of the contractor;

(iii) Identify the covered population and specify any necessary procedures for their enrollment or reenrollment;

(iv) Specify the amount, duration and scope of medical assistance to be provided or paid for;

(v) Provide that the single State agency and the Department shall have the right to inspect or otherwise evaluate the quality, appropriateness, and timeliness of services performed under such contract, and to audit and inspect any books and records of such contractor which pertain to services performed and determination of amounts payable under such contract;

(vi) Establish provisions and criteria for extension and termination. Termination procedures must include provisions requiring the contractor to supply promptly all information necessary for the reimbursement of any outstanding claims of enrolled participants.

(vii) Provide that the contractor shall maintain an appropriate medical record system for its title XIX enrollees consistent with sound medical practice, and that these medical records shall be preserved for the period of time specified by State law; and

(viii) Provide that the contractor shall conform to the requirements of § 205.50 of this chapter regarding confidentiality of information about eligible recipients.

(2) *Prepaid health insuring organizations or health maintenance organizations.* In addition to the requirements specified in paragraph (c)(1) of this section, a State plan which provides for contracts with prepaid health insuring organizations or health maintenance organizations must also provide that the contract will:

(i) Provide that the premium, which must be reasonable, as set forth in § 250.30 of this chapter, shall constitute full payment by the State to the contractor for the provision of or payment for covered medical care and services by the contractor to eligible recipients during the contract period;

(ii) Provide, in the case of a health insuring organization (other than a health maintenance organization), for the assumption by the contractor of the underwriting risk. The single State agency may allow the contractor to obtain reinsurance;

(iii) Specify, in the case of a health maintenance organization, whether the contract is on a risk basis or a cost basis. A risk contract must specify the apportionment of the underwriting risk, and of savings and losses, between the single State agency and the contractor, the single State agency may allow the contractor to obtain reinsurance or make other arrangements to cover part of the costs, or it may act as a self-insurer of some of the underwriting risks;

(iv) Provide that the contractor shall demonstrate the basis for computation of the premium rate specified in the contract.

(3) *Fiscal agents.* In addition to the requirements specified in paragraph (c)(1) of this section, a State plan which provides for contracts with fiscal agents must also provide that the contracts will:

(i) Include termination procedures requiring the contractor to supply promptly all material necessary for the continued operation of the payment and related systems including:

(A) All computer programs to which the State has ownership rights, or which have been designed, developed or installed with Federal matching funds. In the event that the fiscal agent has sole proprietary rights to programs, the contract must provide an option to the State to purchase such programs.

(B) All necessary data files;

(C) User and operation manuals, and other documentation;

(D) System and program documentation; and

(E) Training programs for State agency staff, their agents or designated representatives, in the operation and maintenance of the system;

(ii) Establish the amount to be paid the contractor for performing the required functions, the basis for the amount and when payment is to be made; and

(iii) Provide that payment to providers shall be made in accordance with § 250.30 of this chapter.

(4) *Private nonmedical institutions.* In addition to the requirements specified in paragraph (c)(1) of this section, a State plan which provides for contracts for prepayment of services from private nonmedical institutions must also provide that such contracts will:

(i) Specify the capitation amount which shall be based on the cost of services provided (in accordance with § 250.30 of this chapter);

(ii) Specify when the capitation amount shall be paid.

(5) *Health maintenance organizations.* In addition to the requirements specified in paragraphs (c)(1) and (2) of this section, a State plan for medical assistance which provides for contracts with health maintenance organizations must also provide that such contracts will provide:

(i) That enrollment is voluntary;

(ii) That the period of enrollment, which shall be for a reasonable period of time, be specified, so as to assure continuity of care and avoid excessive costs due to rapid turnover of enrollment;

(iii) That enrollment may not be terminated by the contractor, except for good cause which shall be defined in the contract, and may not include an adverse change in health status. Each termination by the contractor shall have the concurrence of the director of the medical assistance unit of the single State agency;

(iv) That when a recipient is no longer eligible to have payments made on his behalf to the HMO by the State, enrollment may be continued for the balance of the month for which payments have already been made;

(v) That to the extent feasible each enrollee is afforded the choice of a physician providing services to the HMO who will supervise and coordinate his care;

(vi) That all medical services covered under the contract which are required on an emergency basis be available on a 24-hour, seven-day-a-week basis, either in the contractor's own facilities, or through arrangements, to be approved by the single State agency, with another provider;

(vii) For prompt payment of all in-area or out-of-area services which are required by the contract and rendered by providers with which the contractor does not have arrangements, and which are medically urgent, that is, (A) which are needed immediately to prevent impairment of health, to prolong life, or alleviate pain and discomfort and (B) for receipt of which transfer to facilities provided for by the contractor would risk the patient's health or would be unreasonable because of distance;

(viii) For an internal enrollee grievance procedure;

(ix) That, where the contract does not include all services available under the State plan, those services not included shall be accessible and available either by referral arrangements with the contractor or by some other effective means;

(x) For an internal quality assurance system consistent with requirements for Professional Standards Review Organizations promulgated by the Secretary pursuant to Section 249F of P.L. 92–603;

(xi) That the contractor shall submit to the single State agency for prior approval its marketing plans, procedures and materials.

(xii) That enrollees will be advised concerning the appropriate use of health care and the contributions they can make to the maintenance of their own health.

(6) *Additional State plan requirements relating to health maintenance organizations.* In addition to the requirements specified in paragraph (c)(1), (2), and (5) of this section, a State plan which provides for contracts with health

V 39 109 JUN 5 74 XUM

maintenance organizations must also provide:

(i) For the establishment and implementation of a system for approval of marketing plans, procedures and materials for enrolling eligible recipients in a health maintenance organization;

(ii) For dissemination to eligible recipients in the service area of the HMO of factually accurate information, supplied by the contractor and at his expense, presented in clear, readable and concise form, regarding coverage, locations and hours of service;

(iii) That during the enrollment period payment will not be made, except under the contract, on behalf of the enrolled participant by the single State agency to any provider for services provided under the contract; and

(iv) That upon termination of a contract with an HMO, arrangements will be made to enable recipients formerly enrolled in the HMO to obtain without delay the services to which they are entitled.

(d) *Federal financial participation.* (1) Federal financial participation shall be available for payments made to a contractor under this section only if a contract between the single State agency and the contractor, fulfilling all the requirements of this section, is in effect for all periods for which Federal financial participation is claimed. The Secretary may deem such a contract not to be in effect, for the purposes of this paragraph, for any period, if the Secretary, as a result of on-site visit, or survey, or examination of State or contractor records, or by such other means as he may prescribe, determines that for such period there was a substantial failure of either party to the contract to carry it out in accordance with its terms or the requirements of this section. States, upon request, will receive, in accordance with section 1116(d) of the Act, a reconsideration of the Secretary's determination under the provisions of this paragraph.

(2) For purposes of Federal financial participation,

(i) Under contracts with prepaid health insuring organizations or health maintenance organizations, the total amount of capitation payment or premium will be regarded as a medical assistance cost;

(ii) Under contracts with fiscal agents, the amount paid to the provider of medical services will be considered as a medical assistance cost, and the amount paid to the contractor for performing the agreed-upon functions will be regarded as an administrative cost; and

(iii) Under contracts with private nonmedical institutions, and health care project grant centers, the total amount paid for carrying out the provisions of the contract will be regarded as a medical assistance cost.

Would you like to know IF ANY CHANGES HAVE BEEN MADE IN CERTAIN TITLES OF THE CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "List of CFR Sections Affected." ?

List of CFR Sections Affected

$10.00 per year

The "List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Also available on a subscription basis . . .

The Federal Register Index

$8.00 per year

Indexes covering the contents of the daily Federal Register are issued monthly and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are also carried.

A finding aid is included at the end of each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Order from: Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Note to FR Subscribers: FR Indexes and the "List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Title 3—The President

PROCLAMATION 4296

World Environment Day, 1974

By the President of the United States of America

A Proclamation

On May 4, 1974, I had the pleasure of helping to inaugurate EXPO '74, a six-month long exhibition in Spokane, Washington, dedicated to the improvement of the human environment. This exposition is one of many examples of a deepening concern for the quality of life in America.

While much remains to be done, all Americans can be gratified by the substantial success which has already occurred with respect to a number of environmental concerns. Air quality is improving in most of our urban areas as harmful emissions have been reduced. Water quality is similarly improving. In the Great Lakes game fish are returning to areas from which they had long been absent, due in large measure to the cooperative work which we have undertaken with our Canadian neighbors under the terms of an agreement which I signed with Prime Minister Trudeau of Canada on April 15, 1972, in Ottawa. We are working with other nations to deal effectively with a variety of environmental problems, and there will be continued progress.

June 5 will mark the second anniversary of World Environment Day. This date was established by the United Nations as a day on which the peoples of the world can undertake activities reaffirming their concern for the preservation and enhancement of the human environment.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do, in support of the action of the United Nations General Assembly, call on the people of the United States and United States Government agencies to observe once again June 5 as World Environment Day with appropriate ceremonies and activities emphasizing the concern of Americans for a better environment in which to live.

IN WITNESS WHEREOF, I hereunto set my hand this fourth day of June in the year of our Lord nineteen hundred seventy-four, and of the independence of the United States of America the one hundred ninety-eighth.

[FR Doc.74-13099 Filed 6-5-74; 11:07 am]

V 39 110 JUN 6 74 XUM

EXECUTIVE ORDER 11785

Amending Executive Order No. 10450, as Amended, Relating to Security Requirements for Government Employment, and for Other Purposes

By virtue of the authority vested in me by the Constitution and statutes of the United States, including 5 U.S.C. 1101 *et seq.*, 3301, 3571, 7301, 7313, 7501(c), 7512, 7532, and 7533; and as President of the United States, and finding such action necessary in the best interests of national security, it is hereby ordered as follows:

SECTION 1. Section 12 of Executive Order No. 10450 [1] of April 27, 1953, as amended, is revised to read in its entirety as follows:

"SEC. 12. Executive Order No. 9835 of March 21, 1947, as amended, is hereby revoked."

SEC. 2. Neither the Attorney General, nor the Subversive Activities Control Board, nor any other agency shall designate organizations pursuant to section 12 of Executive Order No. 10450, as amended, nor circulate nor publish a list of organizations previously so designated. The list of organizations previously designated is hereby abolished and shall not be used for any purpose.

SEC. 3. Subparagraph (5) of paragraph (a) of section 8 of Executive Order No. 10450, as amended, is revised to read as follows:

"Knowing membership with the specific intent of furthering the aims of, or adherence to and active participation in, any foreign or domestic organization, association, movement, group, or combination of persons (hereinafter referred to as organizations) which unlawfully advocates or practices the commission of acts of force or violence to prevent others from exercising their rights under the Constitution or laws of the United States or of any State, or which seeks to overthrow the Government of the United States or any State or subdivision thereof by unlawful means."

SEC. 4. Executive Order No. 11605 of July 2, 1971, is revoked.

Richard Nixon

THE WHITE HOUSE,
June 4, 1974.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

National Foundation on the Arts and the Humanities

Section 213.3182 is amended to show that one position of Director of Folk Arts Programs in the National Endowment for the Arts is excepted until June 30, 1976 under Schedule A.

Effective June 6, 1974, § 213.3182(a) (5) is added as set out below.

§ 213.3182 National Foundation on the Arts and the Humanities.

(a) *National Endowment for the Arts.* * * *

(5) Until June 30, 1976, one Director of Folk Arts Programs.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

PART 890—FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM

Subpart F—Transfers From Retired Federal Employees Health Benefits Program

PART 891—RETIRED FEDERAL EMPLOYEES HEALTH BENEFITS

Subpart F—Transfers to Federal Employees Health Benefits Programs

The purpose of these amendments to Part 890 and 891 of the Civil Service Commission Regulations is:

(1) To provide a one-time opportunity for retired employees and survivor annuitants enrolled, or eligible to enroll, under the Retired Federal Employees Health Benefits Program to register to be enrolled under the Federal Employees Health Benefits Program,

(2) To provide for cancellation of such enrollment and reinstatement under the Retired Federal Employees Health Benefits Program, and

(3) To fix the effective date of section 2, Public Law 93–246.

On April 19, 1974, the following was published in the FEDERAL REGISTER as proposed rulemaking. Insurance carriers and other interested persons were invited to submit written comments, objections, or suggestions. After careful consideration of the several viewpoints received, the proposed amendments have been adopted without change.

Accordingly, 5 CFR Parts 890 and 891 are amended by the addition of a new Subpart F to both parts as set out below.

1. Subpart F of Part 890 will read as follows:

Subpart F—Transfers From Retired Federal Employees Health Benefits Program

Sec.
890.601 Coverage.
890.602 Opportunity to change enrollment.
890.603 Effective dates.
890.604 Termination of enrollment.

AUTHORITY: (5 U.S.C. 8913)

Subpart F—Transfers From Retired Federal Employees Health Benefits Program

§ 890.601 Coverage.

An annuitant (a retired employee or survivor under Part 891 of this chapter) who is enrolled, or is eligible to enroll, under the Retired Federal Employees Health Benefits Program (Part 891 of this chapter) is eligible to enroll under the Federal Employees Health Benefits Program under this part.

§ 890.602 Opportunity to change enrollment.

An annuitant eligible to enroll under § 890.601 may register during the period from June 1, 1974 through September 30, 1974.

§ 890.603 Effective dates.

The effective date of an enrollment under § 890.602 is the first day of the first pay period following receipt of the enrollment but not earlier than July 1, 1974.

§ 890.604 Termination of enrollment.

An annuitant who enrolls under § 890.602 may at any time register to cancel his enrollment by filing with his employing office a properly completed health benefits registration form, and may register to be reenrolled under the Retired Federal Employees Health Benefits Program as provided under Subpart F of Part 891 of this chapter. Except as provided in this section the cancellation is effective on the last day of the pay period in which the request is received by the employing office when the request is received at least 15 days before the end of the pay period; when the request is received less than 15 days before the end of the pay period, the cancellation shall be effective on the last day of the next pay period. When the request is received before January 1, 1975, and the annuitant has not received benefits under this program or upon repayment of any benefits received under this program, at the request of the annuitant, the effective date of the cancellation shall be made retroactive to the commencing date of enrollment under this part.

2. Subpart F of Part 891 will read as follows:

Subpart F—Transfers to Federal Employees Health Benefits Program

Sec.
891.601 Eligibility.
891.602 Reenrollment.

AUTHORITY: 80 Stat. 607 (5 U.S.C. 8913).

Subpart F—Transfers to Federal Employees Health Benefits Program

§ 891.601 Eligibility.

Notwithstanding § 891.103 a retired employee or survivor enrolled under § 890.602 of this chapter may cancel his enrollment and reenroll under § 891.602.

§ 891.602 Reenrollment.

(a) A retired employee or survivor enrolled, or eligible to be enrolled, under this section will, beginning June 1, 1974, have a 4-month period during which he may elect to register to be enrolled under the Federal Employees Health Benefits Program, as provided under Part 890 of this chapter.

(b) A retired employee or survivor who elected to be enrolled under Part 890 of this chapter may cancel that enrollment before January 1, 1975, and, when no benefits have been paid under Part 890 of this chapter, or upon repayment of any benefits paid under Part 890 may elect to reenroll retroactively under this part. When the retired employee or survivor was previously enrolled in the uniform plan, he shall be restored to his initial coverage with retroactive deductions. When the retired employee or survivor formerly had been receiving a Government contribution toward a private health benefits plan, the contribution may be restored retroactively to the extent that coverage under the private health benefits plan is restored retroactively.

(c) A retired employee and survivor who does not elect retroactive reenrollment under this part, or who cancels his enrollment under Part 890 of this chapter after December 31, 1974, or who has not repaid benefits paid under Part 890 of this chapter, may elect to reenroll prospectively under this part for self or self and family, basic coverage, in the uniform plan or in a private health benefits plan. Elections are effective for a retired employee receiving annuity and a survivor receiving compensation on the first day of the third month following the month in which the retirement office receives the election. Withholdings and contributions are effective for months beginning on and after the first day of the second month following the month in which the retirement office receives the election. For any other retired em-

V 39 — 110 JUN 6 74 XUM

ployee receiving compensation, the election is effective on the first day of the third 4-week period following the 4-week period in which the Office of Federal Employees' Compensation receives the election, and withholdings and contributions are effective beginning with the second 4-week period following receipt of the election.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant
to the Commissioners.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY OFFICE

Appendix—Rulings

[FEO Ruling 1974-14]

BASE RENT REGULATIONS

Facts. Firm A, a refiner, owns Station X which it leases to Firm B, a retailer of gasoline supplied by Firm A. Upon the expiration of Firm B's lease, Firm A leases the station to Firm C at a rent in excess of the base rent that was paid by Firm B.

Issue. Is the increase in rent to Firm C for the use of Station X to an amount in excess of the base rent that was charged to Firm B for the use of Station X a violation of § 212.103?

Ruling. Yes. Section 212.103 prohibits an increase in base rent for property used in the retailing of gasoline, where both the lessor and lessee are refiners, resellers, reseller-retailers, or retailers. "Base rent" is defined in § 212.102, as the rent charged for that station pursuant to the contractual terms prevailing on May 15, 1973. Thus, as long as Station X is a property used in the retailing of gasoline, and as long as the parties to the lease agreement (Firm A and Firm C) are refiner and a retailer, the "Lessor" regulations of Subpart G are applicable.

Thus, a change in the identity of the retailer, or the fact that a new lease agreement has been entered into, does not affect the requirement of § 212.103 that the rent for Station X not be increased to an amount in excess of the base rent.

WILLIAM N. WALKER,
General Counsel,
Federal Energy Office.

MAY 31, 1974.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. M]

PART 213—FOREIGN ACTIVITIES OF NATIONAL BANKS

Reserves Against Eurodollar Borrowings

The present amendment is made pursuant to the Board's authority under section 25 of the Federal Reserve Act. The purpose of this amendment is to avoid duplication of Eurodollar reserve requirements under Regulations D and M where the foreign branch of a member bank ("Bank 'A' ") extends credit to the domestic office of another member bank ("Bank 'B' "). In this situation, § 213.7 (b) of Regulation M would require Bank "A" to maintain reserves against its foreign branch loan to Bank "B", which would be a U.S. resident within the meaning of Regulation M, and § 204.5 (c) of Regulation D would also require Bank "B" to maintain reserves against its borrowing from the foreign branch of Bank "A". This amendment will avoid this duplication of reserves on the same transaction by removing from the computation of reserve requirements under § 213.7(b) of Regulation M credit extended by a foreign branch of a member bank to another member bank that will be maintaining reserves on such credit under § 204.5(c) of Regulation D. Accordingly, in the above situation, Bank "A" would not be required to maintain reserves under Regulation M on its foreign branch loan to Bank "B".

The requirements of section 553(b) of title 5, United States Code, with respect to notice, public participation, and deferral of effective date were not followed in connection with this amendment because the Board found that such procedures were unnecessary and would serve no useful purpose since the rule relieves a restriction without affecting any private interests; furthermore, such procedures would result in delay that would be contrary to the public interest.

Effective May 24, 1974, the Board amended the proviso in § 213.7(b) of Regulation M to read as follows:

§ 213.7 Reserves against foreign branch deposits.

* * * * *

(b) * * * *Provided,* That this paragraph does not apply to credit extended (1) in the aggregate amount of $100,000 or less to any U.S. resident, (2) by a foreign branch which at no time during the computation period had credit outstanding to U.S. residents exceeding $1 million, (3) to enable the borrower to comply with the requirements of the Office of Foreign Direct Investments, Department of Commerce,[*] (4) under binding commitments entered into before May 17, 1973, or (5) to another member bank that will be maintaining reserves on such credit under § 204.5(c) of Regulation D.

By order of the Board of Governors, May 24, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74-12993 Filed 6-5-74;8:45 am]

---

[*] The branch may in good faith rely on the borrower's certification that the funds will be so used.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 13820; Amdt. No. 61-63]

PART 61—CERTIFICATION: PILOTS AND FLIGHT INSTRUCTORS

Graduates of Certificated Flying Schools

The purpose of this amendment to Part 61 of the Federal Aviation Regulations is to provide for testing and certification of graduates of pilot schools operated under certificates issued under Part 141 in effect prior to November 1, 1974.

Amendment 141-13 (effective November 1, 1974, and published in the Part II of this issue at 39 FR 20145), which substantially revises Part 141, provides in § 141.29 that a pilot school certificate issued before November 1, 1974 remains in effect until the expiration date on the certificate unless sooner surrendered, suspended, or revoked. In addition, a pilot school certificate issued before November 1, 1974 may be renewed under Part 141 to allow those students enrolled in an approved course of training prior to November 1, 1974 to complete that training.

As pointed out in Notice No. 73-5 preceding Amendment 141-13, much of the impetus for that amendment resulted from the recommendation of the Assistant Secretary for Safety and Consumer Affairs of the Department of Transportation that the requirements of Parts 61 and 141 be reviewed and upgraded. The upgrading of Part 61 was accomplished by Amendment 61-60 (effective November 1, 1973, and published in the FEDERAL REGISTER on February 1, 1973, 38 FR 3156). Amendment 141-13 accomplishes the upgrading of Part 141. However, because the Parts are closely related, compatibility of those Parts must be provided for.

Consequently, the FAA has determined that this amendment to Part 61 is necessary to effectively implement revised § 141.29. As adopted, a new flush paragraph following paragraph (b) of § 61.71 recognizes the fact that students trained by pilot schools permitted to operate under the requirements of Part 141 in effect prior to November 1, 1974 may be at a disadvantage in attempting to meet the revised testing requirements of revised Part 61. Accordingly, § 61.71 will now permit a student who graduates from such a pilot school to be eligible for certification and to be tested for his pilot certificate under the requirements of Part 61 that were in effect prior to November 1, 1973.

Finally, in order to accommodate this change to § 61.71, it has been necessary to amend the applicability provisions of § 61.1 to reflect the exception created herein to the time-limited certification option provided for in § 61.1 for meeting the requirements of Part 61.

Since this amendment merely extends the date for compliance with revised Part 61 for certain applicants, and does not impose an additional burden on persons affected thereby, I find that public notice and procedure thereon are unnecessary.

This amendment is made under the authority of sections 313(a), 314, 601, and 602 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1355, 1421, and 1422), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, Part 61 of the Federal Aviation Regulations is amended effective November 1, 1974, as follows:

1. By amending paragraph (b) of § 61.1 to read as follows:

§ 6.11 Applicability.

* * * * *

(b) Except as provided in § 61.71 of this part, an applicant for a certificate or rating may, until November 1, 1974, meet either the requirements of this part, or the requirements in effect immediately before November 1, 1973. However, the applicant for a private pilot certificate with a free balloon class rating must meet the requirements of this part.

2. By adding a new flush paragraph immediately following paragraph (b) of § 61.71 to read as follows:

§ 61.71 Graduates of certificated flying schools: special rules.

* * * * *

(b) * * *

However, until January 1, 1977, a graduate of a flying school certificated and operated under the provisions of § 141.29 of this chapter, is considered to meet the aeronautical experience requirements of this part, and may be tested under the requirements of Part 61 that were in effect prior to November 1, 1973.

Issued in Washington, D.C., on May 29, 1974.

ALEXANDER P. BUTTERFIELD,
Administrator.

[FR Doc.74-12774 Filed 6-5-74;8:45 am]

[Airspace Docket No. 74-GL-2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 7805 of the FEDERAL REGISTER dated February 28, 1974, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to alter the transition area at Waseca, Minnesota.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective August 15, 1974.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on May 24, 1974.

JOHN M. CYROCKI,
Director, Great Lakes Region.

In § 71.181 (39 FR 440), the following transition area is amended to read:

WASECA, MINNESOTA

That airspace extending upward from 700 feet above the surface within a five mile radius of the Waseca Municipal Airport (latitude 44°04'24" N., longitude 93°33'10" W.); within three and a half miles each side of the 339° bearing from the Waseca Municipal Airport, extending from the five mile radius to eight miles north of the airport; within one and a half miles each side of the 046° bearing from the Waseca Municipal Airport, extending from the five mile radius to six miles northeast of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

[FR Doc.74-12930 Filed 6-5-74;8:45 am]

[Airspace Docket No. 74-GL-7]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On Page 12768 of the FEDERAL REGISTER dated April 8, 1974, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to designate a transition area at Watertown, Wisconsin.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective August 15, 1974.

(Sec. 307(a), Federal Aviation Act of 1958 (47 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on May 24, 1974.

JOHN M. CYROCKI,
Director, Great Lakes Region.

In § 71.181 (39 FR 440), the following transition area is added:

WATERTOWN, WISCONSIN

That airspace extending upward from 700 feet above the surface within an 8-mile radius of Watertown Municipal Airport (latitude 43°10'15" N., longtitude 88°43'20" W.).

[FR Doc.74-12929 Filed 6-5-74;8:45 am]

[Docket No. 13762; Amdt. No. 919]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Proceduers (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.11 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective June 27, 1974:

Palau Islands U.S. Trust Territory—Angaur Arpt., NDB-A, Orig., canceled.

2. Section 97.21 is amended by originating, amending, or canceling the following L/MF SIAPs, effective July 18, 1974:

Cold Bay, Alaska—Cold Bay Arpt., LFR-A, Amdt. 3, canceled.
Homer, Alaska—Homer Municipal Arpt., LFR-A, Amdt. 17, canceled.
Kenai, Alaska—Kenai Municipal Arpt., LFR-A, Amdt. 15, canceled.
King Salmon, Alaska—King Salmon Arpt. LFR Rwy 11, Amdt. 15, canceled.
Kodiak, Alaska—Kodiak Arpt., LFR Rwy 25, Amdt. 2, canceled.

3. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective July 18, 1974:

Annette Island, Alaska—Annette Island Arpt., VORTAC-A, Amdt. 4.
Annette Island, Alaska—Annette Island Arpt. VORTAC Rwy 30, Admt. 4.

CHAPTER II—CIVIL AERONAUTICS BOARD

[Reg. OR-82]

PART 385—DELEGATIONS AND REVIEW OF ACTION UNDER DELEGATION; NONHEARING MATTER

Delegation to the General Counsel

The delegation of authority to the General Counsel, which is set forth in § 385.19(c) continues to include a reference to proceedings or matters "under § 300.15 of this chapter." Since said § 300.15 was deleted and reserved by PR-115, effective November 24, 1970, the reference thereto in § 385.19(c) has been rendered obsolete. The purpose of this amendment is to delete such reference.

This editorial amendment is issued by the undersigned pursuant to a delegation of authority from the Board to the General Counsel in 14 CFR § 385.19 and shall become effective on June 26, 1974. Procedures for review of this amendment by the Board are set forth in Subpart C of Part 385 (14 CFR § 385.50 through 385.54).

Accordingly, the Board hereby amends § 385.19(c), effective June 26, 1974, to read as follows:

§ 385.19 Delegation to the General Counsel.

* * * * *

(c) Issue, upon request therefor, interpretations of facts bearing upon disqualifications of former Board members and employees under § 300.13 or § 300.14 of this chapter (Procedural Regulations).

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743 (49 U.S.C. 1324). Reorganization Plan No. 3 of 1961, 75 Stat. 837, 26 FR 5989 (49 U.S.C. 1324 (note)))

By the Civil Aeronautics Board.

Effective: June 26, 1974.

Adopted: June 3, 1974.

[SEAL] RICHARD LITTELL,
General Counsel.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-280]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART I—GENERAL PROVISIONS

Membership of the Contract Appeals Board

Section 1.772(a) is amended to specify the position designations for the Chairman and members of the Veterans Administration Contract Appeals Board.

Compliance with the provisions of § 1.12 of this chapter as to notice of proposed regulatory development and delayed effect date is unnecessary in this instance and would serve no useful purpose. This amendment places in regulatory form a non-substantive change in title designation which is already approved and in practice.

In § 1.772, paragraph (a) is amended to read as follows:

§ 1.772 Composition of the Board.

(a) *Membership*. The Board is composed of a Chairman and members designated by the Administrator, all of whom shall be members of the bar of a State, commonwealth, or territory of the United States or of the District of Columbia. The Chairman and members of the Board are designated Administrative Judges.

* * * * *

(72 Stat. 1114; 38 U.S.C. 210)

This VA Regulation is effective April 22, 1974.

Approved: May 31, 1974.

By direction of the Administrator.

[SEAL] R. L. Roudebush,
Deputy Administrator.

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Final Reclassification of Air Quality Control Regions; Corrections

In FR Doc. 74-10440 appearing at 39 FR 16344 in the issue for Wednesday, May 8, 1974, on page 16346 in Subpart V—Maryland, the reference to the Metropolitan Baltimore Intrastate Region in §§ 52.1071 and 52.1078 is deleted and the reference to § 52.1075, which was incorrectly revoked, is deleted.

In FR Doc. 73-18629 appearing at 38 FR 24333 of the issue for Friday, September 7, 1973, on page 24341 the reference to "paragraph (b)(9) in § 52.84" should be "paragraph (d)(9) in § 52.84."

In FR Doc. 73-25118 appearing at 38 FR 33368 of the issue for Monday, December 9, 1973, on page 33368 the reference to § 52.131 is corrected to read as follows:

In § 52.131, the attainment date table is amended by replacing the date "May 31, 1975," for attainment of the national standards for carbon monoxide and photochemical oxidants (hydrocarbons) in the Phoenix-Tucson Intrastate Region with the dates "May 31, 1977" and "May 31, 1975" respectively and by revoking and reserving footnote "d".

Dated: June 3, 1974.

Roger Strelow,
Acting Assistant Administrator for Air and Waste Management.

[FR Doc.74-13026 Filed 6-5-74;8:45 am]

PART 51—REQUIREMENTS FOR THE PREPARATION, ADOPTION AND SUBMITTAL OF IMPLEMENTATION PLANS

Nitrogen Dioxide Control Strategy; Correction

In Federal Register document 74-10439 appearing at page 16122 of the issue for Tuesday, May 7, 1974, the date "June 5, 1971" in the second paragraph was incorrectly referred to. This reference is changed to read "June 5, 1973."

Dated: June 3, 1974.

Roger Strelow,
Acting Assistant Administrator for Air and Waste Management.

[FR Doc.74-13027 Filed 6-5-74;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER H—UTILIZATION AND DISPOSAL

[FPMR Amendment H-84]

PART 101-43—UTILIZATION OF PERSONAL PROPERTY

Use of Excess Property on Contracts and Grants

This amendment of Part 101-43 provides added requirements for the acquisition, use, and eventual disposition of excess personal property obtained by executive agencies and furnished to project grantees. It sets forth the responsibility of Federal agencies to improve the operation and administration of their grantee program in five key areas: (1) Making usable excess property available quickly and efficiently to authorized grantees; (2) allocating and distributing property evenly among grantees; (3) ensuring proper use of property by grantees; (4) ensuring that the Federal Government obtains the maximum use of the property; and (5) strengthening the administration of the grantee program through improved information and accounting systems.

The table of contents for Part 101-43 is amended as follows:

101-43.4908 GSA Form 2946, Authorization Certificate to Select/Freeze Excess Personal Property

Subpart 101-43.3—Utilization of Excess

Section 101-43.320 is revised to read as follows:

§ 101-43.320 Use of excess property on contracts and grants.

(a) Executive agencies are responsible under § 101-43.302 for fulfilling requirements for property, including requirements of cost-reimbursement type contractors by transferring to and obtaining from other Federal agencies excess personal property. The use of excess personal property shall be considered by Federal agencies in their cost-reimbursement type contracts and project grants which are made pursuant to programs established by law and for which funds are appropriated by the Congress. As used in this § 101-43.320, the term "project grants" refers to grants made for a specific purpose with established termination dates; e.g., grants made to specific institutions to perform specific tasks within set time frames and costs.

(b) It is the responsibility of all agencies to achieve their program objectives at the least possible cost. Excess personal property can be used to reduce costs and shall be considered for such use wherever possible. Excess personal property can also be used to expand the ability of a contractor or project grantee to fulfill his mission, and shall be considered for this use wherever possible. Excess personal property may be furnished to a contractor or project grantee with the approval of an authorized Federal official provided a determination is made by the contracting or sponsoring Federal agency that the acquisition will result in a reduction in the cost to the Government of the contract or grant or an enhancement in the product or the benefit from the contract or grant. Transfer orders for excess personal property must be executed by a duly authorized accountable official of the contracting or grantor agency. The project officer, at the discretion of the acquiring Federal agency, may also be required to sign such orders.

(c) Excess personal property is transferred between Federal agencies as provided in § 101-43.315-5. The receiving Federal agency may furnish the property to its contractor or project grantee as Government-furnished property, but title generally remains vested in the Government. A few Federal agencies have specific statutory authority to vest title in contractors or grantees under certain circumstances. When competing Federal claims are made for particular items of excess personal property, GSA will give preference to the Federal agency whose contractor or grantee is operating under agreements which do not permit ultimate vesting of title.

(d) Federal agencies, when drawing up contract or grant documents, shall ensure that appropriate provisions are included therein to accommodate the furnishing of excess personal property to contractors or project grantees. The system of accountability for such property will be in accordance with contractual and agency procedures, and records will be subject to audit by an internal audit group of the contracting or granting Federal agency. Federal grantor agencies shall include the following information in their grants record-keeping sys-

V 39 110 JUN 6 74 XUM

tems: number of grantees using excess personal property; total dollar value of property loaned to all grantees; dollar value of property on loan to each grantee; date of grant termination; acquisition cost of loaned items; dollar value of the grant; and percentage of acquisition cost of loaned property to the dollar value of the grant. Where an agency has statutory authority to vest title in grantees, comparable records shall be maintained, including records which will indicate the dollar value of property vested in any grantee.

(e) Records of Federal contracting and grantor agencies shall be made available upon request to the General Accounting Office. The contract or grant shall include adequate safeguards and assurances relative to use, maintenance, consumption, unauthorized use, and redelivery to Government custody of Government-furnished property.

(f) Federal grantor agencies shall make excess personal property available only to project grantees, with authorization for such grantees to use the property made a part of the grant document. To ensure that all such property transferred is for the specific purpose authorized by the grantor agency, all transfer orders submitted to GSA for excess personal property to be made available to project grantees shall be signed by the agency accountable officer and shall state the name of the project grantee, the grant number, and scheduled date of grant termination. The transfer order shall also specify the purpose of the transfer, and affirm that the transfer of the property is requested for use by a project grantee in accordance with the provisions of 41 CFR Part 101–43.

(g) With the exception of consumable items, Federal grantor agencies are encouraged to make all eligible types of excess personal property available to their project grantees. Consumable items, for the purpose of this section, are those items which are intended for one-time use and actually consumed in that one time (e.g., drugs, medicines, surgical dressings, cleaning and preserving materials, fuel, etc.). In those instances where there is a question concerning the consumability of an item of excess personal property for use by a project grantee, the final decision on whether the item is approved for transfer will rest with the appropriate GSA regional office. When circumstances warrant, agencies may set economic quantities for orders processed or set minimum life expectancies for excess personal property made available to grantees. To help ensure a more equitable distribution of property among grantees, Federal grantor agencies shall limit the amount of excess personal property (in terms of Government acquisition cost) loaned to a grantee to the dollar value of the grant. Any higher percentage of excess personal property loaned to a grantee shall be subject to approval by an administrative level in the Federal agency higher than the project officer administering the grant. It is expected that agencies will give full consideration to all factors in determining whether to approve or disapprove transfers to grantees of excess property above the dollar value of the grant. Pro forma approvals or disapprovals are inconsistent with the purpose of this regulation. GSA will monitor agency actions in this regard to ensure compliance with the provisions of this regulation. Limits on the value of excess personal property and/or material grants consisting of excess personal property used in lieu of financial support, below the dollar value of the grant, may be authorized by Federal grantor agencies but should be justified in the basic grant instrument.

(h) For the purpose of reducing delays in screening excess personal property at holding activities, and to make property available quickly and efficiently to authorized grantees, non-Federal grantee screeners shall be subject to certification by Federal authority as follows:

(1) Federal grantor agencies shall recommend and submit to GSA the names of non-Federal grantee screeners. The sponsoring Federal agency recommending the designation of a non-Federal grantee screener shall prepare a request covering each such designation and forward it for evaluation and approval to the appropriate GSA regional office serving the region in which the intended screener is located. (See § 101–43.4903 for regional offices, addresses, and assigned areas.) The request shall state the applicants qualifications to screen excess personal property for use on grants, indicate the name, number, and termination date of the specific grant to which the screener is to be assigned, and list the Federal installations which the grantor agency wishes the applicant to visit. Since GSA certification of screeners will be made on a regional basis, the list of installations shall be limited to those located within the boundaries of the GSA regional office in which the screener is located. Requests by Federal grantor agencies for screeners to visit holding activities located in a GSA region other than the region in which the screener is located shall be a matter of separate handling by GSA and any such requests will require special approval by the involved GSA regional offices. Requests for approval of such interregional visits shall include the name of the installation(s) and the specific reason for the visit. Information shall also be included as to whether similar requests for interregional visits have been sent to other GSA regional offices. The request shall be forwarded to the GSA regional office representative serving the region in which the screener is located who will coordinate the request with the regional office in which the installation is located and advise the requestor of the action taken on the request.

(2) Federal grantor agencies shall accompany each non-Federal grantee screener request with GSA Form 2946, Authorization Certificate to Select/Freeze Excess Personal Property. (See § 101–43.4908 for illustration). GSA Forms 2946 must contain the typed name of the sponsoring Federal grantor agency, the signature of the grantor agency representative, and the typed name and signature of the proposed non-Federal grantee screener.

(3) GSA regional offices shall be responsible for processing the Federal grantor agency request for certification of the non-Federal agency screener. Upon review and evaluation, the GSA regional office, if the request is approved, will enter the issue and expiration dates on the GSA Form 2946. The form will then be signed by the GSA regional representative and returned to the sponsoring Federal grantor agency for distribution to and use by the non-Federal grantee screener when visiting holding activities.

(4) Each Federal grantor agency shall be responsible for maintaining a record of the number of certified screeners working through their authority and for immediately notifying the GSA regional office of any changes in screening assignments. Upon termination of a grant or whenever the services of an approved non-Federal grantee screener are discontinued, the Federal grantor agency shall recover the GSA Form 2946 and forward it to the appropriate GSA regional office for cancellation.

(i) Federal grantor agencies shall develop and maintain an effective system for the prevention or detection of situations involving the nonuse, improper use, or the unauthorized disposal or destruction of excess personal property furnished to grantees. This responsibility shall include compliance reviews, field inspections, and other enforcement procedures to monitor the excess personal property being used by their grantees. Grantor agencies shall publish procedures which clearly outline the scope of their respective surveillance program, the policies and methods for the enforcement of their compliance responsibilities, and the correction of abuses in the use of property.

(j) Except when specifically authorized by statute to vest title, Federal agencies, upon termination of the contract or grant in whole or in part, shall reassign Government-furnished property as far as practicable, to other contractors or grantees, or to other activities of the contracting Federal agency. If no reassignment is made, and if the property is not disposed of pursuant to applicable regulations or contract provisions relating to contract or inventory, it shall be reported to GSA by the contracting or grantee Federal agency for possible further Government use, as provided in § 101–43.311, unless other reporting requirements have been agreed upon by GSA and the reporting agency. Property not required to be reported shall be handled as provided in §§ 101–43.306 and 101–43.318–2. Property normally shall be held by the contractor or grantee until transfer, donation, or disposal instructions are received. Contracting or grantor agencies shall publish procedures which clearly delineate the obligations of contractors and grantees with respect to the use and consumption or return to Government custody of property acquired from excess sources.

Subpart 101–43.49—Illustrations

Section 101–43.4908 is revised as follows:

§ 101–43.4908 GSA Form 2946, Authorization Certificate to Select/Freeze Excess Personal Property.

NOTE: The form illustrated at § 101–43.4908 is filed as part of the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective June 6, 1974, except that the use of GSA Form 2946 as provided in § 101–43.320(h)(2) is effective August 1, 1974.

Dated: May 30, 1974.

ARTHUR F. SAMPSON,
Administrator of General Services.

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73–33; Notice 2]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Lamps, Reflective Devices, and Associated Equipment

This notice amends 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, Lamps, Reflective Devices, and Associated Equipment, to allow variable-load turn signal flashes on trucks that are capable of accommodating slide-in campers.

The proposal on which the amendment is based was published on January 3, 1974 (39 FR 822), pursuant to a petition by Ford Motor Company. Standard No. 108 presently requires turn signal failure indication in accordance with SAE Standard J588d, except on vehicles whose overall width is 80 inches or more, and on vehicles equipped to tow trailers. This has the effect of mandating use of fixed-load flashers, since special circuitry would be necessary to sense and indicate a failure in a variable-load system.

The NHTSA proposed to include trucks capable of accommodating slide-in campers in the group of vehicles not required to have a failure indicator (and hence allowed to have variable-load flashers). The problem presented by Ford may be summarized as follows: when camper turn signal lamps are added to the turn signal circuit of the vehicle carrying the camper, the flash rate will increase, to a level generally exceeding the maximum specified by Standard No. 108. Allowing a variable-load flasher will insure a uniform flash rate when the camper is installed.

In response to the opportunity afforded for comments, seven submittals were received. Six supported the proposal. The seventh commenter, a foreign equipment manufacturer, opposed the proposal on the grounds that suitable flashers for similar applications are available in Europe.

The NHTSA has determined that the availability of variable-load flashers ensuring flash rate control within the limits of the standard is desirable, and should be permitted on trucks capable of accommodating slide-in campers, despite the lack of lamp failure indication. In order to make clear the intent of the regulation, language is being added to specify that the exception applies only to vehicles with variable-load flashers.

In consideration of the foregoing, paragraph S4.5.6 of 49 CFR 571.108, Motor Vehicle Safety Standard No. 108 is revised to read:

§ 571.108 Standard No. 108, Lamps, reflective devices and associated equipment.

* * * * *

S4.5.6 Each vehicle equipped with a turn signal operating unit shall also have an illuminated pilot indicator. Failure of one or more turn signal lamps to operate shall be indicated in accordance with SAE Standard J588d, "Turn Signal Lamps", June 1966, except where a variable-load turn signal flasher is used on a truck, bus, or multipurpose passenger vehicle 80 or more inches in overall width, on a truck that is capable of accommodating a slide-in camper, or on any vehicle equipped to tow trailers.

* * * * *

Effective date. Because the amendment allows an additional option and creates no additional burden, it is found for good cause shown that an immediate effective date is in the public interest.

(Secs. 103, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 407); delegation of authority at 49 CFR 1.51)

Issued on May 31, 1974.

JAMES B. GREGORY,
Administrator.

[FR Doc.74–12936 Filed 6–5–74;8:45 am]

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—SPECIAL PROGRAMS

PART 760—INDEMNITY PAYMENT PROGRAMS

Subpart—Beekeeper Indemnity Payment Program (1974–1977)

On April 16, 1974, a notice of proposed rulemaking regarding amendments to the beekeeper indemnity payment program regulations was published in the FEDERAL REGISTER (39 FR 13660).

Interested persons were given until May 15, 1974, to submit written comments, suggestions, or objections regarding the proposed amendments. Comments received from the notice of proposed rulemaking were generally favorable regarding the proposal to increase the rates of payment to the levels proposed. A number of respondents stated that the rates per colony should be increased more than the amounts proposed, citing the significant increases in operating costs sustained by beekeepers. Most concern was expressed with the rate proposed for a moderately damaged colony. Also comments on the payment rate for a queen nucleus destroyed favored a larger increase than proposed. After consideration of all comments received regarding rates of payment, the regulations have been changed to provide for an increased rate of $7.50 for each colony moderately damaged and for each queen nucleus destroyed. Some objections were received on the proposal to eliminate payment for multiple losses. However, the majority of the respondents favored eliminating such payments. Comments on the proposals to accept the inspectors' certification of pesticide damage and to eliminate the option of filing a claim on the basis of net loss of income were generally favorable.

After consideration of all such relevant matter as was presented by interested persons, the proposed regulations are hereby adopted with the exception that the rates of payment for losses which occurred since January 1, 1974, in paragraph (a) (3) of § 760.109 for each colony moderately damaged and in paragraph (a) (4) of § 760.109 for each queen nucleus destroyed are amended to read "$7.50."

Effective date: June 6, 1974.

Signed at Washington, D.C. on May 31, 1974.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

760.118 Records, and inspection thereof.

AUTHORITY: Pub. L. 91–524 (84 Stat. 1382), as amended by Pub. L. 93–86 (87 Stat. 237).

Subpart—Beekeeper Indemnity Payment Program (1974–1977)

§ 760.100 Administration.

The beekeeper indemnity payment program is administered by the Agricultural Stabilization and Conservation Service under the supervision and direction of the Deputy Administrator, Programs. In this field, the program is carried out by the ASCS State and county committees.

§ 760.101 Definitions.

For the purpose of this subpart, the following terms shall have the meaning specified:

V 39 110 JUN 6 74 XUM

(a) "Apiary" means the place where bees are kept, commonly known as a "bee yard".

(b) "Application period" means any period with respect to which application for payment is made beginning not earlier than January 1, 1974, and ending not later than December 31, 1977.

(c) "ASCS" means the Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

(d) "Bee" means the honeybee, Apis mellifera L.

(e) "Beekeeper" means a person who maintains colonies of bees.

(f) "Colony" means a community of bees living together in a hive with a queen.

(g) "Colony destroyed" means a colony in which the kill of bees by pesticides was so severe that the colony will not survive.

(h) "Colony moderately damaged" means a colony so damaged by pesticides as to destroy only the field bees.

(i) "Colony severely damaged" means a colony in which the field bees were killed by pesticides, the colony suffered damage to the brood, but the colony did survive.

(j) "County committee" means the Agricultural Stabilization and Conservation County Committee.

(k) "DAP" means the Deputy Administrator, Programs, ASCS.

(l) "Person" means an individual, partnership, association, corporation, trust, estate, or other legal entity.

(m) "Pesticide" means an economic poison which was registered pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (7 U.S.C. 135–135k), and approved for use by the Federal Government.

(n) "Queen nucleus" means a small colony of bees maintained solely for the purpose of producing queen bees.

(o) "Queen nucleus destroyed" means a queen nucleus in which the kill of bees by pesticides was so severe that the queen nucleus did not survive.

(p) "State committee" means the Agricultural Stabilization and Conservation State Committee.

§ 760.102 Indemnity payment.

An indemnity payment computed in accordance with § 760.109 will be made under this subpart to a beekeeper who has suffered a loss of his bees as a result of the application of pesticides and who establishes to the satisfaction of the county committee that he meets all of the requirements of this subpart.

§ 760.103 Requirements for eligibility.

(a) A beekeeper, to be eligible for an indemnity payment, shall file an application for payment with the county committee and establish to the satisfaction of the county committee all of the following:

(1) That during the application period, he suffered a loss of bees;

(2) That the loss of bees was caused solely by the use of pesticides near or adjacent to his apiary, and occurred without his fault;

(3) That if he used pesticides, such use of pesticides in no way contributed to the loss of his bees;

(4) That if he had advance knowledge that pesticides were going to be used near or adjacent to his apiary, he took reasonable precautions to protect his bees from exposure to pesticides, or, if he took no such precautions, that his failure to do so was reasonable under the circumstances;

(5) That after exposure of his bees to pesticides, he took reasonable action to minimize the bee loss to the extent that such action was feasible.

(b) A beekeeper, to be eligible for an indemnity payment shall, no later than July 15 of each such year, submit to the ASCS county office where his headquarters are located a signed statement specifying the number of colonies of bees and queen nuclei maintained at each apiary and the location of each apiary: *Provided, however,* That such statement may be submitted after such date if the county committee determines that the beekeeper's failure to submit the statement by such date was because of illness or other reason beyond his control; *And provided, further,* That an amendment to such statement shall be submitted after such date to reflect any purchase or sale of colonies or queen nuclei after July 15, together with proof of such purchase or sale. The number of colonies and queen nuclei specified in this statement, as amended, shall be the maximum number of colonies and queen nuclei for which the beekeeper will be eligible to receive an indemnity payment.

§ 760.104 Application for payment.

(a) The beekeeper or his legal representative shall complete, sign, and file an application for payment, Form ASCS–448 with the ASCS county office serving the area where the beekeeper's headquarters is located.

(b) Application for payment shall be filed not later than April 1 following the year in which the losses occurred. The application shall be postmarked not later than midnight April 1 of each such year. An application may be filed after the closing date if the county committee determines that the beekeeper was prevented from filing by such date because of illness or other reason beyond his control. The beekeeper should file only one application per year covering all losses occurring during each such calendar year.

(c) The application for payment shall be accompanied by the information required by §§ 760.105–760.109, and such other information as may be reasonably required to enable the county committee to determine the eligibility of the beekeeper to receive an indemnity payment.

§ 760.105 Proving lose of bees.

(a) A beekeeper shall submit to the county committee an executed Form ASCS–448, specifying the number of colonies destroyed, severely damaged and moderately damaged; the number of queen nuclei destroyed; and evidence of the loss of bees specified in paragraph (b) of this section.

(b) Such evidence shall be a written report by a State or county apiary inspector or ASCS personnel who has observed this loss. Any report under this paragraph shall:

(1) Describe the losses of bees which he has observed.

(2) Give full information regarding the loss, including but not limited to the following:

(i) Extent of loss (number of colonies destroyed, severely damaged or moderately damaged and number of queen nuclei destroyed);

(ii) Date of loss;

(iii) Location of apiary.

(3) Be completed, signed, and dated within a reasonable time following the loss as determined by the county committee.

(c) If the report required by paragraph (b) of this section is based on inspections of only a sample of the colonies in an apiary, the following guidelines shall be substantially compiled with in selecting the samples of colonies to be examined:

(1) Count the colonies in the apiary.

(2) Select the colonies to be included in the sample from all areas of the apiary so as to assure that the sample is representative of conditions in the apiary as a whole. Colonies to be inspected should be selected at random to assure an accurate determination of the extent of loss in the apiary.

(3) Open and thoroughly inspect at least the specified number of colonies for the applicable size of apiary.

Apiary of 1–15 colonies, all colonies.
Apiary of 16–75 colonies, 15 colonies.
Apiary of more than 75 colonies, 20 percent of the colonies.

(d) No change in the degree of loss of bees which occurs after November 1 each year will be recognized and no payment will be made for any loss of queen nuclei which occurs between October 1 and December 31 each year.

§ 760.106 Proving utilization of pesticides.

A beekeeper shall submit to the county committee evidence that the loss of his bees occurred as a result of the utilization of pesticides near or adjacent to his apiary. Such evidence may, include, but is not limited to:

(a) Reports of chemical tests performed on the bees which were killed.

(b) Records, signed statements, or official reports of pesticide applicators or farmers who either applied pesticides or contracted for their application within the normal forage range of the beekeeper's bees.

(c) Records, signed statements, or official reports of representatives of local canneries or pesticide vendors who supplied pesticides which were used within the normal forage range of the beekeeper's bees.

(d) Records, signed statements, or official reports of local, State or Federal governmental agencies or colleges and universities having verified information with respect to the application of pesticides in the locality where the beekeeper's apiaries were located.

(e) Certification by the person that inspected the bees for pesticide damage that the loss resulted solely from pesticides and not caused by disease, starvation, or neglect.

§ 760.107 Proving nonfault.

A beekeeper shall submit to the county committee (a) a statement signed by the beekeeper stating whether or not he used pesticides, and (b) if he did use pesticides, evidence that his use thereof in no way contributed to the loss of his bees.

§ 760.108 Proving reasonable care.

A beekeeper shall submit to the county committee evidence that he exercised reasonable care in connection with the use of pesticides by others. Such evidence shall consist of, but is not limited to, written statements signed by the beekeeper:

(a) Stating whether or not he received advance notice that pesticides were going to be applied near or adjacent to his apiary.

(b) Describing what actions he took (if he received such notice) to protect his bees from pesticides, or why there was no suitable action he could take.

(c) Describing what steps he took, after exposure of his bees to pesticides, to improve the condition of his colonies and to reduce the extent of bee loss, or why there were no suitable steps he could take.

§ 760.109 Computation of payment.

(a) The county committee will determine the amount of the indemnity payment due a beekeeper whom it has determined to be in compliance with the terms and conditions of this subpart. Such payment shall be in the amount of the beekeeper's net loss from losses of his bees resulting from application of pesticides, less any indemnification for the loss of his bees or payment of any nature which the beekeeper has received through insurance, legal action, or otherwise. The beekeeper's indemnity payment will be computed on the basis of the following rates for losses which occurred since January 1, 1974:

(1) $22.50 for each colony destroyed.

(2) $15.00 for each colony severely damaged,

(3) $7.50 for each colony moderately damaged, and

(4) $7.50 for each queen nucleus destroyed.

(b) Only one payment will be made on a colony for losses occurring during a given calendar year. If more than one loss is suffered by a colony, the beekeeper may claim payment on the most severe loss suffered.

§ 760.110 Appeals.

The Appeal Regulations issued by the Administrator, ASCS, Part 780 of this chapter, shall be applicable to appeals by beekeepers from determinations made pursuant to the regulations in this subpart.

§ 760.111 Assignments.

A beekeeper shall not assign any indemnity payment due or to come due under the regulations in this subpart.

§ 760.112 Instructions.

DAP shall cause to be prepared such forms and instructions as are necessary for carrying out the regulations in this subpart. Beekeepers may obtain such forms, including the following, from the ASCS county office.

ASCS–448–Beekeeper Indemnity Payment Program Report of Loss on a Colony Basis and Application for Payment.

§ 760.113 Limitation of authority.

(a) County executive directors and State and county committees do not have authority to modify or waive any of the provisions of the regulations in this subpart.

(b) The State committee may take any action authorized or required by the regulations in this subpart to be taken by the county committee when such action has not been taken by the county committee. The State committee may also (1) correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations in this subpart, or (2) require a county committee to withhold taking any action which is not in accordance with the regulations in this subpart.

(c) No delegation herein to a State or county committee shall preclude DAP or his designee from determining any question arising under the regulations in this subpart or from reversing or modifying any determination made by a State or county committee.

§ 760.114 Estates and trusts; minors.

(a) A receiver of an insolvent debtor's estate and the trustee of a trust estate shall, for the purposes of this subpart, be considered to represent an insolvent beekeeper and the beneficiaries of a trust, respectively, and the honeybee losses of the receiver or trustee shall be considered to be the honeybee losses of the persons he represents. Program documents executed by any such person will be accepted only if such person has authority to sign the applicable documents, and such documents are otherwise legally valid.

(b) A minor who is a beekeeper shall be eligible for indemnity payments only if he meets one of the following requirements; (1) The rights of majority have been conferred on him by court proceedings or by statute; (2) a guardian has been appointed to manage his property and the applicable program documents are signed by the guardian; or (3) a bond is furnished under which the surety guarantees any loss incurred for which the minor would be liable had he been an adult.

§ 760.115 Setoffs.

(a) If any indebtedness of the beekeeper to any agency of the United States is listed on the county claims control record, indemnity payments due the beekeeper under the regulations in this part shall be applied, as provided in the Secretary's Setoff Regulations, Part 13 of this title, to such indebtedness.

(b) Compliance with the provisions of this section shall not deprive the beekeeper of any right he would otherwise have to contest the justness of the indebtedness involved in the setoff action, either by administrative appeal or by legal action.

§ 760.116 Overdisbursement.

A beekeeper shall be personally liable for repayment of the amount by which any indemnity payment disbursed to him exceeds the amount of such payment authorized under the regulations in this subpart.

§ 760.117 Death, incompetency, or disappearance.

In the case of the death, incompetency, or disappearance of any beekeeper who is entitled to an indemnity payment, such payment may be made to the person or persons specified in the regulations contained in Part 707 of this chapter. The persons requesting such payment shall file Forms ASCS–325, "Application For Payment of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent," as provided in that part.

§ 760.118 Records, and inspection thereof.

The beekeeper, and any other person who furnishes information to such beekeeper or to the county committee to enable the beekeeper to receive an indemnity payment under this subpart, shall maintain any books, records, and accounts supporting any information furnished to the county committee, for 3 years following the end of the year during which the application for payment was filed. The beekeeper or any other person who furnishes such information to the beekeeper or to the county committee shall permit authorized representatives of the Department of Agriculture and the General Accounting Office, during regular business hours, to inspect, examine, and make copies of such books, records, and accounts.

NOTE: The reporting and/or recordkeeping requirement contained herein has been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 468]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period

V 39 110 JUN 6 74 XUM

June 7–13, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia oranges prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.768 Valencia Orange Regulation 468.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valenica oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues to be good. Prices f.o.b. averaged $3.63 per carton on a reported sales volume of 895 carlots last week, compared with an average f.o.b. price of $3.64 per carton and sales of 917 carlots a week earlier. Track and rolling supplies at 674 cars were down 28 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 4, 1974.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period June 7, 1974, through June 13, 1974, are hereby fixed as follows:

(i) District 1: 513,000 cartons;

(ii) District 2: 387,000 cartons;

(iii) District 3: Unlimited movement."

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 5, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–13173 Filed 6–5–74;11:27 am]

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1464—TOBACCO

Subpart A—Tobacco Loan Program

On April 18, 1974, there was published in the FEDERAL REGISTER (39 FR 13891) a notice of proposed rule making concerning proposed amendments to the tobacco loan program to provide (1) in the case of flue-cured tobacco, removal of compliance with acreage allotments as a condition of producer eligibility for advances and (2) increasing the fee which may be withheld from producers' advances for overhead costs of their associations from 25¢ per hundred pounds to $1 per hundred pounds. Interested persons were afforded an opportunity to file data views and recommendations thereon. Only one response was received. That response opposed the increase of the feed withheld for associations overhead expenses on the basis that farmers' production costs are increased and the tobacco program costs are modest as compared with price support program costs of other commodities. This is not considered an adequate basis for foregoing the increase and the proposed amendments are hereby adopted without change.

In addition to amending the appropriate sections to effect the proposed amendments, various other sections are hereby amended to remove obsolete provisions and to make certain editorial changes to clarify the language therein. Accordingly, Subpart A—Tobacco Loan Program of this part is hereby revised and reissued.

Subpart A—Tobacco Loan Program

Sec.
1464.1 Administration.
1464.2 Availability of price support.
1464.3 Level of price support.
1464.4 Deductions from advances.
1464.5 Interest rate and general provisions.
1464.6 Maturity date.
1464.7 Eligibile producer.
1464.8 Eligible tobacco.
1464.9 Auction warehouse certification of flue-cured tobacco.

AUTHORITY: Secs. 4 and 5, 62 Stat. 1070 as amended (15 U.S.C. 714b, 714c); secs. 101 106, 401, 403, 63 Stat. 1051, as amended, 1054, 74 Stat. 6 (7 U.S.C. 1441, 1445, 1421, 1423).

Subpart A—Tobacco Loan Program

§ 1464.1 Administration.

(a) This program will be administered by the Tobacco and Peanut Division, ASCS, under the general direction and supervision of the Executive Vice President, CCC. The program will be carried out in the field by producer associations (hereinafter referred to as "associations") acting for groups of producers. To obtain a loan, an association must enter into a loan agreement with CCC, which agreement will set forth terms and conditions prescribed by CCC. To the extent provided in the loan agreement, an association shall meet the eligibility requirements for price support prescribed in Cooperative Marketing Associations Eligibility Requirements for Price Support (Part 1425 of this chapter), as amended. CCC reserves the right to restrict the number of associations with which it will contract, and in so doing will select such associations as it deems necessary or desirable to effectuate the purposes of this program with a maximum of efficiency and economy of operation. The names of such associations may be obtained from the Tobacco and Peanut Division, ASCS, U.S. Department of Agriculture, Washington, D.C. 20250.

(b) Each year CCC will make loans to associations and the associations in turn

will make price support advances available to eligible producers either directly or through auction warehouses. The tobacco on which producers receive price support advances will be pledged as security for the loans. Loans made to associations will include not only the initial loan value of the tobacco, but also amounts to cover costs of receiving, processing, storing, and selling tobacco pledged as security for the loan, including that part of overhead costs not borne by the association pursuant to § 1464.4. Associations will be authorized to enter into contracts for these services through the usual trade channels.

§ 1464.2 Availability of price support.

(a) Subject to the provisions of paragraphs (c), (d), and (e) of this section, price support will be available for any crop of each of the following kinds of tobacco, if producers have not disapproved marketing quotas for such crop:

Flue-cured tobacco, types 11, 12, 13, and 14.
Kentucky-Tennessee Fire-cured tobacco types 22 and 23.
Virginia Fire-cured tobacco, type 21.
Virginia Sun-cured tobacco, type 37.
Dark Air-cured tobacco, types 35 and 36.
Burley tobacco, type 31.
Maryland tobacco, type 32.
Cigar filler tobacco, type 41.
Cigar filler and binder tobacco, types 42, 43, 44, 53, 54, and 55.
Puerto Rican tobacco, type 46.
Cigar binder tobacco, types 51 and 52.

(b) No price support will be available for any kind of tobacco for any year for which marketing quotas have been disapproved by growers.

(c) No price support will be available for tobacco on which pesticides containing DDT and TDE, as defined in Parts 724 and 725 of Chapter VII of this title, have been used in the field or after harvest.

(d) No price support will be available on Flue-cured or Burley tobacco which exceeds 110 percent of the effective farm marketing quota for the year in which marketed.

(e) Price support to eligible producers will be made available on eligible tobacco in the following manner:

(1) Through auction warehouses. (i) Price support will be available for tobacco offered for auction sale at auction warehouses which have contracted with an association, on a form of agreement approved by CCC, to make price support advances to producers on behalf of the association. Producers will deliver their tobacco to auction warehouses to be displayed and offered for sale at auction. The association's contracts with auction warehouses will require the auction warehouses to see that producers are informed that price support advances are available on each basket of tobacco in the auction when the final bid is less than one bid above the advances available to eligible tobacco. For Flue-cured and Burley tobacco the associations' contracts with auction warehouses will also require the auction warehouse to mark any tobacco sale bill "No Price Support" if the marketing of the pounds of tobacco covered by that bill will result in the producer marketing in excess of 110 percent of his effective farm marketing quota. Producers will generally receive the price support advances from the warehouseman for any tobacco to be consigned to the association at the time the warehouseman settles with the producer for the entire quantity of the producer's tobacco that has been displayed for inspection and offered for sale on any one day's auction market. The warehouseman will, in turn, be reimbursed by the association with funds borrowed from CCC.

(ii) Price support will be available only at warehouses where tobacco inspection service is provided by the Consumer and Marketing Service, USDA. Inspection and price support services may be extended to new markets or to additional sales on established markets in accordance with this part and Subpart A of Part 29 of this title which provides for formal public hearing prior to extension of additional services.

(iii) CCC reserves the right to direct the association to withhold a contract under the price support program from any auction warehouse for one or more years if, based on previous performance of similar contracts, or other evidence, there is substantial reason to expect that such warehouse will not fulfill the contract obligations.

(2) For flue-cured tobacco offered for sale at auction warehouses, price support will be available only on tobacco which has been designated for sale at specific warehouses by the producer under the following conditions:

(i) *Definition.* "Producer" as used in this subparagraph means the person who was issued the tobacco marketing card pursuant to Part 725 of this title.

(ii) *Producer designation of warehouses.* Producers will be required, as a condition of price support, to designate the warehouses at which they will market their tobacco. Such designations may be at any warehouse or warehouses in any market within a radius of 100 miles from the county seat of the county in which the farm is located, or if such farm is physically within two counties, then from the county seat of the county in which the county ASCS office administering that farm is located. To the extent that there are less than eight markets within such radius, any warehouse or warehouses in any of the eight markets nearest to the county seat may be designated. A producer may obtain price support only in a warehouse he has designated, and at each such warehouse only with respect to the quantity of tobacco he designated for sale at such warehouse.

(iii) *When producer designations shall be made.* Producer designations of the warehouse or warehouses at which they will market their tobacco shall be made each year during a period which shall be announced by the county ASCS office in their county prior to the start of the period. Such period shall be prior to May 31 each year, except for the 1974 crop, such period shall be prior to June 15. Producers who lease quota after such period may designate the warehouse at which the leased pounds will be marketed at the time the lease is filed at the county ASCS office. During the five workdays ending on the first Friday of each calendar month after any flue-cured marketing area has opened for inspection and sale of tobacco, producers in any part of the flue-cured production area may change their designations with respect to that portion of their tobacco then remaining to be marketed. Producers who have designated warehouses which cease to operate or cease to have tobacco inspection or price support available may change their designations of such warehouses at any time subsequent to such occurrences.

(iv) *Form and content of designations.* A designation shall be made by each producer for each warehouse at which he desires to market his tobacco by executing a form provided by the county ASCS office. The producer will be required to indicate on such form the name of the warehouse or warehouses designated by him and the pounds of flue-cured tobacco he desires to sell at each such warehouse as well as any other information requested on such form.

(v) *Issuing warehouse designation card.* The county ASCS office shall execute and furnish the producer a warehouse designation card for each warehouse which the producer designates. Changes in designation by the producer shall be accomplished by the producer returning his warehouse designation card to the county ASCS office and requesting the transfer of any unmarketed pounds of flue-cured tobacco shown on any warehouse designation card to a warehouse designation card for another eligible warehouse or warehouses.

(vi) *Use of warehouse designation cards by warehouses.* (*a*) The warehouse shall enter on the warehouse designation card the date of sale and the pounds of that producer's tobacco sold as well as any other information requested from the warehouse on such card; (*b*) A separate sale bill marked "No Price Support" shall be prepared for that quantity of tobacco weighed in that is in excess of the pounds designated as shown on the warehouse designation card; (*c*) The warehouse shall mark "No Price Support" on the sale bill for any tobacco for which the producer failed to present the warehouse a warehouse designation card.

(vii) *Availability of designation information.* Each county ASCS office shall send all designations received to the Flue-Cured Tobacco Cooperative Stabilization Corporation, Raleigh, North Carolina, following each designation period and each period for changing designations. That corporation shall inform the Flue-Cured Tobacco Advisory Committee of the pounds designated to each warehouse and the pounds of any undesignated tobacco which, for the purpose of recommending opening dates and selling schedules in accordance with Part 29 of this title, is available for apportioning for sale at each warehouse. That corporation also shall furnish each warehouse the name and address of the producers who designated the warehouse,

V 39—110 JUN 6 74 XUM

the pounds each designated and the pounds which represent 110 percent of the marketing quota of each such producer.

(viii) *Failure to comply with opening date and selling schedule by warehouses.* If on any sales day a warehouse sells tobacco in excess of that allowed by the opening date and selling schedule issued in accordance with Part 29 of this title, such excess amount shall be deducted from the quantity of tobacco authorized to be sold at that warehouse on either of the following two sales days. If such reduction in quantity of tobacco sold is not made by the warehouse within such two days, no tobacco inspection or price support shall be made available at such warehouse on the next succeeding sales day.

(3) Upon direct delivery to the Association:

(i) Eligible producers in nonauction market areas may deliver eligible tobacco to central receiving points designated by the appropriate association. Eligible producers in auction market areas who have eligible tobacco which is security for a farm storage loan obtained pursuant to Part 1421 of this chapter may, after the close of all auction markets for such kind of tobacco, including cleanup sales, deliver the tobacco to central receiving points designated by the appropriate association., After the tobacco has been graded by USDA inspectors, the producer will receive the price support advance directly from the association for any tobacco to be pledged as security for loans.

(ii) Eligible producers of flue-cured and burley tobacco may, subject to the provisions of this subdivision, obtain price support on eligible tobacco which has been packed for their account by the association and carried over from one marketing year to another to avoid marketing in excess of farm marketing quota. Price support advances obtained on such packed tobacco shall be at the rates in effect at the time of tender for loan, and on the basis of grades and quantities of the tobacco as determined at the time of delivery to the association for packing and carryover. If all the tobacco packed from the tobacco delivered to the association for packing and carryover is not tendered for price support, or if the packed tobacco tendered for price support is commingled tobacco of different producers, the price support advances will be computed as follows: For each packed grade of tobacco, the loan value will be computed on the basis of (*a*) the total pounds of each green grade used in processing the packed quantity and (*b*) the grade loan rates applicable to such green grades. Loan advances may be obtained on the quantity of each packed grade tendered for price support in an amount equal to the loan value so determined, multiplied by the percentage which the pounds of the packed grade tendered is of the total packed weight of such grade. An individual producer's share of the loan advance obtained on the tender of any quantity of a packed grade shall be a percentage of such advance equal to the percentage which the loan value of all the tobacco delivered by the producer for packing and carryover is of the loan value of all the tobacco delivered by all producers for packing and carryover. Packed tobacco tendered for price support shall be in sound and merchantable condition and shall have been processed and packed under the standards and specifications which were applied to the tobacco received for price support during the immediately preceding crop year.

Prior to tendering packed tobacco for price support, the association shall determine what percentage of the tobacco which was received for packing and carryover is eligible. The packed tobacco tendered for price support shall not be a greater percentage of the total quantity packed than the percentage so determined.

(4) Period of price support. Price support will be available to eligible producers on eligible tobacco only during each year's normal marketing season for each kind of tobacco for which support is provided. For the purpose of this subpart, the normal marketing season for tobacco which is security for a farm storage loan and which is delivered directly to the association will include the date on which the producer is directed, pursuant to Part 1421 of this chapter, to so deliver the tobacco. Such date will be soon after the close of all markets, including cleanup sales, for the kind of tobacco delivered.

§ 1464.3 Level of price support.

The level of price support of eligible producers shall be as required by statute. For each crop of any kind of tobacco the level of price support shall be determined by multiplying the support level of the 1959 crop or, if marketing quotas were disapproved for the 1959 crop, the level at which the 1959 crop would have been supported if marketing quotas had been in effect, by the ratio of (a) the average index of prices paid by farmers, as defined in section 301(a)(1)(C) of the Agricultural Adjustment Act of 1938, for the three calendar years immediately preceding the calendar year in which the marketing year begins for the crop for which the support level is being determined to (b) the average index of such prices paid by farmers for the 1959 calendar year. Generally, the price support level for each kind of tobacco will be announced soon after the beginning of each calendar year. Schedules of loan rates, by types and grades for each kind of tobacco will be announced as supplements to this statement before the opening of the markets. Flue-cured tobacco of varieties Coker 139, Coker 140, Coker 316, Reams 64, and Dixie Bright 244, or a mixture or strain of such seed varieties or any breeding line of Flue-cured tobacco seed varieties, including, but not limited to, 187 Golden Wilt (also designated by such names as No-Name, XYZ, Mortgage Lifter, Super XYZ), having the quality and chemical characteristics of the seed varieties designated as Coker 139, Coker 140, Coker 316, Reams 64, or Dixie Bright 244 will be supported at one-half the support rate, plus 50 cents, for comparable grades of acceptable varieties.

§ 1464.4 Deductions from advances.

(a) The associations will be required to bear a portion of the overhead costs in connection with the loan operation. For this purpose, the associations in the auction marketing areas may charge the producer a fee of $1 per hundred pounds and may make such other charges as may be authorized or approved by CCC. In the nonauction market areas, the fee will be established at a rate commensurate with the services performed by the associations. Such fees and charges may be collected by a deduction from the advance made to the producer on his tobacco or by arrangements with auction warehousemen under which they will collect such charges and remit to the associations.

(b) If any producer on a farm is indebted to the United States and such indebtedness is listed on the Claim Control Record, Form ASCS-604, the Government will effect collection of the amount of the indebtedness by setoff from the amount of price support advance due the producer in the following manner: Any marketing card covering tobacco eligible for price support issued for such farm in accordance with the applicable regulations issued by the Secretary of Agriculture with respect to marketing quotas (Parts 724 and 725 of this title) will bear a notation showing the indebtedness, the name of the debtor and the amount of the indebtedness. The acceptance and use of a marketing card bearing a notation of indebtedness to the United States by the producer named as debtor on such card will constitute an authorization by such producer to any tobacco warehouseman or association to pay to the United States the price support advance due the producer to the extent of his indebtedness set forth on such card but not to exceed that portion of the price support advance remaining after deduction of usual warehouse and authorized price support charges and amounts due prior lienholders. The acceptance and use of a marketing card bearing a notation and information of indebtedness to the United States will not constitute a waiver of any right of the producer to contest the validity of such indebtedness by appropriate administrative appeal or legal action.

(c) If any producer is indebted to the United States for a farm storage loan obtained pursuant to Part 1421 of this chapter, the principal amount of such loan will be deducted from the price support advance paid the producer by the association and will be applied to repayment of the farm storage loan.

§ 1464.5 Interest rate and general provisions.

The loans made to the associations will bear interest at the rate announced by CCC for each crop and will be nonrecourse both as to principal and interest except in the case of misrepresentation, fraud or failure to carry out the loan agreement. In instances where the loan to the association is made on a quantity of tobacco on which a farm storage loan had been made, any unpaid interest applicable to the farm storage loan on such quantity of tobacco will not be collected from the producer who obtained the farm storage loan but will be added to the accrued interest of the loan made to the association. Tobacco loses its identity as to original ownership through commingling in the packing process, and individual producers may not redeem their tobacco once it has been pledged as security for the loan. Associations will sell the loan tobacco as provided in the loan agreements for each crop, and the net proceeds of sales of the loan collateral of each crop will be applied to the loan account for such crop until the loan is repaid in full. If the proceeds from the sale of the loan collateral of any crop exceed (a) the amount of the loan plus all fees, handling charges, operating costs and interest; and (b) any amount due CCC under a barter transfer agreement entered into between CCC and the association, such excess shall constitute "net gains" and shall be distributed in cash by the association to the producers who placed the tobacco under loan unless other disposition is approved by CCC.

§ 1464.6 Maturity date.

Loans made under the program will mature on demand.

§ 1464.7 Eligible producer.
